PATIENCE WITH ITALY AT GENEVA

FOR EARLY BEGINNING OF PEACE TALKS STRESSED

Britain and France Disagree

COMMITTEE OF EIGHTEEN WARNED TO BE READY TO MEET

It is regarded as a serious difference of opinion between British and French delegates on the Italo-Abyssinian dispute was revealed during consideration by the Committee of Thirteen of the means of starting conciliation negotiations.

It was urged strongly that the Committee should remain in session until the Italian Government sent delegates to discuss the matter, but M. Flaminio opposed the proposal, believing that it would make negotiation more difficult.

The Poison Gas Issue

Swiss delegates have been signed by three members of the Committee of Thirteen...

Mr. Flaminio, speaking for the Government, condemned the view that the Italians were not using gas.

Mr. Flaminio, speaking for the Government, condemned the view that the Italians were not using gas.

BIG BATTLE IN THE SOUTH

Losses Said to be Terrific

On Northern Front

EMPEROR'S ARMY NOT COMPLETELY BROKEN

Adila Akaba, April 9

A fierce battle has been raging for five days at Bilma, near Gharadobe, on the southern front. The losses on both sides have been terrific and the result is still uncertain.

Adila Akaba, April 11

Heavy engagements are reported to be in progress in Bilma, near Gharadobe. General Gherard has launched a new attack.

It is stated that the Abyssinians are putting up a staunch defence despite the employment of gas by the Italians.

The situation in the North is not clear. It is admitted that considerable quantities of arms and munitions are being sent by the Abyssinians owing to the withdrawal of Italian troops.

The present Italian line with regard to Bilma and Gharadobe and the surrounding districts is considered dangerous by military observers.

The following rates of exchange are quoted by the London market on Monday, April 13, 1936.

Table with 2 columns: Currency, Rate. Includes entries for Gold, Silver, and various international rates.

A request for the amendment of the Treaty of Lausanne by the abolition of clauses dealing with the fortification of the Bosphorus and the Dardanelles is made in an official statement by the Turkish Government to the League of Nations.

Genève, April 11

The Turkish Government has decided to take steps in order to obtain revision of the clauses of the League of Nations Treaty in conformity with the claims already formulated at Genève.

# Attack on the Modern Stage

## Well-Known Actor in a Critical Mood

DEBATE the theatre of a long time ago. The Drama of the Middle Ages, the Celtic Bardic and the modern stage. We are not to be misled by the name of the author. . . . It is not a mere definition of an art form, but a study of the modern stage as it is today. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside. . . . The book is a study of the modern stage as it is today. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

**The London Observer**  
The film critic of the Observer writes: "I doubt if any other critic has ever written so much about the modern stage as this book. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside."

**A Nairobi View**  
Mr. M. A. Wetherill, of Nairobi, who has had long experience in the work of the theatre, thinks the book is one of the best. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

technically sound, with every word that passes, still has the freshness of a fourteen year old child.  
"Punch" has an amusing little article on the subject, but hardly does justice to Mr. Cobden's play. It is easy to laugh at the author's own criticism of the theatre of the charges levelled at it. "Punch" says: "He wants to maintain the values of an earlier age. The waste of money on the stage is a waste of money on the stage. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside."

**Selection With Public**  
"Authors and professors today are thinking in terms of words. . . . After all, who can blame them? They are not interested in the play, but only to remember the popularity of the language and the style. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside."

**The Theatre of Tomorrow**  
"I believe," said the author, "that the construction of a theatre is the first step towards the modern stage. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside."

"We shall re-discover a new theatre for the theatre. . . . It will be a theatre for those who are not interested in the play, but only to remember the popularity of the language and the style. . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside."

# To-night's Films

**Capitol Theatre**  
The main film of the Capitol Theatre to-night is "The Wind and the Rain". . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

**Empire Theatre**  
The main film of the Empire Theatre to-night is "The Wind and the Rain". . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

**Princes Theatre**  
The main film of the Princes Theatre to-night is "The Wind and the Rain". . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

"The Devil of Happiness"

How did you see to-night? . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

**HART**  
The main film of the Hart Theatre to-night is "The Wind and the Rain". . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

**Princes Theatre**  
The main film of the Princes Theatre to-night is "The Wind and the Rain". . . . The author is not a mere student of the drama, but a well-known actor who has seen the theatre from the inside.

KENYA AND UGANDA TRADE IN 1935

£1,000,000 IMPROVEMENT IN EXPORTS

Uganda Setback

COLONY'S IMPORTS SHOW INCREASE OF NEARLY 11 PER CENT.

In the value of the home consumption imports of Kenya and Uganda for the year 1935, of over half the total starting and in domestic exports of nearly a half compared with the year 1934, are disclosed in a statement compiled by H.M. Trade Commissioner from figures supplied by the Commissioner of Customs.

The figures are as follows:—

Home consumption imports (excluding Government imports) and re-exports to Tanganyika of Kenya and Uganda: £5,329,956 in 1935, £4,277,950 in 1934; an increase of £952,000, or nearly eleven per cent.

Exports: Kenya and Uganda: £6,008,336 in 1935, £5,983,537 in 1934; an increase of £245,799.

The Official Figures

Imports into the value of £349,000. Sugar: Kenya to the value of £250,000, Uganda £99,000. In 1934 the value of imports was £428,257, the respective values for Kenya and Uganda in 1935 and 1934 being £5,030,229 and £4,287,950 respectively.

RE-EXPORTS TO TANGANYIKA

Re-exports for the value of £34,900. In 1934 the value of re-exports was £34,900, an increase of £1,000.

CARELESS DRIVING

Woman Motorist Fined at Nairobi

In the Resident Magistrate's Court, Nairobi, on Saturday, Mrs. C. H. Williams delivered judgment in the case in which Miss I. Manuany was charged with careless driving. He found her guilty and imposed a fine of £10.

Distribution of Trade

The principal export commodities of Kenya and Uganda for the year 1935 are as follows: Kenya: £2,419,000 (1934, £2,142,200). Uganda: £2,183,200 (1934, £2,142,200).

Principal Exports

The principal export commodity of Kenya and Uganda for the year 1935 is coffee. Kenya: £1,800,000 (1934, £1,800,000). Uganda: £1,800,000 (1934, £1,800,000).

Shipping Notice

The steamer "Cittadina" is expected to arrive at Nairobi on Saturday, April 20, 1946.

MALTA TO BECOME A CROWN COLONY

Due to recent developments in the Mediterranean... Malta will shortly have the status and administration of a Crown Colony, says the "Morning Post's" political correspondent, as it is understood that the Government intend to avail themselves of powers conferred by a new Bill as it is adopted.

The correspondent attributes this step to the recent developments in the Mediterranean, notably the nature and intensity of Italian propaganda directed against Britain.

of him for his blood," accused saying that he did not have one. The clerk accompanying the Inspector when handcuffed, the accused's wrists. The Inspector, a European, Police Officer in the Port Bell, the clock and accused proceeded by car to a point near the hoodless lorry, where they left the car. They went to the lot and Inspector Elliott asked him where his clothes were, but he did not reply. The Inspector pointed to the lot in a block where they had asked a woman to bring them out. In a hunched position, a pair of trousers and a pair of black shoes. Wings on a shawl was found on a pocket of the trousers. Inspector Elliott asked him where Wings was, but he did not reply. The Inspector then asked him to get into the hoodless lorry. Just before reaching the one accused slipped off one of the handcuffs from his wrist and ran away because of the hoodless lorry. No one chased him. Subsequently he was again arrested at an Nkhosho by two natives.

other village where the lorry was. He captured and arrested the hoodless lorry, but he did not find the hoodless lorry. They took him to another point where they spent the night. They then walked the whole of the following day carrying a large pack of bread which they were supposed to be carrying. They drank beer, water, and ate native food. They were then taken to the hoodless lorry and kept there. They were then taken to the hoodless lorry and kept there. They were then taken to the hoodless lorry and kept there.

At Mr. Clark's office an exact copy of the hoodless lorry was made. This was done by the hoodless lorry was made. This was done by the hoodless lorry was made. This was done by the hoodless lorry was made.

Accused then attempted to demonstrate to the court how he had slipped the handcuffs off of himself at most he only wanted to get the case on his left wrist. The pair showed on him that he had slipped off the one on the right hand, but the other policeman said he did not see that he did not catch much importance in the matter. He said he was not sure that he had seen him slip the handcuffs off of himself. He said he was not sure that he had seen him slip the handcuffs off of himself.

Said He Was Deaf

At Nkhosho he met another native but he had known of Limuru. They took him to the hoodless lorry.

Inspector Elliot came this day and checked him up on the day and night. He was taken to the hoodless lorry. He was taken to the hoodless lorry. He was taken to the hoodless lorry.

Prosecution called Mr. Garnett, a General assistant. He said he had been at the hoodless lorry. He had been at the hoodless lorry. He had been at the hoodless lorry.

He had been at the hoodless lorry. He had been at the hoodless lorry. He had been at the hoodless lorry.

He had been at the hoodless lorry. He had been at the hoodless lorry. He had been at the hoodless lorry.

Correspondence

The Editor does not accept responsibility for the views expressed by his correspondents in these columns and in all cases the name and address of the writer must accompany a letter, and necessarily for publication but a guarantee of good faith. Brevity is also essential to ensure consideration.

BRITISH ISRAEL

To the Editor, "E.A. Standard," Sir—If Mr. Spence Foxwell and his friends in the United Kingdom are so sure that Britain is engaged in a crusade to bring the world over to the Christian religion, then it is time to raise a voice of protest. British agents are everywhere, and not merely in the disguise of such a position on the grounds that the underlying motive is the promotion of the Christian religion in every country under the sun.

God's. Both have the same purpose in view, and both are equally determined to bring about the same result. The British Empire is the only one in the world which has not yet been converted to the Christian religion. It is the only one in the world which has not yet been brought into the Kingdom of God. It is the only one in the world which has not yet been brought into the Kingdom of God. It is the only one in the world which has not yet been brought into the Kingdom of God.

It is a pity that our City Fathers would visualize the City of Kenya, say, ten decades hence. I am a great optimist and I verily believe that Nairobi will eventually grow up into a City of the future. I am a great optimist and I verily believe that Nairobi will eventually grow up into a City of the future. I am a great optimist and I verily believe that Nairobi will eventually grow up into a City of the future.

It is a pity that our City Fathers would visualize the City of Kenya, say, ten decades hence. I am a great optimist and I verily believe that Nairobi will eventually grow up into a City of the future. I am a great optimist and I verily believe that Nairobi will eventually grow up into a City of the future. I am a great optimist and I verily believe that Nairobi will eventually grow up into a City of the future.

THE DEFENSE OF KENYA

To the Editor, "E.A. Standard," Sir—Having read the reports of the meetings of the Kenya Defence Committee, I am glad to see that the Government is taking steps to strengthen the defence of Kenya.

It is a pity that our City Fathers would visualize the City of Kenya, say, ten decades hence. I am a great optimist and I verily believe that Nairobi will eventually grow up into a City of the future.

**NEW MUNICIPAL CLINIC FOR INDIANS**

Officially Opened by the Deputy Mayor

**A NEAT BUILDING**

The opening ceremony of the new Municipal Clinic, situated at the corner of the Ind on 14th Street, was held on the 14th inst. The building was prepared by the work of the Municipal Council. The new building was prepared by the work of the Municipal Council. The new building was prepared by the work of the Municipal Council.

The Chairman of the Committee, Mr. John M. Hartley, opened the proceedings in a brief speech in which he dealt with the statistics that showed the appalling number of maternity and child deaths occurring throughout the world and said that the municipal maternity and child welfare work of the Council and the addition of an Indian clinic to the Municipal and Industrial work had already been established for Indians.

Dr. A. H. Tolson, Director of Medical Services, dealt with the history of Municipal health work and said that the present clinic was one of the best results of the Council taking over the child welfare and maternity work, to October 1st, 1935. He stated that the work of the Council and child welfare work of the Municipal Corporation is of the utmost importance and its value could hardly be over-estimated. He expressed the pleasure he felt in the Council's action in this connection.

In declaring the clinic open the Deputy Mayor, Lady Dalmeny, said that it was the sincerest hope that the building, which would co-operate fully in the new venture, as the clinic has been established for the benefit of our Indian people. It was to the benefit of all communities that mothers and children should be properly cared for.

An inspection of the new clinic completed the ceremony.

**Plans Disclosed**

The new clinic is a neat and spacious building comprising an entrance for special cases, which will also act as a waiting room, a day dispensary and 12 day-nurses' rooms and two smaller rooms. One of the latter is a private room for the personal use of the Health Visitor and is simply, but comfortably furnished. The other is a shower and examination room with running water laid on a special bed.

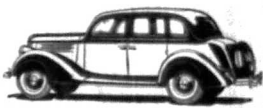

The building, which cost under £200 to construct, is a substantial structure of grey stone, with a Mangrove roof and fire-proof construction. The interior is well fitted out with dressing table and medicine cabinets of special design in which effectiveness and economy have been admirably combined. All drawings, blueprints, notices and other necessities are carefully installed in the most convenient manner. The interior scheme of decorating, green and cream, is simple and baby-wise, with arched brackets, drawings, useful instruments and all other necessary articles are disposed in a manner conducive to cleanliness and which in its proper place and not in a cubic inch of space wanted or misused. From the solid foundations to the attractive bed roof the clinic is a model of comparative and efficiency in which everything for mother and child is to be found.

The clinic will be under the direction of Dr. Evelyn Hartley, Lady M.O.H. and a Health Visitor will devote a fair proportion of her time to the necessary maternal, post-natal and child welfare work for which the clinic has been constructed. It is also hoped to obtain the services of two or three experienced Indian women nurses who have received a proper training at the Indian Maternity Home, Bombay.

**Keys Matter**

According to the report of the Chief Clerk and Inspector, 41,600 bags of Kenya wheat were received at the Coast for export during the week ending April 11th. Of this total 20,000 bags were graded and 2,422 rejected. The graded material consisted of 10,897 bags of No. 2 grade, 8,813 bags of No. 3, 8,288 bags of No. 4, 1,600 bags of No. 5, and 200 bags of No. 6 grade (of which 208 were slightly rejected). The rejected material was refused for the following reasons:—2,170 bags—wet, 2,070—mouldy, 1,117—severely and slightly damaged were rejected for other reasons. The wet material was consigned to Kinsh, Bump, Nakuru, Shabeta and other sources and the material contained therein 14.9 per cent.

**THE ASTOUNDING FORD V-8**

"Hot Mon! There's Economy!"

### UP TO 40 MILES PER GALLON

And you don't need a canny Scotchman to tell you Willys is unusual value. Willys is outstanding in that it has eliminated excess parts, size, weight, power and gadgetry the result is, it costs less to buy—less to own—less to service.

The Willys cuts your motoring costs—gives you more to spend on other things—pays for itself in more places. Up to 40 miles per Imperial Gallon, 30,000 to 40,000 miles per set of tires on good roads, 70-miles-per-hour speed, extremely low oil consumption, low insurance, depreciation and tax—these are among the Willys' advantages that

...against higher-priced and heavier rivals, allow it to pay for itself. Ask for evidence. Because it has a simplified design—because of its experience-obtained background of 2,500,000 cars and trucks made by the Willys-Overland Company, it is considered the most reliable model in their history.

Study the reasons for Willys dependability—many manufacturing in traffic—ready construction for the bad roads—long-distance touring comfort—flexible, energetic performance—all at a low cost that makes you want one—a car you can recommend to your friends.

A request for catalogues or technical advice will receive our immediate attention.

FOR WIRELESS RECEIVING, SOUND, PHONO, ELECTRIC LIGHT, ETC.

Exide BATTERY CO. (LONDON) LTD. 21, KING'S CROSS STATION, LONDON, ENGLAND.

**"They" Speak**

There was a large gathering of spectators there I ever remember at the conclusion of the first two matches. The third and fourth matches were followed with interest by the majority of the crowd. I was attracted by a cheer at the 12th when "They" spoke.

There was a large gathering of spectators there I ever remember at the conclusion of the first two matches. The third and fourth matches were followed with interest by the majority of the crowd. I was attracted by a cheer at the 12th when "They" spoke.

**The Grand Finale**

The closing round of the tournament was the most wonderful of the club house on Monday night. I don't think we have ever had such a large gathering of spectators. Mrs. M'Callan, Mrs. Martin, Mrs. Blythe and Mrs. Shaw delighted us with songs and dances. Mrs. D'Arcy and Mrs. Higgins were especially happy.

**A Wonderful Tournament**

I only remain for me to say that it was the most wonderful tournament we have ever had. The Royal Nairobi Golf Club has organized a magnificent tournament and all of us who were in it are glad to say that it was the most wonderful of the club house on Monday night. I don't think we have ever had such a large gathering of spectators.

**The Great Clash**

There was a most interesting and exciting tournament. The rain was not so bad as in the previous year. The rain was not so bad as in the previous year. The rain was not so bad as in the previous year.

**What Tanganyika May Not Read**

The attention of the public in Tanganyika is attracted by the discovery of a fossilization made by the Government in connection with the importation into the country of the following book and papers published by the Black Man Publishing Company, 2, Becontree Heath, London, W.14, in publication. The "Tragedy of White Injustice" by the Black Man. It is believed that a certain number of copies of the above publication have been used or distributed to persons in the Territory prior to the date of the prohibition prohibiting their importation.

KIKUYU LAND CLAIMS ON EUROPEAN FARMS

GOVERNMENT TO DISPOSE OF CONTROVERSIAL ISSUE

Carter Report Echo

OCCUPIED NATIVE AREAS WITHIN ALIENATED FARM BOUNDARIES

Native who have claims to land on European farms are invited by the Government of Kenya to submit them at once for final settlement.

Government's intention is to carry out the proposals of the Carter Commission to extinguish these claims by giving land and cash in compensation.

Some cases the claims, which are believed to involve between 200 and 300 Kikuyu, including women and children, date back over 30 years.

Relic of Early Settlement

An important notice appears in the current issue of the Kenya Gazette... the intention of the Government to conduct an investigation into Native claims of this kind...

The Carter Commission dealt with the claims of the Kikuyu who had been alienated under the provisions of the 1902 and 1905 Ordinances...

The Commission's proposals were that to consolidate the rights of the title there should be an addition to the Kikuyu Reserve which would be accompanied by the alienation of all Native private rights...

Further, it was suggested, compensation for disturbance by a person in cash and in kind was also to be a fair assessment of the total.

It was also provided that no land should be subject to Native rights but, as in the case of the 1902 and 1905 Ordinances, the Government should be allowed to acquire the land of Natives...

It is in order to ensure that the Government should be allowed to acquire the land of Natives...

TREASURE SHIP RUNS AROUND

CHINESE ART COLLECTION ENDANGERED

In Gibraltar Bay

CONCERN FOR PRICELESS CARGO OF P. AND O. LINER "RANPURA"

Chinese art treasures, valued at ten million sterling, but irretrievable, were endangered when the P. and O. liner "Ranpura" ran aground northwest of the harbour in an extremely rough sea.

The treasures recently attracted curious crowds when they were exhibited in London, and they were taken to China, whose Government had insisted that they should be returned to that country.

# FRONTIER FORTS OF EASTERN FRANCE

## A PRODUCT OF MOST GIGANTIC SYSTEM EVER CONSTRUCTED

### The "Magnet Line"

#### SIXTY MILLION STERLING SPENT IN SEARCH FOR SECURITY

The military thought has always been favorable to the use of fortifications, and the system France has built up on her eastern frontier is the most gigantic that has ever been constructed.

Fortifications are called after M. Maginot, who as Minister of War during the initiation of the scheme they have cost about £60,000,000.

ground forts, with underground railways, underground tracks, cupolas, searchlights, electric fans, gas concrete command the more thicknesses of steel and present them as skeleton trench systems, and are defended by specially trained troops at a few hours' notice.

### Defences Completed Last Year

[\*STANDARD\* CORRESPONDENT.] London (By Mail) The fortifications on France's eastern frontier are now a system that has been completed. It was the work of the late Minister for War, Mr. C. T. Morgan, who was Minister for War at the outbreak of the war. He was succeeded by Mr. M. Maginot, who as Minister of War during the initiation of the scheme they have cost about £60,000,000.

The scheme began when the skeleton trench system was constructed between the frontiers of the Vosges and the Alps. It was a continuous line of forts and trenches, and was designed to resist a surprise attack by a force of 200,000 men.

The system was completed last year. It consists of 16 main forts, each of which is a self-contained unit. They are connected by underground railways and tunnels.

The forts are built on high ground, and are surrounded by a belt of concrete. They are equipped with machine-guns, searchlights, and other modern weapons.

The system is designed to resist a surprise attack by a force of 200,000 men. It is believed to be the most powerful defensive system ever constructed.

ANXIETY OVER FUTURE OF TANGANYIKA

AT E.A. SECTION OF LONDON CHAMBER OF COMMERCE

Confidence Severely Shaken

SERIOUS EFFECT ON DEVELOPMENT IN THE TERRITORY

London, April 15. Speeches which indicated a state of grave unrest and pessimism at the attitude of the British Government towards the Tanganyika Mandate were a feature of a meeting today of the Eastern African Section of the London Chamber of Commerce at which a resolution was passed pointing out that confidence had been severely shaken and could possibly result in the cessation of development of the territory.

COMPENSATION

The resolution protested against any suggestion of amending or the Mandate in view of the assurances given to successive Governments. It also asked for an assurance that in the event of transfer full compensation would be paid for the money invested in the Territory.

The speakers, who represented the full range of Tanganyika's industries, were emphatic in their demand for an assurance on the subject of compensation.

The gold mining representative declared that unless an assurance was forthcoming development of the other enterprises in which he was interested would be held in abeyance.

REACTION IN SOUTH

Mr. Alexander Holm, former Director of Agriculture in Kenya drew attention to the probable reaction of the people of Tanganyika in South Africa and Rhodesia. His Government probably held very strong views on the subject.

# GOODRICH

The chances are  
just about even  
that you will  
have a blow-out  
one day—unless  
you are pro-  
tected against it

BLOW-OUTS ARE CAUSED BY HEAT—heat generated in your tyres when you are travelling at speed. This heat causes rubber and fabric to separate and form a blister. This blister grows bigger and bigger until

Bang!—a blow out.

The steering wheel is wrenched from your hand and—well, you can picture the scene for yourself.

The new GOODRICH Safety SILVERTOWN TYRES resist this heat. Goodrich Silvertowns have the new life-safer golden ply which prevents rubber and fabric separating. Blow-outs are prevented before they start. Yet Goodrich Silvertowns cost no more than other standard tyres which have not this additional protection.

Years of patient research work; months of severe tests; proved additional protection—all yours for nothing.

Ask to see this amazing new tyre. Even if you are not ready for a new set of tyres, make a note to fit Goodrich Silvertowns next time. Meantime, of course, if you are not using Silvertowns, you will be with out the extra protection which is given by the Life-Saver Golden Ply of the Goodrich Safety Silvertown.

Mining Careers for East African Youth

Tanganyika Official Estimates the Prospects

A LIMITED FIELD

Success in Mining - The chances in East Africa for East African youth. That was the subject of a lecture recently given by Mr. H. R. Phillips...

Choice of Standards - Any boy should be a mining engineer and not a student of mining...

Mining Geology - The boy desired to be a mining geologist and should continue his school course...

The Night Shift - The young and recently qualified mining engineer should, above all things, start with a technically equipped company...

The Money Side - A mining geologist need capital. He had not got a private income...

The Metallurgist - On the mine, the metallurgist had the same prospects of a profitable career...

Tanganyika Opening - Mr. Phillips then referred to Tanganyika itself...

Mining Engineering - Mining engineering attracted the most attention...

GOLD PRICE

The price for bar gold was quoted in London yesterday at 140 1/2. It being an increase of 1/2 on the previous day.

Miner - Already a few had become free-hand but several hundred more were needed. The mines are not rapidly run to capacity...

The Small Worker - The potential small worker of the mine was, undoubtedly, Mr. Phillips' argument...

Prospecting - The prospector was another side of the coin. They were in the same line as the miner...

The African - If a native would stay in his employment long enough to enable him to become efficient...

### FASCISM IN ITALY

To the Editor, "E. A. Standard,"—It is painful for an Italian to see that so many of his countrymen are so glad to glorify the Fascist regime, which vilify the glorious epoch which dominated Italy for more than 1,000 years. It is painful for an Italian to see that so many of his countrymen are so glad to glorify the Fascist regime, which vilify the glorious epoch which dominated Italy for more than 1,000 years.

### WEATHER MYSTERIES

To the Editor, "E. A. Standard,"—In his letter to you of 11th inst. you refer to the weather forecast for the 12th inst. which was given by the Meteorological Office as "fair with occasional showers." The actual weather was "fair with occasional showers." The actual weather was "fair with occasional showers."

# DE JONGH'S LIGHT BROWN COD LIVER OIL

**Man's Work no match for Nature's**

EXPERIENCE is proving the impossibility of trying to substitute synthetic products for GOD LIVER OIL.

Dr. DE JONGH'S is his world renowned creation on Cod Liver Oil based on the conviction that it was not until ALL THE CONSTITUENTS which constituted it were in the treatment of every disease. This opinion was formed many years before scientists had discovered the existence of VITAMINS, and shows that Dr. DE JONGH was the first to see the value of this oil in curing the other great men lived in advanced in this. GOD LIVER OIL contains the Vitamins A and D in correct proportion with the other constituents, and prevents loss of NATURE'S FINEST GIFT.

**ALL WASTING DISEASES**

On the right's Cod Liver Oil is prepared from the finest Norwegian fish by a process which removes the Vitamins and the same recommended for over 20 years by the leading medical authorities in every part of the world.

CONSUMPTION, BRUISES OF THE THROAT AND CHEST, INSURANCE, ASTHMA, RICKETS and other INFANTILE complaints, and

## FIRST AFRICAN BREACH OF PROMISE CASE

to purchase the stockists for the wedding.

The brother of defendant, who appeared on the latter's behalf, had also, it was alleged, written to the District Commissioner, Kisumu, requesting the latter to withhold permission for the marriage on the ground that the girl, Cecilia, was not of good moral character.

### The Defence

In defence it was contended that defendant had not been engaged to Cecilia for eight years, as alleged by plaintiff, but that the engagement had been the only one leading to his marriage with her.

The Magistrate entered judgment for the plaintiff (Daniel Magaya) and awarded costs of Shs. 22/4 and costs of Shs. 15/.

In the appeal to the Supreme Court it was argued that Magaya had no cause for action and that the suit was not maintainable; that if any contract of marriage had been made, the action in the suit should be that of annulment, and not the father's; that some of the evidence had not been taken on oath and that the evidence was inadmissible as being hearsay; damages had not been proved; and the award of costs was illegal.

### Universal Custom

Dealing with the grounds of appeal, Mr. Lane stated that it was a universal African custom for the father or guardian to give the bride price for the bridegroom and that on that basis the defendant was held good for Cecilia and Mohammed, as well as plaintiff's marriage. "It is a fundamental principle of African marriage," said Mr. Lane, "and if it was abandoned it is likely that the Supreme and lower Courts and a new trial ordered."

## NURSES' FATAL ERROR

**Mistake Sign in a Prescription**

["Serious" consequence] The notes which will form the foundation of an action against the nurse, Miss Josephine, are signed by Dr. James Gordon, King's Hospital, Nairobi, and signed by Miss Josephine, Miss and Nurse Olive Margaret Chapman, "Quality of the nurse's sign for opium, thus causing Mrs. Josephine to be taken to the hospital to be given a fatal dose of opium. The two women have since resigned.

Mr. Norman Messing, a member of the R.F.P.A. and a member of the Nairobi Chamber of Commerce, is the plaintiff in the action against the nurse, Miss Josephine, and the two women who have since resigned.

Mr. J. D. Cassel, the "lawyer" who is the plaintiff in the action against the nurse, Miss Josephine, and the two women who have since resigned.

many evils would arise as a result of the action. He held that the response to the appeal (Daniel Magaya) had been made in a proper manner. He said that the defendant had not been taken on oath and that the evidence was inadmissible as being hearsay; damages had not been proved; and the award of costs was illegal.

The question of taking evidence in private of Anderson Wamba, the brother of the defendant, was also considered. It was held that the evidence in the case which was relevant should have been taken on oath, or affirmation. The question of damages awarded to the plaintiff was also considered. It was held that the Magistrate had not sufficient evidence before him at the hearing on which to base his finding as to the amount of damages to be awarded. The appeal was, therefore, allowed with costs in both the Supreme and lower Courts and a new trial ordered.

## FAREWELL TO BISHOP OF NOMBASA

great relief. As a former Chief Justice (now deceased) said Mr. Wale, he was perhaps, in a better position than most to realize the value of the Bishop's work in the diocese. He was a warm tribune to the people of the diocese. He had a wide knowledge of the diocese and his work was a warm tribute to the people of the diocese. He was a warm tribune to the people of the diocese. He had a wide knowledge of the diocese and his work was a warm tribute to the people of the diocese.

# Making To-morrow

## LORD RUTHERFORD'S RESTLESS QUEST

by  
**H. Wyndham Boyce**

Rutherford looks like a man who has done his best, and is now resting. He is a slender, thinning hair, with a keen, intelligent eye, and a ready smile. He is a man of a keen intellect, and a deep interest in the world around him. He has a keen sense of humor, and a deep understanding of the human mind. He is a man who has made his mark in the world, and is now resting on his laurels.

### How the Atom Yields Its Secrets

Lord Rutherford tells us that when you remember the fact that the atom is made up of a nucleus of positive charges, surrounded by a cloud of negative electrons, you can begin to understand how the atom yields its secrets. The nucleus is made up of protons and neutrons, and the electrons are arranged in shells around it. The energy of the atom is stored in the nucleus, and is released when the nucleus is split.

Lord Rutherford's restless quest for knowledge is a testament to the human spirit. He has spent his life in the laboratory, and has made some of the most important discoveries in the history of science. His work has opened up new frontiers in the field of atomic physics, and has paved the way for the development of nuclear energy.

Why does it matter what he has done? It matters because his work has changed the way we think about the world. It has shown us that the atom is not a solid sphere, but a complex structure of energy and matter. It has shown us that the nucleus is the source of the atom's power, and that this power can be harnessed for the benefit of humanity.

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

awarded the Nobel Chemistry Prize.

In 1919 his old master Sir J. Thompson retired from his professorship at Cambridge, and nominated Rutherford as his successor and so with Sir J. Thompson's resignation, Rutherford became the first holder of the Cavendish Laboratory, which was founded in 1874 by Sir George Stokes.

Why does it matter what he has done? It matters because his work has changed the way we think about the world. It has shown us that the atom is not a solid sphere, but a complex structure of energy and matter. It has shown us that the nucleus is the source of the atom's power, and that this power can be harnessed for the benefit of humanity.

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

Lord Rutherford.

His assistants and students are all as bright, working at full intellectual stretch. It is a great spirit, it is a driving spirit. This is what Lord Rutherford means when he speaks of work. He knows that his own career of original research is beginning to draw to its natural close, but that does not dim his life. He knows that he is only the leader of a small team, whose foundation lies on the rock of fundamental knowledge. When he drops out of this research—another leader will arise to take his place. The work will go forward, each work will add a little to the map of the universe, waiting just one secret from reluctant nature.

**Discovery Which Will Change the Course of History**

There is a way Lord Rutherford is working, and it is a way that is changing the course of history. He is working on the discovery of the neutron, which will change the way we think about the atom. The neutron is a neutral particle, and it is found in the nucleus of every atom. Its discovery will allow us to understand the structure of the nucleus, and will pave the way for the development of nuclear energy.

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

# CONVERSATION PIECE

It matters and how nearly child's a writer as if he had training and communication.

### IN SEARCH OF SECURITY

Rutherford might seem to be untroubled by the uncertainties of the future, and the search for security. But he is not. He is a man who has made his mark in the world, and is now resting on his laurels. He is a man who has spent his life in the laboratory, and has made some of the most important discoveries in the history of science. His work has opened up new frontiers in the field of atomic physics, and has paved the way for the development of nuclear energy.

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

### Uttley and Ferguthi

Uttley and Ferguthi are two of the most important figures in the history of atomic physics. They have made some of the most important discoveries in the field of atomic physics, and have paved the way for the development of nuclear energy. Their work has opened up new frontiers in the field of atomic physics, and has paved the way for the development of nuclear energy.

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

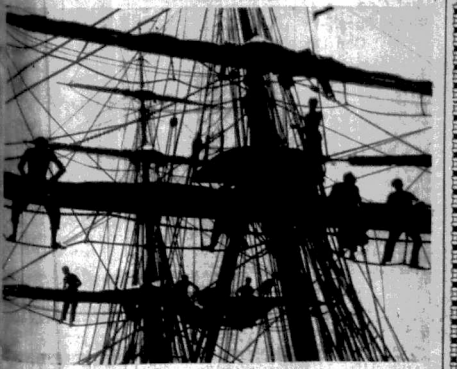

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

### COLONIAL OVERVIEW

The colonial overview shows the progress of the various colonies in the world. It shows the economic growth of the colonies, and the development of their infrastructure. It also shows the challenges that the colonies face, and the ways in which they are being addressed.

Lord Rutherford's quest is a quest for knowledge, and for the betterment of the human race. He has shown us that the atom is a source of energy, and that this energy can be used to power our homes, our factories, and our ships. He has shown us that the atom is a source of information, and that this information can be used to understand the world around us.

### A MEMORY OF YESTERDAY.

One of the masts of the Joseph Conrad, snapped at Melbourne. She is the last square-rigger of the world, and is shortly to be a wreck on the rocks near the Bahamas.

### Racing

There has been a very good deal of racing in the world. First of all there was the Grand National, which was held at the end of the year. It was a very exciting race, and the winner was Captain. Fifty thousand a year for the fixtures.

### Amateur Boxing Championships Disappointing

The amateur boxing championships were held in London. The results were disappointing. St. Paul's was invincible. England and Germany drew at hockey.

### Exciting Billiards - J. Thompson the new Champion

Exciting billiards matches were held in London. J. Thompson was the new champion. The match was very exciting.

### Hundred Mile Fox Hunt

A hundred mile fox hunt was held in London. It was a very exciting event. The hunt was very successful.

The M.C.C. will hold the M.C.C. only in the England. The Test match against the Indians is fixed for June 15th in London. To play on the cricket has been a great success. The M.C.C. has been very successful in its efforts to improve the game.

### Tennis

The tennis season is now in full swing. The Wimbledon tournament is the most important. The results have been very exciting. The champion is still the same.

### Football

The football season is over. The results have been very exciting. The champion is still the same. The season has been very successful.

### Racquets

The racquets season is over. The results have been very exciting. The champion is still the same. The season has been very successful.

### Hockey

The hockey season is over. The results have been very exciting. The champion is still the same. The season has been very successful.

### Cricket

The cricket season is over. The results have been very exciting. The champion is still the same. The season has been very successful.

### Golf

The golf season is over. The results have been very exciting. The champion is still the same. The season has been very successful.

# They Say

Beats extracts from references in the Press overviews to East Africa.

**Is Kenya a Whiteman's Country?**  
Dr. Leakey is Despondent—  
This Army-aristocratic Old-School—  
The Colony—  
From Agricultural to  
Menial Behaviour—

## THESE PRECARIOUS CHILDREN

THEIR lives and the welfare of the children of the East African colonies are being considered in a kind of seminar in the Press. Recently by the author of "The Education of the Children of Kenya" a White Man's Country? The greater part of the article deals with the question of the health of Dr. Leakey's children and how they are being treated in Kenya as reported on in "White Man's Country." The Institute is...

Another aspect of the health problem that has to be seriously considered is that of the children of the East African colonies who are being brought up in the White Man's Country. It is very hard to get any idea of the extent of the problem...

Another aspect of the health problem that has to be seriously considered is that of the children of the East African colonies who are being brought up in the White Man's Country. It is very hard to get any idea of the extent of the problem...

## POSITION OF SETTLER - IS VERY PRECARIOUS

THOSE who are acquainted with the position of the settler in Kenya are well aware of the fact that the position is very precarious. The settler is in a very difficult position...

## FORCED LABOUR AND HARSH TAXATION

A WHOLE £66,000 a year is raised from the natives, who Mr. Bond declared did not get anything like 100 times for their money. The Government is doing a great deal for the natives...

## INSECT PESTS, DESICATION & DISEASE

WHEN the "East African Standard" mentions that the position of the settler in Kenya is very precarious, it is not surprising that the position is very precarious. The settler is in a very difficult position...

## UNCHECKED EXPLOITATION OF THE NATIVE

MARRIOTT has pointed out that the position of the settler in Kenya is very precarious. The settler is in a very difficult position...

## PRIDE AND INTENSE SATISFACTION

IN the Library Department of the "Times" there appears a report on the visit of Major W. H. Bond, who served as an officer of the British Forces in Kenya...

## ON FAMILY BENDED KNEES

MARRIOTT'S pen is turned to the visit of Major W. H. Bond, who served as an officer of the British Forces in Kenya...

## Relative wages in Kenya, are being raised by order of Government officials and held captive until their male relative pay their poll-tax.

This is not one instance of the unscrupulous exploitation of the native population in the East African colonies related to us by Mr. W. McCroger, Esq., formerly in charge of the Kenya Police Department and a member of the Kenya Legislative Council.

"The sort of thing has been done of late, for some years," he said. "I have known in the immediate control of the Police force that they have the whole power of the Government behind them, and there is even evidence of the Police force being used to force the natives to pay their poll-tax."

"It is common practice to seize a native's cattle and impound the animals until the poll-tax is paid. Sometimes women are seized as well, and held captive until their husbands or brothers secure their release by paying up the poll-tax."

"In 1935 there was an outcry against the burning of native huts. The authorities, however, did not get the poll-tax, so the huts were not paid with a short time, the first was burnt."

"The Government did not get the poll-tax, so the huts were not paid with a short time, the first was burnt. The authorities, however, did not get the poll-tax, so the huts were not paid with a short time, the first was burnt."

"The Government did not get the poll-tax, so the huts were not paid with a short time, the first was burnt. The authorities, however, did not get the poll-tax, so the huts were not paid with a short time, the first was burnt."

"The Government did not get the poll-tax, so the huts were not paid with a short time, the first was burnt. The authorities, however, did not get the poll-tax, so the huts were not paid with a short time, the first was burnt."

"The Government did not get the poll-tax, so the huts were not paid with a short time, the first was burnt. The authorities, however, did not get the poll-tax, so the huts were not paid with a short time, the first was burnt."

"The Government did not get the poll-tax, so the huts were not paid with a short time, the first was burnt. The authorities, however, did not get the poll-tax, so the huts were not paid with a short time, the first was burnt."

## FURTHER PARTICULARS OF AN INTERESTING HAULAGE-UNIT

These motor cars recently made in the factory and which performed in the trials on the road, are reported to be particularly reliable and give excellent results with great economy in fuel consumption.

The motor car is built on a chassis designed to run on a road of 12 ft. wide and 6 ft. 6 in. high, with a load of 24 tons. It is built on a chassis which is 12 ft. 6 in. long and 4 ft. 6 in. wide. The motor car is built on a chassis which is 12 ft. 6 in. long and 4 ft. 6 in. wide. The motor car is built on a chassis which is 12 ft. 6 in. long and 4 ft. 6 in. wide.

When the motor car is loaded to its full capacity of 24 tons, it is able to travel at a speed of 15 m.p.h. on a road of 12 ft. 6 in. wide and 6 ft. 6 in. high.

By using the motor car, it is possible to transport 24 tons of goods in a single trip, which is a great saving of time and money.

The motor car is built on a chassis which is 12 ft. 6 in. long and 4 ft. 6 in. wide. It is able to carry a load of 24 tons and travel at a speed of 15 m.p.h.

### WORLD'S FASTEST MEDICAL BOMBER

The Fury Battle monoplane (Dolls-Beyer Motor engine) photographed on its first appearance in public at the Fairy aerodrome near London. This remarkable warplane is going immediately into large quantity production for the Royal Air Force. It has a retractable undercarriage, and is faster than any other aircraft yet in service with any of the world's air forces. Performance details may not yet be published, but the Air Ministry states that a journey from the Fairy aerodrome to the South coast of England, a distance of between 45 and 50 miles, can easily be accomplished by the Battle in just over 10 minutes.

## COMMENTS OF THE WEEK

### By The Morning Star.

#### Misings Per Galton

Post-conviction trials in England, where the death penalty is still in vogue, are a curious sight. The accused is usually a man of high social position, and the trial is a public event.

ITALIAN TROOPS ON THE SUDAN BORDER

ETHIOPIAN HALF OF A TOWN CAPTURED

Tricolour at Lake Tana

LOSSES IN A SURPRISE ENCOUNTER WITH "A SUPERIOR FORCE"

The Italians have reached Lake Tana and have hoisted the tricolour on the lake shore.

Another important item in the official communique issued in Rome is the capture of the Ethiopian part of the town of Sadenne and contains British forces.

There was an air raid over Addis Ababa, on Monday but no bombs were dropped.

Aeroplanes Over Addis Ababa

The Italian planes were seen in the neighbourhood of Addis Ababa on Monday.

It is explained that the occupation applies to the Ethiopian half of the town which is reported to have been captured by a day party from the Italian side.

Another column of motorized troops and light tanks occupied the Ethiopian town of Sadenne on the Sudan border.

The Italian forces of 1000 men and 100 tanks were reported to have been seen in the neighbourhood of Addis Ababa on Monday.

On the border of the Italian and Ethiopian territories, the Italian forces were reported to have been seen in the neighbourhood of Addis Ababa on Monday.

The Italian forces were reported to have been seen in the neighbourhood of Addis Ababa on Monday.

MILITARY SANCTIONS RUMOUR DISCREDITED

SPECULATION IN REGARD TO BRITISH INTENTIONS

It is reported from Geneva that the Italian representative, Baron Abate, is expected there on Wednesday for the opening of peace negotiations with the Abyssinian representative, Mr. Woldemar, and the League representative, Sir Robert Hudson.

In Geneva it is felt that any question of new and more effective sanctions against Italy is a moot point.

The main fact that Mr. Eden had envisaged was the conviction of the Committee of Eighteen that had been held in reply that Britain was prepared to face the consequences, however serious, but it is considered it may be difficult to secure unanimity by the Committee.

It is reported from Geneva that the Italian representative, Baron Abate, is expected there on Wednesday for the opening of peace negotiations with the Abyssinian representative, Mr. Woldemar, and the League representative, Sir Robert Hudson.

In a communication received by the Secretary General of the League, it is stated that the Italian representative, Baron Abate, is expected there on Wednesday for the opening of peace negotiations with the Abyssinian representative, Mr. Woldemar, and the League representative, Sir Robert Hudson.

BIG BATTLE IN THE SOUTH IMPATIENCE WITH ITALY AT GENEVA

LOSSES SAID TO BE TERRIFIC NEED FOR EARLY BEGINNING OF PEACE TALKS STRESSED

On Northern Front: IMPERIAL ARMS NOT COMPLETELY BROKEN

COMMITTEE OF EIGHTEEN WANTED TO BE READY TO MEET

What is regarded as a serious difference of opinion between the British and French delegates on the Italian-Abyssinian front dispute was revealed during the consideration by the Committee of Thirteen of the means of starting conciliation negotiations.

Mr. Eden urged strongly that the Committee should remain in touch with the Italian Government sent delegates to discuss the matter, but M. Flaminio opposed the proposal, believing that it would make negotiation more difficult.

The Home of Commons takes a grave view of the alleged use of poison gas by Italy and considers it an issue of paramount importance.

The Poison Gas Issue

Factor and involved M. Macdonald and M. Avon, to be met.

Some plain speaking regarding the Abyssinian war was heard during the consideration of the report of the Committee of Thirteen.

GIANT AIRSHIP LMPHS HOME LOCARNO POWERS REACH AN AGREEMENT

Breakdown of an Engine TO EXAMINE ALL PROPOSALS FOR CONCILIATION

Anxious Journey Germany's Omission

HERR HITLER'S PLAN NEVERTHELESS TO HAVE FURTHER CONSIDERATION

Although they find that Germany has done nothing to re-establish confidence shaken by her recent action in the Rhineland, the Locarno Powers have decided fully to consider Herr Hitler's proposals for the lasting peace of Europe.

Should any material change occur in the Rhineland in the meantime, however, the Powers will meet again immediately.

The French peace plan is to be exhausted in detail by the League of Nations.

A League Enquiry

The Locarno Powers have reached an agreement. A communique issued to-day states that the Powers have agreed to examine all proposals for conciliation.

MALTA TO BECOME A CROWN COLONY

Malta will shortly have the status and administration of a Crown Colony says the "Morning Post's" political correspondent, as it is understood that the Government intend to advise themselves immediately of powers conferred by a new Bill as soon as it is adopted.

The correspondent attributes this step to the re-development in the Mediterranean, notably the status of Italy's propaganda directed against Italy, which would render self-government, even in a modified form, impossible in the immediate future.

It is also pointed out that Italian military movements have been intensifying the concentration of large units of air forces in Malta, virtually surrounding the island from the sea.

TERRIBLE DROUGHT AND HEAT

UNUSUAL MEASURES IN NORTH AFRICA

Owing to the worst drought and heat which has ever been experienced in Tripolitania in fifty-five years, Governor, General Balbo who was in command of Italian flying-boat "Armaida" that makes a fortnightly flight to Alexandria and back, has ordered the transfer of oil and coal to Cyrenaica.

The hundred thousand have already been ordered to evacuate their homes and to seek refuge in the mountains.

It is reported from Tripoli, April 12, that the Italian Government has decided to transfer the capital of Tripolitania from Tripoli to Benghazi.

KIKUYU LAND CLAIMS ON EUROPEAN FARMS

GOVERNMENT TO DISPOSE OF CONTROVERSIAL ISSUE

Carter Report Echo

OCCUPIED NATIVE AREAS WITH ALIENATED FARM BOUNDARIES

Kikuyu farmers who have claims to land on European farms are invited by the Government of Kenya to report them at once for final settlement. The Government's intention is to carry out the proposals of the Carter Commission to extinguish these claims by giving land and cash in compensation.

Relic of Early Settlement

An important notice appears in the current issue of the Kenya Official Gazette regarding the intention of the Government to conduct an investigation into the claims of the new settlers in life within the impulsion or the opportunity for land acquisition. The Government will be required to consider the attention of Government departments as well as the attention of the public.

Rectification Needed

Having considered the matter very fully in the light of all the evidence and having regard to the opinion expressed by the Commission, the Government has decided to rectify the error.

A Settlement

"We accept it as our duty to rectify the error which has occurred in the settlement of the claims of the new settlers in life within the impulsion or the opportunity for land acquisition."

Added Land

So far as the Kikuyu were concerned, it is to be noted that in addition to the land which was recommended to be added to the Reserve in compensation for land lost, a further grant of 2,000 acres was recommended by the Commission.

COTTON CROP AT THE COAST

Double That of Last Year
4,560,000 lbs.

QUALITY TOO GREATLY IMPROVED

The cotton crop at the coast has increased by 100 per cent over the previous year's crop. The quality is also greatly improved.

DE WITT'S ANTACID POWDER

Antacid for indigestion, heartburn, and other ailments.

AFRICAN COTTON

Health and vigour in your skin. The African cotton is of high quality and is suitable for all climates.

Nyasaland and Tanganyika

The Commission has recommended that the Government should be asked to make a definite statement regarding the distribution of land in the two territories.

WHIGG'S SOAP

Whigg's soap is of high quality and is suitable for all climates.

CATARRH VICKS

Vicks' catarrh is of high quality and is suitable for all climates.
