### Superior Performance Explains The Victory's Success

The Victory accelerates faster than any car in its price class. It gives the driver the best steering safety on the hills and more knowledge on bad roads. Built-in power and engine design explain this spectacular performance. For Dodge Brothers Victory Six is the only car of its kind in the world lighter yet sturdier—easier yet safer—stronger yet smoother—the performance champion.

High Compression Performance with Ordinary Gasoline. You don't need special, costly fuels to get brilliant high compression performance. This is because the engine is built to run on ordinary gasoline. The crankcase and pistons are specially designed to prevent oil from getting into the combustion chamber. The spark plug is of the latest type, giving a powerful spark. The pump is controlled by a linkage and valve, and crankshaft is of the latest type.

## Invention DOUBLES YOUR COMFORT

ONLY a small run can deliver the new Studebaker riding comfort provided by its unique shock absorbers. This new and exclusive Studebaker feature, "Buck", your car seat rises and falls with tranquil ease.

Each new Studebaker is flexibly suspended on 122 shock absorbers that absorb jarring, shake, friction and thus the ever harsh jolts and rattles. Sealed within each of these patented new spring shock absorbers is a lubricating oil that will last for 20,000 miles.

Important as it is to your motoring pleasure, improved riding comfort is only one of the many improvements you will enjoy seeing here today in these great new Studebakers.

MOMBASA TIMES... This is a most important newspaper for the region. It provides a wide range of news and information.

MADE IN ENGLAND

## Control

One of the underlying secrets of the super-excellence of DUNLOP tyres is the unique and splendid control DUNLOP exercise over the raw materials used in the manufacture. Quality is assured from the very start.

When you next buy tyres, think of the following facts

DUNLOP grows its own rubber, spins its own cotton fabric and makes all its own moulds and tools, and remember that this is the finest guarantee of reliability you can possibly have.

*fit*

# DUNLOP

Be SATISFIED

And now, in addition to the popular Dunlop Tyre of standard construction, there is a "Fort" Dunlop Tyre of specially heavy construction particularly suitable for East African road conditions.

Successful tenders will be required to sign a contract agreement... H. NOEL DAVIES, Acting General Manager, Tanganyika Railways.

Women's Topics

Reaction and Oscillation

The Use of Amplifiers

It is a well-known fact that the reaction and oscillation of an amplifier is a function of the frequency of the signal. The reaction of an amplifier is the ratio of the output voltage to the input voltage. The oscillation of an amplifier is the ratio of the output current to the input current. The reaction and oscillation of an amplifier are both functions of the frequency of the signal. The reaction of an amplifier is a function of the frequency of the signal because the reactance of the components in the amplifier circuit varies with frequency. The oscillation of an amplifier is a function of the frequency of the signal because the impedance of the components in the amplifier circuit varies with frequency. The reaction and oscillation of an amplifier are both functions of the frequency of the signal because the reactance and impedance of the components in the amplifier circuit vary with frequency.

The reaction and oscillation of an amplifier are both functions of the frequency of the signal. The reaction of an amplifier is the ratio of the output voltage to the input voltage. The oscillation of an amplifier is the ratio of the output current to the input current. The reaction and oscillation of an amplifier are both functions of the frequency of the signal because the reactance and impedance of the components in the amplifier circuit vary with frequency. The reaction of an amplifier is a function of the frequency of the signal because the reactance of the components in the amplifier circuit varies with frequency. The oscillation of an amplifier is a function of the frequency of the signal because the impedance of the components in the amplifier circuit varies with frequency.

The reaction and oscillation of an amplifier are both functions of the frequency of the signal. The reaction of an amplifier is the ratio of the output voltage to the input voltage. The oscillation of an amplifier is the ratio of the output current to the input current. The reaction and oscillation of an amplifier are both functions of the frequency of the signal because the reactance and impedance of the components in the amplifier circuit vary with frequency. The reaction of an amplifier is a function of the frequency of the signal because the reactance of the components in the amplifier circuit varies with frequency. The oscillation of an amplifier is a function of the frequency of the signal because the impedance of the components in the amplifier circuit varies with frequency.

### Superior Performance Explains The Victory's Success

The Victory's success is due to its superior performance in every class. It travels faster on the level, more safely on the hills and more economically on bad roads.

Simple power and control design explain this superior performance. For Dodge Brothers Victory Six is the only car of its kind in the world, lighter yet stronger—twice as safe—simpler yet smarter—the performance champion of its class.

- FOUR DOOR SEDAN £490

The VICTORY SIX BY DODGE BROTHERS

### RAILWAY BUDGET ADOPTED BY KENYA LEGISLATURE

The Kenya Legislative Council has today adopted the Railway Budget for 1940. The budget provides for a total expenditure of £1,000,000, of which £500,000 is to be met by the Government and the remainder by the railway companies.

The budget is a landmark in the history of the railway industry in Kenya. It provides for a substantial increase in the number of trains and the improvement of the existing lines.

The budget also provides for the construction of new lines and the improvement of the existing lines. This is a necessary step to meet the growing demand for railway services.

# An Announcement by MR. BERNHARD BARON on the opening of CARRERAS' New Wonder Factory.

"I have watched this factory of my dreams become a wonderful reality. But of the thousand improvements that progress has made possible, ONE installation stands out because it is the only one of its kind in the whole tobacco industry.

"The weather inside is controlled automatically! Whether doors or windows are open or shut; whether London is in the grip of a severe frost; or sweltering under a Summer sun; or enveloped in the mugginess of a November fog—by means of a scientific apparatus, the incoming air is washed with water and its humidity and temperature adjusted so that every day is a perfect day in Carreras' new factory, thus ensuring that the 100% Virginia tobacco always used by Carreras should come to you PURE, FRESH, PERFECT to the palate and, above all, UNVARYING.

"It gives me great pleasure to make this announcement, and I am sure the world of smokers will be glad to hear that no expense has been spared in the new building, to use every scientific means continually to produce and maintain the unvarying quality of Carreras' brand."

### The Agricultural Inquiry.

The inquiry the Legislative Council has set on foot regarding the state of the tobacco industry in the Colony is a most important one. It is the first time since the war that the Government has taken such a wide-spread interest in the industry. The inquiry is being conducted by a committee of experts, and the results will be reported to the Government in a few weeks. It is hoped that the inquiry will lead to some improvement in the conditions of the industry, and that the Government will be able to do more for the growers.

### INCREASED CHARGES AT THE COOL STORES.

#### Government Attempt to Avoid Loss.

The increase in the charges at the cool stores is a result of the Government's attempt to avoid a loss. The charges have been increased from 10/- to 12/- per ton. This is a significant increase, and it is hoped that it will lead to some improvement in the conditions of the industry. The Government is trying to do its best to help the growers, and it is hoped that the inquiry will lead to some improvement in the conditions of the industry.

The inquiry is being conducted by a committee of experts, and the results will be reported to the Government in a few weeks. It is hoped that the inquiry will lead to some improvement in the conditions of the industry, and that the Government will be able to do more for the growers.

**TENDERS FOR THE SUPPLY OF WOOD FOR MAHALI-SOROTI LINE.**

Tenders are invited for the supply to the Kenya and Uganda Railways and Harbours of 50,000 cubic feet of Locomotive Wood Fuel per month on the Mahali Line in the vicinity of Tororo.

1. A royalty fee of Shs 2/- per 100 cubic feet is payable to the Uganda Government, and the Kenya and Uganda Railways and Harbours will make the necessary deduction from the bill as payments are made for fuel.
2. A security deposit of Shs 3,000/- will be required for the performance of the contract.
3. The form of agreement required to be returned may be seen at the office of the District Superintendent at Kampala, and at the office of the Chief Representative at the Superintendant of the Line, Kenya and Uganda Railways and Harbours, Nairobi.
4. Tenders must specify the price per 100 cubic feet of wood fuel cut to specification and stacked as indicated in the Bill of Materials. The price to include all no allowances. Successful tenders will be expected to commence delivery by the 15th February, 1934.
5. Tenders marked "TENDERS FOR WOOD FOR MAHALI-SOROTI LINE" must reach the Chief Representative, Kenya and Uganda Railways and Harbours, Nairobi, P.O. Box 40, Nairobi, by noon on the 15th January, 1934. Late tenders will not be considered. The lowest or a tender will not necessarily be accepted.

W. F. HENDERSON,  
Chief Representative,  
Kenya and Uganda Railways and Harbours,

## CALL FOR ENQUIRY INTO GOVERNMENT FINANCE

There is a general feeling of uneasiness in the minds of the public in connection with the Government's financial position. It is not surprising that the public should be so concerned, for the Government's financial position is a matter of the highest importance to the country. The public has a right to know the truth about the Government's financial position, and it is the duty of the Government to make this truth known to the public.

### New Legislative Chamber.

### GOVERNMENT MOVE IN MEMORIAL HALL PLAZA

The Government has decided to move its offices from the old Legislative Chamber to the new Memorial Hall Plaza. This move is being made in order to provide a more convenient and modern office space for the Government. The new office space is located in a prominent position in the city and is well equipped with modern facilities.

### The House Tax

The House Tax is a tax levied on the owners of houses in the city. It is a source of revenue for the city government and is used to fund various public services. The tax is levied on the value of the house and is payable annually. It is important for the public to understand the details of the House Tax and to ensure that they are paying the correct amount.

### Christmas.

The period of the year that has been designated as a "Festival Season." It is a time when the hearts of the people are filled with joy and goodwill. It is a time when we should be thinking of the less fortunate members of our community and trying to help them in some way. It is a time when we should be reflecting on our own lives and trying to make them better. It is a time when we should be giving thanks for all that we have and for the love and support of our friends and family.

The illustration shows a person wearing a wide-brimmed hat and a long coat, standing in a field. The person appears to be a settler or a native, and the scene is likely a rural landscape in Kenya.

### AVIATION

The aviation industry in Kenya is growing rapidly. There are now several airlines operating in the country, and the number of passengers is increasing steadily. The government is also investing in the development of the aviation industry.

### Lack of Knowledge

There is a significant lack of knowledge about the agricultural industry in Kenya. Many farmers are unaware of the latest techniques and technologies available. The government and private organizations are working to address this issue through various programs and initiatives.

### Personal Experiences

Personal experiences of farmers in Kenya show that many are struggling to make a living from their land. This is due to a variety of factors, including lack of access to credit, poor infrastructure, and low market prices. The government needs to take action to support farmers and improve their living standards.

### Confusion of Thought

There is a confusion of thought among the public regarding the agricultural industry in Kenya. Many people have unrealistic expectations of what can be achieved in a short period of time. It is important to have a realistic and long-term vision for the industry, and to focus on sustainable development.

NAIVASHA STRONGLY OPPOSED TO NEW MOTOR TAX.

A Big Additional Burden on Farmers.

LORD DELAMERE'S CONDEMNATION.

Leader of Elected Members Refuses to Accept Auditor's Report Confidentially.

By 18 votes to 10 Naivasha District Farmers Association on Saturday, at a meeting in the hall, Naivasha, passed a resolution passed at a previous meeting rejecting the Government's scheme for local administration of roads.

The new motor taxation bill was also dealt with, and a resolution was approved calling for the reconsideration of the scheme proposed by Mr. Galton Fox of a 3/4 rate of 2/1 per car and an addition to the petrol tax of 10 cents should be submitted.

LOCAL GOVERNMENT CRITICISED.

The Commissioner of Local Government, London and Dublin, Mr. Logan, was present and an appeal was made to the people to support the Government's scheme for local administration of roads.

## MOTOR TOPICS

### Enemies to Performance

#### The Sacrifice of Petrol to Overcome Load.

Ever since the motor car has become a means of transport, it has been the enemy of performance. The more load it carries, the more it sacrifices of speed and power. This is the law of physics, and it is the law of the motor car. The more load it carries, the more it sacrifices of speed and power. This is the law of physics, and it is the law of the motor car.

There are all sorts of other things which are possible, and which are being done, to overcome this law. But the law is still there, and it is still the enemy of performance. The more load it carries, the more it sacrifices of speed and power. This is the law of physics, and it is the law of the motor car.

**£10,000 For Dar-es-Salaam Road.**

The Government has announced that it will spend £10,000 on the improvement of the road between Dar-es-Salaam and Mwanza. This is a very important road, and it is one of the main roads in the country. The Government is very anxious to improve this road, and it is very glad to announce that it will spend £10,000 on it.

## 15 Rapid Accurate Shots

## A Letter from Paris

### Waist and Bust

After great talk in an earlier issue as to how to make the bust and waist, we are now in a position to give you a few hints on the subject.

The bust and waist are the most important parts of the dress. They are the foundation on which the rest of the dress is built. A good bust and waist will make a dress look well, while a poor one will ruin it.

### Waist

The waist is the most difficult part of the dress to make. It is the part that gives the dress its shape and its character. A good waist will make a dress look well, while a poor one will ruin it.

### FRONZ WAPPERS FOR CREAM HORNS

These together are composed of a set and four corners of

An idea for Fronz Dress—The fronz is a very useful and decorative element in dressmaking. It can be used in many ways, from a simple trim to a full, flowing skirt. The fronz is made of a light, airy fabric and is usually made in a series of ruffles or folds. It is a very popular and versatile element in dressmaking.

# Why do they drink LIPTON'S TEA at Monte Carlo?

At all the great Continental resorts where the leaders of Society gather, you will find Lipton's Tea on the tables.

Lipton's has the largest sale of any tea in the world. For by its choice quality and fine flavour Lipton's Tea appeals to all who appreciate the best tea. And it is only by buying your tea from Lipton's, who are the tea growers, that you can get this superior quality for so low a price.

If you insist on making a point of looking for the "E. L. 2" mark on the wrapper, you will never again have cause to complain of a daily good cup of tea in Kenya.

### WHAT SIR Wm. GOWERS DISCUSSED IN KENYA. Conditions for Entry into Closer Union.

Speaking recently at Kampar, H. M. The Governor of Uganda, Sir William Gowers, discussed the reasons why he had been invited to England to talk to the British Government with the Colonial Office on the Closer Union Report for the Dominion of Kenya and Tanganyika, and with the Secretary of State for the Colonies on the subject of the proposed union of Kenya and Tanganyika with the British Empire. He stated that he had been invited to England to discuss the proposed union of Kenya and Tanganyika with the British Empire, and to discuss the reasons why he had been invited to England to talk to the British Government with the Colonial Office on the Closer Union Report for the Dominion of Kenya and Tanganyika, and with the Secretary of State for the Colonies on the subject of the proposed union of Kenya and Tanganyika with the British Empire.

### Sixth Avenue Garage, Nairobi, Kenya Colony.

162 NEW RECORDS in 12 months! The most complete collection of records ever published in Kenya. Includes the best of the British Empire, the United States, and the most popular records of the day. Available at the Sixth Avenue Garage, Nairobi.

### An Island for Sale

A unique opportunity of acquiring an Island in the Seychelles within three days of Mombasa by a regular service of British India Steamers. The area is 18 arpents (an arpent is from 1 to 14 acres) and the whole island is planted with coconuts and pays expenses.

Prices £1,800 Cash or Near Offer. The property includes a comfortable bungalow with suitable quarters for 4 beds, a car and a boat. An ideal place for a holiday with excellent fishing, swimming and boating. A delightful climate with an unaltered.

### OFFICES TO LET AT EIDORET.

Offices in Messrs J. R. Cox & Company's new building will be ready for occupation by January 1st, or earlier. Tenants will have the benefit of the best position in Town and in the immediate neighbourhood of the Electric Light, Water, and Motor Sanitation. For space and terms apply to J. R. Cox & Co. EIDORET.

### A Kenya Dispensation

The Kenya Dispensation is a special license granted to certain individuals who are engaged in the business of selling and distributing goods in the Kenya Colony. It is a privilege that is highly valued by those who hold it, as it allows them to operate in a market that is otherwise closed to them.

### Aerial Survey.

The Aerial Survey of Kenya is a project that is being undertaken by the Government of Kenya. It is a project that is of great importance, as it will allow the Government to obtain a more accurate and complete knowledge of the terrain of Kenya. The survey will be carried out by a team of experts who will use aerial photography to obtain the necessary data.

### Local News

Local news from various parts of Kenya, including reports on the agricultural sector, the education system, and the state of the economy. The news highlights the challenges faced by the region and the efforts being made to address them.

### Increased Power

Increased power is being generated by the new Deere tractor, which is capable of producing up to 15-27 horsepower. This increase in power allows the tractor to perform a wider range of tasks, from plowing and harrowing to planting and harvesting. The tractor is also highly fuel-efficient and easy to maintain.

### The 15-27 DEERE TRACTOR

The Tractor that has earned a reputation for reliability. Reduced Price £295. H. W. SEAR LTD. NAIROBI. The tractor is a reliable and efficient machine that is suitable for a wide range of agricultural tasks. It is built to last and is easy to operate, making it an ideal choice for farmers and ranchers.

The British Empire Air Force was the only one to have a record of 100 per cent success in the 1000 yd. target.

### Reflections on The Agricultural Census.

The Department of Agriculture has issued a preliminary report on the results of the 1938 Agricultural Census. The report shows that the total area of land under cultivation in the British Empire was 100,000,000 acres. This is a decrease of 10 per cent since 1925. The report also shows that the total value of agricultural produce in the British Empire was £1,000,000,000. This is an increase of 10 per cent since 1925.

### Opinion: Members

A NOVELTY VIEW OF THE COASTLINE. The Government has issued a report on the results of the 1938 Agricultural Census. The report shows that the total area of land under cultivation in the British Empire was 100,000,000 acres. This is a decrease of 10 per cent since 1925. The report also shows that the total value of agricultural produce in the British Empire was £1,000,000,000. This is an increase of 10 per cent since 1925.

### Over the tea cups

Of what do women talk? Husbands, children, the latest engagements, clothes—and certainly the care of their complexion. It is true that the woman who follows will recommend to her friends "HAZELINE" SNOW. A pure, non-greasy preparation which protects and preserves the delicate texture of the skin.
