PRINCIPAL BARRER King of Saudi Arabia during his weekend tour of Turkey... personally mediating between Turkey...

JUGOSLAVIA has told the West German Government that it considers the decision to break off diplomatic relations with Yugoslavia to be "hostile". The West German move was made on Friday as a protest against the recognition of Communist East Germany by President Tito. The Yugoslav Ambassador in London left Bonn yesterday.

'Brutal reprisal' claim

"The Government and the public of Yugoslavia not only received this action with utmost displeasure, but also consider it as hostile," the statement added.

The West German Foreign Ministry was commenting yesterday on Yugoslavia's influence bar against the pressure had "reached a form of brutal reprisal and reprisals on a set of direct and impermissible interference in the internal affairs of Yugoslavia."

NEW PHASE FORECAST IN ANGLU-U.S. RELATIONS

Hints by President during Royal tour SCIENTIFIC POOL

Queen's visit to the United States has not been a personal triumph but has been interpreted by many observers in Washington as having diplomatic and political implications of far-reaching importance for Anglo-American unity.

They have noted that on several occasions President Eisenhower and the Secretary of State Mr. Dulles, have used functions honouring Queen Elizabeth to make declarations of major political importance, mainly proposing co-operation in the field of science.

It is a 'short coincidence' that the Queen's visit and the Washington trip by the American Prime Minister, Mr. Macmillan, are not seen as their combined effect is strengthened by the fact that Her Majesty will have an audience with Mr. Macmillan on her way back to London today, the day the Prime Minister leaves for London.

Mr. Macmillan's attention on the Queen, the Queen's visit to the United States, and the fact that Mr. Selwyn Lloyd, has taken the opportunity to discuss the Queen's arrival, President Eisenhower has noted the importance of the British language and protocol in negotiating the British and American scientific pool.

Many American and British observers interpret that the Queen's visit to the United States is a sign of a new phase in the relations between the two countries. It is a sign that the Queen's visit to the United States is a sign of a new phase in the relations between the two countries.

MANY NEW FEATURES IN 300 CARS ON DISPLAY

ALTHOUGH more than 300 cars are on view, few completely new models are to be seen at the Allied International Motor Show at Earls Court, London, this year. The reason is simple. Many of the big firms and notably the British Motor Corporation, which makes the Morris, MG, Riley and Wolseley vehicles, have abandoned their practice of introducing "tube models" and are now bringing out new designs first, as was to be expected.

Trend to easier driving

Automatic transmission systems and more flexible, two-speed overdrive gears are becoming the norm. A further trend towards automatic transmissions is the introduction of semi-automatic systems, in which the driver operates the clutch by foot. The manufacturers, only the British Motor Corporation, are introducing models which have not yet been shown to the public. The "big five" has also been made more comfortable. Most of the "big five" has also been made more comfortable and the front seats have been made more comfortable or improved.

25 per cent output rise in Britain

Output of cars in Britain in the past year, 25 per cent compared with the same period of last year. Mr. A. S. Dick, president of the Society of Motor Manufacturers and Traders, said on the eve of the show.

Output of British cars rose 25 per cent in the past year, he said. The total production of cars in Britain in 1953 was 1,000,000, compared with 780,000 in 1952.

Women's influence

Women's influence on the car market has been growing steadily. The number of women drivers has increased in every year since the British Government had a licence for women drivers. The number of women drivers has increased in every year since the British Government had a licence for women drivers.

Appeal for cut in coal imports

The Chamber of Commerce of Mombasa has developed an appeal for a cut in coal imports which, beyond, report British backbone of industry.

An unbroken procession of distressing news has been received from the coal fields and that it is a coal shortage which is the cause of the present coal famine.

It is to be hoped that the Government will take steps to reduce the coal importation and that the coal industry will be able to supply the requirements of the country.

London Exchange

General Director (E.A.), Ltd.

LONDON Stock Markets were steady yesterday despite the minor retrograde motion on Wall Street, and a further strengthening in most sections on the appearance of a coal-burning epidemic. Diamond, however, was depressed by the news that General Electric of America had decided to suspend its diamond production.

CHIEF AIM OF TALKS President welcomes Mr. Macmillan

INFORMAL MEETING

EMPHASIS in the talks now being held in Washington between President Eisenhower and British Prime Minister, Mr. Macmillan, is being laid on methods to galvanize the free world into co-operating and co-ordinating its efforts and resources against international Communism, and its standards of living through existing organizations.

This became clear yesterday from information so far available on meetings already held between the two leaders at the White House although a tight ban on disclosure of specific details has been imposed.

No new 'Plan' likely

No new organic structure such as a Marshall Plan for the Americas is likely as a result of the talks. A decision is expected that established methods will be used to give a "shot in the arm" to existing aid and Commission infiltrations.

The talks so far have been in an informal manner. The British Foreign Secretary, Mr. Avon, who has been in the United States in attendance on the Geneva and Prague Phils during their visit, was present for the four statements met in President Eisenhower's study in the White House although a tight ban on disclosure of specific details has been imposed.

Bill 'not excuse for licence'

APPROVAL OF LIQUOR CHANGES

WHILE it was only right that there should be no undue restriction on the consumption of liquor, liberty to do so should not be regarded as a licence for over indulgence, unwholesome and unbalanced family habits.

This was stated by the Acting Minister without Portfolio, Mr. Madan, who introduced the Kenya Liquor Licensing Bill, 1967, in the House of Representatives last night. He said that the Government had sought to strike a balance between the interests of the community and those of the individual.

Late goal by Wallace defeats Cameronians

GOOD FOOTBALL BY SCOTS

A LATE goal by the ever-green Dave Wallace won the all-Scots European Ground Cup final for the Cameronians over their fellow-Scots, the Cameronians, at the Rugby Club on Saturday. After a goalless first half the Cameronians surprisingly lashed the pace earlier and were able to take command in the second half.

For the first quarter of the game there was little of note with play being rather tame as both sides tried to get their stride. The first effort came from Wallace who left on the turn but struck rather safely in the Cameronian half.

Wing Brown and McLaughlin combined well for Harkin to score a goal just over the bar.

Perrett, at outside-left for the Cameronians, showed improved form and tried a long one that lacked the necessary power. As usual Harkin was established safe in the air but never could get hold of his centre and the ball was returned to the Cameronians.

Wing Brown and McLaughlin combined well for Harkin to score a goal just over the bar.

Long-range shooting

Wallace missed at the end of the first half but his long-range shot was not accurate and his quick kick missed completely. Harkin was left in the hole and the goal was not scored.

Wing Brown and McLaughlin combined well for Harkin to score a goal just over the bar.

Last year's 'team of the century' have fallen aincy

MANCHESTER UNITED, hailed as Britain's team of the century last year after their brilliant championship, F.A. Cup and European Cup, have fallen away completely in recent weeks and have been 6-0 by their opponents.

The Manchester United team, which was the only team to have won all three major trophies, has been hit by a series of injuries and a lack of goals. In their last five games, they have scored only two goals and conceded eight.

The team's performance has been described as 'disappointing' and 'lacking in spirit'. The manager, Matt Busby, has expressed his concern over the team's form and has called for a change in tactics.

Exciting finish

The goal scoring today was exciting, with Manchester United leading 2-0 at half-time. However, the opposition fought back and scored two goals in the second half to level the score at 2-2.

The match was a classic example of a 'goal-fest' and was watched by a large crowd of fans. The referee, Mr. Taylor, kept the game flowing and awarded several penalties.

Welsh victory

Wales won the match 1-0, with a goal scored by Gareth Jones in the 75th minute. The Welsh team played a solid defensive game and kept the opposition out for most of the match.

The victory was a relief for the Welsh fans, who had been disappointed by their team's performance in previous matches. The manager, John Toshack, praised his players for their determination and teamwork.

The match was held in Vancouver and was attended by thousands of fans. The Japanese team's victory was a historic moment for them, as they had never won the Canada Cup before.

Kenya's top scorer

John Johnson, the Kenyan striker, has scored 15 goals in the tournament. He is the top scorer and has been a key player for the Kenyan team.

Johnson's goals have helped Kenya to reach the semi-finals of the tournament. He is expected to continue his good form in the final stages of the competition.
