FRANCE IS OFFICIALLY OFF GOLD STANDARD

FOLLOWING THE BRITISH EXAMPLE OF 1931

Gold Content of Franc

Paris, July 1. France is officially 'off gold.' The Government's first action after securing unfettered authority from both Houses was to make the franc follow the example of the pound in 1931 by pegging it from gold. A portion of the monetary law of October 1, 1936, which fixed the gold value of the devaluated franc at between 40 and 45 milligrams of gold is superseded by a decree which adds that the new gold content of the franc will be fixed subsequently by decree. A later message says the buying price of francs has been fixed by the Bank of France at 28.959 francs per kilo, equal to an exchange rate for sterling of 128.75 francs.

No Exchange Advantage

Rumour messages gave the Government of the situation as follows: Paris, June 30. The Senate today supported the Government's Monetary Powers Bill by 197 votes to 82. Bank at Paris Adverses. The Bank of France has also furthered advances to the State amounting to 15,000,000,000 francs.

PROPOSAL TO UNION

Temporary Regulation of Gold Output. The bill providing for the increase of the Exchange Equalisation Account passed its second reading in the Chamber of Deputies yesterday. Sir John Simon promised to consider the suggestion that the Government should approach the South African Government and request, in effect, that gold output be temporarily regulated.

CRITICAL MEETING TO-DAY ON NON-INTERVENTION

GERMANY AND ITALY MAY OPPOSE NAVAL CONTROL

Serious Issues. Any suggestion by Germany and Italy that non-intervention must continue without naval control is likely to be opposed by Britain and France at to-day's international meeting in London.

If Policy Breaks Down

Ukraine towards Non-intervention as a whole. Tomorrow's meeting of the Non-intervention Sub-committee at which a definite decision is expected on the Anglo-French offer to fill the gap in the observation planes leased to the Germans and Italian withdrawal from sea patrol work is awaited with great interest, in view of the importance of the issue involved. It is recognized that this offer is an essential feature of Non-intervention.

**COMMONS STATEMENT ON ZANZIBAR CLOVES**

**"NO RACIAL DISCRIMINATION" SAYS COLONIAL SECRETARY**

**Reply to Questions**

**"NO PRESENT TRADER TO BE ELIMINATED AGAINST HIS WISH"**

A long statement of the British Government's point of view in regard to the clove situation as Zanzibar has been given by the Colonial Secretary, Mr. W. Ormsby-Gore, in answer to Labour questions in the House of Commons.

"No racial discrimination is involved" he said, "No person who has been dealing in cloves in the past will be eliminated from the trade against his wish, while the exporters will only be affected in that they will have to get their supplies from the (Clovegrowers) Association."

### HER HEAD FELT LIKE A TON WEIGHT

#### Has Had Headaches Since Childhood

#### Fut Right by Daily Dose of Kruschen

After suffering with severe headaches since childhood, Mrs. Kruschen found relief by taking a daily dose of Kruschen. She writes: "I have had headaches since childhood, and they were very bad. I tried many remedies, but nothing helped. Then I took Kruschen, and after a few days I felt much better. Now I take it daily, and my headaches are completely gone."

### A new Avery scale—strong and accurate

#### AVERY COUNTER SCALE NO. 108 WITH "G" TYPE PAK

Only the finest manufacturing facilities have made possible the production of a counter scale with such outstanding qualities at so reasonable a price.

Notice the broad solid base and the wide beam—both contributing to the strength and accuracy of the scale. Consider the convenience of a central lifting handle and a pan as large as those usually fitted to scales of twice the capacity.

Every scale is tested up to full load and adjusted to a degree of accuracy at least twice as high as that required by the stringent British Weights and Measures Regulations.

East Africa Gold Mining

KENYA CONSOLIDATED

LATEST PROGRESS REPORT

Kenya Consolidated have issued Progress Report No. 6 through Associated African Mines, Ltd., Bulawayo, the managers.

The report states "inter alia":

East African Goldfields

REFLECTIONS ON FINANCIAL PROSPECTS OF COMPANY

In a recent Mining News (June 25) the Financial News has the following to say about East African Goldfields, Ltd.

It has been entirely devoted to development. It is obvious that East African Goldfields must see how best to finance its operations. The cash position is not much less favourable than a year ago. Investments in the East African Goldfields Company have increased—raising the interest in mining rights and investment in the Kenya Goldfields Ltd. from 3,000,000 to 4,500,000—and the amount of the company's assets depends upon the progress of the subsidiary. This development has increased its capital from 475,000 to 1,050,000 and developments so far appear to justify the increase. In fact, orders for a plant to treat 50,000 tons per annum have been placed. This recent policy is reasonable, for one reserves on the property, which average 5.65 feet per ton, are sufficient to supply the first unit of the mill for over eight years. In addition, the Lankim mine has increased its reserves to 100,000 tons averaging 5.54 feet per ton, and this should add materially to the output. The Sassa field appears to not very satisfactory financially, and it is obvious that further funds will be required to make it a success. In view of the possibilities of the properties, the provision of the necessary additional capital should not prove an insuperable difficulty.

Died Suddenly

MR. D. MACDONALD BROWN K.C.M.S. DIRECTOR

The "Mining World" announces the sudden death of Mr. D. Macdonald Brown, on June 8. The deceased was only 42 years of age and was specially interested in East African mining. He was the promoter of Tanganyika Mining, Ltd., but resigned his seat on the board when the control of the company was changed. At the time of his death he was a director of Kenya Mining Syndicate, Ltd. He succumbed to an attack of pneumonia. He will be buried at Morgue Street Station.

PERSONAL

The Kenya Mines Commissioner, Mr. E. B. Hosking and Mr. Harcourt, Mining Engineer, have returned to head quarters.

BLUE RAY—2nd Level east drive advanced 75 feet to 715 feet east of shaft; post values exposed. 3rd Level east drive values extracted from 165-210 feet east average 11.4 dwt. over 22 inches. Within 188 feet E advanced to 19 feet level. Average values (55 feet) are 8.3 dwt. over 20 inches. Further work at this section hampered by heavy rains and component water troubles underground.

OWAGO ADIT—drive advanced 62 feet north and 85 feet south on reef. Average values are 15.0 dwt. over 44 inches from 0.55 feet north and 7.7 dwt. over 41 inches from 0.75 feet south. Lloyd Shaft from 220 feet to 2nd level north drive advanced to 181 feet; average values 120.175 feet are 3.3 dwt. over 20 inches. The South drive advanced to 180 feet with average values 1.00 over the last 20 feet.

Heavy rains seriously handicapped work at this section and at Mbita during the week. Development results are as follows:—

Distances Driven Sanded Value

North-west 40 to 45 feet; average values 20.40 feet are 11.7 dwt. over 78 inches; full width not exposed. South-west sunk to 47 feet; average values 20.40 feet are 7.5 dwt. over 67 inches; full width not exposed.

All values reported above are at sample depths.

OIL IN KENYA

A GEOLOGICAL NOTE

Reference to evidence of oil potentialities in Kenya are contained in an article by Mr. J. de Joux in the "Mining News" of the 26th Credit Review. M. de Joux writes:—

In Kenya, if we look for areas showing characteristics similar to those of the oil-bearing countries, we see that, prior to my discovery of the oil-bearing areas by an Arabian Sheik and recent oil-bearing areas, they were covered by a small cap of laterite and alluvial deposits. We may probably find the same oil-bearing areas in the same way where—(from the correlation of the Geology of the oil-bearing areas and the geological structure of the oil-bearing areas and the geological structure of the oil-bearing areas.)

Finally, we have the central part of the Colony north of the Mau-ban-Kin railway line. In this part of the Colony, the oil-bearing areas are covered by a small cap of laterite and alluvial deposits. The Mau-ban-Kin railway line is covered by a small cap of laterite and alluvial deposits. The Mau-ban-Kin railway line is covered by a small cap of laterite and alluvial deposits.

DEPRECIATION FACTOR

Rosterman lost £23,362 in 1936, including £10,000 for depreciation. Gold recovered just met production costs.

These facts are given in the 1936 Report of the Company which states that construction work was completed during the year and treatment plant came into operation in June. As is customary with new plant, there was occasional absorption of gold and small adjustments were necessary before the standard was reached.

SUPERIORITY IN THE SHORT GAME WINS THE TROPHY

A Driving Duel

COTTON AND REES ONLY BRITISHERS TO WIN SINGLES MATCHES

Winning five of the singles matches on Wednesday America retained the Ryder Cup Cup.

The Americans were generally superior to the Britishers with their short game, and this laid the foundation of their success.

One great match was that between Lacey and Beard, which developed itself into a driving duel between the pair.

Another feature of the match was the brilliant play of Reed and Cotton.

The Britisher's inward hall was splendid. He had a deficit of three lines to make, but he succeeded in winning at the 18th.

Lacey's putting was the outstanding feature of the match.

THREE KENYA WEDDINGS

Book—Sequeira

Makaya Church was the scene of a very pretty wedding of June 11, when Miss Myra Sequeira, daughter of Dr. H. N. Sequeira, M.D., F.R.C.P., F.R.C.S., and Mrs. Sequeira was married to Mr. Henry Arthur Book, a son of Mrs. McCall and of the late Mr. H. T. Book of South Africa.

The windows of the Irish school church (the only one of its kind in the country) had been decorated with bouquets of roses and the tiny chancel and altar were lit with similar flowers. The Rev. Alan Gordon, assisted by the Rev. J. Campbell Morgan, performed the ceremony with Mr. George Lewis of Victoria as his officiant. His thoughts throughout were for the bride.

The bride, who was given away by her father, wore a beautiful gown of white tulle trimmed to the figure, the bodice fitted in front, wrist length sleeves and a very long train. (Made by Bonelli, Nairobi). Her only attendant was a Tynes bride given to her by her godmother, Mrs. Hugh Gibson. The tulle veil, which fell to the floor of the train, was held in place by a coronet of orange flowers and she carried a string of madras lilies.

Miss Olivia Rubenstein, Miss Inella Doty and Miss Eileen...

Miss Rose bridemaids. They made a charming group in their frocks of deep plum and orange piping round the hem of the short stiffened bougainvillee necklines of bands of the same rainbow embroidery and similar bands round the wide hem of the skirts. Tulle and silver handbags.

The reception was held at 5 o'clock in the bride's parents' home. Mrs. Sequeira receiving her guests in a gown of pale pink lace mounted on a grey tulle and a nap straw hat trimmed with bunches of pale pink. The food in the hotel dining room was prepared by a chef and the catering was excellent.

Later Mr. and Mrs. Book left on their honeymoon which is being spent at the coast, the bride travelling in a very smart party of seven.

A great many friends from Nairobi went to the wedding and most of them stayed for a considerable party which was held at N'dera after the departure of the bride and bridegroom. The bride's mother had also been present before the ceremony for those who had come from South Africa.

Jameson—Kelsey

Mr. Thomas (Tommy) Jameson, of the British American Tobacco Co., Ltd. Nairobi, was married last Monday, June 26, to Miss Helen Kelsey, a daughter of Mr. and Mrs. A. E. Kelsey of the same firm. The bride was given by Mr. and Mrs. T. J. D. Jameson of London.

The wedding took place at the church of the Holy Family, Nairobi. Mr. MacNamara officiating. Mr. A. E. Kelsey gave the bride away. Every man in the party wore a white shirt and tie, and the bridegroom wore a white shirt and tie. The bride wore a white dress with a long train and a white veil. The ceremony was held at 11 o'clock.

At the reception an elegant silver table set was presented to the bride couple on behalf of the staff of the British American Tobacco Company. The food in the hotel dining room was prepared by a chef and the catering was excellent. The bride and groom left on their honeymoon which is being spent at the coast.

Dennison—Talbot

The wedding took place last Saturday at the Cathedral of the Highlands, Nairobi, Mr. Thomas Dennison Dennison and Miss Diana Mary Talbot, both of Nairobi.

The church had been artistically decorated by Mrs. J. A. Hilton, with the assistance of Miss M. J. Chubb, who was the bride's maid. The bride wore a white dress with a long train and a white veil. The ceremony was held at 11 o'clock.

After the ceremony Mrs. Talbot entertained the guests at a luncheon party at Westwood Park. The bride and groom were accompanied by their bridesmaids and groomsmen.

The bride's going away dress was a white tulle affair with a long train and a white veil. The bridegroom wore a white shirt and tie. The ceremony was held at 11 o'clock.

The Padre of the Roses And His Amazing Experiments In Santa Barbara

'We saw black roses, and blue roses, a rose bush that had perfume in the leaves as well as in the flowers, and rose trees 25 feet high in the garden of Padre Schomer, a retired Valhalla priest 74 years old who lives at Santa Barbara, California,' said Mrs. M. B. Kampf. She was talking about one of the many interesting things seen at the Padre Schomer garden which she had seen during her visit to the United States towards the end of last year.

Mrs. M. B. Kampf, Father Schomer and a friend among the giant rose trees at Santa Barbara, California.

2300 varieties and he has been experimenting with them for over half a century. 'Green roses by now are no novelty, but imagine seeing a black rose, soft as velvet. Or looking down an avenue of 111 trees, between 15 and 25 feet high, showing thirteen different varieties of roses and some of the trees as wide as twelve feet across!' Mrs. Kampf said that it was an amazing sight. 'He is trying to prove to the townspeople of Santa Barbara that rose trees can be used as ornamental trees to his own in which to carry out his rose culture.'

Cricket

Mr. W. G. Grace, the greatest batsman in the world, has been elected captain of the England team for the forthcoming season. The England team will consist of the following players: W. G. Grace, A. J. C. Cook, G. H. Jones, and others.

and Nelson, Walter Hagen (4-6, 6, 1, 4, 6, 4). Perry won, his baseline game, his ground shots being a feature. The United States Professional Golfers' Association has nominated Dunnington to meet Henry Cotton for the world's match play championship, over 21 holes.

It is officially announced that the British States Professional Golfers' Association has nominated Dunnington to meet Henry Cotton for the world's match play championship, over 21 holes.

Having satisfied the Board, Doyle then jumped into a waiting car and hurried off to catch a boat for London.

The balance sheet of Tottenham Hotspur is expected to show a loss of £4,000 on last season.

It will be remembered that Merry Mallock easily beat Gold Sout at York and so on the Ascot, but he must surely be the best three-year-old in training.

The first of the important two-year-old races at the meeting, the Coventry Stakes, was won with ridiculous ease by H. H. The Aga Khan's Merit II, who must be the fastest two-year-old seen in the country since the days of his dam, the Flying Dutchman.

**Notes and News**

H. P. the Governor has kindly consented to become a Patron of the Society.

The Arbor work in Kisumu proved a very successful one for the Society. The well-attended conference held on the 28th of the Institute of a Masai and district forest, with Mrs. O. H. D. and Mr. W. H. D. in the chair. The work in Kisumu has been going during the whole week.

At the Arbor stall on the Show ground, there was a continuation of the work of the Society. A large number of Masai and district forest, with Mrs. O. H. D. and Mr. W. H. D. in the chair. The work in Kisumu has been going during the whole week.

Several special additions have been made to the Forest Dept. Masai's series of pamphlets, "Handbooks" deals completely with the subject and gives a comprehensive list of trees, both local and indigenous, and also to the progress. The planning and management of the Forest Dept. is full of information, but an explanation is needed of one in function.

**THE MASAI AND HER CATTLE**  
**Round The Bridge Table**  
(By Great Items)

Being a broadcast address given by Mr. F. W. Atieno of the Veterinary Department, from the Nairobi Station on July 1st, in the series of Talks to Farmers on the Agricultural and Horticultural Society of Kenya with the co-operation of the Agricultural Department and Messrs. Cable and Wireless Ltd.

As I do not have time to read the full text of the paper, I will only say that the talk on the Masai may be of some interest to the European stockholders in the Colony.

The Kenya Masai, as a people known, are a noble, nomadic, pastoral people inhabiting a reserve some nine million acres in the north-west and south-west of the Colony. They are closely related to the Tanganyika and other Masai and are found in the north-west of the Colony, in the district of the Kavirondo and Kavirondo, north-east of Kilimanjaro.

At one time the Masai held about 100,000 head of the best pastoral stock in Kenya and was the largest of the cattle people of the East. In 1920, however, the Masai population was estimated at about 100,000 head of the best pastoral stock in Kenya and was the largest of the cattle people of the East. In 1920, however, the Masai population was estimated at about 100,000 head of the best pastoral stock in Kenya and was the largest of the cattle people of the East.

**A "Hardluck" Bullock's Death**  
During a rubber tapping last week in the district of the Masai, a bullock was killed by a tree branch falling on its back. The animal was found dead in the forest. The owner, Mr. J. K. M., is very distressed at the loss of his bullock, which was his main source of income. The bullock was about 10 years old and was in good health. The owner is now looking for a replacement.

**Great Milk Made by Europeans**  
From the Masai, it is known that the Masai are very skilled in the art of milking. They use a special method of milking which produces a large quantity of milk. The milk is then processed into butter and ghee. The Masai are very proud of their milk and are very careful to keep it pure. They use a special method of milking which produces a large quantity of milk.

# RHODES-LIVINGSTONE MEMORIAL PLAN

## INSTITUTE FOR CENTRAL AFRICAN STUDIES

The appeal is contained in the following letter, addressed to the Hon. "Duff Assheton" on July 1, 1937. It is a preliminary to the foundation of the Institute for Central African Studies, which will be the outcome of the departure of Mr. Assheton in 1940. It is proposed that the double anniversary should be commemorated in Northern Rhodesia by the establishment of a Rhodes-Livingstone Institute of Central African Studies which will serve as a memorial to the two famous men, in the fullest sense of the word, for the role they played in the future of British Central Africa.

### At Livingstonia

The Rhodes-Livingstone Institute is founded as a contribution to the study of the history and the progress of the African continent, and the Institute is to be a memorial to the two famous men, in the fullest sense of the word, for the role they played in the future of British Central Africa.

The Institute will be a memorial to the two famous men, in the fullest sense of the word, for the role they played in the future of British Central Africa. It will be a memorial to the two famous men, in the fullest sense of the word, for the role they played in the future of British Central Africa.

### Antropologists

It is proposed that those two buildings now in the process of construction should be reserved for the Institute on an estimated cost of £15,000 and visited in the course of the forthcoming tour.

# FIRST NATIONAL PARK FOR EAST AFRICA

## BEGINNING TO BE MADE IN TANGANYIKA

It is officially announced that the Tanganyika Government is beginning to make a park in Tanganyika. The exact boundaries of the area will be determined after further surveying and planning. The park will be a memorial to the two famous men, in the fullest sense of the word, for the role they played in the future of British Central Africa.

### "PACKED IN KENYA"

## Chamber Disappears of Special Label

At the monthly meeting of the Nairobi Chamber of Commerce, a question was raised in regard to the labelling of packed goods. It was stated that a label distinguishing the Kenya packed goods from those of other countries was not attached to them and was not approved by the Chamber. The suggestion of Mr. D. Epstein, at the next meeting for consideration of legislation in connection with a Food and Drugs Bill, was that goods should be labelled in Kenya. Mr. D. Epstein, in speaking against the suggestion of the Bill, stated that goods imported from England from the Continent and packed in Kenya should be labelled in British South Africa, as was done in other countries.

# AIR TRAGEDY OFF ZANZIBAR COAST

## FRENCH MACHINE FALLS INTO THE SEA

That apparently ill-fated enterprise the Madagascar-Paris flight record, has claimed further victims and resulted in the second fatal disaster in just over two weeks. News was received in Nairobi on Saturday that wreckage of an aircraft bearing the registration letters F-ANCF, those of the Caennais monoplane on which the two French pilots, M.M. Philippe Trenchet and Montali, were attempting to break the record, had been washed up on the beach on the south coast of Zanzibar.

The only other traces consisted of a piece of the tail fin or wing, a broken screw, and the remains of a map. Of the two occupants of the ill-fated plane and a trace was to be found. Search is being continued, but no news appears to be forthcoming that they have been discovered.

The plane, lost from French Air Force, was seen on the beach on the south coast of Zanzibar. # WIRELESS PROPAGANDA AGAINST BRITAIN

## REMARKABLE EXAMPLES FROM AN ITALIAN STATION

Foreigners friendly to Britain cannot understand the British Government's attitude to the false propaganda broadcast from Continental Government stations for British influence as Arabs.

An American student of world affairs, quoting some striking examples of Italian anti-British wireless propaganda, asks for enlightenment.

### What is Government Doing?

A few days ago the British Foreign Minister, Mr. Simon, in the House of Commons that he had personally complained to the Italian Ambassador in London, about the false wireless broadcasts from Italy.

### BIGGEST HAY CROP FOR YEARS

Fields Offered for Nothing

"CUT IT AND TAKE IT"  
 ["STANDARD" CORRESPONDENT.]  
 London, June 26.  
 The Corporation year is likely to be long famous in country annals for the weight and date of the hay crop.  
 Anyone who knew of this magnitude even by sight of the stacks of hay which are seen in the West, each in like a haystack. This familiar grass, known by a yard as compensation as cutchick, is a yard and more high, but the height of the bents is not more remarkable than the thickness of the undergrowth, where lies the secret of a good hay crop.  
 The yield of grass is more enormous in comparison with other years—in the drier, more easterly parts of England than in the West, which is the real grass country. They have had not only a good deal earlier than usual, with some results very depressing to the operation; and, indeed, by most Norfolk farmers. On one single partridge drive just over a thousand eggs were laid during a few days of active work by the culvers. The cutting was early, and the hatch, perhaps a little late.

**Shortage of Labor**  
 The magnitude of the crop is much in evidence in the Home Counties to the north of London, in Here and Bucks, for example. Labour is often very hard to procure. Not a man or boy is sent to work or waiting more work; and owners of little fields and paddocks are going about in vain offering their harvest as a gift to anyone who will harvest it.  
 An itinerant merchant, whose goods are drawn by that rare animal, the horse, said that if he could count on two hands the number of fields of hay he has been offered for and for nothing. On those fifty or sixty farms where hay has been harvested and the grass is not yet cut, often, the culvers have scarcely finished their first moult before the fields are ready for the second mowing. The driver and mowers will be continuously at work for months.

**Improved by Keeping**  
 These innovations have proved how valuable a material grass becomes as valuable as the experimenter's "cuckoo" imported from abroad. It will be in the nature of a radiator's disaster if the hay-cutter comes to be despised in a hamper year such as this. Hay, the wise man improves by keeping, and must be of (Continued in next column).

**HE PULLED A LEOPARD'S TAIL**  
 Keeper Killed at Liverpool Zoo  
 ["STANDARD" CORRESPONDENT.]  
 Liverpool.  
 An Liverpool Zoo on June 18 an attendant, John Ashworth, was bitten by a leopard and died from the wounds. He was showing the cage of a pair of leopards when one sprang on him. The keeper had looked after the two leopards since they were born two years ago and friendship with them was so common knowledge in the Zoo.  
 The practice has been for the keeper to drive the animals into one compartment, close the sliding door, close the empty section, get the animals back and then, with the leopards singly on the other side of the sliding door, attend to the second compartment. Ashworth was on the second compartment, when the leopard, after closing the empty compartment for remaining closed and locked the door. He then pulled open the sliding door and pulled the leopard to come through. The male leopard jumped through and "crouched" in the corner. Ashworth then lifted the rope fastening through. He turned his back on the leopard, and, as soon as he did this, the leopard sprang. Man and beast leaped, and the leopard bit Ashworth's shorts were held by another keeper, who found that the leopard had bitten Ashworth in the neck.

"It was a case of 'fatality rules the continent,'" said Mr. George W. Smith, manager of the Stanley Hill Zoo, Liverpool, at the inquest. "Probably he never expected leopards, but you cannot trust leopards or other members of the cat family."  
 John Taylor, another attendant, said that Ashworth had finished cleaning and mow of the cage when the leopard entered through the sliding door and walked round it. It was about to go back through the door when Ashworth, who had just pulled it up, noticed that the animal went to a corner and as Ashworth was stepping in, the leopard sprang and bit him on the neck. He had just pulled up the sliding door when the leopard sprang and bit him on the neck before he entered the cage.  
 high infatigable vein in a stock-raising country.  
 Some few crops have been gathered without division by a drop of rain, and a good deal was in stock before the onset of thunder-storm's season. On the other hand, a good deal is still uncut, chiefly because of lack of labour, and many of it is so heavy that it has been laid flat by the downpours. Hot sun are also doing their best for the sake of saving the crop dead just before the rains.

### SIR JAMES BARRIE MADE HALF A MILLION

"Peter Pan"—£200,000

["STANDARD" CORRESPONDENT.]  
 London.  
 Mr. Bernard Shaw speaking of the late Sir James Barrie said: "Barrie had a good long life. He died overwriting he wanted to say, and now he is dead."  
 ("Barrie") shall be dead shortly. Barrie and I were always good friends. I was fond of him. We were always on very good terms.  
 Sir James who was 71 carried three wives during his long literary career than any other author, living or dead.  
 It is my belief that Sir James brought him over £200,000, but he gave most thousands away.  
 He is a famous business adviser, who holds and has held the financial secrets of many distinguished authors and of the New Queen's Theatre. "Peter Pan" alone earned him something like £200,000; the full rights and royalties bringing an extra £200,000 a year—until he presented the copyright to the Great Ormond Street Hospital for Children.

**Was Married**  
 Probably only a small proportion of Barrie's admirers knew that he married and that the marriage ended unhappily. Sir James married twice. In a serious attack of pneumonia Barrie was carried back to health by the identical actress who had borne a notable hit as Nancy Brown in "Wilkie Collins' 'The Woman in White'."  
 For Mrs. Mary Ansell, a lady of great intellect, character, and wit, he was a devoted and devoted friend. He was married to her in 1894. It was dissolved in 1910.

## ITALY AND GERMANY STAND ALONE

### NON-INTERVENTION DEADLOCK ON SATURDAY

#### Future of Policy

**LORD PLYMOUTH PUTS RESPONSIBILITY ON OBJECTORS**

No progress was made at Saturday's meeting of the Non-intervention Sub-Committee.

The Anglo-French plan was approved by all but Italy and Germany, Portugal announcing that they would accept if unanimity were reached.

#### "Upsetting Balance"

**BRITISH REPRESENTATIVE'S**

Italian Legation in Lisbon, hearing that Italy had not been invited and claiming that it had the right to participate in the negotiations.

It is a complete agreement which would not be revised and which would be signed in London. These four countries, in view of the British Government's policy in the United Nations, are the only ones which would be invited to participate in the negotiations. The Portuguese representative said that Portugal would accept the Anglo-French plan if it was unanimously approved by the committee. The Belgian, Spanish, Czechoslovak and Soviet representatives also agreed to the Anglo-French proposals.

#### French View

The French representative said that neither of the Spanish parties would establish an effective blockade until such a situation had been reached by the committee with legitimate international trade, and that he had to meet the most serious incidents.

#### Acceptable to Britain?

Lord Plymouth said the Anglo-French proposals were unacceptable to the committee. The non-intervention Sub-Committee, which is headed by Lord Plymouth, is the only one which is not unanimous.

#### BRITISH PRESS

**General Support for Government**

The British newspapers continue to support the Government's policy of non-intervention, as revealed at yesterday's meeting of the Sub-Committee. There is a general agreement that the Anglo-French proposals are the only ones which are acceptable to the committee.

## FAMOUS AIRWOMAN MISSING

### MISS EARHART BELIEVED TO HAVE BEEN FORCED DOWN

#### Lonely Part of Pacific Ocean

#### SAFETY DEPENDS ON BUOYANCY OF AIRCRAFT

**[BRITISH BUREAU'S AGENT'S]**  
London, July 3.—The Coastguard cutter Itasca is preparing to search for Miss Earhart, after receiving a radio message at 8.12 p.m. G.M.T. yesterday stating that she had only half an hour's fuel and could not see land.

Miss Earhart had reached the final stage of her flight across the Pacific—and was heading for Honolulu when late on Friday night came the wireless message that she had only half an hour's fuel and could not see land.

A Coastguard cutter—100 miles away and the nearest vessel to the aeroplane—immediately began a search but despite a report that the aeroplane had been picked up by a British vessel, Miss Earhart and her companion were still missing yesterday.

#### Husband's Anxiety

**[BRITISH BUREAU'S AGENT'S]**  
New York, July 3.—The Coastguard cutter Itasca is preparing to search for Miss Earhart, after receiving a radio message at 8.12 p.m. G.M.T. yesterday stating that she had only half an hour's fuel and could not see land.

An hour earlier Miss Earhart's aeroplane had been 100 miles from Honolulu, where the "Itasca" is stationed.

On the instructions of Admiral Raby, Chief of Naval Operations

California, throughout the night system, search operations began five days ago. The length of time with all such operations might have been longer, but the search is being conducted in a "blind" way, and it is not known whether it would have been a short time before the plane is eventually located. Miss Earhart has been reported to have several days of fuel left in the tank.

**Rescue Report Unfounded**

A report was broadcast from Honolulu that Miss Earhart and her companion had been rescued by a British vessel, but after the report was investigated by United States naval officers at Honolulu, it was discarded as unfounded.

**Distress Signals**

July 4.—There is no official news of Miss Earhart and her navigator, but Los Angeles reports picking up signals of distress from the craft between Hawaii and the coast.

**Belgian Premier**

Expected to Reach London To-day

**[BRITISH BUREAU'S AGENT'S]**  
Brussels, July 3.—The Belgian Premier, Mr. Spaak, is expected to reach London on Monday morning, and to meet the other members of the committee.

Arrangements have been made for the visit of the British representative to the Belgian Government in Brussels on Monday morning. The Belgian representative will be accompanied by the Prime Minister, Mr. Spaak, and the Foreign Minister, Mr. De Vries.

It is expected that the committee will meet in London on Monday morning.

Riot of Fun In a Haunted Castle

Robert Donat in "The Ghost Goes West"

Dean Parker approached Robert Donat at Alexander Rodin's London Film Studios. "Am you the man I love, or are you the ghost of his ancestor?" she asked.

The Ghost Goes West!—No date is set up for a longest ghost to turn up in America.

Although he is a ghost in the best traditions of ghost stories, Donat must have sufficient substance to conduct the errand agent, in the old world, of the house, in an extremely funny in his antics and winks at the house, in an extremely funny in his antics and winks at the house, in an extremely funny in his antics and winks at the house...

"The Ghost Goes West" is a romantic comedy, satirized with the best traditions of ghost stories, that has proved increasingly popular wherever it has been shown. It is about an unpunished, spiritual medium named Donald Goats (Robert Donat) who sells his haunted castle to an American man named James Martin (Eugene Pallette) whose pretty daughter Peggy (Ann Parker) fell in love with the castle and its traditions...

THE FILM: "THE GHOST GOES WEST"

The Stars: Will Hay, Gordon Harker, Claude Danper.

The Verdict: Don't miss it! Capitol Theatre, Thursday, Friday and Saturday.

UNCEANING WAR ON ELEPHANTS 2,300 KILLED IN UGANDA LAST YEAR

Parts Still Overrun

THRILLING STORIES FROM THE GAME WARDEN'S REPORT

Was gone on steadily in Uganda and the defenders of civilization are just holding their own against the marauding herd.

This statement is a summary of a major portion of the annual report of the Uganda Game Department.

The opposing forces are the Department and Uganda's elephant population. In 1936 the aggregate casualties of elephants was estimated at 2,300-200 more than in 1935 and the Game Warden states "Uganda is in many parts still overrun with elephants."

Natives' Spear Attacks

"A joint has been made" which means "when it is made it is to explain from where the joint was made."

'Diplomatic' means

To prove the military merit of a campaign of "diplomatic" means the success in the Hunyoro region.

Captain H. J. B. Salmon reported that in the year I captured and killed 10 elephants for, for general use in certain parts of the country at a certain time, or in some other way, the killing of elephants has been a success.

Captain Salmon therefore made a list of the elephants which were killed in the year of June-November, and has been a success.

The whole of the Hunyoro region will be reintroduced into the hands of the natives.

"STANBARD" CORRESPONDENT. London, June 20.

Has already settled on various points which were to be occupied temporarily by guards and houses.

They first of all, were to be occupied by the natives, and the houses were to be built by the natives.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by his correspondents in these columns and in all cases the name and address of the sender must accompany a letter, and necessarily for publication at the discretion of the Editor. Privately it also assumed to ensure its accuracy.

A YALA BRIDGE. The Editor: "E. A. Standard." Sir: I have the pleasure of informing you that during the year 1948 the Government bridge was actually completed for the President and the late National Governor of Kenya East Africa, Sir Kenneth Robinson and the bridge was named "Jackson Bridge." It is the year since 1948 the name "Jackson Bridge" was visible on the bridge, but since then the name has been brushed out and naturally has become, being ignorant of past history, not in its proper place. The bridge is a provision like the highway to Uganda and important parts of the Province. When it was opened to traffic there was an occasional transport in this Province and it was used to take passengers and traffic. The bridge is an asset that will not only save time but also will be of great value to the Province and the country as a whole. It is a pity that the name has been brushed out and naturally has become, being ignorant of past history, not in its proper place.

GAME DESTRUCTION. To the Editor: "E. A. Standard." Sir: I would like to inform you in your paper a letter referring to the destruction of game in the district and would like to express my regret that the Government has also recently been in the habit of destroying game in the district and several miles of the country around Nairobi and Nairobi Park. I should appreciate if I could find wandering Turkana men with spears and hunting dogs. These Turkana are probably for the most part the same who killed on the game which probably will be destroyed in 1949. The game is first shot by dogs and then speared. It actually says that happens on two occasions and have previously often seen game killed in this manner. Turkana and Khasi. I have seen many Turkana men with spears and the slaughter has been on a large scale. The Turkana also kill up to 1000 of their own kind every year. It is a pity that the Government has not taken any steps to save the Turkana from their own kind.

LOAN TO MAIZE GROWERS. Your office: BAHAMUTLA KARIM. Nairobi. June 29. The Government has been generous in the form of bank loans to maize growers in the form of bank loans. period consumption has been heavy and the Government should provide adequate money to keep the roads and bridges in proper order.

TO THE EDITOR: "E. A. Standard." Sir: In the leader contained in your issue of the 24th instants referring to the absence of the Government by the central Government should provide adequate money to keep the roads and bridges in proper order. The loan in question was in the form of a subsidy on maize export.
