New Anglo-Irish Trade Agreement

BRITISH COAL FOR FREE STATE CATTLE

Important Development

SIGNIFICANT STEP IN DIRECTION OF RESTORED AMITY

What is believed to be an important step towards the settlement of the Anglo-Irish dispute is the conclusion of an economic agreement between Britain and the Free State. This provides that the Irish Free State will take more British coal in return for which Britain will import more Free State cattle. The exchange will not be subject to the duties imposed as a consequence of the land annuities dispute.

Aid for Distressed Areas

The agreement which is the result of protracted negotiations is expected to have a salutary effect on the coal industry and will be particularly helpful to some of the depressed areas in Britain.

Mr. German Coal

A further clause of the agreement will be the cessation of the import of coal from Germany and Poland as the result of the coal annuities dispute.

STEAMER SUNK NEAR N. YORK

Nearly Cut in Two by Collision

No Deaths

PASSENGERS PLUNGE INTO ICE RIVER

Following a collision in the East Bay between the Colonial Mailer Company's steamer "Laguarda" and the Arrow Line boat, "Jasa Christensen" the former was almost cut in half and sank within ten minutes. A makeshift hospital was established on the Mackintosh shore and doctors were rushed to the spot from the Bellevue Hospital.

Wanted Confession

Some of the women survivors said that the whole confusion had prevailed. A female nurse occurred after the ship had passed the buoy and was lost in the "General Bloomer" disaster in June, 1904.

All Saved

It is believed that there were no fatalities either amongst the crew or the passengers of the "Laguarda" and the captain definitely states that all were saved.

"What do you get there?" "A few more gold certificates."

"What do you know about the Lindbergh kidnapping?" "I know nothing at all about the Lindbergh kidnapping."

such as the status of Italians in Tunis, certain colonial frontier immunities, and a guarantee of the independence of Austria by means of a Central European Pact, to which Britain, Romania and Turkey will not be admitted.

After the meeting at Rome, Mr. Brien, who had been in London to report on the results of the meeting, said that the negotiations were held up by the 24 hours owing to the fact that Austria was reluctant to agree to any guarantee of independence by her Balkan neighbors.

It is officially stated here that Justice Gwynne will be presiding at the trial of Hauptmann and Lindbergh in the Federal Court at New York.

Improving Finances of Zanzibar

CIVIL SERVICE LEVY ON SALARIES ABOLISHED

Taxation Relief

AGRICULTURE REGARDED AS BASIS OF FUTURE PROSPERITY

Optimism in respect of 1935 was displayed by the British Resident of Zanzibar, Sir Richard Haskine in a recent address to the Legislative Council. "He considers that the worst of the depression is over and that great stress on the importance of co-operation among all interests in following a new agricultural policy."

Sir Richard announced that in view of the improved financial position the levy on Civil Service salaries will be withdrawn at the end of 1934 and relief in taxation given to all sections of the community by reduced import duties on foodstuffs and cigarettes, by reductions of trade licence fees for country shops and by a decrease in air mail letter charges.

He gave an assurance that it is not the policy of his Government to discriminate between borrowers and lenders and to be expressed doubts whether the amount of trade was adequate now or in the future to provide sufficient profit for so large an Indian trading community as is now represented in Zanzibar.

or understood that the future prosperity of Zanzibar depended upon successful cultivation of the soil. It is not surprising that the Government and the new State had thought of the establishment of manufacturing industries of any appreciable value. The outgoing trade for many years a valuable addition to the country's revenue had dwindled with the development of plantation crops that were cultivated for the future to an extent which could not satisfactorily either to the people or the trading community of the country. Trade would not have prospered or expanded unless agriculture was conducted and extended on sound lines. Trade today was conducted mainly by the members of the Indian community and there was no doubt that a steady effort continued to be conducted. Without the present or the probable future amount of trade described as it is among no large a trading community as the one which had reasonable prospects of industrial property at least commercial and some cases even to be successfully introduced as well as to the Government.

Demonstration of Unity of Nazism

EMERGENCY MEETING CALLED IN BERLIN

Extraordinary Precautions

["Economic service's agency."]

BERLIN, January 3.

Herr Hitler and his two lieutenants, General Goering and Herr Rudolf Hess are attending a meeting at the State Opera House here this afternoon which has been hurriedly arranged in order to demonstrate to the party that there is complete Cabinet and party unity. Party leaders and Secret Police chiefs throughout the country will attend, many having been recalled to duty from their holidays for the purpose.

During the hours between 3 p.m. and midnight aeroplanes have been forbidden to fly over the capital and the regular air mail traffic must take specially designated routes both on arrival and departure.

LINED WITH TROOPS.

The entire route from Herr Hitler's palace on Wilhelmstrasse to the Opera House will be lined by 10,000 Storm Troopers and Black Guards while hundreds of police are now engaged clearing Wilhelmstrasse and Unter den Linden of all traffic. Motor cars will not be allowed to stand on the route along which Herr Hitler is passing and many of the public still unaware of the nature of the meeting, are being kept out of the way.

The meeting is officially described as a "State act" and is expected to last for several hours. General Goering will read a manifesto on behalf of Herr Hitler which will also address the meeting which is intended to be a demonstration of the unity of Nazism to the whole world.

Co-operation Imperative

["Economic" communication.]

Zanzibar (by mail). An interesting and important statement on the problem of agricultural co-operation in Zanzibar was made by His Excellency the British Resident at a meeting of the Legislative Council last evening.

It will be recalled that following the issue of a series of new measures dealing with the use of the land in the country and the marketing of their products, various proposals were made by the Indian community as a result of which the Government of India was compelled to withdraw its proposals. The Zanzibar people also attached themselves to the proposals of the Government of India and to the proposals of the Government of India.

A Budget Speech

The Hon. Mr. Duttaraj spoke the words in his budget speech that he would like to see that Zanzibar should be in a position to take full advantage of the tax income available to it. He said that the Government of India was a donor and that the Government of India was a donor and that the Government of India was a donor.

In a Reference Made by the Director of Agriculture to the Legislative Council by Mr. C. D. King, M.P.

Mr. King, M.P., in his reference to the various committees which have been set up to deal with the various aspects of the agricultural problem in Zanzibar, said that the Government of India was a donor and that the Government of India was a donor.

Unrestricted Marketing

It is evident, the Hon. Member continued, that the price likely to be paid for cloves would not justify a maintenance of the conditions which obtain in the industry. The Hon. Member said that the Government of India was a donor and that the Government of India was a donor.

A PROPERTY THAT WAS ALMOST ABANDONED

Dr. Paterson's Geological Review

ENCOURAGING PROGRESS REPORTS ON THE PROPERTIES OF KENYA AND MINERAL CEAR

Kenya and Kimmung East Africa Mining
 A LETTER FROM LONDON
 E. A. Colfield and New Capital

THE EAST AFRICAN STANDARD

The romance of Roseman, a property that was almost abandoned, is a story of discovery and perseverance. The property, which was once considered a lost cause, has now been found to contain valuable mineral resources. The discovery was made by Dr. Paterson, whose geological review has provided a detailed account of the findings. The property is now being developed, and it is expected that the discovery will lead to significant economic growth in the region.

A FEW SUGGESTIONS

It is suggested that the Government should consider the following suggestions regarding the development of the mineral resources of Kenya. The first suggestion is that the Government should establish a central authority to coordinate the activities of the various mining companies. The second suggestion is that the Government should provide financial assistance to the companies to enable them to carry out their operations more effectively. The third suggestion is that the Government should encourage the companies to invest in the local economy, thereby creating jobs and increasing the standard of living.

PARTNERSHIP PROPERTIES

The Partnership Properties of Kenya are a group of properties that are owned by a partnership of individuals. The properties are located in various parts of Kenya and are being developed for agricultural and commercial purposes. The partnership has been successful in securing the necessary funds to develop the properties, and it is expected that the development will be completed in the near future.

It is expected that the mining industry will continue to play a major role in the development of Kenya.

THE MINING PROSPECT

The mining prospect in Kenya is bright and promising. The discovery of gold and other mineral resources has opened up new opportunities for economic growth and development. ROAD AND WEATHER REPORT

Mr. G. J. Taylor writes as follows:— The weather this week has been hot and dry practically all over East Africa; Tanganyika has reported some heavy showers and the same appears in certain parts of Uganda. In the Kenya Highlands it has been exceptionally hot this week and practically the only rain to be recorded were some heavy showers at Kenia which registered 1½ inches. Soy and Kapsood 7½ inches, Eldoret 1 inch and Mombasa three quarters of an inch. From Mombasa to Kisumu the whole of the country is really very dry and parched, but I was greatly surprised in some days ago to find how this usually had action had been improved. The following is the state of country roads as per telegraphic information received:— Nairobi to (dir)—Kisumu—Passable. Nairobi—Kapsood—Good. Kapsood—Voi—Good. Voi—Mombasa—Good. Mombasa—Tanga—Fair. "Love's old sweet song" which will be presented in the new programme at the Theatre Royal this evening, is a romantic drama with a good plot and crowd pull, and staged during the first series in rural England—a typical farm household—by Motley, and the song is sung by a very sweet singer, Joan Wendham, who plays the part of a young girl, and the song is sung by Mary Dean. Radio and concert artist. Romance begins in the farmhouse Jimmy Craft falls deeply in love with Mary Dean, and for the moment all goes smoothly. But fate intervenes in the person of Mary's London Manager who comes armed with an important Radio engagement. The temptation proves too powerful and Mary returns with her fiancé. Jimmy Craft, however, does not give up. The counter-plot develops, and there are quite unexpected and well built-up dramatic scenes. For a time throughout the film is excellent, and the occasional faults which were evident when the Theatre Royal was first opened as a cinema have been entirely eliminated. Singing and speech are clear throughout. This is a good British Talkie which should be popular.

THE ECONOMY COMMITTEE
A LEAVE MORATORIUM
 To the Editor "E.A. Standard,"
 Sir—May I be allowed, through the medium of your paper, to suggest to the Economy Committee a way in which savings might be effected in 1935?
 If all leave passages to England during 1935, and possibly 1936, were cancelled, would not the amount saved reach quite a considerable sum? In addition, money that normally would be spent at Home would be circulated in Kenya, to the great benefit of trade in general and dress shops in particular.
 I submit that this would be hard line on Government officials who would thus be forced to live a maximum of six years in Kenya without Home leave.

TAX ON DOCTORS
 To the Editor, "E.A. Standard,"
 Sir—I would like to say a few words in connection with the Proposed Tax following upon Dr. Cooper's letter and your editorial leading article today.
 The Medical Council admitted that it would be a case of hypocrisy and double standard "Lapses" in regard to the affliction of this tax on the medical profession. We doctors and dentists are already licensed by the various examining bodies under the control of the General Medical Council. We have paid very high fees for this licence and in addition, we have paid "registration" fees to the local Government which has issued to each of us a title to practice in Kenya under the Medical Practitioners and Dentists Ordinance, 1910.
 I think this 1910 Ordinance has been cancelled or amended to make way for the present Bill, if

For evidence, a number of recent provisions can be cited. I do not wish to blame the Police, with whom the application of the Ordinance rests. It is in due to certain lapses in the Ordinance, the real function of the Ordinance is not maintained. In fact, the Ordinance is only a piece of paper. I am sending only the Ordinance to the printer, and the Ordinance is not in force. The Ordinance is not in force. The Ordinance is not in force.

Mr. R. F. Mayer

We would, on behalf of the Chess players of Kenya, extend our participation in the general spirit of service and about that throughout East Africa at the passing of Mr. Mayer. A little more than twenty three years ago, when after I arrived in Nairobi, Mr. Mayer said to me "We are setting out some chess type, would you like to see it?" Chess Column in "The Paper" I said I would try and so this column began. He said to me as we were talking in the Royal Hotel, enjoying a friendly encounter, "What a brilliant tactician you are in a match. Mr. Mayer has done a great deal for Chess in East Africa. Without his assistance and encouragement, our column would be nothing more than a shadow of the old Chess Columns which have since and gone by at least three of the leading South African Newspapers during the last quarter of a century. Mr. Mayer's artistic powers were always to be remarkable ability to take splendid photographs with an antique and very

slightly lustrous Kodak. He would wander round Kodak boxes above and take, quietly securing fine pictures before these concerned had time to get on the usual stilted "photographic" expression. For many years my photos which found their way into "The Paper" were submitted to the "Old Man's" expert knowledge of "process" work, so that reproductions in the "East African Standard" have always been first class. He had an uncanny instinct for what would make a good picture in "The Paper" and what would not. This principle applied in every detail of the get up and nothing was ever allowed to appear in "The Paper" if it fell below the standard he set. Long after his "retirement" his power was felt behind the scenes, for he was rarely a great man and his bias to East Africa has set for himself.

The last striking testimony to his character was the peculiar fondness of everyone who worked for him. He never let his criticisms dawn and they always lay in the truth of the familiar phrase "What the Old Man says, goes." He has passed on and the organization he built remains. In testifying to his family and to the "Paper" that the users sympathy of the Chess Players ought to be kept forward with confidence to his continuation which the board shall be most grateful and most permanent conditions.

QUEEN'S GAMBIT DECLINED. The move was accepted the first brilliant prize in the tournament for the champions of Ireland. It is questionable for the chess expatriation of the move was a masterpiece of the winning game at the 8th move, see the notes thereon.

Tension Growing in the Saar

GETTING READY FOR THE PLEBISCITE

Elaborate Precautions

VOTERS FORBIDDEN TO TALK AT POLLING BOOTHS

With less than a week to wait for the Plebiscite which will determine the future of the Saar, tension is growing in the territory.

The authorities are taking elaborate precautions to guard against disturbances and special instructions have been issued for the conduct of the poll.

Meetings of rival bodies are fixed at different times and on opposite sides of the river.

No "Heil Hitler"

Each polling station will be controlled by a foreigner. Each voter will send his paper in an envelope and hand it to the presiding officer who will seal it in another envelope before depositing it in a box.

Speculation at present centres on the size of a stable group of 500,000. The plebiscite is estimated to cost the Saar Government 10,000,000 marks.

Warning to Troops

The police authorities have instructed the troops to act with the utmost discretion, to be prepared but to remain as far as possible out of sight.

Publicists were made to dance on their heels the polling booths are being especially guarded against "Heil Hitler" shouts. Troops must they tell how they are voting. While in the polling booth they must surrender their ballot papers and keep a still tongue regarding opinion on the Plebiscite.

Rival Meeting

All the local public gatherings on days to be held in the Saar will be supervised by French and German forces. The most serious moment is expected to be the French plebiscite which, as a further precaution, will be held at different times and on opposite sides of the river. All uniforms and flags are banned.

DEFENCES OF AUSTRALIA AND N. ZEALAND

Hankey Recommendations to be Implemented

A £20,000,000 TERM

Active steps are being taken to improve the defences of Australia and New Zealand following the visit of Sir Maurice Hankey.

It is stated from Melbourne that the Government is proceeding promptly to implement Sir Hankey's recommendations including the standardisation of railway gauges at a cost of £20,000,000.

It is reported from Wellington that Major-General Sir Clair Ferguson has accepted an extension of his term of office as Chief of the General Staff to facilitate the extensive modernisation of defences.

WATERLOO STATION IMPROVEMENTS

Big Scheme to Expedite Heavy Traffic

By Wireless, Jan. 5

A big scheme of engineering improvements in the handling of trains at and between Waterloo Station, one of the principal termini in London, and at Southam Station, has been approved and will be of great benefit to millions of passengers using the suburban electric trains.

At present, owing to the bottleneck approach to Waterloo, a complicated system of cross-over-tracks has to be used.

The new scheme will provide for "by over" and will enable three-pole lines to be made between Waterloo and Southam. Waterloo will greatly increase the track capacity, providing a margin which will be particularly valuable during the peak London period and will still leave traffic at busy day-times.—British Official Wireless Service.

For a team still unbroken away an extraordinary record at this time of the season—Standard's team from a victory. They were defeated at Roker Park on the previous Saturday—by a Liverpool side who had lost only once in the first 18 to the Arsenal at Sheffield.

France and Italy in Complete Accord

SHARP STRUGGLE OVER LAND IN NORTHERN AFRICA

War Reward Claimed

VITAL AGREEMENTS EMBODIED IN FOUR MAIN DOCUMENTS

Following a sharp but good-natured tussle lasting several hours and concerned principally with Italy's desire for more land in Africa, complete agreement on the questions under discussion by Signor Mussolini and M. Laval was reached late on Sunday night.

The agreement is embodied in four documents dealing respectively with views on general policy; a convention advising Central European States to respect existing frontiers; a guarantee of Austrian independence; and a convention regulating colonial problems in Northern Africa.

The Colonial Problem

The Italian claims are based on the results of African campaigns since the Italian invasion of Abyssinia in 1935. CORRESPONDENCE

The Editor does not accept responsibility for the views expressed in these columns and in all cases the names and address of the writer must accompany a letter, and necessarily for publication but a guarantee of good faith. Briefly it also essential to cover consideration.

THE ECONOMY COMMITTEE

To the Editor "E.A. Standard": Sir—Mr. Blus in his letter states: "It is only by using the truth, however disagreeable, that we are likely to release our Colony's financial position." I am gratified by this statement, but I believe that it is very essential to see wonderful developments in many ways.

I have also come to the conclusion that the financial position would be better, if we got down to a more equitable basis of taxation and that kind of taxation. Income Tax is opposed to the interests of the masses of the people. Last year I supported the alternative forms of taxation, but having seen its working in actual operation, and the unfair incidence, I am now in favour of the present system.

What about the shopkeepers, who are called upon to pay this tax? It is a Government trading business and the shopkeepers are the ones who are doing the work and probably under the tax they would be able to pay the tax.

Also, the fact that the Government is called upon to pay this tax, is a very serious matter. It is a Government trading business and the shopkeepers are the ones who are doing the work and probably under the tax they would be able to pay the tax.

Also, the fact that the Government is called upon to pay this tax, is a very serious matter. It is a Government trading business and the shopkeepers are the ones who are doing the work and probably under the tax they would be able to pay the tax.

What about the shopkeepers, who are called upon to pay this tax? It is a Government trading business and the shopkeepers are the ones who are doing the work and probably under the tax they would be able to pay the tax.

In its manifesto "New Kenya". Yes, by all means save Kenya from a premature hand to the policy of the "Elected Members." I am a holder in Government securities, but I must have an efficient machine to run the country. The trend of civilization is towards an increase of dependence on public services by every citizen, and that is no exception to the rule. It may be a popular cry to attack the Government, but I must have an efficient machine to run the country. The trend of civilization is towards an increase of dependence on public services by every citizen, and that is no exception to the rule.

MUNICIPAL EXPENDITURE

To the Editor "E.A. Standard": Sir—In a recent issue of your paper there appeared a report that the Municipal Council had agreed to pay a fee of 500 for an undertaking to have a survey of the levels of the proposed new water works. I understand that a retired staff officer has been given the job.

When economy is the watchword the payment of a fee of 500 for a fortnight's work is a waste of public money. If the Kenya and Uganda Railway or the Public Works Department had been approached, it is very likely that an experienced Surveyor and Leveller could have been obtained on loan for a small fee. I know that there are several competent and reliable Indian Surveyors on the Railway staff capable of running a level of accuracy.

To the Editor "E.A. Standard": Sir—Eighteen months ago the Government, however, offered these terms: a general debate in which they might uphold their position, and taxation was increased accordingly.

Last December the Elected Members again insisted that taxation should be reduced. I believe many people besides myself hoped that 1935 would prove to be a year of economic untidiness, unbalanced and unimproved.

Now, since the Government has stepped in and offered us a Committee instead. I am sure that the Committee will do all that is in its power to reduce our tax burden. I believe many people besides myself hoped that 1935 would prove to be a year of economic untidiness, unbalanced and unimproved.

THE COFFEE CROP ESTIMATE

To the Editor "E.A. Standard": Sir—In your paper of 4th inst. the Department of Agriculture's Crop Report is published for coffee by districts.

If it is all so unimpressive as that for Dunga Sabaki district, it is not much news. The estimated crop for the district is given as 230 tons. I know for a fact that the crop actually picked (not estimated) on six estates alone amounts to 400 tons.

Yours etc., DUNGA SABAKI, January 8, 1935.

Mr. Clay's letter was referred to the Agricultural Department where it is suggested that our respective has perhaps overlooked the new geographical divisions now used in connexion with crop reports. A map was furnished by the Department with the September crop statement. It is suggested that Mr. Clay may have erroneously included the southern part of Makuyu-Ithanga in what is known for reporting purposes as "Dunga Sabaki".

The area "Dunga Sabaki" is a very small division of 2,500 acres of coffee and does not include the large area to the north. The actual yield last year from "Dunga Sabaki" was 100 tons. There are only six coffee plantations in the whole area. Mr. Clay is invited to check his district boundaries which those adopted by the Forest Officer and the Department.—Ed. E.A.S.

KENYA FINANCE

Capt. Schwartz's Letter to "Truth"

London, Jan. 7. — The following appears in "Truth":

Herbert was made last week in the Budget deficit in Kenya. The Government's statement that the tax adopted as an alternative to a 100,000 against the 100,000 was a mistake. As to this, Mr. H. E. Schwartz, an elected member of the Legislative Council now in London, has written me a letter from which I take the following note:

Real Reason Behind Berlin Meeting

DEMAND FOR ENQUIRY INTO DEATH OF EX-CHANCELLOR

A Matter of Honour

It is now revealed that the hastily summoned meeting in Berlin last week, announced as a demonstration of the unity of Nazism, was more truly concerned with a demand for an enquiry into the death of General von Schleicher and his wife in the disturbances at the end of June.

Another evidence that all is not so tranquil in Germany as has been announced officially is the formation by Herr Hitler of a new regiment for use against internal foes.

A Secret Investigation

London, Jan. 7. — There is little doubt that the official investigation will be conducted in secrecy and the report will be confidential.

It will be recalled that at the time of the revolt by the "Steel Troops," General von Schleicher's death was "officially" attributed to an "accident" while he was in a motor car.
