## EMBARGO PLACED ON KENYA SISAL

### Port congestion the reason

#### IMPORTS-EXPORTS BOOM IS GREATEST EVER KNOWN

Kenya sisal exports to the United Kingdom have been placed under a temporary embargo since the port of Mombasa is unable to handle the volume of cargo being imported and exported. The embargo is expected to last for several weeks, according to officials of the Kenya Sisal Growers' Association. The association has urged the Government to take steps to ease the port congestion. It is reported that the port of Mombasa is currently handling a record volume of cargo, with imports and exports both showing a significant increase. The association has also expressed concern over the impact of the embargo on the sisal industry, which is a major source of income for many small-scale growers in the region.

## GUARDIANS OF PRESS FREEDOM

### United voice from the Commonwealth

The vigilance of Commonwealth newspapers in protecting their freedom to give news is the subject of an annual report of the Commonwealth Press Union, published in London. The report states that the press is under increasing pressure from governments to restrict its freedom of expression. It calls for a united front among the press of all Commonwealth countries to defend its rights. The report also highlights the importance of press freedom in a democratic society and the need for governments to respect the rights of journalists to report on events without fear of censorship or reprisals.

Prime Minister taking the Secretary's salute at the Tooting Collier ceremony in the West India Parade. An observer says: "Neither salute nor the dinner entrance must fail to be impressed by the scene."

## 20 MILES NORTH OF THE BORDER

### United Nations men capture key bases

United Nations men yesterday captured Chinese and Kenyan bases north of the border between Kenya and Uganda. The bases were located in a strategic area and their capture is seen as a significant military development. The United Nations force, which includes troops from several countries, has been operating in the region since the outbreak of hostilities. The capture of these bases is expected to have a major impact on the military situation in the area.

## 'REPUBLIC AT AN OPPORTUNE TIME'

### Aim of Dr. Malan's Government

DR. MALAN'S Government is determined to lead South Africa out of the British Commonwealth and create a wholly independent republic, at the opportune time, the South African Minister for Agriculture, Mr. S. P. L. Le Roux, said on arrival in Melbourne yesterday in the liner Dominion Monarch. He said the Government did not contemplate an immediate revolution, as current world problems made such a move impractical. The Minister emphasized that the Government's aim was to achieve independence at a time when it would be most beneficial for the country. He also mentioned the Government's plans to improve agricultural production and to strengthen the economy.

## No news of two missing men: spy hunt is on

BRITISH Services and French Secret Service men are combing France in the largest Communist spy hunt since the war. The drive is the result of a high-level Government decision. The hunt is focused on identifying and neutralizing potential spies who may be providing sensitive information to the enemy. The search is being conducted in a systematic and thorough manner, with a focus on areas where Communist activity is known to be high.

## 'Not Government'

Mr. De Witt Brown, British Foreign Secretary, said yesterday that the Government was not making an impartial enquiry into the activities of the British Republic, which had been set up in the British Congo. He stated that the Government's primary concern was to maintain stability and order in the region. He also mentioned the Government's efforts to support the legitimate authorities in the area and to ensure that the interests of the local population are protected.

## Appeal for action

The British Government has issued an appeal for action to be taken by the public in order to help ease the port congestion in Mombasa. The appeal is aimed at encouraging individuals and businesses to take steps to reduce the volume of cargo being shipped through the port. The Government is also seeking to identify ways in which the port's capacity can be increased to handle the current volume of traffic.

## Censorship attacked

The Council of the Union has attacked the Government's attempt to censor the press in Kenya. The Council stated that such an action would be a serious violation of the principles of a free press and a democratic society. It called for the Government to respect the rights of the press and to refrain from any attempts to restrict its freedom of expression.

## BRITAIN AND AMERICA DIFFER OVER JAPAN

### Demand for industrial restrictions

TOKYO papers have prominently headlined the disclosure by Mr. Robert Doherty, President Truman's adviser, that differences have arisen between Britain and the United States in their views on industrial restrictions in Japan. The disclosure suggests that the two major powers have differing opinions on how to manage the Japanese economy in the post-war period. The British position appears to favor more stringent restrictions, while the American position is more flexible.

## 'Holiday' Royal tour favoured

Lord Mayor of Liverpool's last visit to the United States is being described as a 'holiday' tour. The Mayor's visit is part of a series of royal tours and is expected to be a more relaxed and enjoyable one. The Mayor will be accompanied by a large delegation and will spend several weeks in the United States, visiting various cities and meeting with officials. The tour is seen as an important diplomatic gesture and a way to strengthen ties between the two countries.

## Thousands search

Myriad thousands of detective forces in Cairo and New South Wales are busy hunting for the whereabouts of a group of men who are believed to be involved in a major international case. The search is being conducted in a coordinated effort between the two countries. The men are believed to have fled the country and are now hiding in various locations. The authorities are using a variety of methods to track them down, including surveillance and intelligence gathering.

## Interest welcomed

ANNE M. I. stated the British Government is pleased to receive the interest of the United States in the activities of the British Republic. She stated that the British Government is committed to maintaining stability and order in the region and to supporting the legitimate authorities. She also mentioned the British Government's efforts to improve the economic situation in the area and to ensure that the interests of the local population are protected.

## New appointment

The Secretary of State has announced the appointment of a new member to the Commonwealth Commission. The new member is expected to bring a wealth of experience and expertise to the Commission. The Commission is responsible for monitoring the progress of the Commonwealth countries and for providing advice and support where necessary. The appointment is seen as a positive step towards strengthening the Commonwealth's effectiveness.

## Oil mission on way to Teheran

VITAL talks on Persia's oil situation are expected to start in Teheran this week between the British Government and the Iranian Government. The talks are part of a series of negotiations aimed at resolving the long-standing dispute over oil rights in Persia. The British Government is seeking to secure a more favorable arrangement for its oil interests, while the Iranian Government is seeking to assert its sovereignty over its own resources. The talks are expected to be a key event in the region's political and economic development.

## Liberal treaty

With a view to strengthening the Japanese post-war position, the Japanese Government has proposed a liberal treaty with the United States. The treaty is intended to ease trade restrictions and to promote economic cooperation between the two countries. The Japanese Government is seeking to improve its economic situation and to integrate its economy with the world economy. The United States is expected to respond positively to the proposal.

## LONDON CONGRESS OF BUSINESSMEN OPENED

PRINCESS ELIZABETH in London yesterday opened the Congress of the Chambers of Commerce of the British Commonwealth and Empire. Over 200 delegates from all parts of the Commonwealth will be present. The Congress is a major event in the Commonwealth's calendar and provides an opportunity for business leaders from different countries to meet and discuss common concerns. The Princess's presence at the opening ceremony is a mark of the Commonwealth's commitment to economic development and cooperation.

## Two characteristics

Princess Elizabeth, in her opening address, stressed two characteristics which she believed were essential for the success of the Commonwealth. She stated that the Commonwealth must be a community of equal partners, where each country has the right to be heard and to contribute to the common good. She also emphasized the importance of mutual respect and understanding between the different cultures and peoples of the Commonwealth.

## French gaining ground in Indo-China

French forces are making significant gains in Indo-China, according to reports from the region. The French military has been successful in recapturing several key areas and in pushing back the forces of the Viet Minh. The gains are seen as a major development in the region's military situation and as a sign of the French military's renewed effectiveness. The reports also mention the French Government's efforts to stabilize the region and to restore order.

## ROLE OF IMPERIAL PREFERENCE

### Trade congress reassured OF GREATEST IMPORTANCE

SAYS SIR HARTLEY SHAWCROSS

SIR HARTLEY SHAWCROSS, President of the Board of Trade, has assured Commonwealth delegates to the 17th Congress of the British Empire that the British Government is regarded as having the greatest importance in increasing Imperial Commonwealth trade to the maximum possible.

Speaking at a luncheon held at the Grosvenor Hotel, Sir Hartley said that Imperial preference has helped to a marked degree to increase Commonwealth trade. In recent years this system has done as good a deal as any other system of trade.

He said that it is to implement the General Agreement on Trade and Tariffs and that has a bearing on some aspects of the system. It is a compulsory white-against-Imperial preference. In 1949 our trade with the Commonwealth accounted for 45 per cent of our imports and 49 per cent of our domestic exports.

# SOUTH AFRICA WINS THE FIRST TEST

### Spin bowlers pave way to 71-run victory

It was a South African team, reduced to ten batsmen through injury was the first Test match in the present series which England and France, Nottingham, yesterday, without the leadership of their captain, Dudley Nourse, who had been forced to withdraw following a recurrence of a thumb injury, a gallant struggle which was won by the deadly accurate bowling of Alan Davidson and Norman Maclean, made short work of the pack of England's batting.

Captain Nourse had given the tourists a great start in their first innings with a century of 100 runs for eight wickets. To reply England had declared their first innings at 411 for seven wickets. South Africa's top order only produced 100 runs but more than made up for the loss of Nourse and in their second innings for 124. England's batting was reduced to only five batsmen and South Africa's bowlers were able to take 10 wickets in the second innings for 124 runs. The match was won by 71 runs.

It was South Africa's last Test win in the series. The tourists were reduced to ten batsmen through injury and the match was won by 71 runs. The match was won by 71 runs.

## NAIROBI STOCK ISSUE - A SIGN OF CONFIDENCE

### City Council thanks those responsible

NAIROBI CITY COUNCIL that week passed two resolutions thanking those who recently helped in securing a successful stock issue. Speaking on the motions which were passed, Councillor J. Somers, Chairman of the Finance Committee, said: "You are all aware that the recent stock issue was successful indeed the Council is to be congratulated on the degree of success which has been achieved in London and Africa."

### Nairobi company directors fined in 'test case'

Five directors of the Nairobi Municipal Corporation were fined for breach of the Companies Act for failing to disclose the names of the directors of the company which they had formed to take over the Corporation's assets.

### Unsettled market

The market was unsettled during the week, with prices for various commodities fluctuating. The price of wheat, for example, rose from 1.10 to 1.15 per bushel, while the price of maize fell from 0.80 to 0.75 per bushel.

SCANDINAVIAN AIRLINES SYSTEM

The Flying Vikings

Norway-Sweden-Denmark: these countries comprise Scandinavia, the ancient home of the Vikings. From their shores these formidable warriors set out to their western goals to explore, by sea and air, beyond the limits of their inland world.

Today the Flying Vikings of Scandinavian Airline System, the amalgamation of Norwegian, Danish and Swedish Airlines, carry passengers and freight to every corner of the globe. New York, Chicago, Los Angeles, Cairo, Tehran, Helsinki and the cities of Western Europe are linked by Flying Vikings using their fleet and regular schedules.

### CREAMERY INCREASES MILK SALES BY 600 PER CENT

#### Sotik members hear review of policy

**MEMBERS OF THE KENYA CO-OPERATIVE CREAMERY BOARD** met to discuss the policy of the Board in increasing the sales of whole milk from 100,000 gallons in 1932 to 1,600,000 gallons in 1934. Mr. G. M. Edye, a member of the Board, was the main speaker at the meeting of the members of the Creamery at Sotik Club a week ago.

Mr. Edye was reviewing the policy of the Creamery since 1930 and stated that the Board did not intend to let the market be flooded with milk. The Board was not prepared to supply the market with milk at a price which would result in a loss to the creamery. It was pointed out that the creamery was not a charity and that it was not prepared to supply the market with milk at a price which would result in a loss to the creamery.

#### Marketing

The Board stated that the milk was required to reach the consumer in the most satisfactory manner, and, therefore to reach the consumer in the most satisfactory manner, and, therefore to reach the consumer in the most satisfactory manner.

The Board was informed by Mr. Edye that the first of the main findings was the fact that in order to reach the consumer in the most satisfactory manner, and, therefore to reach the consumer in the most satisfactory manner.

Mr. Edye had again to stress the fact that the Board was not prepared to supply the market with milk at a price which would result in a loss to the creamery.

At the same time, the Board was informed by Mr. Edye that the first of the main findings was the fact that in order to reach the consumer in the most satisfactory manner, and, therefore to reach the consumer in the most satisfactory manner.

## FINANCIAL NOTES

### United Nations report on Colonial aid

DISCUSSING the obstacles to further expansion of direct foreign investment, the United Nations report on measures for the economic development of underdeveloped countries notes that back by four of arbitrary acts by the Governments of capital-exporting countries.

In the charters proposed for the Organisation for Economic Co-operation and Development, the nations included in that body are urged to take steps to remove the obstacles to the free flow of capital. The Government of the U.S.A. has begun to take steps to remove the obstacles to the free flow of capital. It is hoped that the Government will be able to do so in the near future.

"However well intentioned the Government of underdeveloped countries may be, it cannot expect to attract direct foreign investment unless it removes the obstacles to the free flow of capital," the report states.

A proposal has been made in the United States that the Report-investor nations be required to insure such facilities in return for a similar facility in the United States.

The group also suggests the United States should establish a corporation to insure such facilities in return for a similar facility in the United States.

While the International Bank for Reconstruction and Development has been working on an annual and biennial basis to provide technical assistance to underdeveloped countries, the report states that the United States should be able to do so in the near future.

**Lancashire Test bowlers play their part**  
LANCASHIRE, around Warwickshire, the County Championship leaders, by three wickets in their match which finished at Old Trafford, yesterday. Warwickshire were dismissed in their first innings for 101 and Lancashire went on to pass this total without losing a wicket. In their second innings Warwickshire made 235, leaving Lancs, who made 210 in their first innings with only 17 wickets.

**Springboks fight back to draw**  
England's young Test bowlers, Brian Statham and Roy Threlkeld, yesterday. Statham took the first three Warwickshire wickets for 17 and Threlkeld took two victims with three balls.

### Talking of HAIR...

what is happening to YOURS?

When is hair healthy? The truth is so surprising, unless that many people overlook it, to their cost. Hair is healthy when it is properly nourished. That's why your hair needs a constant supply of the best type of organic substances, carried to the hair root by blood vessels in the scalp. Should the supply of these vital hair foods fail, the hair becomes brittle and breaks—and finally begins to fall out. The chief reason is an unbalanced diet. Exact nourishment of the hair means its natural beauty. For this purpose, Pure Silvikrin is indispensable. Pure Silvikrin contains silicon, magnesium, and all the other essential hair-growing substances—concentrated from which can be managed into the scalp. Pure Silvikrin carries on where nature stops. If you are worried about your hair, it would be wise to start with Silvikrin today.

# JOE LOUIS BACK IN WORLD CLASS

## Lee Savold lasted only six rounds

WHILE spectators in Europe and Africa slept a drama of the ring was being enacted in Madison Square Gardens, New York on Friday evening when the former world heavyweight champion, aging Joe Louis, crashed back into world title class with a knock-out victory over Lee Savold in the sixth round of their scheduled 15-round fight.

Louis thus regained his world title in a magnificent performance. The British Board of Boxing Control, who had formerly reserved the world title to the United States boxers, awarded the title to the victor, Louis, in recognition of his championship status.
