The Outlook
A review of last week's news provides ground for a certain amount of satisfaction and renewed hope in the efficacy of diplomacy as a method of settling international disputes. The first example was the truce which brought to an end the fighting on the Manchurian front. While the armed forces on both sides were engaged in a desperate and costly other very effectively and the incident ultimately to develop into a firm-line war, diplomatic action in Japan and Russia, and by other countries too began to change which ended in an agreement to talk things over in a calmer atmosphere. So far as Japan is concerned there is little doubt that she had no desire to take on further commitments at this time and it is not improbable that she would have shown a less combative attitude if her troops had not been already fully occupied with the war in China. There is considerable reason to believe that they might have entertained an aggressive attitude with some hope of its gaining acceptance as far as international territorial claims were concerned. There again the Soviet stance was not so much influenced by a desire to see that a wider conflict with Japan would almost inevitably have involved Russia in a war with other Powers. There is however some who were perhaps that she appeared to be another thing in world news has been of least mitigated.

"JAPAN VIOLATED TRUCE" SAYS MOSCOW

Troops Moved After Cease Fire

ALTHOUGH NO SHOTS HAVE BEEN FIRED ON THE MAIN CHUKKO FRONTIER AT CHANGKUPENG SINCE THE SIGNING OF THE RUSSO-JAPANESE ARMISTICE ON THURSDAY, ALL IS APPARENTLY NOT WELL FOR MOSCOW IN ALLEGING VIOLATIONS OF THE TERMS OF THE TRUCE.

Although reports state that all Japanese troops in the region have now withdrawn from the frontier, Russia says that after the "cease fire" Japanese troops advanced about the year.

Reports from Moscow, the local Japanese commander refused to sign a protocol to the armistice, alleging that the Japanese moved two forces at the time the armistice came into effect.

Reports also state that an armistice for the Japanese in the region will be made.

Shortage Of Police Recruits

"BOSSY" PHELPS ON EUGENICS

QUESTIONS OF PAY AND OF PROMOTION

THE EAST AFRICAN "CORRESPONDENT"

LONDON, August 13.

The Home Office is considering the question of the shortage of police recruits, which was noted by the Home Office Commission for the Metropolitan area in its report for 1922, and which has also been commented on by Colonel Ross, in support of a resolution passed by the Chief Constable of the City of London.

There is a good deal of evidence to suggest that the Home Office is anxious to decide definitely whether the case for raising the rate of pay for recruits, which was referred to in the statement of 1922, should not be investigated if the quality of police recruits is to be maintained. There is other possible cause for the shortage, but the question of pay is a fundamental one, and it is not the purpose here to discuss it. It has become known by the conditions in some responsible services as the Army, Navy, and Air Force have been remarkably improved.

General's Loyalty

General evidence of the shortage is to be seen in the statement of 1922. The main cause for the shortage has been the loss of recruits, which has been the result of a combination of factors. The Chief Constable has expressed his anxiety to the Home Office, and it is to be hoped that the Home Office will take steps to meet the situation.

Conditions in the country as a whole very unfavorable, but nowhere so the case of the Metropolitan Police. The latter, which is the largest of the forces, has suffered the most serious effects in the Metropolitan Police. It has been noted that the Metropolitan Police has been reduced to a mere skeleton force. The Home Office has been asked to consider the position of the Metropolitan Police.

analogy between the courteous and considerate methods employed by the Income Tax Commissioner and the curt and ruthless efforts of the tax payers! While, therefore, the yield of an amount so great in excess of that estimated, and must seem at first thought a big argument in favour of the retention of Income Tax, it is by no means the only, nor is it necessarily the most important, standard by which the desirability or otherwise of the tax to conditions in this country may be gauged. An examination, possibly over a longer period, may tend to show that the very withdrawal of large sums of money from the country has the effect of retarding schemes of development so necessary in young and largely underdeveloped country and that viewed from this wider aspect, the result may not seem quite so estimable. The above considerations which the Committee will have to bear in mind are among the "value for money" factor which will influence the tax in relation to the well-being of the Colony.

The report is, however, interesting, for it provides a definite basis for argument. The question now should be approached without prejudice with a view to its being resolved in the best interests of Kenya.

The sums amount to five and a half million pounds, and Mr. Wright said that it was an extraordinary suggestion that a struggling body of settlers with in their early stages of development should be saddled with a loan of over 40 years on which they had no financial resources.

The House of the Government has been requested by the Financial Secretary to issue a statement explaining the position in regard to the grants made in 1936 and 1937 under the Uganda Railway Acts.

LORD DELAMERE and the making of Kenya
 Review by "The Times":
 "White Man's Country" is an interesting and remarkable book. It is like a study two subjects, as the author's "Lord Delamere and the Making of Kenya" explains. In part, it is a biography of a colonial hero, in part it is a history of a nation and a people's birth. Mr. Huxley was right to combine the two, since they were for more than thirty years so closely interwoven that to write of one without the other would be almost impossible. We have yielded a long time for a book of this sort.

GOVERNMENT ACCEPTS AGRICULTURE MOTION

(Continued from Page 1)

under consideration and no useful purpose would be served at this stage in discussing them, but he confessed that he had been engaged by the Minister for Finance Goals.

Regarding the coffee industry, Government, and indeed His Excellency, had been in touch with the Coffee Board and practical discussions were being held with the hope that some workable scheme might be evolved.

Reverting to the question of loans, Mr. Nettle stated that he would be prepared to consider loans available for proposals and economic assistance for the coffee industry. He stated that the amount of money that the Government had set aside for agricultural purposes in the Budget was 5,775,000 shillings and was being added to weekly.

Money had been made available for economic schemes, and he was afraid had also been made available for some economic schemes, and he thought there was some force in the criticism made by the member for Uasin Gishu that closer supervision should be exercised in future. But this required additional staff.

S.B.S. on 'Kenya's Courage'

The Chief Native Commissioner first referred to the charge that the settlement report had been hastily prepared. He stated that the report was for a great deal of work over a long period. The draft report was prepared some months ago but circumstances over which he had no control had delayed the production of it.

Dealing with the de-stocking campaign he stated that they had been faced with this problem for many years and that all that he does had been done to root out the gravity of the situation on the ground. This problem was not confined to Kenya alone and he was glad to say that in Kenya we have had the courage of our convictions, which is to strike at the root of the evil—overstocking. No other country had dared to do so and we are determined to carry it through.

Mr. Hocking outlined the events leading up to the present state of affairs. He said the Carter Commission had not realized the gravity of the situation, which had grown steadily worse. Dr. Paul Price was appointed to investigate the state of the Uasin Gishu and submitted a most gloomy picture than that expressed by the Carter Commission.

The speaker mentioned that the Union was spending 10 millions in the Native reserves but added that the Union had not tackled the problem of overstocking. "They

cannot solve the problem by granting additional land. You have got to deal steadily and by that drastic and rapid action in the reserves. The Government has been able to the situation and we have done our best to improve on the people the practice of the settlement. We are ahead of other people in the way of dealing with the problem.

The C.M.C. should be assumed that the Government had accepted the proposals and announced the fact. The Government had accepted the proposals and announced the fact. The Government had accepted the proposals and announced the fact.

Machakos News

The Native wanted to cultivate the land and at the same time to carry stock on the land. While the Government was reluctant to do this, the Government was to restore the balance between stock and crops. Kenya's attitude was largely in favor of stock and was given a chance if it would again be held.

In conclusion, the C.M.C. said

that he had been authorized by the Governor to state that the settlement report to the Chief he would give. He stated that the settlement report would be given a chance if it would again be held.

De-stocking in Sumburu Area

GOVERNMENT ACCEPTS AGRICULTURE MOTION

(Continued from Page 1)

Regarding the coffee industry, Government, and indeed the Ministry, had been direct touch with the Coffee Board and practical discussion being held. It is expected that some workable scheme would be worked out.

Reverting to the question of loans, proposals and schemes were available for scrutiny on the subject. It was reported to learn that the secretary to the Agricultural Bank was expected to visit the bank was being added to the staff.

Money had been made available for exchange schemes, and it was stated that it had been made available for some exchange schemes, and it was thought there was some fear of the criticism made by the members of the House that these operations should be approved on this revised additional staff.

The Chief Justice's suggestion referred to the charge that the settlement report had been unduly delayed. He stated that he never called for a great deal of work over a wide field. The death report was prepared some months ago but circumstances were which the production of it.

Dealing with the de-facto change, he stated that they had been found with the problem. He was very sure that all that could be done had been done to promote the growth of the situation.

Mr. Hoisington outlined the events leading up to the present state of affairs. He said the Chief Justice had not realized the proposition of the situation, which had given steadily worse. Dr. Pugh Bruce was reported at the conclusion of the Uganda Revenue and asked a much plainer picture than that expressed by the Chief Justice.

KEYNA LAND BILLS PASSED
Final Unofficial Appeals For "White" Qualification Fails

THE NATIVE LANDS TRUST BILL AND THE CROWN LANDS AMENDMENT BILL, WHICH ARE DESIGNED TO GIVE EFFECT TO THE RECOMMENDATIONS OF THE KEENYA COMMISSION, PASSED THEIR THIRD READING IN LEGISLATIVE COUNCIL YESTERDAY, AND COUNCIL ADJOURNED BINE DIE.

The reports of the Select Committee on the two Bills were debated at length and a number of amendments were unanimously proposed from the unofficial side, and the Attorney General stated that much had been done to meet the views of the speakers stressed the fact that it would probably be the first appeal they would have of debating the land legislation, and would not constitute the inception of a qualification of the Highlands as "European."

The Bills will not come into operation until Orders in Council have been made by His Majesty providing for the amalgamation of the Native Lands Trust and the Highlands Board, and the Attorney General announced on such date as the Governor shall appoint by proclamation in the Gazette.

The motion by the Attorney General that Select Committee reports on the Native Lands Trust Bill and the Crown Lands (Amendment) Bill be taken into consideration by the Kenya Legislative Council in meeting that the Native Lands Trust Bill be adopted, the Attorney General introduced the motion, and the Attorney General moved the adoption of the report of the Committee, and the Attorney General moved that the report be received and that the report be printed and that the report be laid on the table.

The Attorney General, in reference to the Native Lands Trust Bill, stated that the formula of the Bill was a concession to the white race and the fact that the Bill was not a concession to the white race was a concession to the white race. KENYA LAND BILLS PASSED Final Unofficial Appeals For "White" Qualification Fails

THE NATIVE LANDS TRUST BILL AND THE CROWN LANDS AMENDMENT BILL, WHICH ARE DESIGNED TO GIVE EFFECT TO THE RECOMMENDATIONS OF THE KENYA LAND COMMISSION, PASSED THEIR THIRD READING IN LEGISLATIVE COUNCIL YESTERDAY, AND COUNCIL ADJOURNED SINCE DID.

The reports of the Select Committee on the two bills were debated at length and a number of amendments were unsuccess- fully proposed from the opposition side, and the Attorney General stated that much had been done to meet the wishes of Elected Members in Committee. Several unopposed amendments stressed the fact that it would probably be the last session they would have of debating the land legislation, and Major Geoffrey Bantick and Lord Francis Balfour made final appeals, without success, for the insertion of a qualification of the Highlands as "European."

The bills will not take effect until Orders in Council have been made by His Majesty the King for the establish- ment of a Native Lands Trust and a Highlands Board, and shall thereafter come into operation on such date as the Governor shall appoint by proclamation in the Gazette.

The motion by the Attorney General that Select Committee reports on the Native Lands Trust Bill and the Crown Lands Amendment Bill be accepted were debated until 11.15 p.m. on Thursday.

It was stated that the Native Lands Trust Bill report be adopted, the Attorney General said that the report of Elected Members in Committee suggested by the Com- mittee clarified the Bill and removed any doubt as to its meaning, and he then proceeded to explain the various provisions of the suggested Bill.

Major R. W. Campbell-Bentick moved that the Bill be referred to a sub-committee to consider the provisions of the Bill which related to the Highlands, and that the Bill be referred to a sub-committee to consider the provisions of the Bill which related to the Native Lands Trust.

The Attorney General said that he was of the opinion that the point was not raised by the motion, and that he would not be obliged to move any amendments to the Bill.

MINING AND COMMERCIAL FINANCIAL REVIEW

(By GEORGE A. TYSON)

One of the conventional wisdoms has been that the British Government and the other Governments of the world are so busy that they cannot spare a man to look after the affairs of the heavy industry type, and that the only way to get the most out of these things is to let them alone. It is a mistake to suppose that these things are left to themselves. In fact, the most successful of these things are those which have been carefully supervised by the Government.

In the United States on Great Britain, the Government has been very active in the past few years. In the United States, the Government has been very active in the past few years. In the United States, the Government has been very active in the past few years.

The United States and Europe

How heavily do the destinies of this generation rest upon the Government of the United States? How many lands in Europe and Asia, eyes are turned towards the large, strong, English-speaking community, which has lately been established by its own energy? It is responsive to the urgent world issues. Will the United States throw its weight into the scale of peace and democracy, or will it remain a bystander while there remains, on the one side, the forces which remain spectators of the disaster that occurred, and on the other, the forces which will build up what need not be a new world?

By the Rt. Hon. WINSTON CHURCHILL P.C., M.P.

It is not at all surprising that the American people are so deeply interested in the destinies of the United States. The American people are so deeply interested in the destinies of the United States. The American people are so deeply interested in the destinies of the United States.

CONVERSATION PIECE

It matters not how many uttered a word of it, so long as it is well known and commensurate praise—Cohen

PAMPHLET ON CHILD LABOUR.

During the past few days have been sent out 400,000 copies of a pamphlet on child labour. The pamphlet is written by the Hon. Mr. W. C. O'Brien and is being widely distributed in Ireland. The first paragraph of the pamphlet reads: "It is not only the children of the poor who are suffering from child labour, but the children of the middle and upper classes are also suffering from it. The children of the middle and upper classes are also suffering from it. The children of the middle and upper classes are also suffering from it."

IN DEFENCE OF THE I.R.A. LEADERS

It is not at all surprising that the American people are so deeply interested in the destinies of the United States. The American people are so deeply interested in the destinies of the United States. The American people are so deeply interested in the destinies of the United States.

What conditions prevail in the United States? The conditions in the United States are such that the Government is unable to do anything to help the people. The Government is unable to do anything to help the people. The Government is unable to do anything to help the people.

THE SOUTH-WEST PROVINCE OF YUNNAN

YUNNAN is the remotest province of China proper and the only one which is not a part of Indo-China. It is mountainous, relatively scarcely populated, and has a very peculiar climate, in parts almost unexplored even by the Chinese. The area of the great Ming Empire which was the nucleus of the present dominion of Yunnan almost the whole of the province. A fairly large section of the population is Mohammedan and an even larger section of the true Chinese at all other races who bear the names of Lolos, Miaos, Si, Wa, as well as other peoples, and who live on the way off the beaten track to the east of the province. The province was until recently almost as inaccessible as the interior of the South and it is small and that among the twelve largest inhabited provinces of China stronger than national.

Recent history has shown that the country, destined people to have only a few years of peace, and that the neighboring provinces have been taken over by the Chinese. It was through Yunnan that the Chinese have been forced to cross mountains and valleys, and that the French, a few years ago, pushed a narrow gauge railway across their territory and that the British, who have been in the province since 1897, have become a sort of back double. The province has been a source of Hongkong stocks and of opium. The province has been a source of Hongkong stocks and of opium. The province has been a source of Hongkong stocks and of opium.

its advantage to see that the province should not fall into the hands of the Japanese. The Chinese troops fought well.

By the Yunnan Authorities he was not going to direct their military operations. After the fall of Hanoi, numerous government officials, officers, and military detachments were transferred to Yunnan by order of the Generalissimo. I will not tell you just where or where they went. But the effect of their entrance into the province was immediate. For the local people began to realize that the province was a really splendid one.

CHINA'S SOUTH AFRICA - Last Week

Mr. Pirow's 'Bushveld Strategy' on trial - whilst he grows more dictatorial

The highlight of the week was the departure of the Voortrekker (General) Van Rensburg (Dutch) and Pirow's (White) by a ship which departed the river mouth of the Orange at 10 p.m. when Mr. J. J. Pirow's wife, Mrs. Pirow, left a message in the nature of a farewell to the Governor of the Cape (Dutch East India Company Settlement) at the best of Adenbury. A letter from the Union at which the Admiral Commander-in-Chief of the Africa Station, Royal Navy, provided and "The King" was well pleased and honored. Another thing, he called it a "proper Bushveldt." The Mayor of Bathurst ordered a very strong protest. This has been done in the Active Cities by a well-known and capable military professional, the actual availability of equipment is not a matter of course. It could not be made in any other way. A much more serious matter to many of those who are not in the Army. It is a matter of course. It could not be made in any other way. The Mayor of Bathurst ordered a very strong protest. It was found, for instance, that it might have been and doubtless was expected, the command-officers were far behind the officers from the urban cities in military knowledge. Ways and means of attacking such "urban" cities are now being considered. It is a matter of course. It could not be made in any other way. The Mayor of Bathurst ordered a very strong protest. NEW WEAPONS ARE BEING FORGED IN THE FIGHT AGAINST MEALY BUG

Heard a Broadcast Talk given by Dr. R. H. PIC NOTES The Management of a Breeding Herd

The following article written by Mr. G. M. Hart, and published in the "Pig Breeder" Annual 1936-37 is based on conditions in England but it contains content and advice that should be of stimulating value in Kenya, particularly to farmers who are contemplating an extension of their farming operations to include Pigs—(Agricultural Editor).

FARMS differ widely in their natural advantages for pig breeding, and the system of management of the breeding herd varies to some extent, but the principles are the same. The first consideration is the selection of the best system for the particular conditions. The second consideration is the selection of the best stock for the particular conditions. The third consideration is the selection of the best system for the particular conditions.

It has always been recognized by farmers how comparatively easy it is to breed a pig of exceptional size at weaning from fresh sows. The main reason for this is the fact that the pig is a creature of habit, and it is not difficult to get it to eat a certain amount of food every day. The pig is a creature of habit, and it is not difficult to get it to eat a certain amount of food every day.

I would like to end by saying that the pig is a creature of habit, and it is not difficult to get it to eat a certain amount of food every day. Income Tax Figures

WEDNESDAY, AUGUST 12, 1938. What are the views regarding the present and otherwise of the imposition of Income Tax in Kenya there will be general agreement to believe that the figures published today will be of considerable interest to the public. It is not improbable that the figures published today will come as a surprise to the general public. Certainly it is beyond argument in value as compared with the estimated total amount of Income Tax in the first complete year of its operation was 24,300—the actual yield is 210,000. It is a true incidental fact that the actual cost of collection is more than twice the estimated figure but it represents a very small proportion of the total than was expected and it is doubtful if many people will consent to contend that in all the circumstances £2,000 is an unreasonable expenditure for the acquisition of £100,000.

INCOME TAX

To the Editor, "E. A. Standen." Sir,—It is unfortunate that, as far as income tax is concerned, the British Government has been unable to secure the necessary support...

With regard to the first question, many experts of taxation have reported that the last two hundred years of Adam Smith's "Wealth of Nations," published in 1776, is still standard work and his four Principles of Taxation have been consistently elaborated on by later writers...

It is not possible to devise a tax which is not objectionable to the taxpayer. Such a tax would, of course, be paid but it would not comply with the conditions of a fair tax...

In this connection, Nicholson remarks that "taxation ought, if possible, to have unimpaired the labourer's power to acquire the necessities of life, and to be regarded as a means of raising the standard of living in a particular country."

Need for Caution
 TUESDAY, AUGUST 14, 1934.
 The figures published recently
 by the British Customs Depart-
 ment are deserving of careful
 study, since they may be taken
 as a fairly reliable index of the
 state of trade in Kenya and
 Uganda. The latest, which
 ...of the African
 ...Standard yesterday, do
 ...make cheerful reading. They
 ...show that the value of domestic
 ...from Kenya and Uganda
 ...for the first six months of this
 ...year declined by nearly one
 ...percent from Kenya and
 ...Kenya share of the shortfall was
 ...£149,500. The value of Kenya's
 ...exports for June was consid-
 ...ably less than for the corre-
 ...sponding period of 1937, though
 ...in the case of Uganda a fairly
 ...substantial increase was
 ...revealed for that month com-
 ...pared with June of last year.
 ...In his address to the
 ...Council a few days ago His Ex-
 ...cellency the Governor, com-
 ...menting on the "salvo" of agree-
 ...ment—British—referred to
 ...to the first five months of this
 ...year—referred to the fact
 ...that there is a noticeable decline
 ...in value as compared with a
 ...year ago of approximately six
 ...per cent. The Governor said
 ...were compensatory features
 ...and on the whole the level of
 ...of exports is satisfactory.
 ...His Excellency continued: "The
 ...reduction in export values must
 ...be expected. The result is
 ...upon trade generally and there
 ...is some evidence of this effect,
 ...while it is not possible to
 ...be reached. I can find no reason
 ...to anticipate anything in the
 ...nature of slump conditions or
 ...any cause for a serious trade
 ...recession, but the economic
 ...conditions of the Colony as a
 ...whole." Since then the
 ...figures have become avail-
 ...able, it is not surprising that
 ...some £20,000 in the value of
 ...Kenya exports compared with
 ...the corresponding month of last
 ...year.

Income Tax Figures
 WEDNESDAY, AUGUST 15, 1934.
 Whatever one's views regarding
 the suitability of otherwise
 the imposition of Income Tax
 in Kenya, there will be general
 agreement that the figures re-
 ported compiled by the Com-
 missioner of Income Tax for the
 first six months of this year
 Committee and laid on the table
 of Legislative Council yesterday
 is a clear, unbiased and valua-
 ble statement of facts. It
 should prove of the greatest
 possible assistance to the
 ...and the
 ...of the Committee
 ...has been charged and it
 ...provides, too, definite figures
 ...for June, was consid-
 ...the retention of the tax can be
 ...argued. Necessarily up to now
 ...there has been too much reliance
 ...upon theory by both supporters
 ...and opponents of the tax, but
 ...that was inevitable in the
 ...absence of a sufficiently long
 ...experience of the practical work-
 ...ing of the Income Tax Ord-
 ...inances.

Transport Development of Uganda

It is estimated that the Com-
 missioner will have to incur in
 assessing the real value of
 the tax in relation to the well-
 being of the people.

The report is valuable, how-
 ever, since it provides a definite
 basis for the Government's
 opinion now should be adopted
 without prejudice with a view
 to its being carried in the best
 interests of Kenya.

THE EYES OF EUROPE ARE ON THE GERMAN MILITARY MANOEUVRES, NOW IN FULL SWING IN THE RHINE-LAND AND ON THE CZECHOSLOVAKIAN BORDERS, AND ALTHOUGH THE PRESS OF ALL COUNTRIES HAS FOR THE WHOLE, BEEN RESTRICTED IN COMMENT, IT IS CONSIDERED THAT LARGE-SCALE MILITARY OPERATIONS ARE TO BE DEPRECIATED WITH EUROPEAN AFFAIRS IN THEIR PRESENT STATE.

The Czechoslovakian and French papers the suggestion that the manoeuvres may be inflated as a threat to Germany is discussed, and one French newspaper says that the manoeuvres are a dangerous and ill-timed bluff.

Hitler is stated to have discussed preparations for the annual Nazi Party Conference at Nuremberg. The thinking is that there will be a shortage of petrol in the coming week, caused by the manoeuvres. The situation therefore seems to be the manoeuvres, together with the meeting at Nuremberg, and the German newspapers today are anxious to take part in the manoeuvres.

OCEAN LINERS ON GREAT LAKES?

Reference to the proposals for developing the St. Lawrence as a shipping highway to the Great Lakes for ocean-going liners was made by President Roosevelt, speaking on Thursday at Montreal. The plan is estimated to cost about \$100 million.

"How it Canada and the United States work out the plan at the same time?"

NEW CONCESSIONS TO SUDETENS

Czech Premier's Statement To Lord Runciman

NEW CONCESSIONS BY THE CZECHOSLOVAKIAN GOVERNMENT TO THE SUDETEN GERMAN ELEMENT WAS ANNOUNCED BY DR. HODZA, THE CZECH PRIME MINISTER, WHEN HE VISITED LORD RUNCIMAN YESTERDAY. THE MOST IMPORTANT IS THE PROMISE THAT SUDETENS WILL BE APPOINTED AS DISTRICT GOVERNORS IN FOUR OF THE SUDETEN AREAS.

The policy of the German government was criticised in a pamphlet, issued by a secret organisation, and circulated by post in Berlin on Thursday. Anti-Czech propaganda is attacked, and the pamphlet points out that, before the Nazis came into power, the various nationalities in Czechoslovakia lived together fairly peacefully.

He's not in Berlin. It was said by "The Daily Express" in London.

The League Council is preparing to meet on its 15th anniversary in Geneva and Runciman is to attend that meeting. The League Council is to be held in Geneva on the 21st of September. It is expected that Runciman will be accompanied by the British Ambassador, Sir Horace Rumbold.

R. H. of course, has known who was responsible for the proclamation.

THE YELLOW PERIL

I FULLY intended this week to quote from my notes received about people's prejudices, unfortunately I have been so busy that I will have to hold over for another week, bearing holes in my desk, so if there are any notes, send them along before Wednesday next.

This week almost every picture deals with the Orient. Well I must admit that sinister Chinasmen are mentioned on several occasions...

(Playhouse) Director: GEORGE FITZGERALD. Player: ROBERT MONTGOMERY, ROSALIND RUSSELL, ROBERT BENTCHLEY, MICKY RODNEY, HELEN VINCHON.

I enjoyed "Live, Love and Learn" so much. It is an interesting, entertaining and sensibly credible picture who meets, falls in love with, and marries a wealthy society girl...

(Grand) Director: LEWIS MILESTONE. Player: GARY COOPER, MADGE BRUBAKER, ALAN LEE.

I saw this film in nearly all corners of the globe—London, America, Paris, Monte Carlo, Egypt and elsewhere, on his native land...

The Man Who Changed His Mind

(Grand, Two, Two) Director: ROBERT FRENCH. Player: BOB HOPE, ANNA LEE, JOHN LODGE, FRANK BELLAIR, DONALD BRATHWELL.

This story, comic and fantastic as it is, is rather better than it sounds like to be in a theatrical direction at the same moment, the story is a very simple yarn, but it is a good thing with transferring the mundanity of our thinking over...

to another, he succeeds in doing this with cleverness; yet there are plenty who are annoyed by the way the picture is acted by an extremely practical and judiciously pretty woman whose playboy is Andy Lee. It is to be hoped that it will benefit humanity.

The Painted Veil

(Grand) Player: GRETA GARBO, MERVIN FRANK, MARSHALL GEORGE.

This is Somerset Maugham's trans-Asian drama in China. The doctor fighting a particularly virulent typhoid epidemic, is played by Herbert Marshall, and his wife and his new husband, Greta Garbo, is the wife and is more human, frail and maternal than usual, and the epidemic does not seem to be the lower, though pleasant and not very active in his intention.

Films From London

The new films recently deal with the best of the three "Mills" Tough Day" at Loveridge Square, a parallel story of the same and the gambler trapped in "Dead End".

YOU MUST BE TIRED

of the ordinary type of advertisement which comes up, but if you are not too tired, so we thought, we would try something different. Perhaps something in the way of a guiding chat about the films that are coming next week.

"The General Died At Dawn"

which is a Paramount picture featuring GARY COOPER whom you will remember for his performance in "Mr. Deeds Goes to Town," and MADEIRA GARNOLD whose work made "Secret Agent" one of the most popular thrillers Nairobi has had.

"Live, Love and Learn"

which stars ROBERT MONTGOMERY, ROSALIND RUSSELL, with a supporting cast including ROBERT BENTCHLEY, MICKY RODNEY and HELEN VINCHON. ROBERT MONTGOMERY'S versatility alone in his dramatic "Night Mail" and his comedy in "Petroleum Fever" assures us that in "LIVE, LOVE AND LEARN" we have a film which can be unobtainably recommended to those who like their evening diet of entertainment spiced with laughter.

"Charlie Chan in Shanghai"

which looks like being one of the most exciting and thrilling of this series. Indeed the "Hollywood Reporter" says "CHARLIE CHAN IN SHANGHAI" is the best of the group so far.

"The Man Who Changed His Mind"

Karloff is supported by ANNA LEE and JOHN LODGE who is making very good progress in the British film world. The film does not contain any frightful scenes, but it is a first-class thrilling melodrama.
