K. F. A. MARKET REPORT

Maize and Wheat
"Very Firm"

Rapid Price Rise

**"DUE TO POLITICAL
OUTLOOK"**

The Kenya Farmers' Association (C/o-ny) Ltd., Nairobi supplies the following Market Report:

Maize

Exceptionally firm maize market has been experienced, mainly due to the uncertain political situation, and to the consequent stagnation in practically all commodities.

There has been heavy buying on the part of the United Kingdom and the best part of 50,000 bags have been disposed of. Prices of South African maize have advanced by at least 1/- per quarter and offers are being eagerly made. Here maize is quoted at 37/-, with East African at 26 1/2/-.

Wheat

There has been a rapid rise in prices since active U.K. buying which is apparently due to the uncertain political outlook. English wheat is still being exported freely, and the Russians have made very substantial orders both to the United Kingdom and continental markets during the past few days.

No. 1. Northern Manitoba 4s. 10d. worth 30/0.
Australia 42/0 to 43/0.
Roubaix Wheat 26/0 to 25/8.

Other Commodities

Rubber—Prices continue to pay good prices, but imported material qualities are neglected. An active trade is being done in flooring qualities at advancing prices up to 25/00.

Oil: Good Whites are worth 28/00.
Buckwheat: 42/10.

**"EASILY LINGER'S
BEST SHOW EVER"**

**K.H.S. President's
Praise**

LARGE ATTENDANCE

"Far and away the best show ever put on by" Limeri was the opinion expressed by the President of the Kenya Horticultural Society, Lady Mabel de Bako, when she introduced Lady Brooking to the exhibitors of the Limeri Flower Show on Saturday.

The exhibits were numerous and of quality magnificent. Kinross got top prize with the flowers, followed by the Arabes. It was interesting to note that the previous record holder, the Kinross exhibitor, was the same exhibitor who was the most successful exhibitor in the show. The flowers were most highly praised, particularly the Arabes, which were particularly good. The Arabes were particularly good, and the exhibitors were particularly good.

Violet's Outstanding

The chrysantheums were poor for the district but it was not so for the exhibitor. Some six, were distinguished in number, though the few exhibited were good specimens. The violet, on the other hand, was the best that has been seen in a long time at Limeri, and the variety of color and the size of the flowers in the present class was gratifying. The winning blue was really a fine specimen.

The entries in the vegetable class were not extensive, but those shown brought a heavy and well-earned note to the list of color and form and sent of the flowers.

AFRICAN EDUCATION

The De La War Report

At the end of last year the Secretary of State for the Colonies appointed a Commission of Enquiry into the educational system of the East African Territories. It was charged with the duty of making recommendations for the development and control of higher education in the territories.

Although it was generally expected that the Government would take advantage of the wide scope which these reports of relief afforded them to make a more comprehensive picture of educational facilities in the territories, and a complete analysis of the situation from the point of view of the African who would be affected by any proposed educational scheme, the Commission did not do so. It was wise, as it was inevitable, that the Commission should attempt to obtain a picture of the social order of African life as a whole and of some of the trends and influences which are now bringing about a change in African outlook. The Commission's report on the education of the African is a study of the children of Africa as a whole and of some of the trends and influences which are now bringing about a change in African outlook. SEAL AND COPPER

Messrs. Mitchell Cotts Market Report

Messrs. Mitchell Cotts and Co. (East Africa) Ltd., Market Report as follows:—

SEAL

The seal market remains in a stagnant state, though there has been some trade buying from Belgium. Consignees will prefer to remaining out of the market, apart from an occasional few parcels of seal, and of course, outside factors, political and otherwise, have encouraged them to this attitude. It is difficult to know how much longer they can remain out.

No. 3 Grade ... £27.00
No. 2 Grade ... £25.10.0
No. 1 Grade ... £24.10.0
Top No. 3 ... £23.3.6
Top No. 2 ... £22.10.0
Top No. 1 ... £21.10.0

From our weekly telegram from London dated September 25, the seal market is reported as being still dull and with nothing of interest in respect and that values are about 5/ per ton down.

COPPER

Small supplies are being brought forward for public sale. 250 tons of Kenya were offered and 300 tons of Africa for "A" and "B", for "C", 400 tons of other fine Africa for buyers and had to be withdrawn.

From a telegram from London of the 25th inst., the copper market is reported as being steady and unchanged.

LONDON FINANCE

Out-look for the Daily Price Market

The following report has been received on the London Stock and Share Markets:—

The week-end closing Sept. 17 saw a severe break in American Securities, which has been reflected in the London market. This had had its repercussions upon Home industries which have been with considerable success in securing a steady supply of funds to meet differences in open accounts in New York Securities.

The one firm market has been that of the Colonial Stocks.

However, there is still a great deal of trading in various Government securities and it is not unlikely that markets will take a turn for the better, owing to the value of orders that this country has placed for the week.

"HIGHER COLLEGE" TO COST £170,000

(Continued from page 2)

It is to be hoped, says the Commission, that primary education may be made available for all who are to be prepared to enter the higher education of institutions to be founded to take their part, whether on the land or in office or profession, in a community which is really agricultural and industry dependent upon the produce of the soil.

High: Pay Wanted

In a chapter on the standard of conditions of employment, the Commission remarks that there appears to be every reason to expect that the individual teacher will be able to acquire the necessary knowledge and skill to do the work of a teacher in a primary school. Large numbers of Africans are already trained to teach and to be responsible for the maintenance of their schools.

High character is not, it is estimated, to be found in the majority of Africans to a high standard and then asking him to live on a wage level of £100 per annum is to ask him to live on a level which is beyond his own control. There is a distinction between a man who is able to live on a wage of £100 per annum and a man who is able to live on a wage of £100 per annum and a man who is able to live on a wage of £100 per annum.

...which schools should normally be run as day schools.

Girls' Schools The Commission thinks that one of the main points in the school system of East Africa is the maintenance of a high standard of education. The girls' schools should be maintained at a high standard, but it is not necessary to maintain a high standard of education for all girls.

Finance The Commission recommends that Uganda should spend £200,000 per annum more on primary, secondary and vocational education, and also £150,000 on capital expenditure for primary and secondary schools.

Madrasa College The Commission has permitted approval to build Madrasa College, a Government secondary school, in Madrasa, East Africa.

Madrasa College has already advanced since its foundation, and is now a Government secondary school. It was founded only 15 years ago, and is now a Government secondary school. It was founded only 15 years ago, and is now a Government secondary school.

Advanced Education The existing centres in education, agriculture, medicine, education, veterinary science and engineering, should be grouped in one organization, wherever possible, in one site. The new

organization would be called 'The Higher Education Board, East Africa' and would be required to act as an independent authority of university character.

The Madrasa school at Madrasa, which is the most advanced of the existing centres, should be maintained at a high standard, but it is not necessary to maintain a high standard of education for all girls.

Only Fifty Pounds For The Memorial Fund Yesterday

Behind The Week's Aim

Today the Memorial Fund will reach Twelve Thousand Pounds. That is still a long way from the aim of Two Thousand set for this week, even if the Memorial contributions were included.

Yesterday the new donations only amounted to £56 and a spending on generosity and public spirit is needed if the total is to be worthy of the Colony.

District Committees should get busy with their organisations.

Clashes can be headed off in any branch Bank in the colony.

This is the record last:

PRICE OF £10,000

On Head of Nazareth Murderers

Jerusalem, Wednesday. One hundred and thirty pounds have been offered following the recent assassinations and sent to Acze goal.

A reward of £10,000 has been offered for information leading to the arrest of the murderers. This is believed to be the largest individual reward ever offered in a criminal case.

Mrs. Arabi, installed by the British Agents, announced that the money was offered by the administration to three couples, the first of whom is a woman.

The Imperial Airways Flying Boat Okechira has set up a new Atlantic record.

The boat left London on Monday morning after making the crossing from Newfoundland in ten and a half hours. She now holds the records in both directions.

ATLANTIC RECORD — 10 1/2 HOURS CROSSING

London, Tuesday. The Imperial Airways Flying Boat Okechira has set up a new Atlantic record.

The boat left London on Monday morning after making the crossing from Newfoundland in ten and a half hours. She now holds the records in both directions.

A special celebration camp at the hotel is planned for the boat's return.

The boat's return is expected to be a triumph for the airline.

"WE MEAN PEACE" SAY TWO DICTATORS

BUT "WAR WITH BOLSHIEVISM MUST GO ON"

When Words Fail—Arms

MUSSOLINI ON "WHAT WE HAVE DONE IN SPAIN FOR EUROPEAN CIVILISATION"

"The deepest meaning of this demonstration is a sincere desire to guarantee to our countries that peace which is not the reward of cowardice," declared Benito Mussolini's visit.

Signor Mussolini, speaking in German, said "Nothing concerted here will drive a wedge still further into a Europe already split."

The Duce later made reference to the two nations' community of ideas in the fight against Bolshevism.

Fascism fought Bolshevism with words, and when words were ineffective, with arms.

"This is what we have done in Spain, where thousands of Italian volunteers have fallen for the salvation of European civilisation" he declared.

Huge Berlin Demonstrations

Waldemar Heiser, speaking at a meeting held in the Olympic Stadium, Berlin, Monday, said that the German people were determined to support the Italian volunteers.

LORD PLYMOUTH'S CALL IN NON-INTERVENTION

British Plan for Spanish Parties

FRANCE ASKS—"ARE STRAITS OF GIBRALTAR STILL FREE?"

Conflict of opinion between Germany and Russia leads to yet another check in the Non-Intervention discussion in London.

While Germany opposes any action that is not based on a unanimous decision, the Soviet spokesman is believed to reject all present proposals, neither the British nor the French plan finding favour in Moscow.

Lord Plymouth, as chairman of the London Committee, has insisted on fresh efforts for progress being made during the next two days.

France's doubts as to the position of the coast of Spain were voiced with outspoken comment by French leaders at Lille.

Non-intervention, also without reservation. The speaker repeated emphatically upon all other issues during the session.

Lord Pym's Move

Lord Pym's move was a surprise to many. Last night's meeting of the Non-Intervention Committee did not discuss the question of intervention regarding the crisis of Belgium.

The Committee will, of course, meet again in a further meeting of the sub-committee on Tuesday evening to discuss the question of intervention in the Spanish civil war.

France is Impatient

Paris, France. Congression, committee on non-intervention, says made by M. Herriot, ex-Prime Minister, of France, and M. Deffoux, the Foreign Minister, at a Congress of the Radical Socialist Party which was held in Lyons.

M. Herriot said that although the committee was necessary in the past, it should not be set up again. He said that France could be disappointed if the Spanish intervention was not stopped.

The Congress decided to continue the Party's support of the Popular Front Government in France, and declared that the British Government should not be allowed to take any steps towards the departure of all foreign troops from the Continent who were attempting to undermine the regime.

INTERNATIONAL SOCCER MATCH

Forty-five thousand spectators were present to see the international soccer match between Scotland and Wales, both teams having won an equally exciting game.

Wales enjoyed the more rugged outside than the outside, and in the early part of the game some pushing forwards between the two sides.

Scotland, settled down after these first minutes and, with a few exceptions, remained quiet throughout the match.

Wales scored the decisive goal in the 75th minute, and the match ended in a 1-0 victory for Wales.

Scotland's attack was based on the wing, and they were successful in their efforts to break down the Welsh defence.

The match was a well-played one, and the spectators were well served by the weather.

The following were the scorers: Scotland (Graham), Wales (Graham).

Wales: G. Graham (Goalkeeper), J. G. Graham (Goalkeeper), J. G. Graham (Goalkeeper), J. G. Graham (Goalkeeper), J. G. Graham (Goalkeeper).

These notes may help you to get the best power from this important accessory of your car. Although very tolerant a car battery requires an understanding of its few simple rules.

Give it a monthly "look-over"

The battery is an unobtrusive accessory and, until attention is drawn to it by loss of power, it is apt to be forgotten.

Give it a "look-over" once a month. It is necessary to see that the top is clean and dry, and that the connections are clean and tight. If the liquid (electrolyte) level has fallen, add distilled water until it reaches 1/2 inch above the plates.

Never add acid. If acid has been lost by spilling (it cannot evaporate), take the battery to your garage or local Exide Service Station. Acid added incorrectly can do serious harm. Distilled water is obtainable from chemists, garages or Exide Service Stations. Never use softened "dopes." Some dopes are harmful. There is nothing to be gained from the continued addition of acid and water, and the quantity that accompanies the Exide "dope" is under no circumstances to be used.

Keep terminals well vented. Do not grease. If you do not want to bother monthly "look-over," call at your garage or Exide Service Station regularly, where it is done while you wait, for a very small charge.

TENANT FARMERS FOR KENYA

New Type of Settler Suggested

TO BE ASSIMILATED WITH LAND

[“WAGON” SETTLEMENTS.]

Thomson's Plan.

A new scheme was given by a meeting of the Trustees of the British Association for the Advancement of Africa, a number of the Kenyan Settlement Committee, who gave a very interesting address.

In introducing Mr. Evans, Mr. H. H. Wright said that there was some contention as to which was the best type of settler, but he considered the four following classes should all be given a chance and not introduced in the shape of “Young Kenya” and “Old Kenya” as suggested by the E.A. Farmers' Union.

Under the first scheme, the settler would be a man who had worked the land, the residential and other buildings not considered as a settlement scheme, namely the tenant farmer, the small holder, the farmer, at home and in the colonies who have long to farm but who did not settle, nor could they afford, to try their luck in Kenya.

Major Campbell-Bathurst, who added that the responsibility of settling in the new Colonies was such as could best be met by planning a wide open-minded policy, where they could take advantage of the Government and accept constructive proposals on the spot.

Address by Visitor

Mr. W. H. Evans then put the case for settlement by the tenant farmer class, to which he himself belonged. This year, he said, having a bad year in England owing to the drought, he was looking for the best type of settlement that had happened in years—namely the assimilated settler, who would be a man who had worked the land, the residential and other buildings not considered as a settlement scheme, namely the tenant farmer, the small holder, the farmer, at home and in the colonies who have long to farm but who did not settle, nor could they afford, to try their luck in Kenya.

The Committee would advise. First, the one should be the foundation of settlement in this country. With the benefit of which had been learnt in many years of having been conditions were ideal for an assimilated settler to make a start. The time was ripe, indeed, for action. Other Colonies looked the same type of man and Kenya could not be high to get them.

The main principle for particular land farming in their land, and would make their start at a small capital of about £1,000 to £2,000 spent for them by their parents. Under present conditions, however, they could only secure their “land hunger” by establishing a home away from home, as suggested for the type of settler, capital, or by making commercial settlement.

To Come on Production!

A capital of about £2 per acre would be ample to start farming in Kenya, where, in England, £200 would be needed. A man who had worked the land, the residential and other buildings not considered as a settlement scheme, namely the tenant farmer, the small holder, the farmer, at home and in the colonies who have long to farm but who did not settle, nor could they afford, to try their luck in Kenya.

With Capital of £1,000

Mr. Morrison suggested that the “Wagon” settlements, as he termed them, should be approached with the scheme for tenant farmers. The scheme would be to give a man £1,000 capital on terms, and if he could do any good in Kenya, he had the right to be kept on terms, and if he could not, he would be sent home. The company would be a joint venture between the Government and the settler.

Development Strategy

Mr. Wright said a minimum investment had been given to the Government by the parents, and he had been looking for homes for people who wanted to extend their development strategy has not to be the extra savings. Under this scheme the only “rent” would be the extra savings. Under this scheme the only “rent” would be the extra savings.

Amateur Billiards Championship

W. H. Mason Beats L. Sheppard in Final

Friday evening saw the final of the 1932 Kenya Amateur Billiards Championship at the Royal Masonic Club.

Mason scored at a consistent pace from the start, and soon was making the ball progress in the final, the latter missing in the championship for the first time.

Mason scored at a consistent pace from the start, and soon was making the ball progress in the final, the latter missing in the championship for the first time.

Sheppard found the balls running badly for him and his runs of 21 and 11 in successive visits. It took him one minute under the hour to reach his first 100, while Mason topped his third hundred in the same longer time.

When the interval was reached, Mason had the comfortable lead of 184 points. The scores were then: Mason 404; Sheppard 211.

When the match was resumed Sheppard found the balls running a little more kindly for him, and two more centuries were made, but he was again defeated by Mason, who was again presented by the Royal Masonic Club with the cup of the championship.

In presenting the runner's medal to Sheppard Mr. May expressed his pleasure at seeing a young and enthusiastic player in the final. It was his meritorious achievement when it was remembered that it was his first year in the championship.

SARRO LOSES TO ARMSTRONG New York, October 26. Harry Armstrong, the California champion, made the first century in the match when he was in the right border of the billiard table leading 100-0 when he knocked out Peter Sarro in the sixth round of a 15-minute match.

INTER-TERRITORIAL SPORTS MEETING

Kenya's Splendid Win Over Uganda

Despite the unpromising weather conditions of the morning there was an excellent attendance at the sports meeting on Saturday afternoon to see the annual inter-territorial sports meeting between Kenya and Uganda.

The going was very heavy but subsequently, and times were in nearly every instance on the slow side.

Kenya's representatives followed up their Uganda Olympic victory by winning the 120 yards hurdles for Kenya with a Uganda man second.
