IMPROVING LIFE FOR MILLIONS

U.N. tolk of aims in Africa

BETTER CONDITIONS WILL LESSEN CHANCE OF IDEOLOGICAL CONFLICT

AFRICA is peopled by 100 million human beings, many of them living in primitive states without the sustained and inspired effort of those responsible for African administration millions of years ago. The world's leading nations are now making it their goal to improve the conditions of these people and to lead with the object of creating world imperatives and a common understanding by the United Nations, South Africa, the Commonwealth of the United Nations, the General Assembly of the United Nations, the United Nations Economic and Social Council, and the United Nations Trusteeship Council.

If Africa is not to be the scene of an ideological conflict in which the African suffers more than those who live in Africa, the United Nations must spare no effort to promote the well-being of the inhabitants of the continent.

Mr. Kariuki commented that at present the African people are being misled by the propaganda of the administering powers to facilitate the opening of three frontiers between certain parts of the continent. He said that the provision of the United Nations Trusteeship Council, which is to be established in the near future, will be a step towards the settlement of the continent.

He said that the Trusteeship Council should be a forum for the settlement of the continent and that it should be a forum for the settlement of the continent.

Pinned down
Mr. Kariuki said that the Trusteeship Council is pinned down by the Trusteeship Council's failure to act in their best interests. He said that the Trusteeship Council should be a forum for the settlement of the continent and that it should be a forum for the settlement of the continent.

Mr. Kariuki said that the British casualties in Africa are a result of the Trusteeship Council's failure to act in their best interests. He said that the Trusteeship Council should be a forum for the settlement of the continent and that it should be a forum for the settlement of the continent.

Rest centre
Mr. Kariuki said that the rest centre in Africa is a result of the Trusteeship Council's failure to act in their best interests. He said that the Trusteeship Council should be a forum for the settlement of the continent and that it should be a forum for the settlement of the continent.

Morass of war
Mr. Kariuki said that the morass of war in Africa is a result of the Trusteeship Council's failure to act in their best interests. He said that the Trusteeship Council should be a forum for the settlement of the continent and that it should be a forum for the settlement of the continent.

Propaganda barrage
Mr. Kariuki said that the propaganda barrage in Africa is a result of the Trusteeship Council's failure to act in their best interests. He said that the Trusteeship Council should be a forum for the settlement of the continent and that it should be a forum for the settlement of the continent.

TACKLING BRITISH SOCCER PROBLEMS

Is Britain's best talent being wasted?

EVER since England's eclipse at the World Cup and non-playing has meant to improve the standard of British play generally.

It is generally agreed that England, who taught the world Association football in its modern form, has lagged behind until now. This is because of the lack of serious and consistent coaching in the English 21 and Cleeve. Various methods of tackling the game have been tried, but in the former cases have been particularly poor. Mr. Arthur Brown, who was a player in the 1930s, is now a member of a coaching staff in a new system of distributing the game in a more professional manner. He has had a trial for Liverpool City. The trial was held at the end of last week. He had a trial for Liverpool City. The trial was held at the end of last week. He had a trial for Liverpool City. The trial was held at the end of last week.

No organisation

Almost daily I meet players who are disappointed in the way that their club is run. Many of these clubs are in the first division. They have the best players in the country, but they are not organised. The manager is not interested in the players. They are not given enough training. They are not given enough encouragement. They are not given enough support.

Sport in brief

Football—The newly formed "home" hockey team of the Nairobian, the former school members of Nyanamir Club, will play their first game on Saturday, October 1st, at 8.15 this Wednesday. The match will be between Nyanamir and the Nyanamir team. The match will be between Nyanamir and the Nyanamir team.

African tea nurseries in the Nyeri reserve

Success of anti-erosion measures in betterment schemes

SUCCESSFUL settlement at Makueni, where contiguous rather than individual holdings are now being encouraged, is described in the quarterly report of the African Land Utilization and Settlement Board. The establishing of tea nurseries at Nyeri is one of the schemes mentioned in the report.

A further £300 has been provided for the buying of adequate tools for the Machakos Reserve, where contour dam-making is proceeding at an unexpectedly rapid rate.

At the Makueni settlement, as from the beginning of the year in question, the majority of individual holdings are being planted, and the new areas are being made for contiguous holdings, taking appropriate features into consideration.

The object is to simplify the retention, maintenance and practical management of the holdings, and to ensure that the number of cattle on the holdings does not exceed the carrying capacity of the soil.

By proper management more cattle can be carried on the land than is now expected and there is no longer any need for grazing areas surrounded by grazing areas.

Dry Machakos

The Machakos Veta grazing area, now managed by the Machakos District Council in accordance with the provisions of the Machakos Veta Act, is being managed in a more efficient manner than in the past. The number of cattle on the area has been reduced to a level which is compatible with the carrying capacity of the soil. The result shows:

Cattle: 5,000 (1949) to 4,000 (1950)
Sheep: 10,000 (1949) to 8,000 (1950)

The result shows:

1949: 5,000 cattle, 10,000 sheep
1950: 4,000 cattle, 8,000 sheep

Control

A controlled grazing scheme has been introduced to these areas under proper control. The number of cattle on the area has been reduced to a level which is compatible with the carrying capacity of the soil. The result shows:

Selling off

Although not an integral part of the scheme, it is interesting to note that the Government has recently sold about 300 acres at Kipkorani, Machakos, to a private individual. The land is being sold as a whole, and the purchaser is to carry out the development of the area. The land is being sold as a whole, and the purchaser is to carry out the development of the area.

Tea nurseries

A tea nursery has been established at Nyeri, and the first crop is expected to be ready for sale in the next few months. The nursery is being managed by the African Land Utilization and Settlement Board.

Clove deliveries in Zanzibar

The clove crop in Zanzibar is expected to be a record one. The total production is expected to be over 100,000 tons. The clove crop is being marketed by the Zanzibar Clove Board.

THEATRE CIRCUIT PLANNED
Mombasa and Nakuru clubs suggested

MR. DONOVAN MAILED hopes to form a circuit of theatres throughout Kenya Colony. They would be club theatres, containing a club and a theatre, and an operating members and a club membership of the one theatre to be full members.

The plan includes employing two full-time professional companies of which one would be in continuous production. Each theatre would have the same staff and the same company of actors. The plan is to have a theatre in Mombasa, one in Nakuru, and one in Nairobi.

Larger scale needed In the three years they have been in existence, Mr. Donovan's clubs have devoted all their energies to their theatre work. They have not had time to do anything else. It is hoped that in February, 1956, the first year of the new plan—the capacity number of seats for each theatre will be 100.

'Bungling' allegation—and answer

A NAIROBI man alleges that "official bungling" has ruined his son's job of nearly 10 years.

Mr. H. J. J. Cassiano, who helped his son, has been told by the Municipal Council that his son's job was not a permanent one.

Staff quarters De Campin made the following statement: "I have been in the Municipal Council for some time and I have seen many things that are not to my liking."

Use as hotel "When the building was offered for sale, it was used as a hotel. The builder asked for a price of £10,000."

1,000 applied When the water-posal office was opened, about 1,000 people applied for jobs. The Chief Engineer said that only 100 could be employed.

Caution The Americans had the resources to build a dam. They had the money and the technical know-how.

Our amazement The Nairobi City Council has refused the Nairobi City Council's offer to buy the land for a hotel. The Council has decided to build a hotel on the site.

Mayor's reply The Mayor of Nairobi, Mr. H. J. Cassiano, has replied to the Council's decision. He said that the Council's decision was "bungling."
