There are differences between

WHISKY

and

"CROWN" brand COFFEE

but both are pleasant to the palate and both are stimulating after that hard day's work.

Have you tried

"CROWN" brand COFFEE

for your sundowner? Show your cook how to prepare it from this recipe:—

SOUTH AFRICAN SCENE

CRITICISMS

The major event of last week in South Africa would have been something more than merely a trial if certain people had not been free for would have perturbed, if not actually achieved, the "reversion" of all the student political and political-society organizations to Government and the war policy.

The scene of this great event was to have been the Malanite political congress at Pretoria last week, which was being held under the personal direction of Dr. Malan.

As far as the half-dozen stories of the student and political organizations are concerned, it appears that the plan was to re-assemble Malan with Hartog, Mr. Havenga and the Afrikaner Party, the "Orange" and the "Free" group—into a single optimistic plan, with more than half an eye on the possibility of a general election next year, with that in-formation being the primary purpose of the formation of the "Orange" and "Free" groups.

The story on the face of it, is as follows: The Malanite political congress was to be held at Pretoria on the 28th of September. Dr. Malan approached him on behalf of a committee of 10 persons, who would meet the leaders of the other groups with a view to future elections. He replied that a vote of unity was required, but that he knew of no other way. They then asked for an interview.

It was eventually granted, but the Malanite group was not to be invited to the Malanite political congress. Mr. Havenga, of the Afrikaner Party, was to be invited to the Malanite political congress, but he was to be invited to the Malanite political congress, but he was to be invited to the Malanite political congress.

The Malanite political congress was to be held at Pretoria on the 28th of September. Dr. Malan approached him on behalf of a committee of 10 persons, who would meet the leaders of the other groups with a view to future elections. He replied that a vote of unity was required, but that he knew of no other way. They then asked for an interview.

HOWARD'S PURE QUININE TABLETS

famous for over 100 years

GUARANTEED FULLY UP TO THE STRENGTH SHOWN ON THE LABEL

Manufactured by HOWARD & SONS LTD. (EST. 177) LONDON

STANDARD DESICCATED YEAST

Yeast in a convenient form, economical in use, easy to store and handle. Packed in 1-lb. and 3-lb. tins. Clear directions for using on each tin.

Obtainable everywhere.

"Masai Wheat Lands"

IN order to assist in the Colony's production of wheat, on account of the War effort, the Government has acquired the Masai Wheat Lands in the Masai District. The lands are situated on a 100,000-acre area, and are of a high level, has been handed over to the Board, for as long as may be considered necessary, as part of the Government's contribution to the War effort. After the last crop has been taken off, the lands will be put into grass, and will be available for the use of the Masai people.

The right for the present year of land to be broken and prepared for planting in 1937, amounts to 1,000 acres, through, should more machinery be available, this area may be considerably increased.

Ransomes ECLA PLOUGH

PRODUCTION BOARD NOTES

ON FARM MACHINES AND TRACTORS

It is now not only the farmer's interest in the use of the most up-to-date equipment with the least possible expenditure on repairs.

But it is also a vital part of the farmer's interest in the use of the most up-to-date equipment with the least possible expenditure on repairs.

The first requirement of any tractor is that it should be able to do the work of a horse, and to do it more efficiently.

Proper handling is also essential. A farmer tractor is not a horse, and it should be handled accordingly.

Oil average tractor uses some 200 cubic feet of oil in 100 hours of work.

Clean fuel will avoid many irritating stoppages and save time and wear on the fuel system.

Proper attention to the oil system will prevent the engine from overheating.

The tractor is a very important part of the farmer's equipment, and it should be handled accordingly.

The tractor is a very important part of the farmer's equipment, and it should be handled accordingly.

The tractor is a very important part of the farmer's equipment, and it should be handled accordingly.

When Shipments are permitted
War-time legislation does not allow the unrestricted export of our various products. In certain circumstances, however, Steel Wire Ropes, Steel Wire and Manila Hemp Ropes etc. may still be supplied, if unobtainable elsewhere, and, if they are essential. All such shipments will maintain full reputation for quality associated with the manufacturers of British Ropes Limited throughout the world. When Victory covers our efforts with success, supplies will be returned with the utmost dispatch, and they will incorporate the many improvements and developments gained by the extensive experience of the last few years.

In the meantime, we would like to remind our many friends overseas that the normal British Ropes Limited delivery service is at their disposal. Our technical staff will welcome queries; they will gladly give assistance and advice on all problems submitted.

All our extensive **BRITISH ROPEWORK** and **REGGEE** and **ROPE** are available in all the most important ports.

There are differences between WHISKY and "CROWN" brand COFFEE but both are pleasant to the palate and both are stimulating after that hard day's work. Have you tried "CROWN" brand COFFEE? Show your cook how to prepare it from this recipe: Use an earthenware jug for good results. This should be warmed as follows: 1. Use 1/2 tablespoon of "CROWN" coffee per pint required. 2. Pour on freshly boiled water but not actually boiling. (There is an old saying that "Coffee is spoiled by coffee applied.") The amount of water should be half the required quantity of coffee. Stand for two minutes. Add a pinch of milk. Thoroughly stir and stand for another three minutes to settle. Skim off the froth and strain into the coffee pot. Serve with the same amount of milk as the water used before. The milk should certainly not be boiling—it should be cooler than the coffee to avoid curdling in the cup. C. B. BLENCOVE. Managing Agents: OIBSON & COMPANY LIMITED, NAIROBI.

SOUTH AFRICAN SCENE:

Wanted: The "Real Thing"

The German dealer—either confirmed or denied by the Royal Navy—has now taken merchant ships off Cape Town by U-boat attack, some as rather a shock to the public. There is a good reason for this, however. The U-boat, either as the war or in the last, of offensive action, for the latter of which in Cape waters by the West, in the last war and by an unlearned trader in the earlier days of this one are not quite in the same.

The modern German submarine, it is said, has a cruising range of 15,000 miles, which allows 7,000 for the voyage out to sea and 8,000 for this end and a final get home again—assuming a base in Germany.

A good reason, of course, to suppose that German submarines will have rather more than ordinary. Dutch startups in some to mind for the Vichy authorities see no harm in rebuilding a Japanese submarine. It is unlikely that those at Dakar can see any harm in accumulating that German matter there.

Provisional leader by the naval authorities in the South African waters, with their fresh promise, and it is not to do that they will be completely free to do as they please. The boat was never in any danger. Cape waters will probably remain in the hands of the British. An anti-submarine netting, laid in the Indian Ocean, is a measure to be taken in the event of a U-boat attack. The netting is a measure to be taken in the event of a U-boat attack. The netting is a measure to be taken in the event of a U-boat attack.

It is an important broadcast, given by the Prime Minister, the Secretary of a National Council of Supplies and the Secretary of the Ministry of Finance. The broadcast is a measure to be taken in the event of a U-boat attack. The netting is a measure to be taken in the event of a U-boat attack.

REINFORCEMENTS FOR ROADS

It is expected that the year of 1942 will be a very busy one for the road builders. The Government has decided to increase the number of road builders and to increase the number of road builders. The Government has decided to increase the number of road builders and to increase the number of road builders.

PRODUCTION BOARD NOTES:

and remove the oil-carriage between the bearing and the shaft, leading to early failure of the shaft. The bearing should be replaced with a new one. The bearing should be replaced with a new one. The bearing should be replaced with a new one.

Tractor Engine Overhaul

PART II By C. Bagelton. After long use the journal of the shaft on which the connecting-rod is fixed will be worn. It is more than 1000 hours of use that it is possible to get a bearing to last.
