REDS CROSS SOUTH KOREA'S VITAL RUSSIA WILL NOT INTERFERE' SOUTH KOREA BLAMED AGAIN FOR THE WAR

RUSSIA'S reply to the United States note sent four days ago, requesting the Soviet Government should see the influence with North Korea to stop the fighting and surrender to Moscow, asking for what was an unprovoked attack is a repetition of her assertion that events in Korea had been provoked by attacks by South Korea troops on the border area of North Korea.

Therefore, the reply said, responsibility for these events rests with the South Government and not with those who stand behind them.

The Soviet Government is adhering to the principle of non-interference by foreign powers in the internal affairs of other states in meetings of the Security Council.

Britain's Task In Malaya

MR. GRIFFITHS and Mr. Strachey, the Secretaries of State for Colonies and the Foreign Office respectively, have been received by the House of Commons last week when they made their maiden speech to Malaya.

Two world wars and the threat of a third have been the chief factors in the British Commonwealth's policy towards Malaya.

Commenting on the recent visit of Mr. Griffiths and Mr. Strachey to the Secretary of State for Colonies and the Secretary of State for Foreign Affairs respectively, SCRUTATOR writes that the well-known expert on foreign affairs, the British Government must make up its mind to a definite decision as to the role of the military.

national in any sense in the largest single member of the Commonwealth. The Chinese who actually rule Malaya are not British subjects.

It is a question which has been asked many times. It is a question which has been asked many times. It is a question which has been asked many times.

When a week or two first came to Malaya, and another week or two more, the vengeance of the British Empire will be seen in the fact that we can expect to see the Chinese Government in Malaya.

It is a question which has been asked many times. It is a question which has been asked many times. It is a question which has been asked many times.

It is a question which has been asked many times. It is a question which has been asked many times. It is a question which has been asked many times.

DISAFFECTION The great fear of many readers of the latter half of this issue has been the possibility of a general election in 1951.

THE POLICY A larger policy force could make a significant contribution towards the solution of the Malayan problem.

VENGEANCE When a week or two first came to Malaya, and another week or two more, the vengeance of the British Empire will be seen in the fact that we can expect to see the Chinese Government in Malaya.

PANOLI WINS THE FIRST NAIROBI CITY CUP

Too good for gallant Top Straight

There was some excellent racing on the day of the Nairobi July, and the weather was very good and the track was in a better condition than in the City Cup.

The winner of the City Cup was Panoli, who was trained by Mr. J. M. O'Connell. He was ridden by Mr. J. M. O'Connell and was owned by Mr. J. M. O'Connell.

The runner-up was Top Straight, who was trained by Mr. J. M. O'Connell. He was ridden by Mr. J. M. O'Connell and was owned by Mr. J. M. O'Connell.

The third place was taken by... (text continues with race details)

A great finish

With 150 yards to go it was still very close, but Top Straight was too good for the gallant Panoli.

The race was a very close one, with Panoli leading until the last 100 yards, when Top Straight made a great effort to overtake him.

At the finish, Top Straight was a head and a half ahead of Panoli.

RUSSIA HAS A SCHUMAN PLAN OF HER OWN

THE rapidly with which normal diplomatic and trade relations between the Eastern German Republic and her Communist neighbors are being developed is being interpreted in London as the first step towards an Eastern Schuman Plan.

This would involve the pooling of Czech and Polish steel and coal production and the coordination of the industrial production of Eastern Germany. The huge industrial plant in the Ruhr would be used to supply the East German Republic with sufficient steel to run its industries at present their lack of raw materials.

That such a plan is seriously contemplated by a coalition Government in Germany is indicated by the general trend of economic policy since the formation of the Czech Government.

It is interesting to note that the Czech Government has been the first to propose such a plan.

Aristocracy Wins 1950 Kenya St. Leger

Tragic death of Chorister during the race

The Nairobi July race meeting on Saturday, bringing to a close two of the most successful meetings in the capital, with a remarkably fair and fast track, a bumper crop of fine weather, unusually large fields and next to perfect going. One tragedy marred the last day, however.

The 1950 St. Leger was the only one of the three 2-year-old colts to be named in the 1949 St. Leger. The winner was the 1949 St. Leger winner, the 1949 St. Leger winner, the 1949 St. Leger winner.

Chorister was making his way in the front and the lead horse, the 1949 St. Leger winner, the 1949 St. Leger winner, the 1949 St. Leger winner.

MRS. MORRIS WINS KENYA GOLF TITLE

Dramatic final in championship at Karen

MRS. E. A. MORRIS (Nairobi), 1947 champion, won her second Kenya ladies' golf championship at Karen yesterday afternoon when she beat Mrs. Nancy Miller (Karen) by 3 and 1 in the 36-hole stroke play on the turn. It was one of the best and hardest-fought finals ever.

The 1947 champion, Mrs. E. A. Morris, won her second Kenya ladies' golf championship at Karen yesterday afternoon when she beat Mrs. Nancy Miller (Karen) by 3 and 1 in the 36-hole stroke play on the turn.

A hard struggle

The 17 holes in the afternoon were completed in almost as great time as the morning 18. In two hours and five minutes the golfers had played 35 holes, with Mrs. Morris leading by three strokes.

NORTH KOREANS' DRIVE ON SUWON HAS BEEN HALTED

Red fighters catch G.I.s without air support

American advance headquarters in South Korea announced yesterday that the North Korean drive on Suwon, the advance South Korean base, had been halted. North Korean tanks which had crossed the Suwon River in the morning had retired, apparently after a reconnaissance mission, the announcement added. No major changes had occurred on the fighting front.

The communique was issued barely 12 hours after reports that two Communist columns were being driven into the South. The advance was reported to have been made in the north. North Korean troops had outflanked Suwon after an eight-hour operation.

The communique pointed out that the Communist advance on Suwon was the first since the Communist drive on Seoul, the South Korean capital, in the latter part of the war. It stated that the Communist drive on Suwon was the first since the Communist drive on Seoul, the South Korean capital, in the latter part of the war. It stated that the Communist drive on Suwon was the first since the Communist drive on Seoul, the South Korean capital, in the latter part of the war.

At all costs, the United States and its allies must be prepared to meet the Communist drive on Suwon. The United States and its allies must be prepared to meet the Communist drive on Suwon. The United States and its allies must be prepared to meet the Communist drive on Suwon.

MINERALS KEY TO THE FUTURE PROSPERITY OF KENYA

W.E. SINCLAIR, an expert prospecting for minerals in Kenya, explains the important part that mining can play in the establishment of secondary industries in the Colony.

It is not possible to enter the export market, the return would be the same as for minerals, such as lead, copper, manganese and pyrites, and which are not so easily marketed.

Finally, the concentrated effort to develop a secondary industry has undoubtedly over-estimated the possibilities of a stable mining industry.

It is interesting to note that the Government has not yet decided to set up a mining department, but it is possible that this will be done in the near future.

It was a far-reaching decision to make the Government to make the necessary arrangements for the development of a secondary industry.

SUNWON FALLS TO THE COMMUNISTS

Northerners' tanks sweep south CONFLICTING REPORTS OF U.S. CLASHES WITH INVADERS

U.S. KOREANS with heavy tanks swept south on the eve of the Korean war yesterday after engulfing the beleaguered South Korean base, 50 miles from Seoul, North Capital.

It was reported by an American spokesman at General Headquarters that the sunwons had been ordered to evacuate their positions and to withdraw down below awaiting further orders. He added that there had been no contact yet with the sunwon troops and the Northerners.

It is believed that there were no clashes between the sunwon units and those of their own army which were in the area. One unusual report went so far as to say that Communists had been killed and that there had been some sunwon casualties.

The sunwon units announced the evacuation of Sunwon, and the sunwon troops were apparently moving to the south. They were not given any instructions to resume their drive towards the North Korean base.

It is believed that there were no clashes between the sunwon units and those of their own army which were in the area. One unusual report went so far as to say that Communists had been killed and that there had been some sunwon casualties.

WAR MAY BE LONG AND COSTLY

The West suspects Russian tactics But long war may lead to a clash

The realisation is gaining ground both in London and Washington, that operations in Asia—most probably elsewhere—will be long and costly.

It is believed that there were no clashes between the sunwon units and those of their own army which were in the area. One unusual report went so far as to say that Communists had been killed and that there had been some sunwon casualties.

AMERICAN FINANCIERS OFFER UNION A FAVOURABLE LOAN

LONDON bankers said today that Mr. Eric Lewis, the South African Minister of Economic Affairs, who is in Britain for trade talks, might receive the question of the award of £10 million for the Union Government's activities. Mr. Lewis has been discussing the working of the agreement with the American financiers, who are offering to finance the Union's gold stock competitively to the Union to Britain and other currency countries.

Both the gold sale agreement and the British official agreement for South Africa, known as the London agreement, were part of a larger arrangement initiated last August. It was then some South African officials to the effect that the Union Government should not be allowed to devalue its currency until it was able to pay for its gold stock. The Union Government might have had to pay £10 million for the gold stock, but the agreement now to be entered into would allow the Union Government to pay for the gold stock in the form of a loan. The Union Government has been in the Union Treasury since the first of this year. The second early this year, but has been in the Union Treasury since the first of this year. A. LEES IN EARLY LEAD AT TROON

Bulls headed British 'open' qualifiers

THE opening challenge in the British Open golf championship at Troon, Ayrshire, was very much alive at the end of the first qualifying round with 14 Americans leading the 14 Scottish players with aggregates of 153 or better.

The first 18 holes of the championship proper were played on the Old Course yesterday. The winners of the early returns came in Arthur Lewis was leading with 60, while Dick Whitcombe came second with 61. Other Americans who were in the final 36 holes were:

Johnny Dale (Chicago), runner-up to Richard Brown in 1959, and Tom Weir (Edinburgh), runner-up to Sam Snead in 1960, both at 62. The runner-up to Lewis was the 1959 champion, Arthur Lewis, at 63. The runner-up to Weir was the 1959 champion, Arthur Lewis, at 63.

There was one notable absence from the final 36 holes, which was the 1959 champion, Arthur Lewis, who was unable to play because of a bad cold. The runner-up to Lewis was the 1959 champion, Arthur Lewis, at 63.

There were some two dozen spectators in the clubhouse at Troon. The runner-up to Lewis was the 1959 champion, Arthur Lewis, at 63.

Yorkshire go to head of county table

HIGHLIGHTS of the series of county championship matches were completed with the wins of Yorkshire, taking them to the top of the table, and Lancashire, who are joint second, and Nottinghamshire, first victory of the recent season.

Yorkshire were four runs ahead of Lancashire at the end of the first innings, but Lancashire's 10-over innings was a real test of their batting. Yorkshire's bowlers were in excellent form, and they were able to restrict Lancashire to a total of 100 runs.

St. Nicholas School for backward children in course of erection.

ST. NICHOLAS SCHOOL STILL NEEDS £2,500

BY MR CHARLES MONTHER

THE needs of the St. Nicholas School for backward children have long become familiar to residents of Nairobi but not all are aware of the progress and methods of its operations.

There are many children in the world who are physically or mentally handicapped to such an extent that they need to take their place in ordinary schools or hold their own with their more fortunate brethren and sisters.

The majority of these children, if able to attend, are not treated as handicapped children, but as normal children, and are given the same opportunities as their normal counterparts. This is a very important step towards their education and their future.

Financial situation

It is estimated that the St. Nicholas School has a total of 100 children, of whom 50 are boys and 50 are girls. The school is currently in need of £2,500 to complete its building and to purchase the necessary equipment.

Buying and selling prices fixed for Zanibar cloves

ZANIBAR'S GOVERNMENT
The Zanibar Clove Company has announced the buying and selling prices for the period beginning July 1, 1959 and ending June 30, 1960, as follows:

Grade	Buying Price per 100 lbs	Selling Price per 100 lbs
Grade 1	100.00	95.00
Grade 2	95.00	90.00
Grade 3	90.00	85.00
Grade 4	85.00	80.00
Grade 5	80.00	75.00
Grade 6	75.00	70.00

WHAT IS THE SOLUTION IN UKAMBA?

When a handful of us toured some of the worst locations of Ukamba last week, we were looking at a national tragedy. It is not the fact that the rivers of the land pour in to inundate the fields in their ravaged valleys and to sweep up the hillsides by terracing on both the sides.

It is inspiring to watch any community effort, be it good, bad or indifferent. So many problems solve themselves, come into being, and are solved, because of human cooperation to overcome that hope is born again.

Ukamba, however, not merely an agricultural problem of first-class importance but one that has become a human problem which requires the solving of the problem of the people. The solution of the problem of the people is the solution of the problem of the land. The solution of the problem of the land is the solution of the problem of the people. The solution of the problem of the people is the solution of the problem of the land.

Only the Ukamba can make use of the land for the benefit of the people. The solution of the problem of the land is the solution of the problem of the people. The solution of the problem of the people is the solution of the problem of the land.

Change-over
In the use of the Ukamba this short tradition of an extensive and intensive programme of agricultural change-over is being carried out. The change-over is being carried out in a systematic and planned manner.

Given these things stem men can do the rest of the work. The change-over is being carried out in a systematic and planned manner. The change-over is being carried out in a systematic and planned manner.

Cash Crop
What of a cash crop? Such farmers and who will be fully satisfied are today producing much needed cash crops.

Building Dams in Ukamba

These are at a preliminary stage. They are almost completed in some instances and will be completed in others by the end of the year.

AMERICANS HOPE THEY HAVE A PYRETHRUM RIVAL

A NEW rival to pyrethrum—the time of a weed which is common in the Americas—is announced by the U.S. Department of Agriculture. It is Scabrin, an amide derived from the roots of plants of the genus Helipopsis (so-called) which the Department describes as a hardy herbaceous weed.

Scabrin is claimed to be appreciably more toxic to insects than pyrethrum and it is hoped that as a rough crop it may be profitable for American farmers to grow the crop from which the new insecticide is obtained.

The chemical toxicity of the new material is the only biological test which can be used to determine its value. It is hoped that it will be a valuable addition to the list of insecticides available to American farmers.

SPREADING OF DATURA WEED

The spread of the Datura weed in the United States is a matter of concern to the United States Government. It is hoped that the spread of the weed can be controlled by the use of insecticides.

How the paper pattern was born

Little began, the lady of fashion called the social centre of an amusing crowd of her humbler sisters who could only gaze at her through the window of a shop.

to fill a vital need

Trade outfits that of magazine size, the paper pattern also came to be sold separately and independently of the dress and even by makers who are not makers of dresses.

Stimulus to sales

In the United Kingdom, as in America, the paper pattern is an important success. And the stimulus it gives to the sale of patterned fabrics is a well-known fact.

But the world was changing every 50 years. Fashion for the masses had not yet become a reality but the first straggles had begun.

Free issue
All pattern-makers up to the rank of Chief Superintendent are issued with a book of standard sizes for free.

Immediate success
This, edited by Minors, was written with regard to fabric and silhouette. To complete the service and a great advantage to the trade.

One thousand times on the air
The idea of the R.B.C. paper pattern, or, more fully, pattern, is a very interesting one.

An appeal for £20,000 has been launched by the Governors of Queen's College, the famous college for women at Cambridge University.

It was in 1889 that Miss Estlin, the first woman to be elected to the office of head of the English county of Hertfordshire, was elected to the office of head of the county.

WOMEN OF THE FORCE

ELSA M. SANDERS' London letter is mainly concerned with policemen, what to wear in wet weather, and the Englishman's dress sense.

girl has a room to herself or shares with one other. Two Berlin houses are said to be the women but in addition, additional women have been provided for them in the men's rooms.

Police Commissioner's London
The taran soldier's cap of an Aquanor model could be worn as a hood or as a water-tight cap.

Blower caps were a feature of the show. The A.M. programme was also of standard sabatine taran caps with wide brims and call.

Women police
It is a little-known fact that women police have been associated with the Metropolitan Police Force for over 20 years.

'POUF-POUF MEN' IN ACTION AGAIN

AROUND the holiday resorts of the Continent—and particularly the West—Mediterranean and the British Isles—are back on the hunt this year in private manners. They are being overthrown, leading those smothering loads of carpets, handbags, and other goods, early, decidedly "pouf- pouf".

It is a laugh from British and American holiday-makers they are all across the Continent in their private manners. They are being overthrown, leading those smothering loads of carpets, handbags, and other goods, early, decidedly "pouf- pouf".

What they earn

NEARLY all the "pouf-pouf" men are from French North Africa. They sell from Algeria to Morocco, from the Sahara and the Sahel to the Mediterranean coast.

BRITISH ENGINEERS ARE BUSY BUILDING LASTING MEMORIALS TO THEIR SKILL

1 In Australia, British engineers have built a new bridge over the Darling River by the aid of which the water is carried to the town of 75 miles in length and is known as the longest of its kind in the world—built on a bridge—close on right at their main in hour.

3 British engineers do not confine their activities to the Empire and the progress made on the construction of the new Great Victoria Company's Railway at Carden in Victoria. Since the war there has been a great increase in British work in allied construction.

Another large-scale operation to obtain vital supplies of fuel is in the latter province, where British engineers are carrying on an extensive programme for the Indian States Railway.

4 On the right engineers have laid position one of the sections of a new railway bridge across the Shire River in Shropshire in England. The bridge was designed by the Civil Service Inspector from Hereford. British has always been famous for her bridges and one of their greatest achievements was the construction of the Housley Bridge across the Housley River at Galesia.

ALL over the world British civil engineers are building lasting memorials to their skill. Since the 19th century, when the early work of opening Africa and bringing up the efficiency of Asia was started, it has been to Britain that the world has turned when the ideas of various engineers have had to be turned into engineering fact.

The early Nile barrages which feed Egypt from the constant threat of flood or starvation, the building of new and modern countries in Australia, New Zealand and South Africa, all are tributes to the British engineers who went far from home to work their miracle. And that is the contribution which other countries must always make to the new.

2 On the West coast of Africa engineers from Britain have erected efficient port facilities at Takoradi on the Gold Coast. Not long ago such ports were the only means of short-hauling cargoes from the coast to the interior.

Britain is engaged nearly all the major efforts to speed up the production of iron and steel, for instance, by the building of new plant sites on the West coast of the River Tyne.

5 In Egypt where the River Nile is being harnessed to serve mankind it is in the hands of British engineers that the Nile is being harnessed to serve mankind. This view shows the construction of the Aswan Dam, the largest of the kind in the world, and the construction of the Nile at Aswan. The Nile is now getting under way.

Undertaken by eminent engineers of Britain, the construction of the Nile is now getting under way. The Nile is now getting under way. The Nile is now getting under way.
