K. F. A. TO DOUBLE AUTHORIZED CAPITAL?

Proposal To Be Put Forward At Annual General Meeting Next Week

THE Board of the Kenya Farmers' Association will recommend at the annual general meeting to be held at Kitale on December 28 that the authorized capital be increased from a quarter of a million to a half million.

It is explained by the Board in the Directors' Report, being submitted through the policy to the members of the Kenya Farmers' Association, that the present authorized capital of £250,000 is insufficient to meet the requirements of the Association in view of the increase in the price of land and the increase in the cost of production. It is suggested that the authorized capital be increased to £500,000.

Additionally, the Board's proposal is to increase the authorized capital of the Kenya Farmers' Association from £250,000 to £500,000.

NEWS of WHITE HORSE

No. 1

This famous blend of Whisky was never better than to-day

It would be unfair to say that White Horse Whisky is sold when you like to-day if there were not so many people trying to do the same thing. Like so many of the products of precision, White Horse is a success because of the way it is made. It takes five years to bring the famous whisky to its present maturity. It is not thought and a good reason to provide the greatest quality of Whisky available in any country. And the same care and thought that goes into the whisky that you buy in the years to come the quality of White Horse will be guaranteed as reliably as ever.
