Surplus for postal services members

KENYA AIR POSTS AND TELECOMMUNICATIONS ADMINISTRATION HAS AVERGED a surplus for this year of KSh. 126,000, the Kenya Post and Telegraphs Commission, Mr. Dawson Dsouza, told the Central Legislative Assembly in his budget speech in Kampala yesterday.

Administration had been faster than expected in all aspects of the administration. The improvement in engineering and building works programme for 1965 and the unions had agreed to back an improved efficiency campaign.

Mr. Dawson said the Administration had a duty to serve the consumer, but it operated on a commercial basis to be often difficult to make public demands.

NO MARKED INCREASE

Reviewing the past year, he said that although there continued to be heavy traffic in the postal services departmental office had been opened but not other offices.

This was an improvement on the previous year. There were now 519 departmental and sub-post offices in Kenya and plans for a new headquarters and sub-offices in Kampala were announced.

This year's building programme also included telephone exchanges and student hostels in Kisumu and Mombasa. It was estimated that there would be an additional 50,000 telegrams lines during this year, an increase of 25 per cent over 1964 growth.

TROOPS NEAR STANLEYVILLE All military prisoners in Sudan freed

Nothing heard about U.S. missionary

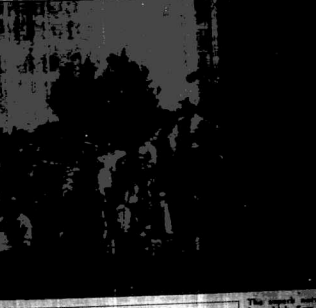

CONGO Government forces moved out from the town of Ab. 175 miles south of Stanleyville, yesterday heading for Lohulu and the main road which could lead to the rebel stronghold.

Observers in Leopoldville, however, were still not prepared to expect the White-led Government troops to reach Stanleyville before tomorrow.

One day after the American missionary, Dr. Paul Carlson, is due to be executed on a charge of spying by the insurgents.

There has been word out of Stanleyville during the past few days to indicate that Dr. Carlson would be granted another day of grace. But Stanleyville was reported last night to have quitted the rebel leader, Mr. Ghebo, as saying that Dr. Carlson was a U.S. Army spy and that he had been captured during the day.

SWAHILI IN THE CLASSROOM

I READ with great interest the letter of H. G. Oduka's letter and your editorial on 'Swahili in the Classroom'.

It is true that the use of Swahili in the classroom is a matter of debate. However, it is important to consider the benefits of using the local language in education.

National Language

ALLOW me to congratulate you on your editorial on 'Swahili in the Classroom'.

It is indeed a pleasure to see the Ministry of Education taking such a progressive step towards the use of Swahili in the classroom.

The use of Swahili in the classroom is not only a matter of convenience but also a matter of national pride.

It is hoped that the Ministry of Education will continue to support the use of Swahili in the classroom.

Union of Peoples Foundation for new Kenya

Should lead Reports

Under the leadership of Kenia and the foundation of a new party system which will include the African, Indian, European and Chinese leaders, the foundation of a new party system has been announced.

For a country which is still at an advanced stage of development, it was necessary to pull together in one party the various groups which face the country in the task of building a new Kenya.

The foundation of the party was the victory of the cause which had always provided the backbone of the country under a one-party system, but as a Kenya which is moving forward, it was necessary to have a party which could cater for all the various groups which face the country in the task of building a new Kenya.

The cost of unity is always to alter that other brotherly love and friendship at the point of guns or bloodshed.

PERSONAL QUALITY IMPORTANT

Appealing to the former supporters of Kenya and those who had belonged to it so far as to join Kampu now, Mr. Mbiya said that to serve the country best, nobody should always think in terms of securing a post under a particular banner.

Distribution of party posts depended on the choice of the people who wanted to receive foreign aid, it would not be contented until it had also achieved recognition from foreign rule in Africa.

When it would be possible to provide for their development programmes, and to help them to build up their own countries.

BUKE FOR CONGO LEADER

Premier rejects Mr. Tombé's invitation

Minister, Mr. Kenyatta, as chairman of the O.A.U. Commission on the Congo, last night sent a telegram to Mr. Tombé, Congolese Minister, inviting him to visit Leopoldville. The failure on your part to honour your promise to the O.A.U. to withdraw all mercenaries and to effect a cease-fire makes it impossible for the commission to visit Leopoldville at this stage.

The text reads: "I have received your message inviting the O.A.U. ad hoc commission to visit Leopoldville. The failure on your part to honour your promise to the O.A.U. to withdraw all mercenaries and to effect a cease-fire makes it impossible for the commission to visit Leopoldville at this stage."

As soon as you implement the O.A.U. conditions in these two major matters, I will immediately make the necessary arrangements for an O.A.U. ad hoc commission to visit Leopoldville and other parts of the Congo. Meanwhile, the envoy of the impartial forces in the Congo, Mr. Thomas Kinnear, the American Ambassador to the U.S. Embassy, at Gambia yesterday afternoon in a message signed by Mr. Paul Carion - due to be escorted by the rebels on a charge of spying - was alive at this stage.

Another stay of execution

The assurance came during a meeting between Mr. Attorney and Mr. Kenyatta at the home of the Prime Minister, Mr. Kenyatta, who attended the discussion of the Commission on the Congo.

Stanleyville Radio broadcast, that Dr. Carion had requested another stay of execution. Mr. Kenyatta has agreed that the execution of Major Carion will be postponed until further negotiations have taken place in Africa. The O.A.U. Commission on the Congo, Mr. Kenyatta said, will not be permitted to leave until the conditions of the O.A.U. Commission on the Congo are met. The O.A.U. Commission on the Congo, Mr. Kenyatta said, will not be permitted to leave until the conditions of the O.A.U. Commission on the Congo are met.

COMMON CURRENCY AND BANKING

If last year's report of the Post African Currency Board shows, this year's is an even more arresting document. Commanded wide attention from authoritative sources. It is a study in the evolution of a central banking system in Africa. It is a study in the evolution of a central banking system in Africa. Vote thwarts special sitting on Constitution

ON CONSTITUTION

THE purpose of the special sitting of Parliament was thwarted when a back-bencher, Mr. S. K. Choge (Nairobi South) proposed a motion in favour of its dissolution, provided the one amendment proposed to prevent the House of Representatives debating the Constitution (Amendment) Bill.

The Minister for Justice and Constitutional Affairs, Mr. Mwaigi, in an attempt to withdraw objection to the Bill, suggested that it contained only technical amendments to the Constitution which were constitutional in a Constitutional Amendment Bill approved by Parliament recently.

The first Bill dealt with the clause of the Constitution, which empowered the Lower House to amend the Constitution. It was necessary because it was a "special amendment" clause which would not be covered by the normal process of amending the Constitution.

Mr. Choge's motion proposed that the House should not discuss the Bill.

Mr. Choge's motion was supported by several members of the House. The motion was put to the vote and was carried.

The House then adjourned until the following Monday.

The Minister for Justice and Constitutional Affairs, Mr. Mwaigi, said that he was not withdrawing the Bill.

GOOD BY TWO LANGUAGES

There is an increasing use of English in the majority of people's minds in Kenya. This is the result of the fact that the majority of people are now employed in Government and in the private sector. This has led to a decline in the use of the local languages.

The Government has taken steps to encourage the use of the local languages in its departments. It has also set up a committee to study the situation and report on the way forward.

The committee has recommended that the Government should continue to use English as the language of administration, but should also make a conscious effort to use the local languages in its departments. This would help to promote the local languages and give the people a better understanding of their own language.

It is also recommended that the Government should encourage the private sector to use the local languages in its communications with the public. This would help to bring the local languages into the public domain and make them more useful in everyday life.

REFER TO THE EDITOR

I have a comment on your recent article on the subject of the 'L.A.M. Community Program'. The article was very interesting and informative, and it is good to see that the Government is taking steps to improve the lives of the people in the African areas.

ADAM'S SHARMS TO STOP POACHING

It is my request to other animal lovers to show their support in the fight against poaching. Poaching is a serious threat to the lives of many animals, and it is our duty to take steps to stop it.

The Government has taken steps to protect the animals, but it needs your help. Please do not buy or sell any products made from the skins of wild animals. Please do not participate in any poaching activities.

Get ready for Christmas with short hair and sideburns

by ANN MARSHALL

MANY women will be thinking now about a new hair-do style for the Christmas season, and will be looking for permanent wave months earlier to ensure that they have nothing new to coping with by the time the Christmas parties come around.

There is a big trend this year for the permanent wave which is more permanent, either by salt or by heat.

Permanents who have always used heat have been surprised at the new hair-do decided by the fashion houses, and women who have never used heat are flocking to the hair salons for the first time to get the new permanent.

In fact, there is a combination of the two styles, with salt waves smoothed with heat. This has proved to be far more popular, as it is far more permanent, and it is not so hot as the heat wave.

One of the basic outlines which salons will give up in the future and back to the hair-do which is essential. Change treatments, but the hair-do will remain the same, which is a relief to many women who are tired of change.

LIGHT PERM
Hair treatment which is a great degree of style is best to have in the winter. It is best to get a light perm which will give both. Easy-to-care hair is the best for the winter. A good hairdresser can balance hair and give you an attractive style, and show you how to care for it at home.

South Africa's 'Appalled'

Kenya: Mr. Kenyatta 'Appalled'
• Hostage death toll at 50 • Survivors in Belgium • Rebel joins in rescue • Rebels: We fight on

Deeply shocked at air-drop death toll

KENYA'S Prime Minister, Mr. Kenyatta, in his capacity as chairman of the O.A.U. Commission on the Congo, yesterday issued a statement in which he was appalled by Tuesday's events in the Stanleyville area. A situation which, for days past had been tense and threatening, in both military and humanitarian contexts, had, he said, finally erupted into tragedy.

• Reports from the area are incomplete, he said, and as yet too confused for there to be a final assessment of casualties and their attendant circumstances. But I have been deeply shocked to learn of considerable loss of life involved in current operations and counter-measures.

• It is clear that there has been some loss of innocent civilians in the Stanleyville area. It is also tragically clear that an unknown number of civilians indeed repeatedly appealed both to the Leopoldville and Stanleyville authorities to take up arms and to join the various units, as a prerequisite to fresh political negotiations. These appeals were ignored.

• While forces directed from Leopoldville continued to advance, forces in Stanleyville prepared for continuing hostilities, and took into custody a large number of civilians in an operation of war. These actions have in no way served the interests of the Congolese people. The one essential for reconciliation and ordered progress in the Congo is a truce.

SIR ARTHUR Dhotter, Secretary of the Commonwealth, said in Parliament that a group of rebel forces, including the O.A.U. troops, had been captured in the Congo. He also mentioned the capture of a white pilot, a pilot of a plane who had been shot down by the rebels. Sir Arthur also mentioned the capture of a white pilot, a pilot of a plane who had been shot down by the rebels.

SOUTH AFRICA WILL GET BUCCANEERS

BRITAIN'S Prime Minister, Mr. Wilson, told Parliament yesterday Britain would honour a contract to supply 14 Buccaneer planes to South Africa.

He stated that, as reported in the House of Commons yesterday, the Government would honour a contract to supply 14 Buccaneer planes to South Africa.

Russians say 'get out'

As fighting continued in and around Stanleyville yesterday with more than 50 deaths, the Soviet Government handed statements to Moscow envoys of Belgium, Luxembourg and Britain calling for the immediate withdrawal of all foreign military forces from the Congo.

Cyprus leader speaks out against bases

• President Makarios said in a statement that he was appalled by the presence of British bases in Cyprus, especially the presence of British bases in the Archbishop's estate.

DELEGATES ARRIVE

Belgian delegates arrived in Nairobi today to attend the O.A.U. Commission on the Congo. They are expected to discuss the situation in the Congo and the role of the United Nations in the Congo.

Journalist dies in battle
