TOWN CLERK'S REVIEW OF NAIROBI MUNICIPAL FINANCE.

- interesting address on Municipal finance was given at last week's meeting of the Natrobi Association, by Mr. F. S. Eckersley, the Town Clerk, who reviewed at length the various sources of revenue, and items of ex-penditure incurred by the Nairobi Municipality.
- criticised the action of Government in reducing its grants to local authorities, which he said meant that the Municipality must increase its rates to make up the difference. In regard to the share in traffic licences. Mr. Eckersley submitted that this was not a grant, but was something to which the Municipality was entitled.
- Expenditure on roads was very considerable, but in a grow-town like Nairobi roads and drains must be constructed. During the depression there had been substantial reduc-tions in the programme, but there was a limit, owing to the danger of creating unemployment.
- Mr. Eckersley also referred to the large number of by-laws in existence many of which were not observed. He was amazed, he added, at the way in which by-laws were broken.

NEW PROPOSALS BASED ON MAXIMUM EXPORT.

A 500,000 Bags Surplus.

CONSUMER TO REGAIN AMOUNT PAID BY HIM TO HELP INDUSTRY,

The Kenya Farmers' Association has submitted to the Maize Enquiry Committee an alternative to the draft scheme originally put in connection with the control of internal prices of maize in Kenya.

nemorandum further explaining the operations of the control scheme is given below, and it is hoped that most, if not all, of the objections to the scheme will be removed. The Maize Enquiry Committee feel that much of the criticism is due to want of a full knowledge of the fact regarding the maiss industry

In order that the opinions of all interested parties may be contained in the final report of the Committee, a special sub-committee has been appointed who will be prepared to meet any consumer interests desir-ing further information in regard to the proposed

The most important new point is that the bissis of price would be the guaranteeing of the European grower's production costs, with an exportable surplus up to a maximum of 500,000 bags. Any export ever that figure would not be taken into account in calculating the internal price.

### The British Plan.

### IMPOSSIBLE TO GO FURTHER WITHOUT GENERAL AGREEMENT,

In important statement on the progress of the Dis-armament Conference was made by Sir John Simon, Secretary of State for Foreign Affairs, in the House of Commons on Friday.

Whilst he believed that real progress was being made at Geneva, it must be recognised that there were extremely disturbing signs also,

He welcomed the character of the speech on Germany's attitude to disarmanest made recently by Herr Hitler, but made the significant comment that it was facedeany to recognise that words were not the same as deeds.

The Foreign Secretary once more stressed the big sacrifices already made by Brissin towards disarms ment and said it was impossible to go further without general agreement.
