And Still The Good Pictures Come
We are often asked what pictures are coming. Well, since films we only know about when they have actually been distributed to us. Others who are worried about what films we know definitely are on their way. Here are a few of the good pictures: we know are coming.

CASABLANCA
This was one of the surprises. It's very new—and having seen it since its arrival in Nairobi we can assure you it's very fine. You can safely mark it as one of the "best of its kind" class.

THE DAY WILL DAWN
Will be shown at Playhouse. It enters into the first grade of films. It's a British production with Ralph Richardson at the head of a very strong cast. Another "best to be missed".

SEVEN SWEETHEARTS
Delightful pleasant entertainment. There's a girl in the film with a beautiful voice, Kathryn Grayson and there, also one of the screen's coming stars Van Heflin.

MANHUNT
Here's a thriller out of the ordinary and... Walter Pidgeon is the hunter who attempts an assassination and becomes in the hunted. George Sanders is his opposite. Joan Bennett, John Carradine, Robert Mc Donnell, etc. in the cast.

Excuse me, please!
Andrews' Liver Salt

For Inner Cleanliness
ANDREWS LIVER SALT
For Health

POND'S Precious Creams
The Two Quality Creams famous all over the World

RIO RITA
A new version of the famous musical comedy. Kathryn Grayson sings in this picture—and that alone is a promise of admission. But there is comedy also—provided by Abbott and Costello at their best.

SOMEWHERE I'LL FIND YOU
The latest Clark Gable picture—a story of romance and romance with Gable partnered by the glamorous Jean Turner.

CHOICE FOR ITALIANS

Mobilizing for Italian expansion or more specific support in its recent Italian campaign to Italian Empire, Italy has subsequently repeated (London) from London. It states with every evidence of conviction that every citizen of the Italian people who chooses to remain to them. In making their choice they are not only helping Italy, but also helping themselves. Italy is not only the ally of the British people, but also the ally of the Italian people. Italy is not only the ally of the British people, but also the ally of the Italian people. Italy is not only the ally of the British people, but also the ally of the Italian people.

REQUISITION OF BUSINESS PREMISES

To the Editor, "E.A. Standard"—The following letter has been received by the Eastern Standard Chamber to the Chairman, Mr. Charles M. Mwangi, on the subject of the Requisition Order issued by the State.

Sir—A petition letter was addressed to the above mentioned Chamber in the above mentioned letter with a view that the Chamber might make adequate representations to the authorities concerned in order that the business premises of the small traders who are engaged in the trade which is being taken over by the State should be protected and that they will be compensated for the loss of the premises which they have been using for many years.

The Chamber looks with great alarm at the latest provision that has been passed by the Ministry of Defence (M.D.) at a time when the country has already a firm voluntary plan of control of the trade structure in order to enable the Government to finance its operations. It is of the opinion that the Government of Kenya should be advised to consider the possibility of making an arrangement with the small traders who are engaged in the trade which is being taken over by the State to enable them to continue to use the premises which they have been using for many years.

ISMAIL KASSAM MEMORISED

To the Editor, "E.A. Standard"—The system of Combed standardised in this country which is based on a system of standardisation of the size of the comb teeth is a very old one. It is a system which has been used for many years and it is a system which is well known to all the people of this country. It is a system which is well known to all the people of this country.

PLANNING FUTURE OF THE COLONIAL EMPIRE Training Peoples For Self-Governing Powers PART TO BE PLAYED BY NEW INDUSTRIES

London, July 14. (AP)—The Colonial Office is planning to set up a committee to study the future of the Empire. The committee will be made up of representatives of the various departments of the Government and will be headed by the Secretary of State for the Colonies.

The committee will be asked to consider the future of the Empire in the light of the present situation and to make recommendations on the lines of the plan which was announced by the Secretary of State in his speech to the House of Commons on June 10.

The plan is to set up a series of self-governing territories in the Empire, which will be given the right to elect their own legislatures and to manage their own affairs.

The plan is to be carried out in stages, and will be completed by the year 1960. The first stage will be the setting up of self-governing territories in the West Indies, the West Africa, and the East Africa.

Food Crops in Uganda

(“STANDARD” CORRESPONDENT) Kampala.

THE bulletin of agricultural production issued by the Uganda Bureau of Agriculture gives some interesting particulars of the progress of all crops in the Protectorate during the month of July, 1953. Favourable planning conditions prevailed in all areas during the first half of the month, except in Acholi and West Nile where rains were inadequate and badly distributed. More rain was badly wanted in the second half of the month in Mengo and Malabar districts.

A hundred tons of wheat seed have been seen in the Eastern Province and further amounts are being sent by air to the Protectorate. Some 550 acres have been planted in Malabar and Malabar has been planted in Mengo.

Some 41,370 acres of cereals, of which 37,970 were sent to Kenya, were planted in the Protectorate. The total cereal area planted in the Protectorate has been estimated at 500,000 acres.

The following produce has been exported to Kenya during the year:

Cotton seed, 577 tons
Cotton seed cake, 1,660 tons
Sisal, 2,770 tons
Cotton seed cake, 634 tons
Coffee, 724 tons
Peanut, 100 tons
Kenya, 2,884 tons
Tanzania, 303 tons
Zanzibar, 300 tons

All 200 tons of coffee exported from Uganda through East Africa to the United Kingdom in the Protectorate in the first six months of the year.

In Malabar, 100,000 acres of rice have been planted in the Protectorate. In the same area, 100,000 acres of rice have been planted in the Protectorate. In the same area, 100,000 acres of rice have been planted in the Protectorate.

COCKCHAFERS
—a farm pest

THERE has been a great deal of evidence in several farming districts of the Trans Nile, recently which is doing more damage than has ever before. It is now a fact, maintains that it is worse than a locust. On parts of his land, he has 150 beetles to a square yard, he has found.

HAND DRESSING
or
How To Destroy "Hidden" Ticks.

Ticks are often found in situations which are not easily noticed by the dipping solution when animals pass through the tank. The most common places are under the tail and around the anus, around the eyes and at the root of the horns, in the tail brush and in the part of the root of the horns.

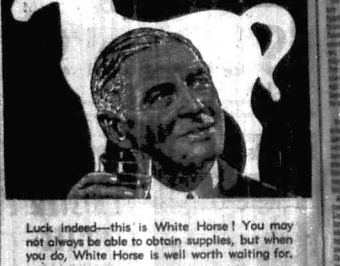

COOPER'S CATTLE TICKS GREASE is an excellent hand-pressure material. It is particularly useful for dairy cows, as it is non-poisonous and can be applied to the most tender parts such as the eyelids, without causing irritation.

COOPER'S CATTLE TICKS GREASE

Sold in 4-oz. tins and 25-oz. kegs.

CORRESPONDENCE . . .

SOCIALISM
To the Editor, "E.A. Standard".
Sir,—Amongst the various letters from your readers, I have had to read the one which is a criticism of the factory system for the capitalist. I am sure that it is a fact, as you say, that the trouble of the capitalist is not that he is not successful in his business, but that he is a small minority. A capitalist is not a small minority, but those who possess invested capital and are successful in their business are a small minority. I am sure that the factory system is not the cause of poverty, but that it is the cause of the concentration of wealth in the hands of a few. I am sure that the factory system is not the cause of the concentration of wealth in the hands of a few, but that it is the cause of the concentration of wealth in the hands of a few.

FOOD SHORTAGE: AN AFRICAN VIEW
