Advertising Brought 250,000 New Telephone Users

MAJ. TRYON FORECASTS BIG EMPIRE AIR MAIL PUBLICITY

London. Major G. C. Tryon, the Postmaster-General, who attended the Empire Advertising Convention at Brighton spoke of Post Office methods. He envisaged a big advertising campaign for the Empire air mail scheme.

"Press advertising," he told the delegates, "continues to be a main and effective plank in our programme. Judging by results it has already repaid us."

Lord Runciman, vice-president of the Convention, was in the chair in the absence of Sir Josiah Stamp, the president, who is in America.

Before Major Tryon spoke Sir Josiah Stamp addressed the delegates and spoke of the Empire air mail scheme.

"At the end of the month," he said, "the Postmaster-General will announce a further series of special advertising campaigns for the Empire Air Mail scheme."

Improved, accelerated and more frequent services on the Imperial route between the United Kingdom, India, Malaya, Australia, and eventually to New Zealand, were to be launched this month. An appeal would be made to passengers to place their letters to their advertisements in the press, and as soon as they were written, and then, as far as possible, to even the flow of postage.

Through advertising the development of the telephone had been accelerated. In the past year the number of telephones had increased was installed.

Such developments gave confidence to foreign investors. The Department took on 15,000 more employees.

TRADE EXPANSION
"Has Come to Stay" Says Lord Runciman

London. Lord Runciman, former President of the Board of Trade, who spoke on foreign trade, said there was little doubt that the expansion of our foreign trade had come to stay.

"It is not the old," he said, "that it will work itself out in ten years or thereabouts. We should not give the impression abroad that our great business concerns are in any way with any ornaments production, they cannot afford to attend to foreign customers."

"Another impression that had got abroad was that in our present position we did not care very much for foreign business to go elsewhere."

Young Men Should go Abroad.

"It is steadily necessary," Lord Runciman declared, "to keep alive our foreign contacts, particularly our personal contacts, which are of incalculable value. I hope that more and more young men."

FOUR-POWER "LEIPZIG" TALKS BREAK DOWN

German Demands
 COUNTERED BY BRITISH DESIRE FOR ENQUIRY INTO ALLEGATIONS

Britain, France, Italy and Germany, consulting together about the action to be taken regarding the "Leipzig" incident, have failed to agree, and the negotiations have broken off.

The German suggestions, backed up by Italy, included blockade of ports and a demonstration by the four powers before a Government port.

The British view is, apparently, that the German allegations of deliberate attack by Government submarines have not been proven and an enquiry should be held.

Both Germany and Italy have withdrawn from the Non-intervention control scheme, and Germany's next action is awaited with some concern.

Help for Wounded Buffalo

A remarkable story of how an Honorary Gene Warman went to the assistance of a wounded Indian boy, Donny Sakka, a few days ago has been received from the Acting British Consul, Mr. F. H. Clark.

The boy, a few days ago, was found stuck half-dead in thick mud. He had been shot by a German plane. He was found by a Buffalo Indian, who took him to his home.

War Services

It was during the war, however, that his energy and resource and great organizing ability had full scope. From 1916 to 1920 he was Director-General of Munitions Supply and from 1918 to 1921, Director-General of Transport and Communication in the British Army in France.

About the same time his energy was widened and he was given the rank of Major-General and became Director-General of Military and Air Services in the British Army in France.

Imperial Airways

In 1924 several British commercial airlines were then operated by the British Government. The airlines were nationalized and formed into Imperial Airways, the late Sir Eric Geddes being appointed Chairman. He was also appointed Director-General of the Company and held the post for a number of years.

NO FREE DINNERS AT EXHIBITION

Mombasa Committee's Decision

The Mombasa Exhibition Committee has decided that no free dinners will be given to visitors for consumption in the stands. This decision was reached at a meeting of the Standing Committee of the Mombasa Exhibition held on June 13th.

The committee considered the suggestion that visitors should be given free dinners in the stands as a special privilege. It was decided that this would not be done, as it would be a heavy burden on the exhibition fund.

The committee also decided that no free lunches would be given to exhibitors. This was also a decision taken at the same meeting.

Whole Country Covered

The numerous problems involved have now been satisfactorily solved and the completion of the main schedule there will be established a network of feeder services covering the principal towns in East and South Africa and the Rhodesias, thus ensuring co-operation between the three Companies throughout the vast continent.

JOE LOUIS KNOCKS OUT BRADDOCK

WORLD'S HEAVYWEIGHT TITLE FIGHT AT CHICAGO

Holder's 11,909 Dollars Per Minute

"BROWN BOMBER" FIRST NEGRO TO HOLD CROWN SINCE 1908

Jim Braddock was felled as he poleaxed when Joe Louis knocked him out at Chicago...

And now there is to be a controversy as to whether or not Louis came off rightly recognized as champion...

It remains to be seen whether or not the United States authorities will recognize the Louis-Braddock contest as for the world's title...

Braddock Knocked Unconscious

Joe Louis, the "Brown Bomber" as he has been aptly termed, was the victor in the fight...

Braddock Goes Down

With the start of the signal, and what proved to be the last round, Braddock missed his footing...

Braddock Absent on Points

Seen after the start of the fifth round, Braddock's left eye had closed with a left jab which he followed up with a nasty right to the same point...

Braddock's Fight to Fight

Today the White City authorities announced that Farr and Schelling had been booked for a championship fight...

Holder Knocked Unconscious

Louis was now content to ride his title, and announced that he had no intention of making his left eye to the right eye...

Smmy weather prevailed during the early part of the second day's play in the Wimbledon tennis championships...

And so Louis became the holder of the world's heavy weight crown: the first negro to hold it for 20 years...

A Gallant Loss

It was not until the seventh round that Louis got on top: Up till then he was content to lay back and let his opponent...

GERMAN NAVAL ACTION OFF VALENCIA?

EXPECTED PROTEST AGAINST LEIPZIG INCIDENT

More Italian Troops

OVER TEN THOUSAND LANDED AT MALAGA DURING LAST FEW DAYS

Some sort of naval demonstration off Valencia is expected to be Germany's action in connexion with the Leipzig incident...

Valencia, according to a statement by the Spanish Foreign Ministry, will take no action if the demonstration is peaceful.

Explaining Germany's position, an official statement asserts that Germany's only interest is the emergence of an independent free Spain.

"VOLUNTEERS" AT MALAGA.

As reported in Gibraltar from Malaga that over ten thousand Italian troops have landed during the past few days and more are expected...

Germany's "Only Interest"

What nothing will be known until the warships have taken up their positions.

"No Ambitions"

"Germany declares territorial ambitions in Spain or the Spanish colonies," states an explanation by the official agency today.

It is added that Germany's only interest is the emergence of an independent free Spain.

"No More Volunteers"

It is reported from Malaga that over 10,000 Italian troops landed there during the week and a further contingent is expected.

CONVERSATION PIECE

Remarkable Progress at The Ngong Veterinary Training Centre

Photographs By Courtesy of Dr. Carmen

The idea of Veterinary Training Centres originated in a suggestion by Sir John Kerr. Investigations showed that a start ought to be made to ascertain what native stock could produce in both milk and meat. If properly trained, the Veterinary Department decided to combine this instruction with the single annual veterinary training for natives. In this way, the Veterinary Training Centre at Ngong was started in 1921 and has made very remarkable progress in both directions. Since from this station were trained and sent to assist in the establishment of other similar stations at Mwanzi, Barotsi, Sanguu, and Mambasa.

In a wonderful way even the most primitive natives formed at the start of the centre and progress have been made. At the Ngong many European farmers had much to interest them, especially those who have only recently started. Both natives and Europeans were first and third prizes in their class.

The Centre has been fortunate during times under the unwise control of Mr. John Anderson. It was erected on an admirable site with buildings and milk sheds built of poles, and with the aid of the separating machines secured with rammed earth. The success of the enterprise has satisfied the extensive knowledge of the natives and increased one of constant and

inductive course to pass which even enable a written examination in Farming Economics, which lasts two years, while some pupils even stay on for a third year. So far 200 people have received training at the centre.

There is a strict programme of work, which with intervals for physical training, games and meals fits their day from 8 a. m. till 6 p. m. It includes, in addition to the field work, milking, butter-making, churning, mending, calf feeding, pig feeding, butchery, tanning, hide dressing and daily lectures on all phases of animal husbandry. A few glasses of beer in the examination paper, put in by the pupils are really astonishing. Questions such as—

What can you tell of a beast has finished?

What ration would you give a calf of four months?

How would you build a chicken house?

of their way. Of this man, the people receive Sh. 1/- and the 2/- respectively for pocket money. They are lodged in a large airy dormitory, and have their meals in a separate building at long tables. During their instruction they wear clean white kumbe.

What courses are available and present outlets?

are all to be found neatly and intelligently answered. Moreover the one paper is an assessment of terms of accounts such as—

Paid in wages 12/-
 Wage paid 21/-
 Balance forward 10/-
 Received for wheat 30/-
 Received for wool 1 2/6

which the conflict had to be met on their right side of a cash station.

At Ngong, cowboys take away from their mothers at birth, and in the early stage were difficult to found in getting the cows to give their milk. Mr. Andrew has found an interesting remedy for this. As soon as the calf is born in a taken away, and a small piece of hide, about the size of the side of a foot, is attached all over the calf. It has been found that not only will the cow let down her milk faster, but that she does not let it dry up. The attachment of bull calves which are

a drying shed in which the hides are spread on frames, after having been thoroughly scraped.

At Ngong there is also a flock of some two hundred sheep, the chief purpose of which is to be used as native rams which are in high strategic value for the Wabiki.

And with a much progress in the field, what of the future? In the first place since all the cattle at Ngong are dipped, the early rains in reserves where the bulls could be used are those which lay claim to the East Coast Fever, until such time as they are lost. The problems of the Masai are made more difficult because of their frequent seasonal movements of stock. But there is

not required for breeding is done with European primers. All pupils take their turns at each duty and changes are made every month.

Another branch of work which will make an enormous difference to the native masses, is the introduction of hides. At Ngong there

BARRIE PASSES ON.

News came over the air on Saturday evening that the American and most charmingly shrewd director of our picture first film in London, James Barrie's art was irretrievably lost. Consider his personality, modesty and retiring, and his life, with all its struggles, must have been a sad one. During the week, I had been trying to see his very beautiful film "The Unhatched Egg" and the pleasure I had in it was increased by the fact that it was directed by Barrie's son, the late Sir James Barrie, who was then some 20 years of age.

Barrie's last work, "The Unhatched Egg," is a touching story of a boy who is born with a physical defect, and who is brought up by his mother in a very beautiful house. The boy grows up to be a very successful writer, and his mother is very proud of him. The film is a very beautiful one, and it is a pity that it was directed by Barrie's son, who was then some 20 years of age.

That evening of the day when the natives were only in the state of a wild man.

After this, I think you will agree that "The Unhatched Egg" is a very beautiful film.

TROUBLESHOOTER.

It must be admitted that the natives who have been attracted to the reserves which have been established for them, are in a state of a wild man. They are only in the state of a wild man, and they are only in the state of a wild man.

It is a pity that the natives who have been attracted to the reserves which have been established for them, are in a state of a wild man. They are only in the state of a wild man, and they are only in the state of a wild man.

BRITAIN'S UNITED FRONT.

A very striking letter on the Coronation by Mr. Howard Vincent O'Brien, Viscount of Anson, is interesting. It is difficult to quote from it as every line is interesting.

Mr. O'Brien writes "I read the account of the Coronation with a great deal of interest. I think it is a very beautiful one, and it is a pity that it was directed by Barrie's son, who was then some 20 years of age."

ROAD TO RUIN.

Should any member feel tempted as this matter creeps up on him in the future I can only suggest that he find the time in which he lives, and he should not let it pass. It is a pity that the natives who have been attracted to the reserves which have been established for them, are in a state of a wild man.

An excellent article by Mr. Elizabeth Hinde has appeared in the "Times" which I hope will be read by the more thoughtful and well-informed elements in the Colonial Office. The Manchester school of thought has always supported the expansion of Africa, and it is a pity that the natives who have been attracted to the reserves which have been established for them, are in a state of a wild man.

INTO THE HANDS OF BARBES AND STOKELINGS.

Recently in America a false report of children in a land of hives and bees, which has been proved to be a hoax, has been reported. It is a pity that the natives who have been attracted to the reserves which have been established for them, are in a state of a wild man.

station. More than half these are Masai, and the other tribes include Nyanja, Koli, Kikuyu, and Sangu. They are sent on the reservation of District Commissioners and are paid for by the native Native Councils at the rate of Sh. 12/6 per month for the first year and 12/6 for the remainder of the year.

At today's high speeds you can't afford to gamble with worn or unsafe tires. The Goodrich Safety Silvertown with the Life-Saver Golden Ply offers you the two things that you need most. First, the protection against high speed blow-outs and second, extra protection against dangerous "rain-slip" skids. Let us look at the facts:

1. Golden Ply Blow-Out Protection, which is a heat resistant woven rayon fabric in ordinary tires, the Life-Saver Golden Ply is built into every Goodrich Safety Silvertown. This is not an ordinary Golden Ply with a fancy name, but a special, scientific heat-resisting construction developed by Goodrich engineers to overcome the great weakness of every high speed blow-out.
2. Silvertown Safety Tread Slip Protection—In the Silvertown Safety tread works on the same principle as your windshield wiper. The three big center ribs sweep away water at the first sign of a skid. In this way the big double outer row of sturdy Silvertown studs have a drier surface to grip and you're protected against dangerous "rain-slip" skids.
