# Sidelight On Russia-1933

By R. B. M. Blomfield

SUMMER was already dying in Leningrad. It was like a beautiful October, though August was not yet over. Many people were still in the city, but the summer was over. The people were tired and the city was quiet.

The woman in the photograph is a beautiful young girl. She is standing in a room that is filled with books. She is looking at the camera with a slight smile. The room is a library or a study, and it is a very nice place.

**Mr. Churchill in America**  
SATURDAY, JUNE 26, 1942.  
MR. CHURCHILL IN AMERICA

The Prime Minister is visiting the United States for the third time within a year. The second visit, at the end of December shortly after Japan had unprovokedly attacked the United States, was noteworthy for the beginnings of close cooperation between the two nations. The third journey may be the most important, for it is the first visit since the outbreak of the war. It is the first visit since the outbreak of the war.
