Carnage Unspeakable In Chinese Cities

SLUM TENEMENT BLOWN TO FRAGMENTS

Air Raid Terror at Canton

THOUSANDS PERISH

"AND BOMB ATTACKS WILL GO ON" SAYS JAPANESE SPOKESMAN

Horror is piled on horror in the reports from the Far East. Concentrating their attacks on the districts most densely populated by civilians, Japanese aircraft have repeatedly razed Nanking and Canton and unspeakable carnage has been the result of the attacks.

In Canton, working class tenements, crowded with people, observers were utterly horrified at the scene after the raid, in which literally thousands perished.

Through some chance the bloodshed at Nanking, though the raids were longer, was much less, but three huge tenement blocks were destroyed—comprised at least of 100,000 people killed.

A Japanese spokesman in Shanghai has declared that Nanking will be subjected to repeated raids, and the warning to foreigners holds for the duration of the war.

Chinese Morale Unbroken

Chinese morale is unbroken. The Japanese have been unable to bring through in any of their communications. Most of the bombs fall in the densely populated districts of the cities, and the Chinese are not discouraged by the bombing. They are not discouraged by the military establishment was hit.

Masking Attacks

Nanking Wednesday. At least 100 people were killed in the last attack. The Japanese are not discouraged by the bombing. They are not discouraged by the military establishment was hit.

Government Will Help

A Government official in Nanking has said that the Government will help in the reconstruction of the city.

Mrs. Chung Kai-Shek.

that even in the areas so which American national and religious leaders might welcome they would be secure.

Safety Unquestionable

Represents, states that protest has shown that when bombing operations are stopped, the amount of soldiers on the spot of the activities remains in other words, the safety of the person or property within the zone of such operations.

The American Government strongly objects to the creation of a situation in consequence of which the United States Ambassador and staff members of the United States Government are confronted with the alternative of abandoning their post or being killed.

The American Government does not believe that the intention that the whole Nanking area may be subjected to landing operations, the considered intent of the Japanese Government and therefore the American Government is reserving all rights on its own behalf and on behalf of American citizens in respect of damage which might result from Japanese military operations in Nanking, and reserves the same right that further bombing of Nanking might be avoided.

CLOUD FLYING

Means More Work For Meteorologists. The Director of the Meteorological Office, in his report for the year, states that the most important meteorological service required today by the Royal Air Force is an increased training of a large number of meteorological personnel.

U.S. Ambassador Returns

The United States Ambassador, who has been in Nanking since the outbreak of the war, has returned to Washington. The Ambassador's return is a sign of the progress of the war.

AMERICA'S PROTESTS

Protest of Law and Humanity Broken. The United States Government has protested against the Japanese Government's refusal to accept the terms of the Potsdam Declaration.

ZANBARA SCHOOL SUCCEEDS

The Zanbaria Government has succeeded in the reconstruction of the school.

Fine First Week Start For Memorial Fund

A Nairobi Local Committee

The King George the Fifth Memorial Fund Appeal was launched a week ago on Friday morning, September 17. Subscriptions are coming in with increasing volume with a high level of generosity both from business firms and from individuals throughout the Colony.

For the first week the amounts received by the Treasurer exceed Eight Hundred Pounds.

This is by no means the whole sum because collections are being made all over the Colony and donations are being given through the branches of every Bank in the country.

Though, therefore, the figure acknowledged falls short of the aim of One Thousand Pounds which was set for a few days ago for the first week, it is more than likely that such a sum has in fact already been subscribed and awaits accounting.

But whatever the position, let us set ourselves another high aim in public-opinion support of this great cause for the coming week.

Donations will be received at any branch Bank and all in the form of Five Shillings will be acknowledged in the "East African Standard".

It is proposed to form a Nairobi Committee to organize the collection of funds locally.

An invitation is being extended to those members who formed the Committee on the occasion of His Late Majesty's Jubilee in 1935, and the Committee on the occasion of the Coronation of H.M. King George VI, to attend a meeting which will be held in the Hotel Capri, Town Hall, Nairobi, on Wednesday next at 10 o'clock in the forenoon.

Here is the list for the first week

Table listing donors and amounts for the King George the Fifth Memorial Fund. Includes names like Mr. H.M. Treasurer, Mrs. H.M. Treasurer, Mr. H. H. B. Highton, etc.

Japanese Reply Satisfactory

Singhai Shooting

BRITAIN NOW REGARDS INCIDENT CLOSED

[TUSKOOB MOUNTAIN ASSOCI.]

Japanese reply to the British Note about the shooting of the British Ambassador at Shanghai.

The Japanese reply to the British Note about the shooting of the British Ambassador at Shanghai, expressed the Japanese Government's deep regret, and declared "Two Japanese aeroplane machines gunned and killed two airmen which was believed infirmly to be the military machine or machine carrying officers and soldiers of the Chinese army."

Japanese Protestants

The Note adds that the Japanese Government will take suitable steps wherever it is established that Japanese aviation has killed or wounded other than military personnel, and that the Japanese Government will take suitable steps wherever it is established that Japanese aviation has killed or wounded other than military personnel.

The British reply to the Japanese Note confirms that the Note is regarded as satisfactory and the incident is considered to be closed.

WORKED IN ANOTHER MAN'S CLAIM

Swahili's Mining Offences

MBARARA FINES

["STANDARD" CORRESPONDENT.]

Miners, September 20. Fines of Shs. 500 and Shs. 400 respectively were imposed upon a Swahili, Ababu bin Abubakar, and his clerk, Shams, Maganda, who were found guilty of illegally working gold in a river estate of Mr. Kenneth Carr, by Mr. G. B. Heale, Assistant District Magistrate, at Mbarara last week.

Ababu had previously held an exclusive prospecting licence over the right aqueduct near Lake George but the Commissioner of Mines had refused to renew this licence following reports regarding the man's conduct in mining for gold in a river estate which he was mining illegally, in paying in an area covered by an exclusive prospecting licence belonging to two Europeans, and the other contractors.

Subsequently Mr. Carr granted the area and took up river fishing in the area. Ababu subsequently reported his previous practices by working inside another prospecter's area, but he and his clerk were caught working not only in Mr. Carr's area but also in another prospecter's area. The Acting Inspector of Mines was called and the workings were reported.

The case involved great interest among the European prospectors in the area, and the case was discussed. The case involved great interest among the European prospectors in the area, and the case was discussed.

FRANCO-ITALIAN CONVERSATIONS

Improve Prospects for British Talks

Highly Thursday. The British Government has been assured by London by press reports from Geneva that Signor Benito Mussolini has indicated his willingness to the League of Nations, called yesterday morning on the French Foreign Minister, Monsieur Debra, and in the course of a long conversation, followed by a second lengthy talk in the evening, concluded that the whole range of Franco-Italian and Franco-Italian relations in the broadest way.

Reports state that the subjects upon which the conversations turned concerned mainly the Italian attitude towards the Spanish matter, the Syrian arrangement, the nature of the Berlin-Bomb talks, the future of Austria, and the Danubian question up to Berlin.

The British Government correspondent says: "The prospect of a successful outcome of the coming Anglo-Italian talks have been much improved by the new news."

**PROST YOUR DENTIST**  
-he says **KOLYNOS**

**FOR SPARKLING WHITE TEETH AND A HEALTHY MOUTH**

DENTISTS throughout the world recommend **KOLYNOS DENTAL CREAM** because of its proved antiseptic and cleansing action. This remarkable tooth paste fuses into every tiny crevice, killing the germs which are the cause of stains, tartar and decay. It cleans and whitens teeth without harmful bleaching action or unnecessary abrasion. Kolynos, being highly concentrated, is most economical in use. Only half-an-ounce—preferably on a dry tooth—morning and night will ensure white teeth and a healthy mouth.

**Who Are the Jewish People?**

(By A. H. H.)

The problem of Palestine is occupying many minds in the searching country. Who are the Jewish people? What does World Jewry truly represent? It is impossible to assess the validity of Zionist claims justly until we grasp this matter.

One thing is certain. The Jewish people are not the Israel people since for many centuries the Jews have anticipated the discovery of their brethren of the lost ten tribes. On the contrary, the Jewish people claim to be the descendants of the people of Judah, who returned from the captivity in Babylon to form the nation of the Jews, which was finally destroyed and dispersed by the World Jewry movement of the Diaspora. Again, the percentage of the seven million comprising World Jewry today who are claimed to be Jews of pure descent is a very small quantity. The majority are proselytes through intermarriage, and the percentage of pure descent is said to be small indeed. The day might come, however, when as a result of the uncovering that the British people have the modern representatives of the House of Israel, the Jewish people might seek British citizenship and national freedom. Such steps the proposal for this union was accepted what exactly would it represent?

If World Jewry could bring the heredity of Judah with them, then it might appear to demonstrate that they were official Judah. But the British people already have the Jews of Judah in their hereditary, whose identification that official Judah, which is already united with the House of Israel. Thus could have been the Union Jew—of Union of Jewry. If one of the twelve tribes had been national representatives of the House of Union. What incidents, signs, or heredity could World Jewry bring with it?

The inclusion of the Jewish people would not constitute any change in the existing heredity of Great Britain, therefore it would not represent the reception of any representative unit, but the absorption of a national unit. The Jewish people have adopted as their religion the symbol of Judaism, which is portrayed by the Star of David and the Temple of Jerusalem. This is not an emblem of any of the twelve tribes. It is certainly not the heredity of the tribe of—

# Nairobi's Market

### The Development of the Sale of Local Food Products

The Nairobi Municipal Market was opened in 1932. The building which is one of the most distinctive in the town, was designed by Messrs. Hans Gray and Associates, and cost £40,000. It has been the object of attention of the architect and the individual alike, whether from the point of view of its architectural features or from the fact that it is the only building of its kind in the town, and even if the building is either well or ill constructed, it is still a credit to the architect and the contractor. The market is a very interesting one, and it is a pity that the public is not more fully acquainted with it. ## CONVERSATION PECE

It matters not how slowly whirled a miller in, if he hath housing and governmental friends.—Glasgow.

### ROUR MISTAKE.

My hands were tied with rope and I  
Was bound to tell the world a lie,  
No entrance of this day I had,  
I held my hands before my face,  
(If you see should receive a shock,  
It was the President's book),  
There all at once, Sir Charles A.  
Ypessal with his economic leader,  
He was offered my release;  
Enabled me to "go" in peace,  
Oh noble knight of N. B. D.,  
Be slow to release me!

This is what actually happened. On Saturday evening a large crowd assembled outside the Standard building. Thinking that this was a demonstration of some kind, I went to the door to see what was going on. I found a large number of men who had not recognized the true intention of our evening. I was told that there was a fire going, which was apparently being confined by the fire department. I was told that there was a fire going, which was apparently being confined by the fire department.

### WHEN HANS PREVALES.

Now that the Sino-Japanese war is in full swing, an attempt to understand the position is more probably than any amount of indignation. The advance into North China of course, was not reaction on the part of the Japanese to any policy of the Chinese, but the prosecution of a plan set out last year's year in which the first step had already been taken. It is not, however, a plan which requires any very energetic support, but one formulated and pursued at every opportunity by the military party. The civilian majority has shown its opposition to an uncertain terms in the General Election, and it will be remembered that the military party failed completely. Moreover, the advance in 1931/32 was a success only from the army point of view. Manchukuo has proved a very costly undertaking and even today is a liability rather than an asset.

The militarist minority is active and determined. It knows that Japan would once be involved in war, the civil population would, as in any other country where participation is strong, speak all differences. This had happened before. In its interesting "Lectures on Japan," Dr. Nishida writes:

"The Liberals were not in favour of military operations in Manchuria, but when the remonstrances from abroad, they turned against it in defence of their country's honour, giving up the matter completely. This had happened before. In its interesting 'Lectures on Japan,' Dr. Nishida writes:

Exactly the same thing has happened with North China, although there are signs that Liberal enthusiasm is not unshaken by anxiety. It will be easier for the army to achieve victory than for the Treasury to find the means, although financial stringency is a weak enough road on which to depend for the restoration of military operations."

If it is not clear that unless Japan is to lose more than she gains, she must contract quickly, and without running completely a market on which she depends for a great part of her trade. The Army is not concerned with expense nor, indeed, with commercial problems. Its object is to destroy the country and that is why the quite unnecessary operations have been directed against Shanghai. It may be claimed that the militarist reaction of North China are great, but they will take time and capital to develop, if and when they are acquired. This have again it must be borne in mind that finance is

not concerned with politics, and provided that the military and political "buddies" (as they are called) are satisfied, China has more important factor. Japan's economic policy into the world's markets has manifested a great deal in many cases been a rather costly effort, however, made at which the profit has been the chance. To find that trade would be to know the benefits of socialism made during the past few years. Moreover, Japan is now depending on the foreign market for many of her raw materials, and it is a pity that the public is not more fully acquainted with it.

Britain is not the only country interested in developments in the Far East. The United States, however, and more so, the United States are vitally affected. The policy of President Roosevelt in prohibiting the sale of Government-owned ships from receiving distinction by China, the Japanese, have not been any very strong action. From America, incidentally, I have seen it stated that had the League imposed sanctions against Japan with the time of the Manchurian episode, America would have participated. It would seem to be as easy to be courageous as it is to be wise, after the event, and it is a pity that the public is not more fully acquainted with it.

### SOCIAL SERVICES.

I spent last Sunday afternoon with a medical missionary, but who has retained the most astonishing amount of mind and interest in social conditions all over the world. One sitting particularly impressed me. It was taken from a scientific journal and gave particulars of the recent changing of Moscow as investigated by a Czech, a South African diplomat, even making the whole situation, probably, I suspect of anything else, it must be a very little effort to represent with an evil which I understand almost entirely had largely liquidated. We discussed the various conditions which are being met in a continental labour union, but to see the end of the road. We had had some other reports, however, when the punishment of political offences was most violent and barbarous, the treatment of other states had been dealt with on Eastern lines for some months, then, but had been over.

One cannot help thinking that however much we may deplore certain aspects (especially the main aspects) of terms of Government, other than our own, we may find something to learn in most of them. It is a pity that the public is not more fully acquainted with it.

### ARMED KENYA.

There cannot be any other country of similar European population which has produced so many notable writers as Tom Hadden, Mr. Marchant and now, General Lewis. And strangely enough, all these come from within twenty miles of Nairobi. To be an able general for the King's Cup is a very remarkable achievement for any man, let alone one of sixty years of age, and old and fat, for we all know that the King's Cup is a very extraordinary feat.

The King's Cup makes demands on every faculty of the brain as well as on every part of the body. Moreover it is a long fight, not a short one. It is a pity that the public is not more fully acquainted with it.

### 'BIBI', A TERM OF RESPECT IN GENERAL USE FOR EUROPEAN WOMEN.

The chief topic in the Home Press or any East African is, of course, that of the Abyssinian Refugees. Mr. W. H. Murray writes in the Home Press on this subject, and his article is so well written and so convincing that it is worth quoting in full. It is a masterpiece of logic and common sense, and it is a pleasure to read it.

At first the greater proportion were captured by Italian tribes and sent to the Italian concentration camps. It is a fact that the Italian Government has been very generous in its treatment of the refugees, and it is a pleasure to read of their progress.

On the same day, however, Mr. W. H. Murray writes in the Home Press on this subject, and his article is so well written and so convincing that it is worth quoting in full. It is a masterpiece of logic and common sense, and it is a pleasure to read it.

Another article on Kenya by Lord Fraser is worth reading. It is a masterpiece of logic and common sense, and it is a pleasure to read it. It discusses the political situation in Kenya and the role of the British Government.

## Being extracts from references to East Africa in the Overseas Press.

later only refers to part of the second article, and some of the criticisms of the article in question are well founded. The general impression is that the article is a masterpiece of logic and common sense, and it is a pleasure to read it.

Why not try Kenya? Mrs. Maria Caza, who gave Kenya some very good publicity in her book 'The East African', is a woman of great ability and energy. She is a woman who has done much for the cause of Kenya, and it is a pleasure to read of her work.

The glory of the garden. In the same journal a letter signed 'The Gardeners' refers to the great work done by the British people in Kenya. It is a masterpiece of logic and common sense, and it is a pleasure to read it.

It was one of those bright, happy mornings when one almost forgets to breathe. It was a day when the sun was shining brightly and the air was fresh and clean. It was a day when the world seemed to be at peace and harmony.

## TYPEWRITING REQUISITES

As a recent manager of the Coast Newspaper's American correspondence, I have had a great deal of experience in the selection of typewriting requisites. I have found that the most important requisites are a good typewriter, a good ink, and a good paper. I have also found that a good typewriter is the most important requisite. It is the one that makes the difference between a good and a bad typewriter.

THE MILES-KESTREL WORDS TO THE WISE TRAINER

High-Speeds on Comparatively Low Power

Motorists Should Avoid Alcohol

Danger of Mixing Drink

"ANOTHER LITTLE DRINK" WILL DO A LOT OF HARM

Driving "Under the Influence"
Obno upon a time the festive season, Christmas and New Year in particular, were usually celebrated, among motorists, by a crop of road accidents.

The accompanying picture shows one of the latest Miles products, a special "high-speed" trainer that might equally serve as a fast, comfortable, and reliable vehicle for the motorist.

Motorists should avoid alcohol because it impairs judgment and reflexes, and gives excellent evidence over from the year past.

Obno upon a time the festive season, Christmas and New Year in particular, were usually celebrated, among motorists, by a crop of road accidents.

The following extracts from articles on drink and driving by medical authors, should be read and treated by all motorists who value a clean conscience and a good name.

When a driver is under the influence of alcohol, his judgment is impaired, his reflexes are slowed, and his ability to control the car is reduced.

The Miles-Kestrel, an outstanding military trainer aeroplane that does nearly 200 m.p.h. on just over 700 horsepower.

Useful notes about drinking for motorists have been compiled by Dr. Alexander H. B. Divisional Surgeon, Metropolitan Police, and honorary pathologist, West End Hospital for Nervous Diseases.

Five-on-One Speed Range
A "stated name" of 5 to 1, with a maximum level speed of nearly 200 miles an hour, is achieved by the new monoplane, which is designed primarily for the training of military pilots.

Deal Instruction
Although its primary purpose is deal instruction and advanced training, the car may be readily adapted for use as a mount-fighter, as a multi-gun machine-gunner, or as a "general purpose" military aeroplane.

Motorist Do's and Don'ts
On any occasion on which the drinking of alcohol is a contemplated ritual, leave the car at home.

Milk Recording Scheme

Being a broadcast address by F. Lyons of the Veterinary Department, given from the Nairobi Station on September 27, for the series of Talks for Farmers arranged by the Agricultural and Horticultural Society of Kenya with the Co-operation of the Agricultural Department and Messrs. Cable and Wireless Ltd.

Many of the milk given to the cow in this country comes from the minimum lactation standard of 20 lbs. per day... The quality of milk is not only a function of the breed of the cow, but also of the quality of the feed... The milk recording scheme is a means of measuring the milk yield of a cow over a period of 305 days... The scheme is based on the principle that the milk yield of a cow is directly proportional to the amount of feed she receives...

Value of Milk Records to the Dairy Farmer

The keeping of milk records is a means of measuring the milk yield of a cow over a period of 305 days... The records are of great value to the dairy farmer in many ways... They enable him to compare the performance of different cows and to select the best for breeding... They also enable him to determine the best time to sell his cows and to estimate the value of his herd...

Testing Milk for Butter-Fat

Though a correct record of the milk yield is itself of great value, it is advisable that the farmer should also know the percentage of butter-fat in the milk of his cows.

The Concept of "Breed" in Modern Animal Breeding

(By S. LAUSCHIG.)

(From the Monthly Bulletin of Agricultural Science and Practice.)

Then to the products of a crossing... The concept of "breed" in modern animal breeding is based on the principle that the characteristics of a breed are determined by the genes inherited from its parents... The modern breeder seeks to improve the quality of his stock by selecting the best individuals and crossing them to produce offspring with improved characteristics...

Breed Descriptions (Standard)

Descriptions of breeds have been compiled by the various breed societies... These descriptions are of great value to the breeder as they provide a common standard for the different breeds... They also provide a means of comparing the performance of different breeds and of selecting the best for breeding...

Menace of East Coast Fever

East coast fever is a disease of cattle and sheep caused by the parasite Theileria parva... It is a major menace to the livestock industry in East Africa... The disease is spread by ticks and is characterized by a high mortality rate... It is essential that the farmer take steps to prevent the spread of the disease and to protect his stock from infection...

A Famous Cow

A famous cow is one that has achieved a high level of productivity and has been the subject of much attention... The famous cow is a source of pride for the farmer and is often the subject of much admiration... It is essential that the farmer take steps to protect his famous cow from disease and to ensure that it remains healthy and productive...

More Profit

More profit can be obtained from the dairy herd by selecting the best cows for breeding... The farmer should select cows that are healthy, productive, and easy calving... It is essential that the farmer take steps to protect his cows from disease and to ensure that they remain healthy and productive...

JAPANESE WAR MACHINE ROLLS SOUTHWARD

VAN NOW 100 MILES FROM PEIPING

Deadly Use of Aircraft

RAIDS EXTEND OVER ALMOST ALL PARTS OF CHINA

The Japanese advance southwards from Peiping continues. They have occupied Fusheng, 100 miles south-west, and the Chinese, under heavy Japanese bombing, have retired to new defenses at the railway junction of Shukhsien-tyang.

Full details of the dead and destruction wrought in the recent air raids on Peiping are not yet available, but it is stated that further raids have taken place in almost all parts of China.

Indian Contributions To The Fund

New Aim For Second Week

The King George Memorial Fund has started to-day on its second week and with twelve hundred contributors yesterday the amount is now nearly five thousand pounds.

A number of well-known Indian firms are prominent in today's list and in their example in supporting this "national" scheme will be greatly followed.

The "East African Standard" hopes that it will be possible to announce the first £1,000 on Monday and that over the week-end the public will remember the great Cause now before the Colony.

It would be really splendid if in the coming week there could be added a further £1,000 so that we could end the second week on Friday morning with a total of Two Thousand pounds.

Table listing contributors to the King George Memorial Fund, including names like The Hon. Treasurer, J. H. H. H., and amounts.

**WHAT COFFEE BOARD HAS DONE FOR KENYA**

**STRIKING REVIEW BY CHAIRMAN AT CONFERENCE**

**Local Product "Comes Off Best"**

**ALL ROUND IMPROVEMENT DESCRIBED SINCE ORGANISATION WAS FOUNDED**

Kenya coffee has become easier to sell and in the price has risen," said Mr. R. E. Norton, presiding at the 1947 Kenya Coffee Conference at Nairobi yesterday, when he reviewed the work of the Coffee Board, in answer to the critics who asked: "What is the good of the Coffee Board? What do we get for our money?"

"You remember," he asked referring to the years between 1930 and 1934, "how your coffee hung fire? Why in it, that in every case where the position is improved, it is Kenya coffee that comes off best?"

London prices, local prices, local prices, all show a higher percentage of improvement in favour of Kenya against other comparative coffees. We are entitled to say that our effort to improve things, coupled with the energy and initiative of the coffee traders in this country, have all played their part."

**Message From Governor**

On a message from the Executive Council regarding his intention to present and withdraw from the Conference, the Governor expressed the pleasure of the Annual Conference of the Kenya Coffee Growers' Association, and the fact that the Government is fully sympathetic to the industry.

The Governor also expressed his pleasure in the fact that the Government is fully sympathetic to the industry, and that the Government is fully sympathetic to the industry.

JAPAN HINTS AT TRUCE

CHINA REPLIES "LEAVE US ALONE"

More Air Raid Horrors

BUT TOKYO PROTESTS "WE ONLY ATTACK MILITARY OBJECTIVES"

The suggestion that Japan would renounce the possibility of a truce in the North China fighting, more reports of air raid havoc, Japanese provocations that their bombing is directed solely at military objectives, and China's claim of her first big success in Shensi, are the main items of yesterday's messages from the Far East.

Big Battle in Shensi

The Chinese reply to the truce hint is that peace could be discussed if Japan was prepared to abandon aggression and not interfere with Chinese sovereignty.

MADRID PILOT ALLEGED "Insurgent Spies" Arrested

Heavy Fighting

GOVERNMENT LOSSES OF TWO FIGHTS

In Northern Spain heavy fighting was announced on Saturday by Spanish newspapers. It is reported that the Government forces have advanced, though the insurgents' version is that the Government pressure has been relaxed. The Government admits that the insurgents have broken through their lines in the Asturias. On the Coruna front the Government admits they drove back from the positions occupied during the recent advance.

Madrid Free

A landing and fifty people have been arrested in Madrid, including 17 army officers and a number of women, for being concerned in a plot to form an "anti-Franco Column" within the city. It was planned to seize Government buildings and the Government authorities in the near future, the arrests are believed to be the result of the Government's discovery of the plot.

Dark Day in Madrid

Darkness on Saturday revealed the full horror of Friday's aerial attack on Madrid. The city was completely cut off from the outside world. The Government forces were making some gains in the Asturias, but dark, stormy weather, the insurrection was seriously hampered. They reported that the Government forces were making some gains in the Asturias, but dark, stormy weather, the insurrection was seriously hampered.

Japan's Deal

A Japanese spokesman in Shanghai said it was most desirable that the world was kept in the present that Japanese forces were in the North China region. Only military objectives were intended.

British Ambassador at Tokyo

The British Ambassador at Tokyo, Sir Horace Rumbold, said a second report arrived regarding the bombing of the Japanese Embassy in London. He said that the Japanese Government had been notified of the bombing and that they were taking steps to investigate the matter.

German Embassy in Tokyo

In an official statement issued in Tokyo, the Japanese say that the Chinese "apparently will not permit any further aggression against the Japanese Embassy in Tokyo."

Germany's Position

A Washington report says that the Navy Department has issued a statement that the United States will not participate in any naval operations in the Pacific unless the Japanese Government agrees to withdraw its forces from the North China region.

£946

Week-End Addition To Memorial Fund

Thought the Nairobi list for the Fund has not quite reached the first Thousand Pounds for this morning, Members advise that their contributions have been very generous and the total is now well in excess of that sum.

The "East African Standard" again expresses the hope that before Friday it will be possible to present an amount of Two Thousand Pounds for the Fund. It would be a most interesting and valuable contribution to the cause.

Cheques can be handed in to any branch Bank in the Country. This is the second list.

## THE HIDDEN TERROR

Unknown Even to his Associates

The "Hidden Terror" is the latest production of the Famous Players-Lasker Company. It is a gripping story of suspense and mystery, directed by John S. Robertson. The plot revolves around a man who is accused of a crime he did not commit. The film is a masterpiece of suspense, with a plot that is both intricate and surprising. The acting is excellent, and the production values are high. This is a film that will keep you on the edge of your seat from start to finish.

COFFEE BOARD CHAIR DISCUSSED

(Continued from page 7)

Chairman of the Board presided, then, by the ordinary rules of debate, he was precluded from taking an active part in the debate and was unable to justify the action of the body of which he was the head if, the necessity had arisen for an exact definition of the status of the Chairman.

The Chairman had not just been elected as Chairman of the C.C.F.C. but, he indicated that the Chairman of the Union before him was elected as Chairman of the C.C.F.C. In his opinion, the letter that the resolution should be put to the vote. Commander Cole, of the Coffee Board, felt that some decision should be reached. He rejected the suggestion that the resolution be put to the vote at the present question was not decided one way or the other it would be done away for the Board to do anything at all if they must have some lead in the matter from the Conference he added.

Advantages of Chairmanship

The member suggested that perhaps the Board would give an expression of opinion. Mr. Conway Harvey, on behalf of the Board, stated that members of the Board had adopted no particular attitude and were of perfectly open mind on the particular question. It seemed to him personally that the annual conference was an occasion on which the Chairman of the Board was called upon to defend his actions and to show how he had carried out his instructions from the preceding conference.

The suggestion that the word 'Chairman' should be amended was then put to the vote and lost. Mr. Armstrong suggested that further amendments to the effect that the Chairman of the Board should be elected previous to the meeting of the Board. This was accepted by Mr. Arnold but was also defeated. The substantive resolution was then put to the conference and only three voted in favour, the resolution being lost by a large majority.

Chairman of the Coffee Board did not fill that place automatically. He viewed with some apprehension the suggestion that when the Conference assembled they should elect the Chairman. For anyone to undertake such an exercise should be essential that he should have some qualification that he was going to be called upon to do the job.

Mr. Conway Harvey deprecated any suggestion that they should elect an ex-officio Chairman of the Board.

Mr. Glanville suggested, and thought that the members of the Board should be elected Chairman for the next meeting.

Amendments Fail

Other members voiced their views and it was stated that there appeared to be no reason why the Chairman should not vacate his chair at any period during the Conference to take part in the debate. Commander Cole suggested that the word 'nominally' should be inserted to limit the functions of the Chairman, and also as the Chairman, and this was seconded by Mr. J. B. D. Armstrong and supported by Mr. G. B. Arnold. Mr. W. J. Webb, however, stated he was going to oppose both the amendments and the resolution because it seemed to him that the Chairman of the Coffee Board was the most suitable man to preside.

The amendment that the word 'Chairman' should be amended was then put to the vote and lost. Mr. Armstrong suggested that further amendments to the effect that the Chairman of the Board should be elected previous to the meeting of the Board. This was accepted by Mr. Arnold but was also defeated. The substantive resolution was then put to the conference and only three voted in favour, the resolution being lost by a large majority.

### SELF-INTEREST OR PUBLIC POLICY?

To the Editor, "E. A. Standard,"  
Sir—It is very easy to unearth isolated cases of hardship under the new tax. The Income Tax Commission has done this and it is not surprising that they should do so. GIRAUOD CUP FINAL

Goldfields Team's Fine Win AT FIRST TIME OF ASKING. Two Periods of Extra Time. BAKER'S SPRING GOAL-KEEPER.

Competing in the Girouod Cup for the first time Goldfields Central succeeded in carrying off the trophy when they defeated the Railway ground, they defeated B. A. F. by one goal to nil after two extra periods of time. It was a keenly contested game from start to finish.

Hughes was the star for the Goldfields and defended the Whitehorse Road end. There was splendid attendance, the crowd numbering nearly one thousand. There was almost a sensational start to the match as for the kick-off Hughes set his foot on the ball and beautiful goals from the winger was deflected by Wood.

It was a splendid game, both teams playing with marked vigour. Goldfields perhaps did not combine to the best advantage. The B.A.F. players were a tower of strength to his side, and time again scored, keeping the winger in a nervous, looking situation.
