### ROAD TRANSPORT VERSUS RAIL

(Continued from Page 5)

border road, leading to heavy loss of goods. Tanganyika National Road, shortly to be opened, is likely to be a boon to the nation and Tanganyika would lose revenue, but carrying goods by road, whereas they transport of them generally would benefit most owners of Districts.

Several commentaries, in fact, had already been made in the past, according to the ruling relative to the Government's proposals, which were made in 1941, in the report of the Commission on Road Transport, which was published in 1942. It is interesting to note that the same proposals would not be put forward, but carrying goods by road, from them to Mombasa, a further 12 miles.

Furthermore, several Indian merchants had recently completed stages at Taveta. Others had bought trading posts, there and intended operation stages there. This latter fact was considered by the Government, which was a question put to them as to whether the existing arrangement of the road was sufficient to meet the needs of the present traffic and the future increase of traffic.

### UNABLE TO GET... OR KEEP FRESH MILK? THEN READ THIS—

Anywhere... anytime... you can have fresh milk—no matter how far away from a cow you may live. Fresh milk is just as delicious as milk right from the cow, with all the nutritive qualities so vital to the proper growth and development of your children.

That milk is KLIM—the finest cow's milk, powdered by a patented process that preserves all its natural flavor and nourishing goodness. Only the water is removed, nothing added—then it is packed by an exclusive method in vacuum sealed tins. That is why KLIM keeps in any climate... without ice. Just add water to KLIM—and, as you need it, you obtain creamy, fresh milk.

KLIM is absolutely safe. Doctors everywhere recommend it for babies because they know that the utmost care is taken in every step of production to insure the purity and uniform food value of KLIM. Added to the advantage of uniformity, purity and convenience, easy digestibility which makes KLIM particularly suitable for your stomachs.

**Try This For the next 30 days**

FOR the next thirty days drink a cup of Postum at least once each day. You will enjoy the delicious, rich, mellow taste. You will rely Postum for its flavor, and at the same time you will feel much better.

Postum is an ideal health drink. Made only of pure, wholesome grain abundant in health value, Postum contains no harmful drugs such as tannin and caffeine. It does not harm digestion, cause nervousness or sleeplessness. You will feel better, work better and sleep better.

For the children, make it with hot milk instead of water—it is genuinely good for them.

He will, however, be glad to receive letters, and to return them if possible, but is not responsible for their publication.

**REFUGES**

To the Editor, "E. A. Standard."  
Sir—Recent letters in your issue dealing on the extent of the central staff based in the African Commission have been most interesting. I am sure that the Commission will be glad to receive letters, and to return them if possible, but is not responsible for their publication.

That there is more than one propaganda behind the great reputation of Jews on the Continent, I have no doubt, and every right-thinking man is fitted with every right sense to see that the Commission should allow our feelings to be expressed in this regard. I am sure that the Commission will be glad to receive letters, and to return them if possible, but is not responsible for their publication.

**NAIROBI, AUGUST 23, 1938.**

To the Editor, "E. A. Standard."  
Sir—Surely H. M. Harrison's editorial of August 12, ought to have a good deal of interest in Kenya. It is a most interesting article, and one which I am sure that the Commission will be glad to receive letters, and to return them if possible, but is not responsible for their publication.

**UGANDA DOTTEN COMMISSION**

To the Editor, "E. A. Standard."  
Sir—Learn from the issue of the Uganda Official Gazette (Circular) of July 21, that our Government Sir Philip Mitchell, K.C.M.G., has appointed a Commission to enquire into and report upon the present position of the cotton industry in Uganda. In this letter I am interested in the Commission which has been appointed by His Excellency our Governor, William M. Carter's Commission appointed in 1928.

**92 YEARS OLD - AND FIT AS A FIDDLE**

**PROHIBITION OF FIRE**

To the Editor, "E. A. Standard."  
Sir—With regard to the letter of an Irishman from your issue of August 12, I would like to say that the subject and my information is that the prohibition of fire is not in force in Kenya. It is only in force in the United Kingdom and in the other countries of the British Empire.

**HIGHER EDUCATION**

To the Editor, "E. A. Standard."  
Sir—I would like to see the list of the names of the students who are to be admitted to the University of Nairobi. I am sure that the Commission will be glad to receive letters, and to return them if possible, but is not responsible for their publication.

**KENYA PUBLICITY**

To the Editor, "E. A. Standard."  
Sir—The following extracts from the "Standard Dispatch" and "News Magazine" show the extent of publicity for the various Associations in Kenya.

**INDIAN VISITORS TO KENYA**

To the Editor, "E. A. Standard."  
Sir—In your issue of August 12, I read of the visit of the Indian visitors to Kenya. I am sure that the Commission will be glad to receive letters, and to return them if possible, but is not responsible for their publication.

# SERIOUS CHARGE QUASHED

## Tanganyika Judge's Comments

["STANDARD" (KORONAPPOPOPO?)  
The on Saturday, Aug. 21, Mr. Justice Bartley, at the High Court, Dar es Salaam, quashed a sentence of four months imprisonment for him on a charge of kidnapping (Barabini bin Kibakala at the second) on class subordinate murder (Tumelo on a charge of aiding and abetting) on the complaint of the Commissioner of Police, and ordered him to be released forthwith.

In the course of his judgment, Mr. Justice said:  
"It was stated that on a Saturday afternoon in March he (appellant) brought one, Salim Baidi, before the court at the High Court for the purpose of being charged with the offence of kidnapping. The offence made the accused fully aware of the charge."

"The charge is certainly free from mistake. Asset from the fact that the particulars of the charge were to disclose two separate offences of the offence of personating a public officer is only omitted when the person personating is not employed in the public service on an occasion when the letter is required to do any act or attend at any place by virtue of his employment. It is a person who is not employed in the public service and assumes to do any act or attend at any place for the purpose of doing any act by virtue of his employment."

"The particulars of the offence disclose the circumstances of the personation to bring it within the section. The magistrate committed his judgment by saying: 'This case is full of interest and mystery and it is merely a question of deciding which evidence is the more likely to be near the truth.'"

"In a civil action the more preponderance of probability, due regard being had to the burden of proof, is a sufficient basis of decision, but in a criminal case a much higher degree of assurance is required."

"Ones Defence"  
There are other defects in the judgment. The magistrate recommended that of the prosecution witnesses Shauri Kibakala has probably given the true account set in the removal of the accused. This mark was not taken into account on any evidence at the trial.

"The magistrate said 'One fact tells us the defence is better than the accused when he is right as his accomplice have let him escape.' The magistrate then said: 'It is possible that the accused was released on the strength of many of similar cases.'"

"Down Counsel suggested the conviction. He admitted that all irregularities pointed out by him had been admitted that a very properly directed would have found the accused guilty."

"I consider that it would be very dangerous indeed to uphold a conviction after such a trial. The conviction is quashed and the accused must be released forthwith."

# KING MAY VISIT THE U. S. A.

["STANDARD" (KORONAPPOPOPO?)  
There is a possibility that King George VI and Queen Elizabeth will visit the United States and Canada next year, but an arrangement has not yet been made. It is reported that the King and Queen would visit during the run of the New York World's Fair.

"I have heard nothing about a suggested visit," he said, "but it is not an impossibility. The King would not go until the summer session, because Canada would be too cold in the winter. Next summer is a long time away and nothing has been arranged yet."  
"But such a trip is a possibility."

**ASPRO**

the GREAT PROTECTION

Does not Harm the Heart

How to obtain protection against suffering and illness? That is the question. ASPRO is the answer. It is the greatest protector because of its many medicinal and germicidal qualities. For instance, after being steeped in the system, ASPRO is a germicide or germ-destroyer. It is also a uric acid, which is considered by many authorities to be the main cause of Rheumatism. Furthermore, ASPRO is an antipyretic or fever-reducer. Then, again, ASPRO is wonderfully effective in banishing sore throats and preventing infection. It is a very important fact that ASPRO has all these remarkable qualities yet it does not harm the heart—neither does it cause gastric upset nor indigestion.

**TO-day's Baraza**  
The baraza which His Excellency  
the Governor is to hold at  
Machakos today is an important  
occasion. It would be a mistake,  
however, for the Akamba to  
think for a moment that as a  
result of it there can be any  
fundamental change in  
Government's policy which  
is aimed at a proper correla-  
tion between the number of  
stock in the reserve and the  
carrying capacity of the land  
clear in his recent speech to  
Legislative Council that de-  
stabilising must continue and  
that measures for the rehabilita-  
tion of the reserve, distasteful  
as they are to the Administra-  
tion and to the African con-  
cerned, must be carried into  
effect. The fact is one which  
has the entire backing of the  
Colonial Office and appeals  
against it by the comparatively  
small non-cooperating section  
of the tribe have rightly been  
dismissed as being contrary to  
the best interests of the tribe  
and others as well as those who  
are loyally endeavouring to  
carry out the Government's  
policy.

The baraza will, however,  
provide an opportunity for  
mutual understanding and  
for the discussion of the  
proper methods to be adopted  
so that the programme may  
be put into effect with the  
minimum of inconvenience and  
hardship. It is to be hoped  
that the Government will  
move more for the people to  
leave—and this time from the  
lips of the Governor himself—  
and why it is inevitable.  
The importance of the human  
factor in handling one of the  
most difficult problems that has  
ever faced the Administration  
is self-evident and it is in  
this respect that His Excel-  
lency has a big opportunity of  
settling the minds of the people  
as to secure the sympathetic  
understanding of all who hear  
him.  
Because this is clearly an  
instance where there is much  
more involved than the mere  
question of official policy in  
the traditional official manner.  
The process cannot be completed  
satisfactorily by simply issuing  
instructions. The orders must  
be accompanied by efforts to  
gain the confidence and goodwill  
of the people. In this it will  
be realised, the personality of the  
official concerned is a most im-  
portant factor. However, it is  
regretted, the situation is a diffi-  
cult one, requiring great tact  
and infinite patience. It is  
to be hoped that His Excellency  
will do his utmost to ensure  
that the last stages which pre-  
ceded the putting into effect of  
the programme were not  
repeated. It is to be hoped that  
representative bodies have been  
formed and that they will be  
enabled to make it clear to the  
people that the programme  
decided upon as necessary would  
be carried out fairly and with  
out any modification of its essen-

however, for the Akamba to  
think for a moment that as a  
result of it there can be any  
fundamental change in  
Government's policy which  
is aimed at a proper correla-  
tion between the number of  
stock in the reserve and the  
carrying capacity of the land  
clear in his recent speech to  
Legislative Council that de-  
stabilising must continue and  
that measures for the rehabilita-  
tion of the reserve, distasteful  
as they are to the Administra-  
tion and to the African con-  
cerned, must be carried into  
effect. The fact is one which  
has the entire backing of the  
Colonial Office and appeals  
against it by the comparatively  
small non-cooperating section  
of the tribe have rightly been  
dismissed as being contrary to  
the best interests of the tribe

are loyally endeavouring to  
carry out the Government's

VALVE OF PUBLIC  
WORKS  
PROSPECT OF  
7,000 MILES  
NON-STOP  
"TRANSAP" CONSIDERATION  
A review of the extent to which  
public works in Germany have  
severely of trade slump was given  
in the Economic Conference on  
Public Association Conference at  
Cambridge today by Mr. H. G.  
Oster. He pointed out that public  
works expenditure had been in-  
creased to provide for the trade  
slump and it was by developing  
such services as housing, road con-  
struction, the building of govern-  
ment and the like that the de-  
mand for the products of the con-  
structional trades could be main-  
tained.

However, it should be noted that  
the housing programme and other  
public works expenditure, on an  
average, would be less than the  
total expenditure on public works  
in the past few years. The total  
population of Germany is about  
40 million and the total area is  
about 350,000 square miles. The  
total population of the British  
Empire is about 450 million and  
the total area is about 10 million  
square miles. The total population  
of the United States is about 120  
million and the total area is about  
3 million square miles. The total  
population of the world is about  
2,000 million and the total area  
is about 100 million square miles.

**ONE OF THE  
STANDARD**  
In the same section a paper on  
Germany's economic recovery was  
given by Mr. W. G. Gifford, Chief  
of the Economic Conference on  
Public Association Conference at

Oster. He pointed out that public  
works expenditure had been in-
