## BRITAIN SOON WITHIN RANGE OF RUSSIAN ROCKETS

**Mr. Sandys sends a warning in House**  
**RESHAPING DEFENCE**

**Action by U.S. fleet criticised**

A WARNING that Russia was developing a version of the German V2 rocket with a warping head was given by the Defense Minister, Mr. Sandys, during a debate in the House of Commons.

Mr. Sandys said the range of Soviet rockets would probably be sufficient to reach Britain from launching points within Soviet-occupied territory. The projectiles would pass from 100 miles into the atmosphere and travel at speeds of up to 5,000 miles an hour.

Mr. Sandys was replying to a Labour member's question on the Government's defence policy. The minister, who was later decried by 255 votes to 243, said that the Government was studying the possibility of a revised defence plan which would ensure greater efficiency and lead to a minimal cut in expenditure and the abolition of National Service.

**First magazine bomb**

Giving details of progress in Britain's anti-aircraft program, Mr. Sandys said that the first magazine bomb (equivalent to 1,000 tons of high explosive) was almost completed. He said Britain was studying the possibility of a magazine bomb which would weigh 100 tons and be capable of being fired from a long time over the sea.

# NEW BAKERY IN NAKURU

50 years of progress

FROM OIL-LAMPS TO AUTOMATIC ELECTRIC MACHINERY

THE DEVELOPMENT of European enterprise in Kenya is exemplified in the case of Nakuru, on February 1st.

It boasts many more years ago when the first bakery in Nakuru was started. It is now 50 years since Mrs. Mary Wadhwa, known to many as "Auntie Mary," started baking bread for the Railway employees who had the first shop in the town. A few years and improvements later, she was carrying her business to the other side of the town, where she opened the "Bread and Butter" shop, which was the first bakery in Nakuru, following the Railway.

Mr. T. J. O'Brien, at the opening of the new bakery in Nairobi last year, said that Mrs. Wadhwa was a pioneer in every sense of the word. She was a brave, hardworking, and enterprising woman, who carried her business through the difficulties and dangers of a new trade.

"The first bread for 'Bread and Butter' was made by Mrs. Wadhwa in 1910. She was a pioneer in every sense of the word. She was a brave, hardworking, and enterprising woman, who carried her business through the difficulties and dangers of a new trade."

THE MASTER BAKER in Nakuru has been Mrs. Mary W. Wadhwa, who has been in the business for 50 years. She is shown here in her kitchen, which is the scene of her work.

"Fresh Inspiration"

When you think of the progress of the world, you think of the progress of the world. It is the progress of the world that has made the world what it is today. It is the progress of the world that has made the world what it is today.

The progress of the world is the progress of the world. It is the progress of the world that has made the world what it is today. It is the progress of the world that has made the world what it is today.

Mr. W. Wadhwa, who has been in the business for 50 years.

All approved of the plan. The building is divided into a kitchen, a bakery, and a store. It is a modern building, with a large kitchen, a bakery, and a store. It is a modern building, with a large kitchen, a bakery, and a store.

With the opening of the Outward Bound school at Loitokitok, Kenya falls into line with Britain, the U.S.A., Malaya and Australia in providing character training through adventure courses for the scholars and young men of all races who have recently returned from the war.

The courses are specifically designed to bring out the best in the students, to give them self-reliance and to help them build self-discipline and courage in the face of adversity.

There are now three Outward Bound schools in Kenya. The first, at Loitokitok, was opened in 1946. It is a boarding school for 100 boys of all races, including a few girls. The second, at Mombasa, was opened in 1947. It is a day school for 100 boys of all races, including a few girls. The third, at Nairobi, was opened in 1948. ## ATHLETE'S FOOT

Soaking, itching skin. Athlete's foot is a common skin condition that affects many people. It is caused by a fungus that thrives in warm, moist environments. Symptoms include itching, redness, and blisters. Treatment involves keeping the affected area clean and dry, and using antifungal medications. Prevention is key, so it's important to wear clean, dry socks and shoes, and to avoid sharing towels or shoes with others.

Never put make-up over a "bare" skin —

First — smooth, refine, protect your skin with a sheer base of **Pond's Vanishing Cream**

What happens to a would-be-pasty complexion... when make-up is applied directly over a "bare" skin?

Colour patches in the pores, create little "islands" of color and make the make-up around seem odd. Little wonder why it rarely stays!

That special goodness of a complexion vanishes... when make-up, thick, heavy, is applied.

But — what a lovely change when you smooth on a base of Pond's Vanishing Cream before "making-up"! This protection, perfect, smooth skin wonder.

It soothes skin — makes your complexion look fairer.

It smooths fine lines... gives skin from weather and dust.

It helps powder and make-up smoothly — keeps them!

Use the Pond skin lotion to your complexion... when you need a something "base" of perfect foundation... Pond's Vanishing Cream You'll notice a radiant new softness, a younger look glowing through your favorite make-up!

"Pond's Vanishing Cream is a definite and tried — it's a perfect foundation," says the beautiful Duchess of Newcastle.

"And Pond's powder always stays smooth on the face!"

**The Duchess of Newcastle**

"At least I've no such trouble—I wear... 'Viyella'"

**Viyella** is the most comfortable fabric ever made to your frame of mind. And it's 'Viyella' you're too too busy to consider—during swimming, because 'Viyella' won't wet and water polishes!
