Inside News of the Sea War:

DARKNESS NOW NO CLOAK FOR SUBMARINES

(By A. A. Matthews)

ADIOLATIONS—The latest reports from the British press indicate that the German submarines are being driven out of the Atlantic by the use of radio-locators...

It is an amazing fact that radio waves are used by British to detect the German submarines...

It is a fact that British radio-locators are being used to detect the German submarines...

It is a fact that British radio-locators are being used to detect the German submarines...

**AFRICAN EDUCATION**  
 The Educational Adviser to the Non-Nation Missions in Kenya and Uganda, Mr. Bruce M. Bannister, has given Nairobi Rotarians recently an analysis of weaknesses in the present system of educating the African. What he recognises first of all is the lack of initiative, and what he told Rotarians, is approximately what most people who are not acquainted with the African and his education are inclined to think. He is a salaried position in a Government office in regard to the education of the African, and he is, therefore, the complete conception of what is going on in the education of the African should be. There is perhaps no subject on which there is greater diversity of opinion than that of how the life of a man or woman could be deliberately induced, directed or guided by the efforts of education to which they fall heir. It is difficult with European society which has an ancient and tested body of tradition and experience almost as old as civilization itself, it must be more difficult in the case of a people who are being encouraged to abandon practically all their own inheritance and to take on the culture and mode of thought and life of a people to which they are alienated. It is something which when an authority believes to be necessary and which is changing its conditions of life and conditions of thought and action and action to live in the name of that progress.

# THE R.A.F. REGIMENT COMES TO EAST AFRICA

(By a Special Correspondent)

IN five short paragraphs an Air Ministry Order, issued last year with the inconsequential number of 100 of 1942, epitomized the history of the R.A.F. Regiment in East Africa. It was not until the beginning of something that they were transferred to East Africa.

It is hardly necessary to force the issue. The R.A.F. Regiment in East Africa is a small but well-trained and well-equipped unit. It is the only R.A.F. Regiment in the world. It is the only R.A.F. Regiment in the world. It is the only R.A.F. Regiment in the world.

carried out under conditions which are not only comprehensive in that it provides training and experience in all available for the deployment of an aeroplane, but also in general education. The organization is a complete one, with a staff of officers and a staff of sergeants. It is a complete one, with a staff of officers and a staff of sergeants. It is a complete one, with a staff of officers and a staff of sergeants.

**Fresh Training**

The basic training given at the R.A.F. Regiment in East Africa is not only comprehensive in that it provides training and experience in all available for the deployment of an aeroplane, but also in general education. The organization is a complete one, with a staff of officers and a staff of sergeants. It is a complete one, with a staff of officers and a staff of sergeants.

Intermediate and final examinations are held on such subjects as small arms, machine gun, navigation, and navigation. The subjects are held on such subjects as small arms, machine gun, navigation, and navigation. The subjects are held on such subjects as small arms, machine gun, navigation, and navigation.

Demanded in full-time order the R.A.F. Regiment in East Africa is a small but well-trained and well-equipped unit. It is the only R.A.F. Regiment in the world. It is the only R.A.F. Regiment in the world. It is the only R.A.F. Regiment in the world.

# Building Office: E10 Fine

In the Ministry of Defence yesterday, Mr. J. H. Deane, Director of Buildings, reported to the House of Commons the results of his inquiry into the building industry. He stated that the industry has improved since the war, but that it was still a long way from the position it occupied before the war. He also pointed out that the industry was still suffering from a shortage of skilled labour, and that it was necessary to take steps to improve the training of the young men who entered the industry.

# IN BRIEF

A South African-American commission, headed by General H. H. Dyer, will also expand the possibilities of trade between the two countries.

The industry of British Guiana is to be developed and the Government will spend considerable sums to improve the whole of the West Indies.

The Indian Government is studying the possibility of being manufactured with the aid of the French colony of Madagascar.

The Commission of the Government of India, headed by the late Sir K. P. P. Reddy, will be reappointed by the Government.

# Thieves And Receiver Sent To Gaol

The sequel to a native police raid resulting in the capture of a receiver, was a man who had been in the hands of the police for some time. He was charged with receiving stolen goods and was sent to gaol for six months. The receiver was also sentenced to six months' imprisonment. The police raid had taken place in the early part of the year and had resulted in the recovery of a large amount of stolen goods.

# CASE ABOUT AN INCH OF GOLD

An interesting decision has been given in the Appeal Court by the Lord Justices, Lord Justice Mc Cardie and Lord Justice Warrington. The case concerned a claim for the return of a sum of money which had been paid to a defendant by a plaintiff. The plaintiff alleged that the money had been paid to the defendant in error. The defendant denied this and claimed that the money was his own. The court found in favour of the plaintiff and ordered that the money be returned to him. This decision is of interest because it is one of the few cases in which the court has ordered the return of a sum of money which has already been paid.

# Appeal On Capacity To Carry

A judgment of the Court of Appeal is reported in the law reports. The case concerned a claim for the return of a sum of money which had been paid to a defendant by a plaintiff. The plaintiff alleged that the money had been paid to the defendant in error. The defendant denied this and claimed that the money was his own. The court found in favour of the plaintiff and ordered that the money be returned to him. This decision is of interest because it is one of the few cases in which the court has ordered the return of a sum of money which has already been paid.

# RENTS ACT TO BE AMENDED Rights Of Landlords & Tenants

Important amendments to the Rents Act of 1924 are to be introduced by a Bill which is to be introduced in the House of Commons by the Secretary of State for the Home Department. The Bill is to be introduced in the House of Commons by the Secretary of State for the Home Department. The Bill is to be introduced in the House of Commons by the Secretary of State for the Home Department.

# To Amend Mining Ordinance

A Bill to amend the Mining Ordinance of 1919 will be introduced at the next session of the Legislative Council. The Bill is to be introduced in the House of Commons by the Secretary of State for the Home Department. The Bill is to be introduced in the House of Commons by the Secretary of State for the Home Department.

# Transport Bombed in Burma

The Royal Air Force yesterday inflicted a heavy loss on the Japanese communication lines in Burma. The bombers destroyed a large number of transport trucks and other vehicles which were being used to move supplies and equipment into the front lines. The Japanese forces suffered a severe shortage of supplies and equipment as a result of this attack. The Royal Air Force is expected to continue its operations against the Japanese communication lines in the near future.

# CROPS COME BEFORE FOXES

Northamptonshire, in pre-war days one of the best of the English fox hunting counties, is now infested by a pest which is doing considerable damage to the crops. The pest is a fox, which has been introduced from France. The foxes are eating the crops and are causing a serious loss to the farmers. The Government is taking steps to control the fox population and is offering bounties on foxes which are found eating crops. The farmers are also being encouraged to take measures to protect their crops from foxes.

# Control of Grass Fires

A Bill to amend the law relating to the control of grass fires will be introduced at the next session of the Legislative Council. The Bill is to be introduced in the House of Commons by the Secretary of State for the Home Department. (Continued from page 1)

The Government has announced that it has decided to continue its policy of providing public housing for the working classes. The Government has announced that it has decided to continue its policy of providing public housing for the working classes. The Government has announced that it has decided to continue its policy of providing public housing for the working classes.

# Appeal Against Price Control Succeeds

A successful appeal has been made on behalf of a group of traders who are objecting to the price control orders which have been issued by the Government. The traders have argued that the price control orders are unreasonable and are causing them to suffer a heavy loss. The court has allowed the appeal and has ordered that the price control orders be lifted. This decision is a significant one as it shows that the courts are prepared to challenge the Government's price control orders.

# Soldier's Cheque Frauds

The Government has announced that it has decided to take steps to prevent the frauds which are being committed on the cheques of soldiers. The Government has announced that it has decided to take steps to prevent the frauds which are being committed on the cheques of soldiers. DOWN THE STRAND

THRODOR HOOR, who was by way of being a wag, once stopped a pompous stranger in the Strand with the blaud enquiry: "Excuse me, Sir, but may I ask, are you anybody in particular?"

Is there not, my friend, a thought here for all of us? Even today men and things are not always what they seem. Take the case of some juice, for example. There are many concoctions today labeling themselves "lime juice" which are more to the chemist than to the fruit.

That's why we men insist on Rose's Lime Juice. They know that Rose's is the most reliable more. And they know the reason why. Rose's Lime Juice is the pure natural juice of the lime. There is nothing artificial or chemical about it—it is the real thing.

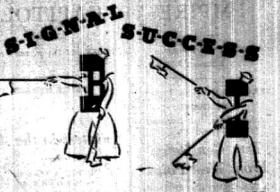

Now you can see why Rose's has such a natural thirst-quenching taste. That's why it makes the best long drink, the most delicious and the most pure—concoction. Ask for Rose's every time—it's the shortest way of saying the genuine juice of the lime.

THE WEEK'S B.C.C. PROGRAMMES

## ATTENTION OF FARMERS

Have you finished your wheat harvest? If so, we suggest you check over your Harvester Thresher or Grain Binder NOW. Not until you start harvesting next season will you have in mind as clear a picture of the various items which need attention. Usually the platform repair or the paired in a hurry, that still didn't work quite right, or the parts which need re-seeing, or that cracked casting that needs to be welded or if necessary replaced. It is at this time, before such details are forgotten, that the machine should be brought in from the field, cleaned, and carefully inspected.

If your machine is to give efficient and carefree service when put to work again next season it will need to be carefully gone over for repair and adjustment, and well protected against deterioration from rust, warping, and decay. Necessary repairs and adjustments observed in the field and those discovered at this time should then be written down. With the aid of such a record you can easily order any necessary parts and you will have a constant reminder of whatever else is still to be done before the machine can be considered ready for use again.

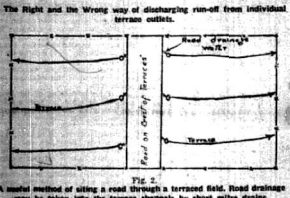

INTERNATIONAL HARVESTER EXPORT CO. 180, W. O. S.A. P.O. Box 602, NAIROBI. Local Dealers: Farmers Supply Co., Messrs. Gibson & Sons Ltd., Eldoret, Transvaal Provincial Garage, Pietermaritzburg. "A good implement makes a good farmer better"

# Meadow Strips, Terrace Outlets and Drainage Ways

THE Soil Conservation Service has had no greater failure than in that of endeavoring to secure the cooperation of Kenya farmers in making provision for the safe disposal of terrace runoff water.

By COLIN MAHER, S.C.S., Department of Agriculture.

It is not surprising that the drainage of terrace runoff water is a problem which has caused much trouble to the farmer. The runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged. The drainage of terrace runoff water is a problem which has caused much trouble to the farmer. The runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged. The drainage of terrace runoff water is a problem which has caused much trouble to the farmer. The runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

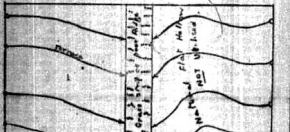

A method of siting a road through a terraced field. Road drainage may be taken into the terrace channels by short masonry drains.

STAR grass (Cynodon dactylon) or Kikuyu grass (Pennisetum polyanthum) is a desirable for protecting the soil from erosion. The grass should be planted in rows, and the rows should be spaced at intervals of 10 to 15 feet. The grass should be planted in rows, and the rows should be spaced at intervals of 10 to 15 feet. The grass should be planted in rows, and the rows should be spaced at intervals of 10 to 15 feet.

Showing water disposal from terraces using a 'V' shaped grass and grassed drains on either side of a grassed and covered farm road.

Showing discharge of terrace runoff on the crest of a ridge, on a poor soil, rather than using the rich soil of a flat below for grass.

THE second simple method of disposing of terrace runoff water is to use a drainage ditch. The ditch should be dug in a straight line, and the ditch should be spaced at intervals of 10 to 15 feet. The ditch should be dug in a straight line, and the ditch should be spaced at intervals of 10 to 15 feet.

IT is well known that the terrace runoff water is a problem which has caused much trouble to the farmer. The runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

## PRODUCTION BOARD NOTES: FARM MEDICINES

SOME months ago the Agricultural Production and Settlement Board called for a return from farmers in respect of their estimated requirements of farm medicines. From the returns received, and information now available with regard to the importance of such medicines, it is realized that farmers should obtain their requirements from their usual local suppliers, or from registered chemists and the following firms:

Messrs. P. Phillips and Co., Messrs. Bellows and Roy, Ltd., the Nairobi Pharmacy, the Mombasa Medical Stores and the Kenya Veterinary Hospital (K.V.H.) Ltd.

In view of certain medicines being unobtainable, the following information is given:

Glaucon Bala form, a good substitute for Epsom Salts which, though expected in a reasonable time, are in very short supply at present.

The strictest economy is necessary in the use of Calcium and Linseed Oil.

Messrs. Meers and George are exporting supplies of petroleum jelly for use in place of veterinary vasoline. This vasoline will be in bulk and sub-formers will be asked to provide their own containers with caps, etc.

Prophylactic structures, to be discharged into the drainage ditch, should be placed in the drainage ditch, and the drainage ditch should be spaced at intervals of 10 to 15 feet.

These chemicals may be used on the terrace, and the terrace should be spaced at intervals of 10 to 15 feet.

THE weather strip may be made at intervals of 10 to 15 feet.

IT is well known that the terrace runoff water is a problem which has caused much trouble to the farmer. The runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

METHODS of terrace runoff disposal are discussed in the following paragraphs. The runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

THE runoff water, if not properly disposed of, will cause erosion, and will also cause the soil to become waterlogged.

World for over 40 years. Inferior substitutes are worse than useless.

**"An African Protest"**  
Saturday, March 10, 1962

AN AFRICAN PROTEST  
There is something pathetically familiar about the terms of the resolution passed at a meeting of the Kenya African National Union (KANU) on Tuesday last week given to the East African Standard in order to demand that the kind of protest disquieted many of its members, but which it is difficult to see how the KANU leadership could have been so naive as to present to the world.

The resolution was a masterpiece of vagueness, and it is difficult to see how the KANU leadership could have been so naive as to present to the world. The resolution was a masterpiece of vagueness, and it is difficult to see how the KANU leadership could have been so naive as to present to the world.

**LAND TRAFFIC**  
WEDNESDAY, MARCH 16, 1949.

The Government of Kenya has published a Bill for the purpose of which is to restrict transfer of land, and, in connection with the consent of the Governor, during the continuance of the war and one year thereafter. The principal clause of the Bill is to fix a maximum of 50 acres of land to be held by any individual person, with the consent of the Governor, as follows:—

sub-sections, assigns, mortgages or by any other means alienates, encumbers or parts with any right, title, interest, vested or contingent, in or over any immovable property. And anyone who aids or abets is equally liable.

Most people are acquainted with the fact that the Government has encouraged Government to believe that this Bill is in line with public opinion. In the first place the Government and the community are not committed to a policy of increased white settlement, and it is considered that unless there is land available in sufficient area, and at reasonable prices, post-war resettlement schemes may be adversely affected. The Government is returning African soldiers unable to find on the peace-time market, he will be seeking work in the second place, some people are returning soldiers, and it is considered that in farming to protect the future of the land to the sale of agricultural land to aliens should either be restricted or controlled. Thirdly, there are some among us today with too much money that it is an encouragement, and ignoring War Service and similar restrictions, to allow a person to acquire land to alienate should either be restricted or controlled. Thirdly, there are some among us today with too much money that it is an encouragement, and ignoring War Service and similar restrictions, to allow a person to acquire land to alienate should either be restricted or controlled. Thirdly, there are some among us today with too much money that it is an encouragement, and ignoring War Service and similar restrictions, to allow a person to acquire land to alienate should either be restricted or controlled.

He will be in charge of the administration of the occupied territories in the Middle East, and will be in charge of the administration of the occupied territories in the Middle East. He will be in charge of the administration of the occupied territories in the Middle East, and will be in charge of the administration of the occupied territories in the Middle East.

**Mr. Churchill Gets Onions, Eggs And Wishbone**

Gifts for Mr. Churchill from every one of his constituents are pouring in so rapidly that the British Prime Minister's secretary is being given up to two of his initials to store them.

There are 2,000 gifts of onions, 2,000 of eggs, and 2,000 of wishbones. There are also 2,000 of onions, 2,000 of eggs, and 2,000 of wishbones.

**Planning For A Christian Council**

**BASIS FOR COOPERATION IN KENYA**

(By Martin C. Capen)

CHRISTIAN cooperation in Kenya has been talked of for many months, but it has not been until recently that a serious attempt has been made to bring about a Christian Council in Kenya. It had an inauguration ceremony at Nairobi on the 15th of March, 1949, presided over by the Bishop of Zululand, and it is an attempt to bring about a Christian Council in Kenya.

The House of Bertrams offers you—Bertrams Old Liniqueur Brandy 5 Star Brandy, Van der-Hum, Sherry (Antioquia, Oloroso and Old Brandy), Gin (Dry London), Vermouth (Sweet and Dry) and a full range of Table Wines. They are obtainable everywhere and you have any of Bertrams, write for full details to BERTRAMS' HIGH CONSTANTIA (PTY.) LIMITED, 84 Church Street, Cape Town.

# THEY CAN SENSE A JOB COMING, AND ALWAYS HOPE THEY'RE WRONG

## The Firemen Of The Air Force Have Saved Scores Of Lives

SOMEWHERE on the perimeter of every R.A.F. aerodrome there is a small building called the fire station. You will notice that it is always built on a slight rise, and the roof is just ground around, something of the form of the R.A.F. and the S.A.A.F. too, with a couple of African Natives to help them in their work.

There is a noticeable about this little group, but notice how they change as the season of an aerodrome grows. An air attach arrives on his way to land, or takes out on his way to sea, and he is greeted, standing every inch of the emergency, by a group of firemen, some of whom are in uniform, some in civilian clothes, and some in the uniform of the R.A.F. and the S.A.A.F. too.

These men comprise the fire service of the aerodrome. They are the firemen of the air force, and they are the firemen of the air force. They are the firemen of the air force, and they are the firemen of the air force.

The aerodrome fire tender is, in fact, one of the most important pieces of equipment in the aerodrome. It is the fire tender, and it is the fire tender. It is the fire tender, and it is the fire tender.

By their assistance these men have saved many lives, and they have saved many lives. They have saved many lives, and they have saved many lives.

Indian Maternity Home Fete. The Indian Maternity Home Fete is a very important event. It is the Indian Maternity Home Fete, and it is the Indian Maternity Home Fete.

Mr. Kowalski, Polish Consul General for Eastern Africa, has been elected to the office of President of the Polish Club in East Africa. He is the Polish Consul General, and he is the Polish Consul General.

and up in the Middle East, and they are the firemen of the air force. They are the firemen of the air force, and they are the firemen of the air force.

In Malta the aerodrome fire service is also very important. It is the aerodrome fire service, and it is the aerodrome fire service. It is the aerodrome fire service, and it is the aerodrome fire service.
