READY TO GIVE ALL ASSURANCES

DISMISSES BRITAIN'S ADVICE

Asked by his correspondents if Britain asked him to give a solemn guarantee, Benito Mussolini said he would not do so. He said that the Egyptian Government in Cairo in return for a neutral, if not formal, recognition of Italian Abyssinia, would be ready to give such an assurance. BRITISH SUBJECT HAS A 'FRUITLESS EXPERIENCE'

Arrested by Italians

MISTAKE SAID TO BE DUE TO CONFUSION WITH AUSTRIAN

Believing that he was an Austrian subject who had helped the Abyssinian forces in Italian East Africa, the British subject was arrested by a number of Italian Amphibious Unit soldiers.

He was kept for three days in a hole used as an latrine and being his wife to be shot, escaped, but was captured.

It was only as a result of strong representations to the British Council that he was finally released.

**Alleged Unsatisfactory Position**

Captain the Hon. H. E. Robinson in Legislative Council on Friday said:

1. Has the situation of Government been done, as the committee has reported with regard to accounts of administrators of deceased estates?

2. Is it a fact that while accounts have to be filed in Court for previous years for the passing of wills, the same is not done in the case of intestacies?

3. Has the Government been doing its best to ensure a satisfactory situation in the work of our position for the accounts to be passed and the money to be distributed?

The Attorney General replied:

1. The attention of Government was drawn to the subject, and the passing of Administrators' Accounts on the 15th of this month.

2. No provision exists for the passing of accounts except in the case of estates administered by the Public Trustee.

3. The latter stated on May 15, 1935, that the action taken by certain insurance companies was not satisfactory.

Aftering out of the reply Captain Robinson asked for an assurance that Government would get into the question of rectifying the matter by making provision for the passing of accounts at an early date.

The Attorney General replied that he would give an assurance that the matter would be gone into and he thought it would be possible to rectify the Ordinance as suggested.

**THE LARGEST-SELLING TYRE ON EARTH**

To TELL which tyre will give you the most for your money, you need remember only one fact: the largest-selling tyre in the world is the "G-Y" All-Weather by Goodyear.

This overwhelming popularity springs from the world's experience with all makes of tyres. Experience that proves "G-Y's" mighty construction grip is safer—that its broader, flatter, heavier tread gives long wear-mileage, that its exclusive Superwear Cord construction affords maximum burst protection in every 83!

That is why it has been true for 26 consecutive years that "more people, the world over, ride on Goodyear Tyres than on any other make." What better proof of value could you ask in buying tyres for your motor car?

Farmers' Assistance Bill

A REPLY TO INDIAN CRITICISMS

For the Editor, "E.A. Standard," Sir,—There is an "old rattle" which is the form for the contract with the Indian Government...

The farming industry, just as all other industries, has a right to be considered in the whole of the country...

On the general subject of the Bill, the only question to be considered is whether it is a fair and equitable one...

Why make such a reply? It is not the duty of the Government to make a reply to the criticisms of its own Bill...

Returning to the general subject, the Bill is a fair and equitable one, and it is the duty of the Government to support it...

We are, or were 30 years ago, a young and growing country, and we are now a young and growing nation...

The frequency of these attacks on the Government's policy of development is a matter of regret...

It is a pity that the Government's policy of development is being attacked by those who are supposed to be its supporters...

[Continued from page 7]

London, May 15.

I take the following leader from the "Manchester Guardian" of May 15:

"It will be strange in the present state of affairs, and in the face of the fact that the world dispersion of the white man in Kenya has suffered the most serious criticism, that the Government should have taken any steps to relieve the tension of the white man in Kenya. The fact that the white man in Kenya has not been able to secure the same rights as the native is a matter of which the Government should be ashamed to be proud."

VALUE OF THE ROYAL

had to be learnt regarding factors that influenced the value of the land. Mr. Hill said that the value of the land had come in for criticism in the past, and that it was not until the value of the land had been determined by the Royal Agricultural Society that the value of the land had been established. The value of the land had been established by the Royal Agricultural Society, and it was not until the value of the land had been established by the Royal Agricultural Society that the value of the land had been established.

This re-organisation plan would mean not only a saving of money but, it is hoped, increased efficiency by making possible use of administrative staff.

Important announcements were that a Development Commission is about to be appointed to deal with the development of agriculture and other important aspects of the economy.

Future of the Mandates

NEED NOT VIGOROUSLY STATE PUBLIC OPINION

To the Editor, "E.A. Standard." The future of the British Mandated territories is the cause of much concern to many people in Great Britain who fear that the cessation of those territories as a consequence may be effected to the detriment of the people of the Empire. This we are determined to resist by all the means in our power.

The British Government have a right to be frankly informed of the state of opinion throughout the Empire upon this vital matter and on every citizen of the Empire rests the duty of displaying all doubt as to the vehement opposition which will be crossed by any policy of surrender.

To the Editor, "E.A. Standard." It is probably more than fifty years ago that the British High Commissioner of the State-Administered territories... The breakdown of the attempt to reconstitute some form of international law and order after the attack of 1914, was tragedy. The impotence of the League is perhaps tragic also.

The function of law, both national and international, is to guarantee to the individual of the State. But when it is made to legislate, because of the failure of the law of the State, it is made to legislate in a way which is not in its own nature, but in the nature of a last resort.

Mr. Eden says that Europe had the only decent army in Europe. What he took over the army of Italy he found forty thousand men, but he found the army of Italy he found forty thousand men, but he found the army of Italy he found forty thousand men.

To attempt to make us believe that the Mandates were largely responsible for the French entrance at Geneva. There were only two occasions when Mandates were responsible for getting the French army out of a hole when Napoleon was present. At Longing, May 27. The second of the Derby, (dropped by ever-half million people the year of the Derby, the classic of the year.) The morning of the Derby, however, it was on the chilly side, but there was a threat of rain. But fortunately this held off.

There were the usual array of runners sent the various horses, particularly with regard to the bookmakers' odds. There were all runners, with one exception in that the late-faded candidate were all sent well.

Although the field was reduced by four entrants the question of picking the winner was not made any more difficult by presenting a field which included the best way was probably to stick a pin in the neck and back the method was just certainly as good as any other. There was nothing extraordinary in the race, and there has been very top-heavy.

Mr. Frank Butcher, who had four of his charges in the race, expressed the view that would going was hard to see, but the chances of "Taj Akbar" would be all in favour of "Nahle King".

Agas Khan's Entry. The Aga Khan, his trainer, and favoured the chances of "Taj Akbar".

The American owned "Howell" was a very early favourite, to land the race for his owner, Mr. Woodbridge, in which it would be the first of the American owner since 1918.

An Innovation. An innovation was marked this year by the fact that the first Derby where the bookmakers' odds were not published at 11 o'clock.

At the time of the race, the odds were as follows: "Taj Akbar" 1/2, "Howell" 1/2, "Mahmoud" 1/2, "Nahle King" 1/2, "Taj Akbar" 1/2, "Howell" 1/2, "Mahmoud" 1/2, "Nahle King" 1/2.

MISTAKE SAID TO BE DUE TO CONFUSION WITH AUSTRIAN

Believing that he was an American subject who had helped the Abyssinians fight in Ogaden, Italian authorities arrested a member of the British Ambulance Unit in Ethiopia.

He was kept for three days in a hole used as an incinerator and fearing he was to be shot, escaped, but was recaptured.

It was only as a result of strong representations by the British Consul that he was finally released.

SHOOTING AFFAIRS ALL OVER COUNTRY

Situation Now Quieter

AFTER TROUBLE IN JAFFA AND TEL-AVIV

FROM all parts of Palestine come reports of serious disturbances and shooting engagements between Arabs and police. Shots were exchanged between police and Arabs firing from barricades and roof-tops at Nablus, about 40 miles north of Jerusalem and 24 Arabs were killed.

A party of ten police narrowly escaped annihilation in a village of Galilee, when attacked by a band of 220 Arabs armed with rifles.

At Nazareth a British police officer was seriously wounded by a band of enraged Arab women, one of whom was killed when the police intended to fire over their heads.

Mr. Malcolm Macdonald made a statement in the House of Commons on the position which he described as "a state of unrest accompanied by acts of sporadic violence," but in an official communique to the Colonial Office yesterday the High Commissioner said that the situation was quieter over the whole of the country.

BRITAIN TO BE READY IN CASE OF WAR

COMPREHENSIVE SCHEME FOR ARMAMENTS

900 New Contracts

FIRMS TO BUILD NEW PREMISES AT GOVERNMENT EXPENSE

Britain is planning her armaments programme in such a way as to be ready, if need arise, to go to war at 24 hours notice.

This revolution was made by the newly appointed Minister of Defense in an important speech in the House of Commons on Thursday afternoon.

Mr. Thomas stated that the Government was now ready to allocate contracts to 900 recognized firms and that a detailed survey of the industrial resources of the country had been made.

Major firms would be asked to build additional accommodations at Government expense for the construction of armaments.

A committee has been appointed to deal with plans for the supply of food to the civilian population in war time.

Governor's Action

FOLLOWING A PERSONAL TOUR OF THE WHOLE COUNTRY

In an important speech at the opening of Uganda Legislative Council last week, His Excellency the Governor Mr. P. E. Mitchell, announced Government's intention to simplify the administrative machinery of the Protectorate...

The reorganisation plan would mean not only a saving of money but, he hopes, increased efficiency by making the possible use of administrative staff.

The Governor said that the growth of office work and the departure of officers from conditions in the field because of the change of paper work were disrupting seriously the development of administration in Africa.

Members are to be called for the construction of a new committee for Kapsaga which is estimated to cost about £10,000.

Another important announcement was that a Development Committee is to be set up which will have as its object a programme of a productive nature requiring capital expenditure.
