WOODMAN, SPARE THAT TREE!

A SONG which was popular a little time ago both on the radio and on the concert platform, made the rather self-satisfied woodman think that only God could make a tree. Sentimentality and forestry perhaps have no closer ties—trees growing in misty situations may be considered as a crop like other plants.

Period of growth and then their decay. The woodman's axe is a cruel and deadly enemy, but it is necessary to cut down trees in order to make room for new ones. The woodman must remember that a tree is a living being, and that it has a life of its own. It is not a mere commodity to be cut down and sold for profit.

It is a pity that the woodman's axe is so often used in a thoughtless and wasteful manner. The woodman should be taught to respect the tree, and to use it in a way that will be of benefit to the community. The woodman should be taught to plant new trees, and to care for them as if they were his own children.

A Brilliant Shine plus Nourished Leather - thanks to KIW Dark Tan! Through the dry, dusty and hot conditions of the native country, the leather of the native animals is rapidly becoming dry and cracked. KIW Dark Tan is a brilliant shine and nourishes the leather, making it soft and supple. It is a must for all who have leather goods.

### CHILDREN IN WAR-TIME

How significant our little  
ones have become in these  
uncertain days—how completely  
we watch and safeguard them.  
Let us continue to do so for  
brighter days with more  
assured dawn both for them  
and for us and the children,  
delivered and guarded during  
this critical period, will enter  
men upon a happier heritage.  
So keep up their health and  
spirits and give them always  
the very best you can afford.  
For your baby COWGATE  
will give that special and  
essential nourishment needed  
now to build up a healthy  
frame—a robust body—and a  
happy and tranquil disposition.
