## BRITAIN OFFERS £3,000,000 TO KENYA Higher revenue need stressed by Mr. Vasey

Financial aid totalling £3,000,000 will be offered to Kenya by the British Government for the year 1957-58, subject to the approval of Parliament. The aid is to be in the form of a grant and half a loan free of interest. Announcement of the decision was made simultaneously last night by the Colonial Secretary, Mr. Lennox-Boyd, and the Kenya Minister for Finance, Mr. Vasey, who recently returned from London, where he conducted the negotiations.

Mr. Lennox-Boyd told the House that, on present indications, the Emergency expenditure will be nearly £4,500,000 during the next financial year and Kenya would be able to provide £1,500,000, besides maintaining existing services and essential development.

This will be the fourth successive year in which Britain has provided funds to help Kenya. Previously, Mr. Vasey had announced the terms to Legislative Council but its Members have dispersed and African representatives have not yet been elected, he called a Press conference in Nairobi to coincide with the line of the Colonial Secretary's statement.

### £25,000,000 in three years

Mr. Vasey showed that Kenya has taken up £25,000,000 in aid (including a loan of £2,000,000) out of a total of £21,500,000 made available during the past three years. He explained that the obligations were to take all practical steps to increase the Colony's revenue and call on assistance only to the extent that it proved necessary.

For the current financial year, ending in April, Britain offered £3,000,000 but Kenya has drawn only £4,000,000 in grants, leaving the remainder which was to be in the form of a loan, untouched.

Answers to questions in the House of Commons, Mr. Lennox-Boyd said that the Colonial Secretary had been in touch with the Chairman of the Legislative Council, Mr. Lennox-Boyd, and the Kenya Government, Mr. Vasey, on the Kenya's financial prospects for the coming year.

### London talks on Mauritius

Eight negotiators from the Mauritius Government met in London today to discuss the future of the island. The talks will cover the proposed terms of a new constitution for Mauritius, which is to be introduced in 1962. The negotiators are Mr. Lennox-Boyd, Mr. Vasey, and other officials from both sides.

### Guards see a ghost of the Tower

STANDERS in the Tower of London, who are the only men in the world to wear a crown, were seen by a young Guardsman on duty last night. The young man, who is a member of the Grenadier Guards, saw a ghostly figure in the Tower's battlements. He described the figure as a man in a crown, wearing a long, flowing robe, and holding a sword. The figure appeared to be looking towards the young man. The incident occurred in the early hours of the morning, and the young man was the only one to see the figure.

### Warning note on British spending

BANKER URGES CUTS in the British Government's expenditure, which is expected to reach £10,000 million in 1957-58. The Banker, who is a member of the Bank of England, has issued a warning note to the Government, stating that the current level of spending is unsustainable and that cuts must be made. He pointed out that the Government's revenue is falling short of its expenditure, and that this situation is likely to worsen if no action is taken. He urged the Government to consider various measures to reduce its spending, including cuts in social services and defence.

### 'DISASTER' TO JOIN TANGANYIKA

Nyasaland's Federation links REFERRED to suggestions that Nyasaland might leave the Central African Federation to join Tanganyika. The suggestion was made by a member of the Nyasaland Legislative Council, who stated that the current arrangement was a disaster for Nyasaland. He argued that joining Tanganyika would allow Nyasaland to benefit from the economic and political developments taking place in that country. The suggestion has been referred to the Nyasaland Government for consideration.

### Petrol concession

The Government has granted a concession for the supply of petrol to the Kenya Government. The concession is for a period of five years, and it allows the Kenya Government to purchase petrol at a reduced rate. The concession is intended to help the Kenya Government to reduce its expenditure on petrol, which is a major item in its budget. The concession is subject to certain conditions, including that the Kenya Government must maintain a certain level of production and export of goods.

### Sanction Move in U.N.

THE African group in the United Nations agreed on Tuesday to send a draft resolution in the General Assembly to demand that the American Middle East policy be referred to the Security Council for its consideration. The resolution was proposed by the African group, and it was supported by a number of other countries. The resolution states that the American Middle East policy is a violation of the principles of the United Nations Charter, and that it is a threat to the peace and stability of the Middle East. It calls for the American policy to be referred to the Security Council for its consideration.

### France seals borders of Algeria

France is setting up a new defence system along the Algerian frontier, and is sealing the borders of Algeria's frontier with Morocco. The new defence system is intended to protect France from the Algerian revolution, and it consists of a network of fortifications and a network of mobile units. The sealing of the borders is intended to prevent Algerian revolutionaries from crossing the border into Morocco. France has also announced that it will be withdrawing its troops from the Algerian frontier in the near future.

### Report False

THE Government has reported as untrue reports that the United States is planning to send a large number of troops to the Middle East. The reports, which were first made by a number of newspapers, stated that the United States was planning to send 100,000 troops to the Middle East to help the Israelis in their fight against the Arabs. The Government has stated that these reports are completely untrue, and that the United States has no intention of sending any troops to the Middle East.

BRITAIN on Saturday accused the Soviet and Egyptian States of supplying arms to military assistance to the Yemen.

In a memorandum to the United Nations Security Council, the Government said it could not but be perturbed at the "firm evidence" available about this Soviet and Egyptian aid.

Earlier hopes that American efforts to persuade Israel to complete her withdrawal from Egyptian territory would be successful were disappointed on Saturday with the announcement that the U.S. Secretary of State, Mr. Dulles, had instructed the Israeli Ambassador in Washington, Mr. Abba Eban, to discuss Israel's virtual rejection of the American plan.

The United Nations General Assembly debate on the Middle East, which was expected to open today, has been postponed until tomorrow. It was stated that Egypt and the other Arab States are waiting word of the United States attitude before deciding to press for resolutions against Israel.

The Egyptian Government had refused the original deadline of March 10 and received a 25th, deadline would have to be revised, he said.

**CHIA POPERINA** writes that the softness to be worn where the skirt is full, graceful line, draping, and the use of the material.

In previous seasons, the main Italian couturiers have all shown their latest collections in Florence. However, this year some of them showed in Rome first, while the others showed in Florence afterwards.

The most elaborate was seen from the collections I saw in Rome in north and in the season, although not vastly different in conception.

**GRACEFUL LOOK**

Some models are gently fitted but without accentuating any part of the figure, while others are straight-cut and simpler, giving the wearer a full look in the skirt. This graceful look is further enhanced by the use of drapes and tucks. Flowing panels with hark back to the waistline without drawing it in. The bustline without drawing it in. The bustline without drawing it in. The bustline without drawing it in.

Many expensive fabrics, such as tulle, lace and intricate jokers and dromes save the effect of some models. Fuller, which, with draped shoulder lines and wide lapels, gives them a capricious appearance with a shabby look that contrasts with the shoulder front. A new style of making jokers which are fitted at the front but are straight-cut at the back.

**CASCADE LINE**

Simultaneous still favors the high waistline and has called for the new line the "cascade".

This is interpreted in two main ways - by placing the fullness just in front of the bustline, where it is caught to give a soft, falling front in some drapes from the side of the shoulders to the hem. Many of these models are in the new crepe which is ideal for this sort of styling.

FABIANI

CAROIA

CAPUCCI

CATTARINI

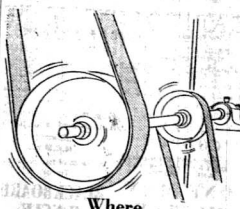

SIMPONETA

One special dress in this cloth takes the form of a straight-cut tunic with a high square neckline over a slender tunic, are only placed at the low down on each side, emphasizing in a tapered and wool. This gives a half-belt just under the shoulder blades, rather than the fullness of the back. A

similar model is in two shades of pink wool material. I particularly like a tailored back of the jacket design, and suitably wide, and the most elegant as the front is trimmed with fringe and emphasized by a wide belt.

A novelty in this collection are the crop skirts which end at the shoulders and dip to a point at the back and have long, flowing panels to the hemline at the front. The line advanced by Cirina for spring, 1957, is soft and simulated. Her line is in various dimensions, tend to attract the eye and slim the figure. Most of these are three-quarter length and wide and are a typical development from the 1950s. Coats are rounded and stand away from the waist at the back.

# ANGLO-GREEK RELATIONS 'IN HAVOC'

## Ambitions criticised by U.K.

CLAIMING that Britain had the right to ask the United Nations for redress against the Government of Greece, the British Member of Parliament, said in the U.K. Political Committee that the Eoka terrorist campaign had organised and financed with Greek help, and that it was encouraged and even guided by Greek propaganda.

The Prime Minister was debating the Cyprus question, on which the House of Commons is calling on the General Assembly to express its wish that the people of Cyprus be given the opportunity to determine their own future by the application of their right of self-determination.

**Internal matter**  
At the same time, Britain tabled a resolution to call on the Government of Greece to take effective measures to prevent support or encouragement from Greece for terrorism in Cyprus.

Outlining Britain's case, Mr. Cresswell said "Cyprus had been because Greece opposed the admission of the island of Cyprus to Greece."

The Greek Government was trying to make out that the United Nations was interfering in an internal matter to secure self-determination of the islanders.

"The question of the self-determination which Britain had recognised for Cyprus in 1946 as a member-State is clearly not a matter which another State can ask the United Nations to intervene in."

### Lameness results

"On the other hand, when one Government claims a right to a claim on the territory of another Government, the United Nations may well have to intervene itself."

"The general Government, particularly by people involving violence and disorder, has been a serious obstacle to international relations."

The Greek Government began to support the Eoka in 1946. Mr. Albert Radu began to invite the United Nations to intervene in Britain and U.S.

The number of unemployed in Britain, South Africa, India and Pakistan, Mr. Cresswell said, was 10,000,000.

He said that the United Nations should be asked to take the necessary steps to ensure that the unemployed in the United States, South Africa, India and Pakistan, Mr. Cresswell said, was 10,000,000.

Government of Great Britain. "We are willing but we shall continue to be firm in our policy of non-recognition of the Eoka Government of Cyprus," he said. "The United Nations should be asked to take the necessary steps to ensure that the unemployed in the United States, South Africa, India and Pakistan, Mr. Cresswell said, was 10,000,000."

**Chiefs' decision**  
Mr. Cresswell said that the Chiefs of Staff had decided that the Eoka Government of Cyprus should not be recognised by the United Kingdom.

Mr. Cresswell said that the Chiefs of Staff had decided that the Eoka Government of Cyprus should not be recognised by the United Kingdom.

**Greek case**  
The Greek Foreign Minister, Mr. Averoff-Dionis, told the committee that the country was not a member-State of the United Nations.

He said Greece supported the right of the Cyprus people to self-determination. "The right, he said, did not depend on the approval of the United Nations."

Mr. Averoff referred to the "unpleasant colonialism of the United States, South Africa, India and Pakistan, Mr. Cresswell said, was 10,000,000."

## MEMBERS OF TWO ROYAL NAVAL VOLUNTEER SQUADRONS

Members of two Royal Naval Volunteer Squadrons are to be buried in the Government's funeral of a dummy pilot at the Naval Air Station at Stranraer.

The men, trapped with a lion tank, was lowered into a grave four feet deep.

Above, the R.N.V. men had received a wooden headstone with the inscription: "Northern Division, R.N.V. Force, buried here by true force and honour."

Below, was the first verse — "There lies the Northern Air Division, Disbanded by their Lord's decision."

"It is far to stem unwise, 'Tis better to economise."

**Busker hats**  
The "funeral" began soon after an inspection of the 180 officers and men of the two squadrons. The officers changed into civilian attire with bowler hats and rolled umbrellas.

A few wore the weather-covered hats, but having failed the formal hats and rolled umbrellas.

As the coffin was lowered, a loudspeaker announced that the officers and men of the two squadrons, who had been killed in action, were now being buried in the Government's funeral of a dummy pilot at the Naval Air Station at Stranraer.

# AROUND THE NORTHERN SECTIONS OF THE 'SAFARI'

## Mountain roads a real test

The previous article describing the continuation of the safari route, left our hypothetical expedition in class "A" at Nairobi after 1,000 miles of phenomenal combination of men and machine laid, to that stage, maintaining a clean sheet moment of even a single penalty hour. Now, after about six hours sleep, shaved, bathed and fed, they are ready for the 1,200 miles of the northern leg of the cruise. It is the fifth hour of a 24-hour day on Sunday, April 21 and as we have seen, the crew have not begun to extend its 100-hour tour in the mountains of the East African highlands.

Beyond the stages of the light show arena, the trees stand firm and the air is a little like the atmosphere of a high-altitude mountain.

### Oh we go again

The starter's flag is up, the second tick off, 1:43.20. In goes the clock and we are away on our modern safari now more bound yet again for Mombasa, the home of those who "Shut, Shut, Shut" their parrots once described Africa.

With the engine warming up, the working temperature, the thermometer, reaching towards 120 degrees, we have an easy 25 mile run down the Esmeralda road to the turn-off of passage control.

### Up to 10,000 feet

An altitude of 10,000 feet is reached in the first 10 miles of the tour. The road is a steep climb, the engine is working hard, and the temperature is rising. The road is a real test for the machine and the driver.

### One unending hairpin

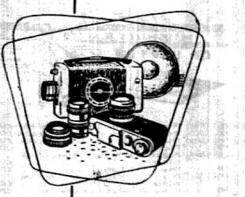

With our engine now having reached its maximum temperature, the road is a continuous hairpin bend. The driver is working hard to keep the car on the road, and the engine is still working hard.

### This is no picnic

The road is a real test for the machine and the driver. The engine is working hard, and the driver is working hard to keep the car on the road. The road is a real test for the machine and the driver.

This is one of the few straight sections on the 55-mile Esmeralda section of the Cameron Highlands. There are actually 17 hairpin bends, an average of more than one per mile, on the road south through the northern highlands of Mount Kenya. This section is being

## EUROPEAN NATIONS AGREE ON COMMON MARKET

### Investment ties with African territories

#### U.K. PLAN NEARER

SIX European nations—France, West Germany, Italy and the Benelux countries—yesterday officially agreed on the creation of a Customs union of 160,000,000 people, and a joint population of market to French and Belgian African territories. They agreed also to set up a European common market to French and Belgian African territories. Everything is in perfect order.

It is proposed to put the plan into operation over a period of 15 to 17 years, during which Customs barriers and other restrictions on free trade would be progressively abolished. At the same time, a Customs tariff committee of the six countries would be set up to coordinate the operation of the agreement. The agreement is a necessary first step to the setting up of a wider free trade area convention proposed by the six countries.

## BRITAIN TO CUT SOCIAL SERVICES

### THE Government announced cuts of £27,000,000 a year in Britain's social services. There were shouts of 'Resign' from the Opposition when the announced cuts in subsidies such as those on school meals and milk for expectant mothers, subscriptions they pay towards the cost of National Health Service which would cost £200,000,000 for the year 1957-58. Total selected civil expenditure would be £1,200,000,000—an increase of £110,000,000 over this year's Estimates.

The House of Commons on Tuesday night approved the Government's policy on Cyprus by 367 votes to 233. The Government majority of 134. The chief point made by the Government in the debate was that the Government is committed to the exiled Archbishop Makarios. For the Government, the exiled Archbishop Makarios is the only person who can be the head of the Government of Cyprus. The institute is to be situated in the district of Masaka, which is one of the most fertile districts in Uganda. The institute will be used for the purpose of training farmers in the use of modern farming methods. It will also be used for the purpose of conducting research into the best methods of farming in the district.

Mr. James Callaghan, opening the debate, said that the Government must not force Cyprus to stay at the bayonet. He said that the Government must not force Cyprus to stay at the bayonet. ## 'Spider's Web' staged at the Studio Theatre

The Studio Players return their tribute to Agatha Christie for their latest production, 'Spider's Web'. Although the play is the author's most impressive or interesting offering, the play is a happy choice for it is well written, compact, gripping and effective. The play is the story of a man who is accused of a crime and the man who is accused of a crime.

## ALARM IN WEST AFRICA UNITY ON GHANA'S STATUS PRESSURE

**Mr. Ben-Gurion seeks further discussion COMMONS QUESTIONS**

**STRONG disapproval** has been expressed in Anglo-French quarters, as well as in the U.S. Congress, at President Eisenhower's broadcast urging the United Nations to exert pressure on Israel to withdraw her troops from Egyptian territory.

Mr. Herbert Morrison, a former Labour Foreign Secretary asked in the House of Commons for an assurance from the Government that Britain was in no way committed to follow the President's policy. The Prime Minister, Mr. Macmillan, replied to comment.

A Conservative Member, Mr. Hugh Fraser, said: "Some of the statements made in America are utterly without proper guarantee in not acceptable to the majority of people in this House."

### Note to Israel Premier

In a speech to the Israel Parliament which was interpreted as an attempt to avert an open breach with the United States, the Prime Minister, Mr. Ben-Gurion, said that he was prepared to make a further attempt to reach an understanding with the U.S. Government on the American plan for withdrawal of troops.

Mr. Ben-Gurion said: "I hope the door will not be closed to further discussion."

There was increased speculation in Washington yesterday that the United States Government would favour only the application of moral sanctions, as a first step, should Israel refuse to comply with the American plan. This was officially confirmed by the White House that President Eisenhower had sent another personal message to Mr. Ben-Gurion, believed to be a short digest of his speech at the American Congress.

### M.P.'S PRESS FOR EARLY DEBATE

The Lord Privy Seal, Mr. Butler, promised Members on both sides of the House of Commons to consider the possibilities of a debate on Britain's reaction to President Eisenhower's broadcast. He gave this assurance after Mr. Patrick Maitland (Conservative) had said there was "very little chance" that the United States Government would be prepared to discuss the matter without consulting the United States State Department.

Mr. Butler said: "It is a very undesirable position that the United States Government is in at present, and it is not for us to consider the matter without consulting the United States State Department. It is a very undesirable position that the United States Government is in at present, and it is not for us to consider the matter without consulting the United States State Department."

### UNLIKELY TO SECURE PEACE

Mr. Butler said: "It is a very undesirable position that the United States Government is in at present, and it is not for us to consider the matter without consulting the United States State Department."
