## Road to Nyeri should be better in 1950

It is expected that considerable improvements in the Nyeri Road will be apparent during 1950 but for the present, the road has not yet been given the attention it deserves.

The road was opened by the Government in 1944 and has since then been the subject of considerable attention. The road is now in a state of repair which will enable it to be used for all road traffic, and it is expected that it will be a most important link in the road network of the country.

The road is now in a state of repair which will enable it to be used for all road traffic, and it is expected that it will be a most important link in the road network of the country.

### ‘Tourists’ deterred

The number of tourists who have visited the Nyeri Road since it was opened in 1944 has been very small. This is due to the fact that the road is still in a state of repair which does not meet the requirements of tourists.

The road is now in a state of repair which will enable it to be used for all road traffic, and it is expected that it will be a most important link in the road network of the country.

**with RUBEROID**

The damp that settles on the walls of your house is not only a nuisance but it is also a danger to your health. It is the cause of many ailments, such as rheumatism, asthma, and other respiratory troubles. It is also a breeding ground for bacteria and fungi, which can cause serious diseases. Ruberoid is a waterproofing material that keeps the damp out of your house and keeps the air fresh and healthy. It is the best way to keep your house dry and your family healthy.

# PREMISES BOUGHT FOR ABATTOIR Meat Board's deal with Liebig's

**Members' Parliamentary Correspondent**  
**The Kenya Meat Marketing Board** has bought premises at Athi River for the new central factory. The deal was announced at the Kenya National Farmers' Union Conference at Nakuru by the Member for Agriculture, Mr. J. T. G. Morrison (L.S.), but behind the announcement there is a long history of negotiations. What I required was a site which would be suitable for a large-scale factory involving something in the order of £2,000,000—it was a colossal expenditure. I had to find a site near Nairobi but Mr. Morrison (L.S.) said that the only site to be taken over, a good deal of the machinery and plant would be imported from abroad. I had to find a site near Nairobi and the railway siding. There are also houses on the site. Application for the use of them is being made in the ordinary way. It is probably being extremely useful in giving the new central factory-plant a start, just adequate for the purposes of the Kenya Meat Commission which it established.

Consequently, a new factory will be built on the site, without interfering with existing premises. It will take the best part of two years to complete. It will be ready to start work by the year 1952. It will be the largest abattoir in Kenya and will be the largest in the world.

### MILITARY CANTONMENT AT NANYUKI

#### Housing a permanent garrison

A MILITARY cantonment is to be built at Nanyuki. It has been decided that this township is to be a station for a permanent military garrison of about the same size as present. The cantonment will be a permanent cantonment. It is necessary because it would be both undesirable and unprofitable to keep a temporary garrison of troops. The cantonment, the condition of which leaves much to be desired.

The cost of the cantonment will be about £100,000. It will be a permanent cantonment. It is necessary because it would be both undesirable and unprofitable to keep a temporary garrison of troops. The cantonment, the condition of which leaves much to be desired.

### Objection to site

There is some objection to the site which has been chosen. It is a permanent cantonment. It is necessary because it would be both undesirable and unprofitable to keep a temporary garrison of troops. The cantonment, the condition of which leaves much to be desired.

### Command replies

Most Affairs Command has replied to these returns, pointing out that it was not the intention to put in a permanent home which was expensive.

### Air concession for students

It is now possible for students who are studying in air at reduced rates. The concession has resulted from a decision of the Kenya National Air Transport Association.

# ARMY AND POLICE IN JOINT 'LAW AND ORDER' EXERCISE

MR. A. L. MILLAR'S FINANCE WARNING

Member for Agriculture forecasts cereal marketing organisation

Mr. A. L. Miller, Member for Agriculture, has warned that the Government's current policy on cereal marketing is unsound and that a new organization should be set up to handle the marketing of cereals.

Changed views Mr. Miller said that his views on the subject had changed since he last spoke in the House of Representatives in 1961.

Elementary roads Mr. Miller said that the Government should give priority to the construction of elementary roads in rural areas.

Site storage Mr. Miller said that the Government should encourage farmers to use site storage for their crops.

Use the FARMALL CUBI Mr. Miller said that farmers should use the Farmall Cubi tractor for their farms.

Mr. Miller's advice

Mr. Miller advised farmers to diversify their crops and to improve their marketing methods.

Co-operation Mr. Miller said that farmers should cooperate with each other to improve their marketing.

Financing the Union Mr. Miller said that the Union should be financed by the Government.

## Groundnuts report tells of O.F.C.'s difficulties

Under-estimates of the White Paper proved to be costly

**DIFFICULTIES** and trials, estimates that went wrong because of the problems met with in the field, the effect of drought and lack of man-power, as well as supplies, are all dealt with in the report of the O.F.C. for the year 1948-49. The report is published in the Omani Food Corporation's first annual report.

The report, signed by Messrs. Cooper and M. J. M. M. of the Company as at March 21 of this year, tallied 11,500 tons and that other facilities, including and provision for the year, and the plant and machinery already installed 11,260,772, a grand total of 22,760,772.

The authors in their certificate state: "We are unable to report that in our opinion progress has been made beyond that of the year 1948-49. The report contains a full and complete account of the progress made during the year, and the reasons for the under-estimates of the White Paper."

The report also states that the Omani Food Corporation has been unable to secure the necessary quantities of both land and man-power to carry out the programme. It is an ideal food material, a kind of water in the mouth of the most Guianese or any Amazonian brought of a country which is determined by nature to be sweet. The most important feature of the natural products of British Guiana is undoubtedly the Sultana Peach, or the River Peach, where the river ploughs handling late a fertile soil during a short period of 700 ft. In the industrial sphere the leather of British Guiana can show little to match such natural materials, for it has yet to see the day when the skins are harvested for power and its products, which are rather an excellent in the world, but the control of the river has long been in the hands of the British Guiana industrial development and the state of local markets is steadily obtaining an export.

FIFTY the grandmothers of today! They have no little opportunity to play their parts to perfection. It is not their fault. The postwar period has no time for the starched type of character.

They were a force greater than today's little creations composed of scraps of pretence, or, if you like, of their look and manner with regard to dress. # INSIDE CLARENCE HOUSE

It was in November 1947 that the King designed Clarence House as the official residence of Princess Elizabeth and the Duke of Edinburgh, which was opened in 1952 for its inauguration and rededication and in July 1957 the Princess left the Duke married in the Duke's chapel in St. James's Palace.

The Duke and Duchess have been living in Clarence House since 1952. The Duke is now 34 and the Duchess is 31. They have three children: Prince Charles, Prince Andrew and Prince Edward.

The Duke and Duchess have been living in Clarence House since 1952. The Duke is now 34 and the Duchess is 31. They have three children: Prince Charles, Prince Andrew and Prince Edward.

Clarence House has been built on the site of the old Clarence House, which was destroyed by fire in 1827. The new house was designed by Sir John Burnet and was completed in 1952.

The house is a fine example of modern architecture and is one of the most beautiful houses in London. It is situated in the heart of the city, near the Royal Opera House and the Royal Albert Hall.

The pictures in this article show the interior of Clarence House. The rooms are bright and airy, with large windows and high ceilings. The furniture is modern and comfortable, and the decor is simple and elegant.

The Duke and Duchess have made Clarence House their home and they are very proud of it. They have spent a great deal of time and money on the house and they are sure that it will be a fitting home for their children and grandchildren.

### U.S. NAVY HAS EVERY REASON TO BE WORRIED

The United States Navy is worried. It has every reason to be. The Navy is the largest and most powerful branch of the armed forces, and it is responsible for the defense of the United States. It is also the most expensive branch of the armed forces, and it is the only branch that is not subject to the same budget cuts as the other branches.

The Navy is worried because it is facing a number of serious challenges. One of the most serious is the aging of its fleet. Many of the ships in the fleet are old and worn, and they are not capable of performing the same tasks as the newer ships. This is a major problem because the Navy is responsible for the defense of the United States, and it needs a fleet of modern ships to do this.

The Navy is also worried because it is facing a number of other challenges. One of the most serious is the lack of funds. The Navy has been cut for several years, and this has led to a number of problems. One of the most serious is the lack of funds for research and development. This has led to a number of problems, including the lack of funds for the development of new ships and weapons.

Say 99  
 this Xmas

The CHRISTMAS spirit should be a joyous one, and what a sensational gift to receive on Christmas morning. It is practically the most fun as it is never really used, till in the new calendar it is a 99-value radio. AMB 99 programme lasting 10" or 15" minutes... no wonder it is a sensation.

Gift Tokens

For any amount can be purchased at all our stores and can be exchanged for Records and Musical Instruments with...

# HOLLYWOOD USES DELILAH

## To tempt people back from television

There is much of the material in the Bible, of course, but the picture-makers have chosen to concentrate on the story of the Old Testament, and they have chosen to tell it in a way that will draw the television audience.

Delilah, the woman who betrayed Samson, is the central figure in the picture. She is played by the actress who has been in the picture before, and she is the only woman in the picture who is not a member of the cast.

The picture is a story of a man who is a hero, and who is betrayed by a woman. It is a story of a man who is a hero, and who is betrayed by a woman. It is a story of a man who is a hero, and who is betrayed by a woman.

### Only 19 voted on Land Control Bill issue

WHEN Lady Shaw Member for Umass, addressed a public meeting at Thika yesterday to urge the support of the Land Control Bill, she stated that only 19 members present voted for the Bill and the 11 members who did not vote were absent.

Lady Shaw, in a short address, stated that she had introduced the Bill in modified form, for the first time since its introduction. She suggested that several amendments should be made to the Bill to make it more acceptable to the public. She stated that she would be glad to accept any amendments that would make the Bill more acceptable to the public.

### Watchdog powers

On their behalf it was addressed to the members of the Land Control Commission. The Commission is to be set up to watch over the interests of the public in the land. It will be responsible for the control of the land and for the distribution of the land among the people.

### Three main classes

The Bill was divided into three main classes: the first class is for the land which is to be controlled by the State; the second class is for the land which is to be controlled by the local authorities; and the third class is for the land which is to be controlled by the private individuals.

# WHO WILL 'ROLL TO RIO' AS THE CHAMPIONS?

English and Scots the only aspirants

(by Walter Pilkington)  
The Jules Rimet World Cup football competition being introduced in the last 15 to appear in Brazil next June has excited Scotland's football fans wondering who will be the champion—English or Scots.

It will be going to Rio de Janeiro where the football cup will be held. The English and Scots will be the only aspirants to the title.

It is a matter of course that the English and Scots will be the only aspirants to the title. The English and Scots will be the only aspirants to the title.

**THE O.F.C. in East Africa**

What the public will want to see through the O.F.C. is the weight of authority behind these various recommendations, the lion that the Government will have behind it. It is clear that if they return to their old positions, they will not be punished, they will not be brought into disrepute. They will not be held in contempt.

The Kenya Government is not only an Information and Propaganda Department but it is also a job for it to do a practical thing in the country. It is not the job of the Government of Kenya to be a doer of laws and a doer of justice, but to be a doer of truth and the answers of truth.

What happened to them, their importance, it should still be in detail what happened to them, their kind of deterrent the Government can get for this case of water.

The non-African public would like to know whether the law is applied to all. The Government should not be afraid to take together all the elements in the community and see what can be done to bring them together.

**Operation Wallop** reported today was a Police clearing-up in the area of the O.F.C. The Government is not only a doer of laws and a doer of justice, but to be a doer of truth and the answers of truth.

**GROUNDNUTS**  
 VICTORIA, NOVEMBER 25, 1960.  
 The groundnut growers' association has called for a meeting to discuss the proposals for the new groundnut scheme. The Government has proposed a new scheme for the groundnuts, which will be a major step in the development of the country.

**Operator Wallop**  
 THE O.F.C. in East Africa has been a subject of much discussion. The Government has been accused of being a doer of laws and a doer of justice, but to be a doer of truth and the answers of truth. The Government is not only an Information and Propaganda Department but it is also a job for it to do a practical thing in the country.

**AFFECTED BY DEVALUATION**

**Co.L. report still on the stocks**  
 The Kenya Co.L. report is still on the stocks. The report is a detailed one, covering all aspects of the economy. It is a report that is well thought out and is a report that is well received.

**Some action taken**  
 Some action has been taken by the Government. The Government has been accused of being a doer of laws and a doer of justice, but to be a doer of truth and the answers of truth. The Government is not only an Information and Propaganda Department but it is also a job for it to do a practical thing in the country.

**Thomson's Falls urge close eye on spending**  
 Thomson's Falls has urged a close eye on spending. The Government has been accused of being a doer of laws and a doer of justice, but to be a doer of truth and the answers of truth. The Government is not only an Information and Propaganda Department but it is also a job for it to do a practical thing in the country.

**Original cause**  
 The original cause of the problem is the devaluation of the Kenya Shilling. This has led to a rise in the price of imports and a fall in the price of exports. This has led to a balance of payments deficit and a loss of confidence in the Kenya Shilling.

## Wye College—the British farmers' university

By HILARY PHILLIPS

AGRICULTURAL education in Britain is carried out in those where farms witness hours' practical experience. The second is the agricultural colleges, which provide for the ordinary farm worker, and finally those of the agricultural colleges which provide for the advanced student of agriculture.

One of the best named in the country is Wye College, which has recently been re-named Wye Agricultural College. It is a university of the agricultural sciences and has a long history of providing a high standard of education for its students.

### BAD FOOD DISTRIBUTION LEADS TO STARVATION DEATHS

DEATHS of many infants through starvation, due to "wide" food distribution, in food distribution in reservations of the Eastern Cape Province of South Africa were reported by the Food and Agricultural Organisation, says a Review message from Washington.

### The 'well-fed'

FOOD's annual report declares that in many parts of the world, food is plentiful and the population is well fed. However, in many parts of the world, food is scarce and the population is suffering from starvation.

### Two problems

Two problems are identified in the report: one is the problem of food distribution, and the other is the problem of food production. Both problems are discussed in detail in the report.

## A. I. assailed by church authorities

Several ministers in South Africa are trying to discredit the work of the A.I. by assailing its methods. The A.I. is a scientific organization which has been doing a great deal of good for the people of South Africa.

Many State veterinarians have been told by members of the church that the A.I. is a dangerous organization and should be suppressed. However, the A.I. has a long history of providing a high standard of education for its students.

### 'Pund other means'

In his published text, however, the A.I. has a long history of providing a high standard of education for its students. It is a scientific organization which has been doing a great deal of good for the people of South Africa.

# This new toy has 'brain'

RAY WALTER, of the National Bureau of Standards, has developed a new type of clock which has special features. It is a quartz clock, and its timepiece is a quartz crystal. The crystal is cut in a special way so that it will vibrate at a very precise rate. This makes it possible to make a clock which is accurate to within one part in a billion.

WALTER'S clock is not only accurate, but it is also very small. It is only about the size of a matchbox. This makes it possible to use it in a wide variety of applications. It is especially useful in the field of navigation, where it can be used to determine a ship's position with great accuracy.

The clock is also very reliable. It will continue to run for years without needing any attention. This is because the quartz crystal is a very stable material. It does not expand or contract with changes in temperature, and it is not affected by magnetic fields.

WALTER'S clock is a real advance in timekeeping. It is a true "brain" clock, and it will revolutionize the way we measure time. It is a must-have for anyone who needs precise timekeeping.

## On the record By Dorothy Thompson

### Why Tito is a serious menace to Stalin

I PROHIBITED shortly after the end of the war that an Communism extended itself, and particularly into the Western world, if it would encounter a great danger of being. "What Stalin has to fear," I wrote, "is less bourgeoisie capitalism than Titoism."

Now why was that fairly obvious? At the time Marshall Tito appeared, Stalin and those who were aspiring close on his mind to have communicated.

It seemed obvious because Tito, who had been a leader of the Yugoslav resistance to the German and Italian occupation of Yugoslavia, had become a leader of the Yugoslav Communist Party. He had been a hero of the Yugoslav resistance, and he had become a leader of the Yugoslav Communist Party. He had been a hero of the Yugoslav resistance, and he had become a leader of the Yugoslav Communist Party.

IMPORTANCE OF BRUSSELS AND ATLANTIC TREATIES

THE Treaty of Brussels which brought Western Europe into existence in 1948, and the North Atlantic Treaty of 1949, are of immense importance to the future of the dependent Territories of the British Commonwealth.

It is true that the treaties in question directly affect the continent of western Europe and the continent of North America, while the North Atlantic Treaty affects the continent of North America, the British Commonwealth, and the dependent Territories of the British Commonwealth.

Effects of war

It is these dependent Territories which are not under the horror of actual hostilities or of bombing campaigns the consequences of which would be the most dire.

It is a grimy and intricate subject, but it is a subject which is of the greatest importance to the dependent Territories of the British Commonwealth.

This is no "ganging up" against the United States and the British Commonwealth, but a realistic and practical approach to the problem.

Self-evident

The importance of the North Atlantic Treaty, and of the dependent Territories, is self-evident to all who are concerned with the future of the British Commonwealth.

It is a subject which is of the greatest importance to the dependent Territories of the British Commonwealth.

The only hope

The economic survival of Europe in the face of the present world situation is dependent upon the success of the dependent Territories.

It is a subject which is of the greatest importance to the dependent Territories of the British Commonwealth.

Peace alone

Only the nations and the people of the world are engaged in war and aggression, but the people of the world are not engaged in war and aggression.

It is a subject which is of the greatest importance to the dependent Territories of the British Commonwealth.

This is no "ganging up" against the United States and the British Commonwealth, but a realistic and practical approach to the problem.

Cape Town to Nairobi by road

(Continued from page 17, col. 2)

I had the same opinion expressed by the British High Commissioner in Cape Town and Nairobi, and the British High Commissioner in the West Indies.

It is a subject which is of the greatest importance to the dependent Territories of the British Commonwealth.

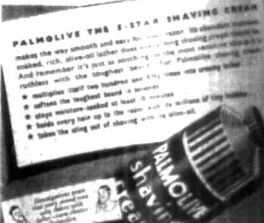

This is no "ganging up" against the United States and the British Commonwealth, but a realistic and practical approach to the problem.

## THE ASIAN VIEW ON THE BUDGET

### Kenya's 'two great enemies' GOVERNMENT URGED TO FIGHT ILLITERACY AND DISEASE

IN VIEWING in two columns the views of the East and West on the Budget, the views of the European and African communities on the Budget are also set forth by Mr. A. B. Patai, London of the Budget.

The views of the Asiatic community on the Budget are also set forth by Mr. A. B. Patai, London of the Budget.

It is not that a growing and increasing population is the cause of the budgetary deficit, but that the Government is not doing enough to fight illiteracy and disease, which are the two great enemies of the Asiatic community.

Two enemies

It is not that a growing and increasing population is the cause of the budgetary deficit, but that the Government is not doing enough to fight illiteracy and disease, which are the two great enemies of the Asiatic community.

Factors to consider

Although all members of the Government are agreed that the budget is a deficit, they are not agreed on the reasons for it.

Indians 'retieved'

The Indian community in Kenya has been relieved to hear that the Government is planning to reduce the budget deficit.

Not wealth-producing

The Government's policy of not producing wealth is a major cause of the budget deficit, according to the Indian community.

Controls

The Government's policy of controls is a major cause of the budget deficit, according to the Indian community.

## BRITAIN TO SAMPLE KENYA PORK

### Food Ministry consents to trials

THE FOOD MINISTRY has consented to trials of Kenya pork, according to a report by Mr. J. H. Patai, London of the Budget.

The trials will be conducted in the United Kingdom and will involve the use of Kenya pork in various dishes.

## Rush would embarrass

It has been the policy of the Government to keep the price of pigmeat low, but a recent report suggests that this policy may be difficult to maintain.

## 'Ignorance'

Lord Lugard and his associates are accused of being ignorant of the needs of the African community in Kenya.

## NATIONALISTS BOMB CENTRE

Members of the Kenya Nationalist Party have bombed the Government's central office in Nairobi.

# ENGLAND SNATCH LATE VICTORY

### Goalkeepers' heroics in failing light

ENGLAND beat Italy, the world football champions, by two goals to nil in a Tottenham match on Wednesday night. The Englishmen were the first to score, but Italy's goalkeeper, Giuseppe Pasinato, was the hero of the evening. He saved three goals from the English forwards.

Italy's goalkeeper, Giuseppe Pasinato, was the hero of the evening. He saved three goals from the English forwards. The match was played in a darkening sky, and the English players were unable to see the ball clearly. Pasinato's saves were crucial in the final minutes of the game.

## Commentary on Parklands junior tennis

Whether you are a tennis player or a spectator, the Parklands Sports Club's experiments in including for the first time in a major tournament its recently completed open youth section is in fact, not impossible.

The Kenya Junior Championships will, in future years, include boys' and girls' doubles in addition to the existing singles and mixed doubles. For Parklands every year, an open youth section is organized in which the same equipment is used as in the main tournament.

It is in fact, not impossible to have the best of both worlds in the tennis ground we use for the main tournament.

Long way to go

There is a long way to go before the Kenyan game will be on a par with the best in the world. The main reason for this is the lack of a proper coaching staff. The only person who has been coaching in Kenya is Mr. J. H. M. Jones, who has been coaching for many years.

Facilities

The main reason for this is the lack of a proper coaching staff. The only person who has been coaching in Kenya is Mr. J. H. M. Jones, who has been coaching for many years.

Organization

## The Cost of Government

**SATURDAY, NOVEMBER 20, 1948**

It is a little more than a year since the first general election in Kenya, and the Government has now had time to consider the cost of government.

The Government has taken the opportunity afforded by the recent election to re-examine its financial policy. The fact that the Government has taken the opportunity to re-examine its financial policy is a sign that it is not content with the status quo. ## 'LUDICROUS NONSENSE'

The Uganda Herald writes under the above heading: "Although the Herald has been repeatedly asked to publish the names of the members of the Uganda Legislative Council, it has refused to do so. This is a most regrettable and unnecessary refusal, and it is to be hoped that the Council will be asked to publish the names of its members." The article criticizes the refusal to publish names as 'ludicrous nonsense'.

## THE LIFE OF THE WHITE HUNTER

Job that appeals to thousands

**THE** White Hunter, who has become a legendary figure associated with the romance and adventure of the jungle, now has a greater following than ever before.

The life of the hunter every year from people in all parts of the world. The White Hunter and what people think of it. The White Hunter, the life of the hunter, the life of the hunter, the life of the hunter.

### Out for Adventure

Most of the letters were from young men—particularly on continents who were doing it all and some had had to leave the country because of the war.

The few openings there were generally made in the mid part of a year. They were not advertised as a regular business but rather as a "special" opportunity.

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

### Protection

"Most of the White Hunters in East Africa are now protected by the White Hunter's Association."

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

### For competitors

**MAI ZETTELING**, London, says that the White Hunter is now a very popular book.

### Air race winner

**MIRIS KILIAN**, a 25-year-old pilot, won the first air race in the world.

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

## Forty-five years ago

**EARL WHITVER**

To look back on the life of a man who was born in 1864 and who died in 1949 is to look back on a life that was full of adventure and excitement.

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

### By EARL WINTERTON, M.P.

Forty-five years ago Lord Winterton was elected M.P. for Harlow.

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

## SCULPTORS WERE IN A QUANDARY

No portraits of Voortrekkers

**THREE** South African sculptors were in a quandary as to whether they should accept commissions to carve portraits of the Voortrekkers.

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

"I had been in the White Hunter for some time and I had heard that you were looking for a small staff to do the job. I had heard that you were looking for a small staff to do the job."

WINTERTON, M.P. Fifty-five years ago Lord Winterton was elected M.P. for Horsham.

Back to the future... The writer discusses the possibility of time travel and the challenges it would pose.

Geo. Blowers advertisement for window frames. Includes a table of window sizes and prices, and a list of products like 'STANDARD JOINERY' and 'ALUMINIUM WINDOW FRAMES'.

SCULPTORS WERE IN A QUANDRY No portraits of Voortrekkers

THREE South African sculptors were in a quandary when it came to creating a portrait of a Voortrekker leader. The article discusses the challenges they faced in capturing the essence of these historical figures.

One 'unknown' The names of the two men are mentioned in the list of names of the Voortrekkers.

Likeness of grandsons Perhaps the likeness of Andrew Pretorius, brother of the Battle of Blood hero, would be a fitting likeness of the Voortrekker leader.

The writer discusses the importance of preserving the legacy of the Voortrekkers and the role of art in this process. It mentions the work of sculptors and the challenges they face.
