ANARCHY AMONG NATIONS IN THE MIDDLE EAST

Rules of international society flouted

By ALEXANDER CLIFFORD
SOCIETY has broken down because the rules and people are flouted. That what happens when nations ignore the rules of international society. For there is a desperate outlook of international anarchy going on just now—and it has spread beyond the Tripoli Canals. I mean in the Middle East.

NO TANKERS LEFT AT ABADAN

Manager told to quit house plan to erect statue to Dr. MOSSADEQ, 'OIL HERO'

A British tanker at Abadan—whose water it will pump off itself regularly as the oil storage tanks fill—has been ordered to clear back, says an Anglo-Iranian Oil Co. spokesman.

The Persian Ministry of the Interior has approved and authorized the statue. The statue has been planned by a committee headed by the British Consul, who was in charge of the project.

The statue is to be erected in the grounds of the British Consulate. The statue is to be a bronze statue of Dr. Mossadeq, who was the Prime Minister of Iran from 1951 to 1953.

The statue is to be a standing statue of Dr. Mossadeq, who was the Prime Minister of Iran from 1951 to 1953.

CHEAP STONE FOR AFRICAN HOUSING

Tenders for quarrying rights at Thika

To encourage the African to build and own his own house, it is recommended in the Vanyo Report, thousands of tons of stone to be quarried in the Thika district at the lowest possible price.

This scheme—sponsored in the Official Gazette—the first step towards the implementation of the Report.

It is expected that most of the stone will be used in developing the East African housing, estates and other public buildings.

Tenders have been invited for quarrying rights in the Thika district.

The stone is to be used for the construction of houses and other public buildings.

PLANS FOR TRADE TESTING AFRICAN ARTISANS

Labour Commissioner's memorandum

There are a vast number of Africans employed as semi-skilled artisans in the Colonies whose lack of skill and reliability has been a subject of criticism by employers generally and the various Government Departments. The Labour Commissioner, in a memorandum, points out that the present position is not so much based on ability, as upon the correct trend of work on the subject that workers may have received from a former employer. It is proposed that the number of workers employed in this class of person should be restricted to those who are able to perform their work to a satisfactory standard.

The plan has been laid out in the form of a memorandum to the various departments. The plan is to have a system of trade testing which will be carried out by the various departments. The plan is to have a system of trade testing which will be carried out by the various departments. The plan is to have a system of trade testing which will be carried out by the various departments.

Three grades

All the Labour Commissioner's proposals are based on the fact that there are three grades of workers in the Colonies. The first grade is the highest grade, the second grade is the middle grade, and the third grade is the lowest grade. The plan is to have a system of trade testing which will be carried out by the various departments. The plan is to have a system of trade testing which will be carried out by the various departments.

Time factor

The Third Test

EARLY BLOW FOR SOUTH AFRICA

One wicket down without a run scored

SOUTH AFRICA, batting first in the third Test match which started at Old Trafford, Manchester, yesterday, received its early lead. With the fourth ball of the first over Eric Rowan was struck down after the bowler had bowled a perfect delivery. The South Africans now come to bat. The first over was bowled by the English captain, Freddie Brown.

Rowan, who certainly cannot be said to be a slow bowler, bowled a first over which was not a first over, for he bowled a first over which was not a first over.

BOARD WILL ISSUE A DIRECTIVE

On the running of Rehabilitation Fund

VARIOUS suggestions on how to run the £200,000 Rehabilitation Fund should be administered were put forward by delegates to the Production Conference, who approved a resolution regarding the running of the Rehabilitation Fund. The resolution was passed by a majority of 14 to 10, and the conference agreed to refer the matter to the Rehabilitation Fund Board for consideration.

'Not enough'

Mr. S. P. Kargal (L.L.) said that the Rehabilitation Fund Board should be constituted by representatives of the Government, the producers, and the public. He suggested that the board should be a tripartite body, with representatives from each of these groups.

Labour problems

The first draft of the Rehabilitation Fund Bill, which was introduced in the House of Representatives on July 1st, has been discussed by the Labour Party. The party has expressed its support for the bill, but has raised some concerns regarding the funding of the fund.

THE GOVERNOR OF KENYA BELIEVES BACK INTO ANCIENT HISTORY Saxon settlers had the counterpart of our Production Committees

There is no doubt that the best, simplest and most economical system for the regulation of farming which has ever been devised anywhere was that of the Saxon settlers. The Saxon settlers had the counterpart of our Production Committees.

It is generally assumed that the Saxon settlers had a system of land tenure which was based on the principle of the open field. This was not the case. The Saxon settlers had a system of land tenure which was based on the principle of the manor. The manor was a unit of land which was owned by a lord and worked by his tenants. The tenants were bound to the land and to the lord, and they were required to provide him with a certain amount of service.

Sowing dates

The sowing dates for the various crops in Kenya have been determined by the Government. The sowing dates are based on the climate and the soil conditions in each area. It is important for farmers to sow their crops at the correct time to ensure a good harvest.

Decisions on grazing in reserves

The Government has made decisions on grazing in reserves. The decisions are based on the need to protect the reserves and to ensure that the grazing is done in a sustainable manner. The Government has decided that grazing should be allowed in certain areas, but that it should be restricted in other areas.

The best way

The best way to improve the productivity of the reserves is to introduce modern farming techniques. This includes the use of fertilizers, pesticides, and improved breeds of animals. The Government is providing assistance to farmers to help them improve their farming practices.

The difficulties

There are several difficulties which are faced by the Government in its efforts to improve the reserves. These include the lack of funds, the shortage of skilled staff, and the resistance of some farmers to change. The Government is working to overcome these difficulties and to improve the reserves.

IT WILL BE BETTER IN 1952

An assurance on transport problems

The transport problems in Kenya will be better in 1952. The Government has announced that it will be providing more funds for the transport sector. This will allow for the improvement of the roads and the purchase of more vehicles.

A SAFARI IN NORTH NYANZA

3. Institutions and the Future

NORTH NYANZA is potentially a district of great value. The gold mines which attracted European prospectors to Kalenjinia at the height of its bustle and excitement belong to the past. There are a few people here today who can make the old mining town come to life again as they talk about the wealth and banks and people of those stirring days.

Although it is a digression from the real purpose of these articles, may it be right to recall the classic story of the man who was asked to purchase a house in a suburb of London. The man who was asked to purchase a house in a suburb of London. The man who was asked to purchase a house in a suburb of London.

Today the prospectors have gone and the gold mines are closed. The only people who remain are the few who were left behind when the gold mines were closed.

Chay deposits

For those who are interested in the North Nyanza area, there are several things to be noted. The first is the fact that the area is rich in mineral deposits. The second is the fact that the area is rich in mineral deposits.

WRITER IS RENEWING OLD KENYA ACQUAINTANCES

HERE in Nairobi, reviewing the work of a writer who has spent a considerable amount of time in Kenya, one is struck by the fact that he has a deep knowledge of the country and its people. This is evident in his writing, which is both accurate and interesting.

Natural setting

The natural setting of the area is one of great beauty. The landscape is a mix of rolling hills and open plains, with a variety of vegetation and wildlife.

Mountainer

The mountainer's life is one of hardship and adventure. It is a life of constant movement and a deep connection with the land and its people.

ROBERTS describes the effect upon the people of the institutions which pervade their daily life

ROBERTS describes the effect upon the people of the institutions which pervade their daily life. He discusses the impact of colonial institutions on the local population and the challenges they face.

Something missing

There is something missing in the current discourse on African development. It is a lack of a clear vision and a sense of purpose that is needed to move forward.

New hospital

The new hospital in Nairobi is a landmark building. It represents a significant step towards improving the healthcare system in Kenya.

The old Chief

The old chief's role in the community is becoming increasingly obsolete. As modern institutions take root, the traditional leadership structure is being challenged.

Frills are not for Wimbledon

TENNIS fashioners are running wild this year. Faced with the possibility of bare midriffs and bare legs and transparent bodices, the committee of the All-England Tennis Club are wondering what might happen.

They've asked Mrs. Shepherd, British Wimbledon champion, for her views. She says she is 'not at all in favour of the...'

A Trip To Tree Tops

By K. de P. BEATON

DURING my leave I took the opportunity of visiting The Tree, which is situated in the Aberystwyth National Park about ten miles from Nyber-

The Tree is a delightful miniature forest built to sit above the ground in the branches of a giant tree. It is separated and surrounded by a wooden walkway of the walkway of Nyber...

The Story of 100 Years Of World News

WHEN Reuters the great world news agency was founded in 1851, Julius Reuter was only two small offices away from his headquarters at 11 Fleet Street. He used to telephone his managers' calls by telephone. His papers were brought to him by the editors of the newspaper. He was in the habit of being delivered to him by the editors of the newspaper. He used to be in the habit of being delivered to him by the editors of the newspaper.

Two hundred years ago Julius Reuter founded in two small rooms the news agency now known as Reuters. This year—from July 9 of 1951—Reuters' London headquarters staff of over 500 will be joined by news agency heads, newspaper publishers and editors from all over the world in celebrating the centenary of that event. More than 1,000 guests will attend a great centenary banquet on July 11.

The story of the growth of this vast organization is told in this page. Through all the years one factor has remained unchanged—the agency's respect for Truth.

Mr. Christopher S. Chapman, the Great Head of Reuters, had determined the crisis, despite the fact that the British Legion, which had been formed to support the cause of the League of Nations, was not yet fully organized.

Julius Reuter (1816-1884) is shown in the foreground, surrounded by his staff, in a photograph taken during his time at Reuters.

World-wide network

REUTERS the staff of offices all over the world. It has a network of correspondents in all the leading cities of the world. It has a network of correspondents in all the leading cities of the world. It has a network of correspondents in all the leading cities of the world.

Reuter bought the exclusive news of the London railway strike for one hour from the time when the strike broke out at 10.30 on July 2, 1892. He was the only news agency to do this.

THREE FACTORS LEAD TO DECLINE IN STERLING AREA'S DOLLAR SURPLUS

The sterling area's gold and dollar surplus fell from 260 million dollars in the first quarter of this year to 84 million in the second, Mr. Hugh Cuddeford, Chief of the Treasury, has announced. In the same period the gold and dollar reserves fell by 176 million dollars to 1,297 million dollars on June 30, to end the House of Commons.

The decline in the surplus is due to three factors: a fall in gold receipts, a rise in gold payments, and a fall in dollar receipts. The Treasury says that the fall in gold receipts is due to a fall in the price of gold on the London market, and the rise in gold payments is due to a fall in the price of gold on the New York market. The fall in dollar receipts is due to a fall in the price of dollars on the London market.

The Treasury says that the fall in the surplus is a temporary phenomenon, and that it is due to a fall in the price of gold on the London market and a fall in the price of dollars on the London market. The Treasury says that the fall in the surplus is a temporary phenomenon, and that it is due to a fall in the price of gold on the London market and a fall in the price of dollars on the London market.

Why Dunlopillo is the most Comfortable form of cushioning in the world

It moulds itself to the form and gives firm support to the whole body. It will not sag or gather into uncomfortable protrusions and remains cool in hot weather. Dunlopillo is not only supremely comfortable but it is constant circulation through the millions of air-connected cells so that dust cannot form or collect and so, being resistant to acids and vermin, it is completely hygienic. Dunlopillo is hand-washing and suitable for sprays to travel through the covering material.

Cuticura Ointment

Good taste generally is an unguessed high standard and most men do not purchase with the passing whims of a few months.

In applying the term "Double D" and "Triple D" Cuticura, men who value to remember the D.E.F., where it was found to be superior to other brands in its performance of quality, especially reliability shows. Each and every one of these mutually denotes the standard of substance to be found in "Double D" Cuticura.

"Double D" Cuticura will stand up unscathed in use while you don't let the reputation of your face diminish over wearing them as you please.

Doris Hart's three Wimbledon titles

Singles and women's and mixed doubles

THIS year was Doris Hart's Wimbledon. On Saturday afternoon the 26-year-old American girl, who was once told by a doctor that she would be a cripple for life, won the heart of the crowd in the famous centre court before the very eyes for which the women's doubles title and was on the winning side in the mixed doubles.

Her triumph over Maureen Connolly in the final was a triumph for the whole of tennis. Her triumph over Maureen Connolly in the final was a triumph for the whole of tennis.
