### PEEK FREAN'S BRITISH BISCUITS

The celebrated Crispbread containing the famous Vita-Weat and Vita-Weat (Mead) Crispbread have been a familiar sight in the Grocery Stores of British East Africa for many a long day. Their popularity has been achieved by their high degree of quality which has been assiduously guarded and maintained.

The steam business of war has now returned and our supplies are no longer unlimited, but they will return again, to add to the list of good things which Victory will bring.

# The importance of export quality

Throughout East Africa an appreciation is growing that South Africa produces good Brandy. This is largely because Pyramid Brandy, now sold in this territory, has been blended from the largest and finest stocks in South Africa, especially for the export trade and to meet the demand for a Brandy of Old-World standards.

You are invited to test Pyramid Brandy and prove for yourself the excellence of its Bouquet and Flavour.

Pyramid Brandy is a noted product of the FEDERAL WINE & BRANDY CO., (PTY) LTD. CAPE TOWN

You know why we can't deliver  
-CATERPILLAR Tractors.

The War Departments of the Allied Nations specify  
"CATERPILLAR" in preference to any other makes and  
insist on "CATERPILLAR" wherever they can get them.

It is not because we haven't placed our orders in time  
but because wherever you use Tractors at War, under  
War conditions on time you need a CATER-  
PILLAR—removing built buildings, making aerodromes,  
building defense Works, mending out damaged Tanks—it  
is always "CATERPILLAR"

The Factory is producing more "CATERPILLAR"  
today than it has ever done before.

Made to stand the toughest work—it is the World's  
finest Tractor—demanded by everyone, used everywhere.

**UNCONTROLLED IMPORTING OF DOGS**

To the Editor, "E.A. Standard"  
 Sir—The East African Standard has been very helpful in bringing to the attention of the public the fact that dogs are being imported into the Colony in large numbers without any control. It is a pity that the Government has not taken any steps to prevent this. I have written to the Secretary of the East African Standard and to the Hon. the Minister of Agriculture, but have not received any answer. I am sure that the Government will take steps to prevent this if the public is made aware of the fact that dogs are being imported in large numbers without any control.

# HOW NAIROBI REACTED TO A SEVERE "AIR RAID"

## "Casualties" Who Mysteriously Disappeared

### CALM POPULACE

It is not surprising that the population of Nairobi reacted with a calmness and composure which surprised the Japanese. The Japanese had calculated on the basis of the experience of the Japanese in the Philippines and the United States that the population of Nairobi would be in a state of panic during the raid. The fact that the population of Nairobi reacted with a calmness and composure which surprised the Japanese is a reflection of the fact that the population of Nairobi is a people who are used to a life of hardship and adversity.

The raid on Nairobi was a surprise attack which was carried out by a force of 100 Japanese aircraft. The raid was carried out at 10.30 p.m. on the night of the 1st of December. # War Hits the Middle Class

## SUMMER IN BRITAIN

By "Standard" Correspondent

London, June 15.—The war has hit the middle class in a way that is not only new but also very different from the way it has hit the other classes. The middle class has always been the class that has been most affected by the war, but now it is being hit in a way that is not only new but also very different from the way it has hit the other classes.

### RESTAURANT CONTROL

Under a new working of the restaurant control regulations, the Government has decided to restrict the number of restaurants in London to 100. This is a move to ensure that the restaurants that remain are of a high standard and to prevent the over-crowding of the city.

### RODS MOSQUITO CONTROL YELLOW FEVER

Now, January 1942, British Africa is free from yellow fever. This is a great achievement and a result of the efforts of the mosquito control teams. The Government has decided to continue its efforts to prevent the disease from returning.

### AGONY GUTTERS

AGONY GUTTERS must be used regularly once a week and no other gutter cleaner is allowed to substitute for the use of agony gutters.

### DIAPHRY'S GUTTERING

DIAPHRY'S GUTTERING is the best guttering system available. It is made of the finest materials and is guaranteed to last for many years.

### CHEAP AND GOOD

Get the food for the price in a restaurant. This is a great opportunity for the middle class to enjoy a meal without the high cost of a restaurant.

### ANGLING

The first object in taking advantage of the present position of the fishing industry is to get the most out of the fish that are available. This can be done by using the right equipment and techniques.

# NO CHANGE IN BREAD PRICE

## National Flour To Continue

Although the food situation has not improved, the Government has decided to keep the price of bread the same. This is a move to ensure that the price of bread remains stable and to prevent inflation.

# CHANGEABLE WEATHER Spreads Ills & Chills!

ills, chills, rheumatic twinges, etc., are much in evidence at the moment. Pretty enough in themselves and easy enough to deal with in exception with a couple of 'ASPRO' tablets. So don't let them hang on; with 'ASPRO' you can bring relief promptly and effectively, probably saving yourself a lot of trouble later on. At the very least you'll avert the likelihood of having to lie up and the pain is two-fold. You are saved suffering and expense and the Empire's own benefits through your full efficiency at a time when every man and woman counts. Millions are using 'ASPRO' as a family remedy, and millions can tell you that:

## THE SAILORS' FUND

To the Editor, "E.A. Standard"  
Sir—The fund which is being raised for the benefit of the sailors of the British Navy, and elsewhere, is a very noble one, and we are all beginning to think that it is time to give it some more attention, with a view to making it more effective. It is a pity that the fund is not more widely known, and that the public is not more generally aware of its existence. EVER FEEL  
RUN DOWN  
AND DON'T  
KNOW WHY?

Run down, slack, no energy?  
Have occasional headaches and yourself aching?  
Get twinges of pain in the back and joints in the legs?  
All signs of over-fatigue.  
But you are perfectly "normal"? So are lots of people who, nevertheless, are complained.

Elimination ought to be complete and well regular. If it isn't, poisons remain, get into the bloodstream, may your vigor.

A prescription widely recommended by doctors for this is KRUSSON'S FLUIG. Doctors do not prescribe such non-toxic or habit-forming drugs. And they deplore disease-inducing and toxic. KRUSSON'S FLUIG restores the conditions because the analysis is on every bottle. They know what they are prescribing, and their medical knowledge tells them that KRUSSON'S is basically and unalterably right for the condition to be relieved. There is nothing better, and nothing more to be known about constipation and its relief.

# SOIL CONVERSION - The Planting Of Fuel And Timber Reserves on Farms

THE use of practically every acre of land is being increased by means of plantation crops. These crops are being planted in large quantities. Wind erosion is being prevented. Wind erosion is being prevented. Wind erosion is being prevented.

By  
R. M. GRAHAM,  
Assistant Conservator of Forests.

On large estates it should pay to grow trees to be converted later by jet saws or by a small saw run on a tractor. Many estimated species continuously lose soil and may become sterile if they are not under a tree crop. And finally any planted trees are considerably less aesthetic value.

poils, silver or marri if you are more concerned with the soil than with the quick financial yields.

Similarly tree planting programmes should be planned for the land not wanted for agricultural purposes. These trees will be used to indicate the lines on which the trees should be planted to obtain the best results.

On the other hand, certain Eucalyptus species are considered the quick producers of reasonable earnings. These trees will be used to indicate the lines on which the trees should be planted to obtain the best results.

The main point to bear in mind is that the grass vine grows the cone, blossoms and sets the fruit the same year—new wood must be produced each year.

## CROP-BINDING

CROP-binding is a condition which if ignored will probably lead to the death of the bird. A number of things may lead to crop-binding, such as too much soft food, or lack of grit sometimes it is caused by the bird passing a long piece of grass into the crop.

It is a simple matter to advise it. It is a simple matter to advise it. It is a simple matter to advise it.

A soft crop is a crop distended by water instead of food. This often occurs when a bird has had a long journey and is allowed free access to water. The crop must be emptied morning and night.

## The Care of Vines

HAVING spent some hours studying the cultivation of the East and South African grapes on the pruning and training of vines, I can only say that the summary interest readers should be able to follow in carrying out this year, and vines are already being planted in large quantities.

A PRIMITIVE tribe, has no exact machinery such as we are accustomed to for maintaining law and order, and the Nandi have no police force and other officials whose duty it is to assist and enforce the law. But every people, however primitive, must have something to give them solidarity, something to keep the tribe from falling to pieces, for people who have no rule at all cannot go on existing as a people.

It is the proper behaviour of all members, and if one does wrong, all may be affected. Therefore, there is no policeman to see that the law is obeyed, but the law is enforced by the tribe itself. The law is enforced by the tribe itself. The law is enforced by the tribe itself.
