**£5,000,000  
increase in  
Kampala  
rating**

KAMPALA'S rateable value in 1955 is likely to be more than £25,000,000—an increase of more than £5,000,000 on last year. The new figure has been reached after a complete revaluation of assessment in the town of Kampala, which is carried out every three years. The value of the mill levy made in the intervening years has been taken into consideration, it is held to be fair to have the town's rating increased by the amount of the mill levy, which is carried out by the town council, in order that the town's rating should be increased by the amount of the mill levy.

## STOPPAGE CALLED OFF Wage increase for lowest grades

### NEGOTIATIONS CONTINUE ON OTHER SCALES

**THE nation-wide strike by British railway workers, due to have started tomorrow night, has been called off. Telegrams to this effect have been sent to all branches of the National Union of Railways.**

The decision was taken by the executive of the union during a three-hour meeting in London, after a meeting with Sir Brian Robertson, chairman of the British Transport Commission—which operates the State-owned railways—to reopen talks on the wage dispute.

The immediate result of the new negotiations was an increase in rates of pay for men in the lowest grades. Discussion on other scales are continuing.

As both sides sat down for the talks, held at the Ministry of Labour, bargainers poured into the N.U.R. headquarters from branches all over the country, stating that there must be 'no compromise'. At the same time the N.U.R. secretary, Mr. Jim Campbell, warned that if the negotiations were not satisfactory the union would resume the strike on January 10.

Mr. Campbell said the union had reached its decision in the light of assurances given by the commission. These included promises to do business quietly and without haggling; that basic pay rates would be re-examined; and that the wage rates would be adjusted in the light of past years.

**SECOND EMERGENCY TALKS BY CABINET**

The second emergency talks by the Cabinet were held on Wednesday. The talks were held in the presence of the Prime Minister, Mr. Churchill, and the other members of the Cabinet. The talks were held in the presence of the Prime Minister, Mr. Churchill, and the other members of the Cabinet.

## £30,000,000 scheme for railways

### ADDITIONAL DEVELOPMENT

**A PART from any major scheme such as electrification, plans for development costing £30,000,000 are being drawn up for the East African Railways and Harbours to be introduced in the course of the next five years.**

The immediate result of the new negotiations was an increase in rates of pay for men in the lowest grades. Discussion on other scales are continuing.

## EXTENSION OF U.S. CALL-UP

### Compulsory training of 1,000 young men proposed for draftees

**BILLS calling for compulsory military training of 1,000 young men proposed for draftees. The measure followed President Eisenhower's State of the Union message, in which he proposed to submit Congress details of the administration's proposals on January 11.**

The President said he would ask for an extension of the present draft Act which requires men between the ages of 18 and 26 to do two years' service. The Act expires on June 30. The new bills introduced in the Senate and the House of Representatives were identical. They proposed extension of military training of 1,000 young men for all potentially fit men of draft age.

# Senators to inquire into boom on New York exchange

A inquiry by the Senate Banking and Currency Committee into the boom on the New York Stock Exchange was formalized by Senator William Fulbright (Democrat, Arkansas) who will be the committee's next chairman.

The situation looks very dangerous to me, if it is too late to call before the committee officials of investor groups and industries whose stocks had risen sharply. It would be a pity if the boom were not checked.

## Australians criticise British trade

Australians have criticised the support of the Minister of Commerce and Agriculture, Mr. John McEwen, who has strongly criticised Britain's trade with Australia.

Mr. McEwen said Australia would not be able to trade with Britain unless the Government agreed to a trade treaty with Australia.

As in cricket.

The Minister's speech quoted the minister as saying the Government would not allow Australia to be treated like a nation of the United Kingdom (pays to win).

**IMPORTANT ANNOUNCEMENT TO AIR TRAVELLERS**

IN ACCORDANCE with the progressive policy of adjusting frequency of services to the demand of East African traffic, E.A.A. will make some important changes to the current timetable. These changes will become effective on 1st February.

These changes, which are listed below, reflect a normal seasonal drop in air travel, and are of a temporary nature. It is stressed that air traffic, which reaches a peak during the Christmas-New Year period, will drop off considerably during early 1955 as has been the case in previous years.

Therefore, as from February 1st, the following services will be temporarily suspended, but can be resumed as and when traffic warrants —

- \* NARONI/DAR ES SALAAM direct—Wednesday, Friday, Saturdays.
- \* DAR ES SALAAM/NARONI direct—Wednesday, Saturdays.
- \* NARONI/MOMBASA/TANGA/JARAIKA/DAR ES SALAAM—Sunday afternoons.
- \* DAR ES SALAAM/TANGA/TANGA/PESERA/MOMBASA/JARAIKA—Sunday afternoons.
- \* DAR ES SALAAM/MOMBASA/TANGA/JARAIKA—Mondays.
- \* MOMBASA/DAR ES SALAAM—Monday evenings.
- \* DAR ES SALAAM/NARONI/DAR ES SALAAM—Monday mornings.
- \* MOMBASA/DAR ES SALAAM—Monday mornings.

it's **NEWS** ... it's **NEW** ...

it's **BP** higher anti-knock

**THE NEW BP MOTOR SPIRIT PLUS BP 08 FOR BETTER PERFORMANCE**

- Quicker starting
- Better acceleration
- Smoother running
- More miles per gallon
- Longer periods between overhaul
- Prolonged engine life

**Important new developments by BP give better all round performance.**

BP motor spirit has now a new higher anti-knock value and contains more additives—developed by BP research to make more power available from your engine.

Not only a more powerful motor spirit but BP 08 is also a more reliable maintenance saver—deposits less piston rings, valves and spark plugs in service under an extraordinary load compression. As every motorist knows, this means more power—lower oil journal temperatures.

# New Double-Powered Mobilgas

Powered TWO WAYS to improve the performance of every car ever made!

## 1 MOBIL POWER COMPOUND 2 TOP OCTANE

The most powerful combination of chemical additives ever put into petrol. Checks pre-ignition ping, corrects spark-plug misfiring and controls gum formation. No single additive corrects as many car engine ills!

For greater knock-free power—more miles per gallon. Adds faster starting and warm-up, vapour lock control to stop stalling and more miles from every gallon of petrol.

**Multi-racial general practice in Nairobi**

It is quite a difficult affair for any new-comer to the medical profession in Kenya and the Great East Africa from the knowledge of general medicine and even specialised tropical medicine there are many factors to be taken into consideration.

This is the first of two instalments from an article contributed to the **British Medical Journal**.

By **AVES L. BISHOP, M.R.C.S. L.R.C.P.**

**Medicine in Kenya**

Kenya is a country where there are many different races and all of them have their own ideas of medicine and their own methods of curing their ailments.

The modern medicine which we know in Kenya is a mixture of the different medical sciences and is based on the knowledge of the laws of nature and the human body.

The medical profession in Kenya is a multi-racial one and it is the duty of every medical practitioner to be able to understand the different races and their different ideas of medicine.

The Mau Mau fighters have captured a home in the district of Nyeri. The home was used as a hideout for the Mau Mau fighters, and it has now been captured by the British troops.

The British troops searched the home and found a great deal of evidence, including weapons and documents. The Mau Mau fighters are accused of using the home as a base for their operations. The British Government has expressed its concern over the Mau Mau movement and has called for a peaceful resolution of the conflict.

### Chinese planes raid islands

**Chinese planes raid islands**

Chinese planes have raided islands in the South China Sea. The raids were carried out by the Chinese Air Force, and they resulted in the destruction of several buildings and the killing of several people.

The Chinese government has claimed that the raids were necessary to protect its interests in the South China Sea. The United States and other countries have expressed their concern over the Chinese raids and have called for a peaceful resolution of the conflict.

### Adviser to study E.A. co-operatives

**Adviser to study E.A. co-operatives**

A government adviser has been asked to study the co-operatives in East Africa. The adviser is expected to report on the progress of the co-operatives and to provide recommendations on how they can be improved.

The co-operatives in East Africa have been set up to help the farmers and other producers in the region. They are seen as a way to improve the economic situation of the rural population. The government is interested in the progress of the co-operatives and wants to ensure that they are being used in a fair and just manner.

### Pakistan anti plan

**Pakistan anti plan**

Pakistan has expressed its opposition to a plan for the partition of India. The plan was proposed by the British Government, and it would have divided India into two parts, one for Hindus and one for Muslims.

Pakistan is a Muslim country, and it opposed the plan because it would have left a large Hindu population in the new country. The plan was eventually rejected, and India was partitioned into two countries, India and Pakistan.

# African rail link-up possible by 1970

## GAUGE THE MAIN PROBLEM

A LINK-UP of the railways in Africa, south of the Sahara, may be possible by 1970, according to an article in the *Financial Times*. The article points out that the main difficulty in such a system are the differences in rail gauge, coupling gear and braking systems.

That would mean great expense in the work of changing the gauge and the coupling gear. The article says it would be necessary to have a common gauge for the whole of the continent. It would be necessary to have a common coupling gear and a common braking system.

The article says that the main difficulty is the differences in rail gauge, coupling gear and braking systems. It would be necessary to have a common gauge for the whole of the continent. It would be necessary to have a common coupling gear and a common braking system.

Since 1952, almost all railway lines in the world have been built to the standard gauge of 4 feet 8 1/2 inches. The article says that the main difficulty is the differences in rail gauge, coupling gear and braking systems. It would be necessary to have a common gauge for the whole of the continent. It would be necessary to have a common coupling gear and a common braking system.

# COUNTRY'S UNTAPPED WEALTH IN ANTARCTIC

WITH the arrival in Wellington of the United States icebreaker *Atika*, which is to carry part of the scientific expedition to the Antarctic wastes, the Government has announced that it will attempt to claim the Antarctic as New Zealand's polar territory, the 17,000 square miles of the continent.

Within this area, and on the continent, are believed to be large quantities of coal, oil, gas and other minerals. The article says that the Government has announced that it will attempt to claim the Antarctic as New Zealand's polar territory, the 17,000 square miles of the continent.

The article says that the Government has announced that it will attempt to claim the Antarctic as New Zealand's polar territory, the 17,000 square miles of the continent. It also mentions that the Government has announced that it will attempt to claim the Antarctic as New Zealand's polar territory, the 17,000 square miles of the continent.

With a big powerful 42 H.P. Diesel engine and a working weight of 4,000 lb, behind its 3-foot-wide blade, this new Maintenance Grader is capable of moving large amounts of earth and, by means of a hydraulic control gear, it can be raised or lowered to suit the work. It is extremely robust in construction, its design allows for maximum power at the lowest of road grades and light work. This grader does not require expensive, specially equipped workshops as a back-axle drive in its operation and it can be worked by anyone who can drive a tractor. The Aveling-Barford Maintenance Grader is an essential piece of equipment for all those whose work is connected with the upkeep of our roads and highways.

### Break in services

With locomotives, the wheels became so worn on the axle, for the electric lines have to carry 1922 locomotives to the main line, so that the steel tyres can be removed and replaced with brass. This was done for the first time on the main line, and the article says that the wheels became so worn on the axle, for the electric lines have to carry 1922 locomotives to the main line, so that the steel tyres can be removed and replaced with brass.

### Later and cheaper

The problems of tractors and trucks are being solved by the use of Dettol. The article says that the wheels became so worn on the axle, for the electric lines have to carry 1922 locomotives to the main line, so that the steel tyres can be removed and replaced with brass.

### Public enquiries

In recent months the public has expressed concern over the proposed extension of the New Zealand territory in Antarctica. The article says that the Government has announced that it will attempt to claim the Antarctic as New Zealand's polar territory, the 17,000 square miles of the continent.

### Bounty payable

Suggestions have been put forward for the payment of a bounty to the discoverer of a new mineral in Antarctica. The article says that the Government has announced that it will attempt to claim the Antarctic as New Zealand's polar territory, the 17,000 square miles of the continent.

### Search for uranium

Research for uranium in Antarctica is being carried out by a team of scientists from the United States. The article says that the Government has announced that it will attempt to claim the Antarctic as New Zealand's polar territory, the 17,000 square miles of the continent.

# It's NEW and BETTER higher anti-knock

Important new developments by BP give better all round performance

BP motor spirit has now a new higher anti-knock value and contains a new additive — BP08 — developed by BP research to make more power available from your engine. Not only a more powerful motor spirit but BP08 as well! This new additive minimizes combustion chamber deposits, keeps

- Quicker starting
- Better acceleration
- Smoother running
- More miles per gallon

piston rings, valves and spark plugs in first-class order so maintaining full compression. As every motorist knows, this means more power — better all round performance.

So use this new higher anti-knock spirit plus BP08 for:

- Longer periods between overhauls
- Prolonged engine life

# M.C.C. HAD TO STRUGGLE HARD FOR INNINGS LEAD

## Bailey, Compton and the tail-enders save collapse

THE M.C.C. whose only defeat of the hour to date was in the first Test at Brisbane, had to struggle hard to gain a four-wicket lead of 21 runs against a County side in reply to the Combined Counties' first innings of 242 in reply to the Combined Counties' first innings of 221. The latter making five without loss at close of play in their second innings.

Compton and the tail-enders saved the M.C.C. from a collapse. Bailey, who had an off-spinners' attack, was the only bowler to take a wicket in the first innings. He took the wicket of the batsman who had scored 100 runs in the first innings.

The M.C.C. were completely bowled out in the first innings when the M.C.C. were pinned down to 100 in 110 minutes on an easy pitch. After the opening 100 in 110 minutes, the M.C.C. were bowled out for 100 in 110 minutes.

# RUGBY UNION: England could beat Wales in the first home international

## Tyson, Hutton head M.C.C. averages

IN A tough race it has to be clear the hardest hurdle first. That's the message of England's Rugby players. England and Wales they are also joint winners of the home international on January 15, they open their season.

Wales have the edge in the first home international. England's players are confident they can beat Wales in the first home international.

England are particularly well served by their forwards. They have a strong pack and a powerful scrum.

# IRISH FUSILIERS 'TOUGHENED UP' IN KOREA FOR KENYA

## Battalion here on January 29

A FINAL intensive period of training has been completed by the 1st Battalion of the Royal Irish Fusiliers in Korea before embarking for Kenya.

The commanding officer, Lt. Col. Gifford, says the soldiers have been trained in the tactics of the Royal Irish Fusiliers in Kenya since they were sent to Kenya in 1947. From 1947 to 1954 they were sent to Kenya to take part in the Mau Mau rebellion.

The battalion has carried out a number of exercises in Kenya, including the use of live ammunition.

All the companies have been trained in the use of the Bren gun, the Vickers machine gun and the light machine gun.

The battalion has also been trained in the use of the mortar and the anti-aircraft gun.

# U.S. PRESIDENT SEEKS TARIFF CUTS

## Plan to assist free nations achieve economic potential

**INDUSTRIAL** and oil shares were on a buoyant on the London Stock Exchange, although buying was not so keen as the previous day. Other sections of the market, including stocks of railway companies, were held steady by reactions to the bank rate.

**U.S. PRESIDENT** EISENHOWER has asked the new Congress to reduce for three years his power to tariff reductions with other nations. He has asked authority to reduce as much as 10 per cent on that period. The President's proposal is a long-awaited message outlining the legislative requirements of his economic policy. It is the first of a series of messages on considerations of national welfare in international trade. From the military standpoint, the proposal has been submitted by the President to the Congress.

## Speedier port operations planned

**EAST AFRICA** Railway's port operations will be speedier in the capacity of Mombasa port to get its new No. 4 berth working much more quickly, and to exploit the lighterage berth much more fully than has been planned. This was stated by Mr. A. F. Kirby, the Railway's general manager, when he visited the Uganda Chamber of Commerce in Kampala yesterday.

**TRANSIT** The railway is expected to be a big step forward in the port and it was hoped to see the berth working much more quickly, and to exploit the lighterage berth much more fully than has been planned. This was stated by Mr. A. F. Kirby, the Railway's general manager, when he visited the Uganda Chamber of Commerce in Kampala yesterday.

# COL. YOUNG AND JUDGE DEFEND KENYA POLICE

## 'Law to themselves' inference denied after inquiry

The inquiry ordered by the Governor of Kenya, Sir Evelyn Baring, into the conduct of the police in the Brummer-Kennedy case has resulted in the Commissioner of Police, Col. Arthur Young, and a judge, Justice H. O. Holmes, declining to give evidence. On the contrary, Mr. Justice Holmes says in his official report published this week, "I have found no information to know what the law is said to keep within it." Col. Young comments: "I see nothing arising from the present investigation, or indeed elsewhere, which gives cause for any lack of confidence in the integrity of the police or that there is any justification for inferring that they are a law unto themselves."

The result is that the police are in the conventional position of having to use and interpret "Judge" rules in circumstances of which the rules do not provide.

**More responsibility**

If the police caution were made to their appreciation, "Pardon," I should like the three members of the Court to consider the law in the United Kingdom. One in five of the population are in some way or another in contact with the law. The police are the only body which are in contact with the law in this way. The police are the only body which are in contact with the law in this way. The police are the only body which are in contact with the law in this way.

## MORE MAU MAU SURRENDER

Emergency total reaches 786

FIVE HUNDRED MAU MAU terrorists have now surrendered in Kenya in the past three weeks. This is the largest number of the total since the Emergency began in 1952.

An Army helicopter was used to transport the 500 terrorists who had surrendered from the Mau Mau camps in Kenya to the coast where they were to be interned. It was the first time that a helicopter had been used for such a purpose.

They could, therefore, be released in a matter of days. This was the first time that the Maui Maui had been released in a matter of days.

76 suspects detained in Punwami area

Combined operations by troops of the Punwami area have resulted in the detention of 76 suspects. These were arrested in the Punwami area during the past few weeks.

Clothed in skins

An official communiqué last night indicated that the early results of the operations in the Punwami area have been successful. It stated that 76 suspects had been arrested and that the operations were continuing.

No big movement from forest

One of the main objectives of the operations in the forest has been to prevent any big movement of the Mau Mau from the forest. It is reported that there has been no such movement.

INSPECTOR HURT IN ROAD CRASH

Pulse Inspector Allan Harvey was injured when his car crashed in a road near Nairobi. The car was carrying several passengers and was involved in a collision with another vehicle.

Motorists advised to carry chains

The Kenya Transport Board has advised motorists to carry chains on their vehicles. This is to ensure that they are able to travel in the event of a breakdown.

# 1935 Shoes Are Pointed And Colourful

SHOES for 1935 are pointed and colorful. The pointed toe vogue has now reached its apex. Many produced country walking shoes and in some cases closed lace court shoes for the New Year.

Close past Christmas and the New Year bargains sales, shoe shops and department stores in London's West End have been busy for some time before the smart new models, which will be making their debut in the smart shops, which will be making their debut in the smart shops, which will be making their debut in the smart shops.

### Colour trends

There are two main colors for 1935. One is a soft, muted blue, and the other is a warm, muted red. These colors are being used in a variety of shades and combinations.

### Higher heels

The tendency is for these shoes to have a higher heel. The heels are being made in a variety of shapes and heights, from the classic stiletto to the more comfortable block heel.

### EYESHADOW CAN DO WONDERS FOR YOU

If you hesitate using eyeshadow because you do not know how it should be applied, here are the rules. Learn them well, and know the great beauty this requisite can bring to your entire appearance.

You may use several colours of eyeshadow in chosen tones. For the effect, you wish to create, if you wish to intensify your eye colouring, choose a shade which matches or harmonises with the colour of your eyes. For instance, just like blue, choose a shade which matches or harmonises with the colour of your eyes.

which are only one or two inches high, but look smart, in a variety of shades, light to make the full look smart.

### 'Flatties'

THE ballerina or "flat" is the shoe of the moment. It is a shoe with a low, flat sole, and a simple, elegant design.

### Bootees

WHETHER she is a fan of the ankle boot, or the knee-high boot, the woman of the moment is wearing a boot.

Another of Mr. Bayona's models was a pair of shoes with a white and black pattern. The shoes were made of a soft, pliable material, and had a simple, elegant design.

For the woman who wants to make a bold statement, the "slit" shoe is the answer. The slit is a narrow opening in the side of the shoe, which allows the foot to breathe.

### Practical

A woman's shoes should be practical as well as beautiful. They should be comfortable, and easy to wear, and should be made of a durable material.

# QUICK-THINKING PRESTON'S PLAY

## How 'brains' baffle brawn

PRESTON North End's policy throughout the year has been to favour a forward line of small men, who seem eluded in so many other League teams. This lack of height in the forward line has no doubt caused a few heartaches from time to time when the "wee ones" have been outplayed by the taller players of the opposition. But the quick-thinking Preston have managed to convert these high centres which were once tempting in the goalmouth, into reliable ones nearly good for nothing, with brains substituting for brawn. It is this substitution which has won them so many points and has made them so difficult to beat.

The Preston forward line usually presents the appearance of a row of seven men who are all of about the same height. This is not the case, however, in the old-fashioned manner which was once the rule. The forward line is now made up of men who are all of about the same height, but who are all of different builds. Some are tall and some are short, but all are of about the same weight. This is the result of the quick-thinking of the manager, who has managed to get the best of both worlds.

When Charlie Wren was transferred to North End, he was a star player. He was a tall, powerful player, who was a great goal-scorer. He was a great asset to the team, and his departure was a great loss. But the manager, who is a quick thinker, has managed to replace him with a player who is just as good, if not better. This is the result of the quick-thinking of the manager, who has managed to get the best of both worlds.

# IRISH CAP FOR YEAR OLD, 14-STONE CENTRE

## One of four new men in team

**T O'NEILY**, of Old Ireland, 16-year-old centre-three-quarter who has played only four senior club games, is one of four new cogs in the Irish Rugby Union XV to meet France on January 27.

The Irish XV, which will be captained by John J. O'Connell, will include W. J. O'Connell, J. O'Connell, J. O'Connell, and J. O'Connell.

**VICTOR TOVEED**, South African former world bantamweight boxing champion, has quit the ring. He has been in the ring for many years and has won many titles. He has now decided to retire from the sport.

# RUGBY: UNION: Speculation on the captain for British XV's tour of Union

**THERE** is much speculation in London and elsewhere as to who will captain the British Rugby Union team on their tour of the British home countries, due to begin next Saturday. But since the beginning of the British season, four possible names have been mentioned for the captaincy, which is to run from June to September next.

It is widely held that a fast and well-rounded player will be the first name. Consequently many favour a forward as best suited to the post.

**Is significant**

Significantly, previous Captain William Wainwright from Ireland captained the British team in South Africa in 1918. Another forward, the Earl of Malmesbury, captained the British team in Australia in 1902.

At present, however, Britain is not certain who would be its forward were chosen.

John Rowlands-Carpenter, whose name is one of the most prominent in the list, is a forward in England. He is a powerful player and is well known for his ability to break through the opposition's defence.

**Position different**

In his first twenties, many players of the British team were chosen from the back row. This was because the back row was considered to be the most important position on the field.

## COSTA RICA CALL TO 'REPEL INVADERS'

### Appeal to America for military aid

**COMMISSION FLYING TO INVESTIGATE ON SPOT**

An investigating commission representing 21 American Republics yesterday flew from Washington to Costa Rica to carry out an on-the-spot inquiry into reports that a small rebel force had seized the little town of Villa Quiesada, a Costa Rican village about 50 miles south of the Nicaraguan border.

**OPERATION HAMMER BEGINS**

Africans cheer news of success

Francis clapped and cheered when they heard the news that the first of the troops had been sent from positions on the Atlantic yesterday morning to launch Operation Hammer, the first large-scale offensive against the rebels in the forests.

The commission was appointed as an emergency moving of the organization of American States after it had received a cable from the Costa Rican Foreign Minister, Mr. Marco Boguilov, appealing for United States military assistance if rebel forces invaded the country. Reports of the invasion were conflicting. According to a statement broadcast by Mr. Jose Figueres, the President of Costa Rica, the rebel force was airborne but a Costa Rican Embassy spokesman in Washington said that the invaders moved on Villa Quiesada in motor-launches down the San Carlos River. He said that they had reached the town only from the San Juan River, flowing out of Nicaragua.

A communique from Costa Rica said that Costa Rican troops, commanded by the Public Works Minister, Mr. Francisco Calles, were flying to surround the rebel force and to number about 80. The garrison and townspeople of Villa Quiesada had picked up arms and fled to the airport at Diquis for operational use. Reconnaissance planes were flying over the area.

# Plan for immigrant centres rejected

## LONDON COUNCIL'S ANXIETY

From Our Own Correspondent  
The Colonial Office has turned down proposals by the Lambeth Borough Council that reception centres should be established in Britain to deal with the influx of West Indian immigrants. The Lambeth Borough takes most of the immigrants arriving in London from the West Indies, and many of them are of the "black race". A delegation from the council headed by Mr. White, the Mayor, had called on Mr. C. G. D. Brown, the Colonial Secretary, to express anxiety about the influx of immigrants to the mainland before the outbreak of "immigration".

After the interview members of the delegation said they were "very disappointed" with the reply.

**Residence problem**  
The Council had proposed that the Government should take over the cost of the centres for the purpose of providing temporary accommodation for immigrants. The Council also proposed that the Government should take over the cost of the centres for the purpose of providing temporary accommodation for immigrants. The Council also proposed that the Government should take over the cost of the centres for the purpose of providing temporary accommodation for immigrants.

# TRUST ESSENTIAL FOR GOOD RACE RELATIONS

## European feelings 'ignored' in Union

It was the best interests of coloured people to have the European as a friend, but this could only happen if they were willing to consider the white man's feelings and interests, the Minister of the Interior, Dr. Theophilus Danquah, said when he opened the annual meeting of the South African Bureau of Information in Stellenbosch. The Minister spoke in regard to the separate development of non-white Africa, and a fair and just arrangement of racial affairs. "Trust was essential for healthy relations, but this trust must be mutual and sensible, he said. "It is not enough that the white man should be as friendly to the black man as the black man is to the white man. There must be a mutual understanding of each other's feelings and interests."

**Attentive to attitude**  
Dr. Danquah said that attention should be paid to the attitude of the white man towards the black man, and that the white man should be as friendly to the black man as the black man is to the white man. There must be a mutual understanding of each other's feelings and interests.

# LISTED AS CHALLENGE TO RULE OF MR. BUSTAMANTE

Mr. MACKAY Socialists were challenging yesterday the leadership role of Mr. William Bustamante's conservative-minded Labour Party in what is felt to be the initial Capital Election in the Colony since universal suffrage was granted in 1924.

Mr. Mackay, who is 71, has been the dominant political personality throughout the period. It was believed that he would be the main political figure in the Colony, and that his party, without his support, would be unable to govern.

## Lead by lawyer

The Socialist Party's National Party is led by a lawyer and politician, Mr. Norman Washington Mackay. It is a party of the left, and its main aim is to secure a fair and just distribution of the country's resources. The party is led by a lawyer and politician, Mr. Norman Washington Mackay.

## Rent Control

Mr. J. J. M. Campbell, Minister of the Interior, has announced that the Government will control rents in the Colony. This is a measure to protect tenants from excessive rent increases, and to ensure that rents are fair and reasonable.

**Attentive to attitude**  
Dr. Danquah said that attention should be paid to the attitude of the white man towards the black man, and that the white man should be as friendly to the black man as the black man is to the white man. There must be a mutual understanding of each other's feelings and interests.

# Crusading against the rising COST OF LIVING

WE ARE PLEASED TO ANNOUNCE SUBSTANTIAL PRICE REDUCTIONS OF ALL OUR LOCALLY MANUFACTURED FOOTWEAR

As you hear of price increases of essential commodities, a trend which is realized to have serious consequences to the economy of the Colony. These increases, which are quite rapidly followed by increases in the cost of living, are the vicious circle is complete. We have been able to reduce the retail price of all footwear manufactured at Limuru. This is only possible by exercising the maximum care and efficiency in production processes and administration alike. Buy Bata for economy and value for money.

# THE AGA KHAN WILL NOT ABANDON BRITISH RACING

## His big sales facilitated reorganisation of stables

THE AGA KHAN, writes Richard Beestlin, has never had the slightest intention of abandoning the sport and treatment of which he has always been a transatlantic Derby on his own. In selling stables there, however, he has merely reorganised his affairs, which are now on a sounder basis than ever-increasing numbers, were getting out of hand.
