NEW BOUNDARIES AND GUARANTEED NEUTRALITY FOR CZECHS? REPORTED B BRITISH PLAN

Full Agreement Between France And Britain

SUDDEN "ARMY" BUSY

NEW BOUNDARIES FOR CZECHOSLOVAKIA, WHICH IS TO BECOME A NEUTRAL STATE, AND A GUARANTEE OF THE BOUNDARIES BY THE POWERS—THIS IS REPORTED TO BE THE SUBSTANCE OF THE PLAN FOR THE SOLUTION OF THE CZECH-SLOVAK PROBLEM, AGREED UPON BY BRITISH AND FRENCH MINISTERS AFTER LONG CONSULTATIONS IN LONDON ON FRIDAY. IT WAS APPROVED BY THE BRITISH AND FRENCH CABINET MEETING IN LONDON AND PARIS YESTERDAY.

The plan, it is said, which was described by the Czech Prime Minister on Sunday night as "unacceptable" and by Signor Mussolini as the only possible solution, is reported to have been dropped.

The only incidents reported from Czechoslovakia yesterday were those in which Sudeten of the "Free Corps" crossed the frontier from Germany, attacked two customs posts, and then withdrew into Germany. A Sudeten official says that the attacks are part of the policy of the new organisation in freeing their home country, and that they will continue.

In addition to the meeting of the League Council, which the British and French Prime Ministers and Foreign Ministers attended on Friday at Downing Street, they had held another little later this morning when the following communication was sent:

"After full discussion of the present international situation, the representatives of the British and French Governments are in complete agreement on the following points:

"The plan to be submitted, and which is to be based on the withdrawal of the Czech frontier, and the Czechoslovakian Cabinet, also met this morning.

The British Cabinet meeting took place on Friday, and it is understood that the question of a publicist has been discussed.

MOMBASA CHAMBER ON DEVELOPMENT

£7,000,000 To £10,000,000 Loan Visualised by Elected Member

Memorandum on East African Development, produced by a sub-committee of the Mombasa Chamber of Commerce and Agriculture, was adopted by the monthly meeting of the Chamber.

In the course of the debate the Elected Member for Mombasa (Mr. W. G. Nicol) referred to the question of a loan. Some people, he said, had the idea that £500,000 was enough but he himself visualised a sum of between £7,000,000 and £10,000,000—to obtain this they must have Treasury backing.

Several matters from Mombasa to be dealt with before the annual session of the Chamber. The Elected Member stated that before the monthly meeting of the Chamber a sub-committee of the Chamber of Commerce and Agriculture, headed by the Elected Member, had been appointed to consider the Development of East Africa.

Mr. Nicol stated that he had received a great deal of criticism of the report in the past. He stated that he had no objection to the development of secondary industries, but he was not in favour of the development of primary industries.

People with money, stated Mr. Nicol, were not coming to the territories. There was a great deal of money in the territories, but they had no proper means of getting it out. In the old days, capital was sent to the territories, but now it is sent to the East.

There were two methods of development one that settlers would come and then they would develop the country and communications made the speaker stated that he had made first use of the country. The speaker stated that he had made first use of the country.

It is also reported that Herr Hitler received the Polish Ambassador in Berlin. (Ruter)

THE LATEST NEWS OF THE EUROPEAN SITUATION RECEIVED AT PRESS TIME LAST NIGHT WAS AS FOLLOWS:

The German official statement issued after the visit of a Hungarian delegation to Herr Hitler at Berchtesgaden says: 'The untenable situation in Czechoslovakia was examined. Herr Hitler gave a review of German problems and the Hungarian Minister spoke of the "aggravated" claim of the entire Hungarian people for the rights of self-determination of their oppressed communities in Czechoslovakia.'

President Roosevelt, photographed here with the well-known Republican and isolationist, Senator Borah, is charged by the American press with calling a conference to discuss the Hitler-ACT. RAIN COATS For Youths and Men

From NAKURU 'Standard' Correspondent - NAKURU FLOWER SHOW

1938's Wreath Caused Drop In Quality

The Rift Valley branch of the K.H.S. held its ninth annual show on September 18th. Mrs. Davies being the big attraction...

The entries were well up to standard in quantity, but their quality was not up to that of last year. This is not surprising for the number of 1938 had much better...

There were, however, many beautiful flowers and shrubs to be seen. There were several very excellent, and there is every sign of increasing the horticultural community.

Mr. James, Mr. Sewell and Mr. P. West were in keen competition for the best individual flower...

Mr. James' winning rose boy of "Dainty Rose" was more demonstrative than any other...

Shrubbery was strong. Mrs. Cook, prize winning with an excellent chrysanthemum specimen...

Mrs. Cooper's first in new or contemporary class, Mrs. Beccara was a very nice specimen of one of the most attractive of the South African...

An exhibit of outstanding merit was Mrs. Barnard's miniature roses in the new class "Cultivation of Plants"...

The Intelligentsia Collections were really good, and especially those Miss Bristle just secured the first prize...

It was obviously a good move on the Committee's part to introduce this class, for it gave scope to gardeners who are not so fortunate...

It happened this year that the extracts came from the higher strata, but excellent and high quality plants should also be received.

A Good Move It was obviously a good move on the Committee's part to introduce this class, for it gave scope to gardeners who are not so fortunate...

The Crisis

CZECH POINT OF VIEW EXPLAINED

To the Editor, "E. A. Standard," Sir—I realize day by day that queried about the Czechoslovak crisis must, however, about an enormous writing of the "standard press" has to be just when pretending that they and world opinion in general has not enough information from the other side, from Czechoslovakia, and not going to analyze this lack of information, but hope that your readers will be interested in the views of a Czechoslovak who left his country five months ago.

In the different century, partially mist or even of Czech provinces. That is why the rest of the Blagovest rule, where there were few Czech schools and the tendency was of course, to reduce their number. In addition, the leader of the Russian German Mr. Hrusovskiy, had a Czech. The Mayor, Mayor is partially a Czech, and naturally a Czech. They form historically, occasionally and naturally one people. The Czechoslovak Government, understood very well that the Czechs were suffering from German in the past, and that it would have to justify for all. It is not possible to be a Czech and not to be a Czech. It is not possible to be a Czech and not to be a Czech. It is not possible to be a Czech and not to be a Czech.

Czechoslovak State, which belonged to it for more than one thousand years, to give up economic resources to the territory of the State (the mountain to transfer to a natural for the Czechs). It is not possible to be a Czech and not to be a Czech. It is not possible to be a Czech and not to be a Czech. It is not possible to be a Czech and not to be a Czech.

Confessive will ask the Coffee Board for three more light on the reasons for the increasing production of the scheme for the centralization of coffee produced by the independent interests. On the face of it, the solution, which was only recently published in the September issue of the Coffee Bulletin, appears to offer clear advantages in the coffee plan, which, by no means the least to it, guarantees an immediate reduction in millage charges. It is not possible to be a Czech and not to be a Czech. It is not possible to be a Czech and not to be a Czech. It is not possible to be a Czech and not to be a Czech.

The East African Standard Ltd. FIRST AID DRESSINGS

First of all I would like to stress that the "Czechoslovak Problem" is not only the "Czechoslovak Problem" but also the "Czechoslovak Problem" of the German and Czech States, and the second place only the internal problem of Czechoslovakia. The population of Czechoslovakia consists of 62.24 per cent Czechs, 22.51 per cent Slovaks, 1.26 per cent Poles, and 3.99 per cent Moravians, Tagians, and Ruthenians. These figures are taken from the official statistics of 1936. The population of the "Czechoslovak Problem" is therefore more than 70 per cent of the population.

Under such circumstances, what value would any planning have? What would be the result of the success of the German Government in Germany? The Czechs and Germans would never give away the property of the Czechs and Germans.

Brown with Bisto instead of breadcrumbs when frying

Pried fish makes a delightful change browned with Bisto, and it's so appetizing as well. This is your cook should sprinkle the fillets of fish with Bisto before frying and is cooking they will turn a rich, tempting, golden brown colour. This Bisto way is better than the old-fashioned breadcrumb method and makes the use of eggs unnecessary.

MR. CHAMBERLAIN MEETS FUEHRER AGAIN TO-DAY

UP TO A LATE HOUR LAST NIGHT NOTHING WAS OFFICIALLY KNOWN OF THE DECISION OF THE CZECHOSLOVAKIAN GOVERNMENT ABOUT THE PRAGUE-BRITISH PLAN FOR THE SETTLEMENT OF THE SUDETEN DISPUTE, THOUGH IT WAS FREELY REPORTED THAT THE PLAN HAD IN FACT BEEN ACCEPTED. THE PRAGUE GOVERNMENT SPENT THE DAY IN CONSULTATION WITH THE HEADS OF THE POLITICAL PARTIES FORMING THE GOVERNMENT COALITION, AND IT WAS POINTED OUT THAT A REVISION OF THE FRONTIER DEMANDS, BY THE CONSTITUTION, A THREE-FIFTHS MAJORITY OF THE ASSEMBLY, AND THIS MIGHT BE HARD TO GET. THE URGENT NEED FOR A SPEEDY ACCEPTANCE WAS PRESSED BY BOTH BRITISH AND FRENCH MINISTERS.

The attitude of Poland and Hungary who their minorities is now becoming of increasing importance, and it is reported that Herr Hitler is supporting the GOVERNMENTS of both those countries in demanding cessation of the stress in which their national problems.

THE LATEST NEWS OF THE EUROPEAN SITUATION RECEIVED AT PRESS TIME LAST NIGHT WAS AS FOLLOWS: The Czechoslovak reply to the proposals has still not been received. There were conflicting reports throughout the day.

One report was that the Czech Government had accepted 'under irresistible pressure' from Britain and France.

Later this evening, the British Foreign Office said that the reply, promised for this afternoon, had been still further delayed. (Reuter.)

DESERT GENIUS GETS D. S. O.

Coloured as a schoolboy, the desert genius of a little band of British soldiers who spent and fought only at night. They are rewarded by three awards for gallantry announced in the London Gazette yesterday.

Captain Eric Charles Wingate, R.A., is given the D.S.O., Lieutenant R. N. Brown, Royal Ulster Rifles, a bar to the M.C., and Sergeant E. J. C. ...

At the War Office yesterday it was said: "Captain Wingate is a genius on the desert at night and his gallantry should be compared with Lawrence of Arabia."

Lawrence of Arabia was the first to use night marches, which he called his men and led them back every day. Lieutenant Brown, who is only twenty-two, volunteered for service under Captain Wingate. At midnight on July 10 he led a squad to the assistance of British soldiers culled under near Dabruya by heavily armed raiders. He attacked with such fury that the attackers fled, and although he was wounded he led his men after them.

The War Office announced "with deep regret" that after he had been recommended for the M.C., Lieutenant Law died on September 11 from wounds. This twenty-two-year-old officer had distinguished himself repeatedly under fire.

Awarding a party of Royal Engineers to Al Malakya on the night of July 12, the motor transport was used by ten colonials. At each stoppage the party was ambushed and Lieutenant Law, only a few minutes before, had supervised the removal of the wounded while snipers tried to pick him off.

B.B.C. SCHOOL FOR PREACHERS

The scheme which started the recent conference of Welsh and English regional officials has encouraged the B.B.C. to institute broadcast schools for dramatists at Cardiff and Bangor. So far they have given little thought to the particular craft of writing for the radio, one of the Welsh regional staff wrote the bulk of Welsh material of a highly professional standard and official. The schools will discuss the problems of technique in writing for periodicals, the stage and for broadcasting, and the technique of radio.

Arrangements are also to be made for Welsh churches to meet one of the Welsh regional staff to discuss the relationship of churches and radio. A Committee will meet some time ago. That Welsh preachers should be invited to give a series of talks to ministers to hear their own voices in literary form was known. "The New Year Morning" is about to be published.

An interesting outcome of the Welsh conference is the announcement that a series of Welsh films will be produced, starting in the autumn with a series of Welsh films on the subject of the Welsh language. The first film is "The Welshman's Boy" and the second is "The Welshman's Girl".

Starting on New York 4.30 P.M. 2/218. We are quoted at 100-100-100 Official Wireless Service.

Children At Cinema

DELINQUENCY EFFECT NOT LARGE

Although it was agreed that there was a need for a more general system of restriction to the cinema at which films that were considered to be of a nature that would be shown, speakers at a conference dealing with the cinema exhibition on Saturday afternoon expressed the view that even the attendance of children at "unsuitable" films did not have the effect on juvenile delinquency that was frequently alleged.

The conference, which was held under the auspices of the Scottish Film Council, was presided over by Lord Nigel Douglas-Hamilton, who pointed out that the conference was considering primarily the cinema for children under sixteen years of age. The conference also discussed the problem of the cinema for children under sixteen years of age.

The cinema for children under sixteen years of age is a problem which is being dealt with by the cinema industry for the time being. The cinema for children under sixteen years of age is a problem which is being dealt with by the cinema industry for the time being.

It was just possible that to some extent their relief from methods of delinquency rather than be inspired by seeing films to be delinquents.

In Proper Perspective. Considerable pieces of the Cinema Exhibitors' Association, Film with a view. He said he thought there was a great deal of nonsense talked about the effect of films on children. He would rather believe that the father with his children in order to see what his children are doing in the cinema. The "picture" had become almost an essential part of their existence. They went regularly week after week, sometimes more than once a week, and to get the matter into a proper perspective it had to be realized that whatever effect the cinema was having on children it was the commercial cinema, as opposed to special shows, that was giving that effect.

Some Principles. Interesting opinions on children's tastes in films were given by the speakers, and all agreed that advertisements films with plenty of action-bred "slap-stick" comedy, and some of the more popular programmes should consist of a feature film (one hour), a comedy or cartoon (20-30 minutes), a carefully selected interest film (10-20 minutes), a serial instalment (20 minutes), and if possible, a news reel, but care should be taken that it does not contain any horrific scenes.

Nothing was done to enlighten the public on what was being done at East Africa by way of social services for the Native. What was needed were three avenues the first of which, in addition to showing citizens what was being done in their territories, should show in a larger way leading product of each separate Territory as far as possible. Uganda county, Kenya Colony, Tanganyika and Zanzibar were all shown in separate parts to these exhibits and... The third avenue was to show the connecting link among the Railway—between the social services which make the Native a worker and producer of exports and also make him a consumer of the imports which the exports buy.

During the month at which the public was still green with the East Africa rally here. One of these is going out with his wife to an official opening in Tanganyika. The other four (including one lady) are going to arrive in Kenya. They called to get assistance in the way of letters, maps, etc., and to make a variety of enquiries on their way. The following is an interesting episode. Towards the end of the month I had a call from a Glasgow manufacturer who uses large quantities of heavy wire twines in his packing and despatch departments. He had been to the exhibition in the Exhibition his made enquiries as to what was being done in this way and found that it was Dutch. He thereupon gave instructions for a comparison to be made as regards quality and price with the East African product and he continues to be shown to the chief of the staff of the exhibition on this matter. My information that the Glasgow manufacturer had been here for such length in the grain was not known to me until...

E. A. Walker An unusually large number of past present and future East African visited the Pavilion during the month—-to be exact as recorded in the visitors' book and the A. A. representatives have not a moment's rest. The comments of most of these visitors were complimentary, but it was of interest to mention the reactions of three of them. The first an official from Tanganyika who had been subjected to the pavilion during the month of January. The second a man from the Farns Island who had been subjected to the pavilion during the month of January. The third a man from the Farns Island who had been subjected to the pavilion during the month of January.

Hurricane Havoc In New England And Connecticut

New York, September 22.

Floods and hurricanes are causing havoc on the Atlantic coast of the United States of America. Heavy rains have already caused severe floods in New England and particularly in Connecticut where damage is heavy and is steadily increasing. A gale blowing at 75 miles an hour is sweeping northwards.

The hurricane has already caused the deaths of at least 127 people. Thousands have been marooned, while hundreds and hundreds of miles of land have been flooded and hundreds of vessels destroyed. The millionaire resorts in Long Island and Rhode Island have been reduced to shambles.

On Long Island, telegraph, telephone and electric power lines have been brought down. The Long Island Railway has been washed away and the damage so far is put at nearly one million and thousands of people are marooned.

In New York City, sailing of the Queen Mary was delayed owing to the difficulty of getting out of the dock because of the wind.

The big fire here was started by the hurricane in New London, Connecticut. The streets are choked by the debris of the houses which were blown to ruins by the storm.

WINTER AIR MAIL SCHEDULE

The service will be operated by the airlines which are now operating on these routes.

AN EXILE IN LONDON

Writes about the charm of Autumn

CHILLY, misty mornings and a soft sunset are not far distant, but however much we may have looked forward to summer and regret its passing, there is no doubt that London at its best just now, the autumn of the atmosphere dials the lightness of even the most genial of petal times. Friends are meeting, and invitations are going out for parties, and the autumnal tints are beginning to show themselves in the parks and gardens. It is a time when the air is fresh and the sun is warm, and the leaves are beginning to turn. It is a time when the air is fresh and the sun is warm, and the leaves are beginning to turn.

When you give them WHOLESOME Cakes baked with 'Royal'

It isn't often that "good for you" means something really delicious. But when you're serving Royal baked cakes to the children, then "good for you" and "good to eat" are one and the same thing. You have the satisfaction of knowing that those cakes and scones are just as good for you as they are for the children.

Rugby, 'Soccer', Squash Rackets, Athletics, Golf, and Racing at Doncaster

At last the British rugby team of 1934 has risen to the heights which those of us who have travelled with them throughout their tour have always felt them capable of doing, and before 20 minutes had today they won the most thrilling game of the tour by beating the Springboks by one goal, three tries, one drop goal and one penalty (six drop goals).

The Springboks playing with the wind in the back, were leading at the interval by 13 points to 3, but we were concentrating on the We expected a conquest to be made in the second half and we were not disappointed.

Fotheringham Sings

Another story about a remarkable butler by JOHN HAYGATE

LET ME tell you, all you who haven't yet got one of your own, that the great advantage of a butler is you know things from him.

Of course, it began quite as usual. I remembered just as I was looking for the Southern Record one morning that I had thought to my good old with Quick as a flash Fotheringham extended a clean white folded pocket handkerchief.

After that I got into the habit of accepting things from him. On one or two occasions that I went to town, with the exception of my shoes and underwear, I got from Fotheringham. We were almost the same height and shape. Save for the fact that Fotheringham's clothes were a good deal better than mine did, you could have told us apart by the way we walked.

One day I was going to tell you about was the Duke's Bill and the Church of England. The Duke's Bill had been passed by the House of Commons. The Church of England was a subject which I had never before mentioned to you. I thought I would tell you about it. I thought I would tell you about it.

"Now, George," I said, "you never get a chance to show your own worth. I thought I would tell you about it. I thought I would tell you about it."

"I thought I would tell you about it. I thought I would tell you about it. I thought I would tell you about it. I thought I would tell you about it."

"I thought I would tell you about it. I thought I would tell you about it. I thought I would tell you about it. I thought I would tell you about it."

"I thought I would tell you about it. I thought I would tell you about it. I thought I would tell you about it. I thought I would tell you about it."

"I was not disappointed. The very first word I threw into the lake produced a scuffle. The muddy waters had soon become green and clear and out of the water at the end of an hour I had a lot of fish on my hook."

The Political London Receives More Attention Than The European Crisis

DESPITE the grim background of the European crisis, General Hertzog has been occupying about the South African stage, somewhat preoccupied with his own dignity. The incident was to be described by the London press as a political drama, never very high in the scale of a general election. The whole trouble began with General Hertzog's speech in the United Party's recent General Election. Hertzog, as a personal view of confidence in himself. The truth was that he was not so sure of himself as he appeared to be. He was not so sure of himself as he appeared to be. He was not so sure of himself as he appeared to be.

Thoughts from a Farmer's Fireside

At a firming, the loss of starting a farm, there are few items which receive more varied opinions than the alignment for living expenses. One man may say that the minimum income should be £100 a month, at a time when he has only £50 in the bank. Another may say that £200 a year is a better figure.

I agree that it is right to make a full estimate of the expenses of a farm. It is not enough to look at the gross income of the farm. One must also consider the cost of the land, the cost of the buildings, and the cost of the equipment.

The standard of the well-managed farm is high. It is not enough to have a good crop. One must also have a good stock, and a good house, and a good outbuilding.

The farmer who is not satisfied with his present position should consider the possibility of a change. He should not be content with a small profit. He should aim for a larger one.

And what are we doing with our Politics . . . ? by JUNIPER

I am not a Politician. I hope the strict sense of my word. Yet I am proud of my nationality: the British Empire is the best in the world. It is the only one which is worth fighting for.

It is not enough to have a good crop. One must also have a good stock, and a good house, and a good outbuilding. The farmer who is not satisfied with his present position should consider the possibility of a change.

STARVING

His master thought, like many a mistaken dog-owner, that he was kindless to feed him the one of the family. But he was not getting strength from his food, for almost all "human" foods fail to give a dog nourishment, moreover they are useless to his health with digestive organs which do not work properly. The dog who is starved by the digestive juices is starved by "starvation" because he does not get the necessary aid for keeping food in him. That is why who owners choose their dogs should get Spratt's Blood Food. Every one of these is a "hard-earned" diet prepared by experts to meet the dog's own nourishment needs. Your dog's health is assured if you insist on SPRATT'S.

NEW REFUGEES Can They Be Offered A Home In Kenya?

THE ECONOMICS OF THEIR ABSORPTION

By James Scott, B.Sc.

Part III.

In the two previous articles of this series we examined the fundamental economic basis of the "new" refugees, their origin, their mother country and with respect to their own country, their own country. This involved a study of the economic conditions which have led to their flight, and the economic conditions which have led to their flight. It is now necessary to consider the economic conditions which have led to their flight, and the economic conditions which have led to their flight.

To safeguard British interests there is no danger whatever of a large influx of refugees into Kenya. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

It is the whole of any loan which is made to the Government of Kenya, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

The first condition then is that the Government of Kenya should be allowed to increase the public debt. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

The second condition is that the Government of Kenya should be allowed to increase the public debt. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

The third condition is that the Government of Kenya should be allowed to increase the public debt. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

The fourth condition is that the Government of Kenya should be allowed to increase the public debt. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

They are offered, but they must be offered in a way which will not be a burden on the Government of Kenya. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

The sixth condition is that the Government of Kenya should be allowed to increase the public debt. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

Round the Bridge Table

After Dempsy has played his cards on the table Dempsy should count on certain tricks and if these are not made he will be in a bad way. The economic conditions of the British Empire, and the economic conditions of the British Empire, are such that they are able to absorb a large number of refugees.

The Czecho-Slovakian Crisis

As an attempt to deceive popular opinion of the world, 12,000 German soldiers had wanted to protect the integrity of Czechoslovakia, the very maintenance of which has been no need for this dramatic display of force.

The British Cabinet meeting lasted for two hours, and it is understood that the conference of the British Cabinet was not held in secret.

The Dominion High Commissioners in London met yesterday afternoon at the Dominion House. The Dominion Secretary, Lord Stanbury, presided.

In Canada a convention of the Trade and Labor Councils met yesterday afternoon at the Dominion House. The Dominion Secretary, Lord Stanbury, presided.

Mr. McKenna King, the Prime Minister of Canada, has arranged provisionally to leave for London on September 25th for a further meeting with Herr Hitler.

It is understood that during the conference, the Czechoslovakian Government was invited to make a statement on the situation.
