SHORTAGE OF KEROL

We know that stocks of Kerol in East Africa are very low at present, but we are glad to be able to advise farmers that fresh supplies should arrive shortly. Use Kerol to the best advantage for internal purposes only. That will give farmers an opportunity of obtaining vital supplies of Kerol for their animals. If you are accustomed to using Kerol for disinfecting and other external purposes, try Little's Fluid for that in the meantime. Booklets on the uses of Kerol and Little's can be obtained from us on request.

VEGETABLE DRYING FACTORIES - At Karatina and Kerugoya

If you drive from Thika to Nyeri through the two Native centres at Karatina and Kerugoya you will see that two vegetable drying factories have sprung up. These are the vegetable dehydrating factories which are supplying the Army with dried vegetables - tomatoes, turnips, carrots, peas and so on. They are both under one management, and Mr P. C. Chambers, seconded from the Department of Agriculture, is in charge.

The European employees are temporarily housed in mud wooden huts, but the river and their compound are well fenced. The river banks are grassed, the land about the factory and the whole layout of the factory and its equipment is splendid. It is an example of suitable land-use. It is so unusual to see a river river with grassed banks in the Reserve that the Karatina factory site is doubly striking.

East African Troops For 20,000 Japanese Trapped In India And Ceylon HE DIRECTED THEIR TRAINING New Guinea

PLACE IN EMPIRE ARMIES AGAINST JAPANESE

Best Equipped Ever Sent Abroad

The news was officially released by Command Headquarters, Nairobi, yesterday, that a large force of East African troops has been dispatched to India and Ceylon.

FIGHTING FIT AND CONFIDENT

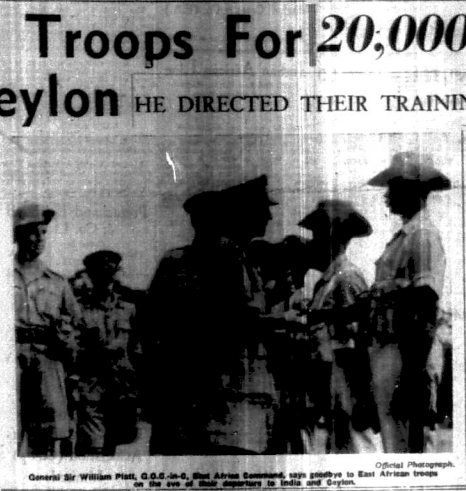

General Sir William Platt, G.O.C.-in-C, East African Command, says troops are on the eve of their departure to India and Ceylon. He stated that the troops are in the best of health and are well equipped for the campaign.

'First In; First Out'

Mr. William Dowling emphasized in his speech that the first to be sent to the front will be the first to be replaced. He stressed the importance of maintaining high morale and discipline.

He said that the troops are well equipped and are in the best of health. He also mentioned the importance of the support services and the role of the medical corps.

Chapter Two in the story opened in Melbourne, where the author is now. He described the process of organizing the troops and the challenges faced by the command.
