

NIGERIA HEADING TOWARDS CIVIL WAR

Federal troops mobilised as East secedes

THE Nigerian Government yesterday ordered general mobilisation as the Eastern Region broke away from the newly formed Federal Republic of Nigeria. The prospect of civil war appeared strong in a day of dramatic announcements.

The East's secession came after 18 months of bitter inter-tribal strife and bloodshed and mounting evidence that there appeared to be no room for compromise between the country's two strongest personalities, the head of the Federal Government, Lt.-Col. Gowon, and the Eastern Military Governor, Lt.-Col. Ojukwu.

The secession was announced by Ojukwu in a dramatic dawn broadcast from Enugu, the Eastern capital, and within twenty hours Col. Gowon broadcast a statement rejecting general mobilisation.

At the same time he announced a land and sea blockade on the west coast region, always shipping to keep away from the East's two ports, Port Harcourt and Calabar, and "having appropriate instructions" to the Nigerian Navy.

Col. Gowon was accompanied by Ojukwu in a dramatic dawn broadcast from Enugu, the Eastern capital, and within twenty hours Col. Gowon broadcast a statement rejecting general mobilisation.

Egyptians turn back tanker in Gulf

Egyptian Navy ships fired a warning shot across the bows of a Liberian tanker trying to run the blockade in the Gulf of Aden yesterday and forced it to turn back down the Red Sea. The Cairo newspaper "Al Ahram" said.

At Ahram did not name the Egyptian ship which fired the warning shot but said it was an Egyptian oilrig and not a warship.

The vessel was reported to be the "Libertian" tanker but said it was an Egyptian oilrig and not a warship.

KIRTS OUT

They are not our style at all
says Alderman Mambo

By AMRIK
SINGH

WHAT does Mambo think of the "mini-skirt"? "Disgraceful, cheap, ugly, awful and disrespectful" were some of the descriptions I was given when I asked people in the town for their views.

The mayor, A.M. John Mambo, said "I feel the mini-skirt is a form of prostitution and should be worn by women in a brothel or before a judge. It is not a dress to be worn in a public place."

According to African Socialists, A.M. Mambo said, it was not a respectable or suitable dress. I have noticed very few

people who are wearing only those who have had experience and are very heavy in them. "As far as my opinion is concerned, people are not interested in a mini-skirt. However, they go on changing their mind and perhaps it will be the best dress after this year or so."

"People always say they do not wear mini-skirts, but they are wearing them," said one of the women.

The fact is that in tropical towns we are very free to wear a dress that is not a mini-skirt. I think it is the fashion designers who are the ones who are making the mini-skirt. They are the ones who are making the mini-skirt. They are the ones who are making the mini-skirt.

woman wearing a mini-skirt is considered to be a prostitute. I am not sure if it is true or not, but I do think they would rather be a prostitute than wear a mini-skirt. I think the mini-skirt is a disgraceful and disrespectful dress. I think it is a form of prostitution and should be worn by women in a brothel or before a judge. It is not a dress to be worn in a public place.

New farmer raise star

The Government has announced that it will raise the star rating of new farmers who have been successful in their first year of farming. This is a significant step towards encouraging more people to take up farming as a profession.

The Minister of Agriculture, Mr. Njoroge Muthiga, said that the Government was pleased with the progress made by new farmers in the past year. He said that the Government would now be able to identify and support those who were most successful.

The star rating system was introduced in 1961 and has since been used to evaluate the performance of new farmers. The Government has now decided to raise the star rating of those who have been successful in their first year of farming.

This move is expected to encourage more people to take up farming as a profession and to help them to improve their standards of living. It is also expected to help to increase the production of food and other agricultural products.

Tono pledged to back Government

Mr. Tono has pledged to support the Government in its efforts to improve the economy and to create more jobs for the people. He said that he would be working closely with the Government to identify areas where more investment was needed and to help to attract foreign capital.

Mr. Tono is a prominent businessman and has been successful in a number of different areas. He has a long history of public service and is well-respected in the community.

His pledge to support the Government is seen as a positive sign for the future of the country. It shows that there are people who are committed to the development of Kenya and who are willing to work with the Government to achieve their goals.

Bit Valley

There has been a report of a small plane crash in the Bit Valley area. The plane was carrying several passengers and was on a flight from Nairobi to Kisumu. The crash occurred shortly after take-off and the plane was destroyed.

The passengers were all injured but none of them were seriously hurt. They were rescued by a nearby village and taken to a hospital for treatment.

The cause of the crash is still unknown but it is thought that it may have been due to a problem with the engine or the landing gear. The airline is investigating the accident and will report back to the Civil Aviation Authority.

Anthrax kills three in Elgeyo-Marakwet

A DISTRICT-WIDE campaign has been launched in Elgeyo-Marakwet to inoculate cattle, sheep and goats after the death of three people in Elgeyo who were infected by anthrax.

The Government has announced that it will provide free inoculations for all cattle, sheep and goats in the district. This is a crucial step towards preventing further outbreaks of the disease.

Anthrax is a deadly bacterial infection that can affect both humans and animals. It is often spread through contact with animal carcasses or manure. The disease can cause severe illness and death.

The Government is also providing information to the people about how to protect themselves from anthrax. This includes avoiding contact with animal carcasses and wearing protective clothing when handling animals.

Need for more girls' schools

There is a growing awareness of the need for more girls' schools in Kenya. Many girls are still denied access to education and this is a major barrier to their development.

The Government and the private sector are working together to build more girls' schools and to provide scholarships for girls to attend. This is a positive step towards achieving gender equality in education.

It is important that girls have access to education because it gives them the skills and knowledge they need to succeed in life. It also helps to improve the health and well-being of the community.

There are still many challenges to be overcome but the Government is committed to providing quality education for all Kenyan children.

Non-Christians should be encouraged to join churches

Non-Christians should be encouraged to join churches and to participate in religious activities. This is a key part of the process of social and economic development in Kenya.

Religion plays a central role in many cultures and it can provide a sense of community and purpose. It can also help to promote peace and harmony between different groups of people.

The Government and religious leaders are working together to encourage non-Christians to join churches and to participate in religious activities. This is a positive step towards building a more united and prosperous Kenya.

Nakuru estate agents criticised

Estate agents in Nakuru have been criticised for their handling of a property dispute. The agents were accused of favouring one party over the other and of not acting in the best interests of their clients.

The dispute involved a large estate and the agents were responsible for managing the sale of the property. They were criticised for not providing accurate information to the buyers and for not resolving the dispute in a timely manner.

The Government is now investigating the agents' actions and may take action against them if it finds that they have acted unethically. This is a warning to all estate agents to act with integrity and to always put their clients' interests first.

EDUCATION VITAL - MINISTER

On education, Mr. Njoroge Muthiga said parents in poor areas should be encouraged to send their children to school. He said that education was the key to economic development and that the Government would provide support for parents who could not afford to send their children to school.

Mr. Muthiga said that the Government was committed to providing quality education for all Kenyan children. He said that the Government would be investing more money in education and would be building more schools and training more teachers.

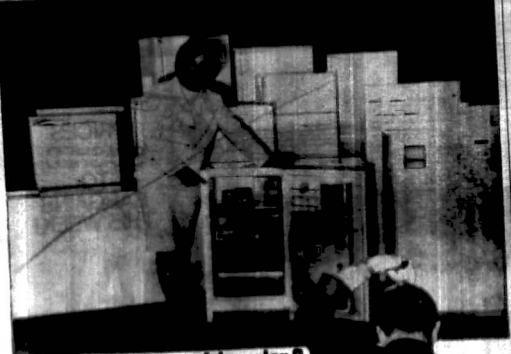

He also said that the Government would be providing scholarships for students who were talented and who needed financial support to attend school. This was a positive sign for the future of education in Kenya.

JET-AGE MONARCH

Ethiopia's ruler puts miles before rest

HAILE SELASSIE the First, Commander-in-Chief of the Tyber or Golden Horde of East Africa, of Kings and Emperor of Ethiopia, has been in the habit of doing so since he was crowned in the past 11 months.

In the past 11 months, he has visited 11 countries and 100 cities. He has been in the habit of doing so since he was crowned in the past 11 months.

Future travels include visits to India and Persia later in the year and by next year to the Holy Land and Thailand.

After that, there will undoubtedly be other journeys for a monarch who never seems to tire and who wears out the average man's average with his insatiable energy.

One reason Emperor Haile Selassie's energy is so remarkable is his desire to establish Ethiopia throughout the world, as well as other national organizations, such as the World Bank, the World Health Organization, the International Labor Office.

Adde Ababa has been the capital of Ethiopia with the headquarters of the United Nations Economic Commission for Africa and the Organization for African Unity both situated in the capital, as well as other international agencies such as the World Bank, the World Health Organization, the International Labor Office.

Adde Ababa has been the capital of Ethiopia with the headquarters of the United Nations Economic Commission for Africa and the Organization for African Unity both situated in the capital, as well as other international agencies such as the World Bank, the World Health Organization, the International Labor Office.

But the main reason for Emperor Haile Selassie's visits to capitalist and Communist countries alike is to obtain financial aid and military aid as well as to establish relations in the development of his own country.

Of the recent visits, perhaps the most important was to the Soviet Union and the United States. In Moscow, which the Emperor visited in March, he received a warm welcome and a promise of aid which was instrumental in a bank collapse.

He also visited the United States in May when the Emperor visited Washington and met with President Dwight D. Eisenhower. The Emperor's visit to the United States resulted in a Canadian loan of \$10 million.

He recently undertook a tour of major Arab countries in the Middle East, including the United Arab Emirates, Jordan, Iraq and Kuwait.

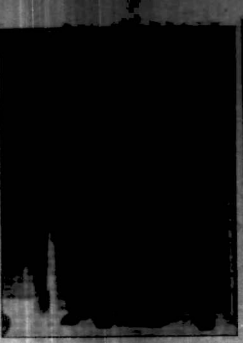

There has been much business and diplomatic activity from these countries about the allied treatment of Somalia in Ethiopia.

Killers for the grim faces growing in Deylon

Israel tells of heroes who risked death

CYPRUS - A heroism which has become a legend in the history of the Jewish people, the story of the "heroes who risked death" in the struggle for the liberation of their homeland, is being told by the Ministry of Education in a book which has just been published in Israel.

The book, "The Heroes Who Risked Death," is a collection of stories of the brave deeds of Jewish youth in the struggle for the liberation of their homeland. The stories are set in the days of the Mandate for Palestine, when the Jewish people were fighting for their right to live in their own land.

The book is a tribute to the heroes who risked their lives for the sake of their people. It is a story of courage and sacrifice, of men and women who were willing to die for the sake of their homeland.

Blind liquor

More than 100 men who carry out the liquor to kill themselves and their families, are being investigated by the authorities to have been threatened in a bid to stop them from their hazardous job in Walk-Free.

They spent their formative years in military camps where they were drilled and trained in the art of the sword and the spear. They were given the best of education and the best of training. They were given the best of weapons and the best of armor.

Now they are being investigated for their role in the "blind liquor" trade. They are being accused of selling liquor to the enemy, of helping the enemy to win the war, and of committing other crimes against the state.

DRUG WORRIES CANADA

Deaths in hospital

Deaths in hospital from drug addiction are on the rise in Canada, according to a report by the Federal Bureau of Investigation.

The report states that the number of deaths from drug addiction in Canada has increased significantly in recent years. It is estimated that over 1000 people die each year from drug addiction in Canada.

The report also notes that the majority of deaths from drug addiction occur in hospitals. This is due to the fact that many people who are addicted to drugs are unable to care for themselves and eventually end up in the hospital.

Power struggle

The power struggle in the Government of Quebec is continuing, with the Premier, Maurice Dupont, and the Opposition, led by the Hon. Jean Lesage, vying for control of the province.

The Premier has announced a series of measures designed to strengthen the Government's position. These measures include the appointment of new cabinet members and the introduction of new legislation.

The Opposition, on the other hand, has been criticizing the Premier's policies and has called for his resignation. They claim that the Premier's policies are leading the province towards economic disaster.

TODAY'S FRENCH CHILDREN PREFER TO FOCUS ON FACT

Fairy tales and fantasy are out, spy stories and realism in with today's French child readers.

The 10 to 15 year olds who are the mainstay of the French children's book market are no longer interested in fairy tales and fantasy. They are interested in realism and in stories that reflect the realities of life.

This change in taste is due to a number of factors. One is the influence of the press and the radio, which have introduced children to the world of news and current events. Another factor is the influence of the school, which has emphasized the importance of facts and of logical reasoning.

As a result, the French children's book market has shifted its focus from fairy tales to realistic fiction. This new type of fiction is often written by authors who are themselves children, and it is often set in the child's own world.

Some of the most popular authors of this new type of fiction are Jules Verne, H.G. Wells, and the authors of the "Three Investigators" series. These authors have created a new type of hero, one who is brave, intelligent, and who is willing to face the challenges of the real world.

Prevent Wrinkles Under The Eyes

The lines round your eyes are not only a sign of aging, they are also a sign of stress. They are caused by the dryness of the skin under the eyes, which is the thinnest and most delicate part of your face.

To prevent wrinkles under the eyes, you should use a special cream that is designed to moisturize and protect the skin in this area. This cream should be applied twice a day, morning and evening.

East Africa has been a hotbed of political activity since the beginning of the year. The British, French, and Belgian colonial powers have been engaged in a struggle for influence in the region. The United Nations has been called upon to mediate the disputes. The situation is complex and volatile.

South Africa has also been a focus of international attention. The apartheid system has been widely condemned. The South African government has been accused of human rights violations. The international community has imposed sanctions on the country.

Kenya has recently held general elections. The results were a surprise to many. The Kenya African National Union (KANU) won a decisive victory. The new government has taken steps to reform the constitution.

Uganda has been a source of concern for the international community. The military government has been accused of repression. There have been reports of human rights abuses.

THE RECORD OF AN OLDMAN BATTERY AND A PEGUEOT 404

Two East African Safaris
 The Tanganyika 1000.
 The R.A.C. Rally - and still going strong....

Used by Shamland and Shelton in the 1964 East African Safari and 1966 East African Safari and then in the R.A.C. Rally - the same battery and car have done it all. The Peugeot 404 is a reliable and powerful car. The Oldman battery is a high-quality battery that provides long-lasting power. Together, they make for a perfect combination for any adventure.

A PRESENT-DAY DAVID AND GOLIATH

Letters to the Editor

It is easily seen from the excellent photograph in your front page (The Middle East, front page) how necessary it is for Egypt to control the Suez Canal. This is not only a matter of national security, but also of economic survival. The canal is a vital link between the Mediterranean and the Red Sea. Without it, Egypt's economy would collapse.

President Nasser's recent visit to the Middle East has been a landmark event. It has shown the world that Egypt is a strong and independent nation. Nasser's leadership has been a source of inspiration for many people in the region. His vision of a united Arab world is a noble goal.

As a result of the recent developments in the Middle East, it is clear that the situation is becoming increasingly complex. The United Nations has been called upon to mediate the disputes. The international community must take action to prevent a full-scale war from breaking out.

Looking again at the photograph in your front page, one can see the power and speed of the Peugeot 404. It is a true marvel of engineering. The car's performance is a testament to the skill and craftsmanship of the Peugeot engineers. It is a car that is built to last and to perform.

The Oldman battery is another example of quality and reliability. It is a battery that has been tested and proven in some of the most demanding environments. It provides a consistent and long-lasting power source. It is a battery that you can rely on for years to come.

DOUBLE BY CITY PLAYERS

DOUBLE BY CITY PLAYERS is a new play by the playwrights of the same name. It is a comedy that explores the lives of two men who are both successful in their careers but struggling in their personal lives. The play is a clever and witty examination of the human condition.

The play is set in a city where the pace of life is fast and the competition is fierce. The two main characters, David and Goliath, are both successful businessmen. They have built their careers from the ground up. However, their personal lives are a mess. They are both divorced and have children who are causing them a great deal of trouble.

The playwrights have done a superb job of creating a world that is both realistic and entertaining. The characters are well-developed and the dialogue is sharp and witty. The play is a must-see for anyone who enjoys a good comedy. It is a play that will make you think and laugh at the same time.

The production is excellent. The set design is beautiful and the costumes are top-notch. The actors are all talented and have done a fantastic job of bringing the characters to life. The play is a true masterpiece of modern theater.

Stately home comedy

THEATRE is a source of entertainment and education. It allows us to see the world from a different perspective. It is a place where we can laugh, cry, and think. It is a place where we can find comfort and inspiration.

The Stately Home comedy is a perfect example of what theatre can do. It is a play that is both funny and thought-provoking. It is a play that will stay with you long after you have left the theatre. It is a play that is a true gem of the modern stage.

ITALY E.A. TALKS OPEN TODAY

Mr. Obote greets Mr. Nyayata in Kampala

President Nyayata arrived in Kampala yesterday for the signing of the three East African Heads of State, who are due today to resolve their treaty on an East African co-operation drawn up by the Philip Commission. President Nyayata flew to Mwanza for an overnight stop on his way to Kampala.

Mr. Obote greeted the Kenya leader who had travelled by road from Eldoret where he spent Saturday night. The meeting of the Heads of State was originally to have been held at the end of April, but was postponed because of President Chama's illness. In addition to commencing the Philip Commission's final report, the leaders are to deal with various matters of the East African Authority. The details of the proposals drawn up by the Philip Commission have been announced, but the commission, which is still working, will be required to recommend ways of maintaining and strengthening the Common Market, and of continuing and possibly expanding the Common Services.

'Depends on statesmanship'

The commission contained three Ministers from each country, with Prof. Kipoti Philip, a Danish economist, as independent chairman. Mr. Arthur Leach, former president of the Uganda Chamber of Commerce and Industry, commenting on the meeting said the outcome would, in the final analysis, depend entirely on the statesmanship of the three leaders.

PRESSURE MAY BE PUT ON FRANCE

It was generally thought, he said, that the Ministers who had been asked to reach agreement on some points and to agree on a joint declaration on the scope of the study would be left to discuss the details at length in the next three weeks. The necessity and advantage of faster East African co-operation had, been emphasized in reports to politicians and business men from all three countries. He said that the French, by the time the treaty was signed, would have had a considerable amount of experience of the Common Market.

He expected the Philip Commission to report to the Heads of State in the next few weeks, but he thought that the three countries would be able to reach a preliminary agreement on the main points of the treaty.

The market "who" will be the main beneficiary of the Common Market. The market will be open to all three countries, but it is expected that the British, Danish and French will be the main beneficiaries. It is expected that the market will be open to all three countries, but it is expected that the British, Danish and French will be the main beneficiaries.

President de Gaulle would not be attending the meeting, but he is expected to send a representative to the signing of the treaty. The signing of the treaty is expected to take place in the next few weeks.

WAR BLAZES EAST

U.A.R. Forces cut off in Gaza Strip

WAR blazed across the Middle East yesterday, with Israel battling against Egypt and its allies for supremacy on land and in the air. Attacks against Cairo and Tel Aviv, and towns and villages of both Israel and Egypt, were reported throughout the day, but an exact picture of the extent were available.

Tanks and troops of both countries were locked in bloody battles from dawn along the 200-mile border, as daylight revealed the scene. Last night a Heuter correspondent from the Gaza Strip reported that Israeli troops had captured the key town of Rafah, Egypt. Other reports said Israeli forces were pushing into Sinai.

Earlier, however, Cairo Radio denied Israeli claims of advances and said the Israeli attacks had failed to penetrate Egyptian Army lines in the Sinai. Israeli leaders urged all military officials in Egypt, the Sudan, East and West, to remain loyal to their governments and to the Arab States since they had not been asked to join the Arab States against the Israelis.

Both the United Arab Republic and Israel accused each other of initiating the fighting. Israel claimed that enemy forces moved towards its borders in strength at dawn, but Cairo maintained that the Israeli Army had launched an unprovoked attack. A captured Israeli pilot was reported to have broadcast that he had orders to attack Egypt at 4 a. m.

Ceasefire in Jerusalem

Within hours of Cairo's announcement of the outbreak of fighting, Syria and Jordan joined the battle by sending their planes against Israel. Syria claimed to have set Hafez oil refinery ablaze. Syria claimed fighting on the Syrian and Jordanian borders were renewed, but clashes broke out. Jerusalem, divided between Israel and Jordan. A ceasefire was later arranged. From the Vatican, it was announced that Pope Pius had appealed for Jerusalem to be declared an open city.

In New York, the United Nations Security Council called for an emergency session to discuss the fighting and attempts were being made to arrange a ceasefire. Arab sources said they wanted the Council to condemn Israel for aggression as a condition for accepting a ceasefire appeal. The Big Powers were believed to be ready to back an immediate council call. America had earlier called for an end to the fighting, and Britain had emphasized that she did not intend to become involved in the conflict. Russia condemned Israel's aggression, and France announced a suspension of arms deliveries to Israel and the Arab countries.

The Secretary of State, Mr. Acheson, called for a ceasefire. The Egyptian Foreign Minister, Mr. Fakhry, called for a ceasefire. The Egyptian Foreign Minister, Mr. Fakhry, called for a ceasefire. The Egyptian Foreign Minister, Mr. Fakhry, called for a ceasefire.

Did you know that a single sheet of a best composite paper will give you more for your money than two sheets of ordinary paper? This is a Kodak Copyer. And you can see why. On ordinary paper, all brown and blue ink are lost. On a Kodak Copyer, they are not.

The Kodak Copyer is a new type of electric typewriter. In fact it's considerably more than a typewriter. It's a machine which produces a perfect copy of any document up to a half a yard long.

The Kodak Copyer can copy on ordinary 14 1/2" x 21" paper, plain, headed and margin paper, drawing and a whole lot more. The copies it produces are top quality. And the Kodak Copyer is the only copier which can produce dry, permanent copies on ordinary paper up to 14" x 17".

It is almost simple to use and needs virtually no servicing. You can read, or buy it. If it's worth anything, you should find out more. Phone 2878 today!

The Defeat of Cockroaches

The cockroach is the most common and one of the most annoying household pests. Its presence is a constant reminder of uncleanliness and a source of embarrassment. The good news is that there is a simple and effective way to get rid of them for good.

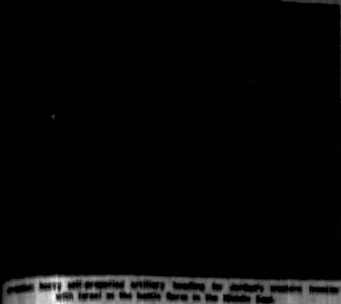

The solution is provided by the new cockroach powder. This powerful insecticide is designed specifically to target cockroaches, and it works by attacking their nervous system. Once ingested, the powder causes the cockroach to die within a few days.

The powder is easy to use and is completely safe for humans and pets. It is available in small packets for use in individual rooms, or in larger quantities for use in the entire house. The powder is also long-lasting, providing protection for several months.

BAD BREATH KILLS FRIENDSHIP
 Bad breath is a common ailment that can be cured by using a special tooth powder.

The Defeat of Cockroaches

The cockroach is the most common and one of the most annoying pests in the home. It is a favorite of the workmen of your refrigerator, stove or hot water tank. The reason for this is that the warmth provided by these appliances is ideal area for breeding and the building of their nests.

Cockroaches also live in water pipes and other places where they can find food and shelter. They are very resilient and can survive for several weeks without food.

One of the most effective ways of getting rid of cockroaches is by using a special powder. This powder is made of natural ingredients and is completely safe for humans and pets.

The powder is applied to the areas where cockroaches are most likely to be found. It kills them on contact and prevents them from breeding.

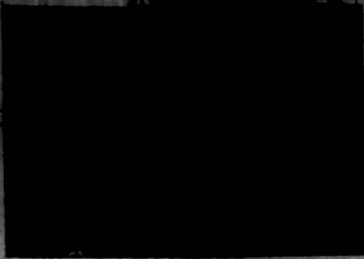

It is noted during the course of the investigation that the cockroaches are most likely to be found in the areas where the refrigerator, stove and hot water tank are located.

An extensive series of experiments have been conducted to determine the most effective way of getting rid of cockroaches.

ISRAELI ARAB DRIVE INTO PALESTINE

Arabs accuse West and cut relations

ARAB States last night broke diplomatic relations with America and Britain, accused their armies and bombed oil shipments to them. They accused the Western nations of intervening in the war with Israel by providing air cover for Israeli raids on their oil bases. Both Britain and the United States emphatically rejected the allegation as "misconstrued" and "wholly false".

Jordanian sector of Jerusalem falls

ISRAELI forces yesterday captured the Jordanian sector of Jerusalem after Jordanian troops were driven temporarily withdrawn following a night of heavy Israeli attacks in and around the city.

After Israel troops and their armor entered the Arab sector of the city, the Jordanian army was driven back to the Jordanian sector of the city. The Jordanian army was driven back to the Jordanian sector of the city.

Egypt also closed the 106-mile Suez Canal to all ships, saying that this had been done to prevent further attacks on the international waterway. Ships of many countries were reported trapped in the Canal.

The Arab action against Britain and America came after the Egyptian Government had announced that heavy fighting was taking place well inside its territory. Israel had claimed earlier that it had dealt massive blows to its oil on all three fronts, to have established a new military ministry of the six new Egypt, Syria and Jordan.

Israel authorities stated that they had taken Jordan in the Golan Heights and in Sinai, and had seized several airports in Jordan. A Beirut correspondent in the Jordanian city of Amman reported that Israeli troops had entered the Jordanian sector, which includes the Holy Sepulchre, after Jordanian troops withdrew. The Holy Sepulchre spokesman in Amman said a message had been received that the Holy Sepulchre was under Israeli control.

E.A. Presidents sign co-operation treaty

Kenya

ARABIA announced the headquarters of a new East African Community under the terms of a treaty signed in Kampala yesterday by the Heads of State of Kenya, Tanzania and Uganda. The treaty, which is due to take effect on December 1 this year, also provides for the decentralisation of the three countries' common services and the strengthening of the Common Market between them.

It has been agreed that the headquarters of the Posts and Telecommunications Administration should move to Kampala and the Harbours Administration to Dar es Salaam. An East African Development Bank is to be set up with headquarters in Kampala. The offices of the Railways Administration, East African Airways and the Court of Appeal will remain in Nairobi.

The treaty is designed to ease the tensions of the Common Market over the past few years. It is the first time since the formation of the East African Community that the three countries have signed a treaty of this nature.

AFRICAN COUNCIL SYSTEM OBSOLETE

The African Council system was obsolete in the eyes of the Government, which had long since decided to set up a new system of administration. The old system was based on the principle of indirect rule, which had become increasingly unpopular among the African people. The new system would be based on the principle of direct rule, which would allow the African people to elect their own representatives to the Council of Ministers. This would be a significant step towards self-government for the African people.

The Government had been aware of the need for a new system of administration for some time. It had been clear that the old system was no longer sustainable, and that a new system was needed to meet the needs of the African people. The new system would be based on the principle of direct rule, which would allow the African people to elect their own representatives to the Council of Ministers. This would be a significant step towards self-government for the African people.

Meeting call to O.A.U.

The Secretary-General of the Organisation of African States, Mr. J. N. N. N., has called a meeting of the Council of Ministers of the Organisation of African States in Addis Ababa. The meeting will be held on the 15th of the month. The Council of Ministers will discuss the work of the Organisation of African States during the past year and will also discuss the work of the Organisation of African States during the next year.

Price Controller looks for evidence from housewife

Price Controller looks for evidence from housewife

Price Controller has been looking for evidence from housewives to help him control prices. He has been asking them to keep records of the prices they pay for their household goods. This is to help him find out where prices are rising and to control them.

No legal right

When a complaint is made, the Controller is sent to the shop. He will look at the prices and see if they are too high. If they are, he will tell the shop to lower them. He has no legal right to force a shop to do this. He can only advise.

The 1974 edition of the East Africa Year Book of Statistics is one of the most complete in the African continent. The main emphasis has been laid on tourism. It is expected that the Minister for Commerce and Industry, Mr. Kibaki, will be visiting Mauritius to represent President Kenyatta at the Kenya National Day which is scheduled to be held on September 12. The picture shows the entrance to the Kenya stand.

A display featuring the Coastal sands of Kenya in which emphasis is laid on big-game fishing. There is a model of a dhow (not 'Hodi') but a similar type of vessel). Examples of Arab silverware from the Fort Jesus Museum and tortoise-shell containing Kenya's tropical fish are also on view.

The stuffed leopard is a popular exhibit and helps to attract people. Behind the leopard are illuminated slides which give a colourful picture. The leopard is flanked by examples of African handicrafts supplied by carvers and the Maendeleo ya Wanawake.

A section of the exhibit illustrating Kenya's development in recent years. A model of the IPB building is shown against a background of photographs of Mombasa and Nairobi and Nairobi Airport. The drawings in the display case are illustrations of modern African art from the Pop-ya-Pop Art Gallery.

A fossilised skeleton of a baboon and other fossils found in Kenya, which have proved to be a most popular exhibit, supplied by the National Museum. Other display cases show shells and coral from Kenya's coast.

VITAL SEASON FOR CRICKET IN KENYA

THE 1967-68 Kenya cricket season has already started as far as tests are concerned and the clock matches have begun to be played. This season could prove to be the most vital in the history of the game in Kenya as well as across a full programme of competitive international cricket when they begin in August 6, 8 and 9.

Betting strength

The Kenyan cricket team in the eyes of British, Indian, and American betters are favourites and have been chosen to beat the Kenyan team in the first test match. However, through the test match, it is believed, it is more the Kenyan team's batting strength than the bowling strength of the Kenyan team that has attracted the bets. The Kenyan team's batting strength is seen to be the key to their success. The Kenyan team's batting strength is seen to be the key to their success.

Last preview

Kenya had to prepare the people who had had to be in the Kenyan team. The Kenyan team had to be in the Kenyan team. The Kenyan team had to be in the Kenyan team.

Coaching syllabus required

Mr. JOHN PORTER, President of the Nairobi Cricket Club Association, said that the Kenya Cricket Association should have a coaching syllabus and a coaching syllabus should be required for all coaches. The Kenya Cricket Association should have a coaching syllabus and a coaching syllabus should be required for all coaches.
