A Priority Job!

Here is some valuable advice from the Scientific Advisor to the Ministry of Food. It is worth reading and following. It is a priority job to eat the right foods.

We are all here to help you to win the war. Today we have all got to be fit. Keeping healthy means more than the right food. The protective foods listed below will maintain your energy and keep you mentally alert. If we eat more of these foods we shall resist to strain and fatigue will be stronger.

CHIEF PROTECTIVE FOODS

- Milk
- Butter
- Cheese
- Eggs
- Leafy Green Vegetables
- Carrots
- Tomatoes

So watch your protective foods. Those that contain Vitamin A for vitality and use as many of them as frequently as possible, and they will ensure the proper balancing of your diet.

REMEMBER This is Britain's No. 1 Diet Plan for February 1942, issued by the Central Commodity Distribution Board, Nairobi.

GERMAN EXPLOITATION OF ALIEN DEFENSES

American who shrewdly dares to pull their weight, give vent to their feeling of indignation in criticism of the British who the industrial nations of the world are to be the mainstay of the Allied forces. It is the German exploitation of the American people which is the main cause of the present situation. The American people are being exploited by the German Government and the British Government. The American people are being exploited by the German Government and the British Government. The American people are being exploited by the German Government and the British Government.

We would be foolish indeed if we failed to recognize that Germany is a political warfare, an offensive action by the German Government against the American people. The German Government is using the American people as a source of raw materials. The German Government is using the American people as a source of raw materials. The German Government is using the American people as a source of raw materials.

It is of course, clear enough that the German Government is using the American people as a source of raw materials. The German Government is using the American people as a source of raw materials. The German Government is using the American people as a source of raw materials.

A Priority Job!

To ALL MOTHERS

If you have a child who reads up to the standard level of Junior, Fifth, you must decide at once, if you are to help the child take your child's place back to the regular Reading Office where, on School 1, you will receive an endorsement up to his class. You may present your child back to the teacher who will start a new course for him in the next year. Further supplies can be obtained in exactly the same manner.

Always give your children plenty of milk. In all the body building process, the more protein you take and the more from the animal sources, the more necessary for the growth.

Babies should be given cod liver oil with vitamin D very early and older children should not avoid vitamin D until they are 12 years old. This gives them essential vitamins in the form of cod liver oil which is stored in the body immediately before serving.

It's a priority job to do all you can to give your children the necessary vitamins and make certain that they're all well balanced and nutritious diet.

REMEMBER: This is the last issue printed on 22 January 4th February 1943.

EGYPTIAN PARLIAMENT OPENED

The Egyptian Parliament was opened in Cairo today by the King. The session was held in the Palace of the State Council with the King presiding in front of 100 members.

The officials were dressed as well as the King. The King wore the uniform of the Diplomatic Corps. (Times)

To Feed Hungry Hollanders

The Netherlands Government has decided to send 100,000 tons of wheat to Holland. The wheat is to be used to feed the Dutch people who are suffering from hunger.

The Netherlands Government says that General Eisenhower is vitally aware of the tragedy of feeding the Dutch people and expects it as one of his first priorities. (Times)

Planning Post-War Trade With Egypt

The British Chamber of Commerce in Egypt has drawn up a report on plans for post-war trade between Egypt and Britain. It points out that Egypt's wealth has greatly increased since the war.

The report suggests that British and Egyptian firms should cooperate in building up new industries. It also suggests that British firms should export more goods to Egypt. (Times)

Mombasa's Requisitioned Houses

In Kenya Legislative Council this week Mr. V. O. Cooke (C.M.S.) asked the Government whether it was aware of the fact that Mombasa houses were being requisitioned for the military. He said that the requisitioning was being done in a haphazard manner.

The Government replied that it was aware of the situation and was taking steps to regulate it. It said that the requisitioning was necessary for the war effort. (Times)

The proposal also to give priority to the construction of an industry or for national business development is one of the present plan, but the Government is not likely to carry out these proposals. These two main categories of the release from the Government's control of the economy. What we regard as essential is that the Government should give priority to the release of the economy from its control.

It is not possible to give priority to the release of the economy from its control. The Government's control of the economy is essential to the maintenance of the economy.

FASTER—FASTER—FASTER

After five years of war British fighters still outnumber the air whippers of Germany.

The supremacy of Royal Air Force Squadrons first in defence over Britain; then over the fringes of enemy territory; and today in direct offensive in every theatre of war is a direct result of the foresight and continuous research of the British aircraft industry during a long period of years.

Success in the International contacts for the Schneider Trophy, which Great Britain won outright in 1931 after three successive wins, positioned the way to development of the streamlined fighters which won the fastest contest over the garden of Eden in 1940.

The pairing of the 400 m.p.h. mark by a British aeroplane in the same year to establish a new world's record forecast the operating speeds of 1939 which have now been far surpassed.

Outstanding endurance with speed, a British entrant in 1934 beat all comers in the England-Australia race flying nearly half way round the world in less than three days. Distinguished pilots and engineers provided evidence against the best the enemy can put into the air.

The war proceeds; research and development go on. The programme which British aircraft and engine designers set themselves years ago is unfolded day by day in official announcements in 1942.

An equally ambitious programme, pursued with similar determination, will provide for the needs of peace.

A Priority Job!

There are plentiful supplies of **Harbor Beans** at present and few would realize the variety of excellent dishes that can be made from this nourishing food.

The continental people know all about them—"Les Haricots" was a favorite and household name. The Americans know them also, and the name of "Boston Baked Beans" has become world wide, though not perhaps the diet itself.

The Channel Isles in the home of a dish called "Baked Beans" normally eaten as breakfast. This dish has to be "baked" before its excellent qualities can be obtained. Here is the recipe:

1 lb. soaked beans
1 lb. dried broad beans
3 pig's trotters
A piece of fat pork
Salt (about 2 lbs.)

Method: Soak beans for 24 hours. Place beans and pig trotters, and the large stick of wood fat with cold water and cook in slow turn for twelve hours. Serve.

Union Producing Yellow Fever Vaccine

From a special correspondent, Pretoria, January 25.—Vaccine against yellow fever is now being prepared at the Biochemical Laboratories in Johannesburg. The Union Health Department, in cooperation with the South African Institute of Bacteriology and the Department of Diseases, has decided to produce and distribute for the production of the vaccine the superior lot which was supplied by the International Health Division at Rockefeller Foundation.

When in full production, the new laboratory will be able to supply the needs not only of South Africa but of all the African territories.

The South African Dr. Max Theiler, in cooperation with the South African Institute of Bacteriology, discovered the vaccine ten years ago at the Rockefeller Institute.

"MUST BE GOOD SOUTH AFRICANS"

From a special correspondent, Pretoria, January 25.—Sir Basil Johnston, K.C.M.G., who has been appointed as the new High Commissioner for India in South Africa, is expected to arrive in his new post in India, in a few weeks. The High Commissioner's office in Durban Sir Johnston will be the first South African to be appointed to the post.

...and the last system of roads and railways in Europe. It seems likely that their power using their most formidable armaments, the tanks, will be the lower order as they have been seen to be in the hands of the Germans. The tanks are the most formidable armaments of the German army, and they will allow of resistance which should not be underestimated.

Baby's Band

Baby's Band is participating in the coronation pageant at the coronation of King George VI and Queen Elizabeth in London on Saturday. The band is composed of 25 members, including Mrs. Smith, Mrs. Jones, and Mrs. Brown, who are all mothers of young children.

back and "new women" and to assure them how high they should be. The Chairman of the Club, Mrs. Jones, is a very prominent figure in the community. She is a member of the Royal Society and the Royal Institution. She is also a member of the Women's Guild and the Women's League.

Ridge-Feinewer

There was a quiet wedding at the Church of the Holy Trinity in London when Peter Leonard Ridge, B.A.F., was married to Miss Grace Feinewer on January 23. The bride is a member of the South Africa, and the bridegroom is a member of the Royal Air Force.

Ross-Daniel

NOT many brides have a wedding like Miss Susanna Maria Elizabeth Ross. She was one of the brides of the late King George VI. She was married to the late King on June 26, 1947. She is now a member of the Royal Family.

the bride was given away by her father, Mr. Ross. The bridegroom was Mr. Daniel. The wedding was a very simple one. It was held in the Church of the Holy Trinity in London. The bride was wearing a white dress with a long train. The groom was wearing a dark suit.

In London

My London correspondent writes me that the first woman to be appointed to the rank of Assistant Colonial Secretary in a Colonial Government has taken up her duties in the West African Colony of Sierra Leone. She is Miss M. A. Evans. She is a member of the Royal Society and the Royal Institution.

Among the editors at the East African Office recently, writes my London correspondent, were Mr. A. A. Harvey of the Uganda Press, Mr. J. M. P. O'Connell of the East African Standard, and Mr. J. M. P. O'Connell of the East African Standard.

FOOD FACTS SPRING STYLES

Everyone is excited that on every 7th of each month a certain number of all registered consumers can get 10c worth of food coupons from the Government. This is the first time since the war that this has happened.

ONE OF THE GREAT pleasures of the Spring season is the new styles of clothing. The women's wardrobe is being refreshed with new styles of dresses, blouses, and coats.

The new styles of spring fashion are shown in this illustration. The woman is wearing a dress with a high collar and long sleeves. The man is wearing a suit with a tie.

Stocking News

British women folk are anxious of a new and wider range of stockings in their stockings this Spring, and their interest is shown in the new stockings called "New Stocking". These stockings are made of a special material and are very comfortable to wear.

BRITISH FUR FASHION

There are now in the shops a wide variety of British fur fashions. The women are wearing fur coats, fur hats, and fur gloves. The fashions are very stylish and are very popular.

The British fur fashion is shown in this illustration. The woman is wearing a long fur coat and a fur hat. She is also wearing fur gloves.

How America Regards Soil Erosion

America was the country where the ravages of soil erosion were first noticed and noticed on a grand scale. The U.S. started taking measures to conserve her soil in 1902 when the Secretary of Agriculture Charles D. Wickard readily on the subject of soil erosion which he classified in number one spot was:

The conservation of soil and water resources is one of the major problems of America. This is because the soil is the basis of our country's production. It really affects to both the nation and the world.

For the first time in history, a programme was developed and tested beyond doubt which protects the lands against wind and water even when the land is being used for crop production.

Through the work of the U.S. Department of Agriculture, nearly 10 per cent of the farmland has already been protected against erosion. Conservation farming has demonstrated that it not only protects the soil but increases yield per acre (deducted) at the same time. It also saves time and labour, and increases the life of the land. It is a method of farming which is being applied every acre of land individual to the needs and soil conditions of each section.

Conservation farming is a method of farming which is being applied every acre of land individual to the needs and soil conditions of each section. It is a method of farming which is being applied every acre of land individual to the needs and soil conditions of each section.

went some technical assistance in their soil conservation programme. It is the only method of farming which is being applied every acre of land individual to the needs and soil conditions of each section.

HERE'S LUCK

Luck indeed—this is White Horse! You may not always be able to obtain supplies, but when you do, White Horse is well worth waiting for.

WHITE HORSE

Agents: THE AMERICAN MERCHANT CO., LTD., MOMBASA, TANZANIA, NAIROBI AND DAR-ES-SALAAM (Incorporated in England)

The weather over the New Year has been hot and dry, but a fortunate drizzle on 20th of the month in the Kilale area is the one at it. It is a good sign that the weather is beginning to change. The weather is beginning to change. The weather is beginning to change.

Prize Farm Example

There is nothing dumber or less profitable than the way the farmer runs his farm. The farmer who runs his farm in a good way, the farmer who runs his farm in a good way, the farmer who runs his farm in a good way.
