The Trade Position in Tanganyika.

"SOME DISTINCTLY ENCOURAGING FEATURES."

Favourable Balance.

ACTING GOVERNOR'S GUARDEDLY OPTIMISTIC REVIEW.

While the position in Tanganyika is still serious there are signs that the worst of the Territory's economic difficulties are over.

Employing metaphor, His Excellency the Acting Governor at a recent meeting of the Legislative Council summarised the position thus: "The patient is still seriously ill although he displays certain encouraging features, the symptoms indicating that he may rally at an early date."

For the first months of the year there was a gratifying excess of exports over imports; the export of gold continued to be satisfactory; and the rise in the price of sisal had reacted favourably in the Territory.

Dealing with the unsatisfactory features His Excellency spoke of the drought and of the decreased receipt from Customs.

Hopes of Early Rally.

In a review of the Territory's trade position His Excellency the Acting Governor, in addressing the Legislative Council said:

"As more than seven months have elapsed since an unbalanced Budget was passed the Government, I think, Hon. Members will feel that I should take advantage of this opportunity to make a brief statement with regard to our financial prospects, so as to determine though they still are uncertain."

"The position is one in which there are some very satisfactory and some less satisfactory features. In the first place, the trade balance for 1933 will fall far short of those for 1932."

"The position is one in which there are some very satisfactory and some less satisfactory features. In the first place, the trade balance for 1933 will fall far short of those for 1932. The position is one in which there are some very satisfactory and some less satisfactory features. In the first place, the trade balance for 1933 will fall far short of those for 1932."

Gold Exports.

"Another very satisfactory aspect of the trade returns is the fact that in the first four months of the year there was a favourable trade balance in favour of the Territory."

ALLEGED MURDER.

Five Sikhs Committed for Trial.

As a result of the death of a Sikh named Harman, five Sikhs were committed for trial.

LAKE TRAGEDY.

Settler Charged by a Hippo.

A hippo charged a settler on a boat on Lake Tanganyika.

Mr. Jean F. Stoll, at Maribou, was charged by a hippo.

EL-POSTAL OFFICIAL ON TRIAL.

FOR EXCLUSIVE PROSPECTING.

Alleged Theft of Mails at Mombasa.

Mr. P. J. Brangan, postal official, is on trial for alleged theft of mails.

AMONG MOST PROMISING IN KENYA.

According to geologists reports, the two areas, numbered 3 and 4 by Sir Albr. Kison, for which Government invites applications for exclusive prospecting rights, are among the most promising of the gold-bearing regions in Kenya.

In the second place, the future of Kenya's export depends on quality. If the quality ever falls, the country will be a dead weight.

Coffee Growing by Natives.

The London Correspondent of the East African Standard reports that there are being taken in Britain to discourage the adoption in Kenya of a policy of coffee-growing by Africans. The argument put forward is that the Colony is familiar. The area under Arabica Coffee cultivated by European planters is now in excess of 100,000 acres and the industry, which is financially the most important in the country, represents an investment of several millions of pounds. The economic significance of coffee is apparent in the very high percentage of occupiers of agricultural land who grow the crop while it is no exaggeration to say that during the last three years of depression the comparative stability of the coffee market has been the one dependable factor in the financial structure of the Colony in the past. The Native of Kenya, who occupies some of the finest coffee land in the country, has not been allowed to cultivate the crop and that prohibition, which is becoming increasingly difficult to maintain in the light of native production in Uganda and Tanganyika, has offered to critics of the Colony a very useful field of attack against the settlers. The position has altered during the past two years. The colony has virtually agreed to the policy of coffee growing by natives by including in recent legislation the necessary powers to the Board, instituting powers regarding the same.

There are, however, as is exercised both the Director of Agriculture and the Chairman of the Board in all cases. The Government of Kenya has

extension of the industry to African colonisation—that this situation could best be met by the introduction of a considerable percentage of small areas. The Director of Agriculture further emphasised that the Director of Agriculture should fully estimate whether a law was issued and that the sale of native-grown coffee should be channelled through a specified channel to decrease the possibility of the thefts which on one time so seriously threatened the progress of the plantations in the Territory. In making these recommendations, which were received by the Government, the Director of Agriculture fully endorsed the European planter's view that the introduction of coffee would result from under-planting by natives. The Government, which had an unofficial report, was unable to support the suggestion of regulations which would set up a discrimination against the native growers. The Joint Select Committee inter alia "enquired into the necessity for consideration" by the Kenya Government of the cultivation by natives of coffee and other crops. It is not necessary to point out that if the Government were to impose the prohibition, they will expose themselves to the criticism of those who a few years ago said it was necessary to them to consider very carefully the implications of proposals such as that reported to have been made in Britain, and so weight the economic situation. It is not necessary to point out that if the Government were to impose the prohibition, they will expose themselves to the criticism of those who a few years ago said it was necessary to them to consider very carefully the implications of proposals such as that reported to have been made in Britain, and so weight the economic situation.

THE INCOME TAX DEERSON.

(Continued from page 1.)

statement from the Revenue of States that the method to be preferred would be the one acceptable to those upon whom "I think the new provision is most comprehensible and should be for the heavy income of the country as a whole. The Government and Lord Francis, Secretary of the Joint East African Board, say that the whole of Kenya is to be treated as a single unit. It is to be treated as a single unit for the purpose of the Income Tax. It is to be treated as a single unit for the purpose of the Income Tax. It is to be treated as a single unit for the purpose of the Income Tax.

MAJOR J. O. K. DELAP.

Secretary of State's Keen Interest in Kenya.

Major J. O. K. Delap sends the following copy of a note which he has received from the Secretary of State for the Colonies, London. It is a note which is of great interest to all those who are interested in the development of Kenya. It is a note which is of great interest to all those who are interested in the development of Kenya. It is a note which is of great interest to all those who are interested in the development of Kenya.

SIR NEVILLE PEARSON.

Kenya a Land of Hope.

Mr. Neville Pearson, Bart., writes as follows: "In company with many others who have large interests in Kenya I am gratified to see the Philip Committee report on the Kenya Commission. It is a report which is of great interest to all those who are interested in the development of Kenya. It is a report which is of great interest to all those who are interested in the development of Kenya. It is a report which is of great interest to all those who are interested in the development of Kenya.

SIR J. SANDEMAN ALLEN.

A Most Statesmanlike Course.

Mr. John Sandeman Allen, M.P., the President of the Joint East African Board, says: "I have read the dispatch very carefully and have considered it with the light of the events of the last few weeks. In my opinion the Secretary of State has under the difficult circumstances unhesitatingly adopted the soundest and most statesmanlike course. Until the alternative proposals were brought forward, the proposal of Income Tax seemed imper-

ative and the only way of securing the amount of revenue required to finance the Government of Kenya. It is a proposal which is of great interest to all those who are interested in the development of Kenya. It is a proposal which is of great interest to all those who are interested in the development of Kenya. It is a proposal which is of great interest to all those who are interested in the development of Kenya.

STILL Anxious over the Alternatives.

Mr. Geoffrey Peto, M.P., President of the Joint East African Board, says that he is still anxious over the alternatives. He says that he is still anxious over the alternatives. He says that he is still anxious over the alternatives. He says that he is still anxious over the alternatives. He says that he is still anxious over the alternatives.

THE INCOME TAX DECISION. BRITAIN'S POLICY IN INDIA.

Opinion of East Africans in London
JOINT E.A. BOARD CHAIRMAN SAYS TAXPAYERS SHOULD DECIDE
Lord Francis Scott's Views.
TRIUMPH FOR SOUND AND CONSTRUCTIVE NEGOTIATION.

The recent decision by the Secretary of State for the Colonies to withdraw the measure to impose Income Tax in East Africa and to give a trial to the alternative proposals put forward by the people of Kenya, has been received with considerable satisfaction by most East Africans in London.

During the course of a communication to the "E.A. Standard" London correspondent, Lord Francis Scott expresses his delight at the decision. He adds that he hopes that the issue of the value of putting forward a sound, reasonable and constructive case, in preference to wild threats, will be taken to heart in Kenya.

Reference to the work of Lord Francis Scott in his previous issue of Kenya's work as the Secretary of State, as well as by Lord Cranworth, and Lady Eleanor Cole, while most of the East Africans in London whose views on the situation have been obtained, express their admiration for the statesmanlike attitude taken by Sir Philip Cunliffe-Lister.

Mr. Geoffrey Peto, M.P., Vice-Chairman of the Joint East African Board, who strongly supported income tax but is still doubtful in regard to the equity of the alternatives.

Sir John Sandeman Allen, M.P., the Chairman of the Joint East African Board, states that while he previously favoured income tax before the alternative proposals were brought forward, he now is of the opinion that it is only reasonable that "those who pay the piper should call the tune."

Brighter Future for Kenya.

Considerable satisfaction and much public opinion, as well as the joy of Sir Philip Cunliffe-Lister in the decision to withdraw the measure to impose income tax in Kenya, has been expressed by many of the East Africans in London. Lord Francis Scott, Chairman of the Joint East African Board, has expressed his delight at the decision. He adds that he hopes that the issue of the value of putting forward a sound, reasonable and constructive case, in preference to wild threats, will be taken to heart in Kenya.

Lord Francis Scott, Chairman of the Joint East African Board, has expressed his delight at the decision. He adds that he hopes that the issue of the value of putting forward a sound, reasonable and constructive case, in preference to wild threats, will be taken to heart in Kenya.

SUGAR PRODUCERS AND WORLD CONFERENCE.
Colan Plan Unacceptable to Britain.

PENDING PROBLEM
 Referring to Sub-Committee for Examination.

The International Sugar Council has sent a letter to the World Economic Conference regarding the submission of a Convention in accordance with a draft which follows the Colan plan. The latter proposes that no new factories should be constructed for ten years, that no new subsidies or bounties should be granted, and that there should be no increase in sugar import duties which would raise existing import duties to 70 per cent of ad valorem.

The Council emphasizes the importance of such a Convention being enforced as soon as possible in order that the present situation should not be made worse by the introduction of such measures.

THE MONEY MARKET.
Sharp Fall in Value of the Dollar.

The sharp fall in the foreign exchange market has been especially marked in the last few days, when the dollar has fallen to a level which has not been reached since the outbreak of the war.

COFFEE MARKET.
Cabled Reports from London.

There was less activity in the London coffee market this morning and the general tendency was to be steady.

EXPECTED ARRIVAL OF THE ADJOURNMENT PROPOSAL

Professor Moley who has arrived in London from Washington to attend the World Economic Conference. The arrival of the United States Assistant Secretary of State, Professor Moley, is likely to be fully felt by the end of the week in the opinion of one of the most prominent and able members of the Conference.

Professor Moley, who is 47 years of age, began his studies at the University of Chicago. He has written a large number of books on economic and political subjects including surveys of the administration of justice and criminal law.

THE DISARMAMENT CONFERENCE.
Reasons for the Adjournment.

In the Committee for Disarmament, the President, Mr. Arthur Henderson, explained the reasons for the adjournment of the Conference.

Government Road, TEL 2111

Sporting Brevities.
Victoria's Hon.—The Hon. Michael Scott, winner of the British Open Amateur golf championship last week at Hoylake, was four times amateur champion of Australia.
His sister, Lady Margaret Scott, won the ladies' amateur championship of Great Britain during the first three years of its existence.
T. A. Bourne, the runner-up, was runner-up in the final of the English Club championship a few weeks ago.

Callies gained a merited win over Y.M.A.C. in the Girvan Cup on Saturday. It was the Y.M.C.A.'s first defeat this season.
Callies second goal coming no closer on the first, was a beauty. Hand-Ford jumped high in the air to head the ball past the keeper.

The Scots have certainly got a 'fix' in this youthful match. He and McEve combined well in Saturday's defeat.

Speedy and possessed of plenty of thrust, but lacks experience. At present he is inclined to get out of position.
R. Marsh, the Y.M.C.A.'s own forward, sprang his mark in the match with Callies, and he will be of for some time.

Girvan Cup. Callies have to meet the winners of Police and Nanyuki in the semi-final round of the Girvan Cup competition.

Nanyuki are down to play Police in the first round on July 29. The final of the competition is down to be played on September 16, which coincides with the British Legion Picnic, and a postponement is to be made.
Re. Governor's Cup. Sir William Wilson, competing in the Far Old tournament at Annerley, met the back-marker N.A.J. Cohen in the first round. Sir William played off 18, while Cohen scored 20 on the scratch.

Willitts lost the first hole, but on to win 3 and 2. His haul in the only three over 14.
In the fourth the first man, who is a 14, was the present chief Brown.
Colonies went out in the second round to J. S. Latham on 17.

The first test match against the West Indians, which opened at Lord's on July 19, proved an interesting affair as far as the first day's play was concerned.

There was only a brief spell of rain, but the rain brought it to a close. A shower of water covered the bare patch on the near side of the Wicket.

Stutfield, one of Lancs. Stutfield, of the famous England and Yorkshire batsman had been out of luck during the present season. He has done little of note thus far.

Parklands Sports Club are holding a billiards meeting at the club on Monday evening. All subject to election of a sub-committee. All members interested in this sphere of the club's activities should make a point of attending.

Kipkaho Polo Club paid a visit to the club on Saturday. They were very slippery, however, following rain on 21st of their match, which fell on their side.

A lecture on "Pastoral Play in Polo" was given in the club house by Mr. E. Barrett on Saturday. On Sunday conditions for polo were perfect, and a large number of shakers were played.

Callies are to play a friendly rubber match against the Nanyuki Goats to-day. Nanyuki will be represented by: Nanyuki, and J. D. Dorman, L. Gunn (capt.), M. Gama, Caldera, Goolie and Rodrigues.

Hobert vs. Kikaho. On Saturday last Hobert Rugby Club had a visit from the Victoria Sports Club of Kikaho. The home men won by 38 points to nil.

Kikahoans employed the New Zealand formation of seven forwards and a five-eight, but

County Cricket Championship.

Yorkshire Beaten on First Innings.

PATAUDI GETS A CENTURY

Yorkshire's last innings was a fine one, but they were out for 116 when they suffered a run-out during the first innings. The score at the close of the third day is as follows: Yorkshire 116, Kent 107.

Leicester. Kent-1st innings—254, Leicester-1st innings—116. (Wat 5/4; Freeman 5/1; Kent 2nd innings—107 for 2 dead; 10th 107.)

Leicester vs. Derbyshire. Kent-1st innings—254, Derbyshire-1st innings—201. (Armstrong 7/51; Derby 2nd innings—119 for 2 dead; 10th 107.)

Derby vs. Yorkshire. Somerset-2nd innings—213. Derby-2nd innings—210. Somerset won by 3 runs.

Nottingham. Notts-1st innings—241, Leics-1st innings—241. (Larwood 59; Voors 7/50.)

Yorkshire vs. Middlesex. Yorks-1st innings—156, Middlesex-1st innings—160 for 8. (Baker 8/8; C. 1/1; Yorks 2nd innings—136 for 4. (Baker 10/1; C. 1/1; Notts on 1st innings—200.)

Glostershire vs. Middlesex. Middlesex-1st innings—184, Glostershire-1st innings—184. (Giffard 7/84; 1/1; Middlesex-2nd innings 84 for 2. (Harris 5/78; Harris 5/71.)

Warwickshire. Middlesex-2nd innings—184, Warwickshire-1st innings—184. (Harris 5/78; Harris 5/71.)

Northamptonshire vs. Sussex. Northamptonshire-1st innings—274, Sussex-1st innings—274. (Woods 7/10; Sussex 2nd innings—125 for 2. (Harris 5/78; Harris 5/71.)

Essex vs. Cambridge University. Cambridge Univ-1st innings—150, Essex-1st innings—150. (Harris 5/78; Harris 5/71.)

Surrey vs. Oxford University. Surrey-1st innings—157, Oxford Univ-1st innings—157. (Harris 5/78; Harris 5/71.)

Essex vs. Cambridge University. Cambridge Univ-2nd innings—184, Essex-2nd innings—184. (Harris 5/78; Harris 5/71.)

Essex vs. Cambridge University. Cambridge Univ-3rd innings—184, Essex-3rd innings—184. (Harris 5/78; Harris 5/71.)

Essex vs. Cambridge University. Cambridge Univ-4th innings—184, Essex-4th innings—184. (Harris 5/78; Harris 5/71.)

M. S. ELLIOT & CO. LTD.

ULTRA-MODERN Plastic Lacquered Hairdressing IN VARIOUS SHADES. Modeled to your individuality by London Artists.

THEO. SCHOUTEN GOVERNMENT ROAD AND NEW STANLEY ARCADE, BOX 804.

Mr. Schouten and Mr. Carver will visit Nairobi (Nairobi Hotel) on Friday and Saturday, July 14th and 15th for Ladies' and Gentlemen's Hairdressing Appointments for Permanent Waving, Wetting, Marcel Waving, etc. at above address.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by his correspondents in these columns and will not be held responsible for the publication of any statements or opinions which are not those of the Editor.

African Exploration.

The Editor, 'E.A. Standard', Sir—Mr. J. W. Walker's letter of the 21st inst. regarding the proposed expedition to the interior of Kenya, is a most interesting and well-written article. It is a pity that the Government should not have more of such articles published in its official journals.

The Lake Service.

The Editor, 'E.A. Standard', Sir—The recent withdrawal of the tug out of service from the Lake Service has created a great deal of concern among the public, particularly in the districts where the service is most needed.

RAHAMTALA KASIM

The Editor, 'E.A. Standard', Sir—The recent withdrawal of the tug out of service from the Lake Service has created a great deal of concern among the public, particularly in the districts where the service is most needed.

E.A. AERODROME

The Editor, 'E.A. Standard', Sir—The recent withdrawal of the tug out of service from the Lake Service has created a great deal of concern among the public, particularly in the districts where the service is most needed.

GOVERNMENT LAND SALES

The Editor, 'E.A. Standard', Sir—The recent withdrawal of the tug out of service from the Lake Service has created a great deal of concern among the public, particularly in the districts where the service is most needed.

Official Observations

The Official Observations of the K.T.P.F. and without prejudice to the rights of the Government shall also be called upon to supply our own machines, petrol and accessories.

Water in Kenya

Water in Kenya. Years ago, when the Government was in the process of planning the development of the country, it was necessary to consider the water supply for the various districts.

Weather Forecasts

Weather Forecasts. The weather in the district is expected to be generally clear and sunny, with a maximum temperature of 80 degrees Fahrenheit.

ON THIS DAY

ON THIS DAY. The day is significant for many reasons, including the birth of a nation and the signing of a peace treaty.

TEA INDUSTRY FOR UGANDA

(Continued from page 1)

ers' Conference from time to time... The Director of Agriculture has made the suggestion to the Director of Assam...

An Agricultural Journal. You refer to the Agricultural Journal, and you ask that department of business...

RUSTOL is used by The Admiralty, Royal Arsenal, Royal Air Force and every Railway and Shipping Company.

THE RUBBER

You referred last to the question of rubber. Here I am afraid I can hold out no hope whatever that a resumption of tapping will ever be possible in Uganda...

THE RAILWAY

As regards the Railway Report, as you are all aware this will be considered by the Governors' Conference...

have not been working on the right lines, simply because they have not had enough capital in the industry... The production of a small scale may be possible...

Income Tax. There are two referred to that would question of income tax, do not wish to say much about it...

Reducing the Staff. Then, sir, having decided to reduce the staff, we are not doing so by cutting work...

BURDEN OF TAXATION

You made a dangerous general statement when that taxation is due to be applied to all commodities...

CAPITAL AND CO-OPERATION

There is now just one more question in Uganda, and that is that we are not doing so by cutting work...

MUNICIPAL COUNCIL OF NAIROBI THE LOCAL GOVERNMENT (RATING) ORDINANCE, 1928.

PURSUANT to the provisions of Section 18 of the Local Government (Rating) Ordinance, 1928, the Municipal Council of Nairobi has imposed the following rates in respect of the year 1933, viz:—

- (1) An original rate of one-half per centum; and
- (2) An additional rate of five-eighths per centum on the Unimproved value of land as appearing in the Valuation Book.

The above rates shall become due and payable at the Municipal Offices, Nairobi, on the 1st day of August, 1933.

A discount of two-and-a-half per centum will be allowed on any rates paid on or before the said 1st day of August, 1933.

Dated this 27th day of June, 1933.

ESTATE BOOK-KEEPING

For Farmers and Planters in East Africa.

By J. C. D. HOPE, Registered Graduate Incorporated Accountant

This little book is the simplest explanation of ordinary double entry book-keeping... It is a book well worth reading to your friends at home.

Standard Stationery Stores, Nairobi.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by the correspondents... The Editor does not accept responsibility for the views expressed by the correspondents...

THE "COLONISTS" PARTY

To the Editor, "E.A. Standard," Sir—May I as a member of the Committee of the Ngora Association who helped to draft the questionnaire referred to in your issue of 22nd inst. express my sincere appreciation for the interest and energy shown by Mr. O'Brien in his very able and kindly criticism of our endeavours published in your issue of 22nd inst.

I agree that the "Aims" of the proposed new Party differ in no essential degree from the "Aims" set forth by the acting Leader, Mr. O'Brien, and the members of the last session of Legislative Council. It is, however, clearly and obviously necessary for any proposed new Party to have a set of "Aims" as a start-off, and to invite constructive criticism thereon from the members of the Council from the nature of the question put to the Committee that the proposed method of training these aims differs markedly from the method set forth by the acting Leader, Mr. O'Brien, and the members of the last session of Legislative Council.

I wholeheartedly welcome the statement of fact, which is so readily as it should be through-out. The proposed Colonial Party aims at rectifying this state of affairs by— (a) Creating the agreed "Aims" of the proposed new Party, and (b) Granting an efficient Political organization to obtain those aims.

When this is done, we shall be in a position to regard our ultimate goal—full Dominion Status. Until this is done, we shall be in a position to regard our ultimate goal—full Dominion Status. Until this is done, we shall be in a position to regard our ultimate goal—full Dominion Status.

I am sure he will forgive my giving an illustration "near home" of what I mean. An Elected Member of the Legislative Council finds himself in a position to agree with policy his elected Leader and other Elected Members. It has happened to Mr. O'Brien himself. I submit that the proper procedure for such members to resign his seat on the Legislative Council and to offer his resignation to a suitable candidate in the constituency whose views agree with his own, and the same is sought out then and there.

If the dissenting member secures the election, it goes to show that his opinions are held in the constituency, to which one Elected Member can resign and clear the way for the policy demanded. On the other hand the retiring member fails to retain his seat as a dissenting member is removed from the Elected Members Organization and the views of the retiring member are not represented in the Council.

The Committee of the Ngora Association plan to present their questionnaire to the Legislative Council. This is a step which is well to be taken, and it is to be hoped that the Committee will be able to present their questionnaire to the Legislative Council.

holding in common with those elected to our organization. If on the other hand, they prefer to go on in the present attitude—without completely understanding and acknowledging the views of their Leader or their organization, then the matter of the Committee, the Colony will continue to be treated from time to time in the sense of such members as the Elected Members put up over the Constitutional Advances on the last session of Legislative Council and must remain to be being ignored and ultimately defined as of no account.

J. Y. BIDDILL, Mayor.

MAIZE EXPORT FIGURES

To the Editor, "E.A. Standard," Sir—In your issue of the 15th inst. Colonel Griffiths has published a reply to my criticism of the scheme which was in your issue of 15th inst. I am sorry to report that the scheme was not published in your issue of 15th inst. I am sorry to report that the scheme was not published in your issue of 15th inst.

Let me take the 1st paragraph of your letter. I certainly do not state that 4 1/2 per bag was cost of production in 1935. I only state that 4 1/2 per bag was cost of production in 1935. I only state that 4 1/2 per bag was cost of production in 1935.

Some of which produced at that time was bag only to the extent of 100 acres each in the year. Colonel Griffiths endeavours to prove that 5/80 per bag on an eight bag crop is therefore low, when compared with cost of production today and 27 years ago. The cost of production in South Africa is no higher than it was 27 years ago, except in the case of the few, very few, who use tractors, etc.

On the question of cost of production, I still maintain that as a result of this product increasing in value, their idea is their own product, each value should be borne by the consumer. It is not the K.F.A. It is not the Government. It is not the Government. It is not the Government.

Agnes has arguments regarding the cost of the scheme, but I have not the space to set out her views. I have not the space to set out her views. I have not the space to set out her views.

Now Sir, I ask your readers, who is such a scheme put forward to the Government and then the Government? The Government? The Government? The Government?

Finally, there is nothing in the proposed Colonial Party to prevent the present Elected Members and their Leader from helping to form a party which is a more efficient and co-ordinated organization necessary to achieve the "Aims" they

probably an one who is interested in the value of export produce in South Africa. The letter from "A Farmer" in the same issue is an excellent one. It is a very good one. It is a very good one.

The next paragraph states, I suggest the value of export produce in South Africa is five shillings and six pence. The market in the States for this is the price paid by the exporter end your issue of May 15th.

It appears to me that Colonel Griffiths is the one who will get his facts right. If he reads the statement issued in your paper, he will find out that there is no maize quota in South Africa for this year. The statements therefore that the average price to the grower will be 7/50 is incorrect. The market in the States is a free market this year.

It is a pity that the grower has more production by exporting to the States than he has by selling to the higher prices for the amount left in the States. It is a pity that the grower has more production by exporting to the States than he has by selling to the higher prices for the amount left in the States.

There are some others in the country who are prepared to call their bluff. They are prepared to call their bluff. They are prepared to call their bluff.

Let me take the 1st paragraph of your letter. I certainly do not state that 4 1/2 per bag was cost of production in 1935. I only state that 4 1/2 per bag was cost of production in 1935. I only state that 4 1/2 per bag was cost of production in 1935.

Some of which produced at that time was bag only to the extent of 100 acres each in the year. Colonel Griffiths endeavours to prove that 5/80 per bag on an eight bag crop is therefore low, when compared with cost of production today and 27 years ago.

On the question of cost of production, I still maintain that as a result of this product increasing in value, their idea is their own product, each value should be borne by the consumer. It is not the K.F.A. It is not the Government. It is not the Government.

Finally, there is nothing in the proposed Colonial Party to prevent the present Elected Members and their Leader from helping to form a party which is a more efficient and co-ordinated organization necessary to achieve the "Aims" they

Wireless Notes.

Practical Hints THE VALVE

MODERN opinion accepts the valve as an essential adjunct to reception. While on wave lengths above about 200 metres the crystal detector is still in use for the reception of powerful nearby stations at headphones strength its lack of sensitivity precludes its use for any other purpose.

To most people a wireless valve is merely a wireless valve and nothing else; but actually there is a very wide range of valves at present available, each serving a definite object in a given position in a multi-valve receiver. The performance of a valve is interpreted by what is called its static characteristics using electrostatic valves or valves on collecting electrodes. These characteristics only differ slightly from the dynamic characteristics. In the latter the valves are constantly varying when the valve is actually in use. The discrepancy between the two characteristics is explained by the latter electrode capacities and by the small leakage time required for the electrode currents to respond to voltage changes. For the characteristics in the static condition, the static characteristics are sufficiently accurate as a guide of the capabilities of a valve and these are usually represented in the form of a curve plotted on a squared paper. A typical form of such a curve will be reproduced next week when I will deal with the actual action of a valve.

A Typical Valve. Dealing with a very general type of valve such as may be used either as a detector or as an amplifier...

amplifier of low frequency in which an electrostatic beam valve (the filament) from which negative electrons are evaporated and collected by a concentric cylindrical sheet (the anode) maintained at a considerable positive potential with respect to the filament by means of the H.T. supply or some similar source of voltage.

Between the filament and the anode a further electrode, the grid, is placed. The function of this grid is to control the flow of current between the filament and anode when varying more or less directly as the potential of the grid with respect to the filament. The electrodes are all brought out of the cabinet into four pins which are adapted to plug into sockets, which are in turn connected to various points in the complete receiver. Two pins are the filament pins one for each end, and the other two pins being the plate pin and the grid pin respectively.

As above stated next week I will deal in greater detail with the actual action of a valve.

NOTES OF THE WEEK.

RECEPTION conditions during the last week have been fair although the early portion of exceptionally good reception has not been fulfilled. IBSH has definitely improved and is now at least equal in strength to IBSB. The higher W bands remain rather noisy although signal strengths have gone up.

Unwanted Rain. While many districts in Kenya are literally drenched for rain the Test Match England vs. The

West Indies on Saturday was interrupted by a heavy down-pour which put an end to play to the obvious disappointment of the enthusiasts. The experience was a witness enough of the match.

No Noise. One of the features of the Empire Station transmitter is its almost necessary lack of back ground noise to the transmission. This is doubtless due to the fact that the power supply and motor of the A.C. which controls the frequency is smoothly and is apt to give a certain amount of hum.

Coils and Readings.

Listeners should remember that where overlap in coils exists reception is generally better at a lower dial reading on the larger coil. Thus if coil A tunes from 20 to 50 metres and coil B from 40 to 80 metres reception of a station the wavelength of which is say 45 metres is generally better on coil B.

A New Type.

A new type of receiving valve has been placed on the market under the name of GATKIN. Doubtless a diminutive of G.A.T. (cooled anode transmitter). This design is a costly all metal one and definite advantages such as uniformity of characteristics in comparison, complete lack of microphony and unobtainability are claimed by the manufacturers, the Osram and Marconi Companies.

Whether these valves will ultimately replace existing types remains to be seen but at present they are on the market at a price more commensurate with their use.

I have received another letter asking for Sunday morning reception of the British Empire

there does not seem to be any overwhelming desire on the part of the public for this.

A Query for T.L.O.

The same correspondent writes from the Sogador district that the Indian Station transmitter on the off air altimeter at 9:15 p.m. on June 14 asks whether this is due to skip or the station. I have had similar queries from a number of listeners and of course only the broadcasting people can answer the second part of the question. While I think that its importance has not been greatly exaggerated.

Listeners' Queries.

"Wireless Listener" writes: I would like to draw your attention to a serious oscillation in the Chicago district which is a source of annoyance to myself and other people. Perhaps a few hints from you on tuning might help this set owner to overcome his difficulties. You know as well as I do that with modern sets there is no need to obtain signals by excessive reaction owing to the strength with which London etc., come in.

Answers.

I entirely endorse "Wireless Listener's" remarks and entirely add that when using a set the detector valve of which is not preceded by an H.F. amplifier and this more or less loaded from the antenna coil, a source of very considerable strength may be produced by excessive reaction.

AIRWAY WIRELESS DEVELOPMENT.

Derby Result Heard Above Desert.

NEWS FROM AMERICA. [FROM A CORRESPONDENT.] London, (By mail).

The wireless operators on Empire routes sometimes find upsurges of messages while flying at high altitudes which contain the results of thousands of miles from the spot over which the aircraft may be passing.

On the afternoon of Derby Day, for example, while the Imperial Airways Empire service was flying along the coast of the Irish air route between Inghinid and Brest, the operator heard the contest message from England which was flying round the world the result of the classic horse race which had just been run on Epsom Downs.

Thus the passenger in the machine although they were high in the air at the moment when the stretch of desert burned the result of the Derby within a minute or so of the winner having passed the post.

An African Example.

Not long ago another remarkable long-range result as between an aircraft and a ground station was obtained while an Imperial Airways machine was in flight from the Africa route. On that occasion while the aircraft was between Johannesburg and Kampala the operator succeeded in establishing contact with the British Post Office (headquarters) at Port Elizabeth, a distance of approximately 4,000 miles.

On other occasions recently, while an air-cruiser was in flight over the Atlantic, its operator succeeded in writing down complete pages of news from a Bulletin which was being broadcast from a Ground Station in Florida.

All-India in flight over Africa have also established wireless contact on several occasions with land stations in Germany as Italy, while on long sea a machine using short-wave transmission, flying from Cairo to Capetown, established maintaining communication with Gains which, at a distance of well over 1,000 miles.

BRITISH ISRAEL NOTES.

Extracts from Headquarters Annual Report.

There are only three countries in the world not directly touched by our British-Israel activities. These countries are Mexico, Yugoslavia and Russia.

The international question of an independent state in a vacuum is a great deal of attention. We have had distinguished visitors from the United States, the United Kingdom, Greece and many other countries. We do not refer to any of these countries as being Jewish countries, but to leading statesmen who are seeking to understand the present extraordinary world situation and to consider the true interpretation of the times. There is a widespread conviction in European countries that the British-Israel interpretation furnishes the most satisfactory answer to the Jewish question. We are pleased to report that the Hebrew Christian Church in London has been invited to inaugurate its own cooperation through the Rev. Leon Levinsky, Mr. Newgrover and others.

The leaders of non-Christian religions are likewise being contacted and the approach has been continually delightful both in relation to the present and to possibilities for future service. We are happy to announce that the Jewish question is being approached to be opened in 1946. It contains the heart of our faith and has opened a great and effective door to the conversion of the Gospel of the Kingdom. This does not necessarily mean that Judaism will become Christianized overnight, but it does mean that Judaism is awakening to the fact that our Commonwealth of Nations is formed upon the basis of territorial Israel.

It need not be said that the testimony of territorial Israel with all the weight of past history and present prophetic promise and peace makes the strongest impression that has been made since Aeneas' dream upon the minds of thoughtful leaders of Judah. We have common ground in the worship of God of our fathers, and in the Old Testament Scriptures; we both unite in the prayers of the Psalmist and the Prophet; we both look for the manifestation of the Messiah to reign upon the Throne of His father David; we are mutually assured of the reviving of Israel and the reunion of Israel and Judah according to the Parable of the Two Sicks of the 17th chapter of Isaiah and so on.

These are things in which we search together. There is reason to believe that we may be equally united in the acceptance of the Son Who was born to Whose Name is called "Wonderful Counselor, the Mighty God, the Everlasting Father, the Prince of Peace of the increase of Whose Kingdom there shall be no end." National Strategy.

STANDARD CONSPIRACY. London (By Mr. May). The combined Oxford and Cambridge Lawn Tennis team to visit America has been chosen and is J. W. Nottall captain (Exeter and Chislehurst, Cambridge), G. C. Frank (North Carolina and St. John's, Oxford), P. S. Young (Rugby and Pembroke, Cambridge), G. F. Westbrook (University College School and Chislehurst, Cambridge), W. N. Moss (Charterhouse and Brasenose, Oxford); and H. B. Burnett (Chislehurst and Whiston, Oxford).

The Cambridge first string, I. St. James and the second Oxford string, G. L. Burwell and F. G. Sturges are not participating in the team. This will be the first time since the outbreak of the war and each side will have four.

Mr. John Anthony, the well-known former of South Wales, died last week. He was the father of Prof. Owen and Jack Anthony, all of whom have made names. The latter was both a poet and an innovator.

Mr. A. L. Knighton, the Chelsea manager, recently signed a professional T. Friendly, Irish international player and London mid-fielder forward. In 1931-32 Friendly played in the Amateur international match against Scotland, and last season he played for Ireland at Belfast. Friendly is regarded as the most polished footballer raised last season, having made more than twenty goals. He is 22 years of age and about 5 feet 7 inches in height. While he has not a robust appearance, he can hold his own in the tightest corner. His command of a ball has impressed the spectators upon in the game. He is a clever dribbler of the old type, has a very elusive screen and a superb, raking strike. Friendly played in a Rugby scrum cap, illness having robbed him of his hair. He has had only about a season and a half in senior football. His first team was Colchester. He graduated as an inside-right, but it is all the more to be noted that he occupies in the attack. He is a master craftsman, surprising in his control of the ball.

Mr. B. Darnley Shaw, of Bristol, landed his Diamond (Consolidated) Plane upon the water with a set of golf clubs. The plane was on one of the boats on the Longmoss course last week. She had a strong wind behind her and the hand gauge was

Native Production in East Africa.

TANGANYIKA CONCENTRATING ON HIGH VALUE CROPS.

Kenya Leads in Tonnage. IS PROPAGANDA MORE INFLUENTIAL THAN A GOOD SEASON?

How far is propaganda responsible for the improvement of native production in Tanganyika? Figures furnished in the following article give the years during which various crops reached maximum proportions are held to suggest that a good season is perhaps a more important factor than propaganda, although the latter is helpful.

Another fact which emerges is that the apparent superiority of the Tanganyika production is due largely to the improvement of high value crops, mainly coffee, but also cotton and rice, whereas native coffee growing has not yet begun in Kenya, though nurseries are now being established.

Despite this fact tonnage figures—though not values—show a larger production in the Kenya Native Boreas than in Tanganyika. It is suggested that in view of the different characteristics of the two territories the only way to improve the Kenya figures is to concentrate more definitely on high value crops, particularly in the Kavirondo and Kilgoris Reserves where present production consists mainly of such crops as maize, millet, beans and potatoes.

Comparative Figures. (Special to the "East African Standard.")

Considerable interest has been expressed by the series of leading articles published in this week on the subject of increased production of the Kenya Native Boreas. It is likely that when items of this nature are published in the various papers of the Boreas, they will be read with interest by the purpose to which the matter is being devoted is a matter of course. It is a matter of course that the Boreas is a very small area.

For a further understanding of the position it should be remembered that the main staple crops of the Boreas are cotton, coffee, and groundnuts. These crops are grown in the Boreas in a very small area. It is a matter of course that the Boreas is a very small area.

A Proper Perspective. The Government's interest in the Boreas is a matter of course. It is a matter of course that the Boreas is a very small area.

Native Development. The Government's interest in the Boreas is a matter of course. It is a matter of course that the Boreas is a very small area.

Benefits of a Railway. Another point to be noted is that the Boreas is a very small area. It is a matter of course that the Boreas is a very small area.

JAPAN'S TRADE IN THE EMPIRE.

Serious Competition with Britain. Cheaper Production.

INCREASED IMPORTS INTO TANGANYIKA.

The report issued by the Federation of British Industries in Japan on the subject of the Japanese trade in the Empire, which was published in the British trade journal, "The Importer," in its issue of June 25, states that the Japanese trade in the Empire during the last few years has assumed a new character.

Japan, as the report points out, is the first Eastern country to compete with the industrial nations of the West in their exports to the Empire, and she competes with immense advantage for the time being, in the staple articles of which can be judged from the fact that they enable her to maintain even the trade balance of the United Kingdom.

These advantages are two, continues the report. The Japanese goods are of a high quality, and the Japanese industry is of a high standard. It is a matter of course that the Boreas is a very small area.

Moreover, there is no tariff in Japan, and payment is made in the form of goods. It is a matter of course that the Boreas is a very small area.

Currency Depreciation. The yen's recent depreciation, adds the report, is of the depreciation of the yen. It is a matter of course that the Boreas is a very small area.

Different Crops. For a further understanding of the position it should be remembered that the main staple crops of the Boreas are cotton, coffee, and groundnuts. These crops are grown in the Boreas in a very small area.

Native Development. The Government's interest in the Boreas is a matter of course. It is a matter of course that the Boreas is a very small area.

Benefits of a Railway. Another point to be noted is that the Boreas is a very small area. It is a matter of course that the Boreas is a very small area.

WHITEWAYS - NAIROBI.

Governments Must Take the Lead.

IN ENCOURAGEMENT OF PRIVATE ENTERPRISE.

An American Example.

The view that an ambitious programme of public works put in hand by the Government of the United States would help towards world recovery was expressed by one of the United States delegates to the World Economic Conference in an address to the Monetary Subcommittee.

Dealing with the re-establishment of normal international lending, the Chairman of the Exchange said that in the future additional safeguards would be required in connection with foreign loans.

Future of Foreign Lending.

That a general rise in world prices would naturally affect the situation to the advantage of debtors, the view of Mr. Neville Hamilton expressed when he was addressing the Monetary Subcommittee of the World Economic Conference.

AERODROMES IN KENYA.

Demand for Construction of Land.

It is an early time to begin to plan for the aerodromes in Kenya, which are to be built in the near future.

Mr. Hamilton said that the experience of the United States in connection with foreign lending would be a valuable guide to Kenya.

Regarding the question of the recovery of loans already granted, he said that it is necessary of the times did not seem to demand the general suspension of debts.

Mr. Hamilton said that the experience of the United States in connection with foreign lending would be a valuable guide to Kenya.

RABIES AND ROAD IN KURU DISTRICT.

Discussed by Meeting of Farmers Association. Kuru, June 21.

Under the chairmanship of Mr. P. Pearce the Kuru District with long experience were represented at a meeting of the Kuru Farmers Association held at the Kuru Club yesterday. A tribute is due to the Hon. Secretary, Mr. P. L. Lewis, for his assistance in coping in all the Kuru farmers as members of the Association which must therefore be accepted as fully representative of local opinion.

The Chairman extended a welcome to Capt. Hay Barclay (Veterinary Officer, Lambya) for attending the meeting for the purpose of discussing the rabies control. He announced that the policy was to bait all wild animals as far as possible, with the farmers concerned and emphasized the danger owing to the fact that the rabid animal travels long distances. Capt. Hay Barclay having answered the questions Mr. Pearce raised and Mr. Lewis had to state that this Association locally supports the policy being taken by the Veterinary Department for the eradication of rabies, which was carried with two dissentients. The meeting unanimously accepted a further proposal by Mr. Barclay, whereby the Advisory Committee should consider the advisability of holding an enquiry into the statement made by one witness that control districts passed by the Public Works Department would result in agricultural damage. Mr. P. Pearce seconded by Mr. W. Williams, it was unanimously resolved that this Association records its satisfaction with the control of the Nyanza District Council and deprecates any transfer of authority being made.

Mealy Bug. Mr. A. C. Webber introduced the subject of Mealy Bug and it was unanimously resolved to urge the Government to take all possible steps to ensure the immunity that this District has hitherto enjoyed from the depredations of this serious pest. In the interests of Nyanza coffee it was felt that the introduction of all possible varieties from infected Districts should be absolutely barred. Chicago of Use. Mr. E. B. G. G. explained to the meeting the jury Ordinance relating to shops in rural areas which was approved in principle at a meeting of the local 'change of rate' which has a serious effect on the taxation for a long period. On the motion of Mr. G. G. G. after a long rest of Mr. A. C. Webber, it was unanimously resolved to make representations to the Government.

Under the chairmanship of Mr. P. Pearce the Kuru District with long experience were represented at a meeting of the Kuru Farmers Association held at the Kuru Club yesterday. A tribute is due to the Hon. Secretary, Mr. P. L. Lewis, for his assistance in coping in all the Kuru farmers as members of the Association which must therefore be accepted as fully representative of local opinion. The Chairman extended a welcome to Capt. Hay Barclay (Veterinary Officer, Lambya) for attending the meeting for the purpose of discussing the rabies control. He announced that the policy was to bait all wild animals as far as possible, with the farmers concerned and emphasized the danger owing to the fact that the rabid animal travels long distances. Capt. Hay Barclay having answered the questions Mr. Pearce raised and Mr. Lewis had to state that this Association locally supports the policy being taken by the Veterinary Department for the eradication of rabies, which was carried with two dissentients. The meeting unanimously accepted a further proposal by Mr. Barclay, whereby the Advisory Committee should consider the advisability of holding an enquiry into the statement made by one witness that control districts passed by the Public Works Department would result in agricultural damage. Mr. P. Pearce seconded by Mr. W. Williams, it was unanimously resolved that this Association records its satisfaction with the control of the Nyanza District Council and deprecates any transfer of authority being made.

SHEDDINGS IN LIFE OF A GREAT PIONEER.

1886 Rhodes was worth £4,000 a year. When followed a great fight between four young mill lions—Rhodes and Beit on one side and Harrison and Wood on the other. They were all under 35 years of age and all were destined to die within 18 years. The two losers actually died violent deaths within a short space. Harrison burnt himself and Wood fell.

The Railway. During 1889 Rhodes did not appear in Parliament at the Cape. He was busy in the north, but having in June, 1890 that the Government was about to abandon the Kimberley Railway line for a line near the mouth of some of the Cabinet Ministers, he hastened to Cape Town, not for the first time Rhodes did not fight for his Railway to the north, but he won and the process found himself (Vernon Minister of the Cape). Rhodes could not go because he felt he could not go. His belief was in a United South Africa, but a portion of the British Empire. 'The infant is dead,' said Rhodes. 'We human atoms may divide this great country, but nature does not, and I will not change my mind. It may take it all one day, but I will keep it together.' In Uganda, Colonel Turner said it had often been said that Rhodes' last words were, 'I wish to see much to do; so little done.' The fact was that he had last words more simply human, more poignant than those. His last words were said to have been: 'Turn me over Jack.'

Sporting Breveities. Some keen play was witnessed at the weekend in connexion with the Grahams Club's annual handicap tennis tournament. The Morrison Mag at Murrumbidgee on Saturday was won by J. B. Cleland. The Ryder Cup match between Great Britain and America commenced at Stouport yesterday and continues today. The British Open golf championship takes place at St. Andrews on Monday, July 3.

Prevention of 'Dumping.' Mr. O'Shaughnessy was asked to suggest measures to prevent 'dumping' of refuse in the country for the way the Commissioner had translated his sympathy in the matter to a concrete form, which would be appreciated. The Hon. C. O'Shaughnessy said that it would not be right for him to insist that the Bill was not of order, because of the objection of the objects and reasons and it the schedule of the Ordinance it was proposed to amend. Continuing, Mr. O'Shaughnessy was asked to suggest measures to prevent 'dumping' of refuse in the country for the way the Commissioner had translated his sympathy in the matter to a concrete form, which would be appreciated. The Hon. C. O'Shaughnessy said that it would not be right for him to insist that the Bill was not of order, because of the objection of the objects and reasons and it the schedule of the Ordinance it was proposed to amend.

INGRAM & CO. GARDEN TOOLS THE TOOL HOUSE. The Bill then went into the committee stage during which there was no discussion, and it was reported back to the House on a third reading and passed. The Hon. C. O'Shaughnessy was asked to suggest measures to prevent 'dumping' of refuse in the country for the way the Commissioner had translated his sympathy in the matter to a concrete form, which would be appreciated. The Hon. C. O'Shaughnessy said that it would not be right for him to insist that the Bill was not of order, because of the objection of the objects and reasons and it the schedule of the Ordinance it was proposed to amend.

TUESDAY, JUNE 27, 1961.

The Customs Changes.

The alterations in the East African Customs Tariff made by special assent to the various Legislatures simultaneously yesterday represent the first important step taken since the world depression began to safeguard the import trade and the revenues of the Territories from the effects of the changes in international trading methods which, in their aggregate effect, have hastened the collapse of the world's economy. Selecting a comprehensive list of imports, which includes some of the most important commodities of the Territories, the Governments have taken action to safeguard the import trade and the revenues of the Territories from the effects of the changes in international trading methods which, in their aggregate effect, have hastened the collapse of the world's economy. Selecting a comprehensive list of imports, which includes some of the most important commodities of the Territories, the Governments have taken action to safeguard the import trade and the revenues of the Territories from the effects of the changes in international trading methods which, in their aggregate effect, have hastened the collapse of the world's economy.

Members Road New Opem.

Mr. (Balton-Poni) writes as follows: "I have just received from the authorities at Mombasa informing me that the road from Voi to Mombasa will be closed to traffic owing to the heavy rain which has caused the road to be washed away. I have been advised by the authorities at Voi that the road will be closed for a period of two weeks."

Ng'ao Association.

The Ng'ao Council meeting has been arranged for Friday, June 30, at 10.30 a.m. at the main hall, including Colonel Dorn, who will attend that meeting, and the Ng'ao Association will postpone the meeting of the Ng'ao Association to 10.30 a.m. on Friday, July 21, at the New Stages Hotel.

A Visiting Journalist.

Mr. George L. Dorn, a well-known newspaper journalist, who is representing the leading daily and news magazines of the world in England is visiting East Africa in order to provide what he himself describes as a "fair picture of the conditions in East Africa."

The Ng'ao Council meeting has been arranged for Friday, June 30, at 10.30 a.m. at the main hall, including Colonel Dorn, who will attend that meeting, and the Ng'ao Association will postpone the meeting of the Ng'ao Association to 10.30 a.m. on Friday, July 21, at the New Stages Hotel.

Collisions.

At about 4 p.m. on Friday a native coming down Secretariat Hill on a bicycle collided with a truck car No. 11, 4847, driven by Mr. Oscar Thomson, American Vice Consul, who was on the Road towards Secretariat Hill. The native was later admitted to the Native Civil Hospital. His condition is not serious.

The Weather.

The East African Meteorological Service report of weather conditions received from stations in East Africa up till 8 a.m. yesterday states that rain fell at Malindi, Kisumu, Mombasa, Kampala and Broken Hill. British recorded 0.12 inch and maximum temperatures recorded in day F were as follows:—Lahore 82 and 74; Addis Ababa 81 and 73; Mombasa 84 and 72; Kampala 84 and 62; and Broken Hill 80 and 62.

Week-end Burglaries.

The premises of the Holiday Hotel in Victoria Street were broken into on Saturday night. The intruder breaking a pane of glass and entering through the office of the Victoria Oil Co. in Sixth Avenue was arrested on Sunday night. The thief having broken a window pane at the back of the premises was arrested and detained in prison.

ONE OF THE STARS

Diagnosis Driving.

Judgment was rendered given the British Magistrate, who, in a case in which an Indian appeared on a charge of causing an accident on a charge of causing an accident occurring at Limuru Bridge near the City Council grounds, was driving a lorry and had been proceeding from the rear. As a result, a collision took place with a motor car. The Magistrate held that the defendant was not guilty of the offence as he was not driving a lorry at the time of the accident. The defendant was fined 10/- and costs 10/-.

KENYA'S FINANCES IMPROVED. MORE MONEY FOR LAND BANK.

Steady Increase in Revenue

BUT DROUGHT DEMANDS POLICY OF STRINGENT ECONOMY. Legislative Council.

Special meeting of the Kenya Legislative Council was held yesterday, mainly for the purpose of approving an amendment to the Customs Tariff Ordinance and the Bill to raise a loan of £300,000.

The session was opened by His Excellency the Acting Governor who announced that the next meeting of Council will take place on or about August 7 when the legislation dealing with alternative forms of taxation will be introduced.

He said it was clearly desirable that the public should have ample opportunity of studying the Bills.

The Secretary of State has made several comments which indicate discussions with neighbouring territories and involve their co-operation.

In an outline of the present financial position of the country Mr. Meers said that during the first four months of 1952 expenditure exceeded revenue by £59,158.

In view of drought conditions the policy of stringent economy would continue to be pursued throughout the year.

Acting Governor's Review.

Kenya Legislative Council adjourned on Monday after a session which was thus adjourned by His Excellency the Acting Governor (Mr. H. M. Meers) on Monday August 2.

The Attorney General also gave the substance of the report of the Committee on the proposed Bill and the other Bill.

He said that the Bill would meet the wishes of the Secretary of State and the Committee on the proposed Bill. He said that the Bill would meet the wishes of the Secretary of State and the Committee on the proposed Bill.

WOMEN TO PAY POLL TAX.

Secretary of State's Suggestion. WOMEN TO PAY POLL TAX. WOMEN TO PAY POLL TAX.

The Secretary of State for the Colonies suggested that women should also be taxed under the Graduated Poll Tax scheme.

This is one of the interesting proposals in a Despatch addressed by Sir Philip Cunliffe-Lister to the Governor of Kenya.

The Despatch deals with the subject of women's taxation.

The Despatch says that the Secretary of State has suggested that women should also be taxed under the Graduated Poll Tax scheme.

THE EAST AFRICAN HOTEL KEEPERS' ASSOCIATION.

Review of a Difficult Period.

FUTURE AIMS.

That the past 12 months had been a difficult one for the hotel industry there is no doubt. Mr. Sheehana, who presided at the third annual meeting of the East African Hotel-keepers' Association, which took place at the Tor's Hotel, Nairobi, last week.

Despite this, however, it had held its ground, while many hotels had offered improvements and additions during the period of steep building, in the expectation of an early improvement in conditions and increased business from new arrivals in the district had found business in hand.

It was felt that the industry would improve this year, and it was decided to continue to work for the improvement and administration of the industry.

The committee proposed the raising of prices against the public, or eliminating competition, and hoped that their common business would lead to the form of fixing a fair price for the industry, and their competition would result in price cutting, but in order to give the public better value for their money.

Competing in the form of providing a list of the business at the hotel, and hoped that the hotel industry would lead to the determination of the standard of the hotels and the industry of some of the firms concerned.

Club.

On the question of clubs, the club which had both hotels and clubs were an asset to their neighbourhood and to the whole industry, and were beneficial to the hotel industry, especially as regards their administration.

There was no desire on the part of the Association to interfere with the legitimate activities of any club, but it was felt that certain clubs were being conducted in an undesirable manner.

The Association proposed that the clubs should be run on a business basis, and that the clubs should be run on a business basis, and that the clubs should be run on a business basis.

The Association proposed that the clubs should be run on a business basis, and that the clubs should be run on a business basis.

SITE VALUE TAXATION IN NAIROBI.

Changed Conditions.

Mr. Eckersley said that the Mayor's views were worthy of the greatest consideration, and that many years' experience in a good thing was a good thing.

Mr. Eckersley expressed the opinion that taxation of site value in the early days was justifiable, but that it had become a burden on the property owner, and that it was not a fair thing to do.

Mr. Eckersley suggested an improvement tax, if such a tax were levied, the amount of rate in the site value tax would be naturally reduced. The rate would be distributed to the site value tax.

As an example, suppose two men came to Kenya with £1,000 each to buy a plot. A man who had £1,000 and had no other money for building, and he bought one acre and put the remainder on the land, he would have a house, which he could sell for £1,000. The man who had £1,000 and had no other money for building, and he bought one acre and put the remainder on the land, he would have a house, which he could sell for £1,000.

Meas on Building.

He had heard from Municipal Council members when they were in the city, and that they were in the city, and that they were in the city, and that they were in the city.

Mr. Eckersley said that the Mayor's views were worthy of the greatest consideration, and that many years' experience in a good thing was a good thing.

FUTURE DEVELOPMENT OF KENYA.

The Future Development of Kenya. DEPENDS ON RAPID INCREASE OF WHITE SETTLEMENT.

A Vacillating Policy. ADDRESS ON ACTIVITIES OF THE KENYA ASSOCIATION.

Major F. Cavendish Bentsick gave an address on the activities of the Kenya Association (1932) at the meeting of the Nairobi Association on Friday, when he stated that the future and development of the country depended upon the rapid increase of white settlement.

The Colony, he added, had been brought into a dangerous position owing to the unfortunate vacillating policy of the British Government in regard to white settlement.

Dealing with the objects of the Association he emphasized that one of the most important was the keeping in touch with London and elsewhere in order to discover who was coming out and to ensure that new arrivals were properly looked after. This had been sadly neglected in the past.

The Kenya representative in London, he said, should be a man who knew the country and could answer business questions and to correct misrepresentations. He should not be a political agent, but he should be able to supply the Members of Parliament with facts. A central office should be established in Nairobi.

Representation in London.

His Mr. Alex. Holm, lately Kenya Director of Agriculture, also had an important part to play in London.

Major F. Cavendish Bentsick gave an address on the activities of the Kenya Association (1932), when he stated that the future and development of the country depended upon the rapid increase of white settlement.

Entertainments of the Week

MARLENE DIETRICH AGAIN

The Week's Films.
THIS week's films at Nairobi theatres are—

EMPIRE—"Bad Sister" to night, Tuesday and Wednesday 8:45, "Congorilla" Thursday, Friday and Saturday at 8:45 p.m.

CAPITOL—"Sun Ship" to night, Tuesday and Wednesday at 8:45, "Congorilla" Thursday and Friday only at 8:45 p.m. and "The Starling Cardinal" Saturday this week, and Monday, Tuesday and Wednesday next week at 8:45 p.m.

"Disboured."

THE big picture this week is unquestionably "Disboured," which stars Marlene Dietrich, of "Morocco" and "The Blue Angel" fame, and Victor McLaglen. It will be recalled that the local cinema has banned "The Blue Angel" although, paradoxically enough it was admitted for exhibition in Nairobi's sister Capital, the Eschschau.

EXCEPT for its rather weak ending, most people enjoy "Morocco" perhaps, if no more, because of Marlene Dietrich herself, who rivals "The Garden." "Disboured" promises well, for, besides the

HEAVENLY CREATION MARLENE DIETRICH IN "FIVE AND TEN"

beauty and youth of Marlene, there is an acceptable story of considerable dramatic merit. Marlene Dietrich takes the part of spy X21 in war-time Austria—a country which has recently been discovered by film producers for their backgrounds.

A Biography?
"DISBOWED," described as the real dramatic version of one of the world's most intriguing wars, an inter-

Austrian Spy—X27— Pirate and Parson's Wife—"Congorilla" Returning— Another Sherlock— Seat Coupons.

national secret service agent, requires Marlene Dietrich at least constant change of character throughout the story's action. Presented first as the bitter and discouraged woman of the Vienna salons, she emerges as the master of Vienna's dressing rooms and clubs. Again her appearance changes and she is seen as a French peasant woman, a girl and boy before the general staff.

THE SLEEPING CARDINAL. Victor McLaglen, Film Star, Producer, Director, and Actor.

Actor-Guardians.
PERHAPS the majority of people will best remember Victor McLaglen from the part he played in "Green Street" and "What Price Glory?" Many will be surprised to hear that he started his career in the Life Guards and in London born. During the war he served with the Royal Irish Fusiliers and ending in the rank of Captain, was appointed Provost-Marshal of Bagdad. In "Disboured" he plays a handsome part in uniform, as Lieutenant Krenn.

New Coupon Invasion

THE coupon system has a last untried Nairobi theatreland, and from July 1st coupons for the Sbs 2:25 seats at the Empire and Capitol Theatres are for a limited number of 12 each a total price of sbs 20, which includes tax. The books must be bought from the Manager of the Empire Theatre but the coupons available for the Sbs 2:25 seats at each of the Empire and Capitol Theatres, for a period of 14 days commencing from the date of issue. Buyers of these books will save Sbs 7 on the books.

"Congorilla" Back.
THERE is quite a number of people, probably, who have still not yet seen "Congorilla," Mr. and Mrs. Martin Johnson's big-gauge film of Africa. On Thursday and Friday this week at the Capitol, they are given another chance. There must be many, too, who wish to see it again.

More Cheap Seats.
INCIDENTALLY three rows of the former Sbs 4:50 seats are to be allotted to the Sbs 3:50 section, thus leaving a total
