MINISTERS ARRIVE FOR BERLIN CONFERENCE

UGANDA RULERS' CONCERN

Legal position queried
Kampala, 22.1.54
A LETTER has been received by the rulers of the Uganda Kingdoms of Ankole, Kigezi and Nkore from the British Government. Sir Andrew Cohen, the Colonial Secretary, is expressing concern at their constitutional position, following the deposition of the Kabaka.

The Uganda Government representatives, who arrived in Berlin, are expected to meet this morning for a final survey of tactics and to hold talks with Austrian and West German representatives.

Mr. Eden travelled by air from London. Mr. Dulles will be negotiating with the Soviet Union. The subject is the future fate of Europe. Will Germany, and indeed the rest of Europe, be united for peace? Will divisions be imposed, which will make Europe again the breeder of war?

AID FOR STERLING URGED TO CONGRESS Randall Report on trade policy

CONVERTIBILITY AIM

Liberty should be made freely convertible, and trade restrictions removed, claims the majority report of a special commission set up by the British Government last September to consider United States foreign economic policy.

The report, which was published in Washington over the weekend, is a reference to sterling, that Britain's currency should be strengthened, to restore full confidence in the pound and its essential convertibility.

The report made more than 50 recommendations to the American trade and tariff policies, including the removal of trade restrictions, including the repeal of the "Buy American" Act which discourages the purchase of foreign goods by American agencies.

It also urged that the Commission signed by the American Government which has been submitted to Congress.

The report also attacked the "Buy American" Act which discourages the purchase of foreign goods by American agencies.

SUPREME EFFORT NEEDED IN KENYA

P. sums up views in the Emergency EIGHTEN CO-OPERATION SECURITY FORCES'

A would have to make a further effort into the Emergency was mastered. Col. Elliot, leader of the Parliamentary delegation, which has now completed its tour of the country, said in Nairobi yesterday.

It would need to be a great and concerted effort if the Emergency could not be solved by the "business as usual" with Mr. P. speaking at a Press conference at Government House.

described the present as "the phase of execution." He said that the Government was making a strong and powerful effort to bring the Emergency to an end. Co-operation between military authorities would be essential for the success of the Emergency effort.

Everybody should search their own hearts and find out what they can do to help. It is not the Government's business to tell people who to do what.

My opinion is that the Emergency will be solved if we all co-operate. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

It is not the Government's business to tell people who to do what. It is not the Government's business to tell people who to do what.

The rapid change here may not be entirely welcome. Development in the country is being carried out in the shadow of a sword. It is not the Government's business to tell people who to do what.

EMPHASIS ON THE AFRICAN

Mr. Hutchinson pointed out that the Government is emphasizing the African element in the Emergency. He said that the Government is making a strong and powerful effort to bring the Emergency to an end.

SUPPORT OFFER BY DETAINEE

Mr. Hutchinson went on to say that he would support the Government's efforts to bring the Emergency to an end. He said that he would do everything in his power to help the Government.

Great Celebrations in 'Viyella'

This year, on mother's birthday, there was a celebration commencing with delight and allegiance was made with a kiss. Dress for the occasion was 'Viyella'—it is how you are happy 'Viyella' is for all ages, for all seasons. It is lightweight, perfect for the wide circular dress mother is wearing. It keeps children who run in and out of doors safe from chafing. It washes 'for ever'—people say—and it washes wonderfully. 'Viyella' is made entirely by William Hillier & Co. Limited (the makers of 'Cydella'), both may be recognized by the signature against shrinking and by the famous Day and Night trade mark.

SOVIET RENEWS CALL FOR FIVE-POWER TALKS

DIVERGENCES of opinion on the agenda quickly became apparent during the first sitting of the "Big Four" and France considered that the main object should be the settlement of the German and Austrian problems, Russia's is the reviving of a five-power meeting, including China.

Mr. Eden said that the conference in Paris was about Germany. It should attempt above all else to settle Germany, which were the major difficulties with Germany, which were the major difficulties with Germany, which were the major difficulties with Germany.

YACHT RACING:

Accidents near opening of the season at Naivasha FIVE BOATS IN THE WARS!

'Standard' Special Correspondent

The Naivasha Yacht Club's 1954 racing season began on Sunday January 17, when a series of mishaps rather marred the proceedings. The next event of the new season was requested to arrive in 'good time' as the draw for boats will take place at 11.30 a.m. on Sunday.

The tale of woe began early, for the season first got off to a bad start when the 'Tern' had some trouble at mooring, probably by a wretched lippo and in the process of being towed away, broke her mast. Duke and Doodle both carried away their mast while racing. Duke's centre-plate came apart, a new boat, at yet another race on the rocks and carried away her rudder plate.

The accidents were unfortunate for a series of four Challenge races had been arranged for the purpose of ascertaining each boat's average performance. Starting service... The race was won by the 'Tern'...

Hospital rate rise likely at Kitale

TRANS KENYA DISTRICT COUNCIL is finding it increasingly difficult to run the Kitale European Hospital on a sound financial basis. The hospital estimates for 1954 show a deficit of about £200 and the Hospital Committee of the council has spent some time discussing ways of meeting this deficit. It seems certain that the hospital rate will have to be raised from 25/6 to 40/6. The first 200 guineas will be originally earmarked for hospital purposes; the second 100 will be available about 2008 for the general maintenance of the hospital.

A general resolution to increase the hospital rate from 25/6 to 40/6 will be submitted to the members of the council, which meets this week. It is pointed out that people who do not pay the hospital rate will not be able to use the hospital. This is a serious matter, as the hospital is the only one of its kind in the district.

Outspan policy
The council is to consider its outspan policy and has requested the sub-committee to go into the aspects of the question. The council has decided to go ahead with the policy, but it will be subject to the approval of the members.

Coun. E. Lelover suggested that the council should consider the possibility of increasing the hospital rate to 40/6. This would be a significant increase, but it is necessary to ensure that the hospital can continue to provide a high standard of care.

Coun. W. W. Duggan and Coun. Dowling said they thought outspan should be a condition for the rate. This would ensure that the hospital is used to its full capacity and that the rate is justified.

Forest stock
Arrangements are being made to regularize the keeping of stock by a limited number of private squatters on Mount Kenia. The squatters, however, are not allowed to hunt and the council is considering the possibility of increasing the number of squatters.

Mr. C. Davies supported the view that the council should consider the possibility of increasing the hospital rate to 40/6. This would be a significant increase, but it is necessary to ensure that the hospital can continue to provide a high standard of care.

The council decided that the Forest Department should be asked to keep up to 200 acres of forest on the Mt. Kenia area. This would be a significant increase in the forest area, but it is necessary to ensure that the forest is managed in a sustainable way.

Fight against crop diseases in Uganda

TRINIDAD AID ON BANANAS

DIFFERENT varieties of banana stems from Uganda, Trinidad for research purposes will be provided. Trinidad is providing assistance in the form of a grant to the Government of Uganda. The grant will be used to purchase the necessary equipment and materials for the research. The research is being carried out by the Agricultural Research Station in Uganda.

Flying Start
It is noted that this is the first serious threat to the type of banana crop in the West Indies that will have grown up a firm structure. All the old crops introduced by the Africans from the Americas had been up to the time of the war. The new crops are being introduced by the Government of Uganda.

IGNITION CONTROL ADDITIVE

Shell Motor Spirit now contains I.C.A. (Ignition Control Additive). This Shell-discovered additive, incorporating tricresyl phosphate, puts an end to the major cause of power loss . . . pre-ignition and short-circuiting of spark plugs by combustion chamber deposits. Prove this for yourself by the Two-Tankful Test.

The Greatest Motor Spirit Development in 32 Years

Tetraethyl lead was introduced in 1922

Pre-ignition and spark plug fouling are the greatest barriers to the full use of engine power. Now there's something you can do about it!

The reason why engines become rough and lose power, is that deposits accumulate in the combustion chamber and on the spark plugs. In the combustion chamber these deposits become red hot and cause the fuel/air mixture to ignite prematurely. This is called pre-ignition. It results in a severe noise which engineers call "wild ping", and it probably burnt it, especially during acceleration and hill climbing. Pre-ignition can damage your engine.

You may also have noticed that your engine develops an abnormal misfire when you are driving on the open road. That is because the same deposits "build up" on your spark plugs and short-circuit them.

This wastes fuel and robs you of power.

Determined to abolish the greatest cause of power and fuel waste, Shell research technicians discovered a unique fuel additive, I.C.A. Shell Motor Spirit with I.C.A. accomplishes what no other fuel ever did before. First, by "fireproofing" the deposits it stops pre-ignition. Second, by changing the character of the deposits it eliminates the short-circuiting of spark plugs.

Those deposits are robbing you of fuel and power. By making them harmless, Shell Motor Spirit with I.C.A. enables new and overhauled engines to keep their "new car" performance longer. Older engines take on new life. From today you can start using ALL the cylinders ALL the time by changing to Shell with I.C.A.

TWO-TANKFUL TEST

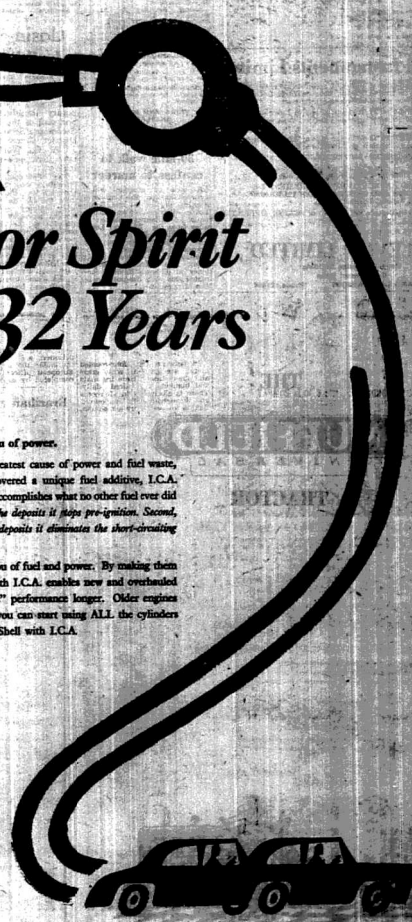

Here is a challenge: after using two tankfuls of SHELL with I.C.A. you will notice your engine running smoother and performing better than it ever did since the car was new or the engine overhauled and tuned. Smoother running means less engine damage. Better performance can mean more M.P.G.

Shell I.C.A. enables motor manufacturers to use higher performance engines of high compression ratio, and LEADS THE WAY TO CHEAPER MOTORING.

REMEMBER! I.C.A., containing tricresyl phosphate, is exclusive to SHELL.

Start the Two-Tankful Test
and **FEEL** the Difference!

Available tomorrow at main towns—
Watch the Shell Pump for the I.C.A. label.

BACK at last from their long stay in the United States, a group of women who came specially from the United States to see Africa in the most spectacular way - from the point of view of a continent - were met at the airport by Capt. and Mrs. G. S. Mitchell, of Scottair, and taken to their Malindi home on Thursday.

After a short stay, most of the ladies were looking forward to a visit to the interior, Mr. Westcott, who was fighting a new blood and was asked how they had enjoyed

the trip. They were very much pleased with their stay in Malindi, and were particularly impressed with the friendly and helpful people they met.
