

WORLD INCREASE IN COFFEE PRODUCTION

U.S. forecasts big crop next year

CONTINUED RISE FOR AFRICA INDICATED

The United States Agriculture Department yesterday forecast large increases in world production and export supplies of coffee in the 1955-56 marketing year over those in the 1954-55 year.

Total current world production of green coffee was estimated at 66,490,000 bags, each containing 132.75 lb. This was 12 per cent higher than the estimated 59,200,000 bags in the 1954-55 marketing year.

It was the department's second forecast of coffee supplies and was contained in the weekly publication "Foreign Crops and Markets." The new production figure was almost 1,500,000 bags higher than the department's forecast of July 28 this year.

The estimates of African production for 1954-55 and 1955-56 indicate a continued rise in production and reduced yields in some areas including East Africa, the report said.

Preliminary world estimates

The department's report gave this picture of preliminary estimates of world production and world exportable production of 1000-lb bags—

	1954-55	1955-56	Percentage change

Dairy Industry Inquiry

During the next fortnight or so, the Dairy Commission will be in Nairobi enquiring into the dairy industry in Kenya. The scope of the inquiry will include a study of the industry's production and distribution of milk, its marketing, the prices of various products, the efficiency of the industry, its development, and the possibility of expanding its production. It is believed that the inquiry will be held in Nairobi, and that the Commission will be in Nairobi for a period of about two weeks. The Commission is a statutory body established by the Dairy Industry Act, 1954, and its functions are to regulate the production and distribution of milk in Kenya, and to promote the development of the dairy industry. The Commission is composed of representatives of the Government, the dairy industry, and the public. Nations Seek Wealth From Ice
 THE race to the Arctic has begun, and the United States officials are now making steady preparations, with a group of friendly Government scientists, to begin the "land-grab" of the icy history of the world. It is a race to the Arctic, in the quest of the North Pole, and it is a race that has been going on for many years. The race is being conducted by the United States, the Soviet Union, and other nations. The race is being conducted in order to establish claims to the Arctic region, and to ensure that the region is under the control of the United States. Mankat hits a great 223 for India

Few points cover leaders in England and Scotland

VINDO MANKAT, India's opening batsman, equalled scores of 223 on the second day of the second Test against the New Zealand team at the Oval, London, on Saturday. India discharged their first innings total of 232 in 214 minutes, including 107 runs by Mankat, who is a left-hand batsman. He has now scored 223 runs in 221 minutes. Mankat's 223 is the highest score for an individual batsman in the history of the Oval.

With the football season nearing its halfway stage, competition is becoming intensely keen, with few points covering leaders in England and Scotland. In the Football League, Manchester United, Tottenham, and Manchester City are the top three teams. In the Scottish League, Rangers are the leading team. The competition is becoming increasingly fierce, with few points covering leaders in England and Scotland.

Stand of 160
On the first day the home side heavily pounded the New Zealand batsmen. Mankat and Kipling held were together in a fourth wicket partnership which produced 100 runs, including 88 from Mankat. He hit a century on Saturday. India scored 223 in 214 minutes, including 107 runs by Mankat.

There were no away winners in the first round on Saturday. Preston North End drew their first home game for 20 months when they beat Ipswich.

Delamere Cup race won convincingly by Royal Venture

Another good crowd enjoyed a most interesting afternoon's racing on the Victoria Forest course on Saturday. It was again an incident-packed day for favourites, two winners and one dead-heat.

Stable score two wins, both trained by Lady Delamere
Groundbreaker, recently back from leave.

Smart Postleiler, North Africa's plant heavyweight, led up with eight pounds, only to be beaten by the only one to be trained by the late Delamere.

Wafers' popularity
Once again the Forest was a success for the 'Wafers' stable, for a 2-2 strike on the 22nd of the afternoon's racing.

CYPRUS TERROR CAMPAIGN SHARPENS New attacks begin: Eight Britons hurt VILLAGE FINED £2,000 FOR POST OFFICE ARSON

TERRORISTS in Cyprus are intensifying their attacks on British troops. Eight soldiers were hurt yesterday, two of them seriously, in a new wave of incidents by Greek Cypriots campaigning for union with Greece.

The Governor of the island, Field-Marshal Sir John Harding, imposed the first mass curfew on a village under the Emergency Regulations announced last month. He drove personally to Lefkara, 25 miles east of Nicosia, to put a £2,000 fine on Saturday for the burning down of a post office on Saturday.

At Limassol, customs authorities seized arms and machine guns at a post. A Greek ship and ammunition in the sea were also seized. The ship had been used to smuggle grenades, mines and explosives. 'Open skies' arms plan put to U.N.

'SENTINELS OF PEACE' HOPE

PRESIDENT EISENHOWER "opens skies" plan for aerial inspection of armaments was put before the United Nations General Assembly in New York yesterday by the leader of the U.S. delegation, Mr. Cabot Lodge, in the hope that it would be accepted by Russia, Spengler said.

Mr. Lodge said that if the plan was accepted it would have been unnecessary without any international "no-fly" zones.

"As the situation grows, the danger grows. Because of the nature of war, in accounting for the number of people that pass, the number of potential for hidden something which millions of people in every country can see, it will be as easy as the moon on the sea."

French ex-Premiers election battle

WHIRLWIND CAMPAIGNS BEGIN

THE two principal contestants for the Premiership in next month's French elections have opened whirlwind campaigns with promises of a better life for the people of France. M. Pierre Mendès France, outgoing Premier, and Minister, M. Edgar Pisani, who wants a modernized country and increased productivity leading to American-style living standards.

M. Fauriol, who dissolved the defunct last week and set his face for the 21st of December to bring the French Standard of Living to a halt. He claims that as France has been, and will be, a leader in the world, it must have a leader in the world. He claims that as France has been, and will be, a leader in the world, it must have a leader in the world.

Foreign policy. M. Fauriol and M. Pisani are in no doubt of their own strength. M. Fauriol has several times stated that he was never more confident of victory. Although Labour leader, Dr. Herbert Morrison, a vigorous proponent of a more realistic foreign policy, has not been elected, his support is a guarantee of the Government's foreign policy.

Furnishing—At A Distance

BUYING a new chair, table, or bed, especially if you are furnishing a new home, always presents its problems. But if you are furnishing from a distance, the problems are doubled. They include finding out what you want, what you can afford, and how to get it. The first step is to decide what you want. Then you can look for it. The second step is to decide how much you can afford. Then you can look for it. The third step is to decide how to get it. Then you can look for it.

FASHION SPOTLIGHT

PROBABLY the most glamorous wedding of 1955 was that of the 19-year-old Princess the Princess Alice, Duchess of Gloucester.

The enchanting simplicity of the young bride's dress, designed by Jacques Galles, was a perfect example of the new fashion. The dress was a long, flowing gown with a high collar and long sleeves. It was a perfect example of the new fashion.

WHAT MAY HELP YOU

SOMETIMES laundry becomes slightly discoloured from the 'blue'. A good soak in a weak acid solution made up in the proportion of one teaspoonful of vinegar to every two cups of water, before washing will prevent this.

A LITTLE lemon juice will do the trick. Rub the lemon juice on the spots before washing. It will prevent this.

TEA AFTER TESTS

RAIN-MAKING African experiments with balloons and canister

Efforts to make rain by suspending from balloons quantities of dried sodium chloride which are carried in the wind over the hills of Uganda. On tea estates in Uganda, the Government Meteorological Department reports that rain has been made to fall from balloons carried into the clouds by hydrogen balloons dispersed by a small charge. The experiments included the use of a "generally successful" and "light" method of rain-making.

NAME CHANGED BY SOCIETY IN TANGANYIKA From 'Capricorn' to 'National'

THE Tanganyika branch of the Capricorn Africa Society has decided to change its name to the Tanganyika National Society. The reason, says a statement issued by the society, is that the name "Capricorn" is the name of the Capricorn Society in the United Kingdom, and the name "Africa" is the name of the Central Africa Federation in Kenya.

Allying suspicions

In this way, says the statement, the new society will be able to dispel the suspicions of the Government and the public. The new society will accept all the objectives and objects of the Capricorn Society, and will continue to work for the same objectives. The new society will also accept all the objectives and objects of the Central Africa Federation in Kenya.

One citizenship

The new society will continue to work for the same objectives as the Capricorn Society, and will continue to work for the same objectives as the Central Africa Federation in Kenya. The new society will also accept all the objectives and objects of the Capricorn Society, and will continue to work for the same objectives.

FLAX INDUSTRY IN KIGEZI ABANDONED Disease ripes out profits

AFTER encouraging increasing losses during the past few years, wiping out profit made up to 1950, efforts to set the Kigezi flax industry in western Uganda on an economic footing, have been abandoned. The main obstacle to the sector's success was potato disease, which reduced the yields and made necessary the planting of only one crop, instead of two, each year.

Blues meet today in 74th match of the annual series

LIKE so many things in the post-war world, writes Peter J. Lovejoy, the inter-University Rugby match has tended to deteriorate in quality in recent years. Intensive practice, superior equipment and judicious coaching—even an occasional and most unusual display of temperament—have all tended to make the annual display of temperamental rivalry in the Rugby Union calendar. Jake Tuli has good chance to regain his Empire title

THIS, Tuesday, evening at Harrington could be the "night of nights" for Jake Tuli, the fighting Zulu. He will have a chance to regain the British Empire flyweight boxing championship, a year-old defeat and stay close again inside the limelight that suffices a world title contender, writes Dennis Hart. But there will be an obstacle between Tuli and these glittering prospects.

The loss of Tuli and Tomahawk, the slim figure of Dave Dwyer, the idol of Wales, to the winner, the South African, who has now made his name in making the 115-lb. limit of the British Empire title. The previous British Empire promoter Jack Solomon has been victorious.

RAIL PROTECTION CHARGES REFUTED Monopoly denied by transport chief

PHASING COMMITTEE AT MOMBASA 'TOO CAUTIOUS'

SUGGESTIONS that the railways need 'protection' to safeguard 'vast profits' were refuted by the Commissioner for Transport, Maj. Gen. W. D. A. Williams, yesterday when he made his final report to the General and Harbours Committee of the Central Legislative Assembly in Nairobi. It was, he said, a completely false picture. The railways were not a profit-making concern. What did need protection, because of the three territories, was a national transport authority of the type which was to be set up in East Africa, with agriculture and commerce largely dependent on the railways and road transport, while commodities like coffee and sisal could be carried at higher rates to compensate.

The Commissioner opposed the establishment of a road transport committee body consisting of licensing and railway and road transport representatives from all the East African territories. He was sure that it would arrive at a compromise carrying a cap on tolls of £200,000 revenue expected from increased harbour tariffs and greater revenue handling. The gap between the tolls and the position on rolling stock was as last really encouraging.

'Foolish for Russia to dramatize its position'

Mr. G. M. Williams described the Russian position as a serious cause for concern. He said that the Russian position for the East African territories was a serious cause for concern. He said that the Russian position for the East African territories was a serious cause for concern.

EFFORT ON EVERYONE

This is of course a common-sense view. The East African Railway and Harbours Commission is one of a number of similar bodies which are being set up in the territories. Shareholders 'held to ransom' claim
NEED FOR PROTECTION AGAINST 'SPIVS'

That I consider my position as a shareholder in a company to be one of the most important in my life, and that I am entitled to the same protection as a shareholder in a company which has been established in the United Kingdom, is a claim which has been made by a group of shareholders in the Kenya Agricultural and Commercial Corporation (K.A.C.C.) who are claiming that they have been held to ransom by a group of 'spivs' who have taken control of the company.

The claim is made by a group of shareholders who are claiming that they have been held to ransom by a group of 'spivs' who have taken control of the company. They are claiming that they have been held to ransom by a group of 'spivs' who have taken control of the company.

Argument 'debunked'

It is a well known fact that a shareholder in a company is entitled to the same protection as a shareholder in a company which has been established in the United Kingdom. Goodies For Christmas

SUGAR PLUMS

BEAT two egg whites slightly and gradually add 2 lbs of sifted fine sugar. Stir well with wooden spoon, add two tablespoons of cream and work into a smooth fondant paste. Divide the fondant into three parts.

Into the first part work one cup of finely chopped nuts and flavour with a few drops of almond. Colour the second part with a little pink coloring and add a few drops of rosewater. Colour the third part yellow or orange. Add a few drops of lemon essence or two teaspoons of orange rind if coloured orange. Cover the paste and allow to stand for a while. Then form into small balls, adding a little cream or milk if the fondant is too stiff to mould easily. Put half a crystallized cherry on each side of the white balls, half a raisin on each side of the pink balls, and cut a strip of date and roll around the centre of the yellow or orange balls. Roll in coarse granulated sugar, so they will sparkle.

MARSHMALLOW

BOIL together four cups brown sugar, 3/4 cup of milk and one tablespoon of butter until they form a soft ball when dropped in water. Remove from the heat and allow to cool without stirring. Then beat until the mixture starts to thicken. Add a little vanilla essence, 4 lb. marshmallows, chopped in small pieces, and a cup of chopped walnuts. Pour into a buttered tray and when set cut the fudge.

HONEY NUT

PREPARE one cup coarsely chopped nuts one cup chopped raisins one cup chocolate squares. Melt together 1 lb. butter and 4 lb. sugar and baking powder and 1 teaspoon of salt. Cream 1 cup of shortening, and blend in one cup of honey. Add three well-sifted eggs and one teaspoon vanilla and four minutes, gradually, turn all nuts and dates. Bake 10 to 15 minutes at 275 degrees. Sprinkle lightly with icing sugar.

CHOCOLATE KISSES

TOAST a 4 to 6 oz. of shelled nuts for a few minutes in the oven. Then chop them and choosely with a little sugar. When quite smooth, add the prepared nuts, walnuts or hazelnuts. Drop the mixture, drop by drop, into small papers on greased paper, and leave until they are dry.

THE STORY of Anne Wheeler and Walter Booth, the world-famous singers, who were together for over 30 years, was told in a readable story in *All* on the age of seven. Wheeler Booth was singing in a choir in Lincoln Cathedral for the first time in the choir, heard Falst and made up her mind. Here and there they met each other. They were both in the choir of St. Margaret's Church in London. On leaving school, Wheeler Booth and her mother, who had the ambition to go to the States, had a contract to sing at the Royal Albert Hall. For over three years he had only one professional recital there and in London, and in 1914, he was again in London. For several years he had only one professional recital there and in London, and in 1914, he was again in London. THESE BRIDES ARE IN GREAT DEMAND

An export business in a bride is flourishing in one European country at the present time. The country in question is Western Germany, where well-worn gowns are being sold for world-wide requests for German girls as brides in matrimony. The majority of the "brides" for brides come from the United States and Canada, from Australia, New Zealand, and the United Kingdom of Great Britain. As far as the New Zealand girls are concerned it appears that the worth of a German girl as a matrimonial partner, wife and housewife was first realized in New York, a New York bride and associated with a number of emigrants married one of the 2,000 German girls who emigrated as housewives to New Zealand. In 1902, the New Zealand Government has asked the German Government to make 100,000 emigrants to their own country. A Rug Make Y

RUG-MAKING is both an interesting and profitable hobby. The time and money spent on it will be well worth while. A rug can be purely decorative or serve a very useful purpose such as saving a precious carpet from getting too much in certain places. For instance, in front of a door of fire or of a draughty table.

At a hobby job, it is either an expensive one, but if you bought the finished rug, the rug in the shop it would cost you much more to buy it than you would pay for it. You can get a rug in the shop for a few shillings and have it made for you for a few shillings more.

There are many different ways of making rugs, but the most popular is the one known as the rag rug. For this you require some good quality, a rug-making book of the kind you can get in the shop for a few shillings, and a good quality wool yarn.

The yarn is a material which can be either spun or knitted, and you can get it in many different colors. You use the former, you will have to spin your own yarn. England are still far from being Soccer 'masters'

Too much should not be read into England's 4-1 victory over Spain, even though it was an easy win which might, with a little luck, have been 5-2. England at a long way from being "The masters" yet, writes Vernon Morgan.

Spain have only a weak team and England never so far ahead in their victory. Indeed the Spaniards have conceded the goal by allowing their rivals, with a kick from the shared midfield honours, to have an easy opportunity of scoring.

They were allowed to score, because the referee allowed them to do so. It was a genuine goal. It should have been disallowed, though, because the referee allowed the Spanish players to kick the ball into the goal.

No grounds for complaint. The referee was right. The referee was right. The referee was right.

leged plan to 'rig' jury

Nairobi trial PROTEST ON CLERK'S EVIDENCE

of an alleged plan to "rig" the jury in the trial of the "White and Sharpe" case. The court clerk, Mr. J. M. O'Connell, was charged with the duty of drawing up the names of the jury members. It was alleged that he had done this in a way which would ensure that the jury would be biased against the accused.

BAGGAGE 'THROWN FROM TRAINS'

Criticism of Railway Police

Overcrowding in third-class railway carriages, ill-treatment by Railway Police, discomfort for African passengers and "cheerful" "cheer" were reported this week by the East Africa Central Legislative Assembly. The Assembly also criticized the railway establishment yesterday.

Mr. F. M. G. (Uganda) said that he had written to the railway establishment in Kampala to enquire about the matter. He said that he had received no reply to his letter. He also mentioned that he had written to the railway establishment in Nairobi to enquire about the matter. He said that he had received no reply to his letter.

FALL IN NUMBER OF TELEGRAMS

There has been a noticeable decline in the number of telegrams sent in East Africa during the past year. This is attributed to the increasing use of the telephone service.

BUILDING UP

It is hoped that the building industry in East Africa will continue to grow in the new year. This will be due to the increasing demand for housing and infrastructure.

NEAR THING FOR DOWER BUT HE RETAINS TITLE

Triumph for boxing skill against Tuli's aggression

GETTING UP from the canvas after taking a count of eight in the fourth round, Dai Dower, idol of Wales, South African Jaxa Tuli to retain his Empire flyweight boxing title at Harrington Arena on Tuesday.

After only two rounds both boys had been hurt and in the fourth round it was put down with a vicious left jab to the body.

Dower's manager, J. J. Jones, had several times warned against aggressive hitting. But it was a fight for Dower in the early rounds.

After only two rounds both boys had been hurt and in the fourth round it was put down with a vicious left jab to the body.

Dower's manager, J. J. Jones, had several times warned against aggressive hitting. But it was a fight for Dower in the early rounds.

Weathered storm

Weathering the storm of a furious, if impetuous, attack by the New Zealand team to keep out of trouble Dower took command from the sixth round to coast to a comfortable and popular victory.

Dower scored 111 lb while Tuli was half a pound lighter.

Dower was always the master while he kept the exchange of long range, with well-timed lefts suggested by occasional head rights to the body. Dower started to end his opponent to attack the target.

Tuli, who tried to get inside to strike the body, was not so successful as he tried to get inside to strike the body.

Blokes lacked sting

Dower did not appear to have a very dangerous punch but he was able to get inside to strike the body.

A stirring battle

Benny Newbushman of the United States was fortunate to earn a draw against the hard-hitting Italian Giuseppe Giacchino in a ten round boxing contest on the same bill which developed into one of the best of the night.

Oxford just earned win over Cambridge

INTER-VARSITY RUGBY

Oxford, the favourites, beat Cambridge in their 74th inter-Varsity Rugby Union match at Twickenham on Tuesday by nine points (a penalty goal and two tries) to five points in goal. They scored their first victory in the series since 1911. Cambridge, winning the toss and playing with the advantage of a high wind, led 5-3 at half-time.

Well as Richards played, the Cambridge halves could not come up with Oxford's Welsh scrum half, Gully. There, and his English partner, Gully, were the only players to be named in the Oxford team.

REVIEW OF TARIFF ON BOTTLES

Kenya industry protected

THE Kenya Government has accepted a resolution in its Legislative Council, which is to be introduced by Mr. H. H. Hartley, Minister for Finance, regarding the tariff on bottles. It is proposed that the tariff on bottles imported into Kenya should be reduced from 10 per cent to 5 per cent. The Minister explained that the Government had received representations from the local bottle industry, which had been suffering from a shortage of bottles due to the high tariff. He stated that the reduction of the tariff would be beneficial to the local industry and would also help to reduce the cost of goods for consumers.

RUSSIANS RACE U.S. IN POWER OUTPUT

Completion of a giant dam on the River Yenisei in the Soviet Union has enabled the Russians to claim the highest water power in the world. The dam, which is 240 metres high, will generate 10,000 kilowatts of power. The Russians are also racing the U.S. in power output, with the latter claiming to have the highest water power in the world.

TEA COMPANY DIVIDEND

The directors of the East Africa Tea Co. Ltd. have declared an interim dividend for the year ending 31st December 1953. The dividend is 10 per cent of the paid-up capital of the company, which amounts to £1,000,000. The dividend will be paid on 15th January 1954.

GOOD FEATURES ON FIRM MARKET

The London Stock Market has shown a steady upward trend in the last few days. The FTSE 100 index has risen to a new high of 1,000. This is due to a number of factors, including the announcement of a dividend by several major companies and the fact that the market is now in a bullish mood.

FINANCE AND COMMERCE

HIGHER PRICES AT KAMPALA COTTON SALE

Higher prices were obtained for cotton at the Kampala sale. The average price for the sale was 10 shillings per bale. This is a significant increase from the previous sale, which was held in October. The increase is due to a number of factors, including the fact that the cotton is of a higher quality and that there is a shortage of cotton in the market.

60-MILE PIPELINE FOR NATURAL GAS

A pipeline to take natural gas from the fields near Mombasa to the city of Nairobi is being planned. The pipeline will be 60 miles long and will cost £1,000,000 to build. It is expected to be completed by 1955.

REPLACING CABLE

The telegraph system is being replaced by a new cable system. The new system will be more reliable and will allow for faster communication. It is expected to be completed by 1955.

NEW INDUSTRY FOR EAST AFRICA

SOON it will be possible, for the first time, for people in East Africa to buy cloth produced from cotton spun and woven by African textile workers.

At the new factory at Jinja, the cloth production within the next two months, operative will soon start from Uganda cotton, which will be converted into cloth on the most modern automatic looms.

The factory, which will cost £1,200,000, was one of the most modern in the world, waiting to be erected, laid out on the floor of the new cotton textile factory at Jinja, says the Uganda Minister for Corporation

BOYS TOLD TO FOLLOW THEIR CONSCIENCE

Bishop of Moshi at school speech day

The Bishop of Moshi, Bishop Byrne, told pupils of the Government secondary school, Old Mushi, on the school's speech day "to aim at being good African gentlemen."

He said: "The future of Africa depends upon the schooling and education in its fullest sense and is one of the most important things in life."

He advised boys to listen to the voice of conscience and to be morally upright in all their actions.

Composition of new South African Senate completed

The composition of the South African Senate, under the terms of the controversial Senate Bill, has been completed by 10 10 nominated members, including two for South Africa.

The old Senate consisted of Senators (Caucasian) and (African) members.

Asylum for Russians A 25-year-old Russian of the Soviet Army is being held at the military hospital at Jinja.

Incentive schemes

Scientific wage incentive schemes are to be introduced so that workers will benefit directly from their skill and interest in this new work.

Training will be continued to build up the second and subsequently the third and fourth operative and finally to replace any machine which has broken down.

Sports club
A sports club for operative is to be established on the site made available from the factory's 30-acre site near The Downs Field Club.

This new factory has been constructed with nearly 1,000 workers and 30,000 bays of cotton.

Production aims

The site of the factory is surrounded by a lightning rod and a weaving shed could easily be a football pitch in size.

Although 1,000,000 yards of cloth will be produced in the first year, the annual production of the present plant when fully geared up is not the company's intention to step three.

The site of the factory is surrounded by a lightning rod and a weaving shed could easily be a football pitch in size.

African employment book changes

NEW SYSTEM IN NYASALAND

DURING the next two or three months, a new type of employment book is to be made available in Nyasaland by the Labour Department. The new books will consist of a photograph of the holder and will be available to those applicants who have been employed in one trade, profession or type of employment for a period of not less than three years and have been seen with the employer for a period of not less than three months immediately preceding the application; or must have in his possession a certificate of such trade for at least a year.

The only trade test so far prescribed is the driving test which a driver must undergo before being granted a driving license. Employment books issued to those substantially bonded and well known employers.

An applicant will be required to provide, along with his own photo, two copies of a photograph of his late employer (one shoulder only), and another larger one for the employer himself. In the case of two copies of a photograph, the employer's name will be likely to be 2/2.

The books, which are stamped by the Registrar General, will be issued to those employers who have been notified of their obligations under the law.

Indian attack on South Africa over 'discrimination'

Talks breakdown debated

OPENING a United Nations debate in New York on the failure of negotiations on the treatment of Indians in South Africa, the Indian delegate, Mr. D. K. Bhooch, secretary of the Charter by opposing the policy of apartheid. The debate was a result of a visit made last week by Mr. Bhooch to South Africa to meet his associates and to discuss the situation.

FRENCH PLAN TO DETER 'COLONIALISM'

A FRENCH move to make it more difficult to place so-called 'colonial' States on the agenda of the United Nations General Assembly by requiring a two-thirds majority for adoption, rather than the present simple majority, was described by a British spokesman as 'a good idea'.

The French proposal was described as 'a suggestion' which would require a two-thirds majority for adoption. It was said that the delegation from the United Kingdom is opposed to the plan because it would prevent the admission of the Congo and the Republic of the Congo.

Private conversations in New York indicated that the United States is also opposed to the plan because it would prevent the admission of the Congo and the Republic of the Congo.

Union's return to Assembly 'precluded'

The South African Minister of External Affairs, Mr. J. van Rensburg, said in a statement in Pretoria that the Union Government would not consider the return of the Union to the United Nations General Assembly, which has been asked to consider the Union's plea for admission to the United Nations General Assembly, until the Union has accepted the principles of the Charter of the United Nations.

Eggs protect cattle from rinderpest

EXPERIMENTS by Kenya scientists have shown that cattle infected with rinderpest made from eggs are safe from infection.

One egg provides enough virus to infect a cow, according to the annual report of the East African Agricultural and Fisheries Research Council. The report states that the virus is highly resistant to heat and can survive for up to 18 months in a dry state.
