## MORE FARMS TO BE BOUGHT

### Land Bank gets extra money for loans

### money for loans

Plans for the purchase of more European farms for settlement within a few weeks, the Minister for Land Settlement, Mr. M. Havelock, told the annual conference of the Kenya National Farmers' Association yesterday. Those for the third and fourth years would be ready by the middle of next year.

The conference also heard that extra money was to be made available to the Land Bank for the purchase of new farms and that the chairman of the Central Land Board was to be appointed in the country at the end of the year.

The chairman of the C.L.B., Mr. J. P. Ward, said that Kenya had a great potential to control the bacterial wilt disease in its growing areas.

There was better news from the Minister for Agriculture, Mr. Havelock, who told the conference that the Government was to continue to purchase farms in Kenya for settlement within a few weeks. He said that the Government was to purchase 100,000 acres on the coast and 25,000 acres in the interior during the next two years.

## LOST!

Peace of mind. Making a 'street smarts' deal for a used car? Don't let it be worth the candle. For a used car at the right price and in the best (which also means safest) condition, deal only with reputable motor dealers. Price tags on the cars indicate to put them in the finest possible condition and, in many cases, sound guarantees — all these points, minus a fair deal for the motorist — and you'll find them at any MOTOR MART Ltd Car Centre.

# ANOTHER GOOD WEEK ON NAIROBI EXCHANGE

## Brighter business outlook cheers City buyers

ALTHOUGH the volume of business on Nairobi Stock Exchange last week was slightly lower than last week, the undertone remained cheerful.

In the Treasury account City moved up 48 cts. to 2/10 1/2 bid. The East African Treasury was offered by the Government at 1/9 1/2. The volume of business in the Treasury account was slightly lower than last week, but the undertone remained cheerful.

At the close of the week the market was 2/10 1/2 bid, but the East African Treasury was offered by the Government at 1/9 1/2. The volume of business in the Treasury account was slightly lower than last week, but the undertone remained cheerful.

WEEKEND'S firm tone was being maintained on the London Stock Exchange yesterday, but the pace of the advance had slackened somewhat. Sterling was still fairly well maintained, particularly the longer British Government securities.

City buyers were cheerful about the outlook for the year, and the market was 2/10 1/2 bid, but the East African Treasury was offered by the Government at 1/9 1/2.

## U.N. AID FOR £500,000 TANA RIVER SURVEY

MORE than £500,000 is to be spent on a three-year survey of the irrigation potential of the Lower Tana River Basin. The cost will be met by a grant of £215,000 from the U.N. Special Fund while the Kenya Government contribution will be £285,000. The survey will be directed by the U.N. Food and Agriculture Organization as the executing agency for the Fund. It has been on a short visit to Kenya, as a major project the result of which will be such that at least partial development would follow later.

Mr. de Vries said the Special Fund was the Lower Tana River Basin for the purpose of providing irrigation water to the area. The U.N. Food and Agriculture Organization is the main body responsible for the survey. The U.N. Special Fund is a joint venture between the Kenya Government and the U.N. Food and Agriculture Organization as the executing agency for the Fund. # WEEK-END STANDARD A TOURIST REPORT ON SOUTH AFRICA

By Penelope Styles

**A YEAR** ago you had never heard of the Blue Train. Now they are doing for their health, they would probably have travelled to U.S., Canada, Mexico, or South America.

South Africa has been one of the most popular tourist destinations in the world for many years. It is a country of great beauty, with a climate that is just what you need for a holiday. The Blue Train is a luxury service that has been running since 1927. It is the only train in the world that runs between Cape Town and Johannesburg.

From the moment you arrive at the station in Cape Town, you will be treated to the finest service. The train is a masterpiece of design, with a dining car that is a work of art. The Blue Train is a true luxury service, and it is well worth the extra cost.

Mother ostrich has for the nest (over-mode) and father guards the eggs before sitting down and covering them with his wings.

## Full board costs only 28s. a day

There has been a great deal of talk about the cost of living in South Africa. It is true that the cost of living has risen, but it is not as high as it is often said to be. A full board, which includes breakfast, lunch, and dinner, can be had for only 28s. a day. This is a very reasonable price for the quality of the food and the service.

**AIR SERVICES**  
The Blue Train is a luxury service, but it is also a very convenient one. It has a very good air service, which makes it a very popular choice for tourists. The train is very comfortable, and the service is excellent. It is a true luxury service, and it is well worth the extra cost.

**WINE TRADE**  
The wine trade in South Africa is a very important one. It is a industry that has been growing rapidly in recent years. The wine is of a very high quality, and it is well known throughout the world. The wine trade is a very important part of the South African economy.

**DUST-FREE**  
The Blue Train is a dust-free train. It is a very important feature of the train, as it ensures that the passengers are comfortable and healthy. The train is very clean, and the service is excellent. It is a true luxury service, and it is well worth the extra cost.

# AGATHA CHRISTIE THRILLER ADDS SPICE TO LIGHT MENU

THE new film from the British screen, "Agatha Christie's Mystery of the Blue Train," adds a touch of spice to the light menu of the cinema.

The film, which is based on the novel by the famous English writer, is a thriller that is both intelligent and entertaining. It tells the story of a murder on a train, and the investigation that follows.

## PROMISING FIRST PLAY BY AN EAST AFRICAN

THE performance of James Ngugi's "The Black Heron" at the National Theatre, Kampala, is a promising first play by an East African.

The play, which is written by the young writer, is a drama that deals with the lives of a group of people in a village. It is a play that is both powerful and moving.

## Notes from the set

Notes from the set of the film "Pearl Harbour" include reports on the progress of the production and the challenges faced by the crew.

The film, which is directed by Michael Bay, is a war epic that tells the story of the attack on Pearl Harbour. It is a film that is both epic and intimate.

## AMERICANS - AS THEY SEE THEMSELVES

It is a funny thing about Americans - why can we always recognize them. Whether they conform to the popular, out-fashioned image of a fast-talking wage-earner with a corner under a lampshade or a stout suit with a fringe shape, Dugby notes and a leading beauty hand-painted on the face, they are quiet American, grey-haired old gentlemen with an experimental dignity - they are unrecognizable. They do not have the 'spunkiness' that characterizes the English, in particular, are so

# Big Nakuru tourney is best yet

## BAHREIN BOXERS' DEBUT

The Nakuru Amateur Boxing Club is hoping for a maximum crowd tomorrow night for the second definitive tournament it has held. A Nakuru Club subject, recruited by five boxers from the Gordon High School at Gilgil, and one each from Eldoret and Kisumu.

The tourney, which is the club's first of the kind, will be held in the grounds of Army post between 7 and 10 p.m. on the 22nd and 23rd inst. The club hopes to attract a large crowd of civilians and soldiers and every tournament must justify the club's existence. The club does not have a regular programme of boxing, and since it is a club with a limited capacity, it is not possible to hold a large tournament.

The Nakuru Club is a member of the Kenya Amateur Boxing Association and is one of the few clubs in the country which has a regular programme of boxing. The club is now open to all comers and is holding its first tournament since the formation of the Kenya Amateur Boxing Association.

Peter Poch at Kilim, held the tournament for the first time in the history of the club.

## Mr. Sandys persuades leaders to meet

**PRESIDENT AYUB KHAN of Pakistan and Mr. Nehru of India have agreed to talk "at an early date" and it was announced in Rawalpindi this afternoon that the talks will begin at ministerial level in the way for later meetings between the two leaders. An official communique said the aim was to "enable India and Pakistan to live in peace and friendship".**

The announcement came after the British Commonwealth Relations Secretary, Mr. Sandys, met the two leaders in their respective capitals in a series of talks. Mr. Sandys arrived back in New Delhi unexpectedly yesterday. His departure from Rawalpindi after seven hours of talks with President Ayub was shrouded in secrecy.

Mr. Sandys is thought to have taken with him President Ayub's agreement to the meeting, subject to certain preliminary conditions. Several telephone calls were made to Rawalpindi last night. Mr. Sandys' return to London was made during Mr. Sandys' stay in Rawalpindi.

During Mr. Sandys' stay in New Delhi, the Pakistan President, Secretary of State, Averil Hart, and Prime Minister, Lal Bahadur Shastri, held talks with him in the light of the changes on the Simla line border.

Mr. Sandys received a letter from the Prime Minister, Mr. Harold Wilson, on his arrival in London. He also met the Secretary of State, Mr. George Brown, and the Home Secretary, Mr. James Callaghan.

It was reported in New Delhi that Mr. Sandys had a long and friendly talk with Mr. Nehru on the Simla line border. Mr. Sandys also met Mr. Nehru's daughter, Mrs. Indira Gandhi, who is now in London.

Mr. Sandys also met Mr. Shastri in New Delhi. Mr. Shastri, who is now in London, was expected to visit London in the near future. Mr. Sandys also met Mr. Hart in New Delhi.

Mr. Sandys also met Mr. Wilson in London. Mr. Wilson, who is now in London, was expected to visit London in the near future. Mr. Sandys also met Mr. Brown in London.

# Mules supply Indian Army

INDIAN troops pressed animal transports into service to carry arms and stores over the difficult terrain of the North-East frontier Agency. The mules are carrying boxes of ammunition.

A woman soldier in India stands next to her mule, the response to an urgent appeal from the north. The animal is needed for soldiers of the Indian Army wounded in the recent fighting in the Chinese.

These mules have been trained to carry loads of up to 10 tons and are used in the North-East frontier Agency. Above, one of the mules.

## HOW DO YOU DO, SIR?

**MARK CHALERS** says about mules from Glasgow. Mules are the most useful animals in the world. They are hardy, strong, and intelligent. They are used in many parts of the world for transport and agriculture. They are also used in the military for carrying supplies and equipment.

A mule that reflects the refined taste and exacting standards of the personality behind it. The mule with the famous name and reputation is the world's only mule. It is the only mule that is practical, reliable, and of proven practical advantage (guaranteed) in any situation. It is the only mule that is practical, reliable, and of proven practical advantage (guaranteed) in any situation.

## MONK STARTS THE FIRST AIR SCHOOL FOR AFRICANS

By DEREK WATKINS

**RAGGIE** looks as if he is filled and keen as the young pilot of the biplane. He is the first African to be licensed by the British Civil Aviation Authority.

Paper Tiger comes in a big light, lines up on approach, and comes down to earth on an air-strip hand-carved on a swirl of murram dust from a primitive plane.

This is the same several times a month at Maitai Airfield, the first African airfield in the world.

These 15000 feet of altitude are not high for a pilot who has flown in the mountains of the Alps. But for an African, it is a great feat. Raggie is the first African to be licensed by the British Civil Aviation Authority. He is the first African to be licensed by the British Civil Aviation Authority.

# GEESE GUARD LONELY LITTLE OLD LADY

By ROBINA WRIGHT

In a field beside a stream stood a very little old lady. She had been engaged for a long time, but one day a little old lady came to her to tell her.

"A lonely old woman!" And they went round the village to find her. But they found someone else who was engaged to her. "It will be a strange young wedding to have."

"I will take this to the old lady," said the boy. "I will take her to the old lady's house." "It will be the grandest wedding!" The village people went to see the wedding. They saw the bride and the groom. "It will be the grandest wedding!"

# Filters add a new dimension to snaps

Filters are essential for a good photograph. They protect your lens, prevent scratches and dust, and give you a clear, sharp image. They are also essential for a good negative. They protect your negative from light, and prevent scratches and dust from getting on it.

There are many different types of filters. Some are used to protect the lens, while others are used to improve the quality of the image. Some filters are used to reduce glare, while others are used to increase contrast. Some filters are used to change the color of the image, while others are used to make it softer.

When you are choosing a filter, it is important to consider the type of photography you are doing. For example, if you are taking portraits, you may want to use a soft-focus filter. If you are taking landscape photos, you may want to use a polarizing filter to reduce glare and increase contrast.

Water damage is a major cause of damage to stamps. Water can cause the ink to bleed, the paper to become discolored, and the stamp to become unusable. It is important to take steps to prevent water damage to your stamps.

One way to prevent water damage is to store your stamps in a dry, cool place. You should also avoid handling stamps with your hands, as the moisture on your skin can damage them. You should also avoid touching stamps with your fingers, as the oils on your skin can damage them.

If you do get a stamp that has been damaged by water, there are some things you can do to try to restore it. You can try to gently wash the stamp with water, and then dry it in a cool, dry place. You can also try to use a special solution to restore the stamp.

# STAMP STORY

It may seem unlikely that a stamp collector would find a story in a stamp. However, stamps often tell a story about the history and culture of a country. They can also tell us about the people who were responsible for designing them.

One of the most interesting stories about stamps is the story of the first postage stamp. It was a small stamp from Great Britain, and it was used to pay for the mail. It was designed by Rowland Hill, and it was used for the first time in 1840.

Another interesting story is the story of the first postage stamp from the United States. It was a small stamp from Philadelphia, and it was used to pay for the mail. It was designed by William Bache, and it was used for the first time in 1776.

## COOKERY CORNER

# How a humble vegetable can join the nobility

If the vegetable world nobility is the one that has been treated most respectfully by the cook are those that are short and stout and a fibrous-looking green. The short and stout variety changes to white as it is cooked, and is familiar to the table as a vegetable. It is known as the noble vegetable.

by  
**JEAN ROBERTSON**

The French and German have certainly shown an understanding of the noble vegetable. They have worked with it for centuries and have developed a cuisine which is rich and varied. The noble vegetable is a member of the brassica family and is related to the cabbage, cauliflower, and broccoli. It is a hardy plant which grows well in a cool climate. # RIFT VALLEY RIFLE CLUBS SHOT IN ARM

Two months ago, the Valley Rifle Club had a dozen members in the dock. It has more than 100 now, and has won the title of champion rifle club in the West.

The club has a long history, having been founded in 1880. It has since then grown steadily, and has now become one of the most popular sports organizations in the West.

The club's success is due to its excellent facilities, its friendly atmosphere, and its high standards of competition. It has a large range, and is well equipped with the latest in rifle equipment.

The club's members are of all ages, and the club is open to all. It is a great place for anyone who enjoys the sport of rifle shooting.

**Debits cleared**

The club's accounts have been audited and found to be correct. All debits have been cleared, and the club is now in a sound financial position.

The club's success is a testament to the skill and dedication of its members. It is a great credit to the Valley Rifle Club, and a source of pride for all its members.

**Swimming feasts**

The club has organized a series of swimming feasts for its members. These feasts are a great opportunity for members to relax and enjoy the water.

The feasts will be held at the club's swimming pool, and will include a variety of refreshments. They are a great way to spend a hot day, and are highly recommended for all members.

**BEAN PUZZLE**

Can you solve the bean puzzle? It's a fun and challenging game that tests your logic and reasoning skills.

The puzzle involves a set of beans and a series of moves. Your goal is to rearrange the beans according to the rules of the game. It's a great way to spend some time and sharpen your mind.

# Nationalism

The Government's aim particularly in this field of economics, is to do so as effectively and as quickly as they are capable of doing so.

As a result of the Government's policy, the country will be able to produce more goods and services than it has ever done before. This will be achieved by the Government's policy of nationalisation.

The Government's policy of nationalisation is a policy of economic development. It is a policy which will enable the country to produce more goods and services than it has ever done before.

## Down the Garden Path with Countryman

### BORDER COLOUR IN PLENTY

The solvia family is at its best in the garden. These are plants that provide us with a wealth of color for our borders. There are shrubs, providing a variety of form and growing from one to six feet.

The variety features in three flowers as well as in some other colors. These plants are hardy and should be planted close together with one another and border other colors.

For the rest of the shrub border this is the variety you are in a right fix. It is a simple but effective border.

### Feeling stressed?

One of the most common causes of stress is the feeling of being overwhelmed. This can be due to a variety of factors, including work, family, and personal life.

The stress of daily life can be managed by taking time for yourself and prioritizing your tasks. This can help you feel more in control of your life.

It is important to remember that stress is a natural part of life. However, it should not be allowed to take control of you. Take steps to manage your stress and live a healthier, more balanced life.

### Damage and death

The damage caused by stress can be significant. It can lead to a variety of health problems, including high blood pressure, heart disease, and depression.

Stress can also lead to a variety of lifestyle changes, such as poor eating habits and lack of exercise. These changes can further exacerbate the health problems caused by stress.

It is important to take action to manage your stress. This can help you avoid the damage and death that stress can cause. Take control of your life and live a healthier, more balanced life.

### Mild or severe?

Stress can be either mild or severe. Mild stress is a normal part of life and can be managed with simple techniques. Severe stress, on the other hand, can be a sign of a more serious problem.

If you are experiencing severe stress, it is important to seek help. A doctor or mental health professional can provide you with the support and resources you need to manage your stress.

Remember, stress is a natural part of life. However, it should not be allowed to take control of you. Take steps to manage your stress and live a healthier, more balanced life.

KADU LEADERS TAKE FULL ADVANTAGE OF BOYCOTT BOMBSHELL

ONE of the biggest and most explosive political events which Kenya and Uganda have witnessed since the independence of East Africa, Kenya, has been the full-scale boycott of the Kenya Government by the Kadu leaders, who were determined to support Kenya's independence.

The plan was announced while Mr. Obote, the Prime Minister of Uganda, was in Kenya, but he had no part in it. It was the Kadu leaders who were responsible for the boycott.

Mr. Obote's position was a delicate one. He was the Prime Minister of Uganda, but he was also a member of the Kadu party. He had to walk a fine line between the two.

# Simple Christmas Decorations That Children Can Make

## BY HENRIETTA REDWYN

**Fig. 1.** **Wreath for the Christmas tree.** This is a very attractive wreath for the Christmas tree. It is made of paper and can be made by children of all ages. Cut about 100 strips of paper, each about 2 inches long and 1/2 inch wide. Glue the strips to the back of the wreath and glue the strips to the back of the wreath. The wreath is made of paper and can be made by children of all ages.

**Fig. 2.** **PAPER CHAINS (See Fig. 2):** Fold a piece of crepe or drawing paper each 1/2 inch wide and make cuts as you like and join them up.

**Fig. 3.** **Shows how it will come out using only a single piece of paper.**

**Fig. 4.** **TWISTED CHAIN (See Fig. 4):** This is a very easy one to make. Simply cut strips about 1/2 inch wide from off the end of a roll of crepe paper—you can do it without opening up and twist before hanging up.

**Fig. 5.** **MINIATURE CHRISTMAS TREE (See Fig. 5):** Lastly, here is a dainty little Christmas tree to make for your younger child to put beside his bed.

You need some sheets of ordinary stiff drawing paper. Fold some of them as shown in the picture, cut long the lines you have drawn. Colour the little tree and you are done. And that you can make it yourself if you stick to the lines shown.

# CITIZENSHIP AND RE-ENTRY PERMITS

**R**EMIGRANTS' Section has continued one of its special drives to assist those who have been expelled from Kenya by the United Kingdom and who wish to re-enter Kenya. It has been noted that there are a number of Kenyan-born citizens who have been expelled from the United Kingdom.

It is worth pointing out that it is not necessary for a Kenyan citizen to be a British citizen in order to obtain a passport and return to Kenya. A Kenyan citizen who has been expelled from the United Kingdom may apply for a passport and return to Kenya. The Remigrants' Section is currently processing applications for such citizens.

# SAFARI WITH SHELL LION CITY

**S**afari with Shell Lion City is a new and exciting way to explore East Africa. The safari is led by a professional guide and offers a wide range of activities. It is a great way to see the sights of East Africa.

In 1963 Stanley set out on his epic journey to find Dr. Livingstone. Starting from the coast of Bagamoyo he travelled inland. Along his route by the town of Sambumba—the Lion City—had then a population of about 300. The Lion City was founded by one Khashongo who was fleeing from the wrath of the Sultan of Zanzibar. Stanley arrived there it was being ruled by Khashongo's daughter—a more noble person. In all accounts, than her notorious father. Today the Lion City is not the wilded fortress it used to be and its importance locally has been taken over by Mt Kenya, the third largest town in Tanganyika. When one reads of the trials and tribulations of the early explorers it seems difficult to credit them in the light of one's experience today. With tarmac roads over most of the main traffic routes, fuel cars and first class fabrications and petrol available everywhere—Shell have over 60 petrol stations in East Africa—distances that often took months for early explorers can now be covered in a matter of hours. Shell partners with I.C.A., a result of many years patient research by Shell scientists, are the finest you can buy and will ensure that your motorist is trouble free in East Africa.

**EAST AFRICAN RAILWAYS & HARBOURS COMMISSION 1962**

The East African Common Services Authority has approved the setting up of a Commission to examine and recommend on certain matters relating to the East African Railways and Harbours Administration. The members are—

- (1) The standard of service, appropriate to East African conditions, which should be provided for the public, paying particular attention to the desirability of improving the existing standard of services where necessary, especially the facilities for third-class travel.
- (2) The staff structure that is necessary and appropriate in the various departments of the Administration, bearing in mind the need to limit recruitment ultimately to local sources.
- (3) Existing training schemes, and the extent, if any, to which they ought to be modified in order to achieve Africanisation of essential standards.
- (4) The most suitable salary structure for locally recruited personnel in terms of what the East African economy can afford.
- (5) The most appropriate structure of the East African Railways and Harbours to give the most expeditious effect to the carrying out of its recommendations.

Any person who has an interest in these matters may make representations to the Commission either in writing or orally. Representations should be addressed to—

The Joint Secretaries  
 East African Railways and Harbours Commission 1962  
 P. O. Box 3012  
 NAIROBI

was to reach them not later than 9 a.m. on 28th December, 1962.

In the case of requests to make oral representations, the nature of the evidence which it is proposed to give should be briefly stated.

# Medals won on playing fields of Kenya

DISPITE a series of delays, Kenya's Commonwealth Games team returned to Nairobi yesterday just one day late to receive an enthusiastic welcome at the City Hall.

A large crowd went to applaud the members of the team as they drove up to the City Hall in the sound of a special welcoming fanfare played by the band of the Kenya Police.

Following the tour back the Mayor of Nairobi, Ald. Charles Kibaki, said that the medals they had won were a useful set of trophies and remembering that they had won by a handful of men, who trained and played on the provincial abandoned Kenya field every night to a point of death.

Special messages were sent to the women's team on the performance on one of the medals awarded, but the rest of the team showed up those who did not win medals. The Commonwealth team you will see that they are not yet an elite team, but they are a team which will give the world a good show.

"Wherever I go, I am making a good impression," said the team captain, Mr. J. M. Kibaki, who said that the medals they had won were a useful set of trophies and remembering that they had won by a handful of men, who trained and played on the provincial abandoned Kenya field every night to a point of death.

## SCOUTS SHOW PACES

KENYA's Scouts and Guides have been busy with their annual camp... They are undertaking a series of projects... They are undertaking a series of projects...

Diana Leslie Whately, director of the London Bureau of the World Association of Girl Guides and Girl Scouts, visited the Mayor's Parlour where she was entertained to tea by the Mayress of Nairobi, Mrs. Rubin. Accompanying Diana Leslie were a number of Nairobi Girl Guides who were shown over the City Hall. Afterwards, Dame Leslie, who is on a three-months tour of East and Central Africa, signed the visitor's book.

Part of an illuminated window display at the East African Airways office in Delamere Avenue, Nairobi, with the theme "Moderns never travel fast". The display exemplifies the circulation of the "East African Standard" in all parts of East Africa. More than 16,000,000 copies of the newspaper have been flown out of Nairobi since 1966.

# COTTON CROP VITAL TO UGANDA

Economy's main stay for some time says Sir Walter

**FORECAST GOES UP AGAIN**

The Government's forecast for the cotton crop in Uganda for 1962-63 has been revised upwards to 187,700 bales, an increase of 10 per cent on the 170,000 bales forecast in the last report.

The increase is due to a number of factors, including a higher yield per acre and a larger area under cotton.

# WEED AND STANDARD OLD PEOPLE FIND ATTENTIVE CARE AT ALMSHOUSE

OVERLOOK  
OF TWO NEARBY

BY  
TOM SZURBU

In a corner of the city, where the sun never shines, and the wind never blows, the old people of the city find a new home. The Alms House, a new institution for the aged and infirm, has just been opened in the city. The building is a large, modern structure, with a garden and a playground. The old people are well cared for, and the staff is attentive and kind. The Alms House is a place where the old people can spend their days in peace and comfort. A general view of the key department in a Newark store with an unusual Christmas tree of its own.

### Buying presents: Don't take it too seriously

Buying presents for children is really the "fun" part of Christmas shopping, particularly if you can persuade yourself not to take it too seriously and remember what toys and activities you got most pleasure out of when you were young.

A round of the Newark toyshops did not confirm the picture of up-to-date, variable and thoughtfully educational playthings painted on this page last week. Indeed, a surprising number of the toys on the shelves could be satisfactorily frank and bright survivors of the nineties or even of 20 years ago.

Among the top toys at Newark's best toy store, the Newark Toy Shop, were a variety of toys that were familiar to the generation of 20 years ago. These included a variety of toys that were familiar to the generation of 20 years ago. These included a variety of toys that were familiar to the generation of 20 years ago.

# New-car buyers prefer automatic gearchange

**MORE** Australian buyers are selecting automatic gearchange, particularly those who are regularly in congested traffic which means frequent gear changes.

The Police Commissioner in Australia has announced that he will purchase a new car in the form of a four-speed automatic transmission. This is the first time that a police officer has done so. The Commissioner is a member of the Police Officers' Association and has been driving a four-speed automatic for some time. He said that he had found it very convenient and that it was a great help in congested traffic.

## COMMERCIAL VEHICLES HAVE

### TO BE RUGGED

TRAVELLING some 100,000 miles a year, commercial vehicles take the roughest of treatment as a matter of course.

In Australia's dry climate most vehicles are subjected to the same intense of drying heat, dust and sand. In addition, they are subjected to the same intense of drying heat, dust and sand. In addition, they are subjected to the same intense of drying heat, dust and sand. In addition, they are subjected to the same intense of drying heat, dust and sand.

Trucks operated for certain distances from one end of the continent to the other, especially in the north, are subjected to temperatures from below freezing to over 110 deg. F.

### Interstate trucks

Construction crews report the same problem to perform equally well above the average in Australia's hydro-climate, whereas, in arid deserts on irrigation projects, interstate transport trucks are subjected to temperatures of up to 140 deg. F. for many years before replacement.

Despite the rugged treatment and the high range of duties these vehicles perform, they are required to last longer than in countries where road and general operating conditions are less severe.

The increasing dominance of highly mechanized vehicles on Australian roads indicates

that the majority of private cars, particularly those of the middle and upper income groups, are now equipped with automatic gearchange. This is a reflection of the fact that the majority of private cars are now equipped with automatic gearchange. ## 8-MONTH ODYSSEY IN FORD

**RELIABLE** the performance of Australian-made motor vehicles have been proved by experts on test tracks in reliability trials held by motorists.

Two Australian motorists, Mr. John Robert Norman, of Adelaide, drove an Australian Ford Falcon in a reliability trial of 8 months and 10,000 miles. The vehicle had only 10,000 miles on it when it was returned to the test track.

The Norman shipped their Falcon to London, then drove to London, the Italy, France, Switzerland and Spain. The test was taken out to make it more of a real-world test, but the car was returned to the test track in perfect condition.

### Roughest roads

Driven in high speeds over Australia's roughest roads, including the most difficult in the world, the vehicle must have made a substantial impression on the test track.

### To Singapore

From London, the Normans drove to Berlin, then through East Germany to Warsaw and Moscow, then to Paris and through Pakistan, India and Malaya to Singapore.

The large petrol tank allowed the motorist to travel for long distances without refuelling. The car was returned to the test track in perfect condition. The test was taken out to make it more of a real-world test, but the car was returned to the test track in perfect condition.

The body of an Australian Ford Falcon features sedan is lowered on to the assembly line at the huge Ford works at Broadmeadows, Victoria, and below, the Australian-built 1963 model 2½-ton over-drive Falcon sedan, which was released on to the Australian market and for export last August.

# TRIM, TAUT, TERRIFIC! NEW FALCON!

Sedan or Station Wagon, Falcon has more of the advances and features that mean happier motoring.

In the sleekly styled Falcon Station Wagon the 89 cubic litre cargo space maintains over 70 inches from seat to closed loading. With tailgate open this length stretches to almost 90 inches. Rear seat conversion into the big load space now is a feat of 2 1/2" action - nearest of all station wagon seat conversion methods. Other exclusive advantages are the roll-over locking rear window and the "one-hand" counter-balanced action of the extra wide tailgate.

## Styled, muscled and engineered with a solid worth that means better value!

This new Falcon reflects a sincere concern for the features that matter most to you. In style... it is low, lithe and sets a new trend with its thunderland-inspired profile. In durability... new strength has been added where you need it most. In comfort... completely new interiors surround you with stretch-out luxury. You have choice of two engines and two transmissions... you can tailor the power-teams exactly as you'd like it. Saving? Falcon gives you extra miles per gallon and stretches oil changes to 6000 miles!

**THUNDERBIRD-INSPIRED ROOF-LINE** sets a new trend in style. This practical low roof has more headroom for rear-seat passengers, and better rear-ward vision.

**MORE RUGGED SUSPENSION** holds up road shocks and brims the road for more comfort. Falcon's improved struts, shock absorbers, and coil springs are stronger, longer-lasting.

**CHOICE OF 2 ENGINES.** Pick from Falcon's standard 2700 cc V6 engine, or the optional 2000 cc V6 engine. Both engines are available with either manual or automatic transmission.

**CHOICE OF 2 TRANSMISSIONS.** Pick from Falcon's standard 3-speed manual transmission, or the optional 4-speed automatic transmission. Both transmissions are available with either manual or automatic transmission.

**FORD 6/6 WARRANTY**  
For 60,000 miles or 6 months, whichever comes first, Falcon is warranted against defects in materials or workmanship. This warranty is responsible only for normal maintenance and replacement of wear-and-tear items.

# Millionth Holden rolls off the assembly line

The millionth Holden car rolled off the assembly line at Preston's Bend, near Melbourne, Australia, on Thursday, October 25, 1963. The car, a 1963 Holden, is the first of a new model, the Holden Premier, which is being produced in a new factory at Preston's Bend. The car is the first of a new model, the Holden Premier, which is being produced in a new factory at Preston's Bend.

## Style changes

The new Holden Premier is a four-door sedan with a new front grille, new headlights, and new wheels. It is a more modern and stylish car than the previous models.

## Next year

Holden is planning to introduce a new model next year, which will be a more powerful and faster car.

## POPULAR MODELS

Two of the most popular models in the Holden range are the Premier, pictured above, and the Special Station Sedan, shown on the left. The Premier, which is fitted with many extras, is the top car of the Australian Holden range. The Special Station Sedan is ideal for sporting occasions.

# FAMILY LINKS WITH FIRM BEGAN IN 1856

Although the founder of the firm, James Holden, died in 1898, the firm's roots go back to 1856 when James Holden and his family began to produce iron castings in Australia. The firm has since grown into a major manufacturing company in Australia.

## Critical decision

The Holden family faced a critical decision in 1917 when they had to choose between continuing to produce iron castings or expanding into other areas. They chose to expand, and the firm has since become a major manufacturing company.

## Export spares

Holden has a long history of exporting spares to other countries. This has helped to establish the firm's reputation for quality and reliability.

## Proving claims

It is important to prove the claims made by the manufacturer of a car. This is especially true for a car that is being sold in a foreign market.

## Outright win

The Holden Premier has won an outright win in the competition for the most popular car in Australia. This is a testament to the quality and reliability of the car.

## TV FOSTERS A MAJOR NEW INDUSTRY

WITH the first commercial television transmission in Australia six years ago - 1945, the year the Olympic Games were held in Melbourne - a new major Australian industry was born.

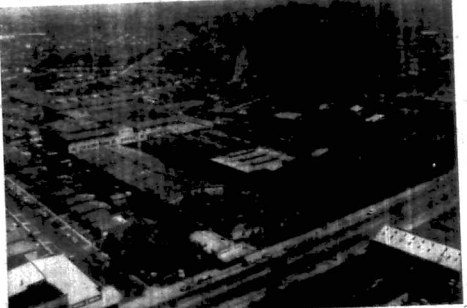

Australia made a considerable contribution to the world television industry, not only by the development of the television set and the television receiver, but also by the development of the television transmitter and the television receiver. The industry has grown rapidly since its inception, and is now one of the most important industries in Australia.

# THE HEMISPHERE'S LEADER in radio communication

In every field where radio provides the means of communication, there, A.W.A. equipment serves the nations efficiently and dependably. In the air, at sea, on land... A.W.A. research, skill and manufacturing resources have successfully met the demands of our time... in use as in peace... for more than 45 years.

A.W.A. Manufacturers: Broadcasting stations, Bro advertising studio equipment, Communication transmitters and receivers, Mobile radio equipment, Marine transmitters and receivers, Direction finders, Automatic alarm apparatus, Radar, Air navigation beacons and distance measuring equipment, Instrument landing systems, Microwave links, Radio programme recordings, Military Communication equipment, Transpitting and receiving radio valves, Broadcast and Television receivers, etc.

The A.W.A. radio electronics works near Sydney, N.S.W., which occupy more than 12 acres of ground and provide nearly half a million square feet of floor space, represent the largest manufacturing centre for radio communication equipment in Australia. A.W.A. during World War II alone, supplied over 20,000 transmitters, 5,000,000 radio valves, radar and navigational aids for the Allied Forces.

A.W.A. designed, built and operated. From such transmitting and receiving stations as these, A.W.A. maintains long-distance radio communication. Among the company's firsts are the inauguration of the Beam Wireless Service to Great Britain and Europe in 1930; and the opening of a transoceanic telephonic service to Northern Europe and America.

**A.W.A. is Australia's National Wireless Organisation**  
 Amalgamated Wireless (Australasia) Limited is the largest radio manufacturer in the Southern Hemisphere and has been the leader of the industry for more than forty years. It enjoys an international reputation for efficiency and the high quality of its products. The company maintains a highly qualified research staff and has large production resources for manufacturing all types of radio equipment for use at sea, on land and in the air. Information concerning A.W.A. products and services will gladly be supplied on request.
