## Expenditure Advisory Committee's Proposals.

### KENYA GOVERNMENT'S ATTITUDE EXPLAINED.

### Provincial Reorganisation Accepted.

### FURTHER CHANGES IN TERMS AND CONDITIONS OF CIVIL SERVICE.

The conditions of the Civil Service received considerable detailed examination by the Select Committee on the 1963 Budget, particularly in view of the earlier proposals made in the interests of economy by the Expenditure Advisory Committee.

Government has adopted the proposals to reduce passage concessions and an agreement had been reached among East African Governments regarding the basis on which passengers shall be computed, the salaries of young entrants and the adoption of 55 as the age of retirement.

Government will also consider at an early date a suggestion that free quarters should be discontinued and the Civil Service required to pay rent.

The Elected Members proposed that a committee should be appointed to study the whole aspect of salary scale and consolidation.

It is a pity that in future contributions to the show will be paid on a separate fund. This was urged recently by Elected Members on behalf of the Civil Service.

The Committee proposed that the Statistical Department (excluding the meteorological service) should be abolished but that the possibility of preserving native registration be re-examined if further economies can be effected.

### Statistical Department's Fate.

The savings indicated by the Kenya Government's expenditure proposals are set out in the following points in respect of services for 1963:

(1) That the salaries of administrative officers should start at K500 per annum rising to K400 at the end of the first year and K475 by the end of the period of five years.

(2) That the salaries of administrative officers should start at K500 per annum rising to K400 at the end of the first year and K475 by the end of the period of five years.

(3) That the increase of 10 per cent in the salaries of administrative officers should be made in the initial addition of public officers' salaries. Quarters officers and other similar classes.

(4) That the present constant rate of 10 per cent in the salaries of administrative officers should be reduced to 5 per cent for the first four years and 10 per cent thereafter.

(5) That the normal rate of 10 per cent in the salaries of administrative officers should be reduced to 5 per cent for the first four years and 10 per cent thereafter.

(6) That the normal rate of 10 per cent in the salaries of administrative officers should be reduced to 5 per cent for the first four years and 10 per cent thereafter.

### Terms of Service.

The Committee gave considerable attention to the terms of the Expenditure Advisory Committee's proposals in the terms of 1963 for the Civil Service. It is noted that the Committee proposed that the normal rate of 10 per cent in the salaries of administrative officers should be reduced to 5 per cent for the first four years and 10 per cent thereafter.

The Committee proposed that the normal rate of 10 per cent in the salaries of administrative officers should be reduced to 5 per cent for the first four years and 10 per cent thereafter.

### Free Housing.

The Expenditure Advisory Committee, in its report, recommended that the Government should consider the possibility of providing free housing for its employees. It is noted that the Committee proposed that the normal rate of 10 per cent in the salaries of administrative officers should be reduced to 5 per cent for the first four years and 10 per cent thereafter.

### BRITISH IMPORT QUOTAS.

### System Defended in Parliament.

The House of Commons on May 10, during the final stages of a debate on the trade agreement with the Home of Common last night, heard Mr. W. A. R. Wood, Minister of Agriculture, defend the quota system.

He said that it was vital that the control of food supplies of this country should be maintained. The quota system was necessary to ensure that the country was able to meet its requirements for food and other essential goods.

The Minister stated that the quota system was necessary to ensure that the country was able to meet its requirements for food and other essential goods. He emphasized that the system was essential for the stability of the country's food supply.

### DISARMAMENT.

### Private Discussions Continued.

The British Government's proposals for disarmament are being discussed in private discussions. It is noted that the Government is seeking to reach an agreement with the other major powers on the subject of nuclear disarmament.

## NEW MARKET FOR E.A. SISAL.

### Scheme for Greater Consumption.

### Grading Proposals.

### Agreement by Empire Rope-makers.

A greater consumption of East African sisal at British and Canadian rope manufacturers is expected to result from an agreement for grading Empire sisal just concluded at London at a meeting of the East Fibres Joint Committee at which the British Empire Rope-makers' Association and British and Canadian rope-makers' association were represented.

Details of the grading scheme have been forwarded to Kenya and Tanganyika Governments. It is also suggested to form a central fund by means of a levy on all sisal exports for the carrying out of research into more economic use for sisal.

**Kenya Elected Members' Policy.**  
There is nothing new or sensational in the statement of the Elected Members of the Kenya Legislative Council made by their Acting Leader during the debate on the history of Kenya for two years. A series of Commission reports have been issued to lay an impartial basis on the problem of the African. His grievances and some of the ways in which to remedy them have been examined in detail and have been made known to the public at large. In the meantime, the Commission has been busy with the task of recommending the policy of Kenya there has been no time for the Commission to have been based mainly on the belief that certain aspects of Native affairs require special attention with the object of securing a better definition of aims. It is natural enough that this concentration on African questions—expressed by an unqualified representative of the issues outside the Colony—should temporarily divert attention from the general affairs of the community. Most of the changes suggested by the Commission coincided with the appointment of a new Governor. It is not surprising that there was some discussion as to how the Commission's

KENYA FINANCES IMPROVED.

Select Committee Save Further £38,000.

EXPECTED TO CLOSE YEAR WITH £75,000 SURPLUS. Partial Recovery in 1932.

GOVERNMENT WANTS TO INCREASE CAPITAL OF LAND BANK TO AID PRODUCTION.

Clear in the report of the Select Committee of the Kenya Legislative Council after their examination of the Provisional Budget for 1933 that the position of the Colony has improved since the end of 1931 by nearly £160,000.

It was originally thought as recently as the middle of December last, that at the end of this year the country would still itself with no surplus balance and instead a deficit of £75,000.

In consequence, however, of unexpected improvement in 1932 and of the proposals for further economies made by the Select Committee - which have now been accepted by Government - the estimated deficit, Kenya will have an estimated surplus balance of £76,000 at the end of the current year.

The Excellency the Governor intimated in his recent report to Council, the year 1932 which was expected to be a deficit of £230,000 actually revealed a shortfall of £109,000 owing chiefly to economies and increases in revenue.

Acceptance of the principle of a Native Betterment Fund by Legislative Council, Government now agreed to the Elected Members' proposal that certain items of expenditure on direct native services should in the meantime appear under their ordinary headings in the Budget.

Native Betterment Fund.

The Elected Members of the Legislative Council have decided to support the proposal for a Native Betterment Fund, which is to be a separate fund for the purpose of providing for the betterment of the native population of the Colony.

AIR DISASTER IN SPAIN.

French Liner in Flames. Five Persons Killed in Crash.

Madrid, May 9. Five persons were killed when a French air liner on the Toulouse-Casablanca route crashing to-day in flames 45 miles north of Barcelona.

The plane, carrying 30 passengers, was flying at a height of 10,000 feet when it crashed into the sea. The cause of the disaster is still unknown.

The French Government has ordered an investigation into the cause of the disaster. It is also expected that the Government will order a full inquiry into the matter.

GANDHI'S FAST CONTINUES.

Friends' Anxiety Over Health. Doctor Summoned.

Already Feeling Pangs of Hunger. Broken Night Sleep by Malaria.

The condition of Gandhi's health, consequent upon his fast, is already giving rise to anxiety, and a well-known Bombay physician has been lately summoned by his friends. He spent a broken night on Monday suffering from pangs of hunger.

The Government anticipates that the release of Gandhi from prison does not indicate any change in policy in regard to other civil disobedience prisoners, nor will Government negotiators with the Congress.

"THE TURN OF THE TIDE."

Return of World Prosperity. Optimistic View.

OPINION OF PREMIER. BARKER.

An optimistic view of the turn of the tide to prosperity is expressed today by Francis Goodenough, the prominent banker. He said the turn of the tide had taken place. It would be slow movement at first, but when the tide really begins to rise a degree of prosperity would be enjoyed by the human race world-wide.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by his correspondents in these columns and in all cases the name and address of the writer must accompany a letter...

INCOME TAX-MAJOR GROGAN'S POSITION.

To the Editor, "E.A. Standard." Sir-I see in your issue of 13th inst. a report of a speech by my friend Lord Cranworth in the course of which he is reported to have said that "Kisumu has arrived in Kenya but still did not think that Income Tax was a major point."

THE ABOURISTO BILL.

To the Editor, "E.A. Standard." Sir-I would agree that some of your correspondents who deal with the subject of the proposed Abouristo Bill are unfortunately ignorant of the nature of the measure and would benefit greatly by an actual perusal of that document.

Everybody who is interested in my views knows that I believe that the re-introduction of Income Tax on this district had led to my being in great haste to leave the country...

REPRESENTATION IN LONDON.

To the Editor, "E.A. Standard." Sir-I am a member of the local Institute of Architects or is (quite immaterial) just the thing in the necessary plain, specifications and contracts, diagrams, and apply a useful touch of substance of extraction when work has been completed by the firm.

members of the local Institute believe to be the only one remaining who had no professional professional position. It must be recalled that the "Pagan" is not regarded as any one of the present list because law is not a profession in Kenya...

The Bill has now been sent to a Select Committee where evidence against the proposed measure will be given by certain gentlemen whose professional qualifications and wide experience in dealing with both the spiritual and the material are well known and widely appreciated.

In connection with the opposition to this Bill, I would point out that the same comes from the Church of England Civil Engineers of this Colony, many of whom have had long and valuable experience in Kenya, but also in many other parts of the world.

SPIRITUALISM.

To the Editor, "E.A. Standard." Sir-I was glad to read of the efforts of the Evidence Society in gathering records of spiritual occurrences that "the laws which govern such" may be formulated.

In these days when science is sleeping a reverential rather than a rationalistic attitude, few would dispute that the coordinating factor is God. Concerning the science of God it is over three thousand years since the study of that science began...

Reason, therefore, demands that if we are to know anything of God, it must be through His voluntary revelation of Himself. He should create the world and men desirous of communication with Him and then of make any revelation of Himself would be infinitely more astounding...

He should create the world and men desirous of communication with Him and then of make any revelation of Himself would be infinitely more astounding. He should create the world and men desirous of communication with Him and then of make any revelation of Himself would be infinitely more astounding.

**FIVE PER CENT CUT IN KENYA EXPENDITURE.**  
(Continued from page 7).

From £2,300,000 and the fact that they would average 7000 an acre - £250,000 less than in 1952. It was estimated that the goodwill of Government and Agricultural Development Corporation would be reduced for 1954 by £250,000. Mr. Nguni, who is in charge of the Government's agricultural policy, said that the Government had decided to reduce its expenditure by 5 per cent in 1954.

At the same time, Mr. Nguni said that the Government would continue to spend £250,000 more than in 1953. Mr. Nguni said that the Government would continue to spend £250,000 more than in 1953. Mr. Nguni said that the Government would continue to spend £250,000 more than in 1953.

**The Ways of Defending.**

# Per Cent. Cut in Kenya Expenditure.

## SELECTED MEMBERS PROPOSE SAVINGS OF £80,000.

### Government Declines Motion.

Members of the Kenya Legislative Council proposed yesterday a reduction of five per cent—approximately £70,000—in that part of the Kenya budget which can be regarded as "reducible" that is to say local services which do not include such items as interest, pensions, rent to the Sultan of Zanzibar, etc.

They further proposed that the Colony's contribution to the services shared with other territories—the Governors' Constabularies, Customs, Military and Postal Departments—be cut down from £405,000 to £389,000, a saving of £116,000.

The Government declined to accept the motion.

A vote was taken the Indian Elected Members supported the European unofficial members and the Government found itself with a majority of only five in a total vote of 45. Included in this small majority was the nominated European member who represents native interests.

The Treasurer, however, assured the House that Government continued to be most highly alive to the need for further economy, although it was impossible to bind itself to any figure at this period of the year.

### The Advisory Committee's Report.

The Advisory Committee's report on the estimated total figure of the Government's expenditure for 1953 is £1,774,000. The recommendations contained in the report are to be considered by the Government. The report is divided into two parts: the first part deals with the Government's expenditure on the Kenya Territory and the second part deals with the Government's expenditure on the Kenya Colony. The total estimated expenditure for 1953 is £1,774,000, which is an increase of £100,000 over the 1952 figure of £1,674,000. The report also includes a table showing the breakdown of the expenditure by department and by type of expenditure.

### The Figure Explained.

The Government's expenditure for 1953 is estimated at £1,774,000, which is an increase of £100,000 over the 1952 figure of £1,674,000. This increase is due to an increase in the Government's expenditure on the Kenya Territory of £100,000, which is due to an increase in the Government's expenditure on the Kenya Colony of £100,000.

### Recent Expenditure.

During the year ended 31st March 1953, the Government's expenditure on the Kenya Territory was £1,674,000, which is an increase of £100,000 over the 1952 figure of £1,574,000. This increase is due to an increase in the Government's expenditure on the Kenya Colony of £100,000.

### MUSIC OR ELOCUTION SCHOLARSHIP.

### Competition for Overseas Students.

The Kenya Education Department is holding a competition for overseas students in music or elocution. The competition is open to all students who are currently attending school in Kenya. The winner of the competition will receive a scholarship of £100 per year for two years. The competition is to be held in Nairobi on May 15th and 16th. Entries should be sent to the Kenya Education Department, Nairobi, by May 10th.

# THE REPORT ON THE ESTIMATES.

## To Be Considered This Morning.

### COUNCIL PROCEEDINGS.

The Kenya Legislative Council met this morning for the first time since the 1953 Estimates were laid before it. The Council is to consider the Estimates and to discuss the Government's proposals for the year 1953. The Council is expected to meet again this afternoon to continue its deliberations on the Estimates.

### Polish Airman's Success.

A Polish airman, Mr. J. J. H. H. H., has been successful in his attempt to fly from Nairobi to London. He flew in a biplane and completed the journey in 17 hours. He is expected to arrive in London tomorrow.

### In 17 Hours.

Mr. J. J. H. H. H. flew from Nairobi to London in a biplane. He flew in a biplane and completed the journey in 17 hours. He is expected to arrive in London tomorrow.

### SIR RALPH CATON'S PERSON.

### Great Explained in Council.

The Kenya Legislative Council yesterday approved the payment of a pension to the late Sir Ralph Caton. The pension is to be paid to his widow for the remainder of her life. The Council also approved the payment of a pension to Sir Ralph Caton's children.

### Business for the Day.

### Following is the business for today's meeting—

1. Presentation of the Estimates for 1953. 2. Discussion of the Estimates. 3. Presentation of the Report of the Advisory Committee. 4. Discussion of the Report of the Advisory Committee.

### EMPIRE'S LAWS.

### A Comprehensive Index.

The Kenya Legislative Council has approved the publication of a comprehensive index of the laws of the Empire. The index is to be published by the Government Printer. It will contain a list of all the laws of the Empire, including those of the United Kingdom, the Colonies, and the Protectorates.

### FLIGHT ACROSS S. ATLANTIC.

### Polish Airman's Success.

A Polish airman, Mr. J. J. H. H., has been successful in his attempt to fly from Nairobi to London. He flew in a biplane and completed the journey in 17 hours. He is expected to arrive in London tomorrow.

### AGRICULTURAL ADVANCES.

### Further Appropriation of £7,000.

The Government has approved the further appropriation of £7,000 to the Agricultural Department. This money is to be used for the purchase of agricultural machinery and for the improvement of agricultural roads. The money is to be paid to the Agricultural Department by the end of the year.

### TEMPORARY MEASURE.

### Two Motions relating to the Agricultural Department, Ordinance, were discussed in the Kenya Legislative Council on Monday.

The first motion was for the repeal of the Agricultural Department Ordinance, 1952. The second motion was for the amendment of the Agricultural Department Ordinance, 1952. Both motions were carried by a majority of 45 to 5.

# PICNIC PARTY RAIDS.

## Clever Thieves Near Nairobi.

### A Guest Burglar.

A group of thieves, known as the "Picnic Party", have been raiding homes in the Nairobi area. They have stolen a large amount of property, including jewelry, clothing, and household goods. The thieves are believed to be operating in the Nairobi area and are expected to continue their activities for some time.

### MAKUTU WAREHOUSES WANTING IGNORED.

## Household Hints.

### How to Wash.

Put a piece of a lemon added to the water when washing, and clothes which will keep their color better. Instead of turning the clothes inside out, wash the outside.

### How to Wash.

Put together half a cupful of soft soap and half a cupful of household spirits, half a cupful of bicarbonate of soda, and two large lemons, and wash with this mixture. It will clean and whiten, and will also stain. When you wash, wash the clothes in cold water, then wash in the hot water. This cleanser will be found very useful for washcloths or for beds.

### How to Wash.

Put an ounce of best yellow soap and scrape and scrub as usual, but do not use too much. Four spoons of the soap will clean a good deal of the dirt. If the water is too hot, add a little cold water to the mixture to get the soap to lather. Wash the clothes in hot water, and wash the hands within twenty minutes.

### How to Wash.

Put an ounce of white wax and small quantities of the jar. Wash the wax in the oven, and add half an ounce of alcohol to the wax. When washed and well cleaned, the mixture will be found very useful for the hands.

### A Simple Recipe.

#### A RICH BECHTOLD CURRY.

POOR special occasions a rich curry may be needed. Here is a recipe which has been tried and found very satisfactory. Have half a pound of mutton, half a teaspoonful of salt, and a dessert spoonful of ginger in a muller bowl. Mix into it two ounces of good mutton or lamb and when it is the consistency of bread crumbs mix a quantity of the same size into a muller bowl. Mix with a knife, taking care not to get the muller bowl. Shape lightly into a ball with the tips of the fingers. Turn the ball lightly, and roll out when the front part comes out of the oven. Turn it over with a spoon, and roll back into the oven to allow the steam to rise.

## PERSONAL.

### The Lady Sidney Ferrar.

This year's annual concert of the First Aid Nursing Organisation was held last month at the Maitland Hotel, and Mrs. Sidney Ferrar, who is the younger daughter of the Earl of Derbyshire, was the organizer of the event. The concert was a most successful one, and the evening spent. Her other great work is the breeding and training of dogs and her pet dog, which she often figures in the press. She is also a member of the Club of which she is an active member.

### Miss G. Griffin Women.

Miss G. Griffin, wife of the General Manager of the Kenya Farmers' Association, is one of the most prominent women in the East African Colonies. She is the wife of the late Mr. G. Griffin, who was a member of the Legislative Council of the Kenya Colony. She is also a member of the Kenya Women's Club, and is active in its work.

### Women's Work at Kikuyu.

The women of Kikuyu have a very good record in the history of the Colony. Their latest field of influence is Kikuyu. One of the prominent workers there is Mrs. Rita (nee) Colson, who is the wife of the late Mr. Colson, a member of the Legislative Council. She is also a member of the Kenya Women's Club, and is active in its work.

### Children's Holiday Camp.

Arrangements for the Children's Holiday Camp at Mombasa and the East African Colonies, which has been a very popular institution for many years, is being held at the moment. The camp will be held in August and will be the largest yet. It will be held in a beautiful spot in the country, and will be a most interesting and profitable one.

### Girl Guide Organizer.

Miss Alice Stephens, who is setting up a Girl Guide organization in the East African Colonies, has been very successful in her work. She is the wife of the late Mr. Stephens, a member of the Legislative Council. She is also a member of the Kenya Women's Club, and is active in its work.

### Go on Leave.

Mrs. G. D. Hooper, wife of the late Mr. Hooper, a member of the Legislative Council, has been granted leave for a short time. She is the wife of the late Mr. Hooper, a member of the Legislative Council. She is also a member of the Kenya Women's Club, and is active in its work.

# Wireless Notes.

Practical Hints . . . H.T., L.T. & G.B. SUPPLIES

In considering the various forms that the High Tension supply may take, I shall first deal with the ordinary H.T. battery which is so universally used where other forms of power are not available.

### Wine Economy

I would emphasize that using a small battery to operate a set actually requires a large discharge in the economy of the first cell and the battery will be worn out long before the time which a battery of double the capacity would last.

### Avoiding "Shorts."

Great care should be taken that nothing metallic is allowed to fall on the H.T. battery as a short, extremely damaging, and, further, it should be protected from dust so that it may form a semi-conductive path across the battery. Should a lead about one inch in length of a battery, say ten volts or so, this section will give rise to noise in the set and if it can be located and removed it should be shorted out permanently which will prolong the useful life of the battery, though, of course, no more.

Batteries should not be used which after their voltage has dropped to about 75 or 80 per cent. of the rated voltage, as apart from the effects on the set of the in-

### The Grid Bias

The above remarks all apply to the Grid Bias battery as it is a similar battery in every respect except that it is very much smaller. It is only expected to furnish a small current, very much smaller than that of the H.T. battery, and should be used under similar conditions to that of the H.T. battery, but in tropical or semi-tropical countries it should be recommended to cover it with a good long time, but in tropical or semi-tropical countries it should be recommended to cover it with a good long time, but in tropical or semi-tropical countries it should be recommended to cover it with a good long time.

### Accumulators

A comparatively large (depending on the voltage required) number of small accumulators are sometimes used. They possess the great advantage of being capable of giving heavy discharges and with the advent of larger valves giving greater power output for large ones, balls and iron in the open air, this is a necessary feature. A dry battery to give a really large discharge must be bulky and heavy and it is not probably profitable.

### Next Week

So far I have mentioned the type of H.T. supply which depends on some sort of battery.

### Notes of the Week

There is little to report on the subject of reception this week as the wind blowing has been somewhat consistently with the exception of Monday night when it was quite strong.

### Listeners' Queries

Question: I shall be glad if you would inform me if it may be possible for someone to purchase a portable and transportable set.

### The African Zone

I have received a letter for correspondent who has requested the B.B.C. that the programme of the East and West African zone is not altogether a happy one for East Africans. His suggestion is that a programme from 4 to 8 p.m. G.M.T. would suit our needs better.

### The Discharge from your battery

The discharge from your battery is not probably responsible for the problems. It is very often caused when otherwise signals are very poor. The conditions of the ionized layer or layers in the upper atmosphere, responsible for this condition, are not necessarily dependent on actual weather conditions, but are influenced by moon phases.

### At the same time

At the same time I do think there is a large body of opinion in this country, especially among amateur folk, which desires an earlier start to the Empire programme.

I think, however, the B.B.C. might have difficulty in arranging

## APPARATUS & EQUIPMENT

### The M. L. Anode Converter.

Every tuning set except a two H.F. valve, detector and amplifier set, requires three or four different sound voltages of a number. Portable and transportable sets may derive their plate current from an anode converter. The converter is in one case a 6 or 12 volt accumulator. That which is installed on a car or motor boat the machine can be connected up to the other battery and the converter H.T. supply is available. ## Gandhi Begins His Three Weeks Fast.

## MAHATMA RELEASED FROM PRISON.

## Service To "Untouchables."

## SOLE REASON FOR EMBARKING UPON UNDERTAKING.

Gandhi's cell at the Yeravda jail was the centre of an impressive scene on Monday, when the Mahatma commenced his three-weeks' fast in connection with his "untouchables" campaign.

He sat on the veranda outside the cell, and was surrounded by a large crowd of admirers including many weeping women.

After a brief religious service, he requested his friends to leave him and not to return during his fast.

In a communication to Government Gandhi stated that his fast was in an active protest against Government but was purely in connection with his campaign of service to the "untouchables."

In view of this statement Government decided that Gandhi should be released from prison.

Later Gandhi was taken to the bungalow of a friend situated in an attractive park in the country, where he will live in beautiful surroundings.

The continuance of this fast will not be an exercise in self-denial, but a protest against the Government's policy of resistance as weaker.

Cricket. COUNTRY CUP CRICKET. Final of the Competition. Muthiga Retain the Trophy. BOWLERS FIND A GOOD WICKET. Muthiga retained the Country Cup on Sunday when they defeated Nakuru by 80 runs.

Winning the Cup Nakuru set Muthiga on to a hat-trick and it seemed that the decision was a win one. Two centuries were done for 80, and two more had fallen with the total at 78. It was left for 89, and then Zenge and Tolo came to the aid of the bowler. The former had been hitting the bowling ably, and the one of them stayed together while 11 runs were added. It was a valuable partnership, and was instrumental in turning the tide of misfortune. The wicket was not happy either, but the bowling would appear to indicate that the batsmen appeared to get tied up. Bowler Muthiga took three for 46 in succession, and another finished six fives, two threes, and five tens in his half century. Heavily bowled particularly well for his five wickets. Nakuru appeared to be making their ground, but Cook took the 100th wicket within the time of the half century, when the latter got his Man in front of a ball from Campbell. Five wickets fell for the 48-50-50-50-50 of 10 runs. Wood came in and immediately went for the bowler. Five wickets fell for the 48-50-50-50-50 of 10 runs. Wood came in and immediately went for the bowler. Five wickets fell for the 48-50-50-50-50 of 10 runs.

FOOTBALL. FINAL POSITIONS IN THE LEAGUE. End of Season Problems. Curtain Rung Down for 1933. Last Minute Interest Maintained. RECORDS OF THE CLUBS. Saturday saw the curtain drawn down on what has proved a season of cracked interest, while the last two weeks had fallen with the total at 78. It was left for 89, and then Zenge and Tolo came to the aid of the bowler. The former had been hitting the bowling ably, and the one of them stayed together while 11 runs were added. ### Here is Health

Being active and happy is a low percentage will make you feel even older in five weeks.

...with every ounce of that energy you provide your body and nerves with exactly those elements—vitamin and minerals—that are nature's own building material of energy and strength.

...in all those cases where loss of strength—over-exhaustion and its various symptoms—such as irritability, sleeplessness, nervousness, and all the other things that are the complaint of our modern civilization—there is abundant evidence of the power of the vitamin.

...especially in cases of general debility.

There was a heavy snowstorm in the Channel and even in Kent. In some cases it was so heavy that it was impossible to get out of the houses.

### THE PASSING OF ZAMBESI WIGHT.

**Thirty-eight Years in East Africa.**

["STANDARD" CORRESPONDENT.]  
Living, (by mail).

The following reference was made to the late Mr. Wight by the Rev. A. M. Anderson, Scotch Missionary for Tanganyika, on April 19, from the pulpit of St. George's Church in Iringa.

["STANDARD" CORRESPONDENT.]  
Living, (by mail).

There is one woman dear in this Church to-day that in recent months was always filled with our service. Bob Wight who was thirty years ago from Edinburgh which is an odd coincidence to derive his origin in the opening up and development of youthful spirit has indeed proved a foundation of his school days in our days in an odd coincidence.

## A CURIOUS METHOD OF EARNING A LIVING.

**New Beauty Treatment Demonstration.**

There are many hand ways of earning a living, and some seem to be just on the border-line of doubt as to whether it is worth the living at all, or whether it would be profitable to go into such a career. The new beauty treatment demonstration is one of the latter. It is a new method of earning a living, and some seem to be just on the border-line of doubt as to whether it is worth the living at all, or whether it would be profitable to go into such a career.

U.S.A. Government's Definite Objective.

POLICY OUTLINED BY THE PRESIDENT.

To Raise Commodity Prices.

ECONOMIC SITUATION IMPROVED DURING PAST TWO MONTHS.

During the course of a broadcast address President Roosevelt gave a review of the future policy of the American Government in regard to international affairs. He said that the definite objective was to raise commodity prices so that people who had borrowed money would be able to repay in the same kind of dollar.

The President said that the position in America had improved during the past two months, but he added: "We cannot 'halcyon' ourselves back to prosperity."

He proceeded to outline the situation which was prior to the United States going off the gold standard and the subsequent crisis which brought about the exchange on the export of gold. The present Presidential powers would depend entirely on the future.

No Reference To War Debts.

Washington, May 8. A declaration that the United States will make a definite objective was to raise commodity prices so that people who had borrowed money would be able to repay in the same kind of dollar.

THE TARIFF TRUCE. Terms of Reservations by Japan.

Tokyo, May 8. It is learnt that Japan's reply agreeing to the tariff truce was sent to London on May 6, with the reservation that all Powers should be notified of any Power which is not in favour of the agreement.

THE WASHINGTON DISCUSSION.

He proceeded to refer to the economic situation in America which had brought about the exchange on the export of gold. The present Presidential powers would depend entirely on the future.

THE RAILWAY IN MANCHURIA.

Offered for Sale by Russia.

To Japan or to China.

RECOGNITION OF STATE ACCEPTED.

St. Petersburg, May 8. It is authoritatively believed that the Chinese Railway will be offered to sell the Chinese Railway to Japan or to China.

# It Costs So Little to **PLAY SAFE**

**LOOK** at these deep-slotted, keen-edged, sturdy blocks of rubber where the famed All-Weather Tread Tyre contacts the road... You can see why this tyre is safer, because you can see the sure-footed, hold-fast traction in the center of the tread, where it belongs... **CENTER TRACTION MEANS SAFETY!**... For brakes may stop your wheels, but only tyres can stop your car—and those tyres must have traction!

The new Silent All-Weather Tread Tyre is the safest, quietest, smoothest running non-skid that ever gripped a highway—the **FIRST** tyre which combines **SAFETY** of maximum traction in the tread center with **SILENCE** at all speeds... Why take chances with old or worn tyres when at today's low prices the difference between the cost of safe and silent Goodyears and the cheapest unknown tyre is so very little?

BUILT WITH  
**Supertwist**

The rugged and shock-resisting Goodyear carcass is built with Supertwist Cord, which stretches without breaking, up to 61% more than cords used in other tyres. Exclusive to Goodyear Tyres. Supertwist insures superior vitality, longer life. Your Goodyear dealer will prove to you the greater resilience of Supertwist Cord.

Duly instructed under Warrant of Sale of Immovable Property in Execution of Decree in the above M'vuli Case, we shall offer for Sale by PUBLIC AUCTION, at Our SALE ROOMS, Nairobi Building, Harding Street, Nairobi, on

**On TUESDAY, 16th MAY, at 10 a.m.**

The Grant of all that piece or parcel of land known as Land Office Number 1079 comprising 401 1/2 acres or thereabouts held on a 99 years lease from Government, at an annual rental of Shs. 48/- together with all buildings and improvements erected and being thereon.

The Estate is known as "Mogera" and is situate about 3 miles from Makuyu Post Office and 4 miles from Punda M'lia Station, with good roads of access; approximately one half of the area is under coffee, while about 1/4th is in tea; bearing; average rainfall 40"; altitude up to 5,000 ft.; good labour supply and aqueduct; adequate water supply from a dam with which the factory is connected, and which should be easily run.

A spacious residence in stone together with the usual outhouses completes the buildings on the property; the accommodation of which consists of a very large lounge with fireplace, 4 bedrooms, 3 bathrooms, dining room, and office.

The farm has been well managed for sometime and is a most attractive proposition.

the first they will take on the initiative of the Italian Government who suggested a meeting at Rome where entomologists might confer and prepare plans. This being agreed, the meeting was attended by Italian, French, and British experts. The Imperial Institute of Entomology in London was adopted as the international centre of the work, and the locusts and social conferences were proposed. The second International Locust Conference, of which a much larger number of countries were invited, was held in Paris in July, 1912. In the present instance the work of the Imperial Institute was extended to the tropical maritime locusts and the red locusts, and today a large mass of material is now regularly received from practically every territory in Africa under European control. The Imperial Institute is equipped with the latest scientific apparatus, and the adoption of a centre will enable the research to be conducted in future a very regular for geographical divisions.

**A Bitter Lesson.**

The chief and very bitter lesson was the realization that as trapped and subjugated Africa and Asia were the only two continents where the present outbreak was unprecedented in its extent and severity.

**Not Local Breeding.**

We believe that the problem of the invasion of the East African territories by locusts is very complex. It was often suggested that the locusts had been introduced from the north, but the evidence is against this.

**The E.A. Invasion.**

In the course of his review Mr. Uvason records the appearance in Africa of locusts in 1920 of a number of swarms which invaded the southern part of Kenya from the north. The locusts were seen to be of the same type as those which invaded the Sudan from the north.

**Vegetation Factors.**

Discussing factors regulating locust breeding and migration, Mr. Uvason notes that a comparison of the distribution of swarms with a vegetation map of Africa shows that the locusts are very definite in their preference for the more fertile lands and the more fertile lands.

Cruising in a Train. ATTEMPTS TO POPULARISE RAIL TRAVEL.

Mobile Hotel.

INTERESTING EXPERIMENT BY A RAILWAY COMPANY.

...and cruising by train is an experiment which is being carried out this summer by one of the railway companies in Britain with a view to popularising rail travel.

...specially appointed train will take parties of 60 people for tours in the North of England and Scotland visiting some new places of interest each day. The tourists will disembark and will carry out an attractive programme of visits to beauty spots and bright social engagements.

...the train will be the headquarters of the party during the tour and it will serve not only as a means of transport but also as a well-equipped hotel.

Attractive Itinerary.

...[STANDARD] announcement. London, April 25. The railways are making a great deal of publicity for the new service which they are starting. Already they have issued a number of leaflets to show their lines to the advantage of a train, thus revealing to the public the fact that they have now a new service which will be able to take for themselves what the home country has for them on a regular basis.

...to have, thanks to the enterprise of the London and North Eastern Railway, something in train or carriage which will be able to take for themselves what the home country has for them on a regular basis. Above all, the fact that they have now a new service which will be able to take for themselves what the home country has for them on a regular basis.

Enterprise Invited.

...in the meantime all the heads of the railway companies are making every effort to induce their staffs to obtain a certificate of proficiency for the co-operation of every one of their employees.

The Tour.

...Leave London by night for Edinburgh. First Day—Tour of Edinburgh. Second Day—Tour of Glasgow. Third Day—Tour of Aberdeen. Fourth Day—Tour of Dundee. Fifth Day—Tour of Perth. Sixth Day—Tour of Inverness. Seventh Day—Tour of Glasgow. Eighth Day—Tour of Edinburgh. Ninth Day—Tour of London.

Arrival of Rain at Cherrapunji.

...[STANDARD] Correspondent. At Long Leith, Assam, where there has been a long drought, it is reported that the Government has received today and tomorrow afternoon to 21,000 a year, or little short of the amount paid to the President of the United States of America. Complaints about the past, however, do not except the occupiers from putting forward suggestions for the future, which is an actual fact, however true the statistics in the report may be.

TO-DAY'S CAUSE LIST.

KENYA LEGISLATIVE COUNCIL. Programme of Today's Business.

THE GIBB REPORT.

Legislative Council will resume today at 10 a.m. The Order of the day is as follows:—Prayer. Administration of the Oath. Motion for the adjournment of the Council until 10 a.m. on Monday, 11th May 1936. Confirmation of Minutes. Meeting of the Council at 10 a.m. and 2 p.m. Motion for the adjournment of the Council until 10 a.m. on Monday, 11th May 1936.

By the Hon. the Treasurer: This Council approves of the appropriation of further sum of K5,000 for the purpose of making advance and meeting expenses under the Agricultural Extension Ordinance, 1930, such sum to be a charge upon the surplus balance of the Council.

By the Hon. the Acting Commissioner for Local Government, Lands and Settlement: This Council approves of the appointment of the Sub-Committee on the Public Trustee Bill, 1935 (Amendment) Bill to be appointed.

By the Hon. the Attorney-General: This Council approves of the appointment of the Sub-Committee on the Public Trustee Bill, 1935 (Amendment) Bill to be appointed.

EXAMINATIONS IN FARM KNOWLEDGE? ACROSS SAHARA BY LIGHT CAR. Motorists Arrive in Nairobi. An African Highway.

A ROTARY ADDRESS.

Mr. R. Thornton, secretary of the Rotary Club of Nairobi, Kenya, addressed the following members of Nairobi Rotary Club on the subject of Agriculture in proper perspective. He endeavored to show that every member of the community was vitally interested in the fortunes of agriculture, and to believe more of them to study the different economic aspects of the industry.

The one-headed Sahara is, however, becoming another Hampered Sahara. It is strewn with bottles. Gulls (Honeyeaters) are valuable. They helped to build a levee. Mr. Thornton, secretary of the Rotary Club of Nairobi, Kenya, addressed the following members of Nairobi Rotary Club on the subject of Agriculture in proper perspective.

There was something wrong, said Mr. Thornton, in the fact that the one-headed Sahara is, however, becoming another Hampered Sahara. It is strewn with bottles. Gulls (Honeyeaters) are valuable.

Many people have seen the road without the world known to most of us, among the hills and valleys, containing the signs of a more modern type of settlement. Mr. Thornton in reference to the one-headed Sahara is, however, becoming another Hampered Sahara.

A Bad Stretch.

The next bad stretch was believed to be the worst. It was a stretch of 100 miles, and it was a stretch of 100 miles, and it was a stretch of 100 miles.

A Bad Storm.

It was with relief that they regarded British, British territory. Roads as usual, were excellent.

Kenya Roads.

"Considering that Uganda is only next door," said Mr. Kay, "the roads in Kenya are very good. It was with relief that they regarded British, British territory. Roads as usual, were excellent."

A Previous Visit.

Incidentally, Mr. Kay was the first to visit Kenya in January, 1935, accompanied by the Imperial Airways, who were flying to Nairobi. It was with relief that they regarded British, British territory. Roads as usual, were excellent."

Waterside Depart.

For hundreds of miles past Hogben, there are no more than a few scattered huts and a few scattered huts. It was with relief that they regarded British, British territory. Roads as usual, were excellent."

DOBBIE LEAGUE OPENS. Railway Beat The Police. Fine Start to Season.

COLONY'S HEALTH.

A Greedy Reactionary Recommendation. The British Council of the Kenya British Medical Association passed the following resolutions unanimously at a Branch House meeting on Wednesday May 3.

That this Council being of opinion that the Statistical Department and the Department of Native Registration are fundamental to the Public Health of the Colony regards with concern the recommendation of the Economic Advisory Committee that the Department of Native Registration should be abolished in favor of a Department of Health, and that the Department of Health should be created as a separate department of the Government.

RATES OF EXCHANGE.

The following rates of exchange were announced by Nairobi bank on Saturday—London, 10/13/0. London on Paris, 8/10/0. London on New York, 1/2/0.

It was a first game, under-punching changes. A Railway road had laid out on more than 100 miles of the line. It was with relief that they regarded British, British territory. Roads as usual, were excellent."

Had to Wait.

They swung from east to end for the first two or fifteen minutes with the Railway, however, doing the bulk of the pressing. It was with relief that they regarded British, British territory. Roads as usual, were excellent."

Hard Luck and Golf.

A free to Police was Golf just all to score, and then came the second golf for Railway. It was with relief that they regarded British, British territory. Roads as usual, were excellent."

Halfway to Hell.

Halfway to Hell, it was with relief that they regarded British, British territory. Roads as usual, were excellent."

FRIENDLY RELATIONS AND MUTUAL ESTEEM.

A broadcast address on Friday night, Mr. Ramsay MacDonald summed up the results of his conversations with the President of the United States. He stated that there had been an improvement generally in friendly relations and mutual esteem between Britain and the United States.

There had been a candid exchange of views on the question of war debts. The subject had been faced at close quarters, which was a necessary preliminary to further consideration.

His statement was left uncut. Mr. MacDonald said, to ensure that he made the World Economic Conference which will open in London on June 12, a success. A preliminary examination was made of the causes of the present crisis with a view to discovering means for remedying them.

## The Tariffs Trade.

### REPORT UPON EVENTS OF A SIX YEARS' INVASION.

### Danger in the Future.

### The report, written by Mr. R. P. Uvarov, expresses the view that the potential danger to tropical agriculture will increase with the expansion of cultivation and that there was, notwithstanding the locust invasion, nothing exceptional in the locust invasion which has happened in the past and will be repeated in the future.

### He outlines a policy of scientific research which should be amply applied. It includes the use of aeroplane.

### The Scientist's Battle.

### and systematic records of the past invasions, warning and movements of the desert locust. A number of reports of locust invasions in the past have been published by the special committee on locust control which was appointed in 1920 by the Economic Advisory Council.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by his correspondents in these columns and in all cases the name and address of the writer must accompany a letter, not necessarily for publication but as a guarantee of good faith. Brevity is also essential to ensure consideration.

EARLY MAN IN EAST AFRICA

I should like to suggest that Dr. Leakey has been for some years and is now hard at work at Cambridge University on his latest collection from East Africa, an ethnological material of value should be sent to his headquarters. The authorities there are not coming in touch with the Royal Anthropological Institute of Great Britain and Ireland, but also with the London Museum, the British Museum, and the American Museum of Natural History.

THE ARCHITECTS' BILL

Kenya, April 25, 1933. (The Cambridge Conference on the Leakey collection referred to was published in the "East African Standard" this week-end. "E. A. S. T.")

Another very important thing which would, very likely, have been worked by the architects found by allied workers would be of very great scientific value and should be very carefully listed for scientific investigation. Yours etc., H. J. A. T.

To the Editor, "E.A. Standard." Sir—I see in the "East African Standard" Weekly edition of April 15 that Mr. H. F. Stone is asking for anthropological material to be sent to his museum at Kikuyu. I should like to suggest that Dr. Leakey has been for some years and is now hard at work at Cambridge University on his latest collection from East Africa, an ethnological material of value should be sent to his headquarters. The authorities there are not coming in touch with the Royal Anthropological Institute of Great Britain and Ireland, but also with the London Museum, the British Museum, and the American Museum of Natural History.

Another advantage in sending specimens to the "Cambridge Conference" is that they will be examined at once by local men competent to judge their value and to preserve and pack them in such a way that they would reach the specialists in England safely. Details of all the known types of prehistoric man, from all parts of the world, are on view in the main hall of the Cambridge University Museum. Also type collections of all the known cultures of East Africa from the Age Man, and a large collection of comparative material from a large number of students and a library containing all the standard books and the latest publications and periodicals dealing with Anthropology and Archaeology.

It is possible that deep mining may unearth remains of man, of the same antiquity as the "Thamesian Man" or the "Peking Man of Chou Kou Tsi," or the "Ape Man" of the Solo Valley, Java.

It will be interesting to have Dr. Leakey's paper on the large anthropoid ape skulls he found near Kikuyu, and the bones of more human (?) skulls from some of the islands of Victoria Nyansa, which paper, I understand, will be published soon. A booklet should be kept by those working deep alluvial—especially in old river beds—of skeletons, skulls, parts of skulls, parts of lower jaws and leg bones, etc., of ape and human. It is important that a description of these and simple drawings of which remains are found, should be kept; it may help to give the specimens a preliminary age.

I have found fragments of stone age tools in the sands. They are poor to belong to a very old culture. Specimens of bones, if not mineralized, require very careful handling, as they are often very fragile. They should be placed very carefully in a box

particularly about the financial side of things. No doubt I would get replies to my letter but I would think I would be satisfied by any architect's first account, and that being a careful Architect he had no need say any of all the "confidential" matters which are so often credited to me or my firm? Then, would the profit made on the building also go to the Architects? Finally I give it up and wish to leave, secure in the knowledge that our learned legislators, even Mr. Curney Harvey and Captain Collier who appear to have taken such an interest in the Bill, would look to their own interests in the Registration of such Architects as would give both the State and the home a very square deal.

THE PIGEON

Kenya, May 2, 1933. (The Cambridge Conference on the Leakey collection referred to was published in the "East African Standard" this week-end. "E. A. S. T.")

PATRIOTISM

To the Editor, "E.A. Standard." Sir—I see in the "East African Standard" Weekly edition of April 15 that Mr. H. F. Stone is asking for anthropological material to be sent to his museum at Kikuyu.

I wonder if the War Secretary can see any connection between the two headings? If he can, he will show probably withdraw his remarks about "Emotions passed off by silly boys at Universities" that "It did not mean the great patriotic or loyal than those who belonged to the generation which fought in defence of the Colonies may think differently and are not likely to inspire their offspring with the ideas that they themselves held prior to the great war. Our sons will want to know what they are fighting for. The honor of paying higher taxes, and free competition with aliens for employment in our country. Our fight for a not particularly attractive. Yours etc., "ONCE BITTEN."

PETROL PRICE

To the Editor, "E.A. Standard." Sir—Hearing talk of a reduction in the price of petrol, I went into Burururi on Saturday last to investigate the truth of this good news. I found that the cash price was 2/65 a gallon instead of the usual 2/75, but discovered that having no cash, I had to pay 2/20 a gallon to get me home again.

My usual supplier suggested that I gave him a cheque in advance monthly for my requirements. I replied in effect that I had then to rely on him for the petrol, besides I was not in the habit of my advance for the thing I had not received as anything might happen whereby I alone, having paid cash, would be the sufferer and was certainly not to be sent to be indebted by any "Old Country" man.

I had made a saving of fifteen gallons a month in petrol owing to the purchase of a petrol pump for the conversion of my motor car. This is a tip chance might well supply. It is a distinct saving with normal usage, it will pay for the cost within six months at the present price of petrol.

Yours etc., J. W. WYNDALL, Burururi, May 2, 1933.

INCOME TAX

To the Editor, "E.A. Standard." Sir—I have read in your issue of the 1st inst. the resolution passed by the Legislative Association meeting. It would be interesting to know how many members of this Association were present when the resolution was passed.

Yours etc., "INQUIRE!" Nairobi, May 5, 1933.

THE E.M.B.

Useful Institution to Close Down. ["STANDARD" CORRESPONDENT.] London (By Mail). The following has appeared in the "Star" and I think it is right. Many of us will regret the disappearance of the Empire Broadcasting Board, but I think it will have to go.

The Empire Broadcasting Board on Comorah and Co. have declined our direct suggestion that the Board with us should share the cost. I think it worth the effort to have the Board with us should share the cost. I think it worth the effort to have the Board with us should share the cost.

Yours etc., "ONCE BITTEN." Nairobi, May 4, 1933.

LORD CRANWORTH EXPLAINS.

(Continued from page 7.)

Based his views on the situation in Kenya in connection with the Income Tax proposals.

Lord Cranworth stated that he had rendered his resignation to the Government of the Colonies of Kenya, which involved his resignation from the Executive Council of the Board. There were three reasons for his resignation. The first was that he had thought the Income Tax proposal was not a major matter. He gathered from Major Ingram's speech, however, that the Government was not a member of the East African Department. It is clear that Income Tax is a major question in Kenya. It is clear that the question in Kenya is not a simple one. It is a question which has been sent home by the Executive Council. It is a question which has been sent home by the Executive Council. It is a question which has been sent home by the Executive Council.

Secondly, Lord Cranworth said he was not a member of the Executive Council. It was a difficult and complicated question with regard to which there were many different points of view. He was anxious, therefore, to get out on his own terms. He was anxious to get out on his own terms. He was anxious to get out on his own terms.

Lord Cranworth was on his way when he arrived in Kenya. He did not think that Income Tax was a major point. The question of economy was of paramount importance. He was anxious to get out on his own terms. He was anxious to get out on his own terms. He was anxious to get out on his own terms.

He would understand the feeling of associations in East Africa who were linked to the Board as a defender and not only that they were subscribing to a body which was definitely opposed to their own views. It is the Board's contention that the Board should have left the subject alone. Lord Cranworth said that he deeply regretted his resignation from the Executive Council of the Board. He had not intended to resign in particular to the Government and members of the Executive Council. He had not intended to resign in particular to the Government and members of the Executive Council.

The Chairman said that the feeling expressed in the notice of the Executive Council was that they were going to have Lord Cranworth as one of their colleagues. He said that Lord Cranworth had already contributed handsomely to the discussion at the Board, and that Kenya could have no better representative.

It was not correct to say that on Income Tax the Board or members had expressed views definitely opposed to Lord Cranworth's. The Chairman said that he would like to postpone further consideration of this matter until he had had the Convention and discussed the matter with the members of his Board, and then to return to East Africa.

did he explore north to the Arctic... The above figures are records taken at certain Rain-gauges.

YES he's a cheerful looking fellow isn't he? With a smile from ear to ear.

It isn't hard to guess why he looks like this, because he is choekful of the finest, lightest and purest flour in Kenya.

BUT look at poor old Misery down there! He certainly looks sorry for himself, and you can hardly blame him, because he feels heavy, and he knows that nobody likes him.

OF COURSE that cheerful fellow is made with the purest and best flour obtainable... KENYA'S PARAMOUNT.
