League of Nations Must Continue Pledge to Britain and France ITALY AND RIGHTS IN ABYSSINIA

BRITAIN TO SET ABOUT TASK OF REORGANISATION

Future of Sanctions CONTINUANCE FUTILE AND DANGEROUS SAYS SIR A. CHAMBERLAIN

ADMITTED failure of the League of Nations to prevent the war and the need for the reorganisation of the structure were points in the important debate on foreign affairs in the House of Commons on Wednesday afternoon.

Replying to Labour criticisms of the Government's policy in regard to the Italo-Abyssinian war, Mr. Anthony Eden said the only immediately effective sanction would have been the closing of the Suez Canal against Italy, an action which inevitably would have led to a European war.

The British Government, he added, would engage at once with the Dominion Governments in consideration of the problem of reforming the League.

The debate was notable for a fierce attack by Mr. Churchill on the Prime Minister who, he said was not facing the reality of the situation.

Sir Austen Chamberlain advocated the abandonment of a policy of equal danger and futility.

IF YOU DON'T SEE THE NAME
GOODYEAR
 ON THE SIDEWALL, IT ISN'T THE
 WORLD'S FIRST-CHOICE TYRE

ALL-WEATHER

It may be imitated
 in **LOOKS**—but it
has never been equalled
IN QUALITY...

World-wide leadership and prestige of Goodyear Tyres has caused some to imitate their famed All-Weather tread. But the quality of Goodyear Tyres is far more than skin-deep.

It is deep-rooted in Goodyear's 38 years' experience in building more than 200,000,000 tyres—**MILLIONS MORE THAN ANY OTHER MANUFACTURER!**

It is sinewed by the scientific knowledge of the largest laboratories in the entire rubber industry—the great Goodyear research organization which has developed most of the major improvements in tyre history.

It is enriched by the tremendous economic and manufacturing resources of the world's largest rubber company which make it possible to build more value for the money into every tyre produced, regardless of selling price.

And it is proved by the fact that for 20 consecutive years it has been true: **"MORE PEOPLE, THE WORLD OVER, RIDE ON GOODYEAR TYRES THAN ON ANY OTHER MAKE!"**

If you want the utmost value for your money, make sure that the name "Goodyear" appears on the sidewall of every tyre you use.

THE COST OF BUTTER-FAT PRODUCTION

To the Agricultural Editor, "E.A. Standard."

Dear Sir, I have the honor to acknowledge the receipt of your issue of April 30, 1936, containing the article on the cost of butter-fat production. I am glad to see that you have taken an interest in this subject, and I am sure that your readers will be interested in the results of my investigation.

I have been engaged in a study of the cost of butter-fat production in Kenya for some time, and I have found that the cost is very high, and that it is increasing rapidly. This is due to a number of factors, including the high cost of labor, the high cost of feed, and the high cost of fuel.

I am sure that you will be interested in the results of my investigation, and I am sure that your readers will be interested in the results of my investigation.

Yours faithfully,

JAPANESE AUTOMOBILE INDUSTRY

RAPID STEPS IN LAST FEW YEARS

Large-scale Production Planned

DETAILS OF THE "DATSUN"

A great deal has been done in the last few years to develop the Japanese automobile industry. The Datsun was the first Japanese car to be produced in large quantities and the first to be exported to other countries. It was the result of a series of steps which were taken by the Japanese Government and industry to develop the automobile industry in Japan.

The Datsun is a four-door sedan with a 1,500 cc. engine and a top speed of 60 m.p.h. It is a very practical and economical car, and it is well adapted to the conditions of the Japanese market. It is also well adapted to the conditions of the foreign market, and it is being exported to many countries.

FATALITY IN LAND'S END TRIAL

First for Fifteen Years

For the first time since 1921 the Motor Cycling Club of Land's End, Cornwall, has been started by a fatal accident. John T. Law, of St. Ives, had been competing in a motor cycle race when he was killed shortly after the start. His motor cycle was a 1935 model, and it was found to be in good condition. The accident occurred on a public road, and it was a very serious one. The club has decided to suspend its activities for the time being.

AEROPLANE WITH CAR ENGINE

American Craft to Sell for \$400

Many attempts to produce the "popular" aviation type have failed, especially in the United States, where a number of projects with car motors have been abandoned. In Britain the motor cycle engine was used with some success in an airplane of the type known as the "Flying Officer" or "Flying Officer" type. This type of airplane is very simple and easy to fly, and it is very popular with the general public. It is being sold for \$400.

LONDON TO 10-M AIR RACE

First Event of its Kind to Be Held

The first aviation race between London and 10-M (10,000 miles) will be held on Wednesday, May 13. The race is being organized by the Royal Aero Club, and it is being held in honor of the late King George V. The race will start in London and will end in 10-M. It is a very challenging race, and it is expected to attract a large number of spectators.

This is why SUNLIGHT SOAP saves clothes

When washing clothes with cheap harsh soaps you have to rub hard, and this frays the fabric, thus wearing it away. When Sunlight Soap is used the "extra-soppy" suds help by drawing the dirt out of the fabric; there is no need for harmful rubbing, so the delicate threads are left undamaged. Your clothes last much longer when you use Sunlight Soap.

THE EMPEROR FLIES TO DJIBOUTI

Several Europeans Killed During Looting

EMPEROR'S REQUEST TO BRITAIN

The End of Organised Resistance

The Emperor has fled with his family to Djibouti. The Government has left for the West and the Italian outposts are within sight of Addis Ababa, which is in the hands of a mob who are shooting, burning and pillaging without restraint.

In Addis Ababa there is terror, in Geneva consternation. In Paris there is a feeling that France's "Go South" policy is untenable, and in Rome the flight of the Negus is regarded as a relatively unimportant event.

The news is regarded most gravely in London, where it is felt that the Emperor's departure marks the end of organised resistance.

In spite of landslides and thunderstorms the Italian march is pressing on to Addis Ababa while General Badoglio prepares for a triumphal entry.

Mountain passes and bad roads are the only opposition the Italians have between them and the capital, as soon as they are cleared a host of motor cars will be on the road on Friday to all able bodied men to join the advance.

On the contrary, a number of chieftains are reported to have submitted to the Italians.

May 8.

The Emperor of Abyssinia has asked that the British Government should send a warship to take him and his family from Djibouti, and it is believed two vessels are on the way from Aden in answer to the request.

Several Europeans were killed as a result of the widespread disorders in Addis Ababa which followed immediately on the departure of the Negus and continued throughout the week-end and the British Legation authorities issued some grimly worded notices.

The looting had diminished by yesterday morning but much of the population were reported to be roaming the city. One of the last directions given by the Emperor was that his palace was to be thrown open and that the public were to be allowed to take anything they liked from it. They did so.

London, May 8.

The British Minister in Addis Ababa has reported to London that the Emperor has left Addis Ababa for Djibouti, and that the British Minister, Sir George Gurnea, has just returned from Addis Ababa, where he had been specially invited by the Emperor to confer with him on the subject of the Emperor's flight.

BRITISH QUESTIONNAIRE TO GERMANY

PERTINENT QUERY ON THE SANCTITY OF TREATIES

Western Air Pact

HOPE THAT PLAN WOULD BE FOR LIMITATION OF STRENGTH

BRITAIN wishes to know quite definitely whether Germany now considers herself able to negotiate treaties of a binding character.

This is one of the first points made in the Questionnaire in terms of which was included in a White Paper published yesterday.

Another query is as to whether Germany now feels able to discuss and attempt to amend the existing territorial and political treaties in Europe, except to the extent that it might be demanded by free discussion and negotiation.

The British hope to obtain the full text of the proposed German answer to this question by the end of the month.

Conditions in statement as Germany's proposals for a system of security and her proposed limits to her armaments.

The Peace Proposals

It is pointed out that different parts of the German memoranda give conflicting evidence on this matter, and since it is a treaty that negotiations for this purpose would be more difficult than for those of a purely military nature.

The dispatch emphasizes that the Government is equally desirous of the importance of the British Government in the negotiations.

The Foreign Secretary explains that the present enquiries do not relate to temporary arrangements for the interim period, or the German proposals under any form, although in this regard it is known that the British Government has not yet decided on its final contribution towards the maintenance of confidence.

These are matters not dealt with now which will be reported at a later date. For instance, before the year of the League of Nations, the German Government will not make it desirable to give a definite definition of the phrase "maintenance of confidence" of the League of Nations, from which it follows that the Government is not prepared to give a definite definition of the phrase.

Air Pact

The dispatch then turns to the question of the relation of air to the question of the proposed Air Pact. UNDER ITALIAN RULE IN ADDS ARABA

Orderly Conditions Being Restored

POPULATION DEBARRED

Following are extracts from the Italian official White Paper broadcast from Rome on Thursday night—

ADDIS ABABA: As soon as the Italian troops had entered the town the firing ceased, tranquility was restored and a great return to normality started. The High Command arranged for the re-organization of the town police employing the local municipal forces with Italian elements and securing order with the "Arabinieri" and other Italian forces. The success of the operation has been found to have been complete.

Following the desire expressed by the Legation of France and American consular authorities are guaranteeing them. The situation had become so serious in the last 24 hours before the Italian entry that the Legation of France, where over 2,000 people had taken refuge, advised that a company of French Marine Infantry be sent to French Dera. After the arrival of the Italian Air Force, Legation has arranged that these troops be returned to their Dera as soon as they arrive at Addis Ababa.

The relations between the military authorities and the foreign consuls in Addis Ababa have been completely normal from the day the Italian troops entered the town. The Italian Government has announced in the context of the peace negotiations that it will not bring any change in the situation and would seriously consider the situation of Europe and of the League of Nations. He said moreover that it must be taken into account that no measure would make Mussolini depart from his policy which more than ever brought him the support of the whole mass of the Italian people. One of the aspects of Mussolini's policy is that in spite of all the attempts made by the League, Mussolini remains at Geneva expressing there by Italy a desire to continue in future cooperation with other Great European Powers. Who would advocate the continuation of sanctions should therefore take account of the price which would have to be paid.

While the debate in the House of Commons was going on, the British House of Commons voted against the Italian Government's proposal to the League of Nations. The Italian Government said: "At the present moment it is necessary to form a new Government of right and order and to ensure that the new Government is completely trustworthy. The old Italy and that which is contained in the Italian Constitution is a great victory. In any event the Italian Government will not be satisfied until this factor cannot be established."

TANGANYIKA PREPARES TO OPOSE TRANSFER REPRESENTATIVE BODY FORMED IN DAR ES SALAAM

Europeans, Asians and Natives PRIME MINISTER DECLINES TO AMPLIFY HIS PREVIOUS DECLARATION

Parliamentary steps are being taken in Tanganyika to organize public opinion in opposition to any suggestion that the Mandate should be transferred.

It is stated that the view of the British public, Europeans, Indians and Natives is that any such proposal would be a serious breach of faith and that the present uncertainty is having a bad effect on the development of the country.

The Prime Minister was asked about this attitude on Wednesday but declined to add anything to the statements he had already made.

It is the unanimous opinion of the territorial committee that any suggestion of transfer of the Mandate would be a serious breach of faith and of repeated pledges.

The present uncertain position is greatly retarding the economic development of the territory.

SIR E. GRIGG ON AIR DEFENCE

"STANDARD" COMMENTARY London, May 3.

Mr. Edward Grigg, M.P. for Altrincham, said in a speech yesterday...

"I do not believe that there is any defence against air attacks. It is not possible to prevent an aircraft from dropping bombs from the air. A great deal of work is being done on chemical and gas attacks, but that is a different matter."

Unhappily, the Government is not doing anything to help the farmer, and the result is that the farmer is being ruined by the Government's policy...

What would have happened if Germany had cornered wheat in 1914? It is not possible to prevent an aircraft from dropping bombs from the air.

I believe that the war matter is a very serious one, and that the Government is not doing anything to help the farmer, and the result is that the farmer is being ruined by the Government's policy.

Agriculture Neglect

There would be a degree of neglect of the land in 1914, he added, owing to the depletion of agriculture between 1902 and 1910.

Some of the new factors which had developed since 1914 were that the population had increased, the mechanization had been greatly perfected, and the machine was a far more terrible weapon of offence.

There were three principal methods which were essential for the country to have large stocks in hand, or very much to increase home production—wheat, barley, and oats.

In order to make the country independent of imported foodstuffs, it was necessary to have a large stock of wheat, barley, and oats in hand, or very much to increase home production.

Mr. Herbert contended that only the Government could do anything to help the farmer, and the result is that the farmer is being ruined by the Government's policy.

ROME DOMINATES LEAGUE COUNCIL DEBATE

LAST NIGHT'S IMPORTANT SESSION

French Government Change

MAY CAUSE ADJOURNMENT, WITH SANCTIONS STILL IN OPERATION

ALTHOUGH there are nineteen items on the Agenda, including the Iraq dispute, the settlement of the Assyrians, and the Locarno question, the session of the League Council which opened yesterday evening, under the presidency of the British Foreign Secretary, Mr. Anthony Eden, was expected to be dominated by the Italo-Abyssinian conflict, which entered upon a new phase during the week-end, by the declaration of Signor Mussolini in Rome of the annexation of Abyssinia, and the assumption of the title of 'Emperor of Abyssinia' by the King of Italy.

Messages from Geneva and Paris suggest that on the ground of the imminent change of Government in France, the League Council will adjourn the Abyssinian decision until the next meeting of the Council on June 15, meanwhile leaving the present sanctions against Italy in operation.

(Rover and British Official Wireless Services.)

Under Mr. Hill's Official 'Daily Telegraph' states that the League Council is to be dissolved at a special meeting on Friday, May 15, and that the French Government will be asked to resign its office at the same time.
