EMPIRE DAY
Apart from the war, no topic is claiming a greater share of public attention at the present time than the future of the British Empire. It is linked with all the major aspects of construction of the world in the post-war years. Its consideration is influencing the world in the view of what it is governed, by the Empire principle.

INGO TOBACCO GROWERS' NEEDS
Tobacco is the main crop of the African, even now the Empire is in a struggle for its survival. It is the symbol of the continent, and it is the main source of its wealth. It is the main source of its wealth.

PERSONALLY SPEAKING...

An interesting meeting took place at the New Stanley Hotel, in the Battery House, a week-end West-End party, at Mrs. Mortimer's, and in her Presidential Speech, it was the "Inner Wheel" were entertaining their members of the Rotary Club and Rotary Units were in attendance. The meeting was presided over by Mrs. Mortimer, who was specially appreciated by the guests.

To the absence of Mrs. Kettlewell, Mrs. C. E. Mortimer, the Presidential Address outlined the very best work the Rotary Club should do in the future. There were about 100 ladies in attendance, and they were in the Chamber area of the building, and the Chairman at the moment, Mrs. Mortimer, who had fulfilled his duty in the matter of the Rotary Club, and the meeting was a success.

The other new project was the Children's Hospital Club which the Rotary Club had been asked to take on. It was to be a fund-raising scheme to help the children of the hospital, and the meeting was a success.

Mrs. C. E. Mortimer spoke also of the ideal of service which was the motto of the Rotary Club, and she said that she was proud to be a member of the club.

Mrs. B. F. Macdonald followed with a very speech which she gave to the Rotary Club, and she said that she was proud to be a member of the club.

CIRCLE AND STALLS

ONCE again the folks who watch over your cinema entertainment are having trouble. Every effort is being made to show "DEBERT VICTORY" next week, starting on Sunday, at the Capital. But this picture has flown to New York, Moscow and Chungking is showing some tardiness in reaching it from Sunday onwards. It is, as you all know, the story of the Eighth Army's deeds in the North. It is a true and wonderful historical document.

★ CIRCLE AND STALLS ★

ONCE again the folks who watch over your cinema entertainment are having trouble. Every effort is being made to show "DEBERT VICTORY" next week, starting on Sunday, at the Capital. But this picture has flown to New York, Moscow and Chungking is showing some tardiness in reaching it from Sunday onwards. It is, as you all know, the story of the Eighth Army's deeds in the North. It is a true and wonderful historical document.

British Peers' Post-War Plan For Agriculture

A Lord De Warr indicated during the recent debate in the House of Lords on the future of agriculture, a number of leading Whig political circles, have agreed upon the principles of a post-war plan for agriculture. In a forward to their memorandum, just issued, they state:

"We have agreed to the following proposals, containing a comprehensive survey of the present situation of the agriculture of the United Kingdom. The task before us is to find a solution which will be equitable to all concerned and which will be prepared to embrace such changes as it entails. It is our hope that a fair and effective solution will be found which will be to the benefit of the whole country."

"It is our view that the present system of agriculture in the United Kingdom is a complex one, and it is our view that a fair and effective solution will be found which will be to the benefit of the whole country. It is our view that the present system of agriculture in the United Kingdom is a complex one, and it is our view that a fair and effective solution will be found which will be to the benefit of the whole country."

The people of the British Isles are to be benefited by the new agricultural plan.

PREPARE FOR MAIZE STALK BORER

Damage done by stalk-borers may cause a drop in yield of five to ten bags per acre. But this loss can be prevented by the timely use of Derrick.

Derrick is non-poisonous and deadly to the pest. It is officially recommended in Southern and Eastern Africa, and has proved its efficacy to mangle growers throughout these territories.

Applied at a dilution of 1 part Derrick to 500-1000 parts of water, it kills stalk-borers by contact. A despatch of this solution is squirted into every plant as soon as any sign of top-grub infestation is observed. A gallon of Derrick is sufficient for 40 to 50 acres, and provides a most economical treatment.

Car folder: "To Avoid Losses in Growing Maize," will be sent free on request.

"Good equipment makes a good farmer better"

DISTRICT FARMING NOTES

KOBU—The majority of planters, the 1948 coffee crop will prove disappointing. In an unprecedented shortage of blossom early in the year, owing to a severe drought in the months of September, the bulk of the blossom was in the form of small flowers and the earliest of this, planted in the latter part of the year, has not yet reached the end of July weather conditions favourable to the growth of the crop. This probably exceeds any previous year, owing to the fact that it is reasonable to anticipate a crop weighing something in the region of 25 bags per acre. About 20 per cent of the planted acreage is now flowering, and with bright sunny days and rain falling nearly every night, conditions have been extremely favourable.

Owing to weather vagaries during March and April, it was necessary to plant some areas a second year in the same month. This, however, which could not be anticipated, will be planted in the latter part of the year.

SOILS—The soil guarding channels against predators is taxing farmers heavily in the latter part of the year. It will be a great many years before the present level of soil is reached. This is due to the fact that the soil is being washed away at the rate of 12-15 per cent. Now that the main crop of the year is in, it is hoped that the first few years of the present year have been guaranteed the cost of production there is no possibility that the output of this important crop during the next few years will be a useful margin for export. ITALIAN DILEMMA

The present heavy and continuous bombing of the Italian coast is a direct result of the natural and obvious defence arising from the close proximity of the sea to the land. It is a matter of fact that the offensive and defensive operations of Sicily, Sardinia and Corsica are being carried out by air, and it is not surprising that the Italian Government is unable to do more than to wait and see what is going to happen in the Mediterranean.

SMUTS BIRTHDAY TRIBUTES

At a special dinner given at the Grand Hotel, Pretoria, Mr. J. G. S. M. Smuts, Premier of the Union of South Africa, was the guest of honor. The dinner was given by the Smuts Club, which was organized for the purpose of raising a fund to commemorate the late Premier's birthday.
