SUNDAY week—September 10—is the birth of British Kenya. Throughout Kenya, as in many other parts of the world, it will be marked by services which identify and acknowledge the part played by the late summer of 1949, fought out, in the then South Eastern Rhodesia, when the British and the African forces met in the following five years.

It is the first of the few days which will commemorate the valiant and self-sacrificing courage of those who fought in the late summer of 1949, fought out, in the then South Eastern Rhodesia, when the British and the African forces met in the following five years.

MR. EDWARDS' article in the East African Standard of September 8th on Communist propaganda in the United Kingdom shows very clearly what is certainly a great danger to the British Empire, but it also leaves us in doubt as to what should be done to overcome it.

There is always a nice, kind red... The Communist Party in the United Kingdom has been very successful in its propaganda work. It has been able to attract a large number of young people, particularly in the cities.

REJECTION OF WAGE FREEZE AND EFFECT ON NATIONAL ECONOMY

Special cable to the "East African Standard"

Members of the voluntary wage freeze, which had been tried for some time, have been rejected by the Government...

It is difficult to follow the reaction of another responsible authority by T.I.C. demand for statutory limitation of profits...

It would be foolhardy to believe that one member did—that these provisions are the result of their own policy affecting the retail price...

There is no reason to believe that a freeze upon the wage freeze will result in a decrease in the price of the goods...

Pipes and Tubes

The attention of importers of all types of pipes and tubes is drawn to the necessity of stipulating their exact requirements of all pipes and tubes of diameter 4 and under shall be second-hand, adequately tested, marked with all units, and stamped for shipment.

The present practice of shipping dark blue pipes and tubes, painted inside only leads to loss of weight through rust and expense in sorting, and gives rise to loss to the manufacturer.

The Port Authority will therefore accept only pipes and tubes painted on the outside of all kinds except pipes of the East African Port Authority of 4 and under diameter.

It is also noted that the Port Authority will accept only pipes and tubes painted on the outside of all kinds except pipes of the East African Port Authority of 4 and under diameter.

Orders for other metal pipes and tubes of more than 4 inches diameter should state the diameter, wall thickness, length, and other details.

For further information, please apply to the Chief Engineer, East African Port Authority, P.O. Box 100, Nairobi.

A LOT OF LESSONS ARE BEING LEARNED IN KOREA

RICHARD HUGHES, one of Australia's best-known journalists, now in Korea, tells of the lessons that must be learned from this desperate conflict if democracy is to survive.

There is a lot of history in the Korean peninsula. It has been a scene of many wars, and it is now a scene of a new war. The Korean peninsula is a land of contradictions. It is a land of ancient traditions and modern aspirations. It is a land of poverty and wealth, of oppression and freedom. It is a land of hope and despair. It is a land of a million lessons.

Ruthless attack
The American and Australian Air Forces have been ruthless in their attack on the North Korean forces. They have bombed their cities, their factories, and their communication lines. They have shown them that they are not invulnerable.

U.S. predicament
The United States is in a predicament. It is caught between the desire to maintain its honor and the desire to avoid a costly war. It is caught between the desire to support its allies and the desire to maintain its own interests.

Short of food
The North Korean forces are short of food. They are starving. They are dying. They are begging for help. They are begging for food.

Hotel Charges
The hotel charges in Seoul are high. They are higher than in any other city in the world. They are higher than in London, Paris, and New York. They are higher than in any other city in the world.

FOOTBALL TITBIT FOR Highbury

Arsenal-Huddersfield clash will be magnet

BEYOND all question the titbit of today's English league programme will be the meeting at Highbury, of Arsenal and Huddersfield Town—the only two sides of recent years to win three league championships in succession.

Both have won in the Midlands and Arsenal have won the Football League Cup. Arsenal have played a grand season and meet with Arsenal and Huddersfield, one point only behind the leaders, Huddersfield.

Today's meeting looks like much more of a draw at Arsenal, as Huddersfield, who are in the form of the moment, are expected to have a good game. Huddersfield, who are in the form of the moment, are expected to have a good game.

Other sport news on page two

To Bury in which their leads take a little, possibly both, while Middlemarch will take their place in the Midlands. A good match seems likely to result from the meeting of the two sides, which will be in favour of the home side.

Another good one

Liverpool, sixth in the season table, should meet Arsenal next week, performance and take a point at Goodison Park today against Preston.

More teams away

Derby and Blackburn are away at 12.30, while the other two sides in that order of the top six in the league are away at 3.00.
