# A VALUABLE ASSET

As we have frequently endeavoured to stress, the possession of a Ford Car is an extremely valuable asset at all times; particularly is this so at the present time. Many people have hastened to realize their assets in other parts of the world before values drop to nothing — Those owners of Ford Motor Car, who, through force of circumstances, have been agreeably prised and greatly relieved to find that such high prices are readily paid for all Ford Models.

WE have always known that this would be the case, since long experience has shewn us that people are at all times willing to pay the proper price for articles of good value.

PRICES of the latest Ford Cars which we now have in our showrooms are unaltered, and prices of our used Cars are likewise unaltered — These are points well worth noting and should serve to put an end to hesitation.

WE have made arrangements for the servicing of clients' cars, and we should like to make it clear that attention to all cars brought in to us will be paid strictly and, whenever possible, with no delay at all.

WE INVITE YOU TO SEE THESE CARS IN OUR SHOWROOMS.

On the outskirts of Nottingham, in the center of the midlands—the heart of England—stands the giant modern factory of Boots Pure Drug Co. Ltd.; Viewed from the outside this mighty edifice gives the impression of being some gargantuan glass-house.; More than 3,000 men and women are employed in this temple of industry, each one an expert in his or her own particular way.

Here in surroundings of hygiene and purity are manufactured medicinal and toilet preparations renowned for their purity and efficacy. Purity is the key-note of this factory. Everywhere exists a cleanliness almost equivalent to that of some vast hospital. It seems only right that a triumph of architecture should be the home of such a triumph of chemical industry as Boots Pure Drug Co. Ltd.

Every product is tested and re-tested for purity and potency in the analytical laboratories which form such an important part of the factory. The words "purity" and "Boots" have become synonymous, for everyone knows that to buy "Boots" is to buy the best.

### Notice to Owners of Motor Vehicles.

IT is strongly recommended that those owners of Motor Vehicles who, owing to economic or reasons of absence, are laying up their vehicles for an unspecified period to ensure that petrol tanks and petrol systems are thoroughly drained.

PETROL left in a car for a long period in this climate is liable to deteriorate and cause considerable trouble when the time comes for the vehicle once more to be put into commission.
