# Weather and Worell put West Indies in strong Test position

WITH rain causing an early closure, and 204½ wickets on the board, the West Indies can be regarded as having gained what they would prove to be a decisive advantage in the Third Test against the M.C.C., which began at Georgetown on Wednesday. This is a significant recovery after losing three wickets for 48 runs.

The West Indies' batting after tea was of a high order, and the batsmen showed a marked improvement in their technique. The batsmen who played well in the first innings were the batsmen who played well in the second. The batsmen who played well in the first innings were the batsmen who played well in the second.

The scorecard  
West Indies (1st innings) 17  
M.C.C. (1st innings) 17  
West Indies (2nd innings) 17  
M.C.C. (2nd innings) 17

**Flooded pitch**  
After the start of the match, the pitch was flooded with rain, and the match was suspended for several hours.

The match was resumed after the rain had cleared, and the West Indies continued to bat. The batsmen showed a marked improvement in their technique, and the match was a closely fought contest.

**FOUR NEW PLACES TO PICNIC**

But don't start a forest fire BY THE WARDEN.

LEIGN have been more difficult for the motorist to find during the last week. Owing to the dry weather, the water-bodies in the park and in the country have dried up. The game and lion are now dependent on the two permanent streams in the park. The first of these is the Mabarizi gorge. Because of the scarcity of water most of the game is now concentrated in the Ashi basin and to the north of the river.

A large light-brown lion, several lionesses and some cubs are living in the rough rocky valleys to the south of White Crown village.

A fine black-headed gull with white underparts and long thin legs is in the Ashi basin. They fly up to the top of the Ashi hills.

Other game mammals have been seen south of the Ashi river and in the Ashi basin. The Ashi river is a very important water supply for the game. It is a very important water supply for the game.

Four more game places, with water in them, have been discovered. These are Ashi, Mabarizi, and Mabarizi. These are Ashi, Mabarizi, and Mabarizi.

NEW SCOTS MINISTER ARRIVES  
Clean routes planned to safeguard meat

THE COLONIAL and Commercial Committees of the Church of Scotland has appointed the Rev. Roy Liddell, D.D., as a European chaplain for the Scots community in Kenya and Uganda. The latest meat shortage has been caused by foot and mouth disease occurring between the two countries because of the lack of clean routes to safeguard meat.

## Does the slaughter of game succeed in killing tsetse fly?

IN NORTHERN BAROTSI, as in Tanganyika, the Native has always been the irresponsible owner of his game. It is not until today in a very small part of what there was thirty years ago. Even during the last 10 years a great distinction is apparent. In Uganda, Captain Caldwell says that the tsetse fly has been almost entirely exterminated in the game reserves. In the game reserves of Tanganyika, the tsetse fly has been almost entirely exterminated in the game reserves. TAILED HAIR in all styles, from severe black to unconventionally wild in Nairobi last week-end. The "New Look" must be a rather conspicuous by its absence, and the very few who had it even after it gave the effect of having ignored and looking sufficient credit in pushing them afterwards.

There was some, especially at the races, where the hair was more attractive of which was worn by the uninitiated, though it was usually seen in the country. It was a case of the white ribbon hair, but small braids or dreads, worn with white dresses.

**From upcountry**

Perhaps the best news of the afternoon was that the new style of hair, the "New Look", was not only seen in Nairobi, but also in the upcountry. It was a case of the white ribbon hair, but small braids or dreads, worn with white dresses.

### THE GREAT INDIAN PEASANT

THE INDIAN PEASANT... The Indian peasant is the backbone of the Indian economy. He is the one who produces the food and raw materials that sustain the Indian population. His life is a constant struggle against the forces of nature and the exploitation of the landowners and the British Government.

There are four pillars of Indian agriculture: the peasant, the land, the water, and the market. The peasant is the most important of these pillars. He is the one who works the land and produces the food. The land is the source of his livelihood. The water is essential for irrigation. The market is where he sells his produce.

## President names Russia as chief constructor of peace

### HE CALLS FOR CONSCRIPTION AND SPEED ON MARSHALL PLAN

Washington, May 13.—President Truman today announced that he had named Joseph P. Kamp, former director of the United States Office of War Relocation, as chief constructor of the Marshall Plan. Kamp, who is a member of the War Relocation Administration, is a former member of the United States House of Representatives. He was appointed to the position of chief constructor of the Marshall Plan on May 13, 1945. The Marshall Plan is a program of economic aid to Europe, named after George Marshall, Secretary of State. It is designed to help Europe recover from the devastation of World War II. The plan provides for the reconstruction of Europe's infrastructure, including roads, bridges, and public buildings. It also provides for the reconstruction of Europe's economy, including the reconstruction of its industrial and agricultural sectors. The plan is a key part of the United States' foreign policy, and is seen as a major step towards the reconstruction of Europe and the establishment of a new world order.

## NO ORDINARY TREATY

Expected against no one, says Attlee

London, May 13.—The House of Commons today began its consideration of the signing of the Western Union pact in Brussels. Mr. Attlee, Prime Minister, said that the treaty was not directed at any particular country, but was a general agreement between the Western Union countries. He said that the treaty was a landmark in the history of international relations, and that it would help to bring about a new era of peace and cooperation between the nations of the Western Union.

## LIVING COSTS ALARM KENYA

Nairobi, May 13.—The Government today announced that it had decided to increase the price of wheat from 10 shillings to 12 shillings per bushel. This decision was met with widespread criticism, as it was seen as a major step towards the inflation of the Kenyan economy. The Government said that the increase was necessary to cover the cost of transport and other expenses. However, critics said that the increase would have a devastating effect on the poor, who would be unable to afford the higher price of wheat. The Government is expected to announce other price increases in the near future.

# Pioneer farmers in Kenya 'were tough'

## NANYUKI DISCUSSES N.F.U.

**Standard Nanyuki Correspondent.**  
 THE difficulties experienced by pioneer farmers are not fully appreciated by the present generation, and Mr. Will Easton, General Manager of the Nanyuki Chamber of Commerce, said the early farmers in Kenya had had to face, especially the women, 24 hours of no electricity, the rigour of men who had to travel long distances for their daily needs, and the fact that they were often the only people in the area who could grow their own food. Mr. Easton said that the pioneer farmers were often the only people in the area who could grow their own food.

### In Nairobi National Park THERE'S SPRING IN THE AIR

BY THE WARDEN  
As the weather improves, there has been a noticeable change in the atmosphere of the park. The birds are beginning to sing and the air is filled with the sound of their voices. The flowers are beginning to bloom and the trees are beginning to turn green. It is a wonderful sight to see the park in this state of nature.

I have been told that the Government has been very generous in its policy of selling land at a low price. It is a pity that the Government has not been able to do more.

To the Editor, "E. A. Standard,"—  
I have a little more to say on the subject of land prices. The Government has been very generous in its policy of selling land at a low price. It is a pity that the Government has not been able to do more.

# 'The Kingdom of the East Wind' problems in Southern Tanganyika

NEARLY twenty years ago I began my life in East Africa in the grasslands of the Southern Highlands of Tanganyika and I am convinced that over the years I have accumulated a vast amount of knowledge of the factors that affect their fertility is now that as the African cannot write his substance out of them nor the European with his implements. They cannot be explained either the food or profit and the natural fertility exported until we are left with a desert and a dead land on our hands and the people who have been there for their particular purpose or they have been developed on an integrated agronomic plan.

## GRASSLAND

THROUGHOUT the grasslands of the Southern Highlands, the East Wind, which is the dominant factor in the development of the grasslands, is the East Wind. It is the East Wind that has made the grasslands of the Southern Highlands what they are today. It is the East Wind that has made the grasslands of the Southern Highlands what they are today. It is the East Wind that has made the grasslands of the Southern Highlands what they are today.

## By "Cincinnati"

Nature's age-old protective cover for Africa again in danger from human ignorance

By the end of August this process will be in full swing. It is the East Wind that has made the grasslands of the Southern Highlands what they are today. It is the East Wind that has made the grasslands of the Southern Highlands what they are today. It is the East Wind that has made the grasslands of the Southern Highlands what they are today.

## THE LOW-COST EARTHMOVING...

There is a tremendous amount of work to be done in the construction of roads, airports, and general construction of the country. The cost of these products is more dependable, economical power will get the job done.

## WHY wisdom tooth?

"Wisdom" teeth generally appear between the 17th and 21st years, an age when we are supposed to be young men. However, you are never too young to learn the wisest way of caring for the teeth—right cleaning with Odd's. Safe, smooth and refreshing. Odd's makes each sparkle and keeps them healthy. And how it cleans up the whole mouth!

# CHESS

**Surprise variations**  
BY B. MANTON-COOK

FOLLOWING our recent columns on the subject of surprise variations in chess, we have received many letters from our readers who are interested in the subject. The interest in the present game, however, is not so keen as it was in the past, and it is not so keen as it was in the past, and it is not so keen as it was in the past.

**'Odds giving'**

There is also a strongly developing trend towards the giving of odds in chess. This is especially true in the case of the game of chess, which is now being played by a large number of people who are not very strong players.
