P

WHAT do you get for your MONEY? It is the custom in Nairobi to order food by the "load".

That depends on who you buy. There is no standard "load" for food. We sell our wood fuel very cheaply.

Can we be fairer than that? Yes, we charge 10/- per ton for standard size. 10s. 11/- per ton for 12" length.

ORDER

Your fuel from us and you will know what you are paying for. Our clients are one of their supplies, the whole year round.

The Express Transport Co.

FALL OF SANTANDER

MURDER OF REFUGEES TRYING TO LEAVE THE TOWN

Water-front Horrors

Several Franco's troops have entered Santander and, for every practical purpose, the city has fallen.

Groups of horde are reported by eye-witnesses who saw boats full of refugees being butchered by Insurgents...

In the town itself terrible conditions prevailed—no light, no water, no civil authority and every street a horror of anarchy.

SERIOUS CAR CRASH IN NAIROBI

Several people had remarkable escapes from serious injury in a crash involving a motor car at Nairobi yesterday afternoon.

The car was driven by the Indian general manager, but the Indian driver was not on duty at the time.

Mr. Shingle's car was not very fast, but the Indian driver was not on duty at the time.

MR. PIROW'S DEPARTURE

[SPECIAL CORRESPONDENT.]

At yesterday evening's annual general meeting of the E. A. Standard, Mr. Ford was re-elected as Chairman, and Mr. D. Newcomb as secretary.

The Minister for Defence for the Union of South Africa, Mr. Oswald Pirow, is to leave for London on Monday.

Late Professor Hans Reck

[LONDON, AUG. 20.]

Naturally, Reck and his scientific colleagues were recalled from their scientific mission to make his funeral arrangements.

Road and Weather Report

[LONDON, AUG. 20.]

Following is the latest road and weather report received from the head office, Nairobi of the Royal East African Automobile Association.

Rain has again been general in the Coast, Kenya and Trans-Nairobi districts and in some parts of the interior.

In Kenya, the wettest place this week was Moy with 8 1/2 inches, followed by Kisumu with 7 1/2 inches.

Prof. Hans Reck, a German geologist and paleontologist, died in London on August 19.

CORRESPONDENCE

A WILD FORD APPENING

The Editor does not accept responsibility for the views expressed by his correspondents in these columns...

AFRICAN EDUCATION

A Minute Opinion

To the Editor, "E. A. Standard,"

The present system in an Elementary Logic Class will allow us to get on with a more efficient system...

This information I definitely convey to your correspondents from the Chair...

The problem lay to the credit was presented by Queen Mary to Mr. Valder Goss, Assistant Managing Director of Law & Goss Ltd.

The actual policy of the Kenya Education Department...

"Since contact with civilisation and even education is essential to the survival of the individual..."

"The greatest importance, must therefore, be attached to Religious Education, and to the teaching of the Bible in the schools..."

"For your information, Sir, and for those who may sympathise with your proposals, as expressed in the Leading Article referred to..."

"Love the fairer of Wisdom, say that her rule over people..."

"A CHRISTIAN,"

Nairobi, August 21, 1937.

[The "East African Standard" has not suggested that the African should not be given "Religious teaching and moral instruction..."

"These are actually in charge of the Education Department, presumably those who have been the victims of the Education Department..."

"I believe it is romantic. It's an H.T. battery. I'm trying a Drydex this time, every-one's telling me they last so much longer..."

"Don't be romantic. It's an H.T. battery. I'm trying a Drydex this time, every-one's telling me they last so much longer..."

DO PORCUPINES ABOUT THEIR QUIZZES?

To the Editor, "E. A. Standard,"

The pull of a porcupine is too added in a very good book on the subject of porcupines...

"Personally I am sure, that we could easily rule out the "shameful" theory of porcupines..."

Yours etc.,

J. C. BOSCH.

Nairobi, August 21, 1937.

MR. FROW'S VIST

To the Editor, "E. A. Standard,"

"I am sure that the Government of Kenya will be glad to receive your views on the subject of the proposed Education Bill..."

Yours etc.,

J. C. BOSCH.

Nairobi, August 21, 1937.

DATEY CLEANING ORDINANCE

To the Editor, "E. A. Standard,"

"In your issue of the 24th July, Mr. Baker's proposal for a new law which would be known as the 'Datey Cleaning Ordinance'..."

"Your correspondent expresses grave concern on behalf of the few farmers who may not possess cattle dips..."

"In the latter event, it seems of little use remaining a cattle dip user if unprepared to protect their holdings still less so, when legislation may render the property of a whole district..."

"Fifteen to twenty cows or bull heads will pay for a dip these days and thus provide protection for the remainder and their progeny..."

"Mr. Baker queries the legal position of the farmer who may be taxed to borrow what he can 'muster' money..."

"With reference to the farmer or smallholder who owns but a few beasts for farm work or house hold needs, I feel sure that access to a dipping dip can be provided..."

"However, whichever of either I think that Mr. Baker's proposal is an ill-considered one, there is an official motive behind this but one thing is certain..."

"It might be noted that the oldest established outbreak of E.C.F. at Thomson's Falls coincides with the oldest established concentration of Forest grazing in the Forest Reserve..."

Yours etc.,

C. LUXFORD.

Nairobi, August 21, 1937.

OBITUARY CELEBRATIONS AT NAIROBI

To the Editor, "E. A. Standard,"

"I think you will agree that credit is to be given to the participating residents of Kisumu and District for their generous response to the appeal for funds for the Coronation Celebrations..."

"At a public meeting held at Kisumu on August 13, it was decided to organize the purchase of the Jubilee and the Coronation Funds, and to devote the resulting sum to the erection of a Pavilion..."

Yours etc.,

THOMAS ANDERSON, Secretary, Nyanza Province Coronation Committee.

Kisumu, August 23, 1937.

STATEMENT OF ACCOUNT RECEIPTS

Table with columns: Receipts from Public, Motor Race, Air Rally, Advertisements, Dance on the 18th May, Method of Donors from the K.U.R. and H., Total Disbursements, Surplus Receipts over, Expenditure.

Yours etc.,

THOMAS ANDERSON, Secretary, Nyanza Province Coronation Committee.

Kisumu, August 23, 1937.

DALEY CLEANING ORDINANCE

To the Editor, "E. A. Standard,"

"I am sure that the Government of Kenya will be glad to receive your views on the subject of the proposed Education Bill..."

Yours etc.,

J. C. BOSCH.

Nairobi, August 21, 1937.

BRITISH-ISRAEL NOTES

The Trust of the Bible III.

It has often been asserted that all scholarship to translate the Bible is God's sacred trust..."

In 1925 the 617 members of the British Association for the Advancement of Science, drew up an original resolution..."

"We conceive that it is impossible for the West of England, as written in the Book of Nature, Holy Scripture, to be considered another, however much they may appear to differ..."

"We are not forgetful that playing the Bible in the open air, is only in a condition of progress, and that at present our finite resources enable us only to see an through a glass darkly, and we are confident that a time will come when the two worlds will be seen to agree in every particular..."

Yours etc.,

ADVF.

RACE FOR THE DICKINSON CUP

Gray Wins After Tie with Letou

[News correspondent.]

Naivasha, Aug. 21.—It would be impossible to describe the race for the Dickinson Cup held on August 15 and 20 in detail, as a summary of incidents and incidents will have to suffice. The course over which the races were run was intricate, tricky and required a considerable amount of skill.

Five races were supposed to have been run on Sunday, August 15, but due to unseasonable weather, only four races were sailed.

August 15 was a beautiful day with plenty of sun, and a S.W. breeze gradually increased throughout the day, in fact the conditions were absolutely ideal. All "B" class boats were entered in the first race but had not sailed before it was rainfully won by Letou's ten-foot dinghy, and Mr. Dickinson's dinghy, also of the ten-foot class. The remainder of the boats were in two races—Gray (A. B. Stead) (Marine Club, Lake) and Mr. H. H. Brannwell (Letou, the Club house, national, G. S. S. S.) (Pungu (J. J. J.).

Tie for the Cup

Gray, which had been regarded over all, was sailing brilliantly in every race and came in first over time but on the third race, when Letou's boat had a bad leak and came in third.

Mr. Steadman, who was sailing in the second race, was also in the lead but was forced to retire in the fourth race and was beaten in the fifth race by Letou's boat.

Winning skipper seemed to go down badly and did not sail again, coming in last in the fourth race, and was beaten in the fifth race by Letou's boat.

The most surprising incident of the race was that the boat which was supposed to be in the lead in the fourth race was disqualified.

The most surprising incident of the race was that the boat which was supposed to be in the lead in the fourth race was disqualified.

Don't let "TIRED SKIN" age your face with dry wrinkles

A woman's youthful and lovely complexion is her asset. "Tired Skin" is the cause—the effect of heat, hot atmosphere and the wind-blown grains of the season. It is not normal skin but one that is dry, flaking, itchy, and unattractive. Castle's Beauty Cream is the answer. It is what you need in this season to keep your complexion appealingly fresh.

OUR LONDON CORRESPONDENT writes about The Week's Sport LONDON, July 27th.

Real Estate wins the International Plate—George Duckworth retiring—Hammond's centuries—Trouble for the Amateur Boxing Association Council—Record drive from the tee—German Car successes—New world record for the half mile—Competitors for the King's Cup.

Racing The Kempton Park Second Bumper Meeting was rather poor attended, and the going was bad. Mr. C. V. Harper, owner of the new track, is the owner for this first time.

Parson, Matthews and Compton taking the place of F. R. Brown (Surry) Walker (Somerset) and South (Middlesex) Compton, who will be taking part in his first Test, has been described by Sir William Warner, chairman of the Selection Committee as 'the best young batsman who has come out since Walter Hammond was a boy.'

(Moroccoe Bent) is 5 hours 7 min 52.9 sec. average speed 22.23 m.p.h. 2. Rudolf Caracciola (Mercedes-Benz) is 8 hours 8 min 49.2 sec.

E Robinson, the Californian middle distance runner who competed at the White City London, on August Bank Holiday, is announced from New York to have been entitled with two world's records by the American Athletic Union.

On his final day at Newmarket over five furlongs of the July Grand Duke Derby several certain to beat Real Estate in the International Plate. Neither was favourite, this position in the contest was bought out of a selling price of £20,000 for the horse. Real Estate had not won with a straight run over the course earlier in the season. It was rumored that Real Estate had not won with a straight run over the course earlier in the season. It was rumored that Real Estate had not won with a straight run over the course earlier in the season.

Billiards players of the modern school. The American Boxers' Association Council, have circulated honorary resolutions of London clubs and press officials commending the British amateur boxing movement for its organization and for its success in bringing state visits and exhibitions to the sport. The club has been given a special mention in the 'English Amateur Boxer' for its organization and for its success in bringing state visits and exhibitions to the sport.

Boxing War is said to be 'on' in the amateur boxing world. The club consisting of 19 well known club members of the British Amateur Boxing Association Council, have circulated honorary resolutions of London clubs and press officials commending the British amateur boxing movement for its organization and for its success in bringing state visits and exhibitions to the sport.

Sydney Wooderson, the A.A.A. champion, was observed by British people at Brook Park (Sussex) for three-quarters of a mile. His time was just 0.6 which would be a new world record. His time was just 0.6 which would be a new world record. His time was just 0.6 which would be a new world record.

Have You Ever Heard That—When Hammond finished first at Alexandra Park with Singapore second there was no doubt that it was won on his merits, and although he lost the race afterwards in his second heat it was not so surprising a matter as it first seemed. Those who thought that Hammond had not won with a straight run over the course earlier in the season. It was rumored that Hammond had not won with a straight run over the course earlier in the season.

MOTORING SECTION

Revel of the "Big Four"

Many overseas motorists have made manifest from time to time their unqualified regard as to the pining of the big four-cylinder car, as exemplified in Kenya particularly by the older type Overland, Hispanoises, Dodges, Fords, Chalmers and others. The advantages claimed for the multi-cylinder engine (that it gives smoother running, greater torque and less vibration) mean, say the motorists, nothing to them. This points to the fact that at normal running speeds on Colonial road conditions, the slight additional refinement of the multi-cylinder engine means very much less than the solid trunk of claim and counter-claim, now there seems to be no doubt at all that the modern car is definitely better than those of even a few years ago. It is faster, more comfortable, easier to control and certainly smoother running. That, it is argued, will not take advantage of the many real advances in chassis suspension, transmission, steering and brake design that have been made incorporate with them a good sized, four-cylinder engine (more refined, smoother and more powerful than the similar units of five to ten years ago) and get as a treat the ideal Colonial car. In view of the demands from the American public, it is highly improbable that the United States manufacturer will return to four-cylinder units, in preference to the most individual six, eight and in some cases twelve. One very sound four-cylinder job is still on the market and details of a recent motor run of the type appear elsewhere on this page. But look for the Colonial driver also long for a good, large four-cylinder car likely to be forthcoming from a unexcelled, quarter-century British firm. Of the 1934 progress of the motor, Africa and other firms are expected to do the same. The Riley four-cylinder, in a class of 2,400 c.c. giving 80 m.p.h. maximum speed, has a very good steering rack with a self-aligning wheel. The Colonial motorist, especially in the out-districts, does not want 80 m.p.h. and prefers to stick to the roads available, in any event. But he does want, and has frequently used so, a car that has the power necessary to attain such speeds.

NAVY'S FIRST MONOPLANE

Above is a picture of the new, biplane, "Hercules" five-engine biplane on a trial flight. It is the first monoplane to be supplied to the Fleet Air Arm, and, as will be seen, has very modern fittings. Made by one of the four oldest British aircraft builders—the Blackburn Co. of Droyth, Yorkshire, the new monoplane has wings which can be folded for ease of loading on aircraft carriers, and also has an unobstructible main fuselage; composed of several watertight compartments, that makes it possible for the crew to evacuate after an aerial landing in the sea. The engine is a Bristol "Mercury" and the speed somewhat "hot-shank," but believed to exceed 150 m.p.h.

fuel economy and developing its maximum brake horse power at lower revolutions, enabling the vehicle to go through mud and morass in a manner which, it is stated, the modern six and eight cannot do. If the type does become popular at Home, it seems to offer an unrivalled opportunity for the British manufacturer to get a really large share of the Colonial market. From 1912 to 1914 the British four-cylinder car of nominal 10-20 h.p. and three litre capacity, was the best of its type in the world. Makes such as Talbot, Standard, Sunbeam, Rover and others made a great name for themselves in the Colonies and there is no reason to think that if the British manufacturer makes a co-operative effort to supply a 2½ to 3 litre four-cylinder engine, of construction with great pulling power, comfort, able suspension, steering and brakes up to the best British standards and, above all, plenty of body space, head and leg room, they would find a really market and again get their share of the available business. Simplicity should be the keynote of such a car, allied as well to high quality of material, soundness of construction, an adequate service and spare parts organization and, last but not least, attention to the wants of the buyer. Not should there be, as is often the case, a high-handed contempt for the requirements of the able rigs and tarries, but without fully motorizing life is dwelt in the bushy place, the bog and the wilderness of the world, where ability to pull and carry really great attribute than the provision of a fifteen, peak, eight day tank on the dashboard.

USED CAR TEST No. 2

THE 1936 V-8 SALOON

This is the second of the series of road tests of used cars that we are publishing for the guidance of the buying public.

The 1936 Ford V-8 tested had nearly 14,000 miles to its credit, but was in first-class condition. Its trimness and acceleration were hardly distinguished from new and body rattles or squeaks were entirely non-existent. Starting was easy and the engine idled smoothly and moderately slowly. A certain amount of noise was apparent, chiefly very slight, at speeds near the maximum, but in general operation was quiet.

Good Steering and Abundant Braking was a certain necessary amount of backlash, but no indications. Springing was good, bumps and jolts being taken at "sixty" without undue bounce and cornering without shimmying. The shock absorbers were well adjusted and, in fact, the 30-m.p.h. speed test, at 60-55 m.p.h., was found to be fairly powerful and well adjusted for emergency use up. They could have done with further adjustment.

General condition was good. The paintwork was for a few scratches, (probably caused by brushing) on the outer part of the front and rear wings, was practically perfect. The radiator had had little damage and was very slightly scratched or dented behind and three principally in the front compartment. The blind windows and floor looks all functional, but the roof light was inclined to flicker and only a change of the bulb-stem trunk was broken.

Instruments all Perfect

Instruments, including all small gauges, were working as well as the clock, horn, wipers, control cigarette lighter, horn, lights, etc. It has been noted that only natives were evident. One very persistent rattle and, to the writer's surprise, sensitive ear, an annoying one, was traced to the front brake rods and nut and cotter pin.

The front rubber foot rest, and rear axle carpet were both in good condition. The two front tyres were found to be certain amount of tread showing; the spare was also good. The rear side one was good and the rear axle and the side were smooth, and the front axle was smooth.

The car was pleasantly free from noise when driven at 30 m.p.h. They were intended to, and the price was very low. Only £125 is offered in good value for money.

A Veteran of the Air

Great Record of the Handley Page

SEVEN MILLION MILES

The Short Empire flying boats have set new standards of speed and luxury in long-distance air travel. That British-designed planes in the van of commercial aviation five or more years ago, however, is demonstrated by the record of the Handley-Page, Type 42, biplane, the original large-scale air liner, which carried more than half a million passengers greater than railway or motor coach.

The air liner "Hercules" landed at Croydon recently having completed one million miles of flying in regular service since she was first commissioned in 1921. No other aeroplane has flown so far, and few surface vehicles, except some steamships and locomotives, can boast a similar achievement.

The "Hercules" has flown always on the European routes—between London and Paris, Brussels, Cologne and Zurich. She has 10,200 hours on her log book and has carried up approximately 80,000 passengers. She is still in perfect condition and, if needed, for many more years of active service. 300,000 Passengers. Seven of these aeroplanes, which have established new

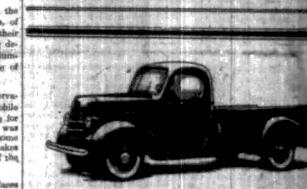

One of the world's greatest transport systems

THE HONOURABLE EARL OF BIRMINGHAM AIRWAYS LIMITED
"BIRMINGHAM" A WELL-KNOWN AIRCRAFT MANUFACTURER

"Since its organization twelve years ago, British Imperial Airways... has been one of the world's greatest air transport systems... It was one of the first air lines in the world to show a profit... Its flying and mechanical staffs have been consistently excellent... The Air Ministry had decided that the Empire needed a distinguished air transport system... This Imperial Airways' re-equipped programme had not only been started but pushed forward with the utmost dispatch... Back of all this essential energy lies a new British air transport policy that covers transport experts of other countries a lot more concern than the explosion of the 'slow-old-Imperial' tradition... All first-class mail addressed from one part of the British Empire to the other will be carried without delay... What such a British policy means to the rest of the world's air lines remains to be seen, but most observers expect widespread repercussions... In any case the sleeping lion now aroused is showing no lack of speed in getting under way."

Imperial Airways

Meritorious Record of Willys Sedan

INTERNATIONAL HARVESTER began its work as an automotive pioneer in 1899. Even then, for nearly seventy years, its experience had been concerned with heavy-duty machine manufacture—and with Service. It has already contributed much to the progress of the world when the Internal-combustion engine was born.

To-day, International ranks first among all full-line manufacturers, proof of universal acceptance.

International's position in the truck market of the world is the fruit of constant effort to do more difficult things well. The product is all-truck from the gross up. On this fact, and on the beauty of the product, its sterling reputation, and unsurpassed service, rest our case with any man who seeks low-cost truck transportation.

ROOSEVELT ROAD RACE

Continental motor showed the American "crack" team of the Roosevelt Cup Race won Long Island. As was the case last year, European cars took most of the prizes. They were first to start, inclusive this year. The race was won by the European champion driver, who consistently has visited Kenya and South Africa, and Richard Seaman was second. They drove Auto-Union and Mercedes racers respectively. Ray Mays (an American) driving an Alfa Romeo, was third, Ernie von Deltus (Auto-Union) fourth and Fania (Alfa Romeo) fifth.

Roosemeyer touched 158 m.p.h. on some of the straight and the event surprised the Americans used as they are to their and superlatives. The event took place only a week or two before Seaman and his "crack" in "Die German Grand Prix, with excellent fuel results to the latter. Seaman was only beaten by Roosevelt by 21 seconds in 500 miles. The race was won at an average of 20.2 m.p.h.

DEATH OF VON DELTUS

The accident in which the British ace, Richard Seaman, a member of the German Grand Prix team, was injured during the German Grand Prix at the Nurburgring, was reported to have been fatal. It is understood that he is progressing well.

Ernie von Deltus, the Auto-Union second string, who was involved in the same accident, however, is later reported to have recovered. The information was learned too late for inclusion last week.

Ernie von Deltus, who won the German Grand Prix at the Nurburgring last January, was a regular member of the Auto-Union team and his loss will be a considerable one to German racing.

NAIROBI GYMKHANA RACE MEETING

Weights for Saturday's Feature

Below are the weights for the grand gala meeting to be held on Saturday on the Nairobi race course...

There will be the usual time-weighting following the races. This will take place at the Queens Hotel...

Here are the weights:

- 2.15 p.m. - PONY COURSE: 400 YARDS: 12 lb. 6 oz. ... 100 YARDS: 12 lb. 6 oz. ...

Here is the proposed itinerary which has been arranged for the visitors...

- Jan. 11-Depart from Lourenco Marques ... Jan. 20-Match at Johannesburg ...

SOUTH AFRICAN LADIES AT ZANZIBAR

South Africa's ladies' tennis team arrived in Zanzibar on Monday afternoon...

The team, which consists of Mrs. Brown and Miss Kitchin...

They seem very disappointed at the situation, but will continue to play...

SOUTH AFRICA v. NEW ZEALAND

All Blacks All Round Superiority

Although the Springboks started favorably for the first Rugby test match...

All Blacks won the test before a crowd of 90,000 and were expected to have a moderate home. A light drizzle began to fall as the match started...

After an exciting match it was found that the All Blacks won a second test before a crowd of 70,000...

The crowd irritates. Heavily penalized against the All Blacks during the second test...

Miss Stammers Outstayed Miss Summers, while Mrs. Patten was beaten by Mrs. Wynn...

The Tennis

The following are the results of the tennis matches...

A steady drizzle now commenced to fall, the rain blowing in from the sea...

White's Dropped Out

Springboks played their eighth match of their tour in Zanzibar today...

FIRST AID IN GAS ATTACKS

Treatment That Can Be Given (Continued.) The first thing to do in a gas attack is to get out of the gas as quickly as possible...

The classification of the poisonous gases under four headings: (1) irritant gases; (2) long irritant gas; (3) long irritant gas; (4) blister gas.

The signs and symptoms of tear gas are the action upon the eyes, nose, mouth, and throat...

The chief characteristics of blister gases are that they are very persistent and powerful; penetrating; and they are very difficult to remove...

When the patient is in a liquid of oil or oil emulsion, it is essential to remove the patient to fresh uncontaminated air...

Now Irritant Gas The symptoms of a non-irritant gas are a sharp burning pain of the nose, forehead, throat, and eyes...

The treatment for this poisoning is to get the patient to fresh uncontaminated air as quickly as possible...

The symptoms of Blister Gas: Blistering with burning pain, followed by a numbness and tingling...

Lang Irritant Gas This gas is a really dangerous gas, producing severe conjunctivitis, and often creating permanent injury...

Spanes of the Throat, producing choking, coughing, and difficulty in breathing...

Time is an important factor in the treatment of these casualties...

Complete rest and warm blankets are essential for the patient...

Why the best way to get relief is to take Genasprin...

Genasprin is a powerful analgesic and antipyretic...

It is a powerful analgesic and antipyretic...

It is a powerful analgesic and antipyretic...

It is a powerful analgesic and antipyretic...

It is a powerful analgesic and antipyretic...

ILLIOT GOLD BUYING POWERS OF DISTRICT COUNCIL

Debated by Nairobi District Council (Continued.) Considerable discussion was aroused at the recent meeting of the Nairobi District Council...

An interesting case, believed to be the first relating to Elliot gold dealing to come before the Council...

The case was one in which an Indian, Pran Singh of Kalampong, was charged at Kalampong with purchasing or receiving on May 30 a quantity of gold...

The chief characteristics of blister gases are that they are very persistent and powerful...

DISABILITIES OF LOST LAMU

"Neglected Since Severe was Abolished"

["STANDARD" CORRESPONDENT.]

Limuru, August 24. Lost Lamus were again the subject of discussion at the last meeting of the Lamus Chamber of Commerce, when the importance of telegraphic and postal routes connections with the town was sought in a resolution proposed by Mr. S. J. Johnson. The resolution also proposed that the Committee of the Chamber should seek Post Office action to extend the hours of acceptance of revenue telegrams to enable telegrams to be received and to pass through the office of telegraphic connections with Cyprus.

The committee's views of the reform wanted varied little from the President, Mr. H. Meyer, but Mr. Johnson asked the Chamber to consider the reasons against the proposal and the contribution that the Post Office was able to make towards general revenue and the reputation of the Post Office particularly controlled by Members.

Lamur, an excellent, had been neglected ever since the abolition of slavery.

The resolution will be considered by the Committee of the Chamber.

PASSENGER LIST

Salings by the M.V. "Isipingo"

THE COUNTY CRICKET CHAMPIONSHIP

AN EXCITING FINISH PROMISED

Between Yorkshire and Middlesex

["STANDARD" CORRESPONDENT.]

Yorkshire are in a strong position in their match with Essex at Taunton, where the southern county had to follow on. Middlesex, who are present leaders, are not in quite such a comfortable position as Yorkshire. If Middlesex only get a win on the first evening, and Yorkshire a win on the next, it would put the northern county on top of the table. Each has one more match to play, so a very exciting finish should be seen for the championship.

The following are the scores:

- Worcestershire v. Somerset: Worcester—1st Innings: 248 (Lea 124); 2nd Innings: 125 (Hassell 52); Somerset—1st Innings: 312 (Lushbon 67); 2nd Innings: 60 for 1.
- Essex v. Northants: Essex—1st Innings: 371; Northants—1st Innings: 110 (Harris 47); Essex—2nd Innings: 138; Northants—2nd Innings: 120 and 123 runs.
- Leicestershire v. Derbyshire: At Ashby-de-la-Zouch: Derby—1st Innings: 213 (Flanagan 67); Leicestershire—1st Innings: 108; Derby—2nd Innings: 220 for 6 (del.); Leicestershire—2nd Innings: 205 for 1.
- York v. Middlesex: At Nottingham: York—1st Innings: 216 (H. G. Owen-Smith 54); Middlesex—1st Innings: 225 for 6 (Price 304, Hendon 120, Compton 111).
- Essex v. Lancashire: Essex—1st Innings: 276; Lancashire—1st Innings: 108 (Smith 42); Essex—2nd Innings: 216 for 0.
- Sussex v. Yorkshire: At Eastbourne: York—1st Innings: 457 (Layland 111); Sussex—1st Innings: 159 (Trotter 67); Sussex—2nd Innings: 45 for 0.
- Kent v. New Zealanders: At Canterbury: New Zealanders—1st Innings: 86; Kent—1st Innings: 221; New Zealanders—2nd Innings: 20 for 0.

Obituary

MR. WILLIAM L. INGLE

One of Original Directors of African Mercantile Co.

The African Mercantile Company Limited state that the death of Mr. William Law Ingle occurred suddenly at his residence "Merry Gates", Churwell, Leeds, on August 15. The late Mr. Ingle was the founder and Governing Director of the firm of W. L. Ingle Ltd., factors of Leeds, and his company has been a regular and substantial contributor of East African bids for at least 25 years. On the establishment of the African Mercantile Company Limited in 1916, Mr. W. L. Ingle became one of the original Directors and only retired from the Board in April of this year, on account of declining health.

Extravagance "At Creditor's Expense"

COURT CRITICISM OF MR. JOHN AMERY

"Extremity"

["STANDARD" CORRESPONDENT.]

East African only bright young man, Mr. John Amery (24, son of an insurance broker, John Amery, bankrupt some time ago and who is applied at Waterloo for his discharge as Official Receiver and others had pretty straight things to say to him. He was told to come back in three years.

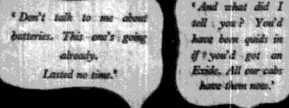

The Official Receiver (Mr. Bruce Stinson) opposed the application for discharge. He said it was a case in which a young man had bankrupted his father without assets last year and now had the opportunity to come before the court only a few months after closing of his public examination, asking for his discharge in the public examination Mr. Amery had said that he went into the film-making business for a big 5/5. He found several film companies which were never successful and his last venture was to try and form a £100,000 company. In an attempt to reach interested in it he spent lavishly on entertaining and travelled to various parts of the Continent and stayed at the best hotels, all at the expense of his creditors. It was difficult to regard it as other than a gamble conducted by the banker with his borrowed capital, and as such it deserved the censure of the court. The bankrupt had exhibited in his industry by real and hazardous speculation and by conspicuous extravagance in living.

"Did a Fool"

Mr. J. W. Galsman (for the trustees in bankruptcy) supported the official receiver's opposition. He said that Mr. Amery was a young man who had shown that he was not a fool but very quick-witted, and had embarked on this extravagant career at the expense of his creditors. It was a case with him of "Heads I win, and tails you lose." In the interests of the public he should be stopped.

Mr. A. Chinner (for Mr. Amery) said that unfortunately his clients when only a minor god in with a job who could do his team and the name of the pursuit. The cinematograph business was a gamble from beginning to end. It was significant that Amery's large-scale creditor was a justice who gave him credit to the extent of hundreds of pounds when he was only 17. Mr. Amery told Judge Chinn. Probably he did not think he could make any money, but he had obtained his discharge. He was anxious to start again, and to pay back all that he owed.

E.A. TRADERS' ASSOCIATION ANNUAL MEETING

Big Increase in Membership

IMPROVED BUSINESS
Co-operative Societies a "Respite to Trade"

An increase in membership from 15 to 411 since the end of last year was reported at Thursday's annual general meeting of the East African Traders' Association.

The third annual report by the Chairman (Mr. L. Ford) thanked the members for their confidence in him and also thanked Mr. J. Lewinton, who had acted as Chairman during Mr. Ford's absence on leave.

The year under review, stated Mr. Ford, had been one of increased activity, chiefly showing itself in the number of new members who have joined the Association. The Chairman then proceeded to the following important items handled during the year—

Railway Rates

This important matter which affected all traders had been an urgent question a subject for discussion during the General Meeting of the Railway and the Management Committee with satisfactory results. Rates which were considered too high had been lowered, thereby benefiting the trader. The Association hoped for further reductions in rates with the increasing prosperity of the Railway. Thanks were due to the General Manager of the Railway for his unflinching courtesy and sympathetic consideration.

Shop Hours'—The efforts of the Association to deal with such matters, traders and its constant help benefit from its Organisation.

Sunday Trading—During the past year efforts had not been relaxed to prevent Sunday trading except for perishable goods during certain months.

Telephone—As many members considered they paid too much for the use of the telephone, representations were made to the Postmaster General, unfortunately a reduction could not be obtained but they hoped for cheaper telephone rates in the future.

Trading Licences

All traders were paying less for the use of their licences, a direct result of the Association's activity in this vital matter which affected them all. A carefully prepared memorandum had been submitted to Government requesting further action.

Questions in the Trading Licence for 1956.

One per cent Wharfage on Postal Purchases—Several efforts had been made for the removal of this unfair and unnecessary tax but without success. The matter would continue to have the attention of the Management Committee.

E. A. Traders' Magazine—The Chairman expressed thanks to all traders who continued to support the magazine and offered congratulations to the General Secretary on the success of the publication.

During the year the General Secretary had had a number of interviews with the Commissioner of Customs in the interest of members with increased facilities to the General Secretary on the success of the publication.

Customs Revision Board—Representations were made for the setting up of a Customs Revision Board to have certain customs duties removed. Unfortunately success did not attend the efforts. This year the revision board was set up.

Co-operative Societies
As it was considered that many of the activities of co-operative societies in the Colony were in serious competition with traders the time had arrived when special committees in Nairobi were appointed to investigate the matter. It was hoped that arrangements would be made to enable their staffs to become efficient.

Kenya Regiment
The formation of the Kenya Regiment marked a step forward which should be welcomed by all traders. It was hoped that arrangements would be made to enable their staffs to become efficient.

Kenya Youth—Two years ago an appeal had been made to traders to do something for the boys and girls growing up around them. Several members were training these young people to become useful members of the trading community. He thought they would all agree that it was a most interesting career.

Donations
In the balance sheet under the heading of "donations," there was an amount of Shs. 450/0. He thanked the Association for the various donations. The funds could do with further donations.

Trading Conditions
During the past year there had been a distinct improvement in trading conditions, the higher prices obtained for primary products. The outlook appeared to be brighter and he hoped all traders would enjoy increasing prosperity on behalf of the Association.

ROMANTIC STORY OF A FLAGSTAFF

How the Kenya R.N.V.R. Surmounts Difficulties

DOGGED DOES IT!

F. STANLEY'S COMMENTARY.
Mombasa, August 25.—Few flagstaffs in East Africa have such a romantic history as that recently erected at the R.N.V.R. Headquarters, Mombasa. Several years ago the idea of a flagstaff was mooted and the present energetic Commanding Officer's predecessor obtained a 20 ft. flagstaff post and this was pressed into service as a lower mast.

Heating that the tugmaster of the famous Lake steamer "Cleopatra Hill" was being at Nairobi, Mr. B. B. Hill (the C.O.) at once approached the Commanding Officer, who not only consented to give the post to the R.N.V.R. but also instructed his staff in Mombasa to send over to him the flagstaff.

Without the help of the Railway the mast would not have been erected so soon. The most difficult part was to obtain a yard-arm 28 ft. long. One day Mr. B. Hill happened to notice a 12 ft. length of pipe lying on the railway scrap-heap. He thought he had really found his man.

East Africa Scout Telegraph Post and Lighthouse Station. They sold a wooden cross post to the R.N.V.R. for the nominal sum of 3/6, and this post was pared down and cut into two lengths. It was made of Kenya cedar and the two ends obtained from it were stuck into either end of the 12 ft. pipe. The result is a really fine yard-arm.

The gift was originally a 14 ft. mast destined for a yacht and was bought for Mr. B. Hill for a mere song (2/6) by the African Marine and General Engineering Co.

Mr. B. Hill had an "E.A. Standard" representative he was sure of many people who called in for further information. The name "Hill" would feel glad to have his tugmaster took some more above the mast of all ships entering Mombasa and fire the flag of the young men of the Navy, the R.N.V.R.

Dining at the Club
As from September 1 dinner and supper dances will be held at the Officers' Mess on Wednesdays and Saturdays only. The Officers' Mess will be open daily from noon until 10.0 p.m. and the Lounge and Bar will remain open until midnight.

"BEAT CHINA TO HER KNEES"

SIGNIFICANT STATEMENT BY JAPANESE PREMIER

Capture of Nankow Pass Claimed

BUT JAPANESE WAR OFFICE DENIES USE OF POISON GAS

The Japanese claim to have captured the Nankow Pass after a stubborn resistance, but deny that poison gas was used to break the assault.

Japan's claims also carried out intensive and damaging raids beyond the outskirts of the International Settlement of Shanghai, causing panic and huge fires.

It is significant that Japan is preparing for prolonged hostilities and that China has summoned the representatives of the Powers in Nanking to hear an explanation of Sino-Chinese relations.

China and the Soviet: an Explanation Offered

Shanghai, Aug. 29. The Japanese military authorities here claim that the Nankow Pass has been captured after sixteen days' heavy fighting...

Mussolini Congratulates Franco

WARM MESSAGES EXCHANGED ON FALL OF SANTANDER

Government Success in Aragon

CLAIM TO HAVE GOT WITHIN SIX MILES OF SARAGOSSA

Warm messages have been exchanged between General Franco and Signor Mussolini on the occasion of the capture of Santander in which Italian Legionnaires played a prominent part.

The capture of over 50,000 Government troops during the recent operations is claimed, also.

While the insurgent forces have been successful in the north, the Government claims to have succeeded in their offensives on the eastern sectors and to have forced their way to within six miles of Saragozza.

In the meantime, the efforts of the Non-intervention Committee continue and Lord Plymouth presided over meeting at the week-end.

Non-intervention Efforts Continue

(Reuters and British Official Wireless Service)

London, August 27. (Reuters and British Official Wireless Service) General Franco and Signor Mussolini have exchanged warm messages on the occasion of the capture of the Nationalist base at Santander and the part played by the Legionnaires of the Italian Legation.

The Eastern Army's advance north towards the International Settlements between Tientsin and Peking.

Full Non-Intervention Meeting London, August 27. Lord Plymouth presided over the morning meeting of the Non-intervention Committee.

Mr. Haggan, the British Ambassador, was present and reported on the situation in China.

The Chairman, Lord Plymouth, presided over the meeting.

Ralph Lynn in Dire Trouble

Joseph Ralph Lynn as a hero, finding himself in court, is the story of "The Perfect Gentleman". It is only one of Ralph's many roles in "The Perfect Gentleman", the first of the London series of which he has now played. He takes the part of Henry Hill, a lawyer who receives his first taste of life in prison. It is his first taste, and it is not a pleasant one. He is sentenced to six months, but he escapes on an unguarded beach of prison walls. The other two films in the series are "The Perfect Gentleman" and "The Perfect Gentleman". It is his first taste of life in prison. It is not a pleasant one. He is sentenced to six months, but he escapes on an unguarded beach of prison walls. The other two films in the series are "The Perfect Gentleman" and "The Perfect Gentleman".

CAPITOL THEATRE:

tingulated last week's riots from a long series of minor squabbles was the central violence of the riotous heavy death-roll and the magnitude of the crowd. A large Police Force might have suppressed or discouraged some of the outbreaks but would not have removed the cause; indeed in some circumstances it might have aggravated the grievances. It would certainly represent for the Government the way way, but not necessarily the wisest answer to the problem. Maintenance of law and order in its complex difficulty. It merely represents in a specialised form the general question of the maintenance of law and order in the country and it is a consequence of the development of civilising influences in Africa. The situation of Swa Hills and the phenomena of economic life there have hastened tendencies to tribalism and there are many thousands of Africans, both in Nairobi and Mombasa, who are rapidly losing all their contacts with the Boreas and with the tribal authority that guided their life in their original conditions. Native Boreas means very little now to many of the Swa Hills and the tribal authority that guided their life in their original conditions. Native Boreas means very little now to many of the Swa Hills and the tribal authority that guided their life in their original conditions.

POULTRY FOR SALE

Several many pairs of Africa and Arabia who form so large a proportion of the heterogeneous residents, that would not help either the Government or the people of Kenya to solve the problem which last week's riots have raised. The fact is that the modern development of Kenya has not been the case in many phases of its earlier history. It has not been attracted to a comparatively small island a large and growing number of people of many racial origins who have few common cohesive factors in their life. They are all competing for a restricted and they are living cheek by jowl in crowded conditions. They are also competing for a restricted and they are living cheek by jowl in crowded conditions.

FINANCIAL TROUBLES OF A MILLER

STORY TOLD IN BANKRUPTCY COURT. With unaccounted creditors said to be owed over £7,500 and the probability of a further claim being filed by the amount to exceed £10,000, Mr. William Alfred L. Spencer, a miller of Blarney, appeared in the Supreme Court on Friday for the public examination in bankruptcy. The case was then closed.

Below is the list of passengers for East African ports due to arrive by the "Maitama" expected at Mombasa on September 16.

Below is the list of passengers for East African ports due to arrive by the "Maitama" expected at Mombasa on September 16. Mr. Hooper was born in Kenya and later served in the Colony as a missionary of the Church Mission Society before being appointed to his present position in the London Headquarters of the same society.

Examining the debtor, Mr. Fisher, using Official Letter, asked if he had any money or other Standard Bank notes in Africa. Replying, debtor said that the bank had obtained judgments against him for certain moneys that they had freed themselves from, but he could not say if he still owed the bank money. In reply to further questions he agreed that he necessarily showed that there was a balance due to the bank of £23,000 which he added to the list of unaccounted creditors.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed in his correspondence in these columns and in all cases the name and address of the writer must accompany a letter, not necessarily by post, but as a guarantee of good faith. Briefly it also endeavours to cover conditions always been raised

LEROGHI PLATEAU

To the Editor, "E.A. Standard." Sir—The news that the Leroghi Plateau is to be arbitrarily handed over to the Sumburu is hardly a surprise. But one would like to know whether there is any real scientific fact with a survey. Has any attempt been made to instruct the Sumburu in methods of developing their reserves? It is the common policy of steps for water conservation, silviculture, crop rotation and grassland. The elimination of the desert-producing goat would be a step in the right direction. The question of being overstocked with cattle could only be solved by the most exact extract. Some kind work on improving their herds? Sir—May I see the same thing to do up just about that, or that most flooding country and stock thefts. The proper development of the area would eliminate the need for any further kind of handling over the Leroghi Plateau. It is a pity that you cannot be an integral part of the White Highlands, kept in Trust for the future European settlement.

Yours etc.,
C. T. TODD,
Tamu,
August 24, 1955.

AFRICAN PRIVILEGES

To the Editor, "E.A. Standard." Sir—May I see the same thing to do up just about that, or that most flooding country and stock thefts. The proper development of the area would eliminate the need for any further kind of handling over the Leroghi Plateau. It is a pity that you cannot be an integral part of the White Highlands, kept in Trust for the future European settlement.

1. To draw attention of the Hon. Director of Medical Services to people who are falling sick when they are working under Government as Clerks and Teachers. As far as I know, they are being kept in hospital with the other patients who are very ignorant and do not know anything. I therefore, would kindly request the Hon. D.M.S. to provide a special ward for persons working for Government e.g. Clerks, Teachers and well known people, or that if it is possible a new ward may be erected which will be separated from non-clerks and non-teachers.

During the past few months ago, I paid a visit at the Native Clinic, Harcourt, Mombasa, and was surprised very much to see a woman, apparently a married lady, and a girl, for the return of her Colonies and the Department of Health, Kenya, who were in hospital with the other patients who are very ignorant and do not know anything. I therefore, would kindly request the Hon. Director of Medical Services would request the Medical Officers to choose one ward for the Clerks and Teachers in their hospitals as in the case of Mombasa.

Also I would like to draw attention of the Police Officers on Native Exemption. On several occasions I have noticed that those Officers do not have regard to those Natives who possessed Letters of Exemption as if they have been with issued this letter.

The Ordinance says: "An Ordinance to provide for the exemption of certain natives from the operation of laws. Any native registered under a class specified in Schedule I hereto annexed may apply for a letter of exemption relieving him from the operation of the laws, rules, or regulations set out in the Schedule hereto annexed."

submitte cannot be offered. Kenya will continue from an Empire... However, I agree that Kenya to have been considered with the world to live in and that it will have a glorious future, as soon as the people of Kenya are provided with sufficient money to enable them to exchange their products.

Yours etc.,
"TORERO",
Nairobi,
August 28, 1955.

INDIANS IN EAST AFRICA

To the Editor, "E.A. Standard." Sir—At a meeting held on July 1st at one of the British Society Centres in South Africa, Sayed Sir Khan, the President of the Indian Government of India in that country speaking on the racial question said amongst other things: "In my country we have two races, the Hindu and the Moslem and another for Hindus. That happens to favour the Moslem... I must say that the suppression of the interests of the various communities, whose real interests are identical, has brought great calamity to our country... (From "Indian Views", July 28, 1955).

I am quoting the above for the consideration of the Indians in East Africa, who delight in receiving of the Indian Government of India as a "white Indian" (From "Indian Views", July 28, 1955).

I am quoting the above for the consideration of the Indians in East Africa, who delight in receiving of the Indian Government of India as a "white Indian" (From "Indian Views", July 28, 1955).

DO PORCUPINE SHOOT THEIR QUILLS?

To the Editor, "E.A. Standard." Sir—I recently had an opportunity of studying the methods of defence adopted by porcupines. With a friend I was returning home one night by car and we happened to observe a porcupine at rest in a field. It was a very large one and its quills were very prominent. It was very tame and we were able to approach it. It was very tame and we were able to approach it.

RATES OF EXCHANGE

The following rates of exchange were notified by the Nairobi Bank on Saturday:

Don't let "TIRED SKIN" age your face with tiny wrinkles

A woman's youthful and lovely complexion may age suddenly. "Tired Skin" is the cause—the effect of harsh, hot atmospheres and the wind-borne grime of the streets. You can prevent this by using Mauser's Cream. Besides being deeply cleansing, its leather is mildly bracing—keeps the beauty glands actively at work protecting the skin centre. Knight's Castle is just what you need in this country to keep your complexion appealingly fresh.

DEMANDS IN BRITISH NOTE TO JAPAN

No "Accident" Plea Acceptable

"COMPLETE DISREGARD FOR SANCTITY OF CIVILIAN LIFE"

No plea of accident will be accepted by the British Government in respect of the shooting of the British Ambassador in Shanghai.

The British Note to Japan, which demands a formal apology, punishment for those responsible, and an assurance against similar incidents, states that

"Such events" is it stated, "are inseparable from the practice, as illegal as it is inhuman, of failing to draw that clear distinction between combatants and non-combatants... which international law, no less than the conscience of mankind, has always enjoined."

Injured Ambassador's Progress

Mr. Herbert Morrison, Secretary of State, announced today that the British Ambassador in Shanghai, Mr. Kenneth G. Gurnea, has made three visits to the Japanese Red Cross Hospital in Shanghai.

Mr. Morrison stated that the Ambassador's progress is such that it is reasonable to expect that he will be able to return to his post in London in about a month.

After receiving the facts of the shooting, the Government received with deep distress and concern news of the attack on the British Ambassador in Shanghai. The first demand is for a formal apology to be conveyed by Japan to Britain, the second for suitable punishment of those responsible for the attack, and the third an assurance by the Japanese Government that the necessary measures will be taken to prevent the recurrence of incidents of such character.

The Ambassador is expected to return to his post in London in about a month. The Japanese Government is expected to receive the British Note on the 30th.

It is pointed out that the facts which are recorded make it clear that there was no accident here, but that the attack was a deliberate one. It is noted that the Ambassador was not killed but seriously injured.

JAPAN FEARS CHINESE PACT WITH SOVIET

MAY CONTAIN "SECRET MILITARY CLAUSES"

"Collective Security" Says China

PARTIES RENOUNCE WAR AND WILL NOT HELP AGGRESSORS

Four different viewpoints on the Soviet-China pact are quoted in yesterday's messages from Shanghai.

A Chinese spokesman calls the pact the beginning of collective security for the Pacific countries.

Japanese quarters, fearing secret military clauses, are rather concerned.

The Russian ambassador thinks it will help Sino-Russian friendship.

Foreign opinion is that the pact is "innocuous" but will irritate the Japanese.

Five Year Term

Shanghai, August 30. The Russian-Chinese pact has elicited some concern in Japanese quarters here, due to the fact that it may contain secret military clauses, chiefly in respect of help in the way of military supplies.

CHINESE BRAVERY NEAR WOOSUNG

Holds Up Expected Japanese Advance

Non-Combatants Involved

MANY DEATHS IN SHANGHAI AIR RAID

Shanghai, August 30. There was considerable fighting in and around (Shanghai) yesterday, and Chinese official reports claim that 200 Chinese anti-combatants were killed during a one-hour air raid on Kiangsai in the North Szechwan sector.

Room daily is reported. In the Chinese front line at Woosung, with the landing party at Yangchow. This suggests that the Chinese are mounting a vigorous resistance to their anti-

A Japanese spokesman admitted that the Chinese were holding out at Woosung, and added that the Japanese lines in the Shanghai area were generally unchanged apart from a slight advance in the eastern sector.

GOOD YEAR FOR FORESTS DEPARTMENT

HIGHEST REVENUE SINCE BEFORE DEPRESSION

Export Trade Prospects Good

EARLY RESUMPTION OF PROGRAMME OF DEVELOPMENT

This year was a very satisfactory one for the 1939 Report of the Forests Department and in the latter half it was really possible to think that they were back in normal times after the long years of depression.

Revenue was the highest since the year 1930 and exceeded the expenditure by nearly three thousand pounds. A considerable part of the revenue comes from plantations and is a direct and increasing return for past expenditure.

Farmers' Co-operation Needed

The report shows that advantage can be taken of the Government's offer to bring Kenya farmers to the notice of the South African Government.

Report Expresses

Although import export was an important feature of the year, certain statistics showed a general increase. The report says that it was still far from satisfactory.

PROVINCIAL GRASSLAND

It is estimated that the grazing capacity of the Province is 2,000,000 head of cattle and 1,000,000 head of sheep.

Forest Requirements

In addition to the normal of existing forests there is the matter of provision in deforested agricultural districts.

Trade Almost Stationary

The section devoted to general statistics explains that the state of the timber trade remained more or less stationary during the year.

THE HUMAN HAND

The human hand is the most valuable asset of the individual and it is the duty of the State to protect it.

POSTPONEMENT HELPS FARR

Odds Against Him Shorten

But Louis Confident

"I GENERALLY WY BY KNOCK-OUT" HE SAYS

Whom Louis has in tight condition, he is now willing "I'd like to get the fight over."

Far says that the postponement was "a gift."

The poor gate was the real reason for the first postponement, and the promoter, Mr. Jacobs, now hopes to get £50,000.

The fifth and sixth rounds were to the Wild in the Waldman, and it is generally considered that he has been the better of the two.

At the same time it is admitted that Far had fought 23 fights and had but two been knocked out.

EDUCATED NATIVES

"Police Exemption Rules"

A letter from a correspondent, 'Singapore' writes that it appeared in their columns yesterday.

There are less than one hundred of these letters in existence and they are issued through Provincial Commissioners.

Others entitled to apply for exemption are ordained clergymen, members of the Church of Scotland, and members of the Church of Rome.

"NO SERIOUS SHORTAGE OF NYANZA LABOUR"

GOVERNMENT VIEWS ON SONGHOR COMPLAINT

Workers Picking Best Jobs

The contention expressed at a meeting of farmers at Songhor, reported in the East African Standard yesterday that there is serious shortage of casual labourers in the Nyanza Province is not supported by views in official quarters.

The Chief Native Commissioner, interviewed yesterday, said that the alleged 'serious' shortage had not been previously brought to his notice and the latest reports from his officers did not support any large decrease in the labour supply.

"Choice Always with Native"

It was probable, Mr. Hoeking thought, that the demand for labour was on the increase and that the casual labourer was naturally working for the highest wages.

The Principal Labour Officer believes that the solution of the problem is that it is necessary to ensure that the casual labourer is not overworked and that he is able to pick the best jobs.

Government's attitude could only be what it has always been, namely to do their utmost to persuade native workers to accept the work which was naturally one of the best.

A TANGANYIKA DISPUTE. THE CARE OF MR. S.
To the Editor, "E. A. Standard":
Sir—In your issue of August 21, you published references to certain questions of principle which have arisen between me and the Government of Tanganyika. Your readers may be interested, therefore, in the following letter which I have addressed to the "Manchester Guardian":

I have just seen the articles concerning my case which you have been good enough to publish in your edition of the 21st of August. May I be permitted to say that Mr. Osmund-Gore's reply to me, printed in your issue of August 22, is a very full and courteous and completely misleading. For example, it is incorrect to suggest that the Acting Chief Justice went to the 'Law Firm' in exercise of his jurisdiction. It is equally incorrect to say that his request to call an amicus curiae by one who was probably in the best position to judge the Director's conduct was not only a suggestion but a demand, and that it was so regarded both by the Council and by the Chief Justice. It is also incorrect to say that the request was made in order to bring the Director's conduct before the court. It is incorrect to say that the request was made in order to bring the Director's conduct before the court. It is incorrect to say that the request was made in order to bring the Director's conduct before the court.

KEEP FIT & YOUNG
To keep fit and young, nothing else gives you the same benefits so safely, so pleasantly, or so cheaply. Beecham's Pills get rid of indigestion, liver troubles, flatulencies, and biliousness. They overcome constipation. Take Beecham's better, you will see in the morning.

BEECHAM'S PILLS
The World's Medicine

THE "LENS" Ltd.
Sole East African Agents for:
Zeiss Ikon and Carl Zeiss Scientific Instruments.
Aradea, Nairobi.

With increasing rapidity
the lens which is the only one in the world that gives you the same benefits so safely, so pleasantly, or so cheaply. Beecham's Pills get rid of indigestion, liver troubles, flatulencies, and biliousness. They overcome constipation. Take Beecham's better, you will see in the morning.

A Doctor's appreciation of 'OVALTINE'
—one of very many received—
THE following extract from a letter received by me in regard to Ovaltine is a most interesting article of value to those who are interested in this product. It is a most interesting article of value to those who are interested in this product. It is a most interesting article of value to those who are interested in this product.

Remember that "Ovaltine" is the food beverage to be used in all cases of indigestion, liver troubles, flatulencies, and biliousness. They overcome constipation. Take Beecham's better, you will see in the morning.
