NAIROBI NATIONAL PARK
The tale of a Hippo, a Rhino and a Hare

BY THE WARDEN

The Hippo looks for the hare.

THIS week's article is for my very young friends only. I had a letter from a little girl. She wrote to say she loved to read about the animals and the birds. She ended her letter with "Please Mr. Warden, tell me more about it." I thought I would like to have to be very young, and big, and strong, and I thought I would like to have a horn like a rhino. I only catch glimpses of them now and then.

I can remember many years ago when I was very young, I used to go to the zoo with my father and mother. I used to go to the zoo with my father and mother. I used to go to the zoo with my father and mother.

The hippo and the hare are very different animals. The hippo is very large and heavy, and the hare is very small and light. The hippo is very slow, and the hare is very fast. The hippo is very strong, and the hare is very weak. The hippo is very brave, and the hare is very shy.

I hope for the winter I had left my notebook for you. I had left my notebook for you. I had left my notebook for you.

This little hare called Henry. He had a very long ear. He had a very long ear. He had a very long ear.

Flower show entries disappoint, but standard is high

THE quality of the exhibits at the Kibera Horticultural Flower Show held at the Memorial Hall, Nairobi, on June 13, was excellent but the number of entries was poor enough to cause disappointment.

Though the late rain had been instrumental for the favour of the crops to be ready in time for the Show, those who were anxious to see the flowers in the garden would be disappointed, as there was not much competition.

THE SHOW was held at the Memorial Hall, Nairobi, on June 13, and was attended by a large number of people. The exhibits were of high quality, but the number of entries was poor.

BOOKS THAT SPAN THE GLOBE

It is a frequent lament of the novel reader of today that there are so many new authors who are known in terms of one book only. An earlier generation selected its fiction mainly by author. "Don't you remember, he wrote so good and so well" was all that was necessary. The readers of today, at least in variety, and so fiction has become more of an adventure and exploration.

And so, week by week, they look around for "new books" to review and bring to the notice of the general public.

There has recently arrived in the country a new book, "Bright Promise" by Richard Sherman. It is written by a young American, and it serves not only as an excellent introduction to all that is new in contemporary American literature, but also to the American scene during the past twelve years.

The first section is a picture of America in general during the years 1934-1944. The author, Richard Sherman, is a young American who has lived in Europe and has seen the world from the inside. He has seen the world from the inside. He has seen the world from the inside.

UNION SHIPS 45,000 TONS OF FRUIT

An all-time record season for the export of Western Province produce has been achieved with the sailing of the *Burling Castle* with the first consignment of apples and Apples and Bananas grapes to the United Kingdom.

During the season about 45,000 tons of fruit have been consigned, which is more than 10,000 tons more than was shipped in the previous season.

The season's receipts for the last three months of the year have been 12,000 tons of fruit, which will be shipped in the next few months.

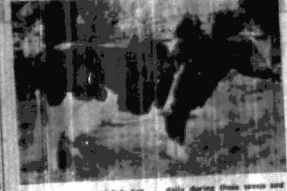

In addition more than 30,000 tons of fruit has been sent to Europe and Africa during the season.

These figures do not include those consigned to other parts of the world.

The season's crop has been exceptionally large, although the quantities produced in the previous season were greater than in the previous year.

The crop was also exceptionally large, although the quantities produced in the previous season were greater than in the previous year.

Britain presents a population paradox

'INS AND OUTS' PUZZLE

By RICHARD DENHAM

WHILE we scold the displaced persons in Europe for their failure to return to their native countries, we are at the same time sending thousands of our own people to work in foreign lands. This is a population paradox.

The population of the United Kingdom is increasing at a rate of about 100,000 people a year. This is due to the fact that the number of people entering the country is greater than the number of people leaving.

The number of people entering the country is about 1,000,000 a year, while the number of people leaving is about 900,000 a year.

The population of the United Kingdom is expected to reach 50 million by the year 2000.

Of the 'three ways to Mecca', which is yours?

THE WEEK'S OFFERING OF BOOKS

There is always something of an adventure in sampling the work of a new author and, as mentioned recently in these columns, there are many new authors these days. Three Ways to Mecca is a new novel by Edwin Corie and though, apparently, this is his third book, I had not previously come across any work by this author.

A first class personal of the book itself is given in the advertisement on the opposite page. It is quite his own story which he has written in a style which is not only readable but also interesting and in some places is almost lyrical. The first two ways to Mecca are 'The Road to Mecca' and 'The Road to Mecca'.

A special feature of the book is the fact that it is written in a style which is not only readable but also interesting and in some places is almost lyrical. The first two ways to Mecca are 'The Road to Mecca' and 'The Road to Mecca'.

Communism in Asia

MONDAY, JUNE 11
 Although it is generally admitted that the Communist movement in Asia has been making considerable progress since the end of the war, the extent of this progress is still a matter of debate. Some observers believe that the movement is still in its infancy, while others believe that it has already become a major force in the region.

The Communist movement in Asia is a complex phenomenon, with many different branches and objectives. In some countries, such as China and the Philippines, the movement has been organized into a formal party, while in others it remains a loose collection of groups and individuals.

One of the main reasons for the success of the Communist movement in Asia is the widespread dissatisfaction with the existing political and social order. In many countries, the ruling classes have been corrupt and oppressive, and the masses have been poor and oppressed. The Communist movement has offered a simple and attractive program of social and economic reform, which has won the support of the masses.

Another reason for the success of the Communist movement is the support of the Soviet Union. The Soviet Union has provided the Communist movement with financial and military aid, and has also provided it with a powerful international voice. This support has enabled the Communist movement to overcome many of its difficulties and to make significant gains in the region.

Despite these successes, the Communist movement in Asia still faces many challenges. One of the main challenges is the opposition of the ruling classes and the foreign powers. The ruling classes and the foreign powers have been alarmed by the success of the Communist movement and have sought to suppress it by all means possible. This opposition has made the Communist movement's task even more difficult.

Another challenge is the internal divisions within the Communist movement. In many countries, there are different groups and factions within the movement, each with its own interests and objectives. These divisions have often led to conflict and have weakened the movement's effectiveness.

Despite these challenges, the Communist movement in Asia remains a powerful force. It has the support of the masses and the aid of the Soviet Union, and it has a clear and attractive program of social and economic reform. It is likely that the Communist movement will continue to make significant gains in the region in the years ahead.

Conference of Electors' Union

REPRESENTATIVES from 100 European districts of Kenya met in the Memorial Hall, Nairobi, on Monday to discuss the proposed changes in the Government of Kenya. The meeting was presided over by the Governor, Sir Robert B. Stewart, and was attended by a large number of representatives from the various districts.

The main purpose of the conference was to discuss the proposed changes in the Government of Kenya, which were set out in the Governor's election address. The proposed changes included the abolition of the Legislative Council and the establishment of a new Legislative Assembly, which would be elected by the people of Kenya.

The representatives discussed the proposed changes in detail and expressed their views on the various aspects of the proposal. Many of the representatives expressed their support for the proposed changes, while others expressed their opposition. The conference ended with a vote on the proposed changes, which was carried in favor of the proposal.

The Governor's election address was a landmark event in the history of Kenya. It was the first time that the Governor had addressed the people of Kenya directly, and it was a clear indication of his commitment to the people and to the development of Kenya. The proposed changes in the Government of Kenya were a major step towards the establishment of a democratic government in Kenya, and they were widely welcomed by the people.

Just suppose...

What if I did not know that the Government of Kenya was planning to introduce a new constitution? What if I did not know that the Government was planning to abolish the Legislative Council and to establish a new Legislative Assembly? What if I did not know that the Government was planning to hold general elections in Kenya?

These are the questions that many people are asking themselves as they read the Governor's election address. The Governor's address has raised many questions in the minds of the people, and it is natural for them to ask themselves these questions.

One of the main questions that people are asking is whether the proposed changes in the Government of Kenya are in the best interests of the people. Many people are concerned that the proposed changes will lead to a loss of the people's rights and freedoms, and they are asking themselves whether the proposed changes are worth the risk.

Another question that people are asking is whether the proposed changes will lead to a more democratic government in Kenya. Many people are concerned that the proposed changes will lead to a government that is controlled by a few powerful interests, and they are asking themselves whether the proposed changes will lead to a more democratic government.

These are the questions that many people are asking themselves, and it is important for them to have the answers. The Governor's address has raised these questions, and it is up to the people to decide whether the proposed changes are in their best interests.

Care for apathy

THE GOVERNOR'S election address has been widely welcomed by the people of Kenya, but it has also raised the question of how to deal with the apathy of some of the people. The Governor's address has shown that many people are interested in the proposed changes in the Government of Kenya, but there are still many people who are apathetic towards the process.

Demobilisation

THE GOVERNMENT'S plan for demobilising the armed forces of Kenya is a complex one, and it is important for the people to understand it. The Government's plan is to demobilise the armed forces of Kenya in a way that will ensure that the country is left with a strong and effective police force, and that the people are protected from any potential threats.

THE MARIAN REMOVAL, INCLUSION OF THE WILE STRIP?
 The Editor, "E.A. Standard"
 Sir, I have been reading with interest the various communications on the subject of the Marian removal, and particularly the suggestion that the Wile strip should be included in the removal. I have to confess that I am in doubt as to whether it should be included or not. It is a strip of land which has been left out of the removal, and I think that it is very desirable that it should be included. I think that it is very desirable that it should be included.

SCOTTISH SONGS ARE HARD TO SING

More suitable for the pipes

Standard Edinburgh Correspondent

HERE in Scotland, where we are literally wading through the first half of June, we are beginning to wonder whether the "vocal and the pipe" is certain! In the order of the day, and though Edinburgh is getting a share of the rain, the other parts of Scotland have had to have been under several feet of water and traffic has been diverted.

As the historic day of July 5 approaches, we are all busily signing dotted lines and trying to grasp the difference between National Health Scheme and the rest.

The only thing that has been omitted is the fact that the "vocal and the pipe" is certain! In the order of the day, and though Edinburgh is getting a share of the rain, the other parts of Scotland have had to have been under several feet of water and traffic has been diverted.

But let us avoid getting a bit of a "vocal and the pipe" is certain! In the order of the day, and though Edinburgh is getting a share of the rain, the other parts of Scotland have had to have been under several feet of water and traffic has been diverted.

But let us avoid getting a bit of a "vocal and the pipe" is certain! In the order of the day, and though Edinburgh is getting a share of the rain, the other parts of Scotland have had to have been under several feet of water and traffic has been diverted.

Four bishops speak about Central Africa

"Messiah" London correspondent

AN UNUSUAL feature of the 45th anniversary meeting of the University Missionary Society in London was that the Messian's four bishops - the Bishops of Zanzibar, Malawi, Rhodesia and Malawi - attended and spoke.

The Bishop of Zanzibar, presiding over the service, said that the Church in Africa was still in its infancy and that the main problem was to get the people to understand the Christian faith.

The Bishop of Malawi, speaking of the mission in the north, said that the work continued to expand. He said that the main problem was to get the people to understand the Christian faith.

**IMPERIAL INSTITUTE REPORTS—
The Empire seeks to
replace raw products
from other countries**

COULD lined straw be utilized for paper making? What are the prospects of the fibre which has been the subject of many questions which the Imperial Institute has dealt with during the course of last year, as revealed by the annual reports.

The general trend in the department for information, the Far Eastern Commission, has been towards the possibility of replacing raw products, which have hitherto been obtained from hard currency countries, by those produced within the Empire.

Consultative Committee will work with such demands as well as the Laboratory and Intelligence sections.

With regard to lined straw, we are likely to see larger quantities of this straw available in the future. The Far Eastern Commission believed that it should be used to some extent, paper-making or printing, and were asked to investigate the possibility of using it for paper-making. The report is being sent to the Ministry of Agriculture for their consideration, the latter being made in paper-lined paper.

Malaya sent in two samples of Manila hemp to the Institute during the year. In order, therefore, to give the Institute a complete view of the quality of this hemp, the Far Eastern Commission is making a survey of the hemp in Malaya.

As Malaya grows all her own supplies of Manila hemp for her own use, and as supplies of the same are available within the Empire, the Far Eastern Commission of the commencement of the year, the Far Eastern Commission, in a resolution by the Director of the Far Eastern Commission, that the survey of the quality of Manila hemp in Malaya should be encouraged.

Goat skins

ONE of the most important matters which came up before the Committee on Hides, Skins and Furriers, at its meeting on the 28th inst., was the possibility of obtaining goat skins in the Empire. The committee, after a long discussion, decided to send a representative to the Far East to investigate the possibility of obtaining goat skins in the Empire.

The committee also discussed the possibility of obtaining goat skins in the Empire. The committee, after a long discussion, decided to send a representative to the Far East to investigate the possibility of obtaining goat skins in the Empire.

Papua

THE Government has had a number of meetings on the subject of Papua. The committee, after a long discussion, decided to send a representative to the Far East to investigate the possibility of obtaining goat skins in the Empire.

The Salaries Report

The first chapter of the report of the Commission on the Civil Services of East Africa is the study of the salaries of the public employees. This is the first of a series of reports which will be published over the next few weeks. The Commission's work is to recommend a system of salaries which is fair, equitable and efficient.

Racial basis

The second chapter of the report of the Commission on the Civil Services of East Africa is the study of the racial basis of the public service. The Commission has found that there is a significant racial imbalance in the public service, with a disproportionate number of Africans in the lower grades and a disproportionate number of Europeans in the higher grades.

'Equal work'

The report goes on to say that the Commission has found that there is a significant racial imbalance in the public service, with a disproportionate number of Africans in the lower grades and a disproportionate number of Europeans in the higher grades. The Commission has recommended that there should be equal pay for equal work, regardless of race.

Under the Standard Clock

The W.A. Office has just signed with the great variations have not of the rate of 10 per cent per year for such completed periods of service to all similar civilian employees, on or after the date of their appointment as a condition of their appointment.

Electricity only

The report goes on to say that the Commission has found that there is a significant racial imbalance in the public service, with a disproportionate number of Africans in the lower grades and a disproportionate number of Europeans in the higher grades.

Travel Association secretary

Minister's speech

The report goes on to say that the Commission has found that there is a significant racial imbalance in the public service, with a disproportionate number of Africans in the lower grades and a disproportionate number of Europeans in the higher grades.

Commissioners assess efficiency of races in the Civil Service

It is an early chapter of their report the Commissioners, who have been examining the problem of the Civil Services of East Africa, set out the factors which brought them to the conclusion that the African staff should have a "significant" increase in civil service salaries, European.

The Commissioners speak of the "discontent" prevailing in the public service of all grades and grades, accentuated by the fact that the African staff in a British and in West Africa, and by comparison, though such comparison should be pushed too far, by the salaries and wages paid by commercial, banking and similar organisations in East Africa. Referring to measures taken to improve the situation, they say that the Government has taken steps to improve the situation, but that the African staff is still being paid less than the European staff.

Set an example

In the Commission's view, the Government must set an example by paying the African staff a salary which is commensurate with their qualifications and experience. The Commission has recommended that the African staff should be paid a salary which is 10 per cent higher than the European staff.

Advancement

The report goes on to say that the Commission has found that there is a significant racial imbalance in the public service, with a disproportionate number of Africans in the lower grades and a disproportionate number of Europeans in the higher grades. The Commission has recommended that there should be equal pay for equal work, regardless of race.

Nyeri and Manyika oppose wages order

Reply is, 'It makes little difference'

Shaded Nyeri Correspondent

OPPOSITION to the idea of a minimum wage order for African labour has been expressed to the townships of Nyeri and Manyika by the delegates of a number of organisations in the Nyeri, Manyika and Kiunga districts at a meeting attended by the Labour Commissioner Mr. E. M. O'Brien, Chief Labour Officer, Colonial Office, and members of the Legislative Council here for Aberlure Mr. Gerald Hopkins.

Major Graham, chairman of the Nyeri Manyika Association, who presided, said that African labour is not being employed in their jobs and setting of satisfactory wages on the farms of the area.

He stated that the introduction of a minimum wage would mean that the Government would have to pay for unemployment and transfer of labour, and that was not the way to go.

You have said...

Addressing the case for the district, Mr. O'Brien said that the Government is not prepared to accept the proposal, but that it is prepared to consider the proposals if they are supported by the Legislative Council.

In Nairobi National Park By the Warden CARACAL IN INDIA USED FOR HUNTING BUT ARE UNTAMABLE HERE

This caracal being long and the days dull, the lion do not look to be heavy cover for shade. I have seen them lying up in the open, but in the shade of a tree they may come on their feet.

Those who do not anticipate that it is far preferable to come across lions in the open than alone than to walk them in the company of many other animals which they are always suspicious and do not trust naturally.

Certain hunters have been shown caracals and their use for hunting in the open. These are the best of the breed, and are used in the open. They are used to hunt in the open, and are used in the open.

COMMISSION SUGGESTS WIPING-OUT ALL EXISTING ALLOWANCES

And consolidation of salaries at new levels

THE REPORT of the Commission on the Civil Service of Kenya, Tanganyika, Uganda and Zanzibar, is principally concerned with revision of salaries and terms of services, as announced by a White Paper containing the proposals of the Commission for the Government of Kenya for the re-organization of the Civil Service of Kenya, Tanganyika, Uganda and Zanzibar for implementing the provisions of the East Africa High Commission (Salaries and Conditions of Service) Order, 1962.

The Commission has recommended that the salaries of the civil service should be consolidated into a single scale, and that allowances should be abolished. It also recommends that the salaries of the civil service should be revised to bring them into line with the salaries of the public sector in Kenya, Tanganyika, Uganda and Zanzibar.

Remembered

The decision of the Commission to recommend a consolidation of salaries and the abolition of allowances is a significant step towards the simplification of the civil service pay structure.

Abolished

Another recommendation is that all allowances should be abolished and their value incorporated into the basic salary scale.

Accepted

The Commission's proposals have been accepted by the Government, and it is expected that the new salary scale will be implemented in the near future.

To be extended

The Commission also recommends that the new salary scale should be extended to cover all employees in the public sector.

Public will get time to 'digest it'

The Government has announced that it will take time to allow the public to digest the implications of the new salary scale.

The sort of chap

The Commission's report is a landmark document in the history of public sector salaries in East Africa.

The Commission's proposals are expected to have a significant impact on the public sector in Kenya, Tanganyika, Uganda and Zanzibar.

GOVERNMENT RECOMMENDS ACCEPTANCE

KENYA Government has accepted the recommendations of the Commission on the Civil Service of Kenya, Tanganyika, Uganda and Zanzibar.

The Government has agreed to implement the Commission's proposals for the re-organization of the civil service and the consolidation of salaries.

The Commission's report is a landmark document in the history of public sector salaries in East Africa.

'Not 100 per cent'

The Commission's proposals are not 100 per cent accepted by the Government, as some allowances will remain.

The Government has accepted the Commission's proposals for the consolidation of salaries and the abolition of most allowances.

The Commission's report is a landmark document in the history of public sector salaries in East Africa.

The Government has agreed to implement the Commission's proposals for the re-organization of the civil service.

ROADS EVOKE SOME STRONG WORDS

CAUSTIC comments on the Government's road programme have been made by some members of the Kenya Legislative Council.

The members of the Council have criticized the Government's road programme for being too slow and inefficient.

The Government has responded to the criticism by stating that it is committed to the improvement of the road network.

Moral obligation

The Government has a moral obligation to improve the road network in Kenya, Tanganyika, Uganda and Zanzibar.

The Government has agreed to implement the Commission's proposals for the re-organization of the civil service.

The Commission's report is a landmark document in the history of public sector salaries in East Africa.

The week's cricket

AFRICA has seen a number of interesting matches in the past week, with Kenya and Uganda leading the way.

The Kenya team has performed well in their recent matches, showing a strong batting lineup.

The Uganda team has also shown improvement in their batting, with several players scoring runs.

NEW DEMAND FROM THE PORTS

THE Management of the Kenya Chamber of Commerce and Industry will propose to the annual meeting of the East African Chamber of Commerce and Industry that the control and management of the East African ports should be transferred to a new authority.

The new authority would be responsible for the management of the ports and harbours in Kenya, Tanganyika, Uganda and Zanzibar.

The plan would also include the appointment of a new manager for the East African ports.

The Kenya Chamber of Commerce and Industry has expressed its support for the proposed new authority.

THRILLERS IN BEST LITERARY STANDARD

A new novel which will challenge anyone who has read the thrillers of Mr. Robert Graves. All the Master's Tools. The book looks from America, where it has already become a best-seller, in addition to being one of the best of the year. The author, though this is his third novel, is a native-born American of the United States.

All the things which have made the thrillers of Mr. Robert Graves a success are here again. The author's style is completely distinctive and he has a command of the English language that is a masterpiece. It is a masterpiece of a book which will challenge anyone who has read the thrillers of Mr. Robert Graves. All the Master's Tools.

Mr. Frank's description is well known to the English reader, though his literary reputation has been growing in the U.K. as a novelist. He has written a number of books which have been translated into many languages. He is a native-born American of the United States.

A few minutes for Relief from PAIN!

There's nothing half-hearted or hesitant about ASPRO! Sufferers are distinguished by the swift dispersal of their pain or discomfort. One moment it is there next it is gone, and a sensation of freedom and well-being comes if by magic. That is the experience of millions of ASPRO users. They know that what ASPRO does to it does that it is free from pain and minor ailments. They know that ASPRO is safe and suitable for use with the most delicate stomachs, and without harm to heart or circulation, without any doping or depressing after-effects. Many send in grateful letters. They want others to know that...

can an antiseptic be pleasant and at the same time a powerful germicide?

The efficiency of a germicide does not depend upon an unpleasant smell, a deep staining colour or a poisonous nature. 'Dettol' is a powerful germicide and yet it is non-poisonous. It is a clean, clear fluid with an agreeable smell, so pleasant to use that very many people add it to their bath.

UGANDA AIMS TO RAISE MORE COTTON

The Uganda Government has announced its intention to produce 100,000 tons of cotton by 1950. It is estimated that the country's cotton output dropped steadily and the reduction was due to the drought and the question, "Why To Government?" and an Uganda grower the type of cotton. Landis says.

Experts explain the drop by increasing weather and the fact that the cotton is produced by Africans in Uganda. The Government has been using the money to raise production with the cotton. The Government has been using the money to raise production with the cotton.
