EXPERT OPINION.

"During the last few years we have had in our London building... with regard to the best we are now producing they write."

"IN OUR OPINION THIS BEAUTIFUL FLOOR AND THE BLOOM ON YELLOW CASE IS TO BE ADHERED AND NOT CONSIDERED. IT IS THE SUPERIOR QUALITY OF THE WHEAT AND NOT ANY FAULT OF THE MILLERS."

This is the quality of superior wheat... which they have always done so a most superior quality.

[THOROUGH REVIEW'S AGENCY.]

LONDON, Nov. 15.—The House of Commons opened its business today by a vote of censure against the Government's negligence of unemployed men, when the Peers' Public and Dominion galleries were packed.

Mr. Baldwin's speech was loudly cheered when he stated the vote of censure complained of. The Government's negligence of unemployed men, when the Peers' Public and Dominion galleries were packed.

The Premier Replies. Mr. Baldwin's speech was loudly cheered when he stated the vote of censure complained of. The Government's negligence of unemployed men, when the Peers' Public and Dominion galleries were packed.

It may indeed be difficult to negotiate with our Allies who hold it so difficult. I have spread out plans to let our countrymen see that the British people cannot consent to a policy which would mean the sacrifice of our independence.

As regards unemployment the Premier said he had proposed a radical and drastic measure dealing with the period of emergency, knowing that it was open to Parliament to examine the situation again, should ever the position again become normal and the serious shortage.

Mr. Baldwin said the Government desired release from Mr. Balfour's pledge to enable the imposition of duties on manufactured goods for the purpose of raising revenue and tariff negotiations, to enable with full power to impose larger duties when the circumstances of particular industries required (Ministerial speech).

Stock Theft. In the Police Court yesterday four natives were charged with the theft of sheep and goats from a farm near Dagdaga on October 10 last. The details were exclusively reported in the B. A. Standard at the time of their arrest and apprehension. They were committed to gaol and are awaiting trial.

GAZEY OVER THE LAKE.

Successful Bal Masque in Kampala.

A "CO-OPTIMIST" EFFORT.

[FROM OUR OWN CORRESPONDENCE.] Kampala, November 12.—What has proved to be the best function of the season was that which took place at the Hotel Cecil, Kampala, on Saturday night. It took the nature of a masked dance and, no attendance was by invitation only the company was selected.

The company included the Chief Secretary and Mrs. Jarvis, the Justices, Mr. Guthrie, Smith, the Chief of Police Major Lawrence, Mr. Hutcheon, Chief Veterinary Officer, Mr. and Mrs. Richardson, Mr. and Mrs. Perry, Mr. and Mrs. Hanley and Mrs. Hanley, Mr. and Mrs. Debnage, Mr. and Mrs. Williams, Mr. Ashton, Warner, Maj. and Mrs. Gordon, Mr. and Mrs. Nelson, Capt. and Mrs. Guillebrand, Mr. and Mrs. Fraser, etc.

The bulk of the work in making up and completing the multicoloured costumes in connection with the affair fell on the shoulders of Mrs. Hanley, Mrs. Richardson, Mrs. Nelson, and Mrs. Guillebrand. Their efforts succeeded in producing a show which in performance was a most interesting and successful one.

The dancing was a very attractive and well-arranged affair.

But the piece de resistance of the night was the dancing, which took place in the open air, with electric lights, and fancy dances.

The failure of Mr. Baldwin's negotiations with Lord Birkenhead and Mr. Austen Chamberlain is explained in our correspondence.

Mr. Chamberlain writing to Mr. Baldwin in the time that his resignation was being considered, has explained that their assistance must therefore be refused to platform support as originally contemplated.

Mr. Baldwin's letter to Lord Birkenhead expresses confidence that he will still give the Party his assistance in the election and particularly his help Lord Derby to keep the flag flying in Lancashire, he adds that what is not possible now may be more easily accomplished later when he hopes to achieve a complete union of the party.

Lord Birkenhead replied profusely regretting that the common desire to wipe out the memory of past differences has been deflected by forces which neither can nor should be controlled.

**NANYUKI SUPPORT FOR RUMURUTI**

**Criticism of Mr. Martin's Statements.**

15 YEARS AGO & NOW

[FROM OUR OWN CORRESPONDENT]  
Nanyuki, Nov. 2.—It is evident from the comments one hears on Mr. Martin's Straight Talk to Rumuruti that the only man capable of straight talking. There are plenty of farmers in this district who support the "free settlers" of Rumuruti in their protest against the assistance by Government on equally harsh conditions and their views may be summarized as follows:—

Almost the only point on which the settlers agree with Mr. Martin is his statement that the soldier estate scheme was "not a benevolent scheme." Emphatically it was not. It was a scheme evolved at the time when the outcome of the war was still uncertain (1917) and the object of the scheme was to get white settlers into the country, not for the benefit of the settlers, but to become more white possession was wanted.

**Chapter and Verse.**

At a meeting in London held under the auspices of the Overseas Settlements Committee after the settlement of farms in 1919, it was stated openly that £1,000 was not a sufficient sum for a settler in East Africa, but that this amount had been fixed because "the war was not then over; it was not quite sure which way the cat would jump, and it was felt that a larger whole population was essential to the holding of the Colony." (I quote from memory, but the speech can still be had.) The amount of capital advanced to soldier settler farms was completed.

**Lord Delamere's Opinion.**

Lord Delamere stated in the Legislative Council that he could not believe that the payment of just 30 cents per acre which has been allowed for 20 years could make any great difference to a soldier settler. It is interesting to note that the belief with Lord Delamere's opinion expressed at a meeting of the Land Settlement Commission held in Nairobi (May 1917).

It was then proposed to give free grants of land to soldiers, and Lord Delamere said: "The success of any such scheme of settlement (with free land) would depend on

the amount of assistance given by Government in establishing these enterprises, tax incentives, etc. This, in addition to free land, and at a time when no one thought of such a high rent as 30 cents per acre.

And now at the end of 1939 the Commissioner of Lands is beginning to think of a policy of showing the soldier settlers how to produce something!

**The Older Settler**

To compare the conditions of the older with that of the soldier settler, as Mr. Martin does, is treating on very debatable ground. Free farms were not merely before the days of the soldier settler and rents were fixed at 30 cents per cent of the soldier is charged. One of the oldest settlers in these parts, Mr. Les Smith, points out the instance of 30 or 38 farms which were given free in 1907, and later exchanged by Government, 1,800 acres being given for every 1,000 held.

No rent was asked for several years and no improvements or occupation were demanded. One of these allotments (at Nairobi) was sold for £10,000 without any improvements—the allottee not having spent a day or a penny on the farm. Another of these farms (at Elementa) was sold with buildings etc., for £20,000. And yet the soldier settler is asked to feel glad he did not have to suffer the hardships of 15 years ago!

**The Uniform Rent Injustice.**

The fixing of a uniform rent of 30 cents per acre is an obviously unfair thing that even the Commissioner of Lands does not defend. It facilitates the work of the Land Office, and there is nothing to be said in its favour. Why should the Rumuruti country, which has only one river out of which farmers may be taken, which has for the most part a rainfall quite unreliable for agriculture, pay the same rent per acre as the most fertile soldier-settler farm along the railway?

It is true that the soldier estate in this country was a perfectly close-contrast with the Government. But the soldier-estate scheme (Land Office) "do a poor name for it" under which he came out, was ill-considered, hardly drawn up, unsuitable in the details, and by leading. If Government has got people into an impossible position, it is not fair to have the country and money to recognize the fact, and the officials should not shrink the trouble of the detailed work of re-verification.

**Miscellaneous.**

The North Kenya Relief has just published its final number. The population of these parts is not so large as to be so important to get their own paper, and probably

Quarrels and squabbles are the order of the day (or rather night) in the non-European portion of the Island, says the *Mombasa Times*.

On Wednesday night a dispute between a section of the Nairobi community ended in a fracas, in which several members of the race were injured, though not seriously so.

Also, the personalities which are apt to bulk too prominently in such a publication had something to do with the demise! A new store is being opened in Nairobi under the title of "The Township Store."

UGANDA COITON

Splendid increases in Planting PROVINCIAL FIGURES.

From Our Own Correspondent. The sixth Cotton Report has been issued, and the figures show a splendid increase in planting.

The report reveals that the planting of cotton has increased by 100,000 acres since the last year.

The general outlook remains bright for the cotton crop, and transport arrangements proved to be fully adequate.

The average yield per acre is estimated to be 100 lbs. of cotton lint.

It is estimated that approximately 100,000 acres of cotton will be planted in 1927.

The Uganda Cotton Planting Commission has been formed to coordinate the cotton industry.

The Commission will be responsible for the development of the cotton industry in Uganda.

The Commission will also be responsible for the marketing of the cotton crop.

THERE IS A "SCIENCE IN LUBRICATION" AND WHAT IS MORE WE PRACTISE IT

To do its work effectively, an oil must be designed to meet the conditions of an engine transmission or a rear axle exactly as the mechanical parts of a car must be engineered for the job.

WHAT GOOD OIL MUST DO

SOCONY AUTO OILS

are perfect lubricants, free from all hard Carbon forming residues, and that is why your Car or Motor cycle will run sweeter and, more efficiently on Socony than all other oils.

Obtainable from all Garages and dealers.

TWICE A DAY TAKE SANATOGEN

It will increase your vitality—tone up your nerves—and invigorate your whole system.

Sanatogen twice a day means a better day's work—means greater energy and staying power—means that you feel brighter, fresher and keener all day, in spite of this depressing climate. Try it!

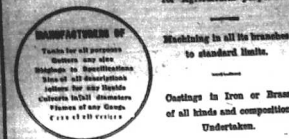

As a natural fact of ordinary food, it must do good and cannot do harm. That is why doctors give it to babies. And that is why so many people in the tropics take Sanatogen regularly all the year round—not as an occasional tonic, but as part of their daily diet.

You should do likewise if you want to keep your health and nerve power at the highest pitch and to avoid the debilitating effects of the climate. Begin at once and take your Sanatogen extra-regularly—after a meal at least twice a day. In a little Sanatogen is better than much Sanatogen seldom.

Start taking Sanatogen-to-day and buy a bottle at the nearest chemist or store.

AMENDED ADVERTISEMENT. By order of the Court there will be held by public auction the Court House, Yangon, on Saturday, 1st December, 1920, at 10 a.m.

The Plantation is freehold and comprises 100 hectares (250 acres) of which about 40 hectares (90.0 acres) are under cultivation with 65,000 bearing trees.

There is an ample water supply, the plantation being bounded on the east by the Umanay River and on the west by the Umanay River and there is also a water tunnel in good order.

The whole area is capable of complete development. There is a stone house containing three rooms, wood shed, bath, coffee press, etc.

The Plantation is ideally situated in the heart of the Kibungwe District, and is a first-class coffee plantation.

Further information may be obtained from the National Bank of South Africa, Limited, Yangon.

### "Ripetank" Sunk in Corsica.

**BURK BY GUNFIRE.**  
**COCK LOOK OUT HULLS Transatlantic.**

[Remove service's agency.]  
 Bading, Corsica, Nov. 3.—The Dutch steamer "Ripetank" from Fur, Nakh and Mombasa for Marseilles and London put in here with her cargo of copper and zinc lumps and other goods. The mail bags were consigned to the French steamer "Roma" here.

The Dutch warship "Trop" and two tug boats assisted were unable to extinguish the fire and the "Ripetank" was sunk alongside the quay by gunfire.

[The above message may have been delayed because the Post Office announced yesterday that mail by the "Ripetank" which arrived in London on 10th inst. was, originally, the "Nether Abbey".]

## France and Germany.

### ANOTHER NOTE BEFORE SANCTIONS APPLIED.

Paris, November 5.—A Quai d'Orsay communiqué explains that M. Dagnan's remark about the non-acceptance of the Versailles Treaty was completely untrue. He was the complete opposite on the left bank of the Rhine and bridge heads did not apply to the Ruhr in regard to which no decision could be taken without previous Franco-Belgian agreement.

Paris, later.—The Conference of Ambassadors has agreed to request the intervention of Germany but it is still pending passage in the Council of the League of Nations.

**THE IMPERIAL CONFERENCE.**  
**HIS MAJESTY'S RECOGNITION OF HIS VALUE.**

London, November 10.—Replying to an address of loyalty and kinship on the occasion of the Imperial Conference His Majesty the King has expressed his appreciation of the services rendered by some of his Ministers of Overseas Dominions and making the acquaintance of others.

He concludes by saying "I have only one further remark to make. I have done the work of successive Conferences without realising the immense value of such meetings. The first comes the acquisition of practical knowledge of conditions in all corners of good feeling naturally springs from such knowledge and leads to strengthening the bonds of unity and co-operation. The meeting on, so that however the meeting the world may be, the British Commonwealth will stand steadfast and undivided."

**THE AGREEMENT HAS NOT YET BEEN PUBLISHED AND PARVISE THE SIGNING OF THE TREATY.**

It is understood no provision for the sending of a bill note will be made to Germany without defining the sanctions, which will be discussed later. Germany gives no satisfaction.

The subject of advertising in Kenya, while as the various press organs have the right to refuse to accept advertisements, it is the duty of members of the R.E.A.A. to do their best to bring about a change in the attitude of the latter.

I hope by the 1st January to be able to open the R.E.A.A. in Nairobi, where members will be able to come and write their advertisements, the correct procedure, and view their papers as they appear in print.

It would also be of some service to help in a country where so many are suffering from the want of people who know only too well the correct procedure, and view their papers as they appear in print.

KENTON COLLEGE KIJABE

Showing the main building and two of the other buildings. Besides the main building there is also a huge annex sufficient in itself to accommodate forty pupils with ease. Sheltered by the hills at the back and by heavy plantations on either side of the main building is a magnificent view of Lake Kenia in the front and forms one of the healthiest and most beautiful spots in the country. With its wonderful site its luxurious accommodation and its able staff Kenton College should go far in the educational affairs of Kenya.

 Each quarter reasoning may be effective with little children. It wouldn't persuade you. Yet those who did you drink their tea as they because it was good when packed, rather than you in hardly less quiet a fashion. What you want to know is whether the tea will be good when you get it. Because tea was good when it was packed is no guarantee as to whether it is a sensitive product liable to deteriorate rapidly. Be on the safe side and buy Brooke Bond tea in the various tins. Then you will be certain of getting your tea as fresh as it was on the day it was packed.

POULTRY NOISES

It is just as necessary to select good eggs for hatching as to select good egg-laying strains as when selecting pullets. Also to get good results it is necessary to look after the flocks properly...

In selecting ducks for laying should choose the ones which have been hatched in April or May. During the dry weather the feeding of ducks must be given more attention than during wet weather when there will be almost a natural food. It is never wise to give much food to ducks when there is no necessity for it.

This factor should be taken for themselves is necessary both from a sentimental point of view and the fact that the distinctions to the health and vigour of the flocks.

When natural food is very scarce the ducks will require very much food but in normal times the amount of food is sufficient. It is not a good idea to give the ducks a great deal of food at night as this will make them fat and make up as follows: 15 parts mangel.

1 part mangel meal Green food boiled and cut fine should be added. Should a morning meal be given may give the following: 1 part oats 1 part crushed maize All food for ducks should be fed in a clean trough.

Answer to Correspondents. (1) I am pleased to see you are taking an interest in the "Poultry" page. The 25c. to 50c. to be applied during the winter months which is not at all to be applied to the summer months as many farmers are not in a position to afford the expense of the duck business.

(2) I understand you are asking a question to a well known farmer leader and you are prepared to pay for the answer. The fee for the class list for the show has been sent out for your information and should be obtained from the Secretary of the Agricultural Society, P.O. Box 10, Nairobi.

(3) I have you have imported 5000 pairs of weavers and I am sending your name to my friend who is in a position to sell you some very fine specimens of the same. One of the best specimens is a pair of weavers which I will send you for 10/-.

THE NEW SUPERABUNDANT NATURE

It is a well known fact that the name of a breed of poultry is of great importance. It is not only the name of the breed but also the name of the breeder that counts.

New Features That Mean Economy

Important developments make the new Good Year Cord Tyre with the All-Weather Tread completely better in performance.

All of its improvements embodied in the Good Year Cord Tyre is calculated to a single result: That result is increased economy for the Goodyear user—greater mileage at lower cost.

The new All-Weather Tread, for example, is made of an improved rubber that offers extreme resistance to wear.

Contributing to increased economy, also, are better unions between the plies of the tyre body and between the tyre and the tread.

THE IMMIGRATION BILL

Another milestone along the new path which has been followed by the White Paper has been passed by the publication of the draft Bill providing for the control of immigration.

It is not clear whether the Secretary of State for the Colonies has approved of the measure since Mr. Sedgwick's last speech on the subject of the Bill in the House of Commons on November 17th.

The Bill indicates the serious nature of the problem which the Government regards its duty as Trustees of the Native Races and the Indian population in this Colony.

Under the Bill the Government will have a strong measure to deal with a personification of lawlessness in the Colony.

"The daily work is finished when a man is healthy. A sound liver is a serious handicap, especially to the business man and brain worker. He seldom understands his real value, he feels sick and dazed, and spends long a short hours and active mind to deal with problems as they arise. When the liver fails in the business man's life, the business man's real friend, the balance of the real friend, a clear brain depends upon a regular, active liver."

HAVE YOU HAD ANY REALLY OUTSTANDING SUCCESSES?

IF YOU ARE A SLAVE TO THE CHARMS OF THE CAMERA YOU WILL BE INTERESTED IN THE

SNAPSHOT COMPETITION

ARRANGED BY THE EAST AFRICAN STANDARD

African Standard

The "E. A. Standard" has secured the services of a First-Class Artist. He has had wide experience in the preparation and reproduction of photographs, and for the past seven years was on the Art Staff of the "Daily Graphic".

For what we consider the best photograph used in any one of the "E. A. Standard" Weekly Editions, we will give A First Prize of Shs. 20/-, and Shs. 5/- for Every Other Picture Reproduced.

All photographs submitted must be of local interest. Study the picture pages of the Home Press if you are in doubt as to the type of picture which we want. Having made up your mind, send the pictures without delay. The "news value" even of a photograph, is of short duration.

We cannot guarantee to return pictures not used, but will do our best to meet the wishes of contributors if a special request accompanies the photograph, together with a stamped and addressed envelope.

Write your name and address and the subject in pencil LIGHTLY on the back of each photograph.

MONROE DOCTRINE CENTENARY.

Turning Point in American Prosperity.

THE ANALOGIES OF HISTORY.

"The American Continent Must be Free from Outside Control."

[Special to the "E. A. Standard"]

The hundredth anniversary of the Monroe Doctrine is a notable event...

The Doctrine.

The terms of the Monroe Doctrine are well known to every one...

In the Beginning.

But it is in connection with Spain that we must remember the events which brought the United States into the arena...

Self-defence.

The implication of the terms of the doctrine is the quality of vengeance which is liable to manifest itself...

Britain's Lead.

The matter came before Congress in 1816 but was not until 1823 that President Monroe recommended recognition...

Spain's Example.

Spain's example is a notable one in the history of the Monroe Doctrine...

Presently.

Presently the American people have become re-awakened as to the Monroe Doctrine...

HEAVY PENALTIES FOR EVASION OF LEGISLATION.  
The following is a summary of the new Immigration and Employment Bill which is to be introduced in the Legislative Council.

The changes do not only with immigration but with the prevention of unemployment and in several instances which are provided that the Immigration Officer may be satisfied a post could not be filled in the country before new employees are imported by any employer.

Employers proposing to start new businesses or engaging in new occupations have to satisfy the Immigration Officer in certain circumstances that the proposed business is in the interests of the natives.

These are many other important provisions detailed below:—  
The new Bill providing for the strict immigration law in Kenya and Uganda is to be introduced in the Legislative Council on Monday, November 26. It is a measure of great importance and is expected to be passed by the Legislative Council on or about the 30th inst.

THERE IS A "SCIENCE IN LUBRICATION" AND WHAT IS MORE WE PRACTISE IT

TO do its work effectively, an oil must be designed to meet the conditions of an engine, transmission or rear axle exactly as the mechanical parts of the car must be engineered for the job. In an engine moving parts which operate under tremendous pressure, an oil must be tough. It must have the ability to cling to the surfaces so that it will not rapidly be squeezed out. It must be able to maintain its consistency so that it will flow properly in the cool weather and in hot weather, if the motor is tilted, cylinders without breaking down or burning and pistons and rings and valves preventing loss of compression.

WHAT GOOD OIL MUST DO

SOCONY AUTO OILS

are perfect lubricants, free from all hard Carbon forming residues, and that is why your Car or Motor cycle will run sweeter and, mo' efficiently on Socony than all other oils.

Obtainable from all Garages and dealers
