RUGGER AT OXFORD. University Side Continues Its Winning Career.

A GREAT TEAM

There is no doubt that Oxford University possesses the strongest XV team now playing Rugby Football in anything we could call a country. Their superiority after a narrow defeat of Newport (the center and Blackheath) is well shown in their side match of the week at Oxford on Tuesday last when a team raised by Major Lawton, including players from various parts of the original side, after spending a fortnight in the States, was opposed, not only to a team raised by one of the most brilliant exhibitions of Rugby ever seen in the University, but to a team which has been seen in the States.

The game in favour of the Dark Blues at the close was three tries and five runs to nil for the visitors and a try & points and three runs to nil for the home side. The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one. The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one.

A South African Blue The Oxford eighth, who had a Blue, was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one. The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one.

THERE IS A "SCIENCE IN LUBRICATION" AND WHAT IS MORE WE PRACTISE IT

WHAT GOOD OIL MUST DO

To do its work effectively, an oil must be designed to meet the conditions of an engine, transmission, or a rear axle exactly as the job. In an engine, a car must be engineered for a perfect cushion between moving parts, which operate under tremendous pressure, it must be able to cling to the surfaces so that it will not be squeezed out. It must be able to maintain its consistency so that it will flow properly in both cold weather and in hot weather, if the motor is either cold or warm. It must be able to resist the high temperatures which prevail in gasoline engine cylinders without breaking down or burning and it must be capable of forming a seal between the piston rings and cylinder, thus preventing loss of compression.

SOCONY AUTO OILS

are perfect lubricants, free from all hard Carbon forming residues, and that is why your Car or Motor cycle will run sweeter and, more efficiently on Socony than all other oils.

Obtainable from all Garages and dealers.

A Narrow Victory

It was appreciated that with what a reputation the Dark Blues had earned in the past, it was not surprising that they should have been able to turn out their best team for the match.

The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one. The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one.

The Oxford eighth, who had a Blue, was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one. The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one.

The Oxford eighth, who had a Blue, was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one. The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one.

The Oxford eighth, who had a Blue, was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one. The game was a very fast and brilliant exhibition of Rugby, and the result was a very narrow one.

superiority of pace. Oxford had the better of the forward play, and had G. P. S. Macpherson, the captain, and H. W. Franklin been able to turn out their best team, they would have been greater.

Harlequins Fight Back

Lawton was the first to score, but his penalty goal was neutralized by one from Lowe's foot soon afterwards. After that the Harlequin back division got busy, but though they pressed almost continuously until the interval only two

tries resulted, Jacob pointing over the Oxford line and scoring. Lowe converted the try, and a little later Francis passed to Davies near the line, and the latter, obtaining an unconverted try, gave the Harlequins a lead of eight points at the interval.

On the resumption Oxford did not look like making a recovery, but a sudden attack gave Humphrey the chance of a drop kick which proved successful, and then the spectators were given an exhibition of fireworks by certain of the

Oxford men. The run with which Jacob scored Oxford's try, delighting two opponents and almost as the corner flag, was imagined how some atmosphere when Richard the extremely difficult play, but the ball soared well over the bar and Oxford's Harlequins could not break a resolute defence during the interval or so which could play.

Remarkable Progress in Brazil.

LEBONDS OF SAO PAULO

Uganda Planter's Valuable Communication.

Mr. J. A. Lebon, of Sao Paulo, writes to the Standard regarding the coffee industry in Brazil.

The coffee industry in Brazil has made remarkable progress in the last few years. The planters have been successful in increasing the yield of their crops and in improving the quality of the beans.

The Standard has received a valuable communication from a planter in Uganda regarding the coffee industry in that country.

The planter reports that the coffee industry in Uganda is making rapid progress and that the planters are confident of a bright future for the industry.

The Standard is glad to hear of the progress of the coffee industry in both Brazil and Uganda and hopes that the planters will continue to make further improvements in the future.

The Standard is also interested in the progress of the coffee industry in other parts of Africa and will continue to report on the industry in the future.

The Standard is also interested in the progress of the coffee industry in other parts of Africa and will continue to report on the industry in the future.

MOTOR NOTES

All Good Luck and Best Wishes to all my readers for 1924...

There has been a large exodus of travellers during the Christmas holidays...

The Hon. Secretary of the B.S.A. informs me that one of his members...

He wrote to know if anyone would like to drive his new car up to Mbarara for him...

It is not very often that one gets a chance of driving a brand new car right up to Uganda...

this meets the eye of anyone who would like this top...

Motor-cycle Football. The Albion Harriers conducted a very successful sports meeting last month...

Two teams were entered - a Triumph team and a B.S.A. team...

The match proved to be a very hot one and it was not until the fourth minute that the Triumph scored...

Motorists Flight. It was reported on the pavement below a Leonard in Brooklyn, New York...

It was a body weighing 90 lbs. and apparently supported in the air by some mysterious and impelling force...

It is stated that the sale of cars averages 1,800 per hour of each business day...

There are now nearly 100 of these corporations in the State with sales amounting to \$200,000,000 annually...

A Radio Church.

The latest in the pastor world is a radio church on wheels...

Only Laugh a Little Bit. Here's a motto for you...

When you think you're trouble-look laugh a little bit...

Fortune may not sit beside you. Men may mock and fame deride you...

Balloon Tyres.

Quite a lot of people are interested in the new Balloon tyre...

Talking about brakes, it is estimated that a very large percentage of motorists are not able to pull up...

The 1924 Dodges.

Although the wheel base of the new Dodge is only a matter of two inches longer than that of the 1923 model...

AGRICULTURAL CENSUS FOR 1923.

General Increase in All Branches of Farming Recorded.

EIGHTY NEW SETTLERS DURING THE YEAR.

Review of Colony's Progress.

In issuing the Agricultural Census for the period July 1, 1922 to June 30, 1923, the Director of Agriculture says:

Inasmuch as a complete Agricultural Census had been taken and compiled annually for a period of three years it was felt that reliable data was now available as a basis for purposes of comparison. It was therefore decided that in future such a complete Census should only be taken triennially and that the Annual Census be confined to land under cultivation and cultivation of the main crops, animal husbandry and particulars relating to agricultural districts.

The schedules previously in use were reduced under the former heads and some minor alterations were made, but the different originals were held down and maintained and comparisons can therefore be made. Apparently no difficulty was experienced by occupiers in supplying the information required under the various schedules as only in a few instances had there to be referred back to the enumerators for correction or explanation.

The completion of the Census Report would however be facilitated and expedited if all occupiers who are delinquent in their payments of rates still remained in arrears. Through the absence of a number of occupiers from their holdings generally arrears in this respect are in some circumstances considerable. It would make arrangements for their manager or representative to furnish the returns in their respective districts and records of numbers of livestock follow the lines of the preceding year.

It should be noted that "Land" has now been subdivided into "Native" Districts under the Matamba District.

The report states that the value of the present year was abundant with the result that crops throughout the Colony have been remarkably good.

It is pointed out that the returns given refer to land under European occupation.

The number of occupiers increased during the year under review by 83, and the total number is now 1,628.

Acreage, Etc.

The area under occupation by Europeans was 3,965,371 acres in 1922 and 3,826,156 acres in 1923. In 1924 the area was 3,826,156 acres. In 1923 the area was 3,826,156 acres representing an increase of 151,218 acres in 1922 over 1921 or 4.75 per cent, and 729,931 acres over 1920 or 23.29 per cent.

A comparative table of occupied areas under cultivation is given and shows a satisfactory increase for 1923. Thus in 1923 the area in full cultivation was 218,000 acres in 1922 and 218,000 acres in 1923.

Crops.

The percentage of areas under the principal crops to total area under cultivation are—

Crop	1922-23
Maize	35.4
Coffee	33.0
Road	2.5
Wheat	1.5
Others	23.2

Flax	3.3
All other crops	9.5
Land under cultivation but not sown	13.0
Total	103.1
Less other crops	1.1

Over the period of four years wheat and the decline in the production of flax are the most marked features.

Development.

The average area cultivated per occupier is 165 acres. Under this head there should be considered those extensive areas which are or will be used for stock farming.

District	Area
Matamba	60,880
Kyauha	42,750
Uasin Gishu	42,600
Port Swains	19,015
Kisumu	18,915
Matambos	10,454
Nairobi	9,959
Lombwa	8,938
Siakana Division	8,929
Nyeri	3,480
Mt. Kenya	2,696
Lalaja	1,657

Livestock—Cattle. The total number of cattle owned by Europeans on June 30, 1923 was 156,161 head showing an increase of 10,220 per cent over the previous returns.

The figure is an improvement on that recorded in 1922 and indicates that all ages and descriptions show increased numbers. The following comparative table is given in this connection:

Year	Total Increase %
Cattle, over 10 lbs	1922 .. 190,140 17.93
1923 .. 212,227 11.57	
1921 .. 161,210 23.00 17.15	
Average	17,619 12.73
5 years	17,619 12.73

It should be noted that the increase in 1921 was due partly to purchases for the establishment of the "Highlands" of Kenya per 1,000 acres of occupied land:

District	1923
Eldama Ravine	49
Kisumu	79
Lalaja	43
Lombwa	43
Matambos	93
Nairobi	93
Nyeri	57
Trans Nzoia	28
Uasin Gishu	55
Average	61.5

Horses, Mules and Donkeys.

There is a slight increase in the number of Horses, and decrease in respect of both Mules and Donkeys.

The number of sheep owned by Europeans is 147,000, an increase of 11,175 for the last year, equivalent to an increase of 9.84 per cent.

A comparative table of increase in sheep and coats is given and Mr. Helm says:

"The figure of increase does not represent truly the 'natural' increase from breeding. They have been influenced by purchases of native owned sheep."

Pigs.

"The total number of pigs shown a decrease of 1,002 as compared

NAIROBI GOLF CLUB.

The Programme for New Year's Day.

TO-DAY AND TO-MORROW.

To-day, Saturday Junior Presidents qualifying round. Senior Presidents qualifying round. Sunday, 30th (morn.) Senior Presidents qualifying round. Note—These are the final qualifying rounds for 1923. MR. H. G. GABRIEL.

Old Townsman Passes away on Xmas Eve.

The death occurred on Monday night last of Mr. H. G. Gabriel, who has been well known in business circles in Nairobi for the past fifteen years or so. Born in Newcastle fifty years ago, the late Mr. Gabriel served for several years a large wholesale house in Cape Town before coming to Kenya, where he took no inconsiderable interest in public affairs. The deceased gentleman was buried in the Old Cemetery on Christmas Day and his funeral was attended by a large circle of friends.

with the previous year. Sufficient work, however, and loans products are supplied for the needs of local consumption, but disappointment has been experienced in the development of an export trade, due largely to the fall in prices on the home market. The export returns reveal that position—whereas in 1921-1922 an export of 820 cwt. was valued at £2,500, 327 cwt. exported in 1922-23 was valued at £2,475 only.

Poultry.

"A considerable increase under this head is recorded, 30,228 head of all types being returned as against 26,071 head in 1922.

(To be continued.)

G. N. LOGGIE, Director of Public Works.

Quality Without Premium

Often it is necessary to give more for proven quality, to pay a premium for assurance of service

But in the case of the new Goodyear Red Tubes, this is not so. For the quality, for the good wear, for all that the name implies, you pay nothing extra.

And their low initial cost is only the beginning of the economies these new Goodyear Red Tubes will effect.

It is only when you look back on their many, many miles of satisfactory service, when you divide their price by their mileage record, that you will appreciate to the full the money they have saved, the service they have rendered, and the confidence they have bred.

KENTON COLLEGE
Kilipe, Kenya Colony.

The above preparatory school for boys will be opened in January, 1924, on the site of the former M.A. School, Kilipe, Kenya Colony. The school will be under the management of Mr. H. A. Turner, B.A., and Mr. H. A. Turner, B.A., who have both been teachers in the Government schools in Kenya Colony.

Moderate Day Room
The day room is a large, airy, and comfortable room, with a view of the surrounding country. It is open to all day, and is a very convenient place for parents to visit their children.

MORNING SCHOOL
The morning school is open from 8 a.m. to 12 noon, and is a very convenient place for parents to visit their children.

NIGHT SCHOOL
The night school is open from 7 p.m. to 9 p.m., and is a very convenient place for parents to visit their children.

LABOUR PARTY AND THE PROXIMATE FUTURE

Provisionally in Kewy's
"Improbability"

Labour Party and the Proximate Future
The Labour Party in Kewy has been the subject of much discussion and speculation. It is a party that has been growing in strength and popularity, and it is expected to play a significant role in the future of the country.

Home Football
The Home Football season is well advanced, and it is expected to be a successful one. The teams are in good form, and the matches are being played in a spirit of sportsmanship.

Work for Women
The work for women is being carried out in a systematic and efficient manner. The women are being trained in various trades and professions, and they are being encouraged to take an active part in the life of the community.

Government Commission
The Government Commission is working hard to improve the administration of the country. They are taking steps to reduce corruption and to increase the efficiency of the government.

Local Progress
The local progress is being made in various fields, including education, health, and agriculture. The people are becoming more educated and more healthy, and the land is being cultivated more intensively.

General Progress
The general progress is being made in all fields, and the country is becoming more developed and more prosperous. The people are living better lives, and the country is becoming a more attractive place to live in.

Government Commission
The Government Commission is working hard to improve the administration of the country. They are taking steps to reduce corruption and to increase the efficiency of the government.

THE NAVAL VISIT

The Naval Visit
The naval visit is expected to be a successful one. The ships are in good condition, and the crews are well-trained and experienced. The visit will provide an opportunity for the naval forces to show their strength and to build up friendly relations with the local people.

Government Commission
The Government Commission is working hard to improve the administration of the country. They are taking steps to reduce corruption and to increase the efficiency of the government.

Local Progress
The local progress is being made in various fields, including education, health, and agriculture. The people are becoming more educated and more healthy, and the land is being cultivated more intensively.

The Government Commission is working hard to improve the administration of the country. They are taking steps to reduce corruption and to increase the efficiency of the government.

Local Progress
The local progress is being made in various fields, including education, health, and agriculture. The people are becoming more educated and more healthy, and the land is being cultivated more intensively.

General Progress
The general progress is being made in all fields, and the country is becoming more developed and more prosperous. The people are living better lives, and the country is becoming a more attractive place to live in.

THE BARRAGE CRISIS

The Barrage Crisis
The barrage crisis is a time of great danger and uncertainty. It is a time when the fate of the country is hanging in the balance. It is a time when the people must stand together and fight for their freedom and their future.

Government Commission
The Government Commission is working hard to improve the administration of the country. They are taking steps to reduce corruption and to increase the efficiency of the government.

ARE YOU FURNISHINGS

If you are buying furniture of any kind, whether a single article or a complete household, it will pay you to consider the following:-

Good furniture is an investment, and furnishes a sense of security and satisfaction. It should be made of the best materials and be designed by a specialist in the art.

Another point to consider is the style of the furniture. It should be in keeping with the style of the house and the tastes of the occupants.

Every article should be made to order, and should be finished with the highest quality of workmanship. The furniture should be comfortable, durable, and easy to clean.

The "Colonial" Suite

The "Economy" Suite

Made from seasoned Tasmanian Hardwood, one of the most durable and attractive of all the world's timbers. The design is simple and elegant, and the furniture is finished with the highest quality of workmanship.

Price £100 - 0 - 0 (with double bed) - 100 - 0 - 0.

Price £130 - 0 - 0 (with double bed) - 130 - 0 - 0.

GEN. SMITHS REVIEWS IMPERIAL CONFERENCE

The Preference Question

NEW SOUTH AFRICAN ASSOCIATION POLICY OUTLINED

New Government will make no deal with the Empire

On December 1st General Smiths was interviewed by a party of members of the New South African Association, and the following is a summary of the views expressed.

The general was most anxious to stress the fact that his policy was not one of isolationism, but one of preference. He was very definite in his views on the preference question, and stated that the Government would not make any deal with the Empire.

The general's policy was based on the principle of self-reliance, and he stated that the Government would not be bound by any imperial obligations. He stated that the Government would not be bound by any imperial obligations, and that it would not be bound by any imperial obligations.

The general's policy was based on the principle of self-reliance, and he stated that the Government would not be bound by any imperial obligations. He stated that the Government would not be bound by any imperial obligations, and that it would not be bound by any imperial obligations.

The Preference Question

The general was most anxious to stress the fact that his policy was not one of isolationism, but one of preference. He was very definite in his views on the preference question, and stated that the Government would not make any deal with the Empire.

The general's policy was based on the principle of self-reliance, and he stated that the Government would not be bound by any imperial obligations. He stated that the Government would not be bound by any imperial obligations, and that it would not be bound by any imperial obligations.

The general's policy was based on the principle of self-reliance, and he stated that the Government would not be bound by any imperial obligations. He stated that the Government would not be bound by any imperial obligations, and that it would not be bound by any imperial obligations.

PLAQUE EPIDEMICS IN NAIROBI
 Conditions in Native Villages
 Scheme by M.O.H. for Reducing Danger of Recurrence

While and deep houses the Chief Inspector of Health, Nairobi, has issued a scheme for the reduction of the danger of recurrence of plague epidemics in the native villages of Nairobi. The scheme is based on the conditions in the native villages as reported by the Chief Inspector of Health, Nairobi, and the results of the investigations conducted by the M.O.H. in the native villages of Nairobi.

The Chief Inspector of Health, Nairobi, has issued a scheme for the reduction of the danger of recurrence of plague epidemics in the native villages of Nairobi. The scheme is based on the conditions in the native villages as reported by the Chief Inspector of Health, Nairobi, and the results of the investigations conducted by the M.O.H. in the native villages of Nairobi.

LABOUR MARKET

Labour Market. The labour market is reported to be very quiet. There is a general feeling of uncertainty among employers and workers alike. The demand for labour is not very brisk, and the supply is not very large. The result is a general stagnation of the labour market.

MARKET MOVEMENTS

Market Movements. The market movements are reported to be very quiet. There is a general feeling of uncertainty among investors and traders alike. The demand for securities is not very brisk, and the supply is not very large. The result is a general stagnation of the market.

CORRESPONDENCE

Correspondence. The correspondence section contains several letters from readers. One letter discusses the state of the labour market, another discusses the state of the market, and another discusses the state of the economy. The letters are generally critical of the current situation and call for more action from the government.

THE HORIZONTAL SHOW

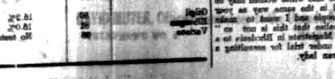

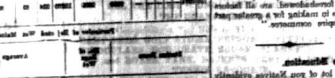

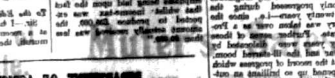

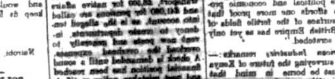

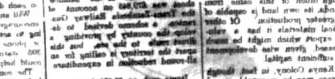

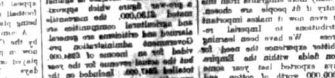

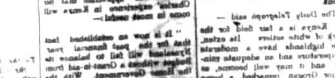

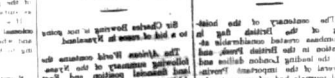

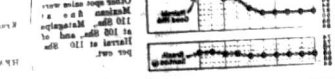

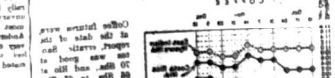

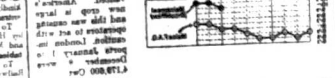

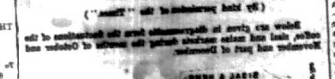

The Horizontal Show. The horizontal show is reported to be very quiet. There is a general feeling of uncertainty among exhibitors and visitors alike. The demand for exhibits is not very brisk, and the supply is not very large. The result is a general stagnation of the show.

THE HORIZONTAL SHOW

The Horizontal Show. The horizontal show is reported to be very quiet. There is a general feeling of uncertainty among exhibitors and visitors alike. The demand for exhibits is not very brisk, and the supply is not very large. The result is a general stagnation of the show.

REDUCTION IN PRICE OF TYRES

Reduction in Price of Tyres. The price of tyres has been reduced by 30%. This is a significant decrease and will benefit consumers. The reduction is due to a combination of factors, including a decrease in the cost of raw materials and an increase in production efficiency.

CARR LAWSON & CO. LTD.

Table listing various tyre models and their prices. The table has columns for model name, size, and price. Prices range from approximately 10 to 30 units.

What is to be Done?
VIRGIN BIRTHDAY

The Fashion Column

It is a fact that the fashion of the day is to wear long, flowing dresses with high collars and long sleeves. The material is usually a soft, pliable fabric like silk or satin, and the color is often a pale shade of pink or lavender. The hats are also long and flowing, with a wide brim and a high crown. The shoes are usually high-heeled and have a pointed toe.

A Woman's Favourite

It is a fact that the fashion of the day is to wear long, flowing dresses with high collars and long sleeves. The material is usually a soft, pliable fabric like silk or satin, and the color is often a pale shade of pink or lavender. The hats are also long and flowing, with a wide brim and a high crown. The shoes are usually high-heeled and have a pointed toe.
