GAS INDUSTRY IS NEXT ON LIST

Nationalisation: controversy ahead

BY CHARLES E. GAYTON
 Special Times Staff Correspondent

THE British Parliament now reassembled will soon be plunged into another nationalisation controversy. This time it is gas. A Bill to nationalise the making and distribution of this is the third stage in the Government's policy of placing under State control the basic life and electricity supply industries of the country.

The gas industry is one of the most important in the country. It is the only one which is not a natural monopoly. It is the only one which is not a public utility. It is the only one which is not a public service. It is the only one which is not a public enterprise.

FIRST LARGE AIR FREIGHTER TO BE BASED IN EAST AFRICA

There are many lions in the Park from 'watoto' to 'wazee'

BY THE WARDEN

LIONS are numerous in the Park at present, and are well distributed over the whole area. A pride of seven lions are in the Kisumu valley, about eight miles from the Nairobi Forest Office on the Kisumu road. Of these one lioness has four small cubs about a month old. A lion and two lionesses are hunting the Lam Valley, and are often seen in the early morning and at dusk in the tippie Forest area. In the western part of the White Grass ridge are a pride of four lion, and another pride with six cubs about four months old, near the Athi basin, and the Kisumu valley. One old lion and three lionesses are in the Mbagathi valley near Kingfisher gorge.

I am asked several times a week where the lions are. It always happens where the lions were last seen, but it is necessary to see the following signs when they will be the following day. The lions do not dig but they usually dig. They move all over the area hunting and waiting where they feel suspicious. Certain areas are favourite haunts. Most of these places are now quite well-known to the Nairobi public. It is just a matter of luck if you happen, while touring the park, to come across a pride.

"GAGE" MOUNTAINS ARE SAFE

There is one public club to remember, however, which will usually attract the visitor to see lions. Always report slowly and quietly. Do not approach too close to them. Do not make any sudden movements or do anything that might startle them. It is also very important to remember that lions are very much afraid of fire. It is a very good idea to have a small fire burning in the bush and return to it after you have seen the lions. This will usually insure a safe return to the car.

MR. MARQUAN GETS DOWN TO BUSINESS IN NAIROBI

His team is being on big scheme like groundnuts plan—can Kenya tackle cattle production on similar scale?

On Monday Mr. Henry A. Marquand, British Paymaster General, after a two-day stay on Saturday and a visit to the members of his team to the building, got down with the other of his staff to the business of the day.

First, the Government officials at the Secretariat, Nairobi, sat in general terms on the subject of groundnuts. Mr. Marquand made a speech in which he stressed the importance of the groundnuts industry in Kenya and the need for a comprehensive plan to develop it.
