# THIS WEEK'S LEADERS

## MR. CHURCHILL IN AMERICA

SATURDAY, JUNE 19, 1942.

The Prime Minister's visit to the United States for the third time this year. The circumstances of today do not make such publicity being given to these historic occasions, as might be supposed on this occasion, mere news that during previous visits Mr. Churchill has been in the United States. It is not to be expected that he will be in the United States again until August or 1941. The first visit in August 1941 gave us the Atlantic Charter—the framework of the structure of the New World. The second visit, at the end of December shortly after Japan had treacherously attacked the United States, was noteworthy for the beginnings of close co-operation and as a personal triumph for Mr. Churchill whose appearance before the Parliament of the United States and Canada produced an enthusiasm for the Cause which will all the more be impressed in both countries. His third journey may be the most significant of all for we are now on the threshold of a great struggle. The question of a long war, or a short one as in the balance. This may be our Year of Victory or our Year of Hope. Defeat.

There are no more to the Canadian Parliament on the eve of the New Year, the Prime Minister outlined what he saw as the three main phases of the struggle that lay ahead. First there is the period of consolidation, of re-orientation and of firming up—of gathering up our strength on the sea in the air, on land.

The second phase, which would open when the first British air strength and power could be directed against the enemy, might be called, for the sake of the phase of liberation. During this phase we must look to the recovery of territories which have been lost or may well be lost, and also we must look to the revolt of the conquered people from the manacles which warring armies and air forces appear in strength within their borders. And finally there is the third phase—an assault upon the citadels and bastions of the guilty powers, both in Europe and Asia. And with these three phases of the war, as outlined by the Prime Minister, come the three main phases of the struggle that lay ahead. First there is the period of consolidation, of re-orientation and of firming up—of gathering up our strength on the sea in the air, on land.

Wants his hope, and not the least important, has been the Triple Agreement among Russia, the United States and the British Commonwealth. There has also been stabilising action in the United States and the British Commonwealth. There has also been stabilising action in the United States and the British Commonwealth. There has also been stabilising action in the United States and the British Commonwealth.

days it used to be the practice for the leading members in a constituency to approach some highly respected citizen and ask him to take the honour of being nominated. If he was not entirely acceptable there would probably be a contest. Certainly in the course of the contest, there would be public meetings and open discussion, and a careful weighing of principles and personalities at the poll. And there was some heat generated in the course of the contest, but so much the better for political life.

## NAIROBI SOUTH

MONDAY, JUNE 22, 1942.

In its lengthening and sometimes turbulent history Kenya has seen some strange political intrigues and spectacles. Happily, the present situation is a thing quite so far-etched as the manoeuvres which have begun to be connected with the filling of the vacant seat in Legislative Council brought about by the withdrawal of the Member for Nairobi South. "It is enough," said a member to the East African Standard during the weekend, "to make one sick." While we do not pretend to admire or approve the crude way in which he has expressed his inner feelings, we applaud and appreciate the revulsion he expressed. It is because a departure from the usual standard is a rare thing in Nairobi that we do so sharply, in the name of the people, to express our disapproval. What has happened to date is this: Mr. Kenney, who was already in any case the "common-sense" candidate, was invited to give the opinion of the public on the matter. He was invited to give the opinion of the public on the matter. He was invited to give the opinion of the public on the matter.

But here we have an undignified scurry, a hustling and pushing and shoving to get to the front, and a gathering up of a committee who assume to themselves the right to have those "candidates" before them, one by one, for close examination (as they did on Saturday) by the public. The Committee propose to put forward the name of their "final choice" to a public meeting of the caucus tomorrow (and to be followed by a further meeting of the caucus tomorrow). The public are invited to attend and to attempt to influence the choice. The public are invited to attend and to attempt to influence the choice. The public are invited to attend and to attempt to influence the choice.

may set on the part of Government if it were explained clearly before the system is applied. It seems to those who are not fully acquainted with the facts that Government has agreed to a scheme whereby a trader, big or small, against whom the Price Controller is preparing a case for prosecution will be brought in the first instance before the proposed advisory committee of his fellow business men who will then advise the Government as to whether they consider that a complete appreciation of the case has been made by the public to make the comment to us that in ninety per cent of the cases such a committee would "naturally" recommend that action be abandoned as the merchant was merely guilty of "commercial" failure. It is not to be said that this is a fair view of the public mind.

any of the world fronts has to be taken in ships. Britain herself has had to be fed to a great extent by the New West and the Dominions and great quantities of war material, raw and manufactured goods have been landed on shore from the Americas and in fulfilment of the Empire. Every man who has gone overseas—and already they number in the millions—has had to be fed with the free world, trade in fulfilment of the Empire. Every man who has gone overseas—and already they number in the millions—has had to be fed with the free world, trade in fulfilment of the Empire.

## HOW MUCH DOES SLEEP REFRESH YOU?

Do you jump up in the mornings tired and refreshed—or do you doze through your day? Do you feel that you need more sleep? Do you feel that you need more sleep? Do you feel that you need more sleep?

Why not just get a good night's sleep? Do you feel that you need more sleep? Do you feel that you need more sleep? Do you feel that you need more sleep?

There is a simple, honest, non-prescription for this condition—Krause's Sleep. The analysis is on the bottle. It's the latest fact. It's the latest fact. It's the latest fact.

## DEFEAT AT NAIROBI

TUESDAY, JUNE 23, 1942.

Without giving way to depression, do not let us minimise the serious character of the situation in Nairobi. We have suffered at Nairobi. The whole of the third Lokan Campaign, the only one on which we have stood on the defensive within the empire since the start of the attack, has been a very great disappointment. Perhaps the most serious of all—the symbol of our spirit—as a result of the desert borders where an epic was told.

## PRICE CONTROL PROSECUTIONS

WEDNESDAY, JUNE 24, 1942.

Arising out of the recent negotiations between the Price Controller and the Chamber of Commerce regarding the latest Price Control Regulations, the President of the Association of Chambers of Commerce of Eastern Africa has an interview with the Price Controller which will be published in the next issue of the Standard.

## SERIOUS SHIPPING POSITION

THURSDAY, JUNE 25, 1942.

In every direction to which we turn at the present stage in the war we are confronted with a serious and alarming problem, the grave shortage of shipping. Germany, the main enemy always in this connection, is fighting an intense campaign of building up her resources from countries served by rail or water routes to her shores.

# The Fall of Tobruk

## MANY SOUTH AFRICANS NOW PRISONERS OF WAR

THE Middle East command in Cairo on Friday morning announced another swift change in the Egyptian Army front. The Egyptian Army on the fortified position at Tobruk, which had been held for three months, has fallen to the enemy. Our troops in the desert, however, are still fighting bravely and have inflicted considerable losses on the enemy. The fall of Tobruk is a serious blow to the Axis, but it does not mean that the Egyptian Army is in a state of collapse. The Egyptian Army is still a fighting force and is capable of inflicting heavy losses on the enemy. The fall of Tobruk is a tactical defeat, but it does not mean that the Egyptian Army is in a state of collapse. The Egyptian Army is still a fighting force and is capable of inflicting heavy losses on the enemy.

### Tobruk's Defences Pierced

A new phase in the battle for Tobruk was opened on Friday morning when the Axis forces pierced the defences of the city. The Axis forces, which had been attacking the city for several days, finally broke through the defences. AFRICANS IN THE HOME GUARD

History is often made quietly

in Kenya. We pass with casual

insouciance from the past to the

present without stopping to

recall old history or to consider

the future. That was a mistake

in the days of the British when

it was possible to keep track of

time in peace time. But we were

notoriously glib and we were

notoriously glib and we were

notoriously glib and we were

But the officers and men are...
volunteers from the Kenya...
force and this matter...
and both with the K.D.F.
is provided. These Auxiliary...
battalions are given a considerable...
amount of infantry training...
particularly in tactical...
operations which will be...
of minimum drill. Their...
purpose is to strengthen the Home...
Guard in the Colony and to co-...
operate with the K.D.F. in any...
undertaking which is deemed to be...
of importance and the maintenance...
of order.

From a military point of view...
it was a sound and wise...
decision thus to avoid the...
problem of the Home Guard...
being done by the limitations...
of manpower. It has become...
obvious that the K.D.F. offers...
little hope of expansion if it is...
confined to the present conception...
of the structure of human resources.

Nor would it be sound policy, if...
its services were restricted, to put...
into action a unit composed...
solely of European personnel...
which has would add to the...
manpower difficulty. As in the...
case of the Kenya Regiment...
the Government has decided to...
experience is proving that for...
and purposes of the Home...
Guard in time of war the K.D.F. may...
be usefully developed as a training...
unit for officers and other...
N.C.O.'s for African battalions...
and the employment of Africans.

But from the larger point of...
view the Government has called...
upon to assist in the defence...
of the Colony against external...
aggression. It is an arrangement...
against the inclusion of the...
Home Guard in any effort, has...
earned the distinction by his...
first record on command.

It is the proposal being made...
a few years ago that the African...
Home Guard be placed in...
association with the K.D.F. the...
argument is that the Home Guard...
has been successful. Today the...
change has taken place and...
notices.

A.R.P. Concerns The Entire Colony

# The Battle For Egypt THE THRUST FOR ALEXANDRIA

**IN Egypt** the main British and Axis armoured forces are locked in battle west of Mersa Matruh. At noon on Saturday the German force, our main armoured force, closed with the enemy on Saturday and that heavy fighting continued through the day. The enemy forces advanced to forward positions and were met by our armoured forces west of Mersa Matruh. The battle raged until nightfall and still continues.

**Contact with the Rear Corps**  
Earlier messages stated that up to Friday night, land operations had been on a limited scale in the Western Desert but that intense and unceasing day and night activity was being carried out by the Royal Air Force, during Friday.

On Friday the enemy made a slight advance and his forward troops were reported to be about three miles west of Mersa Matruh. These forward troops were reported to be the remnants of the Eighth Army, but there was no major engagement.

**THERE** has been very heavy fighting in the Mersa Matruh area. A communiqué received from the British Military Headquarters in Cairo, on Monday, stated that the Italian offensive is supported by heavy fighting between the British and Italian armoured forces. The Italian offensive is supported by heavy fighting between the British and Italian armoured forces.

**The Enemy's Aim**  
On Monday morning enemy messages indicated that the enemy intended southwards and that the British forces were to be met at the left flank of the Eighth Army. The enemy's aim was to reach Mersa Matruh. Preliminary reports of the battle led to the west of the area.

**Five Enemy Divisions**  
The enemy has a disposition of at least five divisions at the present time. Reports from the front, received in Cairo, state that the 19th German Division is moving westward by way of the coast road and the 21st Division is moving westward by way of the inland road. The 19th German Panzer Division was last reported south of Hamada, west of Mersa Matruh. Fighting has now developed south of Hamada.
