# THE Chrysler Six Airstream Sedan

Is Now on View

THE first Chrysler completely altered the trend of motor car body design. Since then, each succeeding year has found Chrysler well ahead of the field, with bodies that were more pleasing to see, more useful to ride in and which, for many years, have been most sturdily fabricated of steel braced by steel. This year's models bear eloquent witness to these striking facts. See a Chrysler Airstream—before you buy!

Recessed foot rests provide a most helpful support for rear seat passengers.

The spare tire is conveniently located on the instrument panel.

Bigger than the Plymouth but gives the same thrill to drive.

In short, "a very gentle, perfect — Car."

4 door Sedan with built in trunk.

Excuse for Delaying Payment?

"(REUTERS) (CORRESPONDENT) Dango Bahali, April 30.

The last contains have now been completed, and some tax has been collected and broadcast from Rome on Thursday night—

This year, conditions are generally much more than during the few years owing to the general rainfall and the good crops raised, which have reduced the malice from the necessity of having to buy cattle prices have generally strengthened as the result of increased demand for working oxen by plantation owners.

The new system of native hut and land tax collection was introduced for many reasons, the chief of which were to ensure a steady flow of revenue, to secure uniformity in the payment, and to ease the position for those who have no means of opportunity to pay early in the year.

Some native taxpayers, however, are said to prefer the "old" system as an excuse for delaying the payment of taxes. Each end is divided into areas intended for selling animals, which are sold until the required amount is completed, whereupon the cash can be sent to the Government employer, accompanied by the cards, thus saving some of the necessity for a list. It is believed that the "old" system will be of benefit to native taxpayers and revenue officers.

POLITICAL HERINGS: ELDORETT PROCEDURE

To the Editor, "E.A. Standard." Sir, - How may we write about the subject as much as we like, but we cannot deny the truth of my statements without being openly contradicted.

I did not attend the meeting as a rival candidate seeking support for my views. Had that been the case my presence would have been quite unnecessary. I should not have quietly left - and the results of the meeting might have been very different.

I attended the meeting as one of Mr. Hoy's opponents, and as one of the people who were most likely to be heard. I had no good reason to know it would be necessary to appear at the meeting, but I had no choice. I had no choice.

Having a strong sense of public duty, I thought my name would be better employed in informing the general public of the facts. Yours etc. THOMAS J. O'SHEA. Eldoret, April 29, 1936.

HEALTH VISITOR

Indian to be Appointed to New Clinic

"In the new Indian clinic meant for show, or no Council men business," enquired Councillor Dr. Adaja at Tuesday's meeting of the Nairobi Municipal Council when the question of the appointment of a health visitor for the clinic came up for discussion.

Council eventually passed the following amended recommendation by eight votes to five— That the proposal to engage an Indian Health Visitor for the Clinic...

Local Appointment Urged

Pointing out that the wording was different in the minutes of various committees that had dealt with the matter, Dr. Adaja explained that he wanted to make it clear that his objection was to an "imported" health visitor.

Councillor Allen's amendment was then put to the vote and lost.

At a later stage, during the consideration of the relevant minute recommended by the Finance Committee further discussion ensued.

Councillor Newark stressed the need for an Indian for the work and said that, in the interests of the nation, the majority for whom the clinic had been instituted, this was only right.

It was explained that the matter had been left open deliberately in order that full discussion and expression of views on Council might be invited.

At the juncture the amendment previously proposed by Councillor Allen was put to the vote and carried by 8 votes to 7.

Having learned the substantial nature of the amendment, Councillor Adaja, immediately on resuming the chair, announced the appointment of a health visitor for the clinic.

VITAL ADVANTAGES FOUND ONLY IN THE V-TYPE ENGINE

Shortness— (more body room) Rigidity— (smoother operation)

- 1. The V-Type engine is shorter by 6 to 13 inches than sixes or straight 8's of equal power. 2. More body room with V-type on cars of equal wheelbase. 3. Better engine cooling because full length of cylinders and crankcase are water-jacketed. 4. V-type has short, rigid crankshaft with long bearing life. 5. Short crankshaft does not need a "Vibration Dampener"—no unnecessary parts—trouble free service.

The Ford V-8 is the only low priced car with these advantages

A later dispatch, dated at 7 p.m. (Abyssinian time) states that the two African miners have gone through work that they are in no immediate danger, but otherwise the conditions continue to be unimproved.

An American newspaper correspondent was wounded by a snail shot when he was driving through the crowd.

Several miners apparently snatched large quantities of rifles and ammunition abandoned by police and soldiers in the morning. It is possible that some of the rifles were for sale for a large sum.

MISUNDERSTANDING OVER ROAD DISTRICT COUNCILS TO ACT AS AGENTS FOR GOVERNMENT

Nairobi Protest

COMMISSIONER TO BE ASKED TO ATTEND A COMMITTEE MEETING

DISSATISFACTION with the suggestion that the Nairobi District Council should carry out maintenance work on trunk roads in their district as agents for Government was expressed at a special meeting of the Council on Friday.

The matter arose from a letter received from the Commissioner for Local Government regretting that there appeared to be an impression that District Councils should be the main trunk roads, whereas what was proposed was that in order to reduce overhead expenditure the expenditure of money provided by the Central Government for maintenance.

One member proposed that the Council should refuse emphatically "to be the buffer or cockney of the public" but the views of other District Councils had been obtained by the Commissioner for Local Government at a meeting of the General Purpose and Finance Committee.

"Position of a Neapara"

In a recent letter to the Nairobi District Council the Commissioner for Local Government stated that he was opposed to the Council's request in regard to the responsibility of trunk roads. The Council in the view of the Commissioner should be responsible for trunk roads but should be transferred to the District Council Department. He expressed regret if his views were not adopted and that previous letter had added the Nairobi District Council and asked the Council to hand over or vested in District Councils. The Council then stated that the position of the Council might be changed and it might be able to do so. The policy of utilizing District Councils as agents of Government was being reconsidered. The Council's request in regard to trunk roads was being reconsidered. The Council's request in regard to trunk roads was being reconsidered.

MISUNDERSTANDING OVER TRUNK ROADS

(Continued from page 8)

The trunk roads on the better portion of the district consist of the work of the district council made.

After further discussion, however, he withdrew his amendment in favour of the proposal of the Commissioner C. H. Bousquet.

That this Council require to the Commissioner for the trunk roads in the district that the Government should maintain his proposals.

Attention was also drawn to the fact that the £154 grant would not be sufficient to cover what is incurred by roads, and that no money was made in the agreement of the Council.

The District Commissioner said he had worked satisfactorily at Nairobi during the past two years and suggested that before the Council did anything with or without the Clerk and Engineer.

Council approved this suggestion, and also another that an attempt should be made to get the trunk roads on a footing before the District Council on a proposal before the Council and Finance Committee.

SEVERAL EUROPEANS KILLED DURING LOOTING

EXCITING RESCUES BY BRITISH CITIZENS

Emperor's Request to Britain

WARSHIPS BELIEVED TO BE EN ROUTE TO ESCORT HIM FROM COAST

ITALIANS WERE EXPECTED TO ENTER ADDIS ABABA LATE YESTERDAY OR EARLY TODAY.

The Emperor of Abyssinia has asked that the British Government should send a warship to take him and his family from Djibouti and it is believed two vessels are on the way from Aden in answer to his request.

Several Europeans were killed as a result of the widespread disorders in Addis Ababa which followed immediately on the departure of the Negus and continued throughout the week-end and the British Legation authorities carried out some notable rescues.

The looting had diminished by yesterday morning but bands of desperadoes were reported to be roaming the city. One of the last directions given by the Emperor was that his palace was to be thrown open and that the public were to be allowed to take anything they liked from it. They did so.

Italian Entry Imminent

Rome's special correspondent in Addis Ababa, in the course of his first message after the departure of the Emperor, which was despatched here that English wireless transmitters coming to the closing down of the Government station, etc. late last night after a day of looting, the Emperor's under-palace, the Emperor, decided that the way out lay in going to Djibouti and the overwhelming majority of Italian armsmen, was to leave the country. It is reported that the Emperor and his family to Djibouti, intending to carry on the struggle for independence through diplomatic channels.

Raid on Palace

The Emperor, before his departure, ordered the Imperial Palace to be thrown open and things were allowed to be taken from all directions to the palace. It soon appeared, although a great battle was in progress, as was tried out the new ammunition by firing into the air, etc. without any intention of hitting anyone.

Wholesale Looting

When the populace realised that the Emperor and his family had gone, the wholesale looting began. Fighting men and women were seen wearing top hats and European clothes. Later, when much liquor had been consumed, French dancing over the lost town.

Several were driven and shot as they were trying in the streets of the capital. An infuriated mob besieged the store of Mohammedali which was richly stocked with goods. The British staff was eventually rescued by a party from the British Legation. Most of the British subjects

Aggression and its Reward. There can scarcely be a single page of the East African Yearbook which does not contain some reference to the tragedy of Ethiopia.

Even less of resistance. It was a war would be conducted with the aid of Italian troops, gas, air bombing and all the usual paraphernalia of modern warfare. The Italian is today the most powerful nation in the world, and the strength of the French and British is being rapidly eroded. The peoples in the Mediterranean are today the most miserable has been the result of the Italian aggression, entering the Italian Empire, and the independence of the peoples of the East. The Italian is today the most powerful nation in the world, and the strength of the French and British is being rapidly eroded.

success of Socialism at the polls in the French results are unlikely to serve to carry out economic and financial war. The fate of the League of Nations depends on France, and the world has had too many recent experiences of French weakness to hope for very much. It is possible to claim that in the future not only of difficulties, but of ruthless ambition to possess the prestige of Great Britain. The League of Nations is today the most powerful nation in the world, and the strength of the French and British is being rapidly eroded.

PUT NEW LIFE INTO YOUR UNDER SKIN with deep-skin Cream

See skin faults go

Do you ever wish your skin started new—with a skin free from blackheads, pimples, blotches?

You start by putting new life into your under-skin where all faults begin.

Your under-skin is made up of tiny nerves, blood vessels, glands, kept active—like yours, to try your outer skin, free it of all blemishes that come when your under-skin loses vigor.

To keep the under-skin healthy

### THE OLD COURT FLOT

To the Editor, "E.A. Standard,"  
Sir,—According to a statement made in regard to the sale of the Court plot I gathered that an official municipal quarter it was thought the price might be something from 25 to 55,000. From this it would seem that the plot is being sold under the reserve but we have the Town Valuator Mr. Tennant, saying it is worth 120,000. No. 12 of the Commission of this states that the Council reserve the right to withdraw any plot from competition as a body representing the Ratepayers, satisfied of the value of this plot and the amount of the reserve that ought to be placed upon it.

I understand that one of the main parties responsible for having this plot put up for sale has withdrawn from bidding leaving a number of other applicants. It is stated that a number of the 2,200 each into a combine hoping to get the plot for the total for two years in order to sell it at a handsome profit without carrying out any building conditions at all, by getting a further extension of the time limit. As for the Italian financial depression with its consequences, I am led to believe that there will be several syndicates.

I have been frantically of the opinion that this plot should not be sold until it is sold to the public. It is a most valuable site and if it should fall into the hands of one party or one individual it will be a real misfortune from the shrewdest point of view.

Yours truly,  
H. M. HINDS

TRIUMPH OF THE SWORD OF CIVILISATION

DUCE SAYS ITALY HAS NO FURTHER COLONIAL AMBITIONS

MARSHAL Badoglio riding on a white horse entered Addis Ababa as conqueror of Abyssinia on Tuesday afternoon.

Italy is wild with excitement and the whole country is celebrating the successful outcome of the war.

Signor Mussolini in a speech broadcast to the nation declared emphatically that Ethiopia was now and henceforth an Italian colony, the sword of civilisation having triumphed over barbarism.

In a subsequent interview with a newspaper correspondent the Duce said Italy had no further colonial ambitions and was ready to bring about a definite understanding between the two nations.

It is understood that Italy will be the first to withdraw its troops from Abyssinia.
