## BUT THREE AUTHORS MAKE A VARIED OFFERING

LITERATURE on East Africa takes its hour-mass groups. First, they had the great books of the early explorers, the towering, pioneering but almost careless records of first impressions. Then came the more scientific and more detailed records of the early colonial days. These, they form an immense, invaluable and interesting body of work.

It is the story of the early days of the East African continent, the story of the early days of the East African continent, the story of the early days of the East African continent.

The first of the three authors is the late Sir John Hume, who wrote the first of the three books, the story of the early days of the East African continent.

Chronicle from Scotland
Summer time with Summer weather

THE introduction of Summer Time, for once, has given an extra hand salary that would literally be sending us summer to go with it.
Daily salaries in the north have risen by one shilling a week, and in the south by one shilling a week. In the north, the extra shilling is paid for the first three weeks of the summer, and in the south for the first four weeks. This is a most unusual arrangement, and one which will be welcomed by all concerned.

For tourists
A FEW of the tourists who have been flocking to the Scottish coast for the summer holidays, are finding the weather very disappointing. The sun is not shining, and the wind is blowing from the north. This is a most unusual occurrence, and one which will be welcomed by all concerned.

Celtic pioneer

The Celts were the first to settle in Britain, and they have left their mark on the language, the customs, and the art of the British people. Healthiness comes first for health!
Most men and women are unable to realize the true character of health. It is not only a state of mind, but it is a state of body. Health is a state of mind and body, and it is a state of health that is a state of health that is a state of health.

World is at stake in
Italian elections,
and omens are good

THE EYES of the world are anxiously watching the election
campaign in Italy, where polling is due to take place on
April 18—the struggle is very much more than a purely internal
Italian affair and the very nature of the contest will be determined by
the outcome, writes ANTHONY DOBBS, of THE ECONOMIST.
The question is to decide in
advance, Italy to remain a
democratic and western, or whether
it is to fall into the hands of the
Russian bloc.
On the extreme Left, the Communist
dominated Popular Front, and some
progressive Signor Democrazia
Christiana, which is a mixture of
Socialists and Christian Democrats,
which is based on an equally vague
platform of social justice and
national bloc of many elements
from Liberals to neo-Fascists.

No effort spared

If the Popular Front were to win
the next election it would be a
serious blow to the government.
The very fact that the government
would have to be replaced by a
Communist or a Fascist government
is a serious blow to the government.

If the Reds won

The Italian people are so divided
that a vote for the Popular Front
would be a serious blow to the
government.

A Premier
Crowns a Queen

I DON'T think that we have ever
seen such a display of beauty
and grace as that which was
witnessed at the coronation of
Queen Elizabeth II.
The coronation was a most
splendid occasion, and the
Queen's appearance was
truly magnificent.
